2024/2025 Holiday Lighting Outlet Repair Report

			•		
Repair Fax Number: Report must be scanned and emailed to the addresslisted below		Phone #: 800-664-4761 option 3			
Email scanned d	ocument to: HolidayLighting@pseg.com		7		
	<u></u>				
Date:			Contact Name:		
Municipality:			Contact_Cell/Phone #:		
Park Name:			Company/Business Name:		
Pole # (or nearest pole					
with a number)	Street Address / Location	Nearest Cross Streets / Identi	fying Landmark	Comments	

<u>Important:</u> Repairs are done during the daytime. Finding receptacles that are not working can be extremely difficult for our PSE&G crew. The location is of primary importance! Pole numbers are extremely helpful and expedite the repair of the receptacle. If a pole does not have a number, the nearest pole with a number is useful, i.e. "1 pole south of pole #12345" or "located in BranchBrook Park". A piece of non-adhesive yellow caution tape may be utilized to indicate location of defective equipment.

Thank you for helping us to quickly repair your equipment!
