Deferred income taxes. These amounts represent deferred income taxes that are recoverable or refundable through customer rates, primarily associated with accelerated depreciation, the equity component of the allowance for funds used during construction, and the effects of income tax rate changes, including those resulting from the TCJA. These amounts are being amortized over the period in which the related deferred income taxes reverse, which is generally based on the expected life of the underlying assets, but may vary for certain deferred income taxes based on the determination of the rate regulators. These amounts include transmission-related regulatory liabilities that require FERC approval separate from the transmission formula rate of $484 million , $137 million , $147 million , $148 million and $147 million for ComEd, BGE, Pepco, DPL and ACE, respectively, as of December 31, 2017 . The December 31, 2017 balances reflect the impact of regulatory liabilities recorded in the fourth quarter, 2017 associated with the income tax rate reductions under the TCJA of $553 million , $174 million , $161 million , $160 million and $152 million for ComEd, BGE, Pepco, DPL and ACE, respectively, as well as the impact of impairment charges discussed above. As of December 31, 2016 the comparative amounts are a regulatory asset of $22 million , $38 million , $31 million , $20 million and $19 million for ComEd, BGE, Pepco, DPL and ACE, respectively. See Note 14 — Income Taxes and the Transmission-Related Income Tax Regulatory Assets section above for additional information.

AMI programs. For ComEd, this amount primarily represents accelerated depreciation costs resulting from the early retirements of non-AMI meters, which will be amortized over an average ten -year period pursuant to the ICC approved AMI Deployment plan. ComEd is earning a return on the regulatory asset.

For PECO, this amount primarily represents accelerated depreciation on PECO's non-AMI meter assets over a 10 -year period ending December 31, 2020. Recovery of smart meter costs are reflected in base rates effective January 1, 2016.

For BGE, this amount represents AMI costs associated with the installation of smart meters and the early retirement of legacy meters. The incremental costs associated with the installation, along with depreciation, amortization, and an appropriate return, had been building in a regulatory asset since the MDPSC approved the comprehensive smart grid initiative for BGE in August 2010 through approval of the program in BGE's rate order issued June 2016. As of December 31, 2017 , the balance of BGE's regulatory asset was $214 million , which consists of three major components, including $129 million of unamortized incremental deployment costs of the AMI program, $53 million of unamortized costs of the non-AMI meters replaced under the program, and $32 million related to post-test year incremental program deployment costs incurred prior to approval became effective June 2016. As of December 31, 2016 , the balance of BGE's regulatory asset was $230 million , which consists of three major components, including $144 million of unamortized incremental deployment costs of the AMI program, $54 million of unamortized costs of the non-AMI meters replaced under the program, and $32 million related to post-test year incremental program deployment costs incurred prior to approval became effective June 2016. The balances above reflect the impact of the cost allowances and adjustments in BGE's 2015 electric and natural gas distribution rate case. The incremental deployment costs for the AMI program and the non-AMI meter components of the regulatory asset are being amortized and recovered through rates over a 10-year period, which began in June 2016, while the post-test year incremental program deployment costs have not yet been approved for recovery by the MDPSC. A return on the regulatory asset is currently included in rates, except for the portion representing the unamortized cost of the retired non-AMI meters and the portion related to post-test year incremental program deployment costs.

For PHI, this amount represents AMI costs associated with the installation of smart meters and the early retirement of legacy meters throughout the service territories for Pepco and DPL. An AMI program has not been approved by the NJBPU for ACE in New Jersey. Pepco has received approval for recovery of deferred AMI program costs from the DCPSC and the MDPSC in its District of Columbia and Maryland service territories. Pepco does earn a return on the AMI deployment costs, but not on the early retirement of legacy meters. DPL has received approval for recovery of deferred AMI program costs from the DPSC and the MDPSC in its Delaware and Maryland service territories. DPL earns a return on the AMI deployment costs, but not on the early retirement of legacy meters.

Electric Distribution Formula Rate. These amounts represent under recoveries related to electric distribution services costs recoverable through ComEd's performance based formula rate. Under (over) recoveries for the annual reconciliations are recoverable (refundable) over a one-year period and costs for certain one-time events, such as large storms, are recoverable over a five-year period. ComEd earns and pays a return on under and over-recovered costs, respectively. As of December 31, 2017 , the regulatory asset was comprised of $186 million for the 2016 and 2017 annual reconciliations and $58 million related to significant one-time events. As of December 31, 2016 , the regulatory asset of $188 million was comprised of $134 million for the 2015 and 2016 annual reconciliations and $54 million related to significant one-time events.

Energy efficiency costs. These amounts represent deferred energy efficiency costs beginning June 1, 2017 that will be recovered through ComEd's energy efficiency formula rate tariff over the weighted average useful life of the related energy efficiency measures. The balance also includes the reconciliation of the difference of the revenue requirement in effect for the prior year and the revenue

requirement based on actual prior year costs. ComEd earns a return on the energy efficiency regulatory asset.

Debt costs. The Utility Registrants' debt costs are used in the determination of their weighted average cost of capital, which is applied to rate base for rate-making purposes. Consistent with the treatment for ratemaking purposes, ComEd's, PECO's, and Pepco's recoverable losses or refundable gains on reacquired long-term debt are deferred and amortized to interest expense over the life of the new debt issued to finance the debt redemption or over the life of the original debt issuance if the debt is not refinanced, while BGE's, DPL's, and ACE's recoverable losses or refundable gains on reacquired long-term debt are deferred and amortized to interest expense over the life of the original debt issuance even if the debt was refinanced. The regulatory asset for Pepco, DPL and ACE as of March 23, 2016 was eliminated at Exelon and PHI as part of acquisition accounting.

Fair value of long-term debt. These amounts represent the unamortized regulatory assets recorded at Exelon for the difference between the carrying value and fair value of the long-term debt of BGE as of the Constellation merger date based on the MDPSC practice to allow BGE to recover its debt costs through rates and at Exelon and PHI for the difference between carrying value and fair value of long-term debt of Pepco, DPL and ACE as of the PHI Merger date. Exelon is amortizing the regulatory asset and the associated fair value over the life of the underlying debt.

Fair value of PHI's unamortized energy contracts. These amounts represent the regulatory asset recorded at Exelon and PHI offsetting the fair value adjustments related to Pepco's, DPL's and ACE's electricity and natural gas energy supply contracts recorded at PHI as of the PHI Merger date. Pepco, DPL and ACE are allowed full recovery of the costs of these contracts through their respective rate making processes.

Asset retirement obligations. These costs represent future legally required removal costs associated with existing asset retirement obligations. PECO will begin to earn a return on, and a recovery of, these costs once the removal activities have been performed. ComEd and BGE will recover these costs through future depreciation rates and will earn a return on these costs once the removal activities have been performed. The recovery period will be over the expected life of the related assets. See Note 15 — Asset Retirement Obligations for additional information.

MGP remediation costs . ComEd is allowed recovery of these costs under ICC approved rates. For PECO, these costs are recoverable through rates as affirmed in the 2010 approved natural gas distribution rate case settlement. The period of recovery for both ComEd and PECO will depend on the timing of the actual expenditures, currently estimated to be completed in 2022 for both ComEd and PECO. While BGE does not have a rider for MGP clean-up costs, BGE has historically received recovery of actual clean-up costs on a site-specific basis in distribution rates. For BGE, $5 million of clean-up costs incurred during the period from July 2000 through November 2005 and an additional $1 million from December 2005 through November 2010 are recoverable through rates in accordance with MDPSC orders. BGE is earning a return on this regulatory asset and these costs are being amortized over 10-year periods that began in January 2006 and December 2010, respectively. The recovery period for the 10-year period that began January 2006 was extended for an additional 24 months, in accordance with the MDPSC approved 2014 electric and natural gas distribution rate case order. See Note 23 — Commitments and Contingencies for additional information.

Under-recovered uncollectible accounts. These amounts represent the difference between ComEd's annual uncollectible accounts expense and revenues collected in rates through an ICC-approved rider. The difference between net uncollectible account charge-offs and revenues collected through the rider each calendar year is recovered or refunded over a twelve-month period beginning in June of the following calendar year.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Renewable energy. In December 2010, ComEd entered into several 20 -year floating-to-fixed energy swap contracts with unaffiliated suppliers for the procurement of long-term renewable energy and associated RECs through 2032 in order to meet a portion of its obligations under the Illinois RPS. Delivery under the contracts began in June 2012. Since the swap contracts were deemed prudent by the Illinois Settlement Legislation, ensuring ComEd of full recovery in rates, the changes in fair value each period as well as an offsetting regulatory asset or liability are recorded by ComEd. ComEd does not earn (pay) a return on the regulatory asset (liability). Recovery of these costs will continue through 2032. The basis for the mark-to-market derivative asset or liability position is based on the difference between ComEd's cost to purchase energy at the market price and the contracted price.

Beginning with the 2012 compliance year the DPSC required DPL to be responsible for the RPS compliance obligation with respect to energy delivered to all end use customers, including RES supplied customers. This obligation has been met by DPL entering into long term contract(s) for the procurement of renewable energy. This energy is then sold into the market at current energy prices to offset the net cost to customers. An RPS surcharge is billed to customers to ensure recovery of the procurement costs with any variance recorded as an asset or liability. The balance at year end represents an under-recovery of the net procurement costs. These costs will be recovered over the life of the contracts, which range from 15 to 20 years.

In 2008 the NJBPU directed ACE to file a program for the purchase of Solar Renewable Energy Credits (SREC's). In 2009 the NJBPU approved ACE's SREC based contracting program and authorized ACE to enter into long-term contracts to purchase SREC's generated by solar generation projects. ACE is required to auction the purchased SREC's under Purchase and Sale Agreements (PSA) with the solar project developers. In 2015 the NJBPU authorized a "phase II" SREC program. A Regional Greenhouse Gas Initiative (RGGI) surcharge rider ensures recovery of the SREC costs. The balance at year end represents an under-recovery of the SREC costs. These costs will be recovered over the life of the contracts, which range from 15 to 20 years.

Energy and transmission programs. These amounts represent under (over) recoveries related to energy and transmission costs recoverable (refundable) under ComEd's ICC and/or FERC-approved rates. Under (over) recoveries are recoverable (refundable) over a one-year period or less. ComEd earns a return or interest on under-recovered costs and pays interest on over-recovered costs to customers. As of December 31, 2017 , ComEd's regulatory asset of $6 million represents transmission costs recoverable through its FERC approved formula rate. As of December 31, 2017 , ComEd's regulatory liability of $47 million included $14 million related to over-recovered energy costs and $33 million associated with revenues received for renewable energy requirements. As of December 31, 2016 , ComEd's regulatory asset of $23 million included $15 million associated with transmission costs recoverable through its FERC-approved formula rate tariff and $8 million of Constellation merger and integration costs to be recovered upon FERC approval. As of December 31, 2016 , ComEd's regulatory liability of $60 million included $30 million related to over-recovered energy costs and $30 million associated with revenues received for renewable energy requirements. See *Transmission Formula Rate* above for further details.

The PECO energy costs represent the electric and gas supply related costs recoverable (refundable) under PECO's GSA and PGC, respectively. PECO earns interest on the under-recovered energy and natural gas costs and pays interest on over-recovered energy and natural gas costs to customers. In addition, the DSP Program costs are presented on a net basis with PECO's GSA under (over)-recovered energy costs. These amounts represent recoverable administrative costs incurred relating to the filing and procurement associated with PECO's PAPUC-approved DSP programs for the procurement of electric supply. The filings and procurements of these DSP Programs are recoverable through the GSA over each respective term. DSP III has a 24 -month term that began June 1, 2015, and DSP IV has a 48-month term that began June 1, 2017. The independent evaluator costs associated with conducting procurements are recoverable over a 12 -month period after the PAPUC approves the results

of the procurements. PECO is not earning a return on these costs. Certain costs included in PECO's original DSP program related to information technology improvements were recovered over a 5 -year period that began January 1, 2011. PECO earns a return on the recovery of information technology costs. The PECO transmission costs represent the electric transmission costs recoverable (refundable) under the TSC under which PECO earns interest on under-recovered costs and pays interest on over-recovered costs to customers. As of December 31, 2017 , PECO's regulatory liability of $60 million included $36 million related to over-recovered costs under the DSP program, $12 million related to over-recovered non-bypassable transmission service charges and $12 million related to the over-recovered natural gas costs under the PGC. As of December 31, 2016 , PECO's regulatory liability of $56 million included $34 million related to over-recovered costs under the DSP program, $10 million related to over-recovered non-bypassable transmission service charges, $8 million related to the over-recovered natural gas costs under the PGC and $4 million related to over-recovered electric transmission costs.

The BGE energy costs represent the electric supply, gas supply, and transmission related costs recoverable (refundable) from (to) customers under BGE's market-based SOS program, MBR program, and FERC approved transmission rates, respectively. BGE earns or pays interest to customers on under-recovered or over-recovered FERC transmission formula-related costs. BGE does not earn or pay interest to customers on under-recovered or over-recovered SOS and MBR costs. The recovery or refund period is a twelve-month period beginning in June of the following calendar year. As of December 31, 2017 , BGE's regulatory asset of $23 million included $7 million of costs associated with transmission costs recoverable through its FERC approved formula rate, $5 million related to under-recovered electric energy costs, $3 million of abandonment costs to be recovered upon FERC approval, and $8 million related to under-recovered natural gas costs. As of December 31, 2016 , BGE's regulatory asset of $38 million included $4 million of costs associated with transmission costs recoverable through its FERC approved formula rate, $28 million related to under-recovered electric energy costs, $3 million of abandonment costs to be recovered upon FERC approval and $3 million related to under-recovered natural gas costs.

The Pepco energy costs represent the electric supply and transmission related costs recoverable (refundable) from (to) customers under Pepco's market-based SOS program and FERC approved transmission rates. Pepco earns or pays interest to customers on under-recovered or over-recovered FERC transmission formula-related costs. Pepco does not earn or pay interest to customers on under- or over-recovered SOS costs. The asset is being amortized and recovered over the life of the associated assets. As of December 31, 2017 , Pepco's regulatory asset of $11 million included $3 million of transmission costs recoverable through its FERC approved formula rate and $8 million of under-recovered electric energy costs. As of December 31, 2017 , Pepco's regulatory liability was zero. As of December 31, 2016 , Pepco's regulatory asset of $6 million related to under-recovered electric energy costs. As of December 31, 2016 , Pepco's regulatory liability of $8 million included $5 million of over-recovered transmission costs and $3 million of over-recovered electric energy costs.

The DPL energy costs represent the electric supply, gas supply, and transmission related costs recoverable (refundable) from (to) customers under DPL's market-based SOS program, GCR and FERC approved transmission rates. DPL earns or pays interest to customers on under-recovered or over-recovered FERC transmission formula-related costs. In Delaware, DPL earns interest on under-recovered costs and pays interest to customers on over-recovered SOS and GCR costs. In Maryland, DPL does not earn or pay interest to customers on under- or over-recovered SOS costs. The asset is being amortized and recovered over the life of the associated assets. As of December 31, 2017 , DPL's regulatory asset of $15 million included $8 million of transmission costs recoverable through its FERC approved formula rate and $7 million of under-recovered electric energy costs. As of December 31, 2017 , DPL's regulatory liability of $1 million related to over-recovered electric energy costs. As of December 31, 2016 , DPL's regulatory asset of $5 million included $1 million of transmission costs recoverable through its FERC approved formula rate and $4 million of under-recovered electric energy

costs. As of December 31, 2016 , DPL's regulatory liability of $5 million included $2 million of over-recovered electric energy costs and $3 million of over-recovered transmission costs.

The ACE energy costs represent the electric supply and transmission related costs recoverable (refundable) from (to) customers under ACE's market-based BGS program and FERC approved transmission rates. ACE earns or pays interest to customers on under-recovered or over-recovered FERC transmission formula-related costs. ACE earns interest on under-recovered and pays interest to customers on over-recovered BGS costs. As of December 31, 2017 , ACE's regulatory asset of $26 million included $11 million of transmission costs recoverable through its FERC approved formula rate and $15 million of under-recovered electric energy costs. As of December 31, 2017 , ACE's regulatory liability of $3 million related to over-recovered electric energy costs. As of December 31, 2016 , ACE's regulatory asset of $17 million included $6 million of transmission costs recoverable through its FERC approved formula rate and $11 million of under-recovered electric energy costs. As of December 31, 2016 , ACE's regulatory liability of $5 million included $4 million of over-recovered transmission costs and $1 million of over-recovered electric energy costs.

Deferred storm costs. In the MDPSC's March 2011 rate order, BGE was authorized to defer $16 million in storm costs incurred in February 2010. BGE earns a return on this regulatory asset and the original recovery period of five years was extended for an additional 25 months, in accordance with the MDPSC 2014 electric and natural gas distribution rate case order. This regulatory asset has now been fully amortized as of December 31, 2017 .

For Pepco, DPL and ACE, amounts represent total incremental storm restoration costs incurred for repair work due to major storm events in 2017, 2016, 2015, 2012 and 2011 recoverable from customers in the Maryland and New Jersey jurisdictions. These incremental storm restoration costs are amortized over a three or five year period dependent on jurisdiction.

Electric generation-related regulatory asset. As a result of the deregulation of electric generation, BGE ceased to meet the requirements for accounting for a regulated business for the previous electric generation portion of its business. As a result, BGE wrote-off its entire individual, generation-related regulatory assets and liabilities and established a single, generation-related regulatory asset to be collected through its regulated rates, which is being amortized on a basis that approximates the pre-existing individual regulatory asset amortization schedules. The portion of this regulatory asset that does not earn a regulated rate of return was $9 million as of December 31, 2016 . This regulatory asset has now been fully amortized as of December 31, 2017 .

Rate stabilization deferral. In June 2006, Senate Bill 1 was enacted in Maryland and imposed a rate stabilization measure that capped rate increases by BGE for residential electric customers at 15% from July 1, 2006, to May 31, 2007. As a result, BGE recorded a regulatory asset on its Consolidated Balance Sheets equal to the difference between the costs to purchase power and the revenues collected from customers, as well as related carrying charges based on short-term interest rates from July 1, 2006 to May 31, 2007. In addition, as required by Senate Bill 1, the MDPSC approved a plan that allowed residential electric customers the option to further defer the transition to market rates from June 1, 2007 to January 1, 2008. During 2007, BGE deferred $306 million of electricity purchased for resale expenses and certain applicable carrying charges, which are calculated using the implied interest rates of the rate stabilization bonds, as a regulatory asset related to the rate stabilization plans. During 2017 and 2016 , BGE recovered $7 million and $81 million , respectively, of electricity purchased for resale expenses and carrying charges related to the rate stabilization plan regulatory asset. BGE began amortizing the regulatory asset associated with the deferral which ended in May 2007 to earnings over a period not to exceed ten years when collection from customers began in June 2007. This regulatory asset has now been fully amortized as of December 31, 2017 .

Energy efficiency and demand response programs. For ComEd, these amounts represent over recoveries related to ComEd's ICC-approved Energy Efficiency and Demand Response Plan under

the energy efficiency rate rider cancelled on June 2, 2017. ComEd expects to refund these over recoveries in future rates. ComEd earns a return on the capital investment incurred under the program, but does not earn or pay a return or interest on under or over recoveries, respectively. For PECO, these amounts represent over recoveries of program costs related to both Phase II and Phase III of its PAPUC-approved EE&C Plan. PECO began recovering the costs of its Phase II and Phase III EE&C Plans through a surcharge in June 2013 and June 2016, respectively, based on projected spending under the programs. Phase II of the program began on June 1, 2013 and expired on May 31, 2016. Phase III of the program began on June 1, 2016 and will expire on May 31, 2021. PECO earns a return on the capital portion of the EE&C Plan. For BGE, these amounts represent under (over) recoveries related to BGE's Smart Energy Savers Program ®, which includes both MDPSC-approved demand response and energy efficiency programs. For the BGE Peak Rewards SM demand response program which began in January 2008, actual marketing and customer bonus costs incurred in the demand response program are being recovered over a 5-year amortization period from the date incurred pursuant to an order by the MDPSC. Fixed assets related to the demand response program are recovered over the life of the equipment. Also included in the demand response program are customer bill credits related to BGE's Smart Energy Rewards program which began in July 2013 and are being recovered through the surcharge. Actual costs incurred in the energy efficiency program are being amortized over a 5-year period with recovery beginning in 2010 pursuant to an order by the MDPSC. BGE earns a rate of return on the capital investments and deferred costs incurred under the program and earns (pays) interest on under (over) collections.

For Pepco, DPL and ACE, amounts represent recoverable costs associated with customer direct load control and energy efficiency and conservation programs in all jurisdictions that are being recovered from customers. These programs are designed to reduce customers' energy consumption. Pepco Maryland and DPL Maryland energy efficiency program costs are recovered over 5 years and the direct load control program costs are recovered over 5 years and 15 years, depending on the type. ACE costs are recovered over 10 years. Pepco, DPL and ACE earn a return on these regulatory assets.

Merger integration costs. These amounts include integration costs to achieve distribution synergies related to the Constellation merger transaction. As a result of the MDPSC's February 2013 rate order, BGE deferred $8 million related to non-severance merger integration costs incurred during 2012 and the first quarter of 2013. Of these costs, $4 million was authorized to be amortized over a 5 -year period that began in March 2013. The recovery of the remaining $4 million was deferred. In the MDPSC's December 2013 rate order, BGE was authorized to recover the remaining $4 million and an additional $4 million of non-severance merger integration costs incurred during 2013. These costs are being amortized over a 5 -year period that began in December 2013. BGE is earning a return on this regulatory asset.

These amounts also include integration costs to achieve distribution synergies related to the PHI acquisition. As of December 31, 2017 and 2016 , BGE's regulatory asset of $6 million and $10 million , respectively, included $4 million and $6 million , respectively, of previously incurred PHI integration costs as authorized by the June 2016 rate case order. As of December 31, 2017 , Pepco's regulatory asset of $20 million represents previously incurred PHI integration costs, including $11 million authorized for recovery in Maryland and $9 million expected to be recovered in the District of Columbia service territory. As of December 31, 2016 , Pepco's regulatory asset of $11 million represents previously incurred PHI integration costs authorized for recovery in Maryland. As of December 31, 2017 , DPL's regulatory asset of $10 million represents previously incurred PHI integration costs, including $4 million authorized for recovery in Maryland, $5 million authorized for recovery in Delaware electric rates, and $1 million expected to be recovered in electric and gas rates in the Maryland and Delaware service territories. As of December 31, 2016 , DPL's regulatory asset of $4 million represents previously incurred PHI integration costs expected to be recovered in the Maryland service territory. As of December 31, 2017 , ACE's regulatory asset of $9 million represents previously incurred PHI integration costs expected to be recovered in the New Jersey service territory. Pepco and DPL are earning a return on the regulatory

assets being recovered in Maryland and these costs are being amortized over five years. DPL is earning a return on the regulatory asset being recovered in Delaware and the cost is being amortized over five years. Amounts deferred for Pepco in the District of Columbia and ACE in New Jersey do not earn a return.

Under (Over)-recovered electric and gas revenue decoupling. For BGE, these amounts represent the electric and gas distribution costs recoverable from or (refundable) to customers under BGE's decoupling mechanisms and are being recovered over the life of the associated assets. As of December 31, 2017 , BGE had a regulatory asset of $10 million related to under-recovered electric revenue decoupling and $4 million related to under-recovered natural gas revenue decoupling. As of December 31, 2016 , BGE had a regulatory asset of $2 million related to under-recovered natural gas revenue decoupling and $1 million related to under-recovered electric revenue decoupling.

For Pepco and DPL, these amounts represent the electric distribution costs recoverable from customers under Pepco's Maryland and District of Columbia decoupling mechanisms and DPL's Maryland decoupling mechanism. Pepco and DPL earn a return on these regulatory assets.

COPCO acquisition adjustment. On July 19, 2007, the MDPSC issued an order which provided for the recovery of a portion of DPL's goodwill. As a result of this order, $41 million in DPL goodwill was transferred to a regulatory asset. In February 2017 the MDPSC ruled that the remaining amortization be extended for an additional three years, and this item is now amortized from August 2007 through February 2020. DPL earns a return on these regulatory assets.

Workers compensation and long-term disability costs. These amounts represent accrued workers' compensation and long-term disability costs for Pepco, which are recoverable from customers when actual claims are paid to employees. The recovery period for these regulatory assets is over the life of the associated assets.

Vacation accrual. These amounts represent accrued vacation costs for PECO, DPL and ACE. PECO, DPL and ACE and the costs are recoverable from customers when actual payments are made to employees or when vacation is taken.

Securitized stranded costs. These amounts represent certain contract termination payments under a contract between ACE and an unaffiliated non-utility generator and costs associated with the regulated operations of ACE's electricity generation business that are no longer recoverable through customer rates (collectively referred to as "stranded costs"). The stranded costs are amortized over the life of Transition Bonds issued by Atlantic City Electric Transition Funding LLC (ACE Funding) to securitize the recoverability of these stranded costs. These bonds mature between 2018 and 2023. A customer surcharge is collected by ACE to fund principal and interest payments on the Transition Bonds. PHI earns a return on these regulatory assets.

CAP arrearage. These amounts represent the guaranteed recovery of PECO's previously incurred bad debt expense associated with the eligible CAP accounts receivable balances under the IPAF Program as provided by the 2015 electric distribution rate case settlement. These costs are amortized as recovery is received through a combination of customer payments over the duration of the five-year payment agreement term and rate recovery, including through future rate cases if necessary.

Removal costs. These amounts represent funds ComEd, BGE, PHI, Pepco, DPL and ACE have received from customers through depreciation rates to cover the future non-legally required cost of removal of property, plant and equipment which reduces rate base for ratemaking purposes. This liability is reduced as costs are incurred. PHI, Pepco, DPL, and ACE have a regulatory asset which represents removal costs incurred in excess of amounts received from customers through depreciation rates recoverable from ratepayers. The recovery period of these regulatory assets is over the life of the associated assets.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

DC PLUG charge . On November 9, 2017, the DCPSC issued an order approving the First Biennial Plan and the application for a financing order. As a result, Pepco's obligation of $187 million will be recovered from customers and therefore, a $187 million regulatory asset was established. Pepco will recover $60 million over a two-year period and the remainder will be recovered based on future biennial plans filed with the DCPSC. In addition, $3 million of previously deferred costs from the first Triennial Plan were approved for recovery from customers over a one year recovery period.

Nuclear decommissioning. These amounts represent estimated future nuclear decommissioning costs for the Regulatory Agreement Units that exceed (regulatory asset) or are less than (regulatory liability) the associated decommissioning trust fund assets. Exelon believes the trust fund assets, including prospective earnings thereon and any future collections from customers, will be sufficient to fund the associated future decommissioning costs at the time of decommissioning. See Note 15 — Asset Retirement Obligations for additional information.

Deferred rent. Represents the regulatory liability recorded at Exelon and PHI for deferred rent related to a lease. The costs of the lease are recoverable through the ratemaking process at Pepco, DPL and ACE.

DLC program costs. The DLC program costs include equipment, installation, and information technology costs necessary to implement the DLC Program under PECO's EE&C Phase I Plans. PECO received full cost recovery through Phase I collections and will amortize the costs as a credit to the income statement to offset the related depreciation expense during the same period through September 2025, which is the remaining useful life of the assets.

Electric distribution tax repairs. PECO's 2010 electric distribution rate case settlement required that the expected cash benefit from the application of Revenue Procedure 2011-43, which was issued on August 19, 2011, to prior tax years be refunded to customers over a seven-year period. Credits began being reflected in customer bills on January 1, 2012. PECO's 2015 electric distribution rate case settlement requires PECO to pay interest on the unamortized balance of the tax-effected catch-up deduction beginning January 1, 2016.

Gas distribution tax repairs. PECO's 2010 natural gas distribution rate case settlement required that the expected cash benefit from the application of new tax repairs deduction methodologies for 2010 and prior tax years be refunded to customers over a seven-year period. In September 2012, PECO filed an application with the IRS to change its method of accounting for gas distribution repairs for the 2011 tax year. Credits began being reflected in customer bills on January 1, 2013. No interest will be paid to customers.

Renewable portfolio standards costs. Beginning June 1, 2017, ComEd recovers all costs associated with purchasing renewable energy credits through a new tariff rate rider that provides for a reconciliation and true-up to actual costs, with any difference to be credited to or collected from ComEd's retail customers in subsequent periods with interest. In addition, this balance includes the over recovery of renewable energy credits associated with RPS alternative compliance payments recovered under supply base rates. These collections were required under the Illinois Public Utilities Act to be used for renewable energy purchases in accordance with ICC procurement orders. The amortization period is in accordance with the applicable ICC procurement orders.

Zero emission credit costs. Beginning June 1, 2017, ComEd recovers all costs associated with purchasing ZECs through a new tariff rate rider that provides for an annual reconciliation and true-up to actual costs incurred by ComEd to purchase ZECs, with any difference to be credited to or collected from ComEd's retail customers in subsequent periods with interest.

Over-recovered uncollectible accounts. These amounts represent the difference between ACE's annual uncollectible accounts expense and revenues collected in rates through an NJBPU-approved

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

rider. The difference between GAAP uncollectible expense and revenues collected through the rider each calendar year is recovered or refunded over a twelve-month period beginning in June of the following calendar year.

Capitalized Ratemaking Amounts Not Recognized (Exelon, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE)

The following table illustrates our authorized amounts capitalized for ratemaking purposes related to earnings on shareholders' investment that are not recognized for financial reporting purposes on our Consolidated Balance Sheets. These amounts will be recognized as revenues in our Consolidated Statements of Operations and Comprehensive Income in the periods they are billable to our customers.

					Successor			
	Exelon	**ComEd (a)**	**PECO**	**BGE (b)**	**PHI**	**Pepco (c)**	**DPL (c)**	**ACE**
December 31, 2017	$ 69	$ 6	$ —	$ 53	$ 10	$ 6	$ 4	$ —
December 31, 2016	$ 72	$ 5	$ —	$ 57	$ 10	$ 6	$ 4	$ —

(a) Reflects ComEd's unrecognized equity returns earned for ratemaking purposes on its under-recovered distribution services costs regulatory assets.
(b) BGE's authorized amounts capitalized for ratemaking purposes primarily relate to earnings on shareholders' investment on its AMI programs
(c) Pepco's and DPL's authorized amounts capitalized for ratemaking purposes relate to earnings on shareholders' investment on their respective AMI Programs and Energy Efficiency and Demand Response Programs. The earnings on energy efficiency are on Pepco DC and DPL DE programs only.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Purchase of Receivables Programs (Exelon, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE)

ComEd, PECO, BGE, Pepco, DPL and ACE are required, under separate legislation and regulations in Illinois, Pennsylvania, Maryland, District of Columbia and New Jersey, to purchase certain receivables from retail electric and natural gas suppliers that participate in the utilities' consolidated billing. ComEd, BGE, Pepco and DPL purchase receivables at a discount primarily to recover uncollectible accounts expense from the suppliers. PECO is required to purchase receivables at face value and is permitted to recover uncollectible accounts expense, including those from Third Party Suppliers, from customers through distribution rates. ACE purchases receivables at face value. ACE recovers all uncollectible accounts expense, including those from Third Party Suppliers, through the Societal Benefits Charge (SBC) rider, which includes uncollectible accounts expense as a component. The SBC is filed annually with the NJBPU. Exelon, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE do not record unbilled commodity receivables under the POR programs. Purchased billed receivables are classified in Other accounts receivable, net on Exelon's, ComEd's, PECO's, BGE's, PHI's, Pepco's, DPL's and ACE's Consolidated Balance Sheets. The following tables provide information about the purchased receivables of those companies as of December 31, 2017 and December 31, 2016 .

					Successor			
As of December 31, 2017	**Exelon**	**ComEd**	**PECO**	**BGE**	**PHI**	**Pepco**	**DPL**	**ACE**
Purchased receivables	$ 298	$ 87	$ 70	$ 58	$ 83	$ 56	$ 9	$ 18
Allowance for uncollectible accounts [(a)]	(31)	(14)	(5)	(3)	(9)	(5)	(1)	(3)
Purchased receivables, net	$ 267	$ 73	$ 65	$ 55	$ 74	$ 51	$ 8	$ 15

					Successor			
As of December 31, 2016	**Exelon**	**ComEd**	**PECO**	**BGE**	**PHI**	**Pepco**	**DPL**	**ACE**
Purchased receivables	$ 313	$ 87	$ 72	$ 59	$ 95	$ 63	$ 10	$ 22
Allowance for uncollectible accounts [(a)]	(37)	(14)	(6)	(4)	(13)	(7)	(2)	(4)
Purchased receivables, net	$ 276	$ 73	$ 66	$ 55	$ 82	$ 56	$ 8	$ 18

(a) For ComEd, BGE, Pepco and DPL, reflects the incremental allowance for uncollectible accounts recorded, which is in addition to the purchase discount. For ComEd, the incremental uncollectible accounts expense is recovered through its Purchase of Receivables with Consolidated Billing tariff.

4 . Mergers, Acquisitions and Dispositions (Exelon, Generation, PHI, Pepco and DPL)

Acquisition of James A. FitzPatrick Nuclear Generating Station (Exelon and Generation)

On March 31, 2017, Generation acquired the 842 MW single-unit James A. FitzPatrick (FitzPatrick) nuclear generating station located in Scriba, New York from Entergy Nuclear FitzPatrick LLC (Entergy) for a total purchase price of $289 million , which consisted of a cash purchase price of $110 million and a net cost reimbursement to and on behalf of Entergy of $179 million . As part of the acquisition agreements, Generation provided nuclear fuel and reimbursed Entergy for incremental costs to prepare for and conduct a plant refueling outage; and Generation reimbursed Entergy for incremental costs to operate and maintain the plant for the period after the refueling outage through the acquisition closing date. These reimbursements covered costs that Entergy otherwise would have avoided had it shut down the plant as originally intended in January 2017. The amounts reimbursed by Generation were offset by FitzPatrick's electricity and capacity sales revenues for this same post-outage period. As part of the transaction, Generation received the FitzPatrick NDT fund assets and assumed the obligation to decommission FitzPatrick. The NRC license for FitzPatrick expires in 2034. In 2017, the final purchase price consideration of $289 million (including $235 million of cash and $54 million of nuclear fuel) was remitted to and on behalf of Entergy.

S1-SSA-0009 - 16578

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The fair values of FitzPatrick's assets and liabilities were determined based on significant estimates and assumptions that are judgmental in nature, including projected future cash flows (including timing), discount rates reflecting risk inherent in the future cash flows and future power and fuel market prices. The valuations performed in the first quarter of 2017 to determine the fair value of the FitzPatrick assets acquired and liabilities assumed were preliminary. Accounting guidance provides that the allocation of the purchase price may be modified up to one year from the date of the acquisition to the extent that additional information is obtained about the facts and circumstances that existed as of the acquisition date.

During the third quarter of 2017, certain modifications were made to the initial preliminary valuation amounts for acquired property, plant and equipment, the decommissioning ARO, pension and OPEB obligations and related deferred tax liabilities, resulting in a $3 million net increase in assets acquired and liabilities assumed. Additionally, in the third quarter a purchase price settlement payment of $4 million was received from Entergy. These resulted in an adjustment to the after-tax bargain purchase gain recorded at Generation. For the year ended December 31, 2017 , the after-tax bargain purchase gain of $233 million is included within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income and primarily reflects differences in strategies between Generation and Entergy for the intended use and ultimate decommissioning of the plant. There are no further adjustments expected to be made to the allocation of the purchase price. See Note 15 - Asset Retirement Obligations and Note 16 - Retirement Benefits for additional information regarding the FitzPatrick decommissioning ARO and pension and OPEB updates.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table summarizes the final acquisition-date fair value of the consideration transferred and the assets and liabilities assumed for the FitzPatrick acquisition by Generation as of December 31, 2017 :

Cash paid for purchase price	$	110
Cash paid for net cost reimbursement		125
Nuclear fuel transfer		54
Total consideration transferred	$	289
Identifiable assets acquired and liabilities assumed		
Current assets	$	60
Property, plant and equipment		298
Nuclear decommissioning trust funds		807
Other assets [(a)]		114
Total assets	$	1,279
Current liabilities	$	6
Nuclear decommissioning ARO		444
Pension and OPEB obligations		33
Deferred income taxes		149
Spent nuclear fuel obligation		110
Other liabilities		15
Total liabilities	$	757
Total net identifiable assets, at fair value	$	522
Bargain purchase gain (after-tax)	$	233

(a) Includes a $110 million asset associated with a contractual right to reimbursement from the New York Power Authority (NYPA), a prior owner of FitzPatrick, associated with the DOE one-time fee obligation. See Note 23 - Commitments and Contingencies for additional background regarding SNF obligations to the DOE.

For the year ended December 31, 2017 , Exelon and Generation incurred $57 million of merger and integration related costs which are included within Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Acquisition of ConEdison Solutions (Exelon and Generation)

On September 1, 2016, Generation acquired the competitive retail electricity and natural gas business of Consolidated Edison Solutions, Inc. (ConEdison Solutions), a subsidiary of Consolidated Edison, Inc. for a purchase price of $257 million including net working capital of $204 million . The renewable energy, sustainable services and energy efficiency businesses of ConEdison Solutions are excluded from the transaction.

The fair values of ConEdison Solutions' assets and liabilities were determined based on significant estimates and assumptions that are judgmental in nature, including projected future cash flows (including timing), discount rates reflecting risk inherent in the future cash flows and future power and fuel market prices. The purchase price equaled the estimated fair value of the net assets acquired and the liabilities

S1-SSA-0009 - 16580

assumed and, therefore, no goodwill or bargain purchase was recorded as of the acquisition date. The purchase price allocation is now final.

The following table summarizes the final acquisition-date fair value of the consideration transferred and the assets and liabilities assumed for the ConEdison Solutions acquisition by Generation:

Total consideration transferred	$ 257
Identifiable assets acquired and liabilities assumed	
Working capital assets	$ 204
Property, plant and equipment	2
Mark-to-market derivative assets	6
Unamortized energy contract assets	100
Customer relationships	9
Other assets	1
Total assets	$ 322
Mark-to-market derivative liabilities	$ 65
Total liabilities	$ 65
Total net identifiable assets, at fair value	$ 257

Merger with Pepco Holdings, Inc. (Exelon)

Description of Transaction

On March 23, 2016 , Exelon completed the merger contemplated by the Merger Agreement among Exelon, Purple Acquisition Corp., a wholly owned subsidiary of Exelon (Merger Sub) and Pepco Holdings, Inc. (PHI). As a result of that merger, Merger Sub was merged into PHI (the PHI Merger) with PHI surviving as a wholly owned subsidiary of Exelon and Exelon Energy Delivery Company, LLC (EEDC), a wholly owned subsidiary of Exelon which also owns Exelon's interests in ComEd, PECO and BGE (through a special purpose subsidiary in the case of BGE). Following the completion of the PHI Merger, Exelon and PHI completed a series of internal corporate organization restructuring transactions resulting in the transfer of PHI's unregulated business interests to Exelon and Generation and the transfer of PHI, Pepco, DPL and ACE to a special purpose subsidiary of EEDC.

Regulatory Matters

Approval of the merger in Delaware, New Jersey, Maryland and the District of Columbia was conditioned upon Exelon and PHI agreeing to certain commitments including where applicable: customer rate credits, funding for energy efficiency and delivery system modernization programs, a green sustainability fund, workforce development initiatives, charitable contributions, renewable generation and other required commitments. In addition, the orders approving the merger in Delaware, New Jersey, and Maryland include a "most favored nation" provision which, generally, requires allocation of merger benefits proportionally across all the jurisdictions.

