

Up to \$1,000 in NJ state rebate savings can only be redeemed on select models of premium heating and cooling systems. \$425 manufacturer rebates may be applied to both heating and cooling equipment provided by Johnson Controls. Visit ductedsystemsincincentives.com to submit your incentive.

WorryFree optional services are subject to credit approval and are only available to customers in PSE&G's service area. Other providers are available. PSE&G will use an authorized licensed plumber to replace your water heater. PSE&G 48-month billing is available on select equipment and some exclusions will apply. Payment terms and payment amounts are subject to change at PSE&G's sole and exclusive discretion. Must be presented at time of install. Cannot be combined with other offers, used for warranty work or used on prior purchases. Same day installation for water heater is Monday through Saturday, if ordered by 1 p.m.; some exclusions will apply based on model installed. Customer will be solely responsible for installation fees. To receive same day installation the replacement unit must be in stock and exchanged for the same equipment. The NJ Board of Public Utilities has not approved the rates offered. NJ COOLAdvantage and WARMAdvantage program rebates are available for qualifying high efficiency heating and cooling equipment. For details, go to njcleanenergy.com. NJ state rebates are subject to change without notice. PSE&G will provide services, such as gas leak investigations and other safety related services, to our gas customers free of charge. If you detect a gas odor, have a gas appliance that will not shut off, or have a carbon monoxide concern, contact your local gas utility. Customers are not required to purchase WorryFree services to continue to receive safe, adequate, and proper utility service.
