This bill reflects BPU approved changes, effective September 1, 2018, to the Supply and Delivery portions of your electric bill. The change in the Supply portion is the result of an increase in transmission charges if you receive PSE&G's Basic Generation Service (BGS). The change in the Delivery portion is the result of an increase in the Electric Base Rates due to Energy Strong investments, as well as the approval of the new Energy Efficiency 2018 Program included in the Green Program Recovery Charge. Due to these changes, a typical residential customer who purchases supply from PSE&G, and uses 750 kilowatt-hours in a summer month and 7,200 kilowatt-hours annually, will see an annual increase of \$6.24 or approximately 0.50%. Tariff information may also be found by visiting pseg.com/tariffs.

Your bill for service is unpaid and past due. Payment of \$1,080.97 must be received by 9/5/2017 or your account may be removed from the PSEG collective billing process. As a result, service on individual accounts may be discontinued. If service is discontinued, a reconnection fee of \$45.00 will be charged for each service that is shut off. Service may not be restored on the same day. Delinquent bills result in a poor PSEG Credit Rating.

Don't Fall Victim To Scams! PSEG alerts business customers to payment scams in its service area. Scammers pretending to be PSEG employees are calling customers and threatening to terminate service if they do not receive immediate payment via a pre-paid credit card.