During the third and fourth quarters of 2016, Exelon and PHI filed proposals in Delaware, New Jersey and Maryland for amounts and allocations reflecting the application of the most favored nation provision, resulting in a total nominal cost of commitments of $513 million excluding renewable generation commitments (approximately $444 million on a net present value basis amount, excluding renewable

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

generation commitments and charitable contributions). These filings reflected agreements reached with certain parties to the merger proceedings in these jurisdictions. In 2016, the DPSC and NJBPU approved the amounts and allocations of the additional merger benefits for Delaware and New Jersey, respectively. On April 12, 2017, the MDPSC issued an order approving the amounts of the additional merger benefits for Maryland, but amending the proposed allocations of the benefits. The amended allocations do not have a material effect on any of the Registrants' financial statements. No changes in commitment cost levels are required in the District of Columbia.

During the second quarter of 2017, Exelon finalized the application of $8 million funding for low- and moderate-income customers in the Pepco Maryland and DPL Maryland service territories. This resulted in an adjustment to merger commitment costs recorded at Exelon Corporate, Pepco, and DPL. Exelon Corporate recorded an increase of $8 million and Pepco and DPL recorded a decrease of $6 million and $2 million , respectively, in Operating and maintenance expense.

The following amounts represent total commitment costs for Exelon, PHI, Pepco, DPL and ACE that have been recorded since the acquisition date:

					Successor	
Description	Expected Payment Period	Pepco	DPL	ACE	PHI	Exelon
Rate credits	2016 - 2017	$ 91	$ 67	$ 101	$ 259	$ 259
Energy efficiency	2016 - 2021	—	—	—	—	122
Charitable contributions	2016 - 2026	28	12	10	50	50
Delivery system modernization	Q2 2017	—	—	—	—	22
Green sustainability fund	Q2 2017	—	—	—	—	14
Workforce development	2016 - 2020	—	—	—	—	17
Other		1	5	—	6	29
Total		$ 120	$ 84	$ 111	$ 315	$ 513

Pursuant to the orders approving the merger, Exelon made $73 million , $46 million and $49 million of equity contributions to Pepco, DPL and ACE, respectively, in the second quarter of 2016 to fund the after-tax amounts of the customer bill credit and the customer base rate credit commitments.

In addition, Exelon is committed to develop or to assist in the commercial development of approximately 37 MWs of new generation in Maryland, District of Columbia, and Delaware, 27 MWs of which are expected to be completed by 2018. These investments are expected to total approximately $137 million , are expected to be primarily capital in nature, and will generate future earnings at Exelon and Generation. Investment costs will be recognized as incurred and recorded on Exelon's and Generation's financial statements. Exelon has also committed to purchase 100 MWs of wind energy in PJM, to procure 120 MWs of wind RECs for the purpose of meeting Delaware's renewable portfolio standards, and to maintain and promote energy efficiency and demand response programs in the PHI jurisdictions.

Pursuant to the various jurisdictions' merger approval conditions, over specified periods Pepco, DPL and ACE are not permitted to reduce employment levels due to involuntary attrition associated with the merger integration process and have made other commitments regarding hiring and relocation of positions.

In July 2015, the OPC, Public Citizen, Inc., the Sierra Club and the Chesapeake Climate Action Network (CCAN) filed motions to stay the MDPSC order approving the merger. The Circuit Court judge issued an order denying the motions for stay on August 12, 2015. On January 8, 2016, the Circuit Court judge affirmed the MDPSC's order approving the merger and denied the petitions for judicial review filed

by the OPC, the Sierra Club, CCAN and Public Citizen, Inc. On January 19, 2016, the OPC filed a notice of appeal to the Maryland Court of Special Appeals, and on January 21, the Sierra Club and CCAN filed notices of appeal. On January 27, 2017, the Maryland Court of Special Appeals affirmed the Circuit Court's judgment that the MDPSC did not err in approving the merger. The OPC and Sierra Club filed petitions seeking further review in the Court of Appeals of Maryland, which is the highest court in Maryland. On June 21, 2017, the Court of Appeals granted discretionary review of the January 27, 2017 decision by the Maryland Court of Special Appeals. The Maryland Court of Appeals will review the OPC argument that the MDPSC did not properly consider the acquisition premium paid to PHI shareholders under Maryland's merger approval st and ard and the Sierra Club's argument that the merger would harm the renewable and distributed generation markets. The two lower courts examining these issues rejected these arguments, which Exelon believes are without merit. All briefs have been filed and oral arguments were presented to the court on October 10, 2017.

Between March 25, 2016 and April 22, 2016, various parties filed motions with the DCPSC to reconsider its March 23, 2016 order approving the merger. On June 17, 2016, the DCPSC denied all motions. In August 2016, the District Legal Entity of Columbia Office of People's Counsel, the District of Columbia Government, and Public Citizen jointly with DC Sun each filed petitions for judicial review of the DCPSC's March 23, 2016 order with the District of Columbia Court of Appeals. On July 20, 2017, the Court issued an opinion rejecting all of appellants' arguments and affirming the Commission's decision approving the merger.

Accounting for the Merger Transaction

The total purchase price consideration of approximately $7.1 billion for the PHI Merger consisted of cash paid to PHI shareholders, cash paid for PHI preferred securities and cash paid for PHI stock-based compensation equity awards as follows:

(In millions of dollars, except per share data)	Total Consideration
Cash paid to PHI shareholders at $27.25 per share (254 million shares outstanding at March 23, 2016)	$ 6,933
Cash paid for PHI preferred stock	180
Cash paid for PHI stock-based compensation equity awards [(a)]	29
Total purchase price	$ 7,142

(a) PHI's unvested time-based restricted stock units and performance-based restricted stock units issued prior to April 29, 2014 were immediately vested and paid in cash upon the close of the merger. PHI's remaining unvested time-based restricted stock units as of the close of the merger were cancelled. There were no remaining unvested performance-based restricted stock units as of the close of the merger.

PHI shareholders received $27.25 of cash in exchange for each share of PHI common stock outstanding as of the effective date of the merger. In connection with the Merger Agreement, Exelon entered into a Subscription Agreement under which it purchased $180 million of a new class of nonvoting, nonconvertible and nontransferable preferred securities of PHI prior to December 31, 2015. On March 23, 2016 , the preferred securities were cancelled for no consideration to Exelon, and accordingly, the $180 million cash consideration previously paid to acquire the preferred securities was treated as purchase price consideration.

The preliminary valuations performed in the first quarter of 2016 were updated in the second, third, and fourth quarters of 2016. There were no adjustments to the purchase price allocation in the first quarter of 2017 and the purchase price allocation is now final.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Exelon applied push-down accounting to PHI, and accordingly, the PHI assets acquired and liabilities assumed were recorded at their estimated fair values on Exelon's and PHI's Consolidated Balance Sheets as follows:

Purchase Price Allocation [a]		
Current assets	$	1,441
Property, plant and equipment		11,088
Regulatory assets		5,015
Other assets		248
Goodwill		4,005
Total assets	$	21,797
Current liabilities	$	2,752
Unamortized energy contracts		1,515
Regulatory liabilities		297
Long-term debt, including current maturities		5,636
Deferred income taxes		3,447
Pension and OPEB obligations		821
Other liabilities		187
Total liabilities	$	14,655
Total purchase price	$	7,142

(a) Amounts shown reflect the final purchase price allocation and the correction of a reporting error identified and corrected in the second quarter of 2016. The error had resulted in a gross up of certain assets and liabilities related to legacy PHI intercompany and income tax receivable and payable balances.

On its successor financial statements, PHI has recorded, beginning March 24, 2016, Membership interest equity of $7.2 billion , which is greater than the total $7.1 billion purchase price, reflecting the impact of a $59 million deferred tax liability recorded only at Exelon Corporate to reflect unitary state income tax consequences of the merger.

The excess of the purchase price over the estimated fair value of the assets acquired and the liabilities assumed totaled $4.0 billion , which was recognized as goodwill by PHI and Exelon at the acquisition date, reflecting the value associated with enhancing Exelon's regulated utility portfolio of businesses, including the ability to leverage experience and best practices across the utilities and the opportunities for synergies. For purposes of future required impairment assessments, the goodwill has been assigned to PHI's reportable units Pepco, DPL and ACE in the amounts of $1.7 billion , $1.1 billion and $1.2 billion , respectively. None of this goodwill is expected to be tax deductible.

Immediately following closing of the merger, $235 million of net assets included in the table above associated with PHI's unregulated business interests were distributed by PHI to Exelon. Exelon contributed $163 million of such net assets to Generation.

The fair values of PHI's assets and liabilities were determined based on significant estimates and assumptions that are judgmental in nature, including projected future cash flows (including timing), discount rates reflecting risk inherent in the future cash flows, future market prices and impacts of utility rate regulation. There were also judgments made to determine the expected useful lives assigned to each class of assets acquired.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Through its wholly owned rate regulated utility subsidiaries, most of PHI's assets and liabilities are subject to cost-of-service rate regulation. Under such regulation, rates charged to customers are established by a regulator to provide for recovery of costs and a fair return on invested capital, or rate base, generally measured at historical cost. In applying the acquisition method of accounting, for regulated assets and liabilities included in rate base or otherwise earning a return (primarily property, plant and equipment and regulatory assets earning a return), no fair value adjustments were recorded as historical cost is viewed as a reasonable proxy for fair value.

Fair value adjustments were applied to the historical cost bases of other assets and liabilities subject to rate regulation but not earning a return (including debt instruments and pension and OPEB obligations). In these instances, a corresponding offsetting regulatory asset or liability was also established, as the underlying utility asset and liability amounts are recoverable from or refundable to customers at historical cost (and not at fair value) through the rate setting process. Similar treatment was applied for fair value adjustments to record intangible assets and liabilities, such as for electricity and gas energy supply contracts as further described below. Regulatory assets and liabilities established to offset fair value adjustments are amortized in amounts and over time frames consistent with the realization or settlement of the fair value adjustments, with no impact on reported net income. See Note 3 - Regulatory Matters for additional information regarding the fair value of regulatory assets and liabilities established by Exelon and PHI.

Fair value adjustments were recorded at Exelon and PHI for the difference between the contract price and the market price of electricity and gas energy supply contracts of PHI's wholly owned rate regulated utility subsidiaries. These adjustments are intangible assets and liabilities classified as unamortized energy contracts on Exelon's and PHI's Consolidated Balance Sheets as of December 31, 2017 . The difference between the contract price and the market price at the acquisition date of the Merger was recognized for each contract as either an intangible asset or liability. In total, Exelon and PHI recorded a net $1.5 billion liability reflecting out-of-the-money contracts. The valuation of the acquired intangible assets and liabilities was estimated by applying either the market approach or the income approach depending on the nature of the underlying contract. The market approach was utilized when prices and other relevant information generated by market transactions involving comparable transactions were available. Otherwise the income approach, which is based upon discounted projected future cash flows associated with the underlying contracts, was utilized. In certain instances, the valuations were based upon certain unobservable inputs, which are considered Level 3 inputs, pursuant to applicable accounting guidance. Key estimates and inputs include forecasted power prices and the discount rate. The unamortized energy contract fair value adjustment amounts and the corresponding offsetting regulatory asset and liability amounts are amortized through Purchased power and fuel expense or Operating revenues, as applicable, over the life of the applicable contract in relation to the present value of the underlying cash flows as of the merger date.

As mentioned, under cost-of-service rate regulation, rates charged to customers are established by a regulator to provide for recovery of costs and a fair return on invested capital, or rate base, generally measured at historical cost. Historical cost information therefore is the most relevant presentation for the financial statements of PHI's rate regulated utility subsidiary registrants, Pepco, DPL and ACE. As such, Exelon and PHI did not push-down the application of acquisition accounting to PHI's utility registrants, and therefore the financial statements of Pepco, DPL and ACE do not reflect the revaluation of any assets and liabilities.

The current impact of PHI, including its unregulated businesses, on Exelon's Consolidated Statements of Operations and Comprehensive Income includes Operating revenues of $4,829 million and Net income of $364 million during the year ended December 31, 2017 , and Operating revenues of $3,785 million and Net loss of $ (66) million for the year ended December 31, 2016 .

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

For the periods ended December 31, 2017 and 2016 , the Registrants have recognized costs to achieve the PHI acquisition as follows:

	For the Year Ended December 31,	
Acquisition, Integration and Financing Costs [a]	2017	2016
Exelon	$ 16	$ 143
Generation	22	37
ComEd [b]	1	(6)
PECO	4	5
BGE [b]	4	(1)
Pepco [b]	(6)	28
DPL [b]	(7)	20
ACE [b]	(6)	19

	Successor		*Predecessor*
Acquisition, Integration and Financing Costs [a]	For the Year Ended December 31, 2017	March 24, 2016 to December 31, 2016	January 1, 2016 to March 23, 2016
PHI [b]	$ (18)	$ 69	$ 29

(a) The costs incurred are classified primarily within Operating and maintenance expense in the Registrants' respective Consolidated Statements of Operations and Comprehensive Income, with the exception of the financing costs, which are included within Interest expense. Costs do not include merger commitments discussed above.
(b) For the year ended December 31, 2017 , includes deferrals of previously incurred integration costs to achieve distribution synergies related to the PHI acquisition of $24 million , $8 million , $8 million , and $8 million incurred at PHI, Pepco, DPL, and ACE, respectively, that have been recorded as a regulatory asset for anticipated recovery. For the year ended December 31, 2016 , includes deferrals of previously incurred integration costs to achieve distribution synergies related to the PHI acquisition of $8 million , $6 million , $11 million , and $4 million incurred at ComEd, BGE, Pepco, and DPL, respectively, that have been recorded as a regulatory asset for anticipated recovery. For the Successor period March 24, 2016 to December 31, 2016 , includes deferrals of previously incurred integration costs to achieve distribution synergies related to the PHI acquisition of $16 million incurred at PHI that have been recorded as a regulatory asset for anticipated recovery. See Note 3 - Regulatory Matters for more information.

Pro-forma Impact of the Merger

The following unaudited pro-forma financial information reflects the consolidated results of operations of Exelon as if the merger with PHI had taken place on January 1, 2015 . The unaudited pro forma information was calculated after applying Exelon's accounting policies and adjusting PHI's results to reflect purchase accounting adjustments.

The unaudited pro-forma financial information has been presented for illustrative purposes only and is not necessarily indicative of results of operations that would have been achieved had the merger events taken place on the dates indicated, or the future consolidated results of operations of the combined company.

	Year Ended December 31,	
	2016 [a]	2015 [b]
Total operating revenues	$ 32,342	$ 33,823
Net income attributable to common shareholders	1,562	2,618
Basic earnings per share	$ 1.69	$ 2.85
Diluted earnings per share	1.69	2.84

(a) The amounts above exclude non-recurring costs directly related to the merger of $680 million and intercompany revenue of $171 million for the year ended December 31, 2016 .
(b) The amounts above exclude non-recurring costs directly related to the merger of $92 million and intercompany revenue of $559 million for the year ended December 31, 2015 .

Asset Dispositions (Exelon, Generation, PHI, Pepco and DPL)

EGTP, a Delaware limited liability company, was formed in 2014 with the purpose of financing a portfolio of assets comprised of two combined-cycle gas turbines (CCGTs) and three peaking/simple cycle facilities consisting of approximately 3.4 GW of generation capacity in ERCOT North and Houston Zones. EGTP is an indirect wholly owned subsidiary of Exelon and Generation. Each of the aforementioned facilities are held through a wholly owned direct subsidiary of EGTP. EGTP also owns two equity method investments in shared facility companies. EGTP, its direct parent and its wholly owned subsidiaries secured a nonrecourse senior secured term loan facility, a revolving loan facility and certain commodity and interest rate swaps.

EGTP's operating cash flows were negatively impacted by certain market conditions and the seasonality of its cash flows. On May 2, 2017, as a result of the negative impacts of certain market conditions and the seasonality of its cash flows, EGTP entered into a consent agreement with its lenders to permit EGTP to draw on its revolving credit facility and initiate an orderly sales process to sell the assets of its wholly owned subsidiaries. As a result, Exelon and Generation classified certain of EGTP assets and liabilities as held for sale at their respective fair values less costs to sell and recorded a $460 million pre-tax impairment loss . See Note 13 - Debt and Credit Agreements for details regarding the nonrecourse debt associated with EGTP and Note 7 - Impairment of Long-Lived Assets and Intangibles for further information.

On November 7, 2017, EGTP and all of its wholly owned subsidiaries (collectively with EGTP, the "Debtors") filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code in the United States Bankruptcy Court for the District of Delaware. The Debtors sought Bankruptcy Court authorization to jointly administer the Chapter 11 cases. The Debtors are continuing to manage their assets and operate their businesses as "debtors in possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and the orders of the Bankruptcy Court. As a result of the bankruptcy filing, Exelon and Generation deconsolidated EGTP's

assets and liabilities from their consolidated financial statements, resulting in a pre-tax gain upon deconsolidation of $213 million . Concurrently with the Chapter 11 filings, Generation entered into an asset purchase agreement to acquire one of EGTP's generating plants, the Handley Generating Station, for approximately $60 million , subject to a potential adjustment for fuel oil and assumption of certain liabilities. In the Chapter 11 Filings, EGTP requested that the proposed acquisition of the Handley Generating Station be consummated through a court-approved and supervised sales process. The acquisition was approved by the Bankruptcy Court in January 2018 and the transaction is expected to be completed in the first half of 2018.

In December 2017, Pepco Building Services, Inc. entered into a purchase and sale agreement to sell its interest in an electrical contracting business that primarily installs, maintains and repairs underground and high-voltage cable transmission and distribution systems. The closing of the sale is expected to be completed in the first quarter of 2018. As a result, as of December 31, 2017 , certain assets and liabilities were classified as held for sale at their respective fair values less costs to sell and included in the Other current assets and Other current liabilities balances on Exelon's and Generation's Consolidated Balance Sheet.

During the fourth quarter 2016, as part of its continual assessment of growth and development opportunities, Generation reevaluated and in certain instances terminated or renegotiated certain projects and contracts. As a result, a pre-tax loss of $69 million was recorded within Loss on sale of assets and pre-tax impairment charges of $23 million was recorded within Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

In July 2016, DPL completed the sale of a 9-acre land parcel located on South Madison Street in Wilmington, DE, resulting in a pre-tax gain of approximately $4 million . In December 2016, DPL completed the sale of a 48-acre land parcel located in Middletown, DE, resulting in a pre-tax gain of approximately $5 million . Due to the fair value adjustments recorded at Exelon and PHI as part of purchase accounting, no gain was recorded in Exelon's and PHI's Consolidated Statements of Operations and Comprehensive Income.

On June 16, 2016, Generation initiated the sales process of its Upstream business by executing a forbearance agreement with the lenders of the nonrecourse debt. See Note 13 - Debt and Credit Agreements for more information. In December 2016, Generation sold substantially all of the Upstream assets for $37 million which resulted in a pre-tax loss on sale of $10 million which is included in Gain (loss) on sales of assets on Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income for the year ended December 31, 2016.

On May 2, 2016, Pepco completed the sale of the New York Avenue land parcel, located in Washington, D.C., resulting in a pre-tax gain of approximately $8 million at Pepco. Due to the fair value adjustments recorded at Exelon and PHI as part of purchase accounting, no gain was recorded in Exelon's and PHI's Consolidated Statements of Operations and Comprehensive Income.

On April 21, 2016, Generation completed the sale of the retired New Boston generating site, located in Boston, Massachusetts, resulting in a pre-tax gain of approximately $32 million .

On November 10, 2015, Pepco completed the sale of a 3.5-acre parcel of unimproved land (held as non-utility property) in the Buzzard Point area of southeast Washington, D.C., resulting in a pre-tax gain of $37 million .

On December 31, 2015, Pepco completed the sale of a 3.8-acre parcel of unimproved land (held as non-utility property) in the NoMa area of northeast Washington, D.C., resulting in a pre-tax gain of $9 million . The purchase and sale agreement also provided the third party with a 90-day option to purchase the remaining 1.8-acre land parcel.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

5 . Accounts Receivable (All Registrants)

Accounts receivable at December 31, 2017 and 2016 included estimated unbilled revenues, representing an estimate for the unbilled amount of energy or services provided to customers, and is net of an allowance for uncollectible accounts as follows:

						Successor				
2017	Exelon	Generation	ComEd	PECO	BGE	PHI	Pepco	DPL	ACE
Unbilled customer revenues	$ 1,858	$ 1,017 [a]	$ 242	$ 162	$ 205	$ 232	$ 133	$ 68	$ 31
Allowance for uncollectible accounts [b]	(322)	(114)	(73)	(56) [c]	(24)	(55)	(21)	(16)	(18)

					Successor			
2016	Exelon	Generation	ComEd	PECO	BGE	PHI	Pepco	DPL	ACE
Unbilled customer revenues	$ 1,673	$ 910 [a]	$ 219	$ 140	$ 182	$ 222	$ 123	$ 58	$ 41
Allowance for uncollectible accounts [b]	(334)	(91)	(70)	(61) [c]	(32)	(80) [d]	(29) [d]	(24) [d]	(27) [d]

(a) Represents unbilled portion of retail receivables estimated under Exelon's unbilled critical accounting policy.
(b) Includes the estimated allowance for uncollectible accounts on billed customer and other accounts receivable.
(c) Excludes the non-current allowance for uncollectible accounts of $15 million and $23 million at December 31, 2017 and 2016 , respectively, related to PECO's current installment plan receivables described below.
(d) At December 31, 2016 , as explained in Note 1 — Significant Accounting Policies , PHI, Pepco, DPL and ACE estimated the allowance for uncollectible accounts on customer receivables by applying loss rates to the outstanding receivable balance by risk segment. The change in estimate resulted in an overall increase of $30 million , $14 million , $8 million , and $8 million in the allowance for uncollectible accounts with $20 million , $8 million , $4 million , and $8 million deferred as a regulatory asset on PHI's, Pepco's, DPL's and ACE's Consolidated Balance Sheets at December 31, 2016, respectively. This also resulted in a $10 million , $6 million , and $4 million pre-tax charge to provision for uncollectible accounts expense for the year ended December 31, 2016 , which is included in Operating and maintenance expense on PHI's, Pepco's and DPL's Consolidated Statements of Operations and Comprehensive Income, respectively.

PECO Installment Plan Receivables (Exelon and PECO)

PECO enters into payment agreements with certain delinquent customers, primarily residential, seeking to restore their service, as required by the PAPUC. Customers with past due balances that meet certain income criteria are provided the option to enter into an installment payment plan, some of which have terms greater than one year, to repay past due balances in addition to paying for their ongoing service on a current basis. The receivable balance for these payment agreement receivables is recorded in accounts receivable for the current portion and other deferred debits and other assets for the noncurrent portion. The net receivable balance for installment plans with terms greater than one year was $11 million and $9 million at December 31, 2017 and 2016 , respectively. The allowance for uncollectible accounts reserve methodology and assessment of the credit quality of the installment plan receivables are consistent with the customer accounts receivable methodology discussed in Note 1 — Significant Accounting Policies . The allowance for uncollectible accounts balance associated with these receivables at December 31, 2017 of $11 million consists of $3 million and $8 million for medium risk and high-risk segments, respectively. The allowance for uncollectible accounts balance associated with these receivables at December 31, 2016 of $13 million consists of $1 million , $3 million and $9 million for low risk, medium risk and high risk-segments, respectively. The balance of the payment agreement is billed to the customer in equal monthly installments over the term of the agreement. Installment receivables outstanding as of December 31, 2017 and 2016 include balances not yet presented on the customer bill, accounts currently billed and an immaterial amount of past due receivables. When a customer defaults on its payment agreement, the terms of which are defined by plan type, the entire balance of the agreement becomes due and the balance is reclassified to current customer accounts receivable

S1-SSA-0009 - 16589

and reserved for in accordance with the methodology discussed in Note 1 — Significant Accounting Policies .

6 . Property, Plant and Equipment (All Registrants)

Exelon

The following table presents a summary of property, plant and equipment by asset category as of December 31, 2017 and 2016 :

Asset Category	Average Service Life (years)	2017	2016
Electric—transmission and distribution	5-90	$ 49,506	$ 45,698
Electric—generation	2-56	29,019	27,193
Gas—transportation and distribution	5-90	5,050	4,642
Common—electric and gas	5-75	1,447	1,312
Nuclear fuel [a]	1-8	6,420	6,546
Construction work in progress	N/A	2,825	4,306
Other property, plant and equipment [b]	2-50	999	1,027
Total property, plant and equipment		95,266	90,724
Less: accumulated depreciation [c]		21,064	19,169
Property, plant and equipment, net		$ 74,202	$ 71,555

(a) Includes nuclear fuel that is in the fabrication and installation phase of $1,196 million and $1,326 million at December 31, 2017 and 2016 , respectively.
(b) Includes Generation's buildings under capital lease with a net carrying value of $7 million and $10 million at December 31, 2017 and 2016 , respectively. The original cost basis of the buildings was $47 million and $52 million , and total accumulated amortization was $40 million and $42 million , as of December 31, 2017 and 2016 , respectively. Also includes ComEd's buildings under capital lease with a net carrying value at both December 31, 2017 and 2016 , of $7 million . The original cost basis of the buildings was $8 million and total accumulated amortization was $1 million as of both December 31, 2017 and 2016 . Includes land held for future use and non-utility property at ComEd, PECO, BGE, Pepco, DPL and ACE of $44 million , $21 million , $26 million , $59 million , $15 million and $27 million , respectively, at December 31, 2017 . Includes the original cost and progress payments associated with Generation's turbine equipment held for future use with a carrying value of $0 million and $17 million as of December 31, 2017 and 2016 , respectively. Generation's turbine equipment was impaired by $11 million and the remaining $6 million was moved to the assets held for sale account at December 31, 2017 .
(c) Includes accumulated amortization of nuclear fuel in the reactor core at Generation of $3,159 million and $3,186 million as of December 31, 2017 and 2016 , respectively.

The following table presents the annual depreciation provisions as a percentage of average service life for each asset category.

Average Service Life Percentage by Asset Category	2017	2016	2015
Electric—transmission and distribution	2.75%	2.73%	2.83%
Electric—generation [a]	4.36% [a]	5.94% [a]	3.47%
Gas	2.10%	2.17%	2.17%
Common—electric and gas	7.05%	7.41%	7.79%

(a) See Note 8 — Early Nuclear Plant Retirements for additional information on the accelerated net depreciation and amortization of Clinton, Quad Cities and TMI.

S1-SSA-0009 - 16590

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Generation

The following table presents a summary of property, plant and equipment by asset category as of December 31, 2017 and 2016 :

	Average Service Life (years)	2017	2016
Asset Category			
Electric—generation	2-56	$ 29,019	$ 27,193
Nuclear fuel [a]	1-8	6,420	6,546
Construction work in progress	N/A	838	2,332
Other property, plant and equipment [b]	2-3	57	76
Total property, plant and equipment		36,334	36,147
Less: accumulated depreciation [c]		11,428	10,562
Property, plant and equipment, net		$ 24,906	$ 25,585

(a) Includes nuclear fuel that is in the fabrication and installation phase of $1,196 million and $1,326 million at December 31, 2017 and 2016 , respectively.
(b) Includes buildings under capital lease with a net carrying value of $7 million and $10 million at December 31, 2017 and 2016 , respectively. The original cost basis of the buildings was $47 million and $52 million , and total accumulated amortization was $40 million and $42 million , as of December 31, 2017 and 2016 , respectively. Includes the original cost and progress payments associated with Generation's turbine equipment held for future use with a carrying value of $0 million and $17 million as of December 31, 2017 and 2016 , respectively. Generation's turbine equipment was impaired by $11 million and the remaining $6 million was moved to the assets held for sale account at December 31, 2017 .
(c) Includes accumulated amortization of nuclear fuel in the reactor core of $3,159 million and $3,186 million as of December 31, 2017 and 2016 , respectively.

The annual depreciation provisions as a percentage of average service life for electric generation assets were 4.36% , 5.94% and 3.47% for the years ended December 31, 2017 , 2016 and 2015 , respectively. See Note 8 — Early Nuclear Plant Retirements for additional information on the accelerated net depreciation and amortization of Clinton, Quad Cities and TMI.

License Renewals

Generation's depreciation provisions are based on the estimated useful lives of its generating stations, which reflect the renewal of the licenses for all nuclear generating stations (except for Oyster Creek, Clinton and TMI) and the hydroelectric generating stations. As a result, the receipt of license renewals has no material impact on the Consolidated Statements of Operations and Comprehensive Income. Clinton depreciation provisions are based on 2027 which is the last year of the Illinois ZECs. In 2017, Oyster Creek and TMI depreciation provisions were based on their 2019 expected shutdown dates. Beginning February 2018, Oyster Creek depreciation provisions will be based on its announced shutdown date of 2018. See Note 3 — Regulatory Matters for additional information regarding license renewals and the Illinois ZECs. See Note 8 — Early Nuclear Plant Retirements for additional information on the impacts of expected and potential early plant retirement.

ComEd

The following table presents a summary of property, plant and equipment by asset category as of December 31, 2017 and 2016 :

Asset Category	Average Service Life (years)	2017	2016
Electric—transmission and distribution	5-80	$ 24,423	$ 22,636
Construction work in progress	N/A	517	569
Other property, plant and equipment [a], [b]	36-50	52	67
Total property, plant and equipment		24,992	23,272
Less: accumulated depreciation		4,269	3,937
Property, plant and equipment, net		$ 20,723	$ 19,335

(a) Includes buildings under capital lease with a net carrying value at both December 31, 2017 and 2016 of $7 million . The original cost basis of the buildings was $8 million and total accumulated amortization was $1 million as of both December 31, 2017 and 2016 .
(b) Includes land held for future use and non-utility property.

The annual depreciation provisions as a percentage of average service life for electric transmission and distribution assets were 2.99% , 3.03% and 3.03% for the years ended December 31, 2017 , 2016 and 2015 , respectively.

PECO

The following table presents a summary of property, plant and equipment by asset category as of December 31, 2017 and 2016 :

Asset Category	Average Service Life (years)	2017	2016
Electric—transmission and distribution	5-65	$ 7,975	$ 7,591
Gas—transportation and distribution	5-70	2,504	2,348
Common—electric and gas	5-50	710	670
Construction work in progress	N/A	254	188
Other property, plant and equipment [a]	50	21	21
Total property, plant and equipment		11,464	10,818
Less: accumulated depreciation		3,411	3,253
Property, plant and equipment, net		$ 8,053	$ 7,565

(a) Represents land held for future use and non-utility property.

Construction work in progress	N/A	205	163
Other property, plant and equipment [a]	10-43	15	16
Total property, plant and equipment		4,826	4,448
Less: accumulated depreciation		1,247	1,175
Property, plant and equipment, net		$ 3,579	$ 3,273

(a) Represents plant held for future use and non-utility property. Utility plant is generally subject to a first mortgage lien.

The following table presents the annual depreciation provisions as a percentage of average service life for each asset category.

Average Service Life Percentage by Asset Category	2017	2016	2015
Electric—transmission and distribution	2.75%	2.49%	2.44%
Gas	2.07%	2.57%	2.55%
Common—electric and gas	4.14%	4.99%	4.24%

ACE

The following table presents a summary of property, plant and equipment by asset category as of December 31, 2017 and 2016 :

	Average Service Life (years)	2017	2016
Asset Category			
Electric—transmission and distribution	5-60	$ 3,607	$ 3,341
Construction work in progress	N/A	138	169
Other property, plant and equipment [a]	13-15	27	27
Total property, plant and equipment		3,772	3,537
Less: accumulated depreciation		1,066	1,016
Property, plant and equipment, net		$ 2,706	$ 2,521

(a) Represents plant held for future use and non-utility property. Utility plant is generally subject to a first mortgage lien.

The annual depreciation provisions as a percentage of average service life for electric transmission and distribution assets were 2.46% , 2.45% and 2.46% for the years ended December 31, 2017 , 2016 and 2015 , respectively.

See Note 1 — Significant Accounting Policies for further information regarding property, plant and equipment policies and accounting for capitalized software costs for the Registrants. See Note 13 — Debt and Credit Agreements for further information regarding Exelon's, ComEd's and PECO's property, plant and equipment subject to mortgage liens.

7 . Impairment of Long-Lived Assets and Intangibles (Exelon, Generation and PHI)

Long-Lived Assets (Exelon, Generation and PHI)

Registrants evaluate long-lived assets for recoverability whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. At Generation, EGTP's operating cash flows have been negatively impacted by certain market conditions and the seasonality of its cash flows. On May 2, 2017, EGTP entered into a consent agreement with its lenders to initiate an orderly sales process to sell the assets of its wholly owned subsidiaries. As a result, Exelon and Generation classified certain of EGTP's assets and liabilities as held for sale at their respective fair values less costs to sell and recorded a pre-tax impairment charge of $460 million within Operating and maintenance expense on their Consolidated Statements of Operations and Comprehensive Income during 2017. On November 7, 2017, EGTP and its wholly owned subsidiaries filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code in the United States Bankruptcy Court for the District of Delaware and, as a result, Exelon and Generation deconsolidated EGTP's assets and liabilities from their consolidated financial statements. See Note 4 — Mergers, Acquisitions and Dispositions and Note 13 — Debt and Credit Agreements , for further information.

In the third quarter of 2015, PHI entered into a sponsorship agreement with the District of Columbia for future sponsorship rights associated with public property within the District of Columbia and paid the District of Columbia $25 million , which Exelon and PHI had recorded as a finite-lived intangible asset as of December 31, 2016. The specific sponsorship rights were to be determined over time through future negotiations. In the fourth quarter of 2017, based upon the lack of currently available sponsorship opportunities, the asset was written off and a pre-tax impairment charge of $25 million was recorded within Operating and maintenance expense in Exelon's and PHI's Consolidated Statements of Operations and Comprehensive Income.

During the first quarter of 2016, significant changes in Generation's intended use of the Upstream oil and gas assets, developments with nonrecourse debt held by its Upstream subsidiary CEU Holdings, LLC (as described in Note 13 — Debt and Credit Agreements) and continued declines in both production volumes and commodity prices suggested that the carrying value may be impaired. Generation concluded that the estimated undiscounted future cash flows and fair value of its Upstream properties were less than their carrying values. As a result, a pre-tax impairment charge of $119 million was recorded in March 2016 within Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. On June 16, 2016, Generation initiated the sales process of its Upstream natural gas and oil exploration and production business by executing a forbearance agreement with the lenders of the nonrecourse debt, see Note 13 — Debt and Credit Agreements for additional information. An additional pre-tax impairment charge of $15 million was recorded in September 2016 within Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income due to further declines in fair value. In December 2016, Generation sold substantially all of the Upstream Assets. See Note 4 — Mergers, Acquisitions and Dispositions for additional information.

In the second quarter of 2016, updates to Exelon's long-term view of energy and capacity prices suggested that the carrying value of a group of merchant wind assets, located in West Texas, may be impaired. Upon review, the estimated undiscounted future cash flows and fair value of the group were less than their carrying value. The fair value analysis was based on the income approach using significant unobservable inputs (Level 3) including revenue and generation forecasts, projected capital and maintenance expenditures and discount rates. As a result of the fair value analysis, long-lived merchant wind assets held and used with a carrying amount of approximately $60 million were written down to their fair value of $24 million and a pre-tax impairment charge of $36 million was recorded during the second quarter of 2016 in Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Also in the second quarter of 2016, updates to Exelon's long-term view, as described above, in conjunction with the retirement announcements of the Quad Cities and Clinton nuclear plants in Illinois suggested that the carrying value of our Midwest asset group may be impaired. Generation completed a comprehensive review of the estimated undiscounted future cash flows of the Midwest asset group and no impairment charge was required.

The fair value analysis used in the above impairments was primarily based on the income approach using significant unobservable inputs (Level 3) including revenue, generation and production forecasts, projected capital and maintenance expenditures and discount rates. Changes in the assumptions described above could potentially result in future impairments of Exelon's long-lived assets, which could be material.

Like-Kind Exchange Transaction (Exelon)

In June 2000, UII, LLC (formerly Unicom Investments, Inc.) (UII), a wholly owned subsidiary of Exelon Corporation, entered into transactions pursuant to which UII invested in coal-fired generating station leases (Headleases) with the Municipal Electric Authority of Georgia (MEAG). The generating stations were leased back to MEAG as part of the transactions (Leases).

Pursuant to the applicable authoritative guidance, Exelon is required to review the estimated residual values of its direct financing lease investments at least annually and record an impairment charge if the review indicates an other-than-temporary decline in the fair value of the residual values below their carrying values. Exelon estimates the fair value of the residual values of its direct financing lease investments based on the income approach, which uses a discounted cash flow analysis, taking into consideration significant unobservable inputs (Level 3) including the expected revenues to be generated and costs to be incurred to operate the plants over their remaining useful lives subsequent to the lease end dates. Significant assumptions used in estimating the fair value include fundamental energy and capacity prices, fixed and variable costs, capital expenditure requirements, discount rates, tax rates and the estimated remaining useful lives of the plants. The estimated fair values also reflect the cash flows associated with the service contract option discussed above given that a market participant would take into consideration all of the terms and conditions contained in the lease agreements.

All the Headleases were terminated by the second quarter of 2016, and no events occurred prior to the termination that required Exelon to review the estimated residual values of the direct financing lease investments in 2016. On March 31, 2016, UII and MEAG finalized an agreement to terminate the MEAG Headleases, the MEAG Leases, and other related agreements prior to their expiration dates. As a result of the lease termination, UII received an early termination payment of $360 million from MEAG and wrote-off the $356 million net investment in the MEAG Headleases and the Leases. The transaction resulted in a pre-tax gain of $4 million which is reflected in Operating and maintenance expense in Exelon's Consolidated Statements of Operations and Comprehensive Income. See Note 14 — Income Taxes for additional information.

8 . Early Nuclear Plant Retirements (Exelon and Generation)

Exelon and Generation continue to evaluate the current and expected economic value of each of Generation's nuclear plants. Factors that will continue to affect the economic value of Generation's nuclear plants include, but are not limited to: market power prices, results of capacity auctions, potential legislative and regulatory solutions to ensure nuclear plants are fairly compensated for their carbon-free emissions, and the impact of final rules from the EPA requiring reduction of carbon and other emissions and the efforts of states to implement those final rules. The precise timing of an early retirement date for any nuclear plant, and the resulting financial statement impacts, may be affected by a number of factors, including the status of potential regulatory or legislative solutions, results of any transmission system reliability study assessments, the nature of any co-owner requirements and stipulations, and decommissioning trust fund requirements, among other factors. However, the earliest retirement date for any plant would usually be the first year in which the unit does not have capacity or other obligations, where applicable, and just prior to its next scheduled nuclear refueling outage.

In 2015 and 2016, Generation identified the Quad Cities, Clinton, Ginna, Nine Mile Point and Three Mile Island (TMI) nuclear plants as having the greatest risk of early retirement based on economic valuation and other factors. In 2017, PSEG has made public similar financial challenges facing its New Jersey nuclear plants including Salem, of which Generation owns a 42.59% ownership interest.

In Illinois, the Clinton and Quad Cities nuclear plants continued to face significant economic challenges and risk of retirement before the end of each unit's respective operating license period (2026 for Clinton and 2032 for Quad Cities). In April 2016, Clinton cleared the MISO primary reliability auction as a price taker for the 2016-2017 planning year. The resulting capacity price was insufficient to cover cash operating costs and a risk-adjusted rate of return to shareholders. In May 2016, Quad Cities did not clear in the PJM capacity auction for the 2019-2020 planning year. Based on these capacity auction results, and given the lack of progress on Illinois energy legislation and MISO market reforms, on June 2, 2016 Generation announced it would shut down the Clinton and Quad Cities nuclear plants on June 1, 2017 and June 1, 2018, respectively.

