

Clean Energy Jobs Program

Impact Snapshot

PROGRAM INCEPTION THROUGH JUNE 2023

Jobs

- Approximately **2,200 hired** in full-time, long-term jobs
- **50+ supportive services for job seekers and employees**
Personal, professional, and workforce readiness services provided by community partner grantees
- **40+ partnerships**

Diversity

- **2022 Energy Equity Award and Best Practices Award**
from Smart Energy Consumer Collaborative
- **2023 Outstanding Achievement in DEI Leadership Award**
from Association of Energy Services Professionals
- **100+ small businesses trained and ready**
to become certified as a Minority, Women, or Veteran-Owned Business Enterprise; of these, **80% are women-owned**
- **5 diversity-focused strategic hiring and recruiting partners**
- **100+ outreach events**
across New Jersey

“The Clean Energy Jobs Program is primed to not only showcase the talent and the skill of New Jersey, but also prove that these talents and skills are found in a workforce that looks like New Jersey—which is, after all, the most diverse American state.

These are the jobs not just of today, but of tomorrow. And they’re jobs that will lead to real careers. They’ll transform not just lives, but also transform our state for the better.”

— Governor Phil Murphy
State of New Jersey

“Working with the community partners and their pool of candidates has helped to cut down the lead time in finding qualified candidates. ... It’s so refreshing to see the attention brought to energy efficiency career development in New Jersey, with a commitment to bringing underrepresented people into our industry and truly giving them a career, not just a job.”

— Taylor Adler, Program Manager II
Franklin Energy

Training

- **24 graduates of the PSE&G-sponsored On-the-Job Training Program**

Two cohorts of candidates completed paid, hands-on, job-specific training in preparation for full-time placements

- **400+ clean energy employees trained and upskilled**

to build long-term careers and a pathway to mid- and senior-level positions

“I liked that the On-the-Job Training Program did focus on diversity. It had a lot of women in its program. I think it’s important that (women customers) see that women are also working for them and doing these jobs. My daughter is so proud that I’m in this business.”

— Arielle Colasanto, hired as Program Coordinator for Moderate-Income Residential Programs at CLEAResult after completing the PSE&G-sponsored On-the-Job Training Program

Explore exciting job opportunities in clean energy.

The **Clean Energy Jobs Program**—a collaboration between PSE&G, the New Jersey Department of Labor and Workforce Development, and local partner organizations—provides training and resources to prepare participants for careers in New Jersey’s fast-growing energy efficiency sector.
