

Application for Electric Unmetered Non-Lighting Service

Before starting this application, please note:

- Equipment manufacturer specifications are required and must be emailed along with each application.
- A separate application is required per device type
- This application is not for fiber optic pole attachments.
- All unmetered services are sized to be 30 amp 120volt 1phase 2wire.
- Unmetered services will be supplied at the discretion of PSE&G ([Electric Tariff: GLP Rate Special Provisions E](#)).
- Once you have completed the application, please email it along with the required documentation to UnmeteredServices@pseg.com. For further inquiries please call 800-664-4761 option 3.
- The timing of PSE&G's provision of service to customer will be determined by PSE&G taking into account the availability of PSE&G's personnel, service requests from other customers, PSE&G's receipt of all items requested by Applicant, the issuance of all necessary permits and approvals, PSE&G's safe access to the premises, weather conditions, and other circumstances or events beyond PSE&G's reasonable control.
- Submission of an application for service does not guarantee that PSE&G will provide the requested service. PSE&G shall make the final service determination in accordance with the requirements, terms and conditions of the Tariffs and will communicate the result of such determination to Applicant.
- Any changes made to load during the application process or after the device is attached to the pole must be communicated to PSE&G.
- Asterisk (*) indicates a required field. Incomplete applications will result in a delay in processing your request.