On December 7, 2016, Illinois FEJA was signed into law by the Governor of Illinois and included a ZES that provides compensation through the procurement of ZECs targeted at preserving the environmental attributes of zero-emissions nuclear-powered generating facilities that meet specific eligibility criteria, much like the solution implemented with the New York CES. The Illinois ZES will have a 10-year duration extending from June 1, 2017 through May 31, 2027. See Note 3 - Regulatory Matters for additional discussion on the Illinois FEJA and the ZES. With the passage of the Illinois ZES, and subject to prevailing over any related potential administrative or legal challenges , in December 2016 Generation reversed its June 2016 decision to permanently cease generation operations at the Clinton and Quad Cities nuclear generating plants.

In New York, the Ginna and Nine Mile Point nuclear plants continue to face significant economic challenges and risk of retirement before the end of each unit's respective operating license period (2029 for Ginna and Nine Mile Point Unit 1, and 2046 for Nine Mile Point Unit 2). On August 1, 2016, the NYPSC issued an order adopting the CES, which would provide payments to Ginna and Nine Mile Point for the environmental attributes of their production. On November 18, 2016, Ginna and Nine Mile Point executed the necessary contracts with NYSERDA, as required under the CES. Subject to prevailing over any administrative or legal challenges, the New York CES will allow Ginna and Nine Mile Point to continue to operate at least through the life of the program (March 31, 2029). The assumed useful life for depreciation purposes is through the end of their current operating licenses. The approved RSSA required Ginna to operate through the RSSA term expiring on March 31, 2017 and required notification to the NYPSC if Ginna did not plan to retire shortly after the expiration of the RSSA. On September 30, 2016, Ginna filed the required notice with the NYPSC of its intent to continue operating beyond the expiry

of the RSSA. Refer to Note 3 - Regulatory Matters for additional discussion on the Ginna RSSA and the New York CES.

Assuming the successful implementation of the Illinois ZES and the New York CES and the continued effectiveness of these programs, Generation and CENG, through its ownership of Ginna and Nine Mile Point, no longer consider Clinton, Quad Cities, Ginna or Nine Mile Point to be at heightened risk for early retirement. However, to the extent either the Illinois ZES or the New York CES programs do not operate as expected over their full terms, each of these plants could again be at heightened risk for early retirement, which could have a material impact on Exelon's and Generation's future results of operations, cash flows and financial positions.

In Pennsylvania, the TMI nuclear plant did not clear in the May 2017 PJM capacity auction for the 2020-2021 planning year, the third consecutive year that TMI failed to clear the PJM base residual capacity auction. The plant is currently committed to operate through May 2019 and is licensed to operate through 2034. On May 30, 2017, based on these capacity auction results, prolonged periods of low wholesale power prices, and the absence of federal or state policies that place a value on nuclear energy for its ability to produce electricity without air pollution, Exelon announced that Generation will permanently cease generation operations at TMI on or about September 30, 2019. Generation has filed the required market and regulatory notifications to shut down the plant. PJM has subsequently notified Generation that it has not identified any reliability issues and has approved the deactivation of TMI as proposed.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

As a result of these plant retirement decisions, Exelon and Generation recognized one-time charges in Operating and maintenance expense related to materials and supplies inventory reserve adjustments, employee-related costs and CWIP impairments, among other items. In addition to these one-time charges, annual incremental non-cash charges to earnings stemming from shortening the expected economic useful lives primarily related to accelerated depreciation of plant assets (including any ARC), accelerated amortization of nuclear fuel, and additional ARO accretion expense associated with the changes in decommissioning timing and cost assumptions were also recorded. See Note 15 — Asset Retirement Obligations for additional detail on changes to the nuclear decommissioning ARO balances. The total annual impact of these charges by year are summarized in the table below.

Income statement expense (pre-tax)	2017 [a]	2016 [b]
Depreciation and Amortization		
Accelerated depreciation [c]	$ 250	$ 712
Accelerated nuclear fuel amortization	12	60
Operating and Maintenance		
One-time charges [d,e]	77	26
Change in ARO accretion, net of any contractual offset [f]	—	2
Contractual offset for ARC depreciation [f]	—	(86)
Total	$ 339	$ 714

(a) Reflects incremental charges for TMI including incremental accelerated depreciation and amortization from May 30, 2017 through December 31, 2017.
(b) Reflects incremental charges for Clinton and Quad Cities including incremental accelerated depreciation and amortization from June 2, 2016 through December 6, 2016. In December 2016, as a result of reversing its retirement decision for Clinton and Quad Cities, Exelon and Generation updated the expected economic useful life for both facilities, to 2027 for Clinton, commensurate with the end of the Illinois ZES, and to 2032 for Quad Cities, the end of its current operating license. Depreciation was therefore adjusted beginning December 7, 2016, to reflect these extended useful life estimates.
(c) Reflects incremental accelerated depreciation of plant assets, including any ARC.
(d) Primarily includes materials and supplies inventory reserve adjustments, employee related costs and CWIP impairments.
(e) In June 2016, as a result of the retirement decision for Clinton and Quad Cities, Exelon and Generation recognized one-time charges of $146 million . In December 2016, as a result of reversing its retirement decision for Clinton and Quad Cities, Exelon and Generation reversed approximately $120 million of these one-time charges initially recorded in June 2016.
(f) For Quad Cities based on the regulatory agreement with the Illinois Commerce Commission, decommissioning-related activities are offset within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. The offset results in an equal adjustment to the noncurrent payables to ComEd at Generation and an adjustment to the regulatory liabilities at ComEd. Likewise, ComEd has recorded an equal noncurrent affiliate receivable from Generation and corresponding regulatory liability.

Although Salem is committed to operate through May 2021, the plant faces continued economic challenges and PSEG, as the operator of the plant, is exploring all options. The following table provides the balance sheet amounts as of December 31, 2017 for Generation’s ownership share of the significant assets and liabilities associated with Salem.

(Dollars in millions, except per share data unless otherwise noted)

9 . Jointly Owned Electric Utility Plant (Exelon, Generation, PECO, BGE, PHI, Pepco, DPL and ACE)

Exelon's, Generation's, PECO's, BGE's, PHI's and ACE's undivided ownership interests in jointly owned electric plants and transmission facilities at December 31, 2017 and 2016 were as follows:

	Nuclear Generation				Fossil-Fuel Generation	Transmission		Other
	Quad Cities	Peach Bottom	Salem [a]	Nine Mile Point Unit 2	Wyman	PA [b]	NJ/ DE [c]	Other [d]
Operator	Generation	Generation	PSEG Nuclear	Generation	FP&L	First Energy	PSEG/ DPL	various
Ownership interest	75.00%	50.00%	42.59%	82.00%	5.89%	various	various	various
Exelon's share at December 31, 2017:								
Plant [e]	$ 1,074	$ 1,417	$ 631	$ 839	$ 3	$ 27	$ 102	$ 15
Accumulated depreciation [e]	550	461	205	97	3	15	52	13
Construction work in progress	35	18	33	55	—	—	—	—
Exelon's share at December 31, 2016:								
Plant [e]	$ 1,054	$ 1,384	$ 596	$ 830	$ 3	$ 27	$ 97	$ 15
Accumulated depreciation [e]	515	407	186	68	3	15	52	13
Construction work in progress	—	16	41	37	—	—	—	—

(a) Generation also owns a proportionate share in the fossil-fuel combustion turbine at Salem, which is fully depreciated. The gross book value was $3 million at December 31, 2017 and 2016 .
(b) PECO, BGE, Pepco, DPL and ACE own a 22% , 7% , 27% , 9% and 8% share, respectively, in 127 miles of 500 kV lines located in Pennsylvania as well as a 20.72% , 10.56% , 9.72% , 3.72% and 3.83% share, respectively, of a 500 kV substation immediately outside of the Conemaugh fossil-generating station which supplies power to the 500 kV lines including, but not limited to, the lines noted above.
(c) PECO, DPL and ACE own a 42.55% , 1% and 13.9% share, respectively in 151.3 miles of 500 kV lines located in New Jersey and Delaware Station. PECO, DPL and ACE also own a 42.55% , 7.45% and 7.45% share, respectively, in 2.5 miles of 500 kV line located over the Delaware River. ACE also has a 21.78% share in a 500 kV New Freedom Switching
(d) Generation, DPL and ACE own a 44.24% , 4.83% and 11.91% share, respectively in assets located at Merrill Creek Reservoir located in New Jersey. Pepco, DPL and ACE own a 11.9% , 7.4% and 6.6% share, respectively, in Valley Forge Corporate Center.
(e) Excludes asset retirement costs.

Exelon's, Generation's, PECO's, BGE's, Pepco's, DPL's and ACE's undivided ownership interests are financed with their funds and all operations are accounted for as if such participating interests were wholly owned facilities. Exelon's, Generation's, PECO's, BGE's, Pepco's, DPL's and ACE's share of direct expenses of the jointly owned plants are included in Purchased power and fuel and Operating and maintenance expenses on Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income and in Operating and maintenance expenses on PECO's, BGE's, Pepco, DPL's and ACE's Consolidated Statements of Operations and Comprehensive Income.

10 . Intangible Assets (Exelon, Generation, ComEd, PECO, PHI, Pepco, DPL and ACE)

Goodwill

Exelon's, Generation's, ComEd's, PHI's and DPL's gross amount of goodwill, accumulated impairment losses and carrying amount of goodwill for the years ended December 31, 2017 and 2016 were as follows:

	Balance at January 1, 2016	Goodwill from business combination	Impairment losses	Measurement period adjustments [b]	Balance at December 31, 2016	Impairment losses	Balance at December 31, 2017
Exelon							
Gross amount	$ 4,655	$ 4,016	$ —	$ (11)	$ 8,660	$ —	$ 8,660
Accumulated impairment loss	1,983	—	—	—	1,983	—	1,983
Carrying amount	2,672	4,016	—	(11)	6,677	—	6,677
Generation

Accumulated impairment loss	12	—	—	—	12
Carrying amount	1,406	—	—	—	1,406

(a) Reflects goodwill recorded in 2000 from the PECO/Unicom (predecessor parent company of ComEd) merger net of amortization, resolution of tax matters and other non-impairment-related changes as allowed under previous authoritative guidance.

(b) Represents various measurement period adjustments to the valuation of the fair value of the PHI assets acquired and liabilities assumed as a result of the merger.

Goodwill is not amortized, but is subject to an assessment for impairment at least annually, or more frequently if events occur or circumstances change that would more likely than not reduce the fair value of the Exelon, Generation, ComEd, PHI and DPL reporting unit below its carrying amount. Under the authoritative guidance for goodwill, a reporting unit is an operating segment or one level below an operating segment (known as a component) and is the level at which goodwill is tested for impairment. A component of an operating segment is a reporting unit if the component constitutes a business for which discrete financial information is available and its operating results are regularly reviewed by segment management. Generation's operating segments are Mid-Atlantic, Midwest, New England, New York, ERCOT and all other power regions referred to collectively as “Other Power Regions”, PHI's operating segments are Pepco, DPL and ACE, and ComEd and DPL have a single operating segment. See Note 25 — Segment Information for additional information. There is no level below these operating segments for which operating results are regularly reviewed by segment management. Therefore, the ComEd, Pepco, DPL and ACE operating segments are also considered reporting units for goodwill impairment testing purposes. Exelon's and ComEd's $2.6 billion of goodwill has been assigned entirely to the ComEd reporting unit, while Exelon's and PHI's $4 billion of goodwill has been assigned to the Pepco, DPL and ACE reporting units in the amounts of $1.7 billion , $1.1 billion and $1.2 billion , respectively. DPL's $8 million of goodwill is assigned entirely to the DPL reporting unit.

Entities assessing goodwill for impairment have the option of first performing a qualitative assessment to determine whether a quantitative assessment is necessary. In performing a qualitative assessment, entities should assess, among other things, macroeconomic conditions, industry and market considerations, overall financial performance, cost factors and entity-specific events. If an entity determines, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not greater than the carrying amount, no further testing is required.

If an entity bypasses the qualitative assessment or performs the qualitative assessment, but determines that it is more likely than not that its fair value is less than its carrying amount, a quantitative two-step, fair value-based test is performed. Exelon's, Generation's, ComEd's, PHI's and DPL's accounting policy is to perform a quantitative test of goodwill at least once every three years. The first step in the quantitative test compares the fair value of the reporting unit to its carrying amount, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, the second step is performed. The second step requires an allocation of fair value to the individual assets and liabilities using purchase price allocation accounting guidance in order to determine the implied fair value of goodwill. If the implied fair value of goodwill is less than the carrying amount, an impairment loss is recorded as a reduction to goodwill and a charge to operating expense.

Application of the goodwill impairment test requires management judgment, including the identification of reporting units and determining the fair value of the reporting unit, which management estimates using a weighted combination of a discounted cash flow analysis and a market multiples analysis. Significant assumptions used in these fair value analyses include discount and growth rates, utility sector market performance and transactions, projected operating and capital cash flows for Generation's, ComEd's, Pepco's, DPL's and ACE's businesses and the fair value of debt. In applying the second step (if needed), management must estimate the fair value of specific assets and liabilities of the reporting unit.

2017 and 2016 Goodwill Impairment Assessment. Generation performed a quantitative test as of November 1, 2017, for its 2017 annual goodwill impairment assessment. The first step of the test comparing the estimated fair value of Generation's reporting unit with goodwill to its carrying value, including goodwill, indicated no impairments of goodwill; therefore, the second step was not required. Generation performed a qualitative test as of November 1, 2016, for its 2016 annual goodwill impairment assessment. Based on the qualitative factors assessed, Generation concluded that the fair value of its reporting units is more likely than not greater than the carrying amount, and no further testing was required.

As of November 1, 2017, ComEd, PHI and DPL each qualitatively determined that it was more likely than not that the fair value of its reporting units exceeded their carrying values and, therefore, did not perform a quantitative assessment. As part of their qualitative assessments, ComEd, PHI and DPL evaluated, among other things, management's best estimate of projected operating and capital cash flows for their businesses, outcomes of recent regulatory proceedings, changes in certain market conditions, including the discount rate and regulated utility peer company EBITDA multiples, while also considering, the passing margin from their last quantitative assessments.

ComEd, PHI and DPL performed quantitative tests as of November 1, 2016, for their 2016 annual goodwill impairment assessments. The first step of the tests comparing the estimated fair values of the ComEd, Pepco, DPL and ACE reporting units to their carrying values, including goodwill, indicated no impairments of goodwill; therefore, no second steps were required.

While the annual assessments indicated no impairments, certain assumptions used to estimate reporting unit fair values are highly sensitive to changes. Adverse regulatory actions or changes in significant assumptions could potentially result in future impairments of ComEd's, PHI's or DPL's goodwill, which could be material. Based on the results of the annual goodwill test performed as of November 1, 2016, the estimated fair values of the ComEd, Pepco, DPL and ACE reporting units would have needed to decrease by more than 30% , 10% , 10% and 10% , respectively, for ComEd and PHI to fail the first step of their respective impairment tests. The $8 million of goodwill recorded at DPL is related to DPL's 1995 acquisition of the Conowingo Power Company and the fair value of the DPL reporting unit would have needed to decrease by more than 50% for DPL to fail the first step of the impairment test.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Other Intangible Assets and Liabilities

Exelon's, Generation's, ComEd's and PHI's other intangible assets and liabilities, included in Unamortized energy contract assets and liabilities and Other deferred debits and other assets in their Consolidated Balance Sheets, consisted of the following as of December 31, 2017 and 2016 :

	December 31, 2017			December 31, 2016		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Exelon						
Software License [a]	$ 95	$ (25)	$ 70	$ 95	$ (15)	$ 80
Generation						
Unamortized Energy Contracts [b]	1,938	(1,574)	364	1,926	(1,543)	383
Customer Relationships	305	(133)	172	299	(109)	190
Trade Name	243	(148)	95	243	(125)	118
Service Contract Backlog	—	—	—	9	(7)	2
ComEd						
Chicago Settlement Agreements [c]	162	(141)	21	162	(133)	29
PHI						
Unamortized Energy Contracts [b]	(1,515)	766	(749)	(1,515)	430	(1,085)
Pepco						
DC Sponsorship Agreement [d]	—	—	—	25	—	25
Total	$ 1,228	$ (1,255)	$ (27)	$ 1,244	$ (1,502)	$ (258)

(a) On May 31, 2015, Exelon entered into a long-term software license agreement. Exelon is required to make payments starting August 2015 through May 2024. The intangible asset recognized as a result of these payments is being amortized on a straight-line basis over the contract term.
(b) Includes unamortized energy contract assets and liabilities on Exelon's, Generations and PHI's Consolidated Balance Sheets.
(c) In March 1999 and February 2003, ComEd entered into separate agreements with the City of Chicago and Midwest Generation, LLC. Under the terms of the settlement, ComEd agreed to make payments to the City of Chicago. The intangible asset recognized as a result of the settlement agreement is being amortized ratably over the remaining term of the City of Chicago franchise agreement.
(d) PHI entered into a sponsorship agreement with the District of Columbia for future sponsorship rights associated with public property within the District of Columbia. In December 2017, the asset was written off. See Note 7 - Impairment of Long-Lived Assets and Intangibles for additional information.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table summarizes the estimated future amortization expense related to intangible assets and liabilities as of December 31, 2017 :

For the Years Ending December 31,	Exelon	Generation	ComEd	PHI
2018	$ 10	$ 62	$ 7	$ (189)
2019	10	57	7	(119)
2020	10	68	7	(115)
2021	10	77	—	(92)
2022	10	54	—	(89)

The following table summarizes the amortization expense related to intangible assets and liabilities for each of the years ended December 31, 2017 , 2016 and 2015 :

For the Years Ended December 31,	Exelon [a]	Generation [a]	ComEd
2017	$ 92	$ 83	$ 7
2016	87	79	7
2015	76	69	7

(a) At Exelon, amortization of unamortized energy contracts totaling $35 million , $35 million and $22 million for the years ended December 31, 2017 , 2016 and 2015 , respectively, was recorded in Operating revenues or Purchased power and fuel expense within Exelon's Consolidated Statements of Operations and Comprehensive Income. At Generation, amortization of unamortized energy contracts totaling $35 million , $35 million and $22 million for the years ended December 31, 2017 , 2016 and 2015 , respectively, was recorded in Operating revenues or Purchased power and fuel expense within Generation's Consolidated Statements of Operations and Comprehensive Income

Acquired Intangible Assets and Liabilities

Accounting guidance for business combinations requires the acquirer to separately recognize identifiable intangible assets in the application of purchase accounting.

Unamortized Energy Contracts. Unamortized energy contract assets and liabilities represent the remaining unamortized fair value of non-derivative energy contracts that Exelon and Generation have acquired. The valuation of unamortized energy contracts was estimated by applying either the market approach or the income approach depending on the nature of the underlying contract. The market approach was utilized when prices and other relevant information generated by market transactions involving comparable transactions were available. Otherwise, the income approach, which is based upon discounted projected future cash flows associated with the underlying contracts, was utilized. The fair value is based upon certain unobservable inputs, which are considered Level 3 inputs, pursuant to applicable accounting guidance. Key estimates and inputs include forecasted power and fuel prices and the discount rate. The Exelon Wind unamortized energy contracts are amortized on a straight-line basis over the period in which the associated contract revenues are recognized as a decrease in Operating revenues within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. In the case of Antelope Valley, Constellation, CENG, Integrys and ConEdison, the fair value amounts are amortized over the life of the contract in relation to the present value of the underlying cash flows as of the acquisition dates through either Operating revenues or Purchased power and fuel expense within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. At PHI, offsetting regulatory assets or liabilities were also recorded. The unamortized energy contract assets and liabilities and any corresponding regulatory assets or liabilities, respectively, are amortized over the life of the contract in relation to the expected realization of the underlying cash flows.

Customer Relationships. The customer relationship intangibles were determined based on a "multi-period excess method" of the income approach. Under this method, the intangible asset's fair value is determined to be the estimated future cash flows that will be earned on the current customer base, taking into account expected contract renewals based on customer attrition rates and costs to retain those customers. The fair value is based upon certain unobservable inputs, which are considered Level 3 inputs, pursuant to applicable accounting guidance. Key assumptions include the customer attrition rate and the discount rate. The accounting guidance requires that customer-based intangibles be amortized over the period expected to be benefited using the pattern of economic benefit. The amortization of the customer relationships recorded in Depreciation and amortization expense within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Service Contract Backlog. The service contract backlog intangibles were determined based on a "multi-period excess method" of the income approach. Under this method, the intangible asset's fair value is determined to be the estimated future cash flows that will be earned on the contracts. The fair value is based upon certain unobservable inputs, which are considered Level 3 inputs, pursuant to applicable accounting guidance. Key assumptions include estimated revenues and expenses to complete the contracts as well as the discount rate. The accounting guidance requires that customer-based intangibles be amortized over the period expected to be benefited using the pattern of economic benefit. The amortization of the service contract backlog is recorded in Depreciation and amortization expense within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Trade Name. The Constellation trade name intangible was determined based on the relief from royalty method of income approach whereby fair value is determined to be the present value of the license fees avoided by owning the assets. The fair value is based upon certain unobservable inputs, which are considered Level 3 inputs, pursuant to applicable accounting guidance. Key assumptions include the hypothetical royalty rate and the discount rate. The Constellation trade name intangible is amortized on a straight-line basis over a period of 10 years . The amortization of the trade name is recorded in Depreciation and amortization expense within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Renewable Energy Credits and Alternative Energy Credits (Exelon, Generation, PECO, PHI, DPL and ACE)

Exelon's, Generation's, ComEd's, PECO's, PHI's, DPL's and ACE's other intangible assets, included in Other current assets and Other deferred debits and other assets on the Consolidated Balance Sheets, include RECs (Exelon, Generation, ComEd, PHI, DPL and ACE) and AECs (Exelon and PECO). Purchased RECs are recorded at cost on the date they are purchased. The cost of RECs purchased on a stand-alone basis is based on the transaction price, while the cost of RECs acquired through PPAs represents the difference between the total contract price and the market price of energy at contract inception. Generally, revenue for RECs that are part of a bundled power sale is recognized when the power is produced and delivered to the customer, otherwise, the revenue is recognized upon physical transfer of the REC.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table summarizes the current and noncurrent Renewable and Alternative Energy Credits for the years ended December 31, 2017 and 2016 :

	As of December 31, 2017					
				Successor		
	Exelon	Generation	PECO	PHI	DPL	ACE
Current AEC's	$ 1	$ —	$ 1	$ —	$ —	$ —

11 . Fair Value of Financial Assets and Liabilities (All Registrants)

Fair Value of Financial Liabilities Recorded at the Carrying Amount

The following tables present the carrying amounts and fair values of the Registrants' short-term liabilities, long-term debt, SNF obligation, and trust preferred securities (long-term debt to financing trusts or junior subordinated debentures) as of December 31, 2017 and 2016 :

Exelon

	December 31, 2017				
		Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Short-term liabilities	$ 929	$ —	$ 929	$ —	$ 929
Long-term debt (including amounts due within one year) [a]	34,264	—	34,735	1,970	36,705
Long-term debt to financing trusts [b]	389	—	—	431	431
SNF obligation	1,147	—	936	—	936

	December 31, 2016				
		Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Short-term liabilities	$ 1,267	$ —	$ 1,267	$ —	$ 1,267

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

(a) Includes unamortized debt issuance costs which are not fair valued of $201 million , $60 million , $52 million , $17 million , $17 million , $6 million , $32 million , $11 million and $5 million for Exelon, Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE respectively, as of December 31, 2017 . Includes unamortized debt issuance costs which are not fair valued of $200 million , $64 million , $46 million , $15 million , $15 million , $2 million , $30 million , $11 million and $6 million for Exelon, Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE respectively, as of December 31, 2016 .
(b) Includes unamortized debt issuance costs which are not fair valued of $1 million and $1 million for Exelon and ComEd, respectively, as of December 31, 2017 . Includes unamortized debt issuance costs which are not fair valued of $7 million , $1 million , and $6 million for Exelon, ComEd and BGE, respectively, as of December 31, 2016 .

Short-Term Liabilities. The short-term liabilities included in the tables above are comprised of dividends payable (included in Other current liabilities) (Level 1) and short-term borrowings (Level 2). The Registrants' carrying amounts of the short-term liabilities are representative of fair value because of the short-term nature of these instruments.

Long-Term Debt. The fair value amounts of Exelon's taxable debt securities (Level 2) and private placement taxable debt securities (Level 3) are determined by a valuation model that is based on a conventional discounted cash flow methodology and utilizes assumptions of current market pricing curves. In order to incorporate the credit risk of the Registrants into the discount rates, Exelon obtains pricing (i.e., U.S. Treasury rate plus credit spread) based on trades of existing Exelon debt securities as well as debt securities of other issuers in the utility sector with similar credit ratings in both the primary and secondary market, across the Registrants' debt maturity spectrum. The credit spreads of various tenors obtained from this information are added to the appropriate benchmark U.S. Treasury rates in order to determine the current market yields for the various tenors. The yields are then converted into discount rates of various tenors that are used for discounting the respective cash flows of the same tenor for each bond or note. Due to low trading volume of private placement debt, qualitative factors such as market conditions, low volume of investors and investor demand, this debt is classified as Level 3. The fair value of Exelon's equity units (Level 1) are valued based on publicly traded securities issued by Exelon.

The fair value of Generation's and Pepco's non-government-backed fixed rate nonrecourse debt (Level 3) is based on market and quoted prices for its own and other nonrecourse debt with similar risk profiles. Given the low trading volume in the nonrecourse debt market, the price quotes used to determine fair value will reflect certain qualitative factors, such as market conditions, investor demand, new developments that might significantly impact the project cash flows or off-taker credit, and other circumstances related to the project (e.g., political and regulatory environment). The fair value of Generation's government-backed fixed rate project financing debt (Level 3) is largely based on a discounted cash flow methodology that is similar to the taxable debt securities methodology described above. Due to the lack of market trading data on similar debt, the discount rates are derived based on the original loan interest rate spread to the applicable Treasury rate as well as a current market curve derived from government-backed securities. Variable rate financing debt resets on a monthly or quarterly basis and the carrying value approximates fair value (Level 2). When trading data is available on variable rate financing debt, the fair value is based on market and quoted prices for its own and other nonrecourse debt with similar risk profiles (Level 2). Generation, Pepco, DPL and ACE also have tax-exempt debt (Level 2). Due to low trading volume in this market, qualitative factors, such as market conditions, investor demand, and circumstances related to the issuer (e.g., conduit issuer political and regulatory environment), may be incorporated into the credit spreads that are used to obtain the fair value as described above. Variable rate tax-exempt debt (Level 2) resets on a regular basis and the carrying value approximates fair value.

SNF Obligation . The carrying amount of Generation's SNF obligation (Level 2) is derived from a contract with the DOE to provide for disposal of SNF from Generation's nuclear generating stations. When determining the fair value of the obligation, the future carrying amount of the SNF obligation is calculated by compounding the current book value of the SNF obligation at the 13-week Treasury rate. The compounded obligation amount is discounted back to present value using Generation's discount

rate, which is calculated using the same methodology as described above for the taxable debt securities, and an estimated maturity date of 2030. The carrying amount also includes $114 million as of December 31, 2017 for the one-time fee obligation associated with closing of the FitzPatrick acquisition on March 31, 2017. The fair value was determined using a similar methodology, however the New York Power Authority's (NYPA) discount rate is used in place of Generation's given the contractual right to reimbursement from NYPA for the obligation; see Note 4 - Mergers, Acquisitions and Dispositions for additional information on Generation's acquisition of FitzPatrick.

Long-Term Debt to Financing Trusts . Exelon's long-term debt to financing trusts is valued based on publicly traded securities issued by the financing trusts. Due to low trading volume of these securities, qualitative factors, such as market conditions, investor demand, and circumstances related to each issue, this debt is classified as Level 3.

Recurring Fair Value Measurements

Exelon records the fair value of assets and liabilities in accordance with the hierarchy established by the authoritative guidance for fair value measurements. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 — quoted prices (unadjusted) in active markets for identical assets or liabilities that the Registrants have the ability to liquidate as of the reporting date.
- Level 2 — inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
- Level 3 — unobservable inputs, such as internally developed pricing models or third-party valuations for the asset or liability due to little or no market activity for the asset or liability.

Transfers in and out of levels are recognized as of the end of the reporting period when the transfer occurred. Given derivatives categorized within Level 1 are valued using exchange-based quoted prices within observable periods, transfers between Level 2 and Level 1 were not material. Additionally, there were no material transfers between Level 1 and Level 2 during the years ended December 31, 2017 and 2016 for Cash equivalents, Nuclear decommissioning trust fund investments, Pledged assets for Zion Station decommissioning, Rabbi trust investments, and Deferred compensation obligations. For derivative contracts, transfers into Level 2 from Level 3 generally occur when the contract tenor becomes more observable and due to changes in market liquidity or assumptions for certain commodity contracts.

Generation and Exelon

In accordance with the applicable guidance on fair value measurement, certain investments that are measured at fair value using the NAV per share as a practical expedient are no longer classified within the fair value hierarchy and are included under "Not subject to leveling" in the table below.

The following tables present assets and liabilities measured and recorded at fair value on Exelon's and Generation's Consolidated Balance Sheets on a recurring basis and their level within the fair value hierarchy as of December 31, 2017 and 2016 :

	Generation					Exelon

(a) Generation excludes cash of $259 million and $252 million at December 31, 2017 and 2016 and restricted cash of $127 million and $157 million at December 31, 2017 and 2016 . Exelon excludes cash of $389 million and $360 million at December 31, 2017 and 2016 and restricted cash of $145 million and $180 million at December 31, 2017 and 2016 and includes long-term restricted cash of $85 million and $25 million at December 31, 2017 and 2016 , which is reported in Other deferred debits on the Consolidated Balance Sheets.
(b) Includes $77 million and $29 million of cash received from outstanding repurchase agreements at December 31, 2017 and 2016 , respectively, and is offset by an obligation to repay upon settlement of the agreement as discussed in (d) below.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

(c) Includes derivative instruments of less than $1 million and $(2) million , which have a total notional amount of $811 million and $933 million at December 31, 2017 and 2016 , respectively. The notional principal amounts for these instruments provide one measure of the transaction volume outstanding as of the fiscal years ended and do not represent the amount of the company's exposure to credit or market loss.
(d) Excludes net liabilities of $82 million and $31 million at December 31, 2017 and 2016 , respectively. These items consist of receivables related to pending securities sales, interest and dividend receivables, repurchase agreement obligations, and payables related to pending securities purchases. The repurchase agreements are generally short-term in nature with durations generally of 30 days or less.
(e) Collateral posted/(received) from counterparties totaled $65 million , $320 million and $81 million allocated to Level 1, Level 2 and Level 3 mark-to-market derivatives, respectively, as of December 31, 2017 . Collateral posted/(received) from counterparties totaled $71 million , $197 million and $61 million allocated to Level 1, Level 2 and Level 3 mark-to-market derivatives, respectively, as of December 31, 2016 .
(f) Of the collateral posted/(received), $(117) million and $(158) million represents variation margin on the exchanges as of December 31, 2017 and 2016 , respectively.

ComEd, PECO and BGE

(a) Other, net activity consists of realized and unrealized gains (losses) included in income for the NDT funds held by Generation, accrued interest on a convertible promissory note at Generation and the life insurance contracts held by PHI and Pepco.
(b) Successor period represents activity from March 24, 2016 to December 31, 2016 . See the subsequent table for PHI's predecessor periods, as well as activity for Pepco for the year ended December 31, 2017 and 2016 .

Valuation Techniques Used to Determine Fair Value

The following describes the valuation techniques used to measure the fair value of the assets and liabilities shown in the tables above.

Cash Equivalents (Exelon, Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE). The Registrants' cash equivalents include investments with original maturities of three months or less when purchased. The cash equivalents shown in the fair value tables are comprised of investments in mutual and money market funds. The fair values of the shares of these funds are based on observable market prices and, therefore, have been categorized in Level 1 in the fair value hierarchy.

Preferred Stock Derivative (PHI). In connection with entering into the PHI Merger Agreement, PHI entered into a Subscription Agreement with Exelon dated April 29, 2014, pursuant to which PHI issued to Exelon shares of preferred stock. The preferred stock contained embedded features requiring separate accounting consideration to reflect the potential value to PHI that any issued and outstanding preferred stock could be called and redeemed at a nominal par value upon a termination of the merger agreement under certain circumstances due to the failure to obtain required regulatory approvals. The embedded call and redemption features on the shares of the preferred stock in the event of such a termination were separately accounted for as derivatives. These preferred stock derivatives were valued quarterly using quantitative and qualitative factors, including management's assessment of the likelihood of a Regulatory Termination and therefore, were categorized in Level 3 in the fair value hierarchy. As a result of the PHI Merger, the PHI preferred stock derivative was reduced to zero as of March 23, 2016 . The write-off was charged to Other, net on the PHI Consolidated Statement of Operations and Comprehensive Income.

Nuclear Decommissioning Trust Fund Investments and Pledged Assets for Zion Station Decommissioning (Exelon and Generation). The trust fund investments have been established to satisfy Generation's and CENG's nuclear decommissioning obligations as required by the NRC. The NDT funds hold debt and equity securities directly and indirectly through commingled funds and mutual funds, which are included in Equities and Fixed Income. Generation's and CENG's NDT fund investments policies outline investment guidelines for the trusts and limit the trust funds' exposures to investments in highly illiquid markets and other alternative investments. Investments with maturities of three months or less when purchased, including certain short-term fixed income securities are considered cash equivalents and included in the recurring fair value measurements hierarchy as Level 1 or Level 2.

With respect to individually held equity securities, the trustees obtain prices from pricing services, whose prices are generally obtained from direct feeds from market exchanges, which Generation is able to independently corroborate. The fair values of equity securities held directly by the trust funds which are based on quoted prices in active markets are categorized in Level 1. Certain equity securities have been categorized as Level 2 because they are based on evaluated prices that reflect observable market

information, such as actual trade information or similar securities. Equity securities held individually are primarily traded on the New York Stock Exchange and NASDAQ-Global Select Market, which contain only actively traded securities due to the volume trading requirements imposed by these exchanges.

For fixed income securities, multiple prices from pricing services are obtained whenever possible, which enables cross-provider validations in addition to checks for unusual daily movements. A primary price source is identified based on asset type, class or issue for each security. With respect to individually held fixed income securities, the trustees monitor prices supplied by pricing services and may use a supplemental price source or change the primary price source of a given security if the portfolio managers challenge an assigned price and the trustees determine that another price source is considered to be preferable. Generation has obtained an understanding of how these prices are derived, including the nature and observability of the inputs used in deriving such prices. Additionally, Generation selectively corroborates the fair values of securities by comparison to other market-based price sources. U.S. Treasury securities are categorized as Level 1 because they trade in a highly liquid and transparent market. The fair values of fixed income securities, excluding U.S. Treasury securities, are based on evaluated prices that reflect observable market information, such as actual trade information or similar securities, adjusted for observable differences and are categorized in Level 2. The fair values of private placement fixed income securities, which are included in Corporate debt, are determined using a third-party valuation that contains significant unobservable inputs and are categorized in Level 3.

Equity and fixed income commingled funds and mutual funds are maintained by investment companies and hold certain investments in accordance with a stated set of fund objectives such as holding short-term fixed income securities or tracking the performance of certain equity indices by purchasing equity securities to replicate the capitalization and characteristics of the indices. The values of some of these funds are publicly quoted. For mutual funds which are publicly quoted, the funds are valued based on quoted prices in active markets and have been categorized as Level 1. For commingled funds and mutual funds, which are not publicly quoted, the funds are valued using NAV as a practical expedient for fair value, which is primarily derived from the quoted prices in active markets on the underlying securities, and are not classified within the fair value hierarchy. These investments typically can be redeemed monthly with 30 or less days of notice and without further restrictions.

Derivative instruments consisting primarily of futures and interest rate swaps to manage risk are recorded at fair value. Over the counter derivatives are valued daily based on quoted prices in active markets and trade in open markets, and have been categorized as Level 1. Derivative instruments other than over the counter derivatives are valued based on external price data of comparable securities and have been categorized as Level 2.

Middle market lending are investments in loans or managed funds which lend to private companies. Generation elected the fair value option for its investments in certain limited partnerships that invest in middle market lending managed funds. The fair value of these loans is determined using a combination of valuation models including cost models, market models, and income models. Investments in loans are categorized as Level 3 because the fair value of these securities is based largely on inputs that are unobservable and utilize complex valuation models. Managed funds are valued using NAV or its equivalent as a practical expedient, and therefore, are not classified within the fair value hierarchy. Investments in middle market lending typically cannot be redeemed until maturity of the term loan.

Private equity and real estate investments include those in limited partnerships that invest in operating companies and real estate holding companies that are not publicly traded on a stock exchange, such as, leveraged buyouts, growth capital, venture capital, distressed investments, investments in natural resources, and direct investments in pools of real estate properties. The fair value of private equity and real estate investments is determined using NAV or its equivalent as a practical expedient, and therefore, are not classified within the fair value hierarchy. These investments typically cannot be redeemed and are generally liquidated over a period of 8 to 10 years from the initial investment date.

Private equity and real estate valuations are reported by the fund manager and are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows, market based comparable data, and independent appraisals from sources with professional qualifications. These valuation inputs are unobservable.

As of December 31, 2017 , Generation has outstanding commitments to invest in fixed income, middle market lending, private equity and real estate investments of approximately $65 million , $363 million , $220 million and $118 million , respectively. These commitments will be funded by Generation's existing nuclear decommissioning trust funds.

Concentrations of Credit Risk. Generation evaluated its NDT portfolios for the existence of significant concentrations of credit risk as of December 31, 2017 . Types of concentrations that were evaluated include, but are not limited to, investment concentrations in a single entity, type of industry, foreign country, and individual fund. As of December 31, 2017 , there were no significant concentrations (generally defined as greater than 10 percent) of risk in Generation's NDT assets.

See Note 15 — Asset Retirement Obligations for further discussion on the NDT fund investments.

Rabbi Trust Investments (Exelon, Generation, PECO, BGE, PHI, Pepco, DPL and ACE). The Rabbi trusts were established to hold assets related to deferred compensation plans existing for certain active and retired members of Exelon's executive management and directors. The Rabbi trusts' assets are included in investments in the Registrants' Consolidated Balance Sheets and consist primarily of money market funds, mutual funds, fixed income securities and life insurance policies. The mutual funds are maintained by investment companies and hold certain investments in accordance with a stated set of fund objectives, which are consistent with Exelon's overall investment strategy. Money market funds and mutual funds are publicly quoted and have been categorized as Level 1 given the clear observability of the prices. The fair values of fixed income securities are based on evaluated prices that reflect observable market information, such as actual trade information or similar securities, adjusted for observable differences and are categorized in Level 2. The life insurance policies are valued using the cash surrender value of the policies, net of loans against those policies, which is provided by a third-party. Certain life insurance policies, which consist primarily of mutual funds that are priced based on observable market data, have been categorized as Level 2 because the life insurance policies can be liquidated at the reporting date for the value of the underlying assets. Life insurance policies that are valued using unobservable inputs have been categorized as Level 3.

