We're Continuing Gas System Upgrades in Your Neighborhood.

This critical work will help keep your gas service safe and reliable. We sincerely thank you for your patience throughout this important gas system upgrade project. Read below to learn more about remaining work in your area.

While the upgraded gas pipes are now in service, there is post-construction work remaining. This includes lawn reseeding, sidewalk repairs and roadway restoration. You may still see our crews working underground in roadway intersections in your neighborhood.

Crews will return to properties that still have pending restoration work. The amount of time between your meter relocation and final restoration at your property varies, depending on factors such as crew availability, weather and time of year.

With regard to the trenches in the roadway, you will receive another notification when we schedule final roadway restoration with permanent paving. PSE&G is committed to providing excellent customer service, and will replace any disturbances in kind.

For more information about this project, as well as specific information about your neighborhood, please visit pseg.com/GasWork. To reach a project representative directly, call our dedicated hotline at 1-833-661-6XXX.

As a general reminder, if you smell gas, leave the area and call 911 or PSE&G at 1-800-880-PSEG (7734).