Mark-to-Market Derivatives (Exelon, Generation, ComEd, PHI and DPL) . Derivative contracts are traded in both exchange-based and non-exchange-based markets. Exchange-based derivatives that are valued using unadjusted quoted prices in active markets are categorized in Level 1 in the fair value hierarchy. Certain derivatives' pricing is verified using indicative price quotations available through brokers or over-the-counter, on-line exchanges and are categorized in Level 2. These price quotations reflect the average of the bid-ask, mid-point prices and are obtained from sources that the Registrants believe provide the most liquid market for the commodity. The price quotations are reviewed and corroborated to ensure the prices are observable and representative of an orderly transaction between market participants. This includes consideration of actual transaction volumes, market delivery points, bid-ask spreads and contract duration. The remainder of derivative contracts are valued using the Black model, an industry standard option valuation model. The Black model takes into account inputs such as contract terms, including maturity, and market parameters, including assumptions of the future prices of energy, interest rates, volatility, credit worthiness and credit spread. For derivatives that trade in liquid markets, such as generic forwards, swaps and options, model inputs are generally observable. Such instruments are categorized in Level 2. The Registrants' derivatives are predominantly at liquid trading points. For derivatives that trade in less liquid markets with limited pricing information model inputs generally would include both observable and unobservable inputs. These valuations may include an

estimated basis adjustment from an illiquid trading point to a liquid trading point for which active price quotations are available. Such instruments are categorized in Level 3.

Exelon may utilize fixed-to-floating interest rate swaps, which are typically designated as fair value hedges, as a means to achieve its targeted level of variable-rate debt as a percent of total debt. In addition, the Registrants may utilize interest rate derivatives to lock in interest rate levels in anticipation of future financings. These interest rate derivatives are typically designated as cash flow hedges. Exelon determines the current fair value by calculating the net present value of expected payments and receipts under the swap agreement, based on and discounted by the market's expectation of future interest rates. Additional inputs to the net present value calculation may include the contract terms, counterparty credit risk and other market parameters. As these inputs are based on observable data and valuations of similar instruments, the interest rate swaps are categorized in Level 2 in the fair value hierarchy. See Note 12 — Derivative Financial Instruments for further discussion on mark-to-market derivatives.

Deferred Compensation Obligations (Exelon, Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE). The Registrants' deferred compensation plans allow participants to defer certain cash compensation into a notional investment account. The Registrants include such plans in other current and noncurrent liabilities in their Consolidated Balance Sheets. The value of the Registrants' deferred compensation obligations is based on the market value of the participants' notional investment accounts. The underlying notional investments are comprised primarily of equities, mutual funds, commingled funds and fixed income securities which are based on directly and indirectly observable market prices. Since the deferred compensation obligations themselves are not exchanged in an active market, they are categorized as Level 2 in the fair value hierarchy.

The value of certain employment agreement obligations (which are included with the Deferred Compensation Obligation in the tables above) are based on a known and certain stream of payments to be made over time and are categorized as Level 2 within the fair value hierarchy.

Additional Information Regarding Level 3 Fair Value Measurements (Exelon, Generation, ComEd, PHI, Pepco, DPL and ACE)

Nuclear Decommissioning Trust Fund Investments and Pledged Assets for Zion Station Decommissioning (Exelon and Generation). For middle market lending and certain corporate debt securities investments, the fair value is determined using a combination of valuation models including cost models, market models and income models. The valuation estimates are based on discounting the forecasted cash flows, market-based comparable data, credit and liquidity factors, as well as other factors that may impact value. Significant judgment is required in the application of discounts or premiums applied for factors such as size, marketability, credit risk and relative performance.

Because Generation relies on third-party fund managers to develop the quantitative unobservable inputs without adjustment for the valuations of its Level 3 investments, quantitative information about significant unobservable inputs used in valuing these investments is not reasonably available to Generation. This includes information regarding the sensitivity of the fair values to changes in the unobservable inputs. Generation gains an understanding of the fund managers' inputs and assumptions used in preparing the valuations. Generation performed procedures to assess the reasonableness of the valuations.

Rabbi Trust Investments - Life insurance contracts (Exelon, PHI, Pepco, DPL and ACE). For life insurance policies categorized as Level 3, the fair value is determined based on the cash surrender value of the policy, which contains unobservable inputs and assumptions. Because Exelon relies on its third-party insurance provider to develop the inputs without adjustment for the valuations of its Level 3 investments, quantitative information about significant unobservable inputs used in valuing these investments is not reasonably available to Exelon. Exelon gains an understanding of the types of inputs

and assumptions used in preparing the valuations and performs procedures to assess the reasonableness of the valuations.

Mark-to-Market Derivatives (Exelon, Generation and ComEd). For valuations that include both observable and unobservable inputs, if the unobservable input is determined to be significant to the overall inputs, the entire valuation is categorized in Level 3. This includes derivatives valued using indicative price quotations whose contract tenure extends into unobservable periods. In instances where observable data is unavailable, consideration is given to the assumptions that market participants would use in valuing the asset or liability. This includes assumptions about market risks such as liquidity, volatility and contract duration. Such instruments are categorized in Level 3 as the model inputs generally are not observable. Exelon's RMC approves risk management policies and objectives for risk assessment, control and valuation, counterparty credit approval, and the monitoring and reporting of risk exposures. The RMC is chaired by the chief executive officer and includes the chief risk officer, chief strategy officer, chief executive officer of Exelon Utilities, chief commercial officer, chief financial officer and chief executive officer of Constellation. The RMC reports to the Finance and Risk Committee of the Exelon Board of Directors on the scope of the risk management activities. Forward price curves for the power market utilized by the front office to manage the portfolio, are reviewed and verified by the middle office, and used for financial reporting by the back office. The Registrants consider credit and nonperformance risk in the valuation of derivative contracts categorized in Level 2 and 3, including both historical and current market data in its assessment of credit and nonperformance risk by counterparty. Due to master netting agreements and collateral posting requirements, the impacts of credit and nonperformance risk were not material to the financial statements.

Disclosed below is detail surrounding the Registrants' significant Level 3 valuations. The calculated fair value includes marketability discounts for margining provisions and other attributes. Generation's Level 3 balance generally consists of forward sales and purchases of power and natural gas and certain transmission congestion contracts. Generation utilizes various inputs and factors including market data and assumptions that market participants would use in pricing assets or liabilities as well as assumptions about the risks inherent in the inputs to the valuation technique. The inputs and factors include forward commodity prices, commodity price volatility, contractual volumes, delivery location, interest rates, credit quality of counterparties and credit enhancements.

For commodity derivatives, the primary input to the valuation models is the forward commodity price curve for each instrument. Forward commodity price curves are derived by risk management for liquid locations and by the traders and portfolio managers for illiquid locations. All locations are reviewed and verified by risk management considering published exchange transaction prices, executed bilateral transactions, broker quotes, and other observable or public data sources. The relevant forward commodity curve used to value each of the derivatives depends on a number of factors, including commodity type, delivery location, and delivery period. Price volatility varies by commodity and location. When appropriate, Generation discounts future cash flows using risk free interest rates with adjustments to reflect the credit quality of each counterparty for assets and Generation's own credit quality for liabilities. The level of observability of a forward commodity price varies generally due to the delivery location and delivery period. Certain delivery locations including PJM West Hub (for power) and Henry Hub (for natural gas) are more liquid and prices are observable for up to three years in the future. The observability period of volatility is generally shorter than the underlying power curve used in option valuations. The forward curve for a less liquid location is estimated by using the forward curve from the liquid location and applying a spread to represent the cost to transport the commodity to the delivery location. This spread does not typically represent a majority of the instrument's market price. As a result, the change in fair value is closely tied to liquid market movements and not a change in the applied spread. The change in fair value associated with a change in the spread is generally immaterial. An average spread calculated across all Level 3 power and gas delivery locations is approximately $2.99 and $0.42 for power and natural gas, respectively. Many of the commodity derivatives are short term in nature and thus a majority of the

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

fair value may be based on observable inputs even though the contract as a whole must be classified as Level 3.

On December 17, 2010, ComEd entered into several 20-year floating to fixed energy swap contracts with unaffiliated suppliers for the procurement of long-term renewable energy and associated RECs. See Note 12 — Derivative Financial Instruments for more information. The fair value of these swaps has been designated as a Level 3 valuation due to the long tenure of the positions and internal modeling assumptions. The modeling assumptions include using natural gas heat rates to project long term forward power curves adjusted by a renewable factor that incorporates time of day and seasonality factors to reflect accurate renewable energy pricing. In addition, marketability reserves are applied to the positions based on the tenor and supplier risk.

The following tables present the significant inputs to the forward curve used to value these positions:

Type of trade	Fair Value at December 31, 2017	Valuation Technique	Unobservable Input	Range		
Mark-to-market derivatives—Economic hedges (Exelon and Generation) [a][b]	$ 445	Discounted Cash Flow	Forward power price	$3	-	$124
			Forward gas price	$1.27	-	$12.80
		Option Model	Volatility percentage	11%	-	139%
Mark-to-market derivatives—Proprietary trading (Exelon and Generation) [a][b]	$ 26	Discounted Cash Flow	Forward power price	$14	-	$94
Mark-to-market derivatives (Exelon and ComEd)	$ (256)	Discounted Cash Flow	Forward heat rate [c]	9x	-	10x
			Marketability reserve	4%	-	8%
			Renewable factor	88%	-	120%

(a) The valuation techniques, unobservable inputs and ranges are the same for the asset and liability positions.
(b) The fair values do not include cash collateral posted on level three positions of $81 million as of December 31, 2017 .
(c) Quoted forward natural gas rates are utilized to project the forward power curve for the delivery of energy at specified future dates. The natural gas curve is extrapolated beyond its observable period to the end of the contract's delivery.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Type of trade	Fair Value at December 31, 2016	Valuation Technique	Unobservable Input	Range		
Mark-to-market derivatives—Economic hedges (Exelon and Generation) [a][b]	$ 435	Discounted Cash Flow	Forward power price	$11	-	$130
			Forward gas price	$1.72	-	$9.20
		Option Model	Volatility percentage	8%	-	173%
Mark-to-market derivatives— Proprietary trading (Exelon and Generation) [a][b]	$ (3)	Discounted Cash Flow	Forward power price	$19	-	$79
Mark-to-market derivatives (Exelon and ComEd)	$ (258)	Discounted Cash Flow	Forward heat rate [c]	8x	-	9x
			Marketability reserve	3%	-	8%
			Renewable factor	89%	-	121%

(a) The valuation techniques, unobservable inputs and ranges are the same for the asset and liability positions.
(b) The fair values do not include cash collateral posted on level three positions of $61 million as of December 31, 2016
(c) Quoted forward natural gas rates are utilized to project the forward power curve for the delivery of energy at specified future dates. The natural gas curve is extrapolated beyond its observable period to the end of the contract's delivery.

The inputs listed above would have a direct impact on the fair values of the above instruments if they were adjusted. The significant unobservable inputs used in the fair value measurement of Generation's commodity derivatives are forward commodity prices and for options is price volatility. Increases (decreases) in the forward commodity price in isolation would result in significantly higher (lower) fair values for long positions (contracts that give Generation the obligation or option to purchase a commodity), with offsetting impacts to short positions (contracts that give Generation the obligation or right to sell a commodity). Increases (decreases) in volatility would increase (decrease) the value for the holder of the option (writer of the option). Generally, a change in the estimate of forward commodity prices is unrelated to a change in the estimate of volatility of prices. An increase to the reserves listed above would decrease the fair value of the positions. An increase to the heat rate or renewable factors would increase the fair value accordingly. Generally, interrelationships exist between market prices of natural gas and power. As such, an increase in natural gas pricing would potentially have a similar impact on forward power markets.

12 . Derivative Financial Instruments (All Registrants)

The Registrants use derivative instruments to manage commodity price risk, interest rate risk and foreign exchange risk related to ongoing business operations.

Commodity Price Risk (All Registrants)

To the extent the total amount of power Generation produces and purchases differs from the amount of power it has contracted to sell, Exelon and Generation are exposed to market fluctuations in the prices of electricity, fossil fuels and other commodities. Each of the Registrants employ established policies and procedures to manage their risks associated with market fluctuations in commodity prices by entering into physical and financial derivative contracts, including swaps, futures, forwards, options and short-term and long-term commitments to purchase and sell energy and commodity products. The Registrants believe these instruments, which are either determined to be non-derivative or classified as economic hedges, mitigate exposure to fluctuations in commodity prices.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Derivative authoritative guidance requires that derivative instruments be recognized as either assets or liabilities at fair value, with changes in fair value of the derivative recognized in earnings immediately. Other accounting treatments are available through special election and designation, provided they meet specific, restrictive criteria both at the time of designation and on an ongoing basis. These alternative permissible accounting treatments include normal purchases and normal sales (NPNS), cash flow hedges and fair value hedges. For Generation, all derivative economic hedges related to commodities are recorded at fair value through earnings for the consolidated company, referred to as economic hedges in the following tables. Additionally, Generation is exposed to certain market risks through its proprietary trading activities. The proprietary trading activities are a complement to Generation's energy marketing portfolio but represent a small portion of Generation's overall energy marketing activities.

Fair value authoritative guidance and disclosures about offsetting assets and liabilities requires the fair value of derivative instruments to be shown in the Notes to the Consolidated Financial Statements on a gross basis, even when the derivative instruments are subject to legally enforceable master netting agreements and qualify for net presentation in the Consolidated Balance Sheet. A master netting agreement is an agreement between two counterparties that may have derivative and non-derivative contracts with each other providing for the net settlement of all referencing contracts via one payment stream, which takes place as the contracts deliver, when collateral is requested or in the event of default. Generation's use of cash collateral is generally unrestricted unless Generation is downgraded below investment grade (i.e., to BB+ or Ba1). In the table below, Generation's energy related economic hedges and proprietary trading derivatives are shown gross. The impact of the netting of fair value balances with the same counterparty that are subject to legally enforceable master netting agreements, as well as netting of cash collateral including initial margin on exchange positions, is aggregated in the collateral and netting column. As of December 31, 2017 and 2016 , $4 million and $8 million of cash collateral held, respectively, was not offset against derivative positions because such collateral was not associated with any energy-related derivatives, were associated with accrual positions, or had no positions to offset as of the balance sheet date. Excluded from the tables below are economic hedges that qualify for the NPNS scope exception and other non-derivative contracts that are accounted for under the accrual method of accounting.

ComEd's use of cash collateral is generally unrestricted unless ComEd is downgraded below investment grade (i.e., to BB+ or Ba1).

Cash collateral held by BGE and PECO must be deposited in a non-affiliate major U.S. commercial bank or foreign bank with a U.S. branch office that meet certain qualifications.

In the table below, DPL's economic hedges are shown gross. The impact of the netting of fair value balances with the same counterparty that are subject to legally enforceable master netting agreements, as well as netting of cash collateral, including margin on exchange positions, is aggregated in the collateral and netting column.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table provides a summary of the derivative fair value balances related to commodity contracts recorded by the Registrants as of December 31, 2017 :

											Successor
	Generation				ComEd	DPL			PHI	Exelon	
Description	Economic Hedges	Proprietary Trading	Collateral and Netting [b][c]	Subtotal [b]	Economic Hedges [c]	Economic Hedges [d]	Collateral and Netting [a]	Subtotal	Subtotal	Total Derivatives	
Mark-to-market derivative assets (current assets)	$ 3,061	$ 56	$ (2,144)	$ 973	$ —	$ —	$ —	$ —	$ —	$ 973	
Mark-to-market derivative assets (noncurrent assets)	1,164	12	(845)	331	—	—	—	—	—	331	
Total mark-to-market derivative assets	4,225	68	(2,989)	1,304	—	—	—	—	—	1,304	
Mark-to-market derivative liabilities (current liabilities)	(2,646)	(43)	2,480	(209)	(21)	(1)	1	—	—	(230)	
Mark-to-market derivative liabilities (noncurrent liabilities)	(1,137)	(10)	975	(172)	(235)	—	—	—	—	(407)	
Total mark-to-market derivative liabilities	(3,783)	(53)	3,455	(381)	(256)	(1)	1	—	—	(637)	
Total mark-to-market derivative net assets (liabilities)	$ 442	$ 15	$ 466	$ 923	$ (256)	$ (1)	$ 1	$ —	$ —	$ 667	

(a) Exelon, Generation, PHI and DPL net all available amounts allowed under the derivative authoritative guidance on the balance sheet. These amounts include unrealized derivative transactions with the same counterparty under legally enforceable master netting agreements and cash collateral. In some cases, Exelon and Generation may have other offsetting exposures, subject to a master netting or similar agreement, such as trade receivables and payables, transactions that do not qualify as derivatives, letters of credit and other forms of non-cash collateral. These are not reflected in the table above.
(b) Current and noncurrent assets are shown net of collateral of $169 million and $53 million , respectively, and current and noncurrent liabilities are shown net of collateral of $167 million and $77 million , respectively. The total cash collateral posted, net of cash collateral received and offset against mark-to-market assets and liabilities was $466 million at December 31, 2017.
(c) Includes current and noncurrent liabilities relating to floating-to-fixed energy swap contracts with unaffiliated suppliers.
(d) Represents natural gas futures purchased by DPL as part of a natural gas hedging program approved by the DPSC.
(e) Of the collateral posted/(received), $(117) million represents variation margin on the exchanges.

Mark-to-market derivative liabilities (noncurrent liabilities)	(1,274)	(25)	1,150	(149)	(239)	—	—	—	—	(388)	
Total mark-to-market derivative liabilities	(4,439)	(79)	4,114	(404)	(258)	—	—	—	—	(662)	
Total mark-to-market derivative net assets (liabilities)	$ 651	$ (3)	$ 329	$ 977	$ (258)	$ 2	$ (2)	$ —	$ —	$ 719	

(a) Exelon, Generation, PHI and DPL net all available amounts allowed under the derivative authoritative guidance on the balance sheet. These amounts include unrealized derivative transactions with the same counterparty under legally enforceable master netting agreements and cash collateral. In some cases, Exelon and Generation may have other offsetting exposures, subject to a master netting or similar agreement, such as trade receivables and payables, transactions that do not qualify as derivatives, and letters of credit and other forms of non-cash collateral. These are not reflected in the table above.
(b) Current and noncurrent assets are shown net of collateral of $100 million and $72 million , respectively, and current and noncurrent liabilities are shown net of collateral of $95 million and $62 million , respectively. The total cash collateral posted, net of cash collateral received and offset against mark-to-market assets and liabilities was $329 million at December 31, 2016 .
(c) Includes current and noncurrent liabilities relating to floating-to-fixed energy swap contracts with unaffiliated suppliers.
(d) Represents natural gas futures purchased by DPL as part of a natural gas hedging program approved by the DPSC.
(e) Of the collateral posted/(received), $(158) million represents variation margin on the exchanges.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Economic Hedges (Commodity Price Risk)

Within Exelon, Generation has the most exposure to commodity price risk. As such, Generation uses a variety of derivative and non-derivative instruments to manage the commodity price risk of its electric generation facilities, including power and gas sales, fuel and power purchases, natural gas transportation and pipeline capacity agreements and other energy-related products marketed and purchased. To manage these risks, Generation may enter into fixed-price derivative or non-derivative contracts to hedge the variability in future cash flows from expected sales of power and gas and purchases of power and fuel. The objectives for executing such hedges include fixing the price for a portion of anticipated future electricity sales at a level that provides an acceptable return. Generation is also exposed to differences between the locational settlement prices of certain economic hedges and the hedged generating units. This price difference is actively managed through other instruments which include derivative congestion products, whose changes in fair value are recognized in earnings each period, and auction revenue rights, which are accounted for on an accrual basis. For the years ended December 31, 2017 , 2016 and 2015 , Exelon and Generation recognized the following net pre-tax commodity mark-to-market gains (losses) which are also located in the "Net fair value changes related to derivatives" on the Consolidated Statements of Cash Flows.

	For the Years Ended December 31,		
	2017	2016	2015
Income Statement Location	Gain (Loss)		
Operating revenues	$ (126)	$ (490)	$ 196
Purchased power and fuel	(43)	459	54
Total Exelon and Generation	$ (169)	$ (31)	$ 250

In general, increases and decreases in forward market prices have a positive and negative impact, respectively, on Generation's owned and contracted generation positions which have not been hedged. Generation hedges commodity price risk on a ratable basis over three-year periods. As of December 31, 2017 , the percentage of expected generation hedged is 85% - 88% , 55% - 58% and 26% - 29% for 2018 , 2019 and 2020 , respectively.

On December 17, 2010, ComEd entered into several 20 -year floating-to-fixed energy swap contracts with unaffiliated suppliers for the procurement of long-term renewable energy and associated RECs. Delivery under the contracts began in June 2012. These contracts are designed to lock in a portion of the long-term commodity price risk resulting from the renewable energy resource procurement requirements in the Illinois Settlement Legislation. ComEd has not elected hedge accounting for these derivative financial instruments. ComEd records the fair value of the swap contracts on its balance sheet. Because ComEd receives full cost recovery for energy procurement and related costs from retail customers, the change in fair value each period is recorded by ComEd as a regulatory asset or liability. See Note 3 — Regulatory Matters for additional information.

PECO has contracts to procure electric supply that were executed through the competitive procurement process outlined in its PAPUC-approved DSP Programs, which are further discussed in Note 3 — Regulatory Matters . Based on Pennsylvania legislation and the DSP Programs permitting PECO to recover its electric supply procurement costs from retail customers with no mark-up, PECO's commodity price risk related to electric supply procurement is limited. PECO locked in fixed prices for a significant portion of its commodity price risk through full requirements contracts. PECO has certain full requirements contracts that are considered derivatives and qualify for the NPNS scope exception under current derivative authoritative guidance.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

PECO's natural gas procurement policy is designed to achieve a reasonable balance of long-term and short-term gas purchases under different pricing approaches to achieve system supply reliability at the least cost. PECO's reliability strategy is two-fold. First, PECO must assure that there is sufficient transportation capacity to satisfy delivery requirements. Second, PECO must ensure that a firm source of supply exists to utilize the capacity resources. All of PECO's natural gas supply and asset management agreements that are derivatives either qualify for the NPNS scope exception and have been designated as such, or have no mark-to-market balances because the derivatives are index priced. Additionally, in accordance with the 2016 PAPUC PGC settlement and to reduce the exposure of PECO and its customers to natural gas price volatility, PECO has continued its program to purchase natural gas for both winter and summer supplies using a layered approach of locking-in prices ahead of each season with long-term gas purchase agreements (those with primary terms of at least twelve months). Under the terms of the 2016 PGC settlement, PECO is required to lock in (i.e., economically hedge) the price of a minimum volume of its long-term gas commodity purchases. PECO's gas-hedging program is designed to cover about 20% of planned natural gas purchases in support of projected firm sales. The hedging program for natural gas procurement has no direct impact on PECO's results of operations and financial position as natural gas costs are fully recovered from customers under the PGC.

BGE has contracts to procure SOS electric supply that are executed through a competitive procurement process approved by the MDPSC. The SOS rates charged recover BGE's wholesale power supply costs and include an administrative fee. BGE's commodity price risk related to electric supply procurement is limited. BGE locks in fixed prices for all of its SOS requirements through full requirements contracts. Certain of BGE's full requirements contracts, which are considered derivatives, qualify for the NPNS scope exception under current derivative authoritative guidance. Other BGE full requirements contracts are not derivatives.

BGE provides natural gas to its customers under a MBR mechanism approved by the MDPSC. Under this mechanism, BGE's actual cost of gas is compared to a market index (a measure of the market price of gas in a given period). The difference between BGE's actual cost and the market index is shared equally between shareholders and customers. BGE must also secure fixed price contracts for at least 10% , but not more than 20% , of forecasted system supply requirements for flowing (i.e., non-storage) gas for the November through March period. These fixed-price contracts are not subject to sharing under the MBR mechanism. BGE also ensures it has sufficient pipeline transportation capacity to meet customer requirements. BGE's natural gas supply and asset management agreements qualify for the NPNS scope exception and result in physical delivery.

Pepco has contracts to procure SOS electric supply that are executed through a competitive procurement process approved by the MDPSC and DCPSC. The SOS rates charged recover Pepco's wholesale power supply costs and include an administrative fee. The administrative fee includes an incremental cost component and a shareholder return component for residential and commercial rate classes. Pepco's commodity price risk related to electric supply procurement is limited. Pepco locks in fixed prices for its SOS requirements through full requirements contracts. Certain of Pepco's full requirements contracts, which are considered derivatives, qualify for the NPNS scope exception under current derivative authoritative guidance. Other Pepco full requirements contracts are not derivatives.

DPL has contracts to procure SOS electric supply that are executed through a competitive procurement process approved by the MDPSC and the DPSC. The SOS rates charged recover DPL's wholesale power supply costs. In Delaware, DPL is also entitled to recover a Reasonable Allowance for Retail Margin (RARM). The RARM includes a fixed annual margin of approximately $2.75 million , plus an incremental cost component and a cash working capital allowance. In Maryland, DPL charges an administrative fee intended to allow it to recover its administrative costs. DPL locks in fixed prices for its SOS requirements through full requirements contracts. DPL's commodity price risk related to electric supply procurement is limited. Certain of DPL's full requirements contracts, which are considered

derivatives, qualify for the NPNS scope exception under current derivative authoritative guidance. Other DPL full requirements contracts are not derivatives.

DPL provides natural gas to its customers under an Annual GCR mechanism approved by the DPSC. Under this mechanism, DPL's Annual GCR Filing establishes a future GCR for firm bundled sales customers by using a forecast of demand and commodity costs. The actual costs are trued up against forecast on a monthly basis and any shortfall or excess is carried forward as a recovery balance in the next GCR filing. The demand portion of the GCR is based upon DPL's firm transportation and storage contracts. DPL has firm deliverability of swing and seasonal storage; a liquefied natural gas facility and firm transportation capacity to meet customer demand and provide a reserve margin. The commodity portion of the GCR includes a commission approved hedging program which is intended to reduce gas commodity price volatility while limiting the firm natural gas customers' exposure to adverse changes in the market price of natural gas. The hedge program requires that DPL hedge, on a non-discretionary basis, an amount equal to 50% of estimated purchase requirements for each month, including estimated monthly purchases for storage injections. The 50% hedge monthly target is achieved by hedging 1/12th of the 50% target each month beginning 12-months prior to the month in which the physical gas is to be purchased. Currently, DPL uses only exchange traded futures for its gas hedging program, which are considered derivatives, however, it retains the capability to employ other physical and financial hedges if needed. DPL has not elected hedge accounting for these derivative financial instruments. Because of the DPSC-approved fuel adjustment clause for DPL's derivatives, the change in fair value of the derivatives each period, in addition to all premiums paid and other transaction costs incurred as part of the Gas Hedging Program, are fully recoverable and are recorded by DPL as regulatory assets or liabilities. DPL's physical gas purchases are currently all daily, monthly or intra-month transactions. From time to time, DPL will enter into seasonal purchase or sale arrangements, however, there are none currently in the portfolio. Certain of DPL's full requirements contracts, which are considered derivatives, qualify for the NPNS scope exception under current derivative authoritative guidance. Other DPL full requirements contracts are not derivatives.

ACE has contracts to procure BGS electric supply that are executed through a competitive procurement process approved by the NJBPU. The BGS rates charged recover ACE's wholesale power supply costs. ACE does not make any profit or incur any loss on the supply component of the BGS it supplies to customers. ACE's commodity price risk related to electric supply procurement is limited. ACE locks in fixed prices for its BGS requirements through full requirements contracts. Certain of ACE's full requirements contracts, which are considered derivatives, qualify for the NPNS scope exception under current derivative authoritative guidance. Other ACE full requirements contracts are not derivatives.

Proprietary Trading (Commodity Price Risk)

Generation also executes commodity derivatives for proprietary trading purposes. Proprietary trading includes all contracts entered into with the intent of benefiting from shifts or changes in market prices as opposed to those executed with the intent of hedging or managing risk. Proprietary trading activities are subject to limits established by Exelon's RMC. The proprietary trading portfolio is subject to a risk management policy that includes stringent risk management limits to manage exposure to market risk. Additionally, the Exelon risk management group and Exelon's RMC monitor the financial risks of the proprietary trading activities. The proprietary trading activities are a complement to Generation's energy marketing portfolio, but represent a small portion of Generation's overall revenue from energy marketing activities. Gains and losses associated with proprietary trading are reported as Operating revenues in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. For the years ended December 31, 2017 , 2016 and 2015 , Exelon and Generation recognized the following net pre-tax commodity mark-to-market gains (losses) which are also included in the "Net fair value changes related to derivatives" on the Consolidated Statements of Cash Flows. The Utility Registrants do not execute derivatives for proprietary trading purposes.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

	For the Years Ended December 31,		
	2017	2016	2015
Income Statement Location	Gain (Loss)		
Operating revenues	$ 6	$ 2	$ (6)

Interest Rate and Foreign Exchange Risk (All Registrants)

The Registrants use a combination of fixed-rate and variable-rate debt to manage interest rate exposure. The Registrants utilize fixed-to-floating interest rate swaps, which are typically designated as fair value hedges, to manage their interest rate exposure. In addition, the Registrants may utilize interest rate derivatives to lock in rate levels, which are typically designated as cash flow hedges to manage interest rate risk. To manage foreign exchange rate exposure associated with international commodity purchases in currencies other than U.S. dollars, Generation utilizes foreign currency derivatives, which are treated as economic hedges. Below is a summary of the interest rate and foreign exchange hedge balances as of December 31, 2017 :

	Generation					Exelon Corporate	Exelon
Description	Derivatives Designated as Hedging Instruments	Economic Hedges	Proprietary Trading	Collateral and Netting [a]	Subtotal	Derivatives Designated as Hedging Instruments	Total
Mark-to-market derivative assets (current assets)	$ —	$ 10	$ —	$ (7)	$ 3	$ —	$ 3
Mark-to-market derivative assets (noncurrent assets)	3	—	—	—	3	3	6
Total mark-to-market derivative assets	3	10	—	(7)	6	3	9
Mark-to-market derivative liabilities (current liabilities)	(2)	(7)	—	7	(2)	—	(2)
Mark-to-market derivative liabilities (noncurrent liabilities)	—	(2)	—	—	(2)	—	(2)
Total mark-to-market derivative liabilities	(2)	(9)	—	7	(4)	—	(4)
Total mark-to-market derivative net assets (liabilities)	$ 1	$ 1	$ —	$ —	$ 2	$ 3	$ 5

(a) Exelon and Generation net all available amounts allowed under the derivative authoritative guidance on the balance sheet. These amounts include unrealized derivative transactions with the same counterparty under legally enforceable master netting agreements and cash collateral. In some cases, Exelon and Generation may have other offsetting counterparty exposures subject to a master netting or similar agreement, such as accrued interest, transactions that do not qualify as derivatives, letters of credit and other forms of non-cash collateral, which are not reflected in the table above.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table provides a summary of the interest rate and foreign exchange hedge balances recorded by the Registrants as of December 31, 2016 :

	Generation					Exelon Corporate	Exelon
Description	Derivatives Designated as Hedging Instruments	Economic Hedges	Proprietary Trading [a]	Collateral and Netting [b]	Subtotal	Derivatives Designated as Hedging Instruments	Total
Mark-to-market derivative assets (current assets)	$ —	$ 17	$ 4	$ (13)	$ 8	$ —	$ 8
Mark-to-market derivative assets (noncurrent assets)	—	11	1	(8)	4	16	20
Total mark-to-market derivative assets	—	28	5	(21)	12	16	28
Mark-to-market derivative liabilities (current liabilities)	(7)	(13)	(2)	14	(8)	—	(8)
Mark-to-market derivative liabilities (noncurrent liabilities)	(3)	(8)	(2)	9	(4)	—	(4)
Total mark-to-market derivative liabilities	(10)	(21)	(4)	23	(12)	—	(12)
Total mark-to-market derivative net assets (liabilities)	$ (10)	$ 7	$ 1	$ 2	$ —	$ 16	$ 16

(a) Generation enters into interest rate derivative contracts to economically hedge risk associated with the interest rate component of commodity positions. The characterization of the interest rate derivative contracts between the proprietary trading activity in the above table is driven by the corresponding characterization of the underlying commodity position that gives rise to the interest rate exposure. Generation does not utilize proprietary trading interest rate derivatives with the objective of benefiting from shifts or changes in market interest rates.

(b) Exelon and Generation net all available amounts allowed under the derivative authoritative guidance on the balance sheet. These amounts include unrealized derivative transactions with the same counterparty under legally enforceable master netting agreements and cash collateral. In some cases, Exelon and Generation may have other offsetting counterparty exposures subject to a master netting or similar agreement, such as accrued interest, transactions that do not qualify as derivatives, letters of credit and other forms of non-cash collateral, which are not reflected in the table above.

Fair Value Hedges (Interest Rate Risk)

For derivative instruments that qualify and are designated as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in earnings immediately. Exelon and Generation include the gain or loss on the hedged items and the offsetting loss or gain on the related interest rate swaps as follows:

		Year Ended December 31,					
		2017	2016	2015	2017	2016	2015
	Income Statement Location	Gain (Loss) on Swaps			Gain (Loss) on Borrowings		
Generation	Interest expense [a]	$ —	$ —	$ (1)	$ —	$ —	$ —
Exelon	Interest expense	(13)	(9)	3	28	23	14

(a) For the year ended December 31, 2015 , the loss on Generation swaps included $(1) million realized in earnings with an immaterial amount excluded from hedge effectiveness testing.

The table below provides the notional amounts of fixed-to-floating hedges outstanding held by Exelon at December 31, 2017 and 2016 .

	For the Years Ended December 31,	
	2017	2016
Fixed-to-floating hedges	$ 800	$ 800

During the years ended December 31, 2017 , 2016 and 2015 , the impact on the results of operations due to ineffectiveness from fair value hedges were gains of $15 million , $14 million and $17 million , respectively.

Cash Flow Hedges (Interest Rate Risk)

For derivative instruments that qualify and are designated as cash flow hedges, the gain or loss on the effective portion of the derivative will be deferred in AOCI and reclassified into earnings when the underlying transaction occurs. To mitigate interest rate risk, Exelon and Generation enter into floating-to-fixed interest rate swaps to manage a portion of interest rate exposure associated with debt issuances. The table below provides the notional amounts of floating-to-fixed hedges outstanding held by Exelon and Generation at December 31, 2017 and 2016 .

	For the Years Ended December 31,	
	2017	2016
Floating-to-fixed hedges	$ 636	$ 659

The tables below provide the activity of OCI related to cash flow hedges for the years ended December 31, 2017 and 2016 , containing information about the changes in the fair value of cash flow hedges and the reclassification from AOCI into results of operations. The amounts reclassified from AOCI, when combined with the impacts of the hedged transactions, result in the ultimate recognition of net revenues or expenses at the contractual price.

		Total Cash Flow Hedge AOCI Activity, Net of Income Tax			
		Generation		Exelon	
For the Year Ended December 31, 2017	Income Statement Location	Total Cash Flow Hedges		Total Cash Flow Hedges	
AOCI derivative loss at December 31, 2016		$ (19)		$ (17)	
Effective portion of changes in fair value		(1)		(1)	
Reclassifications from AOCI to net income	Interest expense	4	(a)	4	(a)
AOCI derivative loss at December 31, 2017		$ (16)		$ (14)	

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

		Total Cash Flow Hedge AOCI Activity, Net of Income Tax	
		Generation	Exelon
For the Year Ended December 31, 2016	Income Statement Location	Total Cash Flow Hedges	Total Cash Flow Hedges
AOCI derivative loss at December 31, 2015		$ (21)	$ (19)
Effective portion of changes in fair value		(6)	(6)
Reclassifications from AOCI to net income	Interest expense	8 (b)	8 (b)
AOCI derivative loss at December 31, 2016		$ (19)	$ (17)

(a) Amount is net of related income tax expense of $1 million for the year ended December 31, 2017 .
(b) Amount is net of related income tax expense of $5 million for the year ended December 31, 2016 .

During the years ended December 31, 2017 , 2016 and 2015 , the impact on the results of operations due to the ineffectiveness from cash flow hedges that continue to be designated in hedging relationships was immaterial. The estimated amount of existing gains and losses that are reported in AOCI at the reporting date that are expected to be reclassified into earnings within the next twelve months is immaterial.

Economic Hedges (Interest Rate and Foreign Exchange Risk)

Exelon and Generation executes these instruments to mitigate exposure to fluctuations in interest rates or foreign exchange but for which the fair value or cash flow hedge elections were not made. Generation also enters into interest rate derivative contracts and foreign exchange currency swaps ("treasury") to manage the exposure related to the interest rate component of commodity positions and international purchases of commodities in currencies other than U.S. Dollars.

At December 31, 2017 and 2016 , Generation had immaterial notional amounts of interest rate derivative contracts to economically hedge risk associated with the interest rate component of commodity positions. The following table provides notional amounts outstanding held by Exelon and Generation at December 31, 2017 and 2016 related to foreign currency exchange rate swaps that are marked-to-market to manage the exposure associated with international purchases of commodities in currencies other than U.S. dollars.

	For the Years Ended December 31,	
	2017	2016
Foreign currency exchange rate swaps	$ 94	$ 85

For the years ended December 31, 2017 , 2016 and 2015 , Exelon and Generation recognized the following net pre-tax mark-to-market gains (losses) in the Consolidated Statements of Operations and Comprehensive Income and are included in “Net fair value changes related to derivatives” in Exelon’s and Generation’s Consolidated Statements of Cash Flows.

		For the Years Ended December 31,		
		2017	2016	2015
	Income Statement Location	Gain (Loss)		
Generation	Operating Revenues	$ (6)	$ (10)	$ 7
Generation	Interest Expense	(3)	—	—
Total Generation		$ (9)	$ (10)	$ 7

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

		For the Years Ended December 31,		
		2017	2016	2015
	Income Statement Location	Gain (Loss)		
Exelon	Operating Revenues	$ (6)	$ (10)	$ 7
Exelon	Interest Expense	(3)	—	100
Total Exelon		$ (9)	$ (10)	$ 107

Proprietary Trading (Interest Rate and Foreign Exchange Risk)

Generation also executes derivative contracts for proprietary trading purposes to hedge risk associated with the interest rate and foreign exchange components of underlying commodity positions. Gains and losses associated with proprietary trading are reported as Operating revenues in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income and are included in "Net fair value changes related to derivatives" in Exelon's and Generation's Consolidated Statements of Cash Flows. For the years ended December 31, 2017 , 2016 and 2015 , Exelon and Generation recognized the following net pre-tax commodity mark-to-market gains (losses).

	For the Years Ended December 31,		
	2017	2016	2015
Income Statement Location	Gain (Loss)		
Operating revenues	$ (1)	$ (1)	$ (2)

Credit Risk, Collateral and Contingent-Related Features (All Registrants)

The Registrants would be exposed to credit-related losses in the event of non-performance by counterparties on executed derivative instruments. The credit exposure of derivative contracts, before collateral, is represented by the fair value of contracts at the reporting date. For commodity derivatives, Generation enters into enabling agreements that allow for payment netting with its counterparties, which reduces Generation's exposure to counterparty risk by providing for the offset of amounts payable to the counterparty against amounts receivable from the counterparty. Typically, each enabling agreement is for a specific commodity and so, with respect to each individual counterparty, netting is limited to transactions involving that specific commodity product, except where master netting agreements exist with a counterparty that allow for cross product netting. In addition to payment netting language in the enabling agreement, Generation's credit department establishes credit limits, margining thresholds and collateral requirements for each counterparty, which are defined in the derivative contracts. Counterparty credit limits are based on an internal credit review process that considers a variety of factors, including the results of a scoring model, leverage, liquidity, profitability, credit ratings by credit rating agencies, and risk management capabilities. To the extent that a counterparty's margining thresholds are exceeded, the counterparty is required to post collateral with Generation as specified in each enabling agreement. Generation's credit department monitors current and forward credit exposure to counterparties and their affiliates, both on an individual and an aggregate basis.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following tables provide information on Generation's credit exposure for all derivative instruments, NPNS, and applicable payables and receivables, net of collateral and instruments that are subject to master netting agreements, as of December 31, 2017 . The tables further delineate that exposure by credit rating of the counterparties and provide guidance on the concentration of credit risk to individual counterparties. The figures in the tables below exclude credit risk exposure from individual retail counterparties, nuclear fuel procurement contracts and exposure through RTOs, ISOs, NYMEX, ICE, NASDAQ, NGX and Nodal commodity exchanges. Additionally, the figures in the tables below exclude exposures with affiliates, including net receivables with ComEd, PECO, BGE, Pepco, DPL and ACE of $28 million , $22 million , $24 million , $36 million , $12 million and $6 million as of December 31, 2017 , respectively.

Rating as of December 31, 2017	Total Exposure Before Credit Collateral	Credit Collateral (a)	Net Exposure	Number of Counterparties Greater than 10% of Net Exposure	Net Exposure of Counterparties Greater than 10% of Net Exposure
Investment grade	$ 738	$ 4	$ 734	1	$ 244
Non-investment grade	90	12	78	—	—
No external ratings					
Internally rated — investment grade	253	—	253	—	—
Internally rated — non-investment grade	83	11	72	—	—
Total	$ 1,164	$ 27	$ 1,137	1	$ 244

Net Credit Exposure by Type of Counterparty	December 31, 2017
Financial institutions	$ 41
Investor-owned utilities, marketers, power producers	558
Energy cooperatives and municipalities	452
Other	86
Total	$ 1,137

(a) As of December 31, 2017 , credit collateral held from counterparties where Generation had credit exposure included $8 million of cash and $19 million of letters of credit. The credit collateral does not include non-liquid collateral.

ComEd's power procurement contracts provide suppliers with a certain amount of unsecured credit. The credit position is based on daily, updated forward market prices compared to the benchmark prices. The benchmark prices are the forward prices of energy projected through the contract term and are set at the point of supplier bid submittals. If the forward market price of energy exceeds the benchmark price on a given day, the suppliers are required to post collateral for the secured credit portion after adjusting for any unpaid deliveries and unsecured credit allowed under the contract. The unsecured credit used by the suppliers represents ComEd's net credit exposure. As of December 31, 2017 , ComEd's net credit exposure to suppliers was approximately $1 million .

ComEd is permitted to recover its costs of procuring energy through the Illinois Settlement Legislation. ComEd's counterparty credit risk is mitigated by its ability to recover realized energy costs through customer rates. See Note 3 — Regulatory Matters for additional information.

PECO's unsecured credit used by the suppliers represents PECO's net credit exposure. As of December 31, 2017 , PECO had no net credit exposure to suppliers.

PECO's natural gas procurement plan is reviewed and approved annually on a prospective basis by the PAPUC. PECO's counterparty credit risk under its natural gas supply and asset management agreements is mitigated by its ability to recover its natural gas costs through the PGC, which allows

PECO to adjust rates quarterly to reflect realized natural gas prices. PECO does not obtain collateral from suppliers under its natural gas supply and asset management agreements. As of December 31, 2017 , PECO had no material credit exposure under its natural gas supply and asset management agreements with investment grade suppliers.

BGE is permitted to recover its costs of procuring energy through the MDPSC-approved procurement tariffs. BGE's counterparty credit risk is mitigated by its ability to recover realized energy costs through customer rates. See Note 3 — Regulatory Matters for additional information.

BGE's full requirement wholesale electric power agreements that govern the terms of its electric supply procurement contracts, which define a supplier's performance assurance requirements, allow a supplier, or its guarantor, to meet its credit requirements with a certain amount of unsecured credit. As of December 31, 2017 , BGE had no net credit exposure to suppliers.

BGE's regulated gas business is exposed to market-price risk. At December 31, 2017 , BGE had credit exposure of $4 million related to off-system sales which is mitigated by parental guarantees, letters of credit, or right to offset clauses within other contracts with those third-party suppliers.

Pepco's, DPL's and ACE's power procurement contracts provide suppliers with a certain amount of unsecured credit. The amount of unsecured credit is determined based on the supplier's lowest credit rating from the major credit rating agencies and the supplier's tangible net worth. The credit position is based on the initial market price, which is the forward price of energy on the day a transaction is executed, compared to the current forward price curve for energy. To the extent that the forward price curve for energy exceeds the initial market price, the supplier is required to post collateral to the extent the credit exposure is greater than the supplier's unsecured credit limit. The unsecured credit used by the suppliers represents Pepco's, DPL's and ACE's net credit exposure. As of December 31, 2017 , Pepco's, DPL's and ACE's net credit exposures to suppliers were immaterial.

Pepco is permitted to recover its costs of procuring energy through the MDPSC-approved and DCPSC-approved procurement tariffs. DPL is permitted to recover its costs of procuring energy through the MDPSC-approved and DPSC-approved procurement tariffs. ACE is permitted to recover its costs of procuring energy through the NJBPU-approved procurement tariffs. Pepco's, DPL's and ACE's counterparty credit risks are mitigated by their ability to recover realized energy costs through customer rates. See Note 3 — Regulatory Matters for additional information.

DPL's natural gas procurement plan is reviewed and approved annually on a prospective basis by the DPSC. DPL's counterparty credit risk under its natural gas supply and asset management agreements is mitigated by its ability to recover its natural gas costs through the GCR, which allows DPL to adjust rates annually to reflect realized natural gas prices. To the extent that the fair value of the transactions in a net loss position exceeds the unsecured credit threshold, then collateral is required to be posted in an amount equal to the amount by which the unsecured credit threshold is exceeded. Exchange-traded contracts are required to be fully collateralized without regard to the credit rating of the holder. As of December 31, 2017 , DPL's credit exposure under its natural gas supply and asset management agreements was immaterial.

Collateral (All Registrants)

As part of the normal course of business, Generation routinely enters into physically or financially settled contracts for the purchase and sale of electric capacity, electricity, fuels, emissions allowances and other energy-related products. Certain of Generation's derivative instruments contain provisions that require Generation to post collateral. Generation also enters into commodity transactions on exchanges. The exchanges act as the counterparty to each trade. Transactions on the exchanges must adhere to comprehensive collateral and margining requirements. This collateral may be posted in the form of cash or credit support with thresholds contingent upon Generation's credit rating from each of

the major credit rating agencies. The collateral and credit support requirements vary by contract and by counterparty. These credit-risk-related contingent features stipulate that if Generation were to be downgraded or lose its investment grade credit rating (based on its senior unsecured debt rating), it would be required to provide additional collateral. This incremental collateral requirement allows for the offsetting of derivative instruments that are assets with the same counterparty, where the contractual right of offset exists under applicable master netting agreements. In the absence of expressly agreed-to provisions that specify the collateral that must be provided, collateral requested will be a function of the facts and circumstances of the situation at the time of the demand. In this case, Generation believes an amount of several months of future payments (i.e., capacity payments) rather than a calculation of fair value is the best estimate for the contingent collateral obligation, which has been factored into the disclosure below.

The aggregate fair value of all derivative instruments with credit-risk-related contingent features in a liability position that are not fully collateralized (excluding transactions on the exchanges that are fully collateralized) is detailed in the table below:

	For the Years Ended December 31,	
Credit-Risk Related Contingent Feature	2017	2016
Gross fair value of derivative contracts containing this feature [(a)]	$ (926)	$ (960)
Offsetting fair value of in-the-money contracts under master netting arrangements [(b)]	577	627
Net fair value of derivative contracts containing this feature [(c)]	$ (349)	$ (333)

(a) Amount represents the gross fair value of out-of-the-money derivative contracts containing credit-risk-related contingent features ignoring the effects of master netting agreements.
(b) Amount represents the offsetting fair value of in-the-money derivative contracts under legally enforceable master netting agreements with the same counterparty, which reduces the amount of any liability for which a Registrant could potentially be required to post collateral.
(c) Amount represents the net fair value of out-of-the-money derivative contracts containing credit-risk related contingent features after considering the mitigating effects of offsetting positions under master netting arrangements and reflects the actual net liability upon which any potential contingent collateral obligations would be based.

Generation had cash collateral posted of $497 million and letters of credit posted of $293 million , and cash collateral held of $35 million and letters of credit held of $33 million as of December 31, 2017 for external counterparties with derivative positions. Generation had cash collateral posted of $347 million and letters of credit posted of $284 million and cash collateral held of $24 million and letters of credit held of $28 million at December 31, 2016 for external counterparties with derivative positions. In the event of a credit downgrade below investment grade (i.e., to BB+ by S&P or Ba1 by Moody's), Generation would have been required to post additional collateral of $1.8 billion and $1.9 billion as of December 31, 2017 and 2016 , respectively. These amounts represent the potential additional collateral required after giving consideration to offsetting derivative and non-derivative positions under master netting agreements.

Generation's and Exelon's interest rate swaps contain provisions that, in the event of a merger, if Generation's debt ratings were to materially weaken, it would be in violation of these provisions, resulting in the ability of the counterparty to terminate the agreement prior to maturity. Collateralization would not be required under any circumstance. Termination of the agreement could result in a settlement payment by Exelon or the counterparty on any interest rate swap in a net liability position. The settlement amount would be equal to the fair value of the swap on the termination date. As of December 31, 2017 , Generation's and Exelon's swaps were in an asset position with a fair value of $2 million and $5 million , respectively.

See Note 25 — Segment Information for further information regarding the letters of credit supporting the cash collateral.

Generation entered into supply forward contracts with certain utilities, including PECO and BGE, with one-sided collateral postings only from Generation. If market prices fall below the benchmark price levels in these contracts, the utilities are not required to post collateral. However, when market prices rise above the benchmark price levels, counterparty suppliers, including Generation, are required to post collateral once certain unsecured credit limits are exceeded. Under the terms of ComEd's standard block energy contracts, collateral postings are one-sided from suppliers, including Generation, should exposures between market prices and benchmark prices exceed established unsecured credit limits outlined in the contracts. As of December 31, 2017 , ComEd held approximately $10 million in collateral from suppliers in association with energy procurement contracts. Under the terms of ComEd's renewable energy certificate (REC) contracts, collateral postings are required to cover a percentage of the REC contract value. As of December 31, 2017 , ComEd held approximately $2 million in collateral from suppliers for REC contract obligations. Under the terms of ComEd's long-term renewable energy contracts, collateral postings are required from suppliers for both RECs and energy. The REC portion is a fixed value and the energy portion is one-sided from suppliers should the forward market prices exceed contract prices. As of December 31, 2017 , ComEd held approximately $19 million in collateral from suppliers for the long-term renewable energy contracts. If ComEd lost its investment grade credit rating as of December 31, 2017 , it would have been required to post approximately $14 million of collateral to its counterparties. See Note 3 — Regulatory Matters for additional information.

PECO's natural gas procurement contracts contain provisions that could require PECO to post collateral. This collateral may be posted in the form of cash or credit support with thresholds contingent upon PECO's credit rating from the major credit rating agencies. The collateral and credit support requirements vary by contract and by counterparty. As of December 31, 2017 , PECO was not required to post collateral for any of these agreements. If PECO lost its investment grade credit rating as of December 31, 2017 , PECO could have been required to post approximately $34 million of collateral to its counterparties.

PECO's supplier master agreements that govern the terms of its DSP Program contracts do not contain provisions that would require PECO to post collateral.

BGE's natural gas procurement contracts contain provisions that could require BGE to post collateral. This collateral may be posted in the form of cash or credit support with thresholds contingent upon BGE's credit rating from the major credit rating agencies. The collateral and credit support requirements vary by contract and by counterparty. As of December 31, 2017 , BGE was not required to post collateral for any of these agreements. If BGE lost its investment grade credit rating as of December 31, 2017 , BGE could have been required to post approximately $66 million of collateral to its counterparties.

DPL's natural gas procurement contracts contain provisions that could require DPL to post collateral. To the extent that the fair value of the natural gas derivative transaction in a net loss position exceeds the unsecured credit threshold, then collateral is required to be posted in an amount equal to the amount by which the unsecured credit threshold is exceeded. The DPL obligations are standalone, without the guaranty of PHI. If DPL lost its investment grade credit rating as of December 31, 2017 , DPL could have been required to post an additional amount of approximately $11 million of collateral to its natural gas counterparties.

BGE's, Pepco's, DPL's and ACE's full requirements wholesale power agreements that govern the terms of its electric supply procurement contracts do not contain provisions that would require BGE, Pepco, DPL or ACE to post collateral.

(Dollars in millions, except per share data unless otherwise noted)

13 . Debt and Credit Agreements (All Registrants)

Short-Term Borrowings

Exelon, ComEd and BGE meet their short-term liquidity requirements primarily through the issuance of commercial paper. Generation and PECO meet their short-term liquidity requirements primarily through the issuance of commercial paper and borrowings from the intercompany money pool. PHI meets its short-term liquidity requirements primarily through the issuance of short-term notes and the Exelon intercompany money pool. Pepco, DPL and ACE meet their short-term liquidity requirements primarily through the issuance of commercial paper and short-term notes. The Registrants may use their respective credit facilities for general corporate purposes, including meeting short-term funding requirements and the issuance of letters of credit.

Commercial Paper

The following table reflects the Registrants' commercial paper programs supported by the revolving credit agreements and bilateral credit agreements at December 31, 2017 and 2016 :

	Maximum Program Size at December 31,		Outstanding Commercial Paper at December 31,		Average Interest Rate on Commercial Paper Borrowings for the Year Ended December 31,	
Commercial Paper Issuer	2017 [a][b][c]	2016 [a][b][c]	2017	2016	2017	2016
Exelon Corporate	$ 600	$ 600	$ —	$ —	1.16%	0.70%
Generation	5,300	5,300	—	620	1.23%	0.94%
ComEd	1,000	1,000	—	—	1.24%	0.77%
PECO	600	600	—	—	1.13%	N/A
BGE	600	600	77	45	1.28%	0.77%
Pepco	500	500	26	23	1.06%	0.71%
DPL	500	500	216	—	1.48%	0.68%
ACE	350	350	108	—	1.43%	0.65%
Total	$ 9,450	$ 9,450	$ 427	$ 688		

(a) Excludes $480 million and $500 million in bilateral credit facilities that do not back Generation's commercial paper program at December 31, 2017 and 2016 , respectively.
(b) Excludes additional credit facility agreements for Generation, ComEd, PECO, BGE, Pepco, DPL and ACE with aggregate commitments of $49 million , $34 million , $34 million , $5 million , $2 million , $2 million and $2 million , respectively, arranged with minority and community banks located primarily within utilities' service territories. These facilities expire on October 12, 2018. These facilities are solely utilized to issue letters of credit. As of December 31, 2017 , letters of credit issued under these facilities totaled $5 million and $2 million for Generation and BGE, respectively.
(c) Pepco, DPL and ACE's revolving credit facility is subject to available borrowing capacity. The borrowing capacity may be increased or decreased during the term of the facility, except that (i) the sum of the borrowing capacity must equal the total amount of the facility, and (ii) the aggregate amount of credit used at any given time by each of Pepco, DPL or ACE may not exceed $900 million or the maximum amount of short-term debt the company is permitted to have outstanding by its regulatory authorities. The total number of the borrowing reallocations may not exceed eight per year during the term of the facility.

In order to maintain their respective commercial paper programs in the amounts indicated above, each Registrant must have credit facilities in place, at least equal to the amount of its commercial paper program. While the amount of outstanding commercial paper does not reduce available capacity under a Registrant's credit facility, a Registrant does not issue commercial paper in an aggregate amount exceeding the then available capacity under its credit facility.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

At December 31, 2017 , the Registrants had the following aggregate bank commitments, credit facility borrowings and available capacity under their respective credit facilities:

					Available Capacity at December 31, 2017	
Borrower	Facility Type	Aggregate Bank Commitment [a][b]	Facility Draws	Outstanding Letters of Credit [c]	Actual	To Support Additional Commercial Paper [b][d]
Exelon Corporate	Syndicated Revolver	$ 600	$ —	$ 45	$ 555	$ 555
Generation	Syndicated Revolver	5,300	—	868	4,432	4,432
Generation	Bilaterals	480	—	231	249	—
ComEd	Syndicated Revolver	1,000	—	2	998	998
PECO	Syndicated Revolver	600	—	1	599	599
BGE	Syndicated Revolver	600	—	—	600	523
Pepco	Syndicated Revolver	300	—	—	300	274
DPL	Syndicated Revolver	300	—	—	300	84
ACE	Syndicated Revolver	300	—	—	300	192
Total		$ 9,480	$ —	$ 1,147	$ 8,333	$ 7,657

(a) Excludes additional credit facility agreements for Generation, ComEd, PECO, BGE, Pepco, DPL and ACE with aggregate commitments of $49 million , $34 million , $34 million , $5 million , $2 million , $2 million and $2 million , respectively, arranged with minority and community banks located primarily within utilities' service territories. These facilities expire on October 12, 2018. These facilities are solely utilized to issue letters of credit. As of December 31, 2017 , letters of credit issued under these facilities totaled $5 million and $2 million for Generation and BGE, respectively.
(b) Pepco, DPL and ACE's revolving credit facility is subject to available borrowing capacity. The borrowing capacity may be increased or decreased during the term of the facility, except that (i) the sum of the borrowing capacity must equal the total amount of the facility, and (ii) the aggregate amount of credit used at any given time by each of Pepco, DPL or ACE may not exceed $900 million or the maximum amount of short-term debt the company is permitted to have outstanding by its regulatory authorities. The total number of the borrowing reallocations may not exceed eight per year during the term of the facility.
(c) Excludes nonrecourse debt letters of credit, see discussion below on Antelope Valley Solar Ranch One and Continental Wind.
(d) Excludes $480 million in bilateral credit facilities that do not back Generation's commercial paper program.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following tables present the short-term borrowings activity for Exelon, Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE during 2017 , 2016 and 2015 .

Exelon

	2017	2016	2015
Average borrowings	$ 823	$ 1,125	$ 499
Maximum borrowings outstanding	2,147	3,076	739
Average interest rates, computed on a daily basis	1.32%	0.88%	0.53%
Average interest rates, at December 31	1.24%	1.12%	0.88%

Generation

	2017	2016	2015
Average borrowings	$ 405	$ 536	$ 1
Maximum borrowings outstanding	1,455	1,735	50
Average interest rates, computed on a daily basis	1.23%	0.94%	0.49%
Average interest rates, at December 31	1.23%	1.14%	N/A

ComEd

	2017	2016	2015
Average borrowings	$ 200	$ 256	$ 461
Maximum borrowings outstanding	470	755	684
Average interest rates, computed on a daily basis	1.24%	0.77%	0.53%
Average interest rates, at December 31	1.24%	N/A	0.89%

PECO

	2017	2016	2015
Average borrowings	$ 2	$ —	$ —
Maximum borrowings outstanding	60	—	—
Average interest rates, computed on a daily basis	1.13%	N/A	N/A
Average interest rates, at December 31	1.13%	N/A	N/A

BGE

	2017	2016	2015
Average borrowings	$ 54	$ 143	$ 37
Maximum borrowings outstanding	165	369	210
Average interest rates, computed on a daily basis	1.28%	0.77%	0.48%
Average interest rates, computed at December 31	1.28%	0.95%	0.87%

Average interest rates, computed at December 31	1.43%	N/A	0.65%

Short-Term Loan Agreements

On July 30, 2015, PHI entered into a $300 million term loan agreement. The net proceeds of the loan were used to repay PHI's outstanding commercial paper and for general corporate purposes. Pursuant to the loan agreement, loans made thereunder bear interest at a variable rate equal to LIBOR plus 0.95% , and all indebtedness thereunder is unsecured. On April 4, 2016, PHI repaid $300 million of its term loan in full.

On January 13, 2016, PHI entered into a $500 million term loan agreement, which was amended on March 28, 2016. The net proceeds of the loan were used to repay PHI's outstanding commercial paper, and for general corporate purposes. Pursuant to the loan agreement, as amended, loans made thereunder bear interest at a variable rate equal to LIBOR plus 1% , and all indebtedness thereunder is unsecured. On March 23, 2017, the aggregate principal amount of all loans, together with any accrued but unpaid interest due under the loan agreement was fully repaid and the loan terminated. On March 23, 2017, Exelon Corporate entered into a similar type term loan for $500 million which expires on March 22, 2018. Pursuant to the loan agreement, loans made thereunder bear interest at a variable rate equal

to LIBOR plus 1% and all indebtedness thereunder is unsecured. The loan agreement is reflected in Exelon's Consolidated Balance Sheet within Short-Term borrowings.

On February 22, 2016, Generation and EDF entered into separate member revolving promissory notes with CENG to finance short-term working capital needs. The notes are scheduled to mature on January 31, 2017 and bear interest at a variable rate equal to LIBOR plus 1.75% . On July 25, 2016, CENG paid off the outstanding balances under each note.

Credit Agreement

On January 5, 2016, Generation entered into a credit agreement establishing a $150 million bilateral credit facility, scheduled to mature in January of 2019. This facility will solely be utilized by Generation to issue lines of credit. This facility does not back Generation's commercial paper program.

On April 1, 2016, the credit agreement for CENG's $100 million bilateral credit facility was amended to increase the overall facility size to $200 million . This facility is utilized by CENG to fund working capital and capital projects. The facility does not back Generation's commercial paper program.

On May 26, 2016, Exelon Corporate, Generation, ComEd, PECO and BGE entered into amendments to each of their respective syndicated revolving credit facilities, which extended the maturity of each of the facilities to May 26, 2021. Exelon Corporate also increased the size of its facility from $500 million to $600 million . On May 26, 2016, PHI, Pepco, DPL and ACE entered into an amendment to their Second Amended and Restated Credit Agreement dated as of August 1, 2011, which (i) extended the maturity date of the facility to May 26, 2021, (ii) removed PHI as a borrower under the facility, (iii) decreased the size of the facility from $1.5 billion to $900 million and (iv) aligned its financial covenant from debt to capitalization leverage ratio to interest coverage ratio. On May 26, 2017, each of the Registrants' respective syndicated revolving credit facilities had their maturity dates extended to May 26, 2022.

On January 9, 2017, the credit agreement for Generation's $75 million bilateral credit facility was amended and restated to increase the facility size to $100 million and extend the maturity to January 2019. This facility will solely be used by Generation to issue letters of credit.

Borrowings under Exelon Corporate's, Generation's, ComEd's, PECO's, BGE's, Pepco's, DPL's and ACE's revolving credit agreements bear interest at a rate based upon either the prime rate or a LIBOR-based rate, plus an adder based upon the particular Registrant's credit rating. The adders for the prime based borrowings and LIBOR-based borrowings are presented in the following table:

	Exelon	Generation	ComEd	PECO	BGE	Pepco	DPL	ACE
Prime based borrowings	27.5	27.5	7.5	0.0	0.0	7.5	7.5	7.5
LIBOR-based borrowings	127.5	127.5	107.5	90.0	100.0	107.5	107.5	107.5

The maximum adders for prime rate borrowings and LIBOR-based rate borrowings are 90 basis points and 165 basis points, respectively. The credit agreements also require the borrower to pay a facility fee based upon the aggregate commitments. The fee varies depending upon the respective credit ratings of the borrower.

Each revolving credit agreement for Exelon, Generation, ComEd, PECO, BGE, Pepco, DPL and ACE requires the affected borrower to maintain a minimum cash from operations to interest expense ratio for the twelve-month period ended on the last day of any quarter. The following table summarizes the minimum thresholds reflected in the credit agreements for the year ended December 31, 2017 :

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

	Exelon	Generation	ComEd	PECO	BGE	Pepco	DPL	ACE
Credit agreement threshold	2.50 to 1	3.00 to 1	2.00 to 1	2.00 to 1	2.00 to 1	2.00 to 1	2.00 to 1	2.00 to 1

At December 31, 2017 , the interest coverage ratios at the Registrants were as follows:

	Exelon	Generation	ComEd	PECO	BGE	Pepco	DPL	ACE
Interest coverage ratio	6.34	9.02	11.68	7.99	10.50	6.35	8.69	5.57

An event of default under Exelon, Generation, ComEd, PECO or BGE's indebtedness will not constitute an event of default under any of the others' credit facilities, except that a bankruptcy or other event of default in the payment of principal, premium or indebtedness in principal amount in excess of $100 million in the aggregate by Generation will constitute an event of default under the Exelon Corporate credit facility. An event of default under Pepco, DPL or ACE's indebtedness will not constitute an event of default with respect to the other PHI Utilities under the PHI Utilities' combined credit facility.

The absence of a material adverse change in Exelon's or PHI's business, property, results of operations or financial condition is not a condition to the availability of credit under any of the borrowers' credit agreement. None of the credit agreements include any rating triggers.

Variable Rate Demand Bonds

DPL has outstanding obligations in respect of Variable Rate Demand Bonds (VRDB). VRDBs are subject to repayment on the demand of the holders and, for this reason, are accounted for as short-term debt in accordance with GAAP. However, bonds submitted for purchase are remarketed by a remarketing agent on a best efforts basis. PHI expects that any bonds submitted for purchase will be remarketed successfully due to the creditworthiness of the issuer and, as applicable, the credit support, and because the remarketing resets the interest rate to the then-current market rate. The bonds may be converted to a fixed-rate, fixed-term option to establish a maturity which corresponds to the date of final maturity of the bonds. On this basis, PHI views VRDBs as a source of long-term financing. As of December 31, 2017 and December 31, 2016 , $79 million and $105 million , respectively, in variable rate demand bonds issued by DPL were outstanding and are included in the Long-term debt due within one year on Exelon's, PHI's and DPL's Consolidated Balance Sheet.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Long-Term Debt

The following tables present the outstanding long-term debt at the Registrants as of December 31, 2017 and 2016 :

Exelon

	Rates			Maturity Date	December 31, 2017	December 31, 2016
Long-term debt						
Rate stabilization bonds			5.82%	2017	$ —	$ 41
First mortgage bonds [a]	1.70%	-	7.90%	2018 - 2047	15,197	14,123
Senior unsecured notes	2.45%	-	7.60%	2019 - 2046	11,285	11,868
Unsecured notes	2.40%	-	6.35%	2021 - 2047	2,600	2,300
Pollution control notes	2.50%	-	2.70%	2025 - 2036	435	435
Nuclear fuel procurement contracts	3.15%	-	3.35%	2018 - 2020	82	105
Notes payable and other [b][c]	2.61%	-	8.88%	2018 - 2053	405	576
Junior subordinated notes			3.50%	2022	1,150	1,150
Contract payment - junior subordinated notes			2.50%	2017	—	19
Long-term software licensing agreement			3.95%	2024	79	103
Unsecured Tax-Exempt Bonds			5.40% —	2031	112	112
Medium-Terms Notes (unsecured)	6.81%	-	7.72% —	2018 - 2027	26	40
Transition bonds	5.05%	-	5.55% —	2020 - 2023	90	124
Nonrecourse debt:						
Fixed rates	2.29%	-	6.00%	2031 - 2037	1,331	1,400
Variable rates	3.18%	-	4.00%	2019 - 2024	865	915
Total long-term debt					33,657	33,311
Unamortized debt discount and premium, net					(57)	(68)
Unamortized debt issuance costs					(201)	(200)
Fair value adjustment					865	962
Long-term debt due within one year					(2,088)	(2,430)
Long-term debt					$ 32,176	$ 31,575
Long-term debt to financing trusts [d]						
Subordinated debentures to ComEd Financing III			6.35%	2033	$ 206	$ 206
Subordinated debentures to PECO Trust III			7.38%	2028	81	81
Subordinated debentures to PECO Trust IV			5.75%	2033	103	103
Subordinated debentures to BGE Capital Trust II			6.20%	2043	—	258
Total long-term debt to financing trusts					390	648
Unamortized debt issuance costs					(1)	(7)
Long-term debt to financing trusts					$ 389	$ 641

(a) Includes $390 million due to ComEd and PECO financing trusts.
(b) Includes $206 million due to ComEd financing trust.
(c) Includes $184 million due to PECO financing trusts.

Junior Subordinated Notes

In June 2014, Exelon issued $1.15 billion of junior subordinated notes in the form of 23 million equity units at a stated amount of $50.00 per unit. Each equity unit represented an undivided beneficial ownership interest in Exelon's $1.15 billion of 2.50% junior subordinated notes due in 2024 ("2024 notes") and a forward equity purchase contract. As contemplated in the June 2014 equity unit structure, in April 2017, Exelon completed the remarketing of the 2024 notes into $1.15 billion of 3.497% junior subordinated notes due in 2022 ("Remarketing"). Exelon conducted the Remarketing on behalf of the holders of equity units and did not directly receive any proceeds therefrom. Instead, the former holders of the 2024 notes used debt remarketing proceeds towards settling the forward equity purchase contract with Exelon on June 1, 2017. Exelon issued approximately 33 million shares of common stock from treasury stock and received $1.15 billion upon settlement of the forward equity purchase contract. When reissuing treasury stock Exelon uses the average price paid to repurchase shares to calculate a gain or loss on issuance and records gains or losses directly to retained earnings. A loss on reissuance of treasury shares of $1.05 billion was recorded to retained earnings as of December 31, 2017 . See Note 21 — Earnings Per Share for further information on the issuance of common stock.

Nonrecourse Debt

Exelon and Generation have issued nonrecourse debt financing, in which approximately $3 billion of generating assets have been pledged as collateral at December 31, 2017 . Borrowings under these agreements are secured by the assets and equity of each respective project. The lenders do not have recourse against Exelon or Generation in the event of a default. If a specific project financing entity does not maintain compliance with its specific nonrecourse debt financing covenants, there could be a requirement to accelerate repayment of the associated debt or other borrowings earlier than the stated maturity dates. In these instances, if such repayment was not satisfied, the lenders or security holders would generally have rights to foreclose against the project-specific assets and related collateral. The potential requirement to satisfy its associated debt or other borrowings earlier than otherwise anticipated could lead to impairments due to a higher likelihood of disposing of the respective project-specific assets significantly before the end of their useful lives.

Denver Airport. In June 2011, Generation entered into a 20-year, $7 million solar loan agreement to finance a solar construction project in Denver, Colorado. The agreement is scheduled to mature on

S1-SSA-0009 - 16660

June 30, 2031. The agreement bears interest at a fixed rate of 5.50% annually with interest payable annually. As of December 31, 2017 , $ 6 million was outstanding.

CEU Upstream. In July 2011, CEU Holdings, LLC, a wholly owned subsidiary of Generation, entered into a 5-year reserve based lending agreement (RBL) associated with certain Upstream oil and gas properties. The lenders do not have recourse against Exelon or Generation in the event of default pursuant to the RBL. Borrowings under this arrangement are secured by the assets and equity of CEU Holdings.

In December 2016, substantially all of the Upstream natural gas and oil exploration and production assets were sold for $37 million . The proceeds were used to reduce the debt balance by $31 million . The remaining proceeds of $6 million were being held in escrow. In addition, during 2016, $15 million of the debt was repaid using CEU Holding's cash, resulting in an outstanding debt balance of $22 million at December 31, 2016. During 2017, additional assets were sold for $1 million and the remaining $6 million in escrow was released and applied to the debt balance resulting in an outstanding amount of $15 million at December 31, 2017. Upon final resolution, CEU Holdings will be released of its obligations regardless of the amount of asset sale proceeds received. The ultimate resolution of this matter has no direct effect on any Exelon or Generation credit facilities or other debt of an Exelon entity. At December 31, 2017, the outstanding debt balance of $15 million was classified within Long term debt due within one year on Exelon's and Generation's Consolidated Balance Sheets. See Note 4 — Mergers, Acquisitions and Dispositions and Note 7 — Impairment of Long-Lived Assets and Intangibles for additional information.

Holyoke Solar Cooperative. In October 2011, Generation entered into a 20-year, $11 million solar loan agreement related to a solar construction project in Holyoke, Massachusetts. The agreement is scheduled to mature on December 2031. The agreement bears interest at a fixed rate of 5.25% annually with interest payable monthly. As of December 31, 2017 , $9 million was outstanding.

Antelope Valley Solar Ranch One. In December 2011, the DOE Loan Programs Office issued a guarantee for up to $646 million for a nonrecourse loan from the Federal Financing Bank to support the financing of the construction of the Antelope Valley facility. The project became fully operational in the first half of 2014. The loan will mature on January 5, 2037. Interest rates on the loan were fixed upon each advance at a spread of 37.5 basis points above U.S. Treasuries of comparable maturity. The advances were completed as of December 31, 2015 and the outstanding loan balance will bear interest at an average blended interest rate of 2.82% . As of December 31, 2017 , $530 million was outstanding. In addition, Generation has issued letters of credit to support its equity investment in the project. As of December 31, 2017 , Generation had $105 million in letters of credit outstanding related to the project.

Continental Wind. In September 2013, Continental Wind, LLC (Continental Wind), an indirect subsidiary of Exelon and Generation, completed the issuance and sale of $613 million senior secured notes. Continental Wind owns and operates a portfolio of wind farms in Idaho, Kansas, Michigan, Oregon, New Mexico and Texas with a total net capacity of 667 MW. The net proceeds were distributed to Generation for its general business purposes. The notes are scheduled to mature on February 28, 2033. The notes bear interest at a fixed rate of 6.00% with interest payable semi-annually. As of December 31, 2017 , $512 million was outstanding.

In addition, Continental Wind entered into a $131 million letter of credit facility and $10 million working capital revolver facility. Continental Wind has issued letters of credit to satisfy certain of its credit support and security obligations. As of December 31, 2017 , the Continental Wind letter of credit facility had $114 million in letters of credit outstanding related to the project.

ExGen Texas Power. In September 2014, EGTP, an indirect subsidiary of Exelon and Generation, issued $675 million aggregate principal amount of a nonrecourse senior secured term loan. The net proceeds were distributed to Generation for general business purposes. The loan was scheduled to

mature on September 18, 2021. In addition to the financing, EGTP entered into various interest rate swaps with an initial notional amount of approximately $505 million at an interest rate of 2.34% to hedge a portion of the interest rate exposure in connection with this financing, as required by the debt covenants.

On May 2, 2017, as a result of the negative impacts of certain market conditions and the seasonality of its cash flows, EGTP entered into a consent agreement with its lenders, which permitted EGTP to draw on its revolving credit facility and initiate an orderly sales process of its assets. On November 7, 2017, the debtors filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code in the United States Bankruptcy Court for the District of Delaware. As a result, Exelon and Generation deconsolidated the nonrecourse senior secured term loan, the revolving credit facility, and the interest rate swaps from their consolidated financial statements as of December 31, 2017. Due to their nonrecourse nature, these borrowings are secured solely by the assets of EGTP and its subsidiaries.

Renewable Power Generation. In March 2016, RPG, an indirect subsidiary of Exelon and Generation, issued $150 million aggregate principal amount of a nonrecourse senior secured notes. The net proceeds were distributed to Generation for paydown of long term debt obligations at Sacramento PV Energy and Constellation Solar Horizons and for general business purposes. The loan is scheduled to mature on March 31, 2035. The term loan bears interest at a fixed rate of 4.11% payable semi-annually. As of December 31, 2017 , $127 million was outstanding.

SolGen. In September 2016, SolGen, LLC (SolGen), an indirect subsidiary of Exelon and Generation, issued $150 million aggregate principal amount of a nonrecourse senior secured notes. The net proceeds were distributed to Generation for general business purposes. The loan is scheduled to mature on September 30, 2036. The term loan bears interest at a fixed rate of 3.93% payable semi-annually. As of December 31, 2017 , $147 million was outstanding.

ExGen Renewables IV. In November 2017, EGR IV, an indirect subsidiary of Exelon and Generation, entered into an $850 million nonrecourse senior secured term loan credit facility agreement. The net proceeds of $785 million , after the initial funding of $50 million for debt service and liquidity reserves as well as deductions for original discount and estimated costs, fees and expenses incurred in connection with the execution and delivery of the credit facility agreement, were distributed to Generation for general corporate purposes. The $50 million of debt service and liquidity reserves was treated as restricted cash on Exelon's and Generation's Consolidated Balance Sheets and Consolidated Statements of Cash Flows. The loan is scheduled to mature on November 28, 2024. The term loan bears interest at a variable rate equal to LIBOR + 3% , subject to a 1% LIBOR floor with interest payable quarterly. As of December 31, 2017 , $850 million was outstanding. In addition to the financing, EGR IV entered into interest rate swaps with an initial notional amount of $636 million at an interest rate of 2.32% to manage a portion of the interest rate exposure in connection with the financing.

14 . Income Taxes (All Registrants)

Corporate Tax Reform (All Registrants)

On December 22, 2017, President Trump signed the TCJA into law. The TCJA makes many significant changes to the Internal Revenue Code, including, but not limited to, (1) reducing the U.S. federal corporate tax rate from 35% to 21% ; (2) creating a 30% limitation on deductible interest expense (not applicable to regulated utilities); (3) allowing 100% expensing for the cost of qualified property (not applicable to regulated utilities); (4) eliminating the domestic production activities deduction; (5) eliminating the corporate alternative minimum tax and changing how existing alternative minimum tax credits can be realized; and (6) changing rules related to uses and limitations of net operating loss carryforwards created in tax years beginning after December 31, 2017. The most significant change that impacts the Registrants is the reduction of the corporate federal income tax rate from 35% to 21% beginning January 1, 2018.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Pursuant to the enactment of the TCJA, the Registrants remeasured their existing deferred income tax balances as of December 31, 2017 to reflect the decrease in the corporate income tax rate from 35% to 21% , which resulted in a material decrease to their net deferred income tax liability balances as shown in the table below. Generation recorded a corresponding net decrease to income tax expense, while the Utility Registrants recorded corresponding regulatory liabilities or assets to the extent such amounts are probable of settlement or recovery through customer rates and an adjustment to income tax expense for all other amounts. The amount and timing of potential settlements of the established net regulatory liabilities will be determined by the Utility Registrants' respective rate regulators, subject to certain IRS "normalization" rules. See Note 3 — Regulatory Matters for further information.

The Registrants have completed their assessment of the majority of the applicable provisions in the TCJA and have recorded the associated impacts as of December 31, 2017. As discussed further below, under SAB 118 issued by the SEC in December 2017, the Registrants have recorded provisional income tax amounts as of December 31, 2017 for changes pursuant to the TCJA related to depreciation for which the impacts could not be finalized upon issuance of the Registrants' financial statements, but for which reasonable estimates could be determined.

For property acquired and placed-in-service after September 27, 2017, the TCJA repeals 50% bonus depreciation for all taxpayers and in addition provides for 100% expensing for taxpayers other than regulated utilities. As a result, Generation will be required to evaluate the contractual terms of its fourth quarter 2017 capital additions and determine if they qualify for 100% expensing under the TCJA as compared to 50% bonus depreciation under prior tax law. Similarly, the Utility Registrants will be required to evaluate the contractual terms of their fourth quarter 2017 capital additions to determine whether they still qualify for the prior tax law's 50% bonus depreciation as compared to no bonus depreciation pursuant to the TCJA. As of December 31, 2017, the Registrants have not completed this analysis but were able to record a reasonable estimate of the effects of these changes based on capital costs incurred at each of the Registrants prior to and after the beginning of the fourth quarter of 2017.

At Generation, any required changes to the provisional estimates during the measurement period related to the above item would result in an adjustment to current income tax expense at 35% and a corresponding adjustment to deferred income tax expense at 21% and such changes could be material to Generation's future results of operations. At the Utility Registrants, any required changes to the provisional estimates would result in the recording of regulatory assets or liabilities to the extent such amounts are probable of settlement or recovery through customer rates and a net change to income tax expense for any other amounts.

The Registrants expect any final adjustments to the provisional amounts to be recorded by the third quarter of 2018, which could be material to the Registrants' future results of operations or financial positions. The accounting for all other applicable provisions of the TCJA is considered complete based on our current interpretation of the provisions of the TCJA as enacted as of December 31, 2017.

While the Registrants have recorded the impacts of the TCJA based on their interpretation of the provisions as enacted, it is expected that technical corrections or other forms of guidance will be issued during 2018, which could result in material changes to previously finalized provisions. At this time, most states have not provided guidance regarding TCJA impacts and may issue guidance in 2018 which may impact estimates.

Net Deferred Income Tax Benefit/(Expense) Recorded	$1,309	$1,895	$1	$13	$(4)	$(35)	$(8)	$(5)	$(2)

(a) Reflects the net regulatory liabilities recorded on a pre-tax basis before taking into consideration the income tax benefits associated with the ultimate settlement with customers.
(b) Amounts do not sum across due to deferred tax adjustments recorded at the Exelon Corporation parent company, primarily related to certain employee compensation plans.
(c) Given the regulatory treatment of income tax benefits related to electric and gas distribution repairs, PECO remains in an overall net regulatory asset position as of December 31, 2017 after recording the impacts related to the TCJA. Refer to Note 3 - Regulatory Matters for additional information.

The net regulatory liabilities above include (1) amounts subject to IRS "normalization" rules that are required to be passed back to customers generally over the remaining useful life of the underlying assets giving rise to the associated deferred income taxes, and (2) amounts for which the timing of settlement with customers is subject to determinations by the rate regulators. The table below sets forth the Registrants' estimated categorization of their net regulatory liabilities as of December 31, 2017. The amounts in the table below are shown on an after-tax basis reflecting future net cash outflows after taking into consideration the income tax benefits associated with the ultimate settlement with customers.

					Successor			
	Exelon	ComEd	PECO [a]	BGE	PHI	PEPCO	DPL	ACE
Subject to IRS Normalization Rules	$3,040	$1,400	$533	$459	$648	$299	$195	$153
Subject to Rate Regulator Determination	1,694	573	43	324	754	391	194	170
Net Regulatory Liabilities	$4,734	$1,973	$576	$783	$1,402	$690	$389	$ 323

(a) Given the regulatory treatment of income tax benefits related to electric and gas distribution repairs, PECO remains in an overall net regulatory asset position as of December 31, 2017 after recording the impacts related to the TCJA. As a result, the amount of customer benefits resulting from the TCJA subject to the discretion of PECO's rate regulators are lower relative to the other Utility Registrants. Refer to Note 3 - Regulatory Matters for additional information.

The net regulatory liability amounts subject to the IRS normalization rules generally relate to property, plant and equipment with remaining useful lives ranging from 30 to 40 years across the Utility Registrants. For the other amounts, rate regulators could require the passing back of amounts to customers over shorter time frames.

Effective income tax rate	32.2 %	27.1 %	39.7 %	27.4 %	39.6 %	33.9 %	35.3 %	39.2 %	45.2 %

(a) Includes the charges related to the transmission-related income tax regulatory asset for Exelon, ComEd, BGE, PHI, Pepco, DPL, and ACE of $ 35 million , $ 3 million , $ 5 million , $ 27 million , $ 14 million , $ 6 million , and $ 7 million , respectively (See Footnote 3 - Regulatory Matters).
(b) Included are impacts for TJCA other than the corporate rate change, including revisions further limiting tax deductions for compensation of certain highest paid executives, the write-off of foreign tax credit carryforwards, and loss of a 2015 domestic production activities deduction due to an NOL carryback.
(c) DPL and ACE recognized a loss before income taxes for the year ended December 31, 2016 , and PHI recognized a loss before income taxes for the period of March 24, 2016, through December 31, 2016 . As a result, positive percentages represent an income tax benefit for the periods presented.
(d) Includes a remeasurement of uncertain state income tax positions for Pepco and DPL.
(e) At PECO, includes a cumulative adjustment related to an anticipated gas repairs tax return accounting method change. The method change request was filed and accepted in 2017. No change to the results recorded as of December 31, 2016.
(f) Includes impacts of the PHI Global Settlement for Pepco, DPL, ACE and PHI.

Unrecognized tax benefits at December 31, 2015	$ 1,078	$ 534	$ 142	$ —	$ 120	$ 22	$ 8	$ 3	$ —

Exelon established a liability for an uncertain tax position associated with the tax deductibility of certain merger commitments incurred by Exelon in connection with the acquisitions of Constellation in 2012 and PHI in 2016. In the first quarter 2017, as a part of its examination of Exelon's return, the IRS National Office issued guidance concurring with Exelon's position that the merger commitments were deductible. As a result, Exelon, Generation, PHI, Pepco, DPL, and ACE decreased their liability for unrecognized tax benefits by $146 million , $19 million , $59 million , $21 million , $16 million , and $22 million , respectively, in the first quarter of 2017 resulting in a benefit to Income taxes on Exelon's, Generation's, PHI's, Pepco's, DPL's and ACE's Consolidated Statements of Operations and Comprehensive Income and corresponding decreases in their effective tax rates.

Exelon reduced the liability related to the uncertain tax position associated with the like-kind exchange in the second quarter of 2017. Please see the Other Income Tax Matters section below for additional details related to the like-kind exchange adjustments made in the second quarter of 2017.

Exelon and Generation have $7 million of unrecognized tax benefits at December 31, 2017 for which the ultimate tax benefit is highly certain, but for which there is uncertainty about the timing of such benefits.

S1-SSA-0009 - 16672

Exelon, Generation, and ComEd had $83 million , $7 million , and $(12) million of unrecognized tax benefits at December 31, 2016 for which the ultimate tax benefit is highly certain, but for which there is uncertainty about the timing of such benefits.

Exelon, Generation, and ComEd had $415 million , $20 million and $142 million of unrecognized tax benefits at December 31, 2015 for which the ultimate tax benefit is highly certain, but for which there is uncertainty about the timing of such benefits.

The disallowance of such positions would not materially affect the annual effective tax rate but would accelerate the payment of cash to, or defer the receipt of the cash tax benefit from, the taxing authority to an earlier or later period respectively.

Unrecognized tax benefits that if recognized would affect the effective tax rate

Exelon, Generation, ComEd and PHI have $523 million , $461 million , $2 million , and $32 million , respectively, of unrecognized tax benefits at December 31, 2017 that, if recognized, would decrease the effective tax rate. BGE, PHI, Pepco, DPL, and ACE have $120 million , $94 million , $59 million , $21 million , and $14 million of unrecognized tax benefits at December 31, 2017 that, if recognized, may be included in future base rates and that portion would have no impact to the effective tax rate.

Exelon, Generation, PHI, Pepco, DPL, and ACE had $633 million , $483 million , $93 million , $21 million , $16 million , and $22 million , respectively, of unrecognized tax benefits at December 31, 2016 that, if recognized, would decrease the effective tax rate. BGE, PHI, Pepco and DPL had $120 million , $80 million , $59 million , and $21 million of unrecognized tax benefits at December 31, 2016 that, if recognized, may be included in future base rates and that portion would have no impact to the effective tax rate.

Exelon, Generation, and PHI had $538 million , $509 million , and $11 million , respectively, of unrecognized tax benefits at December 31, 2015 that, if recognized, would decrease the effective tax rate. BGE, PHI, Pepco and DPL had $120 million , $11 million , $8 million and $3 million of unrecognized tax benefits at December 31, 2015 that, if recognized, may be included in future base rates and that portion would have no impact to the effective tax rate.

Reasonably possible the total amount of unrecognized tax benefits could significantly increase or decrease within 12 months after the reporting date

Like-Kind Exchange

As of December 31, 2017 , Exelon and ComEd have approximately $39 million and $ 2 million , respectively, of unrecognized federal and state income tax benefits that could significantly decrease within the 12 months after the reporting date due to a final resolution of the like-kind exchange litigation described below. The recognition of these unrecognized tax benefits would decrease Exelon and ComEd's effective tax rate.

Settlement of Income Tax Audits, Refund Claims, and Litigation

As of December 31, 2017 , Exelon, Generation, BGE, PHI, Pepco, DPL, and ACE have approximately $683 million , $469 million , $120 million , $94 million , $59 million , $ 21 million , $ 14 million respectively, of unrecognized federal and state tax benefits that could significantly decrease within the 12 months after the reporting date as a result of completing audits, potential settlements, refund claims, and the outcomes of pending court cases. Of the above unrecognized tax benefits, Exelon and Generation have $462 million that, if recognized, would decrease the effective tax rate. The unrecognized tax benefit related to BGE, Pepco, DPL and ACE, if recognized, may be included in future base rates and that portion would have no impact to the effective tax rate.

Various separate company Maryland corporate net income tax returns	Same as Federal

Other Tax Matters

Like-Kind Exchange

Exelon, through its ComEd subsidiary, took a position on its 1999 income tax return to defer approximately $1.2 billion of tax gain on the sale of ComEd's fossil generating assets. The gain was deferred by reinvesting a portion of the proceeds from the sale in qualifying replacement property under the like-kind exchange provisions of the IRC. The like-kind exchange replacement property purchased by Exelon included interests in three municipal-owned electric generation facilities which were properly leased back to the municipalities.

The IRS disagreed with this position and asserted that the entire gain of approximately $1.2 billion was taxable in 1999. Exelon was unable to reach agreement with the IRS regarding the dispute over the like-kind exchange position. The IRS asserted that the Exelon purchase and leaseback transaction was substantially similar to a leasing transaction, known as a SILO, which the IRS does not respect as the acquisition of an ownership interest in property. A SILO is a "listed transaction" that the IRS has identified as a potentially abusive tax shelter under guidance issued in 2005. Accordingly, the IRS asserted that the sale of the fossil plants followed by the purchase and leaseback of the municipal owned generation facilities did not qualify as a like-kind exchange and the gain on the sale is fully subject to tax. The IRS also asserted a penalty of approximately $90 million for a substantial understatement of tax.

On September 30, 2013, the IRS issued a notice of deficiency to Exelon for the like-kind exchange position. Exelon filed a petition on December 13, 2013 to initiate litigation in the United States Tax Court (Tax Court) and the trial took place in August of 2015. Exelon was not required to remit any part of the asserted tax or penalty in order to litigate the issue.

On September 19, 2016, the Tax Court rejected Exelon's position in the case and ruled that Exelon was not entitled to defer gain on the transaction. In addition, contrary to Exelon's evaluation that the penalty was unwarranted, the Tax Court ruled that Exelon is liable for the penalty and interest due on

the asserted penalty. In June of 2017, the IRS finalized its computation of tax, penalties and interest owed by Exelon pursuant to the Tax Court's decision. In September of 2017, Exelon appealed this decision to the U.S. Court of Appeals for the Seventh Circuit.

In the first quarter of 2013, Exelon concluded that it was no longer more likely than not that the like-kind exchange position would be sustained and recorded charges to earnings representing the amount of interest expense (after-tax) and incremental state income tax expense that would be payable in the event Exelon is unsuccessful in litigation. Exelon agreed to hold ComEd harmless from any unfavorable impacts on ComEd's equity of the after-tax interest and penalty amounts.

Prior to the Tax Court's decision, however, Exelon did not believe it was likely a penalty would be assessed based on applicable case law and the facts of the transaction. As a result, no charge had been recorded for the penalty or for after-tax interest on the penalty. While it has strong arguments on appeal with respect to both the merits and the penalty, Exelon has determined that, pursuant to the applicable authoritative guidance, it is no longer more likely than not to avoid ultimate imposition of the penalty. As a result, in the third quarter of 2016, Exelon and ComEd recorded a charge to earnings of approximately $ 106 million and $ 86 million , respectively, of penalty and approximately $ 94 million and $ 64 million , respectively, of after-tax interest. Exelon and ComEd recorded the penalty and pre-tax interest due on the asserted penalty to Other, net and Interest expense, net, respectively, on their Consolidated Statements of Operations. Consistent with Exelon's agreement to continue to hold ComEd harmless from any unfavorable impact on its equity from the like-kind exchange position, ComEd recorded on its Consolidated Balance Sheets as of September 30, 2016, an additional $ 150 million receivable and non-cash equity contributions from Exelon.

As a result of the IRS's finalization of its computation in the second quarter of 2017, Exelon recorded a benefit to earnings of approximately $ 26 million , consisting of an income tax benefit of $ 50 million and a reduction of penalties of $ 2 million , partially offset by after-tax interest expense of $ 26 million , while ComEd recorded a charge to earnings of approximately $ 23 million , consisting of income tax expense of $ 15 million and after-tax interest expense of $ 8 million .

In the second quarter of 2017, Exelon amended its agreement with ComEd to also hold ComEd harmless for the unfavorable impacts on its equity from the additional income tax amounts owed by ComEd as a result of the IRS's finalization of its computation related to the like-kind exchange position. Accordingly, in the second quarter of 2017, ComEd recorded an additional receivable and non-cash equity contribution from Exelon for the total $ 23 million . As of June 30, 2017, ComEd had a total receivable from Exelon pursuant to the hold harmless agreement of $ 369 million , which was included in Current Receivables from Affiliates on ComEd's Consolidated Balance Sheet.

In the fourth quarter of 2017, the IRS assessed the tax, penalties and interest of approximately $ 1.3 billion related to the like-kind exchange, including $ 300 million attributable to ComEd. While Exelon will receive a tax benefit of approximately $ 350 million associated with the deduction for the interest, Exelon currently has a net operating loss carryforward and thus does not expect to realize the cash benefit until 2018. After taking into account these interest deduction tax benefits, the total net cash outflow for the like-kind exchange is approximately $ 950 million , of which approximately $ 300 million is attributable to ComEd after giving consideration to Exelon's agreement to hold ComEd harmless from any unfavorable impacts on ComEd's equity from the like-kind exchange position. Following a final appellate decision, which is expected in 2018, Exelon expects to receive approximately $ 60 million related to final interest computations.

Of the above amounts payable, Exelon deposited with the IRS $ 1.25 billion in October of 2016. Exelon funded the $ 1.25 billion deposit with a combination of cash on hand and short-term borrowings. As a result of the IRS's assessment of the tax, penalties and interest in the fourth quarter of 2017, the deposit is no longer available to Exelon and thus was reclassified from a current asset and is now reflected as an offset to the related liabilities for the tax, penalties, and interest that are included on

Exelon's balance sheet as current liabilities. The remaining amount due of approximately $ 20 million was paid in the fourth quarter of 2017. The $ 300 million payable discussed above attributable to ComEd, net of ComEd's receivable pursuant to the hold harmless agreement, was settled with Exelon in the third quarter of 2017. No recovery will be sought from ComEd customers for any interest, penalty, or additional income tax payment amounts resulting from the like-kind exchange tax position.

As previously disclosed, in the first quarter of 2014, Exelon entered into an agreement to terminate its investment in one of the three municipal-owned electric generation properties in exchange for a net early termination amount of $ 335 million . In the first quarter of 2016, Exelon terminated its interests in the remaining two municipal-owned electric generation properties in exchange for $ 360 million .

Long-Term State Tax Apportionment (Exelon, Generation and PHI)

Exelon, Generation and PHI periodically review events that may significantly impact how income is apportioned among the states and, therefore, the calculation of their respective deferred state income taxes. Events that may require Exelon, Generation and PHI to update their long-term state tax apportionment include significant changes in tax law and/or significant operational changes. Exelon's, PHI's and Pepco's long-term marginal state income tax rate were revised in the first quarter of 2017 as a result of a statutory rate change in Washington, D.C. As a result, Exelon, PHI and Pepco recorded a one-time decrease to Deferred income tax liability of $ 28 million , $ 8 million and $ 8 million , respectively, on their Consolidated Balance Sheets. Because income taxes are recovered through customer rates, Exelon, PHI and Pepco recorded a corresponding regulatory liability of $ 8 million , in the Consolidated Balance Sheets. In addition, Exelon recorded a decrease to Income tax expense of $ 20 million , net of federal taxes, in the Consolidated Statements of Operations and Comprehensive Income for the three months ended March 31, 2017.

In the third quarter of 2017, Exelon reviewed and updated its marginal state income tax rates based on 2016 state apportionment rates. In addition, Exelon, Generation and ComEd recorded the impacts of Illinois' statutory rate change, which increased the total corporate income tax rate from 7.75% to 9.5% effective July 1, 2017. As a result of the rate changes, in the third quarter of 2017, Exelon, Generation and ComEd recorded a one-time increase to Deferred income taxes of approximately $ 250 million , $ 20 million and $ 270 million , respectively, on their Consolidated Balance Sheets. Because income taxes are recovered through customer rates, each of Exelon and ComEd recorded a corresponding regulatory asset of $ 272 million . Further, Exelon recorded a decrease to Income tax expense of approximately $ 20 million and Generation recorded an increase to Income tax expense of approximately $ 20 million (each net of federal taxes) in their Consolidated Statements of Operations and Comprehensive Income for the three and nine months ended September 30, 2017. The Illinois statutory rate increase is not expected to have a material ongoing impact to Exelon's, Generation's or ComEd's future results of operations.

Allocation of Tax Benefits (All Registrants)

Generation, ComEd, PECO, BGE, PHI, Pepco, DPL and ACE are all party to an agreement with Exelon and other subsidiaries of Exelon that provides for the allocation of consolidated tax liabilities and benefits (Tax Sharing Agreement). The Tax Sharing Agreement provides that each party is allocated an amount of tax similar to that which would be owed had the party been separately subject to tax. In addition, any net benefit attributable to Exelon is reallocated to the other Registrants. That allocation is treated as a contribution to the capital of the party receiving the benefit. During 2017, Generation, PECO, BGE, and PHI recorded an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement of $102 million , $ 16 million , $ 10 million and $ 7 million respectively. ComEd, Pepco, DPL, and ACE did not record an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement as a result of a tax net operating loss.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

During 2016, Generation, PECO and BGE recorded an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement of $ 94 million , $ 18 million and $ 8 million respectively. ComEd did not record an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement as a result of a tax net operating loss. PHI, Pepco, DPL and ACE did not record an allocation of Federal tax benefits from Exelon as they were not a part of Exelon's 2015 consolidated tax return.

During 2015, Generation, PECO and BGE recorded an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement of $ 57 million , $ 16 million and $ 7 million respectively. ComEd did not record an allocation of Federal tax benefits from Exelon under the Tax Sharing Agreement as a result of a tax net operating loss.

15 . Asset Retirement Obligations (All Registrants)

Nuclear Decommissioning Asset Retirement Obligations

Generation has a legal obligation to decommission its nuclear power plants following the expiration of their operating licenses. To estimate its decommissioning obligation related to its nuclear generating stations for financial accounting and reporting purposes, Generation uses a probability-weighted, discounted cash flow model which, on a unit-by-unit basis, considers multiple outcome scenarios that include significant estimates and assumptions, and are based on decommissioning cost studies, cost escalation rates, probabilistic cash flow models and discount rates. Generation updates its ARO annually unless circumstances warrant more frequent updates, based on its review of updated cost studies and its annual evaluation of cost escalation factors and probabilities assigned to various scenarios.

The following table provides a rollforward of the nuclear decommissioning ARO reflected on Exelon's and Generation's Consolidated Balance Sheets, from January 1, 2016 to December 31, 2017 :

	Exelon and Generation
Nuclear decommissioning ARO at January 1, 2016	$ 8,246
Accretion expense	436
Net increase for changes in and timing of estimated future cash flows	61
Costs incurred related to decommissioning plants	(9)
Nuclear decommissioning ARO at December 31, 2016 [(a)]	8,734
Accretion Expense	458
Acquisition of FitzPatrick	444
Net increase for changes in and timing of estimated future cash flows	34
Costs incurred related to decommissioning plants	(8)
Nuclear decommissioning ARO at December 31, 2017 [(a)]	$ 9,662

(a) Includes $ 13 million and $ 10 million as the current portion of the ARO at December 31, 2017 and 2016 , respectively, which is included in Other current liabilities on Exelon's and Generation's Consolidated Balance Sheets.

During 2017 , Generation's total nuclear ARO increased by approximately $928 million , primarily reflecting year-to-date accretion of the ARO liability due to the passage of time, the recording of the fair value of the ARO, including subsequent purchase accounting adjustments, for the acquisition of FitzPatrick (see Note 4 — Mergers, Acquisitions and Dispositions), the announced early retirement of TMI, and impacts of ARO updates completed during 2017 to reflect changes in amounts and timing of estimated decommissioning cash flows.

The net $34 million increase in the ARO during 2017 for changes in the amounts and timing of estimated decommissioning cash flows was driven by multiple adjustments throughout the year, some with offsetting impacts. These adjustments include a $ 178 million increase due to higher assumed probabilities of early retirement of Salem and a $ 138 million increase in TMI's ARO liability associated with the May 30, 2017 announcement to early retire the unit on September 30, 2019. The increase in the ARO liability for TMI incorporates the early shutdown date, increases the probabilities of longer term decommissioning scenarios, and reflects an increase in the estimated costs to decommission based on an updated decommissioning cost study. See Note 8 — Early Nuclear Plant Retirements for additional information regarding Salem and TMI. These increases in the ARO were partially offset by a $ 180 million decrease for refinements in estimated fleet wide labor costs expected to be incurred for certain on-site personnel during decommissioning as well as net decreases resulting from updates to the cost studies of Clinton, Quad Cities and Dresden.

During 2016 , Generation's ARO increased by approximately $488 million , primarily reflecting year-to-date accretion of the ARO liability of approximately $436 million due to the passage of time and impacts of ARO updates completed during 2016 to reflect changes in amounts and timing of estimated decommissioning cash flows. The $61 million increase in the ARO during 2016 for changes in the amounts and timing of estimated decommissioning cash flows was driven by multiple adjustments throughout the year, some with offsetting impacts. These adjustments include increases of $288 million resulting from the change in the assumed DOE spent fuel acceptance date for disposal from 2025 to 2030 as well as increases resulting from updates to the cost studies of Oyster Creek, Zion, Calvert Cliffs, Ginna and Nine Mile Point. These increases were partially offset by a decrease of $165 million resulting from changes to the decommissioning scenarios and their probabilities as well as reductions in estimated cost escalation rates, primarily for labor, energy and waste burial costs. Most of the increase to the ARO resulting from the June 2, 2016, announcement to early retire Clinton and Quad Cities was reversed pursuant to the December 7, 2016, enactment of the Illinois FEJA. See Note 8 — Early Nuclear Plant Retirements for additional information.

Nuclear Decommissioning Trust Fund Investments

NDT funds have been established for each generation station unit to satisfy Generation's nuclear decommissioning obligations. Generally, NDT funds established for a particular unit may not be used to fund the decommissioning obligations of any other unit.

The NDT funds associated with Generation's nuclear units have been funded with amounts collected from the previous owners and their respective utility customers. PECO is authorized to collect funds, in revenues, for decommissioning the former PECO nuclear plants through regulated rates, and these collections are scheduled through the operating lives of the former PECO plants. The amounts collected from PECO customers are remitted to Generation and deposited into the NDT funds for the unit for which funds are collected. Every five years, PECO files a rate adjustment with the PAPUC that reflects PECO's calculations of the estimated amount needed to decommission each of the former PECO units based on updated fund balances and estimated decommissioning costs. The rate adjustment is used to determine the amount collectible from PECO customers. On March 31, 2017, PECO filed its Nuclear Decommissioning Cost Adjustment (NDCA) with the PAPUC proposing an annual recovery from customers of approximately $4 million . This amount reflects a decrease from the current approved annual collection of approximately $ 24 million primarily due to the removal of the collections for Limerick Units 1 and 2 as a result of the NRC approving the extension of the operating licenses for an additional 20 years. On August 8, 2017, the PAPUC approved the filing and the new rates became effective January 1, 2018.

Any shortfall of funds necessary for decommissioning, determined for each generating station unit, is ultimately required to be funded by Generation, with the exception of a shortfall for the current decommissioning activities at Zion Station, where certain decommissioning activities have been

transferred to a third-party (see Zion Station Decommissioning below) and the CENG units, where any shortfall is required to be funded by both Generation and EDF. Generation, through PECO, has recourse to collect additional amounts from PECO customers related to a shortfall of NDT funds for the former PECO units, subject to certain limitations and thresholds, as prescribed by an order from the PAPUC. Generally, PECO, and likewise Generation will not be allowed to collect amounts associated with the first $ 50 million of any shortfall of trust funds compared to decommissioning costs, as well as 5% of any additional shortfalls, on an aggregate basis for all former PECO units. The initial $ 50 million and up to 5% of any additional shortfalls would be borne by Generation. No recourse exists to collect additional amounts from utility customers for any of Generation's other nuclear units. With respect to the former ComEd and PECO units, any funds remaining in the NDTs after all decommissioning has been completed are required to be refunded to ComEd's or PECO's customers, subject to certain limitations that allow sharing of excess funds with Generation related to the former PECO units. With respect to Generation's other nuclear units, Generation retains any funds remaining after decommissioning. However, in connection with CENG's acquisition of the Nine Mile Point and Ginna plants and settlements with certain regulatory agencies, CENG is subject to certain conditions pertaining to nuclear decommissioning trust funds that, if met, could possibly result in obligations to make payments to certain third parties (clawbacks). For Nine Mile Point and Ginna, the clawback provisions are triggered only in the event that the required decommissioning activities are discontinued or not started or completed in a timely manner. In the event that the clawback provisions are triggered for Nine Mile Point, then, depending upon the triggering event, an amount equal to 50% of the total amount withdrawn from the funds for non-decommissioning activities or 50% of any excess funds in the trust funds above the amounts required for decommissioning (including spent fuel management and decommissioning) is to be paid to the Nine Mile Point sellers. In the event that the clawback provisions are triggered for Ginna, then an amount equal to any estimated cost savings realized by not completing any of the required decommissioning activities is to be paid to the Ginna sellers. Generation expects to comply with applicable regulations and timely commence and complete all required decommissioning activities.

At December 31, 2017 and 2016 , Exelon and Generation had NDT fund investments totaling $ 13,349 million and $11,061 million , respectively. The increase is primarily driven by improved market performance and the acquisition of FitzPatrick. For additional information related to the NDT fund investments, refer to Note 11 — Fair Value of Financial Assets and Liabilities .

The following table provides unrealized gains on NDT funds for 2017 , 2016 and 2015 :

	Exelon and Generation		
	For the Years Ended December 31,		
	2017	2016	2015
Net unrealized gains (losses) on decommissioning trust funds—Regulatory Agreement Units [(a)]	$ 455	$ 216	$ (282)
Net unrealized gains (losses) on decommissioning trust funds—Non-Regulatory Agreement Units [(b)(c)]	521	194	(197)

(a) Net unrealized gains (losses) related to Generation's NDT funds associated with Regulatory Agreement Units are included in Regulatory liabilities on Exelon's Consolidated Balance Sheets and Noncurrent payables to affiliates on Generation's Consolidated Balance Sheets.
(b) Excludes $ (10) million , $(1) million and $ 7 million of net unrealized gains (losses) related to the Zion Station pledged assets in 2017 , 2016 and 2015 , respectively. Net unrealized gains related to Zion Station pledged assets are included in the Other current liabilities and Payable for Zion Station decommissioning on Exelon's and Generation's Consolidated Balance Sheets in 2017 and 2016, respectively.
(c) Net unrealized gains (losses) related to Generation's NDT funds with Non-Regulatory Agreement Units are included within Other, net in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Interest and dividends on NDT fund investments are recognized when earned and are included in Other, net in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. Interest and dividends earned on the NDT fund investments for the Regulatory Agreement

Units are eliminated within Other, net in Exelon's and Generation's Consolidated Statement of Operations and Comprehensive Income.

Accounting Implications of the Regulatory Agreements with ComEd and PECO

Based on the regulatory agreement with the ICC that dictates Generation's obligations related to the shortfall or excess of NDT funds necessary for decommissioning the former ComEd units on a unit-by-unit basis, as long as funds held in the NDT funds are expected to exceed the total estimated decommissioning obligation, decommissioning-related activities, including realized and unrealized gains and losses on the NDT funds and accretion of the decommissioning obligation, are generally offset within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. The offset of decommissioning-related activities within the Consolidated Statement of Operations and Comprehensive Income results in an equal adjustment to the noncurrent payables to affiliates at Generation and an adjustment to the regulatory liabilities at Exelon. Likewise, ComEd has recorded an equal noncurrent affiliate receivable from Generation and corresponding regulatory liability. Should the expected value of the NDT fund for any former ComEd unit fall below the amount of the expected decommissioning obligation for that unit, the accounting to offset decommissioning-related activities in the Consolidated Statement of Operations and Comprehensive Income for that unit would be discontinued, the decommissioning-related activities would be recognized in the Consolidated Statements of Operations and Comprehensive Income and the adverse impact to Exelon's and Generation's results of operations and financial positions could be material. As of December 31, 2017 , the NDT funds of each of the former ComEd units, except for Zion (see Zion Station Decommissioning below), are expected to exceed the related decommissioning obligation for each of the units. For the purposes of making this determination, the decommissioning obligation referred to is different, as described below, from the calculation used in the NRC minimum funding obligation filings based on NRC guidelines.

Based on the regulatory agreement supported by the PAPUC that dictates Generation's rights and obligations related to the shortfall or excess of trust funds necessary for decommissioning the former PECO units, regardless of whether the funds held in the NDT funds are expected to exceed or fall short of the total estimated decommissioning obligation, decommissioning-related activities are generally offset within Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income. The offset of decommissioning-related activities within the Consolidated Statement of Operations and Comprehensive Income results in an equal adjustment to the noncurrent payables to affiliates at Generation and an adjustment to the regulatory liabilities at Exelon. Likewise, PECO has recorded an equal noncurrent affiliate receivable from Generation and a corresponding regulatory liability. Any changes to the PECO regulatory agreements could impact Exelon's and Generation's ability to offset decommissioning-related activities within the Consolidated Statement of Operations and Comprehensive Income, and the impact to Exelon's and Generation's results of operations and financial positions could be material.

The decommissioning-related activities related to the Non-Regulatory Agreement Units are reflected in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income.

Refer to Note 3 — Regulatory Matters and Note 26 — Related Party Transactions for information regarding regulatory liabilities at ComEd and PECO and intercompany balances between Generation, ComEd and PECO reflecting the obligation to refund to customers any decommissioning-related assets in excess of the related decommissioning obligations.

Zion Station Decommissioning

On September 1, 2010, Generation completed an Asset Sale Agreement (ASA) with EnergySolutions Inc. and its wholly owned subsidiaries, EnergySolutions, LLC (EnergySolutions) and

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

ZionSolutions, under which ZionSolutions has assumed responsibility for decommissioning Zion Station, which is located in Zion, Illinois and ceased operation in 1998. Specifically, Generation transferred to ZionSolutions substantially all of the assets (other than land) associated with Zion Station, including assets held in related NDT funds. In consideration for Generation's transfer of those assets, ZionSolutions assumed decommissioning and other liabilities, excluding the obligation to dispose of SNF and decommission the SNF dry storage facility, associated with Zion Station. Pursuant to the ASA, ZionSolutions will periodically request reimbursement from the Zion Station-related NDT funds for costs incurred related to its decommissioning efforts at Zion Station. During 2013, EnergySolutions entered a definitive acquisition agreement and was acquired by another company. Generation reviewed the acquisition as it relates to the ASA to decommission Zion Station. Based on that review, Generation determined that the acquisition will not adversely impact decommissioning activities under the ASA.

ZionSolutions is subject to certain restrictions on its ability to request reimbursements from the Zion Station NDT funds as defined within the ASA. Therefore, the transfer of the Zion Station assets did not qualify for asset sale accounting treatment and, as a result, the related NDT funds were reclassified to Pledged assets for Zion Station decommissioning within Generation's and Exelon's Consolidated Balance Sheets and will continue to be measured in the same manner as prior to the completion of the transaction. Additionally, the transferred ARO for decommissioning was replaced with a Payable for Zion Station decommissioning in Generation's and Exelon's Consolidated Balance Sheets. Changes in the value of the Zion Station NDT assets, net of applicable taxes, will be recorded as a change in the Payable to ZionSolutions. At no point will the payable to ZionSolutions exceed the project budget of the costs remaining to decommission Zion Station. Generation has retained its obligation for the SNF. Following ZionSolutions' completion of its contractual obligations and transfer of the NRC license to Generation, Generation will store the SNF at Zion Station until it is transferred to the DOE for ultimate disposal, and will complete all remaining decommissioning activities associated with the SNF dry storage facility. Generation has a liability of approximately $ 114 million , which is included within the nuclear decommissioning ARO at December 31, 2017 . Generation also has retained NDT assets to fund its obligation to maintain the SNF at Zion Station until transfer to the DOE and to complete all remaining decommissioning activities for the SNF storage facility. Any shortage of funds necessary to maintain the SNF and decommission the SNF storage facility is ultimately required to be funded by Generation. Any Zion Station NDT funds remaining after the completion of all decommissioning activities will be returned to ComEd customers in accordance with the applicable orders. The following table provides the pledged assets and payables to ZionSolutions, and withdrawals by ZionSolutions at December 31, 2017 and 2016 :

	Exelon and Generation	
	2017	2016
Carrying value of Zion Station pledged assets [a]	$ 39	$ 113
Payable to Zion Solutions [b]	37	104
Current portion of payable to Zion Solutions [c]	37	90
Cumulative withdrawals by Zion Solutions to pay decommissioning costs [d]	942	878

(a) Included in Other current assets within Exelon's and Generation's Consolidated Balance Sheets in 2017.
(b) Excludes a liability recorded within Exelon's and Generation's Consolidated Balance Sheets related to the tax obligation on the unrealized activity associated with the Zion Station NDT Funds. The NDT Funds will be utilized to satisfy the tax obligations as gains and losses are realized.
(c) Included in Other current liabilities within Exelon's and Generation's Consolidated Balance Sheets.
(d) Includes project expenses to decommission Zion Station and estimated tax payments on Zion Station NDT fund earnings.

ZionSolutions leased the land associated with Zion Station from Generation pursuant to a Lease Agreement. Under the Lease Agreement, ZionSolutions has committed to complete the required decommissioning work according to an established schedule and constructed a dry cask storage facility on the land and has loaded the SNF from the SNF pools onto the dry cask storage facility at Zion Station.

Rent payable under the Lease Agreement is $ 1.00 per year, although the Lease Agreement requires ZionSolutions to pay property taxes associated with Zion Station and penalty rents may accrue if there are unexcused delays in the progress of decommissioning work at Zion Station or the construction of the dry cask SNF storage facility. To reduce the risk of default by ZionSolutions, EnergySolutions provided a $ 200 million letter of credit to be used to fund decommissioning costs in the event the NDT assets are insufficient. In accordance with the terms of the ASA, the letter of credit was reduced to $98 million in August 2017 due to the completion of key decommissioning milestones. EnergySolutions and its parent company have also provided a performance guarantee and EnergySolutions has entered into other agreements that will provide rights and remedies for Generation and the NRC in the case of other specified events of default, including a special purpose easement for disposal capacity at the EnergySolutions site in Clive, Utah, for all LLRW volume of Zion Station.

NRC Minimum Funding Requirements

NRC regulations require that licensees of nuclear generating facilities demonstrate reasonable assurance that funds will be available in specified minimum amounts to decommission the facility at the end of its life. The estimated decommissioning obligations as calculated using the NRC methodology differ from the ARO recorded on Generation's and Exelon's Consolidated Balance Sheets primarily due to differences in the type of costs included in the estimates, the basis for estimating such costs, and assumptions regarding the decommissioning alternatives to be used, potential license renewals, decommissioning cost escalation, and the growth rate in the NDT funds. Under NRC regulations, if the minimum funding requirements calculated under the NRC methodology are less than the future value of the NDT funds, also calculated under the NRC methodology, then the NRC requires either further funding or other financial guarantees.

Key assumptions used in the minimum funding calculation using the NRC methodology at December 31, 2017 include: (1) consideration of costs only for the removal of radiological contamination at each unit; (2) the option on a unit-by-unit basis to use generic, non-site specific cost estimates; (3) consideration of only one decommissioning scenario for each unit; (4) the plants cease operation at the end of their current license lives (with no assumed license renewals for those units that have not already received renewals and with an assumed end-of-operations date of 2018 for Oyster Creek and 2019 for TMI); (5) the assumption of current nominal dollar cost estimates that are neither escalated through the anticipated period of decommissioning, nor discounted using the CARFR; and (6) assumed annual after-tax returns on the NDT funds of 2% (3% for the former PECO units, as specified by the PAPUC).

In contrast, the key criteria and assumptions used by Generation to determine the ARO and to forecast the target growth in the NDT funds at December 31, 2017 include: (1) the use of site specific cost estimates that are updated at least once every five years; (2) the inclusion in the ARO estimate of all legally unavoidable costs required to decommission the unit (e.g., radiological decommissioning and full site restoration for certain units, on-site spent fuel maintenance and storage subsequent to ceasing operations and until DOE acceptance, and disposal of certain low-level radioactive waste); (3) the consideration of multiple scenarios where decommissioning and site restoration activities, as applicable, are completed under four possible scenarios ranging from 10 to 70 years after the cessation of plant operations; (4) the consideration of multiple end of life scenarios; (5) the measurement of the obligation at the present value of the future estimated costs and an annual average accretion of the ARO of approximately 5% through a period of approximately 30 years after the end of the extended lives of the units; and (6) an estimated targeted annual pre-tax return on the NDT funds of 4.8% to 6.4% (as compared to a historical 5-year annual average pre-tax return of approximately 8%).

Generation is required to provide to the NRC a biennial report by unit (annually for units that have been retired or are within five years of the current approved license life), based on values as of December 31, addressing Generation's ability to meet the NRC minimum funding levels. Depending

on the value of the trust funds, Generation may be required to take steps, such as providing financial guarantees through letters of credit or parent company guarantees or making additional contributions to the trusts, which could be significant, to ensure that the trusts are adequately funded and that NRC minimum funding requirements are met. As a result, Exelon's and Generation's cash flows and financial positions may be significantly adversely affected.

Generation filed its biennial decommissioning funding status report with the NRC on March 31, 2017 for all units except for Zion Station which is included in a separate report to the NRC submitted by ZionSolutions (see Zion Station Decommissioning above) and FitzPatrick which is still owned by Entergy as of the NRC reporting period. This status report demonstrated adequate decommissioning funding assurance for all units except for Peach Bottom Unit 1. As a former PECO plant, financial assurance for decommissioning Peach Bottom Unit 1 is provided by the NDT fund in addition to collections from PECO ratepayers. As discussed under Nuclear Decommissioning Trust Fund Investments above, the amount collected from PECO ratepayers has been adjusted in the March 31, 2017 filing to the PAPUC which was approved on August 8, 2017 and effective on January 1, 2018.

Generation will file its next decommissioning funding status report with the NRC by March 31, 2018 for shutdown reactors and reactors within five years of shutdown. This report will reflect the status of decommissioning funding assurance as of December 31, 2017 and will include the early retirement of TMI announced on May 30, 2017, in addition to an adjustment for the February 2, 2018 announced retirement date for Oyster Creek. A shortfall at any unit could necessitate that Exelon post a parental guarantee for Generation's share of the funding assurance. However, the amount of any required guarantee will ultimately depend on the decommissioning approach adopted, the associated level of costs, and the decommissioning trust fund investment performance going forward.

As the future values of trust funds change due to market conditions, the NRC minimum funding status of Generation's units will change. In addition, if changes occur to the regulatory agreement with the PAPUC that currently allows amounts to be collected from PECO customers for decommissioning the former PECO units, the NRC minimum funding status of those plants could change at subsequent NRC filing dates.

Non-Nuclear Asset Retirement Obligations (All Registrants)

Generation has AROs for plant closure costs associated with its fossil and renewable generating facilities, including asbestos abatement, removal of certain storage tanks, restoring leased land to the condition it was in prior to construction of renewable generating stations and other decommissioning-related activities. PHI and the Utility Registrants have AROs primarily associated with the abatement and disposal of equipment and buildings contaminated with asbestos and PCBs. See Note 1 — Significant Accounting Policies for additional information on the Registrants' accounting policy for AROs.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table provides a rollforward of the non-nuclear AROs reflected on the Registrants' Consolidated Balance Sheets from January 1, 2016 to December 31, 2017 :

						Successor			
	Exelon	Generation	ComEd	PECO	BGE	PHI (g)	Pepco	DPL	ACE
Non-nuclear AROs at January 1, 2016	$ 355	$ 197	$ 113	$ 27	$ 18	$ —	$ —	$ —	$ —
Merger with PHI [a]	8	1	—	—	—	—	—	—	—
Net increase due to changes in, and timing of, estimated future cash flows [b]	34	8	4	1	7	14	2	9	3
Development projects [c]	11	11	—	—	—	—	—	—	—
Accretion expense [d]	18	10	7	1	—	—	—	—	—
Sale of generating assets [e]	(22)	(22)	—	—	—	—	—	—	—
Payments	(11)	(6)	(3)	(1)	(1)	—	—	—	—
Non-nuclear AROs at December 31, 2016 [f]	393	199	121	28	24	14	2	9	3
Net increase (decrease) due to changes in, and timing of, estimated future cash flows [b]	(11)	(1)	(13)	(1)	2	2	1	1	—

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

	Predecessor
	PHI (g)
	2016
Non-nuclear AROs at January 1, 2016	$ 8
Accretion expense	—
Non-nuclear AROs at March 23, 2016	$ 8

(a) Following the completion of the PHI merger on March 23, 2016, PHI's AROs related to its unregulated business interests were transferred to Exelon and Generation.
(b) During the year ended December 31, 2017 , ComEd recorded a decrease of $1 million in Operating and maintenance expense. Generation, PECO, BGE, Pepco, DPL and ACE did not record any adjustments in Operating and maintenance expense for the year ended December 31, 2017 . During the year ended December 31, 2016 , Generation recorded a increase of $1 million in Operating and maintenance expense. ComEd, PECO, BGE, Pepco, DPL and ACE did not record any adjustments in Operating and maintenance expense for the year ended December 31, 2016 .
(c) Relates to new AROs recorded due to the construction of solar, wind and other non-nuclear generating sites.
(d) For ComEd, PECO and BGE, the majority of the accretion is recorded as an increase to a regulatory asset due to the associated regulatory treatment.
(e) Reflects a reduction to the ARO resulting primarily from the sales of the New Boston generating site and Upstream business in 2016. See Note 4 — Mergers, Acquisitions and Dispositions for further information.
(f) Excludes the current portion of the ARO at December 31, 2017 for Generation, ComEd and BGE of $1 million , $2 million and $2 million , respectively. Excludes the current portion of the ARO at December 31, 2016 for Generation, ComEd and BGE of $1 million , $2 million and $3 million , respectively. This is included in Other current liabilities on the Registrants' respective Consolidated Balance Sheets.
(g) For PHI, the successor period includes activity for the year ended December 31, 2017 and the period of March 24, 2016 through December 31, 2016 . The PHI predecessor periods include activity for the period of January 1, 2016 through March 23, 2016.
(h) See Note 4 — Mergers, Acquisitions and Dispositions for additional information.

16 . Retirement Benefits (All Registrants)

Exelon sponsors defined benefit pension plans and other postretirement benefit plans for essentially all current employees. Substantially all non-union employees and electing union employees hired on or after January 1, 2001 participate in cash balance pension plans. Effective January 1, 2009, substantially all newly-hired union-represented employees participate in cash balance pension plans. Effective February 1, 2018, most newly-hired Generation and BSC non-represented employees are not eligible for pension benefits, and will instead be eligible to receive an enhanced non-discretionary employer contribution in an Exelon defined contribution savings plan. Effective January 1, 2018, most newly-hired non-represented employees are not eligible for OPEB benefits and employees represented by Local 614 are not eligible for retiree health care benefits.

Effective March 23, 2016 , Exelon became the sponsor of all of PHI's defined benefit pension and other postretirement benefit plans, and assumed PHI's benefit plan obligations and related assets. As a result, PHI's benefit plan net obligation and related regulatory assets were transferred to Exelon.

The table below shows the pension and other postretirement benefit plans in which employees of each operating company participated at December 31, 2017 :

(a) These plans are collectively referred to as the legacy Exelon plans.
(b) These plans are collectively referred to as the legacy Constellation Energy Group (CEG) Plans.
(c) These plans are collectively referred to as the legacy CENG plans.
(d) These plans are collectively referred to as the legacy PHI plans.
(e) Employees generally remain in their legacy benefit plans when transferring between operating companies.

Exelon's traditional and cash balance pension plans are intended to be tax-qualified defined benefit plans. Exelon has elected that the trusts underlying these plans be treated as qualified trusts under the IRC. If certain conditions are met, Exelon can deduct payments made to the qualified trusts, subject to certain IRC limitations.

Benefit Obligations, Plan Assets and Funded Status

Exelon recognizes the overfunded or underfunded status of defined benefit pension and OPEB plans as an asset or liability on its balance sheet, with offsetting entries to AOCI and regulatory assets (liabilities), in accordance with the applicable authoritative guidance. The measurement date for the plans is December 31.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

During the first quarter of 2017, Exelon received an updated valuation of its pension and other postretirement benefit obligations to reflect actual census data as of January 1, 2017. This valuation resulted in an increase to the pension obligation of $92 million and an increase to the other postretirement benefit obligation of $57 million . Additionally, accumulated other comprehensive loss increased by approximately $59 million (after tax), regulatory assets increased by approximately $57 million and regulatory liabilities increased by approximately $4 million .

In connection with the acquisition of FitzPatrick in the first quarter of 2017 , Exelon recorded pension and OPEB obligations for FitzPatrick employees of $16 million and $17 million , respectively. Refer to Note 4 — Mergers, Acquisitions and Dispositions for additional discussion of the acquisition of FitzPatrick.

The following tables provide a rollforward of the changes in the benefit obligations and plan assets for the most recent two years for all plans combined:

	Pension Benefits		Other Postretirement Benefits	
Exelon	**2017**	**2016 [a]**	**2017**	**2016 [a]**
Change in benefit obligation:				
Net benefit obligation at beginning of year	$ 21,060	$ 17,753	$ 4,457	$ 3,938
Service cost	387	354	106	107
Interest cost	842	830	182	185
Plan participants' contributions	—	—	53	54

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

PHI	Predecessor	
	Pension Benefits	Other Postretirement Benefits
	January 1, 2016 to March 23, 2016	January 1, 2016 to March 23, 2016
Change in benefit obligation:		
Net benefit obligation at beginning of the period	$ 2,490	$ 563
Service cost	12	1
Interest cost	26	6
Actuarial (gain) loss	(30)	(5)
Gross benefits paid	(2)	(1)
Net benefit obligation at end of the period	$ 2,496	$ 564

PHI	Predecessor	
	Pension Benefits	Other Postretirement Benefits
	January 1, 2016 to March 23, 2016	January 1, 2016 to March 23, 2016
Change in plan assets:		
Fair value of net plan assets at beginning of the period	$ 2,018	$ 348
Employer and plan participant contributions	4	1
Gross benefits paid by plan	(2)	(1)
Fair value of net plan assets at end of the period	$ 2,020	$ 348

(a) 2016 amounts include PHI for the period of March 24, 2016 through December 31, 2016.
(b) Exelon recorded pension and OPEB obligations associated with its acquisition of Fitzpatrick on March 31, 2017. Effective March 23, 2016 , Exelon became the sponsor of PHI's defined benefit pension and other postretirement benefit plans.

Exelon presents its benefit obligations and plan assets net on its balance sheet within the following line items:

Exelon	Pension Benefits		Other Postretirement Benefits	
	2017	2016 [a]	2017	2016 [a]
Other current liabilities	$ 28	$ 21	$ 31	$ 31
Pension obligations	3,736	4,248	—	—
Non-pension postretirement benefit obligations	—	—	2,093	1,848
Unfunded status (net benefit obligation less plan assets)	$ 3,764	$ 4,269	$ 2,124	$ 1,879

(a) Effective March 23, 2016 , Exelon became the sponsor of PHI's defined benefit pension and other postretirement benefit plans, and assumed PHI's benefit plan obligations and related assets.

The funded status of the pension and other postretirement benefit obligations refers to the difference between plan assets and estimated obligations of the plan. The funded status changes over time due to several factors, including contribution levels, assumed discount rates and actual returns on plan assets.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following tables provide the projected benefit obligations (PBO), accumulated benefit obligation (ABO), and fair value of plan assets for all pension plans with a PBO or ABO in excess of plan assets.

PBO in excess of plan assets

	Exelon	
	2017	2016
Projected benefit obligation	$ 22,337	$ 21,060
Fair value of net plan assets	18,573	16,791

ABO in excess of plan assets

	Exelon	
	2017	2016
Projected benefit obligation	$ 22,337	$ 21,060
Accumulated benefit obligation	21,153	19,930
Fair value of net plan assets	18,573	16,791

On a PBO basis, the Exelon plans were funded at 83% and 80% at December 31, 2017 and 2016 , respectively. On an ABO basis, the Exelon plans were funded at 88% and 84% at December 31, 2017 and 2016 , respectively. The ABO differs from the PBO in that the ABO includes no assumption about future compensation levels.

Components of Net Periodic Benefit Costs

The majority of the 2017 pension benefit cost for the Exelon-sponsored plans is calculated using an expected long-term rate of return on plan assets of 7.00% and a discount rate of 4.04% . The majority of the 2017 other postretirement benefit cost is calculated using an expected long-term rate of return on plan assets of 6.58% for funded plans and a discount rate of 4.04% .

A portion of the net periodic benefit cost for all plans is capitalized within the Consolidated Balance Sheets. The following tables present the components of Exelon's net periodic benefit costs, prior to capitalization, for the years ended December 31, 2017 , 2016 and 2015 and PHI's net periodic benefit costs, prior to capitalization, for the predecessor period of January 1, 2016 to March 23, 2016 .

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Exelon	Pension Benefits			Other Postretirement Benefits		
	2017 [a]	2016 [b]	2015	2017 [a]	2016 [b]	2015
Components of net periodic benefit cost:						
Service cost	$ 387	$ 354	$ 326	$ 106	$ 107	$ 119
Interest cost	842	830	710	182	185	167
Expected return on assets	(1,196)	(1,141)	(1,026)	(162)	(162)	(151)
Amortization of:						
Prior service cost (credit)	1	14	13	(188)	(185)	(174)
Actuarial loss	607	554	571	61	63	80
Settlement and other charges [c]	3	2	2	—	—	—
Net periodic benefit cost	$ 644	$ 613	$ 596	$ (1)	$ 8	$ 41

(a) FitzPatrick net benefit costs are included for the period after acquisition.
(b) PHI net periodic benefit costs for the period prior to the merger are not included in the table above.
(c) 2016 amount includes an additional termination benefit for PHI.

	Predecessor			
	Pension Benefits		Other Postretirement Benefits	
PHI	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015

Components of AOCI and Regulatory Assets

Under the authoritative guidance for regulatory accounting, a portion of current year actuarial gains and losses and prior service costs (credits) is capitalized within Exelon's Consolidated Balance Sheets to reflect the expected regulatory recovery of these amounts, which would otherwise be recorded to AOCI. The following tables provide the components of AOCI and regulatory assets (liabilities) for the years ended December 31, 2017 , 2016 and 2015 for all plans combined and the components of PHI's predecessor AOCI and regulatory assets (liabilities) for the period January 1, 2016 to March 23, 2016 .

	Pension Benefits			Other Postretirement Benefits		
Exelon	**2017**	**2016 [a]**	**2015**	**2017**	**2016 [a]**	**2015**

Total recognized in AOCI	$ (1)	$ (11)	$ —	$ —
Total recognized in regulatory assets (liabilities)	$ (13)	$ (6)	$ 1	$ (34)

(a) 2016 amounts include PHI for the period of March 24, 2016 through December 31, 2016.

The following table provides the components of gross accumulated other comprehensive loss and regulatory assets (liabilities) that have not been recognized as components of periodic benefit cost at December 31, 2017 and 2016 , respectively, for all plans combined:

	Exelon		Exelon	
	Pension Benefits		Other Postretirement Benefits	
	2017	2016 [a]	2017	2016 [a]
Prior service (credit) cost	$ (24)	$ (31)	$ (522)	$ (710)
Actuarial loss	7,556	8,387	829	724
Total [a]	$ 7,532	$ 8,356	$ 307	$ 14
Total included in AOCI	$ 3,896	$ 4,297	$ 125	$ (42)
Total included in regulatory assets (liabilities)	$ 3,636	$ 4,059	$ 182	$ 56

(a) Effective March 23, 2016 , Exelon became the sponsor of PHI's defined benefit pension and other postretirement benefit plans, and assumed PHI's benefit plan obligations and related assets.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table provides the impact to Exelon's AOCI and regulatory assets (liabilities) at December 31, 2017 as a result of the components of periodic benefit costs that are expected to be amortized in 2018 . These estimates are subject to the completion of an actuarial valuation of Exelon's pension and other postretirement benefit obligations, which will reflect actual census data as of January 1, 2018 and actual claims activity as of December 31, 2017 . The valuation is expected to be completed in the first quarter of 2018 for the majority of the benefit plans.

	Pension Benefits	Other Postretirement Benefits
Prior service cost (credit)	$ 2	$ (186)
Actuarial loss	640	66
Total [(a)]	$ 642	$ (120)

(a) Of the $642 million related to pension benefits at December 31, 2017 , $317 million and $325 million are expected to be amortized from AOCI and regulatory assets in 2018 , respectively. Of the $(120) million related to other postretirement benefits at December 31, 2017 , $(65) million and $(55) million are expected to be amortized from AOCI and regulatory assets (liabilities) in 2018 , respectively.

Average Remaining Service Period

For pension benefits, Exelon amortizes its unrecognized prior service costs and certain actuarial gains and losses, as applicable, based on participants' average remaining service periods. The average remaining service period of Exelon's defined benefit pension plan participants was 11.8 years, 11.9 years and 11.9 years for the years ended December 31, 2017 , 2016 and 2015 , respectively. For the predecessor period, the average remaining service period of PHI's defined benefit plans was approximately 11 years for the year ended December 31, 2015 .

For other postretirement benefits, Exelon amortizes its unrecognized prior service costs over participants' average remaining service period to benefit eligibility age and amortizes certain actuarial gains and losses over participants' average remaining service period to expected retirement. The average remaining service period of postretirement benefit plan participants related to benefit eligibility age was 8.2 years, 9.0 years and 10.8 years for the years ended December 31, 2017 , 2016 and 2015 , respectively. The average remaining service period of postretirement benefit plan participants related to expected retirement was 9.6 years, 9.7 years and 9.7 years for the years ended December 31, 2017 , 2016 and 2015 , respectively. For the predecessor period, the average remaining service period of PHI's other postretirement benefit plans was approximately 11 years for the year ended December 31, 2015 .

Assumptions

The measurement of the plan obligations and costs of providing benefits under Exelon's defined benefit and other postretirement plans involves various factors, including the development of valuation assumptions and inputs and accounting policy elections. The measurement of benefit obligations and costs is impacted by several assumptions and inputs, including the discount rate applied to benefit obligations, the long-term EROA, Exelon's expected level of contributions to the plans, the long-term expected investment rate credited to employees participating in cash balance plans and the anticipated rate of increase of health care costs. Additionally, assumptions related to plan participants include the incidence of mortality, the expected remaining service period, the level of compensation and rate of compensation increases, employee age and length of service, among other factors. When developing the required assumptions, Exelon considers historical information as well as future expectations.

Expected Rate of Return. In selecting the EROA, Exelon considers historical economic indicators (including inflation and GDP growth) that impact asset returns, as well as expectations regarding future long-term capital market performance, weighted by Exelon's target asset class allocations.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Mortality. For the December 31, 2014 actuarial valuation, Exelon changed its assumption of mortality to reflect more recent expectations of future improvements in life expectancy. The change was supported through completion of an experience study and supplemental analyses performed by Exelon's actuaries. There were no changes to the mortality assumption in 2015 , 2016 or 2017 .

The following assumptions were used to determine the benefit obligations for the plans at December 31, 2017 , 2016 and 2015 . Assumptions used to determine year-end benefit obligations are the assumptions used to estimate the subsequent year's net periodic benefit costs.

	Pension Benefits			Other Postretirement Benefits

(a) The discount rates above represent the blended rates used to determine the majority of Exelon's pension and other postretirement benefits obligations as of December 31, 2017. Certain benefit plans used individual rates ranging from 3.49% - 3.65% and 3.57% - 3.68% for pension and other postretirement plans, respectively.
(b) The discount rates above represent the blended rates used to determine the majority of Exelon's pension and other postretirement benefits obligations as of December 31, 2016. Certain benefit plans used individual rates ranging from 3.66% - 4.11% and 4.00% - 4.17% for pension and other postretirement plans, respectively.
(c) The discount rates above represent the blended rates used to determine the majority of Exelon's pension and other postretirement benefits obligations as of December 31, 2015. Certain benefit plans used individual rates ranging from 3.68% - 4.14% and 4.32% - 4.43% for pension and other postretirement plans, respectively.
(d) 3.25% through 2019 and 3.75% thereafter.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

(e) The legacy Exelon, CEG and CENG pension and other postretirement plans used a rate of compensation increase of 3.25% through 2019 and 3.75% thereafter, while the legacy PHI pension and other postretirement plans used a weighted-average rate of compensation increase of 5% for all periods.
(f) Obligation was not remeasured during this period.
(g) The discount rate for the qualified and non-qualified pension plans was 4.65% and 4.55% , respectively.

The following assumptions were used to determine the net periodic benefit costs for the plans for the years ended December 31, 2017 , 2016 and 2015 , as well as for the PHI predecessor period January 1, 2016 to March 23, 2016 :

	Pension Benefits			Other Postretirement Benefits

(a) The discount rates above represent the blended rates used to establish the majority of Exelon's pension and other postretirement benefits costs for the year ended December 31, 2017 . Certain benefit plans used individual rates ranging from 3.66% - 4.11% and 4.00% - 4.17% for pension and other postretirement plans, respectively.
(b) The discount rates above represent the blended rates used to establish the majority of Exelon's pension and other postretirement benefits costs for the year ended December 31, 2016 . Certain benefit plans used individual rates ranging from 3.68% - 4.14% and 4.32% - 4.43% for pension and other postretirement plans, respectively.
(c) The discount rates above represent the blended rates used to establish the majority of Exelon's pension and other postretirement benefits costs for the year ended December 31, 2015 . Certain benefit plans used the individual rates ranging from 3.29% - 3.82% and 3.99% - 4.06% for pension and other postretirement plans, respectively.
(d) Not applicable to pension and other postretirement benefit plans that do not have plan assets.

S1-SSA-0009 - 16697

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

(e) The legacy Exelon, CEG and CENG pension and other postretirement plans used a rate of compensation increase of 3.25% through 2019 and 3.75% thereafter, while the legacy PHI pension and other postretirement plans used a weighted-average rate of compensation increase of 5% for all periods.
(f) The discount rate for the qualified and non-qualified pension plans was 4.65% and 4.55% , respectively.
(g) Expected return on other postretirement benefit plan assets is pre-tax.

Assumed health care cost trend rates impact the other postretirement benefit plan costs reported for Exelon's participant populations with plan designs that do not have a cap on cost growth. A one percentage point change in assumed health care cost trend rates would have the following effects:

Effect of a one percentage point increase in assumed health care cost trend:	
on 2017 total service and interest cost components	$ 9
on postretirement benefit obligation at December 31, 2017	125
Effect of a one percentage point decrease in assumed health care cost trend:	
on 2017 total service and interest cost components	(8)
on postretirement benefit obligation at December 31, 2017	(113)

Contributions

The following tables provide contributions to the pension and other postretirement benefit plans:

	Pension Benefits			Other Postretirement Benefits		
	2017 [a]	2016 [a]	2015 [a]	2017	2016	2015
Exelon	$ 341	$ 347	$ 462	$ 64	$ 50	$ 40
Generation	137	140	231	11	12	14
ComEd	36	33	143	5	5	7
PECO	24	30	40	—	—	—
BGE	39	31	1	14	18	16
BSC [b]	38	39	47	2	3	3
Pepco	62	24	—	10	8	2
DPL	—	22	—	2	—	—
ACE	—	15	—	20	2	3
PHISCO [c]	5	17	—	—	2	—

	Pension Benefits				Other Postretirement Benefits			
	Successor		*Predecessor*		*Successor*		*Predecessor*	
	2017	March 24, 2016 to December 31, 2016	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015	2017	March 24, 2016 to December 31, 2016	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015
PHI	$ 67	$ 74	$ 4	$ —	$ 32	$ 12	$ —	$ 5

(a) Exelon's and Generation's pension contributions include $21 million , $25 million and $36 million related to the legacy CENG plans that was funded by CENG as provided in an Employee Matters Agreement (EMA) between Exelon and CENG for the years ended December 31, 2017 , 2016 and 2015 , respectively.
(b) Includes $4 million , $6 million , and $5 million of pension contributions funded by Exelon Corporate, for the years ended December 31, 2017 , 2016 , and 2015 , respectively.
(c) PHISCO's pension contributions for the year ended December 31, 2016 include $4 million of contributions made prior to the closing of Exelon's merger with PHI on March 23, 2016 .

Management considers various factors when making pension funding decisions, including actuarially determined minimum contribution requirements under ERISA, contributions required to avoid benefit restrictions and at-risk status as defined by the Pension Protection Act of 2006 (the Act),

S1-SSA-0009 - 16698

management of the pension obligation and regulatory implications. The Act requires the attainment of certain funding levels to avoid benefit restrictions (such as an inability to pay lump sums or to accrue benefits prospectively), and at-risk status (which triggers higher minimum contribution requirements and participant notification). The projected contributions below reflect a funding strategy of contributing the greater of (1) $300 million (which has been updated for the inclusion of PHI) until the qualified plans are fully funded on an ABO basis, and (2) the minimum amounts under ERISA to avoid benefit restrictions and at-risk status. This level funding strategy helps minimize volatility of future period required pension contributions. Unlike the qualified pension plans, Exelon's non-qualified pension plans are not funded, given that they are not subject to statutory minimum contribution requirements.

While other postretirement plans are also not subject to statutory minimum contribution requirements, Exelon does fund certain of its plans. For Exelon's funded OPEB plans, contributions generally equal accounting costs, however, Exelon's management has historically considered several factors in determining the level of contributions to its other postretirement benefit plans, including liabilities management, levels of benefit claims paid and regulatory implications (amounts deemed prudent to meet regulatory expectations and best assure continued rate recovery). The amounts below include benefit payments related to unfunded plans.

The following table provides all registrants' planned contributions to the qualified pension plans, planned benefit payments to non-qualified pension plans, and planned contributions to other postretirement plans in 2018:

	Qualified Pension Plans	Non-Qualified Pension Plans	Other Postretirement Benefits
Exelon	$ 301	$ 30	$ 42
Generation	119	11	13
ComEd	38	2	3
PECO	17	1	—
BGE	41	1	16
BSC	36	7	1
PHI	50	8	9
Pepco	4	2	8
DPL	—	1	—
ACE	6	—	—
PHISCO	40	5	1

Estimated Future Benefit Payments

Estimated future benefit payments to participants in all of the pension plans and postretirement benefit plans at December 31, 2017 were:

	Pension Benefits	Other Postretirement Benefits
2018	$ 1,166	$ 256
2019	1,165	262
2020	1,210	270
2021	1,236	276
2022	1,265	284
2023 through 2027	6,671	1,509
Total estimated future benefit payments through 2027	$ 12,713	$ 2,857

Allocation to Exelon Subsidiaries

All registrants account for their participation in Exelon's pension and other postretirement benefit plans by applying multi-employer accounting. Employee-related assets and liabilities, including both pension and postretirement liabilities, for the legacy Exelon plans were allocated by Exelon to its subsidiaries based on the number of active employees as of January 1, 2001 as part of Exelon's corporate restructuring. The obligation for Generation, ComEd and PECO reflects the initial allocation and the cumulative costs incurred and contributions made since January 1, 2001. Historically, Exelon has allocated the components of pension and other postretirement costs to the subsidiaries in the legacy Exelon plans based upon several factors, including the measures of active employee participation in each plan. Pension and other postretirement benefit contributions were allocated to legacy Exelon subsidiaries in proportion to active service costs recognized and total costs recognized, respectively. Beginning in 2015, Exelon began allocating costs related to its legacy Exelon pension and other postretirement benefit plans to its subsidiaries based on both active and retired employee participation and contributions are allocated based on accounting cost. The impact of this allocation methodology change was not material to any Registrant. For legacy CEG, legacy CENG, FitzPatrick, and legacy PHI plans, components of pension and other postretirement benefit costs and contributions have been, and will continue to be, allocated to the subsidiaries based on employee participation (both active and retired).

The amounts below were included in capital expenditures and operating and maintenance expense for the years ended December 31, 2017 , 2016 and 2015 , respectively, for each of the entities allocated portion of the pension and other postretirement benefit plan costs. These amounts include the recognized contractual termination benefit charges, curtailment gains, and settlement charges:

For the Years Ended December 31,	Exelon	Generation [a]	ComEd	PECO	BGE	BSC [b]	Pepco [c]	DPL [c]	ACE [c]	PHISCO [c][d]
2017	$ 643	$ 227	$ 176	$ 29	$ 64	$ 53	$ 25	$ 13	$ 13	$ 43
2016	621	218	166	33	68	48	31	18	15	47
2015	637	269	206	39	66	57	30	15	15	37

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

	Successor		Predecessor	
PHI	**For the Year Ended December 31, 2017**	**March 24, 2016 to December 31, 2016**	**January 1, 2016 to March 23, 2016**	**For the Year Ended December 31, 2015**
Pension and Other Postretirement Benefit Costs	$ 94	$ 88	$ 23	$ 97

(a) FitzPatrick net benefit costs are included for the period after acquisition.
(b) These amounts primarily represent amounts billed to Exelon's subsidiaries through intercompany allocations. These amounts are not included in the Generation, ComEd, PECO, BGE, PHI, Pepco, DPL or ACE amounts above.
(c) Pepco's, DPL's, ACE's and PHISCO's pension and postretirement benefit costs for the year ended December 31, 2016 include $7 million , $4 million , $3 million and $9 million , respectively, of costs incurred prior to the closing of Exelon's merger with PHI on March 23, 2016 .
(d) These amounts represent amounts billed to Pepco, DPL and ACE through intercompany allocations. These amounts are not included in Pepco, DPL or ACE amounts above.

Plan Assets

Investment Strategy. On a regular basis, Exelon evaluates its investment strategy to ensure that plan assets will be sufficient to pay plan benefits when due. As part of this ongoing evaluation, Exelon may make changes to its targeted asset allocation and investment strategy.

Exelon has developed and implemented a liability hedging investment strategy for its qualified pension plans that has reduced the volatility of its pension assets relative to its pension liabilities. Exelon is likely to continue to gradually increase the liability hedging portfolio as the funded status of its plans improves. The overall objective is to achieve attractive risk-adjusted returns that will balance the liquidity requirements of the plans' liabilities while striving to minimize the risk of significant losses. Trust assets for Exelon's other postretirement plans are managed in a diversified investment strategy that prioritizes maximizing liquidity and returns while minimizing asset volatility.

Actual asset returns have an impact on the costs reported for the Exelon-sponsored pension and other postretirement benefit plans. The actual asset returns across Exelon's pension and other postretirement benefit plans for the year ended December 31, 2017 were 16.10% and 14.70% , respectively, compared to an expected long-term return assumption of 7.00% and 6.58% , respectively.

Exelon used an EROA of 7.00% and 6.60% to estimate its 2018 pension and other postretirement benefit costs, respectively.

Exelon's pension and other postretirement benefit plan target asset allocations at December 31, 2017 and 2016 asset allocations were as follows:

Pension Plans

		Exelon	
		Percentage of Plan Assets at December 31,	
Asset Category	**Target Allocation**	**2017**	**2016**
Equity securities	35%	35%	33%

Alternative investments [a]	26%	25	24
Total		100%	100%

(a) Alternative investments include private equity, hedge funds, real estate, and private credit.

Concentrations of Credit Risk. Exelon evaluated its pension and other postretirement benefit plans' asset portfolios for the existence of significant concentrations of credit risk as of December 31, 2017 . Types of concentrations that were evaluated include, but are not limited to, investment concentrations in a single entity, type of industry, foreign country, and individual fund. As of December 31, 2017 , there were no significant concentrations (defined as greater than 10% of plan assets) of risk in Exelon's pension and other postretirement benefit plan assets.

Fair Value Measurements

The following tables present pension and other postretirement benefit plan assets measured and recorded at fair value on the Registrants' Consolidated Balance Sheets on a recurring basis and their level within the fair value hierarchy at December 31, 2017 and 2016 :

Exelon

December 31, 2017 [a][b]	Level 1	Level 2	Level 3	Not subject to leveling	Total

(a) See Note 11 — Fair Value of Financial Assets and Liabilities for a description of levels within the fair value hierarchy.
(b) Effective March 31, 2017, Exelon became sponsor of FitzPatrick's defined benefit pension and other postretirement benefit plans, and assumed FitzPatrick's benefit plan obligations.
(c) Includes derivative instruments of $6 million and $1 million , which have a total notional amount of $3,606 million and $2,918 million at December 31, 2017 and 2016 , respectively. The notional principal amounts for these instruments provide one measure of the transaction volume outstanding as of the fiscal years ended and do not represent the amount of the company's exposure to credit or market loss.
(d) Excludes net assets of $2 million and net liabilities of $28 million at December 31, 2017 and 2016 , respectively, which are required to reconcile to the fair value of net plan assets. These items consist primarily of receivables related to pending securities sales, interest and dividends receivable, and payables related to pending securities purchases.
(e) Effective March 23, 2016, Exelon became sponsor of PHI's defined benefit pension and other postretirement benefit plans, and assumed PHI's benefit plan obligations and related assets.

The following table presents the reconciliation of Level 3 assets and liabilities measured at fair value for pension and other postretirement benefit plans for the years ended December 31, 2017 and 2016 :

Exelon

	Fixed Income	Equities	Total
Pension Assets			
Balance as of January 1, 2017	$ 206	$ 2	$ 208
Actual return on plan assets:			
Relating to assets sold during the period	11	—	11
Purchases, sales and settlements:			
Purchases	31	—	31
Sales	(16)	—	(16)
Settlements [a]	—	—	—
Balance as of December 31, 2017	$ 232	$ 2	$ 234

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

	Fixed income	Equities	Total
Pension Assets			
Balance as of January 1, 2016	$ 165	$ 2	$ 167
Actual return on plan assets:			
Relating to assets still held at the reporting date	(2)	—	(2)
Purchases, sales and settlements:			
Purchases	69	—	69
Sales	(14)	—	(14)
Settlements [a]	(12)	—	(12)
Balance as of December 31, 2016	$ 206	$ 2	$ 208

(a) Represents cash settlements only.

There were no significant transfers between Level 1 and Level 2 during the year ended December 31, 2017 for the pension and other postretirement benefit plan assets.

Valuation Techniques Used to Determine Fair Value

Cash equivalents . Investments with original maturities of three months or less when purchased, including certain short-term fixed income securities and money market funds, are considered cash equivalents. The fair values are based on observable market prices and, therefore, are included in the recurring fair value measurements hierarchy as Level 1.

Equities . Equities consist of individually held equity securities, equity mutual funds and equity commingled funds in domestic and foreign markets. With respect to individually held equity securities, the trustees obtain prices from pricing services, whose prices are generally obtained from direct feeds from market exchanges, which Exelon is able to independently corroborate. Equity securities held individually, including real estate investment trusts, rights and warrants, are primarily traded on exchanges that contain only actively traded securities due to the volume trading requirements imposed by these exchanges. Equity securities are valued based on quoted prices in active markets and are categorized as Level 1. Certain private placement equity securities are categorized as Level 3 because they are not publicly traded and are priced using significant unobservable inputs.

Equity commingled funds and mutual funds are maintained by investment companies, and certain investments are held in accordance with a stated set of fund objectives, which are consistent with the plans' overall investment strategy. The values of some of these funds are publicly quoted. For mutual funds which are publicly quoted, the funds are valued based on quoted prices in active markets and have been categorized as Level 1. For equity commingled funds and mutual funds which are not publicly quoted, the fund administrators value the funds using the NAV per fund share, derived from the quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investments typically can be redeemed monthly with 30 or less days of notice and without further restrictions.

Fixed income . For fixed income securities, which consist primarily of corporate debt securities, foreign government securities, municipal bonds, asset and mortgage-backed securities, commingled funds, mutual funds and derivative instruments, the trustees obtain multiple prices from pricing vendors whenever possible, which enables cross-provider validations in addition to checks for unusual daily movements. A primary price source is identified based on asset type, class or issue for each security. With respect to individually held fixed income securities, the trustees monitor prices supplied by pricing services and may use a supplemental price source or change the primary price source of a given security

if the portfolio managers challenge an assigned price and the trustees determine that another price source is considered to be preferable. Exelon has obtained an understanding of how these prices are derived, including the nature and observability of the inputs used in deriving such prices. Additionally, Exelon selectively corroborates the fair values of securities by comparison to other market-based price sources. Investments in U.S. Treasury securities have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain private placement fixed income securities have been categorized as Level 3 because they are priced using certain significant unobservable inputs and are typically illiquid. The remaining fixed income securities, including certain other fixed income investments, are based on evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are categorized as Level 2.

Other fixed income investments primarily consist of fixed income commingled funds and mutual funds, which are maintained by investment companies and hold certain investments in accordance with a stated set of fund objectives, which are consistent with Exelon's overall investment strategy. The values of some of these funds are publicly quoted. For mutual funds which are publicly quoted, the funds are valued based on quoted prices in active markets and have been categorized as Level 1. For fixed income commingled funds and mutual funds which are not publicly quoted, the fund administrators value the funds using the NAV per fund share, derived from the quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investments typically can be redeemed monthly with 30 or less days of notice and without further restrictions.

Derivative instruments consisting primarily of futures and swaps to manage risk are recorded at fair value. Over-the-counter derivatives are valued daily based on quoted prices in active markets and trade in open markets, and have been categorized as Level 1. Derivative instruments other than over-the-counter derivatives are valued based on external price data of comparable securities and have been categorized as Level 2.

Private equity . Private equity investments include those in limited partnerships that invest in operating companies that are not publicly traded on a stock exchange such as leveraged buyouts, growth capital, venture capital, distressed investments and investments in natural resources. Private equity valuations are reported by the fund manager and are based on the valuation of the underlying investments, which include unobservable inputs such as cost, operating results, discounted future cash flows and market based comparable data. The fair value of private equity investments is determined using NAV or its equivalent as a practical expedient, and therefore, these investments are not classified within the fair value hierarchy.

Hedge funds . Hedge fund investments include those seeking to maximize absolute returns using a broad range of strategies to enhance returns and provide additional diversification. The fair value of hedge funds is determined using NAV or its equivalent as a practical expedient, and therefore, hedge funds are not classified within the fair value hierarchy. Exelon has the ability to redeem these investments at NAV or its equivalent subject to certain restrictions which may include a lock-up period or a gate.

Real estate . Real estate funds are funds with a direct investment in pools of real estate properties. These funds are valued by investment managers on a periodic basis using pricing models that use independent appraisals from sources with professional qualifications. These valuation inputs are not highly observable. The fair value of real estate investments is determined using NAV or its equivalent as a practical expedient, and therefore, these investments are not classified within the fair value hierarchy.

Private credit. Private credit investments primarily consist of limited partnerships that invest in private debt strategies. These investments are generally less liquid assets with an underlying term of 3 to 5 years and are intended to be held to maturity. The fair value of these investments is determined by the fund manager or administrator and include unobservable inputs such as cost, operating results, and discounted cash flows. The fair value of private credit investments is determined using NAV or its

equivalent as a practical expedient, and therefore, these investments are not classified within the fair value hierarchy.

Defined Contribution Savings Plan (All Registrants)

The Registrants participate in various 401(k) defined contribution savings plans that are sponsored by Exelon. The plans are qualified under applicable sections of the IRC and allow employees to contribute a portion of their pre-tax and/or after-tax income in accordance with specified guidelines. All Registrants match a percentage of the employee contributions up to certain limits. The following table presents matching contributions to the savings plan for the years ended December 31, 2017 , 2016 and 2015 :

For the Year Ended December 31,	Exelon (a)	Generation (a)	ComEd	PECO	BGE	BSC (b)	Pepco (c)	DPL (c)	ACE	PHISCO (c)(d)
2017	$ 128	$ 55	$ 31	$ 10	$ 10	$ 9	$ 3	$ 2	$ 2	$ 6
2016	164	79	34	10	12	19	3	2	2	6
2015	148	80	32	11	14	11	3	2	2	6

	Successor		Predecessor	
PHI	For the Year Ended December 31, 2017	March 24, 2016 to December 31, 2016	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015
Saving Plan Matching Contributions	$ 13	$ 10	$ 3	$ 14

(a) Includes $13 million and $9 million related to CENG for the years ended December 31, 2016 and December 31, 2015.
(b) These amounts primarily represent amounts billed to Exelon's subsidiaries through intercompany allocations. These costs are not included in the Generation, ComEd, PECO, BGE, PHI, Pepco, DPL or ACE amounts above.
(c) Pepco's, DPL's and PHISCO's matching contributions include $1 million , $1 million and $1 million , respectively, of costs incurred prior to the closing of Exelon's merger with PHI on March 23, 2016, which is not included in Exelon's matching contributions for the year ended December 31, 2016.
(d) These amounts primarily represent amounts billed to Pepco, DPL, and ACE through intercompany allocations. These amounts are not included in Pepco, DPL or ACE amounts above.

17 . Severance (All Registrants)

The Registrants have an ongoing severance plan under which, in general, the longer an employee worked prior to termination the greater the amount of severance benefits. The Registrants record a liability and expense or regulatory asset for severance once terminations are probable of occurrence and the related severance benefits can be reasonably estimated. For severance benefits that are incremental to its ongoing severance plan ("one-time termination benefits"), the Registrants measure the obligation and record the expense at fair value at the communication date if there are no future service requirements, or, if future service is required to receive the termination benefit, ratably over the required service period.

Ongoing Severance Plans

The Registrants provide severance and health and welfare benefits under Exelon's ongoing severance benefit plans to terminated employees in the normal course of business. These benefits are accrued for when the benefits are considered probable and can be reasonably estimated.

For the years ended December 31, 2017 and 2016 , the Registrants recorded the following severance costs associated with ongoing severance benefits within Operating and maintenance expense in their Consolidated Statements of Operations and Comprehensive Income:

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

						Successor			
	Exelon	Generation [a]	ComEd [a]	PECO [a]	BGE [a]	PHI [a]	Pepco [a]	DPL [a]	ACE [a]
Year ended December 31,									
2017	$ 14	$ 6	$ 3	$ 1	$ —	$ 4	$ 2	$ 1	$ 1
2016	19	13	3	1	1	1	—	—	—

(a) The amounts above for Generation, ComEd, PECO, BGE, and PHI include immaterial amounts billed by BSC for the years ended December 31, 2017 and 2016 . Pepco, DPL, and ACE include immaterial amounts billed by PHISCO for the year ended December 31, 2017 . Pepco, DPL, and ACE did not have any ongoing severance plans for the year ended December 31, 2016 .

Cost Management Program-Related Severance

In August 2015, Exelon announced a cost management program focused on cost savings of approximately $400 million at BSC and Generation. Additionally, in November 2017, Exelon announced a new commitment for an additional $250 million of cost savings, primarily at Generation, to be achieved by 2020. These actions are in response to the continuing economic challenges confronting all parts of Exelon's business and industry, necessitating continued focus on cost management through enhanced efficiency and productivity. In connection with the program, certain positions have been identified for elimination and severance costs were recognized as both probable and estimable.

While there may be additional position eliminations identified leading to potential severance or other termination benefit changes, Exelon, Generation and BSC intend to manage any staff reductions through natural attrition to the extent possible to minimize impacts on employees. Any additional severance or other termination benefit charges related to this commitment will be recognized when such amounts are considered probable and can be reasonably estimated.

For the years ended December 31, 2017 and 2016 , the Registrants recorded the following severance costs related to the cost management program within Operating and maintenance expense in their Consolidated Statements of Operations:

	Exelon	Generation	ComEd	PECO	BGE
2017 [a]	$ 6	$ 9	$ (1)	$ (1)	$ (1)
2016 [b]	23	18	3	1	1

(a) The amounts for Generation, ComEd, PECO, and BGE include $(4) million , $(2) million , $(1) million , and $(1) million , respectively, for amounts billed by BSC through intercompany allocations for the year ended December 31, 2017 .
(b) The amounts above for Generation, ComEd, PECO and BGE include $7 million , $3 million , $1 million , and $1 million , respectively, for amounts billed by BSC through intercompany allocations for the year ended December 31, 2016 .

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Early Plant Retirement-Related Severance (Exelon and Generation)

As a result of the Three Mile Island plant retirement decision, Exelon and Generation will incur certain employee-related costs, including severance benefit costs. Severance costs will be provided to management employees that are eligible under the Company's severance policy, to the extent that those employees are not redeployed to other locations. In June 2017, Exelon and Generation recognized severance costs of $17 million related to expected management employee severances resulting from the plant retirements within Operating and maintenance expense in their Consolidated Statements of Operation and Comprehensive Income. Approximately half of the employees at this location fall under a collective bargaining union agreement and are not eligible for severance benefits under an existing plan. The union and Exelon will negotiate terms of any severance benefits. If severance benefits are successfully negotiated, the amounts will be accrued as a one-time employee termination benefit once the established plan is communicated to employees. The final amount of the severance cost will ultimately depend on the specific employees severed. See Note 8 - Early Nuclear Plant Retirements for additional information regarding the announced early retirement of TMI. See Note 28 - Subsequent Events for additional information regarding the early retirement of Oyster Creek.

Severance Costs Related to the PHI Merger

Upon closing the PHI Merger, Exelon recorded a severance accrual for the anticipated employee position reductions as a result of the post-merger integration. Cash payments under the plan began in May 2016 and will continue through 2020.

For the year ended December 31, 2017 , the PHI Merger severance costs were immaterial. For the year ended December 31, 2016 , the Registrants recorded the following severance costs associated with the identified job reductions within Operating and maintenance expense in their Consolidated Statements of Operations and Comprehensive Income, pursuant to the authoritative guidance for ongoing severance plans:

						Successor			
	Exelon	Generation	ComEd	PECO	BGE	PHI	Pepco	DPL	ACE
Severance Benefits									
Severance costs [(a)]	$ 57	$ 9	$ 2	$ 1	$ 1	$ 44	$ 21	$ 13	$ 10

(a) The amounts above for Generation, ComEd, PECO, BGE, Pepco, DPL, and ACE include $8 million , $2 million , $1 million , $1 million , $20 million , $12 million and $10 million , respectively, for amounts billed by BSC and/or PHISCO through intercompany allocations for the year ended December 31, 2016 .

PHI, Pepco, DPL and ACE record regulatory assets for merger related integration costs which include a portion of the severance costs in the table above related to the PHI Merger. These regulatory assets are either currently being recovered in rates or are deemed probable of recovery in future rates. See Note 3 — Regulatory Matters for further information.

Severance Liability

Amounts included in the table below represent the severance liability recorded for employees of each Registrant and exclude amounts included at Exelon and billed through intercompany allocations:

						Successor			
Severance Liability	Exelon	Generation	ComEd	PECO	BGE	PHI	Pepco	DPL	ACE
Balance at December 31, 2015	$ 35	$ 23	$ 3	$ —	$ 1	$ —	$ —	$ —	$ —
Severance charges [(a)]	99	22	2	—	—	56	1	1	—
Payments	(46)	(9)	(2)	—	(1)	(27)	(1)	(1)	—
Balance at December 31, 2016	$ 88	$ 36	$ 3	$ —	$ —	$ 29	$ —	$ —	$ —
Severance charges [(a)]	35	31	2	—	—	3	—	—	—
Payments	(29)	(9)	(2)	—	—	(12)	—	—	—
Balance at December 31, 2017	$ 94	$ 58	$ 3	$ —	$ —	$ 20	$ —	$ —	$ —

(a) Includes salary continuance and health and welfare severance benefits.

18 . Mezzanine Equity (Exelon, Generation and PHI)

Contingently Redeemable Noncontrolling Interests (Exelon and Generation)

In November 2015, 2015 ESA Investco, LLC, a wholly owned subsidiary of Generation, entered into an arrangement to sell a portion of its equity to a tax equity investor. Pursuant to the operating agreement, in certain circumstances the equity contributed by the noncontrolling interests holder could be contingently redeemable. These circumstances were outside of the control of Generation and the noncontrolling interests holder resulting in a portion of the noncontrolling interests being considered contingently redeemable and thus was presented in mezzanine equity on the consolidated balance sheet.

There were no changes in the contingently redeemable noncontrolling interests for the year ended December 31, 2017 . The following table summarizes the changes in the contingently redeemable noncontrolling interests for the year ended December 31, 2016 :

	Contingently Redeemable NCI
Balance at December 31, 2015	$ 28
Cash received from noncontrolling interests	129
Release of contingency	(157)
Balance at December 31, 2016	$ —

Preferred Stock (PHI)

In connection with the PHI Merger Agreement, Exelon purchased 18,000 originally issued shares of PHI preferred stock for a purchase price of $180 million . PHI excluded the preferred stock from equity at December 31, 2015 since the preferred stock contained conditions for redemption that were not solely within the control of PHI. Management determined that the preferred stock contained embedded features requiring separate accounting consideration to reflect the potential value to PHI that any issued and outstanding preferred stock could be called and redeemed at a nominal par value upon a termination of the merger agreement under certain circumstances due to the failure to obtain required regulatory approvals. The embedded call and redemption features on the shares of the preferred stock in the event of such a termination were separately accounted for as derivatives. As of December 31, 2015, the fair

value of the derivative related to the preferred stock was estimated to be $18 million based on PHI's updated assessment and was included in current assets with a corresponding increase in preferred stock on the Consolidated Balance Sheet. Immediately prior to the merger date, PHI updated its assessment of the fair value of the derivative and reduced the fair value to zero, recording the $18 million decrease in fair value as a reduction of Other, net within PHI's predecessor period, January 1, 2016 to March 23, 2016 , Statements of Operations and Comprehensive Income.

On March 23, 2016 , the preferred stock was cancelled and the $180 million cash consideration previously received by PHI to issue the preferred stock was treated as additional merger purchase price consideration.

19 . Shareholders' Equity (Exelon, ComEd, PECO, BGE, Pepco, DPL and ACE)

The following table presents common stock authorized and outstanding as of December 31, 2017 and 2016 :

			December 31,	
			2017	2016
	Par Value	Shares Authorized	Shares Outstanding	
Common Stock				
Exelon	no par value	2,000,000,000	963,335,888	924,035,059
ComEd	$ 12.50	250,000,000	127,021,246	127,017,157
PECO	no par value	500,000,000	170,478,507	170,478,507
BGE	no par value	1,500	1,000	1,000
Pepco	$ 0.01	200,000,000	100	100
DPL	$ 2.25	1,000	1,000	1,000
ACE	$ 3.00	25,000,000	8,546,017	8,546,017

ComEd had 60,584 and 72,859 warrants outstanding to purchase ComEd common stock at December 31, 2017 and 2016 , respectively. The warrants entitle the holders to convert such warrants into common stock of ComEd at a conversion rate of one share of common stock for three warrants. At December 31, 2017 and 2016 , 20,195 and 24,286 shares of common stock, respectively, were reserved for the conversion of warrants.

Equity Securities Offering

In June 2014, Exelon marketed an equity offering of 57.5 million shares of its common stock at a public offering price of $35 per share. In connection with such offering, Exelon entered into forward sale agreements with two counterparties. In July 2015, Exelon settled the forward sale agreement by the issuance of 57.5 million shares of Exelon common stock. Exelon received net cash proceeds of $1.87 billion , which was calculated based on a forward price of $32.48 per share as specified in the forward sale agreements. The net proceeds were used to fund the merger with PHI and related costs and expenses, and for general corporate purposes. The forward sale agreements are classified as equity transactions. As a result, no amounts were recorded in the consolidated financial statements until the July 2015 settlement of the forward sale agreements. However, prior to the July 2015 settlement, incremental shares, if any, were included within the calculation of diluted EPS using the treasury stock method.

Concurrent with the forward equity transaction, Exelon also issued $1.15 billion of junior subordinated notes in the form of 23 million equity units. On June 1, 2017, Exelon settled the forward

purchase contract, which was a component of the June 2014 equity units, through the issuance of Exelon common stock from treasury stock. See Note 13 — Debt and Credit Agreements for further information on the equity units.

Share Repurchases

Share Repurchase Programs

There currently is no Exelon Board of Director authority to repurchase shares. Any previous shares repurchased are held as treasury shares, at cost, unless cancelled or reissued at the discretion of Exelon's management. Under the previous share repurchase programs, 2 million and 35 million shares of common stock were held as treasury stock with a historical cost of $123 million and $2.3 billion at December 31, 2017 and 2016 , respectively. During 2017 , Exelon issued approximately 33 million shares of Exelon common stock from treasury stock in order to settle the forward purchase contract, which was a component of the June 2014 equity units discussed above. During 2016 and 2015 , Exelon had no common stock repurchases.

Preferred and Preference Securities of Subsidiaries

At December 31, 2017 and 2016 , Exelon was authorized to issue up to 100,000,000 shares of preferred securities, none of which were outstanding.

At December 31, 2017 and 2016 , ComEd prior preferred securities and ComEd cumulative preference securities consisted of 850,000 shares and 6,810,451 shares authorized, respectively, none of which were outstanding.

BGE had $190 million of cumulative preference stock that was redeemable at its option at any time after October 1, 2015 for the redemption price of $100 per share, plus accrued and unpaid dividends. On July 3, 2016, BGE redeemed all 400,000 shares of its outstanding 7.125% Cumulative Preference Stock, 1993 Series and all 600,000 shares of its outstanding 6.990% Cumulative Preference Stock, 1995 Series for $100 million , plus accrued and unpaid dividends. On September 18, 2016, BGE redeemed the remaining 500,000 shares of its outstanding 6.970% Cumulative Preference Stock, 1993 Series and the remaining 400,000 shares of its outstanding 6.700% Cumulative Preference Stock, 1993 Series for $90 million , plus accrued and unpaid dividends.

20 . Stock-Based Compensation Plans (All Registrants)

Stock-Based Compensation Plans

Exelon grants stock-based awards through its LTIP, which primarily includes stock options, restricted stock units and performance share awards. At December 31, 2017 , there were approximately 13 million shares authorized for issuance under the LTIP. For the years ended December 31, 2017 , 2016 and 2015 , exercised and distributed stock-based awards were primarily issued from authorized but unissued common stock shares.

ComEd, PECO, BGE and PHI grant cash awards. The following tables do not include expense related to these plans as they are not considered stock-based compensation plans under the applicable authoritative guidance .

In connection with the acquisition of PHI in March 2016, PHI's unvested time-based restricted stock units and performance-based restricted stock units issued prior to April 29, 2014 were immediately vested and paid in cash upon the close of the merger. PHI's remaining unvested time-based restricted stock units as of the close of the merger were cancelled. There were no remaining unvested performance-based restricted stock units as of the close of the merger.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

For the years ended December 31, 2017 , 2016 and 2015 , there were no significant modifications to the granted stock based awards.

The following tables present the stock-based compensation expense included in Exelon's and PHI's Consolidated Statements of Operations and Comprehensive Income for the years ended December 31, 2017 , 2016 and 2015 and PHI's predecessor periods January 1, 2016 to March 23, 2016 and the year ended December 31, 2015 :

Exelon

	Year Ended December 31,		
Components of Stock-Based Compensation Expense	2017	2016 (a)	2015
Performance share awards	$ 107	$ 93	$ 41
Restricted stock units	77	75	71
Stock options	—	—	1
Other stock-based awards	7	7	6
Total stock-based compensation expense included in operating and maintenance expense	191	175	119
Income tax benefit	(74)	(68)	(46)
Total after-tax stock-based compensation expense	$ 117	$ 107	$ 73

(a) 2016 amounts include expense related to stock-based compensation granted to eligible PHI employees since the merger date of March 23, 2016 .

PHI

	Predecessor	
	January 1 to March 23,	Year Ended December 31,
Components of Stock-Based Compensation Expense	2016	2015
Time-based restricted stock units	$ 2	$ 7
Performance-based restricted stock units	1	5
Time-based restricted stock awards	—	1
Total stock-based compensation expense included in operating and maintenance expense	3	13
Income tax benefit	(1)	(5)
Total after-tax stock-based compensation expense	$ 2	$ 8

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following tables present the Registrants' stock-based compensation expense (pre-tax) for the years ended December 31, 2017 , 2016 and 2015 , as well as for the PHI predecessor periods January 1, 2016 to March 23, 2016 and the year ended December 31, 2015 :

	Year Ended December 31,		
Subsidiaries	2017	2016	2015
Exelon	$ 191	$ 175	$ 119
Generation	88	78	64
ComEd	7	8	6
PECO	3	3	3
BGE	1	1	3
BSC [a]	88	81	43
PHI Successor [b][c]	4	4	—

	Predecessor	
	January 1 to March 23,	For the Year Ended December 31,
	2016	2015
PHI	$ 3	$ 13

(a) These amounts primarily represent amounts billed to Exelon's subsidiaries through intercompany allocations. These amounts are not included in the Generation, ComEd, PECO, BGE or PHI amounts above.
(b) Pepco's, DPL's and ACE's stock-based compensation expense for the years ended December 31, 2017 and 2016 was not material.
(c) These amounts primarily represent amounts billed to PHI's subsidiaries through PHISCO intercompany allocations.

There were no significant stock-based compensation costs capitalized during the years ended December 31, 2017 , 2016 and 2015 for Exelon or PHI, or for PHI during the predecessor period January 1, 2016 to March 23, 2016 .

Exelon and PHI receive a tax deduction based on the intrinsic value of the award on the exercise date for stock options and the distribution date for performance share awards and restricted stock units. For each award, throughout the requisite service period, Exelon and PHI recognize the tax benefit related to compensation costs. The following tables present information regarding Exelon's and PHI's tax benefits for the years ended December 31, 2017 , 2016 and 2015 and PHI's predecessor periods January 1, 2016 to March 23, 2016 and the year ended December 31, 2015 :

Exelon

	Year Ended December 31,		
	2017	2016	2015
Realized tax benefit when exercised/distributed:			
Restricted stock units	35	27	30
Performance share awards	29	18	18

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

PHI

	Predecessor	
	January 1 to March 23, 2016	For the Year Ended December 31, 2015
Realized tax benefit when exercised/distributed:		
Time-based restricted stock units	$ —	$ 2
Performance-based restricted stock units	—	5

Stock Options

Non-qualified stock options to purchase shares of Exelon's common stock were granted under the LTIP through 2012. Due to changes in the LTIP, there were no stock options granted in 2017, 2016 or 2015. For all stock options granted through 2012, the exercise price of the stock options is equal to the fair market value of the underlying stock on the date of option grant. The vesting period of stock options is generally four years and all stock options will expire no later than ten years from the date of grant.

The value of stock options at the date of grant is expensed over the requisite service period using the straight-line method. The requisite service period for stock options is generally four years . However, certain stock options become fully vested upon the employee reaching retirement-eligibility. The value of the stock options granted to retirement-eligible employees is either recognized immediately upon the date of grant or through the date at which the employee reaches retirement eligibility.

The following table presents information with respect to stock option activity for the year ended December 31, 2017 :

	Shares	Weighted Average Exercise Price (per share)	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
Balance of shares outstanding at December 31, 2016	12,531,591	$ 46.23	3.50	$ 13
Options exercised	(3,093,156)	34.69		
Options forfeited	—	—		
Options expired	(2,714,824)	55.78		
Balance of shares outstanding at December 31, 2017	6,723,611	$ 47.69	2.65	$ 7
Exercisable at December 31, 2017 [(a)]	6,723,611	$ 47.69	2.65	$ 7

(a) Includes stock options issued to retirement eligible employees.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table summarizes additional information regarding stock options exercised for the years ended December 31, 2017 , 2016 and 2015 :

	Year Ended December 31,		
	2017	2016	2015
Intrinsic value [a]	$ 15	$ 11	$ —
Cash received for exercise price	107	19	—

(a) The difference between the market value on the date of exercise and the option exercise price.

At December 31, 2016 , all stock options were vested and at December 31, 2017 there were no unrecognized compensation costs related to nonvested stock options.

Restricted Stock Units

Restricted stock units are granted under the LTIP with the majority being settled in a specific number of shares of common stock after the service condition has been met. The corresponding cost of services is measured based on the grant date fair value of the restricted stock unit issued.

The value of the restricted stock units is expensed over the requisite service period using the straight-line method. The requisite service period for restricted stock units is generally three to five years . However, certain restricted stock unit awards become fully vested upon the employee reaching retirement-eligibility. The value of the restricted stock units granted to retirement-eligible employees is either recognized immediately upon the date of grant or through the date at which the employee reaches retirement eligibility. Exelon processes forfeitures as they occur for employees who do not complete the requisite service period.

The following table summarizes Exelon's nonvested restricted stock unit activity for the year ended December 31, 2017 :

Exelon

	Shares	Weighted Average Grant Date Fair Value (per share)
Nonvested at December 31, 2016 [a][c]	3,824,416	$ 30.49
Granted	2,266,199	34.98
Vested	(1,736,965)	30.98
Forfeited	(92,938)	33.12
Undistributed vested awards [b]	(871,209)	34.09
Nonvested at December 31, 2017 [a]	3,389,503	$ 32.24

(a) Excludes 1,488,383 and 1,319,372 of restricted stock units issued to retirement-eligible employees as of December 31, 2017 and 2016 , respectively, as they are fully vested.
(b) Represents restricted stock units that vested but were not distributed to retirement-eligible employees during 2017 .
(c) 2016 amounts include activity related to stock-based compensation granted to eligible PHI employees since the merger date of March 23, 2016 .

For Exelon, the weighted average grant date fair value (per share) of restricted stock units granted for the years ended December 31, 2017 , 2016 and 2015 was $34.98 , $28.14 and $36.55 , respectively. At December 31, 2017 and 2016 , Exelon had obligations related to outstanding restricted stock units not yet settled of $108 million and $101 million , respectively, which are included in common stock in Exelon's Consolidated Balance Sheets. For the years ended December 31, 2017 , 2016 and 2015 , Exelon

settled restricted stock units with fair value totaling $88 million , $68 million and $75 million , respectively. At December 31, 2017 , $51 million of total unrecognized compensation costs related to nonvested restricted stock units are expected to be recognized over the remaining weighted-average period of 1.7 years.

For PHI, the weighted average grant date fair value (per share) of time-based restricted stock units granted for the year ended December 31, 2015 was $27.40 and for performance-based restricted stock units was $26.08 for the same period. For the year ended December 31, 2015 , PHI settled time-based restricted stock units with fair value totaling $6 million and settled performance-based restricted stock units with fair value totaling $15 million , for the same period. There were no settled restricted stock units for the predecessor period January 1, 2016 to March 23, 2016 .

Performance Share Awards

Performance share awards are granted under the LTIP. The performance share awards are settled 50% in common stock and 50% in cash at the end of the three-year performance period, except for awards granted to vice presidents and higher officers that are settled 100% in cash if certain ownership requirements are satisfied.

The common stock portion of the performance share awards is considered an equity award and is valued based on Exelon's stock price on the grant date. The cash portion of the performance share awards is considered a liability award which is remeasured each reporting period based on Exelon’s current stock price. As the value of the common stock and cash portions of the awards are based on Exelon’s stock price during the performance period, coupled with changes in the total shareholder return modifier and expected payout of the award, the compensation costs are subject to volatility until payout is established.

Effective January 2017 for nonretirement-eligible employees, stock-based compensation costs are recognized over the vesting period of three years using the straight-line method. For performance share awards granted to retirement-eligible employees, the value of the performance shares is recognized ratably over the vesting period, which is the year of grant.

In 2016 and prior, for nonretirement-eligible employees, stock-based compensation costs are recognized over the vesting period of three years using the graded-vesting method. For performance share awards granted to retirement-eligible employees, the value of the performance shares is recognized ratably over the vesting period, which is the year of grant.

Exelon processes forfeitures as they occur for employees who do not complete the requisite service period.

The following table summarizes Exelon's nonvested performance share awards activity for the year ended December 31, 2017 :

Exelon

	Shares	Weighted Average Grant Date Fair Value (per share)
Nonvested at December 31, 2016 [a][c]	3,116,261	$ 30.77
Granted	1,632,186	35.00
Change in performance	545,793	30.97
Vested	(1,111,751)	29.11
Forfeited	(18,034)	33.74
Undistributed vested awards [b]	(1,207,489)	33.46
Nonvested at December 31, 2017 [a]	2,956,966	$ 32.65

(a) Excludes 2,723,440 and 2,443,409 of performance share awards issued to retirement-eligible employees as of December 31, 2017 and 2016 , respectively, as they are fully vested.
(b) Represents performance share awards that vested but were not distributed to retirement-eligible employees during 2017 .
(c) 2016 amounts include activity related to stock-based compensation granted to eligible PHI employees since the merger date of March 23, 2016.

The following table summarizes the weighted average grant date fair value and the fair value of performance share awards granted and settled for the years ended December 31, 2017 , 2016 and 2015 :

	Year Ended December 31,		
	2017 [a]	2016	2015
Weighted average grant date fair value (per share)	$ 35.00	$ 28.85	$ 35.88
Fair value of performance shares settled	72	45	46
Fair value of performance shares settled in cash	56	28	29

(a) As of December 31, 2017 , $41 million of total unrecognized compensation costs related to nonvested performance shares are expected to be recognized over the remaining weighted-average period of 1.5 years.

For PHI, the weighted average grant date fair value (per share) of performance-based restricted stock awards was $26.10 for the year ended December 31, 2015 . There were no time-based restricted stock awards granted for the year ended December 31, 2015 . There were no time-based share settlements or performance-based share settlements for the year-ended December 31, 2015 or the predecessor period January 1, 2016 to March 23, 2016 .

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table presents the balance sheet classification of obligations related to outstanding performance share awards not yet settled:

	December 31,	
	2017	2016
Current liabilities [(a)]	$ 57	$ 49
Deferred credits and other liabilities [(b)]	100	52
Common stock	26	40
Total	$ 183	$ 141

(a) Represents the current liability related to performance share awards expected to be settled in cash.
(b) Represents the long-term liability related to performance share awards expected to be settled in cash.

21 . Earnings Per Share (Exelon)

Basic earnings per share is computed by dividing net income attributable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding, including the effect of issuing common stock assuming (i) stock options are exercised, and (ii) performance share awards and restricted stock awards are fully vested under the treasury stock method.

The following table sets forth the components of basic and diluted earnings per share and shows the effect of these stock options, performance share awards and restricted stock awards on the weighted average number of shares outstanding used in calculating diluted earnings per share:

	Year Ended December 31,		
	2017	2016	2015
Net income attributable to common shareholders	$ 3,770	$ 1,134	$ 2,269
Weighted average common shares outstanding — basic	947	924	890
Assumed exercise and/or distributions of stock-based awards	2	3	3
Weighted average common shares outstanding — diluted	949	927	893

The number of stock options not included in the calculation of diluted common shares outstanding due to their antidilutive effect was approximately 8 million in 2017 , 12 million in 2016 , and 16 million in 2015 . There were no equity units related to the PHI merger not included in the calculation of diluted common shares outstanding due to their antidilutive effect for the years ended December 31, 2017 and 2016 . The number of equity units related to the PHI merger not included in the calculation of diluted common shares outstanding due to their antidilutive effect was 3 million for the year ended 2015 . Refer to Note 19 — Shareholders' Equity for further information regarding the equity units and equity forward units.

On June 1, 2017, Exelon settled the forward purchase contract, which was a component of the June 2014 equity units, through the issuance of approximately 33 million shares of Exelon common stock from treasury stock. The issuance of shares on June 1, 2017 triggered full dilution in the EPS calculation, which prior to settlement were included in the calculation of diluted EPS using the treasury stock method. Refer to Note 19 — Shareholders' Equity for further information regarding share repurchases.

Commitments

Constellation Merger Commitments

In February 2012, the MDPSC issued an Order approving the Exelon and Constellation merger. As part of the MDPSC Order, Exelon agreed to provide a package of benefits to BGE customers, the City of Baltimore and the State of Maryland, resulting in an estimated direct investment in the State of Maryland of approximately $1 billion .

The direct investment includes the construction of a new 21-story headquarters building in Baltimore for Generation's competitive energy business that was substantially complete in November 2016 and is now occupied by approximately 1,500 Exelon employees. Generation's investment includes leasehold improvements that are not expected to exceed $110 million . In addition, Generation entered into a 20 -year operating lease as the primary lessee of the building.

The direct investment commitment also includes $450 million to $500 million relating to Exelon and Generation's development or assistance in the development of 285 - 300 MWs of new generation

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

in Maryland, which is expected to be completed within a period of 10 years. The MDPSC order contemplates various options for complying with the new generation development commitments, including building or acquiring generating assets, making subsidy or compliance payments, or in circumstances in which the generation build is delayed or certain specified provisions are elected, making liquidated damages payments. Exelon and Generation have incurred $457 million towards satisfying the commitment for new generation development in the state of Maryland, with approximately 220 MW of the new generation commencing with commercial operations to date and an additional 10 MW commitment satisfied through a liquidated damages payment made in the fourth quarter of 2016. Additionally, during the fourth quarter of 2016, given continued declines in projected energy and capacity prices, Generation terminated rights to certain development projects originally intended to meet its remaining 55 MW commitment amount. The commitment will now most likely be satisfied via payment of liquidated damages or execution of a third party PPA, rather than by Generation constructing renewable generating assets. As a result, Exelon and Generation recorded a pre-tax $50 million loss contingency in Operating and maintenance expense in Exelon's and Generation's Consolidated Statements of Operations and Comprehensive Income for the year ended December 31, 2016.

Commercial Commitments

Exelon's commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Letters of credit (non-debt) [a]	$ 1,226	$ 1,056	$ 154	$ 16	$ —	$ —	$ —
Surety bonds [b]	1,381	1,293	66	16	6	—	—
Financing trust guarantees	378	—	—	—	—	—	378
Guaranteed lease residual values [c]	21	—	—	—	—	—	21
Total commercial commitments	$ 3,006	$ 2,349	$ 220	$ 32	$ 6	$ —	$ 399

(a) Letters of credit (non-debt)—Exelon and certain of its subsidiaries maintain non-debt letters of credit to provide credit support for certain transactions as requested by third parties.
(b) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.
(c) Represents the maximum potential obligation in the event that the fair value of certain leased equipment and fleet vehicles is zero at the end of the maximum lease term. The maximum lease term associated with these assets ranges from 3 to 8 years. The maximum potential obligation at the end of the minimum lease term would be $56 million , $16 million of which is a guarantee by Pepco, $23 million by DPL and $15 million by ACE. The minimum lease term associated with these assets ranges from 1 to 4 years. Historically, payments under the guarantees have not been made and PHI believes the likelihood of payments being required under the guarantees is remote.

Generation's commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Letters of credit (non-debt) [a]	$ 1,177	$ 1,007	$ 154	$ 16	$ —	$ —	$ —
Surety bonds	1,209	1,164	45	—	—	—	—
Total commercial commitments	$ 2,386	$ 2,171	$ 199	$ 16	$ —	$ —	$ —

(a) Letters of credit (non-debt)—Non-debt letters of credit maintained to provide credit support for certain transactions as requested by third parties.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

ComEd's commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Letters of credit (non-debt) [a]	$ 2	$ 2	$ —	$ —	$ —	$ —	$ —
Surety bonds [b]	10	8	2	—	—	—	—
Financing trust guarantees	200	—	—	—	—	—	200
Total commercial commitments	$ 212	$ 10	$ 2	$ —	$ —	$ —	$ 200

(a) Letters of credit (non-debt)—ComEd maintains non-debt letters of credit to provide credit support for certain transactions as requested by third parties.
(b) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.

PECO's commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Surety bonds [a]	$ 9	$ 8	$ 1	$ —	$ —	$ —	$ —
Financing trust guarantees	178	—	—	—	—	—	178
Total commercial commitments	$ 187	$ 8	$ 1	$ —	$ —	$ —	$ 178

(a) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.

BGE's commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Letters of credit (non-debt) [a]	$ 2	$ 2	$ —	$ —	$ —	$ —	$ —
Surety bonds [b]	11	10	1	—	—	—	—
Total commercial commitments	$ 13	$ 12	$ 1	$ —	$ —	$ —	$ —

(a) Letters of credit (non-debt)—BGE maintains non-debt letters of credit to provide credit support for certain transactions as requested by third parties.
(b) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

PHI commercial commitments (Successor) as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Surety bonds	$ 63	$ 48	$ 15	$ —	$ —	$ —	$ —
Guaranteed lease residual values [a]	21	—	—	—	—	—	21
Total commercial commitments	$ 84	$ 48	$ 15	$ —	$ —	$ —	$ 21

(a) Represents the maximum potential obligation in the event that the fair value of certain leased equipment and fleet vehicles is zero at the end of the maximum lease term. The maximum lease term associated with these assets ranges from 3 to 8 years. The maximum potential obligation at the end of the minimum lease term would be $56 million . The minimum lease term associated with these assets ranges from 1 to 4 years. Historically, payments under the guarantees have not been made and PHI believes the likelihood of payments being required under the guarantees is remote.

Pepco commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Surety bonds [a]	$ 54	$ 41	$ 13	$ —	$ —	$ —	$ —
Guaranteed lease residual values [b]	6	—	—	—	—	—	6
Total commercial commitments	$ 60	$ 41	$ 13	$ —	$ —	$ —	$ 6

(a) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.
(b) Represents the maximum potential obligation in the event that the fair value of certain leased equipment and fleet vehicles is zero at the end of the maximum lease term. The maximum lease term associated with these assets ranges from 3 to 8 years. The maximum potential obligation at the end of the minimum lease term would be $16 million . The minimum lease term associated with these assets ranges from 1 to 4 years. Historically, payments under the guarantees have not been made and PHI believes the likelihood of payments being required under the guarantees is remote.

DPL commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Surety bonds [a]	$ 4	$ 3	$ 1	$ —	$ —	$ —	$ —
Guaranteed lease residual values [b]	8	—	—	—	—	—	8
Total commercial commitments	$ 12	$ 3	$ 1	$ —	$ —	$ —	$ 8

(a) Surety bonds—Guarantees issued related to contract and commercial agreements, excluding bid bonds.
(b) Represents the maximum potential obligation in the event that the fair value of certain leased equipment and fleet vehicles is zero at the end of the maximum lease term. The maximum lease term associated with these assets ranges from 3 to 8 years. The maximum potential obligation at the end of the minimum lease term would be $23 million . The minimum lease term associated with these assets ranges from 1 to 4 years. Historically, payments under the guarantees have not been made and PHI believes the likelihood of payments being required under the guarantees is remote.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

ACE commercial commitments as of December 31, 2017 , representing commitments potentially triggered by future events, were as follows:

		Expiration within					
	Total	2018	2019	2020	2021	2022	2023 and beyond
Surety bonds	$ 4	$ 3	$ 1	$ —	$ —	$ —	$ —
Guaranteed lease residual values [a]	6	—	—	—	—	—	6
Total commercial commitments	$ 10	$ 3	$ 1	$ —	$ —	$ —	$ 6

(a) Represents the maximum potential obligation in the event that the fair value of certain leased equipment and fleet vehicles is zero at the end of the maximum lease term. The maximum lease term associated with these assets ranges from 3 to 8 years. The maximum potential obligation at the end of the minimum lease term would be $15 million . The minimum lease term associated with these assets ranges from 1 to 4 years. Historically, payments under the guarantees have not been made and PHI believes the likelihood of payments being required under the guarantees is remote.

Leases

Minimum future operating lease payments, including lease payments for contracted generation, vehicles, real estate, computers, rail cars, operating equipment and office equipment, as of December 31, 2017 were:

						Successor			
	Exelon (a)	Generation (a)	ComEd (a)(c)	PECO (a)(c)	BGE (a)(c)(d)(e)	PHI (a)	Pepco (a)	DPL (a)(c)	ACE (a)
2018	$ 188	$ 74	$ 7	$ 5	$ 34	$ 56	$ 8	$ 20	$ 9
2019	129	29	6	5	34	42	7	10	8
2020	147	47	4	5	34	44	6	13	8
2021	142	48	4	5	32	40	5	12	7
2022	119	46	2	5	17	39	4	12	6
Remaining years	787	573	—	—	19	194	8	54	19
Total minimum future lease payments	$ 1,512	$ 817	$ 23	$ 25	$ 170	$ 415	$ 38	$ 121	$ 57

(a) Includes amounts related to shared use land arrangements.
(b) Excludes Generation's contingent operating lease payments associated with contracted generation agreements.
(c) Amounts related to certain real estate leases and railroad licenses effectively have indefinite payment periods. As a result, ComEd, PECO, BGE and DPL have excluded these payments from the remaining years as such amounts would not be meaningful. ComEd's, PECO's, BGE's and DPL's average annual obligation for these arrangements, included in each of the years 2018—2022, was $2 million , $5 million , $1 million and $2 million , respectively. Also includes amounts related to shared use land arrangements.
(d) Includes all future lease payments on a 99 -year real estate lease that expires in 2106 .
(e) The BGE column above includes minimum future lease payments associated with a 6-year lease for the Baltimore City conduit system that became effective during the fourth quarter of 2016. BGE's total commitments under the lease agreement are $25 million , $26 million , $28 million , $28 million and $14 million related to years 2018, 2019, 2020, 2021and 2022, respectively.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

The following table presents the Registrants' rental expense under operating leases for the years ended December 31, 2017, 2016 and 2015:

For the Year Ended December 31,	Exelon	Generation [a]	ComEd	PECO	BGE	Pepco	DPL	ACE
2017	$ 709	$ 578	$ 9	$ 9	$ 32	$ 11	$ 16	$ 14
2016	777	667	15	7	22	8	15	13
2015	922	851	12	9	32	7	14	13

	Successor		*Predecessor*	
	For the Year Ended December 31, 2017	March 24, 2016 to December 31, 2016	January 1, 2016 to March 23, 2016	For the Year Ended December 31, 2015
PHI				
Rental expense under operating leases	$ 63	$ 49	$ 12	$ 60

(a) Includes contingent operating lease payments associated with contracted generation agreements that are not included in the minimum future operating lease payments table above. Payments made under Generation's contracted generation lease agreements totaled $508 million , $604 million and $798 million during 2017 , 2016 and 2015 , respectively. Excludes contract amortization associated with purchase accounting and contract acquisitions.

For information regarding capital lease obligations, see Note 13 —Debt and Credit Agreements.

Nuclear Insurance

Generation is subject to liability, property damage and other risks associated with major incidents at any of its nuclear stations. Generation has mitigated its financial exposure to these risks through insurance and other industry risk-sharing provisions.

The Price-Anderson Act was enacted to ensure the availability of funds for public liability claims arising from an incident at any of the U.S. licensed nuclear facilities and to limit the liability of nuclear reactor owners for such claims from any single incident. As of December 31, 2017 , the current liability limit per incident is $13.4 billion and is subject to change to account for the effects of inflation and changes in the number of licensed reactors at least once every five years with the last adjustment effective September 10, 2013. In accordance with the Price-Anderson Act, Generation maintains financial protection at levels equal to the amount of liability insurance available from private sources through the purchase of private nuclear energy liability insurance for public liability claims that could arise in the event of an incident. Effective January 1, 2017, the required amount of nuclear energy liability insurance purchased is $450 million for each operating site. Claims exceeding that amount are covered through mandatory participation in a financial protection pool, as required by the Price Anderson-Act, which provides the additional $13.0 billion per incident in funds available for public liability claims. Participation in this secondary financial protection pool requires the operator of each reactor to fund its proportionate share of costs for any single incident that exceeds the primary layer of financial protection. Exelon's share of this secondary layer would be approximately $2.8 billion , however any amounts payable under this secondary layer would be capped at $420 million per year.

In addition, the U.S. Congress could impose revenue-raising measures on the nuclear industry to pay public liability claims exceeding the $13.4 billion limit for a single incident.

As part of the execution of the NOSA on April 1, 2014, Generation executed an Indemnity Agreement pursuant to which Generation agreed to indemnify EDF and its affiliates against third-party claims that may arise from any future nuclear incident (as defined in the Price-Anderson Act) in connection with the CENG nuclear plants or their operations. Exelon guarantees Generation's obligations under this

S1-SSA-0009 - 16729

indemnity. See Note 2 — Variable Interest Entities for additional information on Generation's operations relating to CENG.

Generation is required each year to report to the NRC the current levels and sources of property insurance that demonstrates Generation possesses sufficient financial resources to stabilize and decontaminate a reactor and reactor station site in the event of an accident. The property insurance maintained for each facility is currently provided through insurance policies purchased from NEIL, an industry mutual insurance company of which Generation is a member.

NEIL may declare distributions to its members as a result of favorable operating experience. In recent years NEIL has made distributions to its members, but Generation cannot predict the level of future distributions or if they will continue at all. Generation's portion of the distribution declared by NEIL is estimated to be $60 million for 2017, and was $21 million for 2016 and 2015. The distributions were recorded as a reduction to Operating and maintenance expense within Exelon and Generation's Consolidated Statements of Operations and Comprehensive Income.

Premiums paid to NEIL by its members are also subject to a potential assessment for adverse loss experience in the form of a retrospective premium obligation. NEIL has never assessed this retrospective premium since its formation in 1973, and Generation cannot predict the level of future assessments if any. The current maximum aggregate annual retrospective premium obligation for Generation is approximately $360 million . NEIL requires its members to maintain an investment grade credit rating or to ensure collectability of their annual retrospective premium obligation by providing a financial guarantee, letter of credit, deposit premium, or some other means of assurance.

NEIL provides "all risk" property damage, decontamination and premature decommissioning insurance for each station for losses resulting from damage to its nuclear plants, either due to accidents or acts of terrorism. If the decision is made to decommission the facility, a portion of the insurance proceeds will be allocated to a fund, which Generation is required by the NRC to maintain, to provide for decommissioning the facility. In the event of an insured loss, Generation is unable to predict the timing of the availability of insurance proceeds to Generation and the amount of such proceeds that would be available. In the event that one or more acts of terrorism cause accidental property damage within a twelve-month period from the first accidental property damage under one or more policies for all insured plants, the maximum recovery by Exelon will be an aggregate of $ 3.2 billion plus such additional amounts as the insurer may recover for all such losses from reinsurance, indemnity and any other source, applicable to such losses.

For its insured losses, Generation is self-insured to the extent that losses are within the policy deductible or exceed the amount of insurance maintained. Uninsured losses and other expenses, to the extent not recoverable from insurers or the nuclear industry, could also be borne by Generation. Any such losses could have a material adverse effect on Exelon's and Generation's financial conditions, results of operations and cash flows.

Spent Nuclear Fuel Obligation

Under the NWPA, the DOE is responsible for the development of a geologic repository for and the disposal of SNF and high-level radioactive waste. As required by the NWPA, Generation is a party to contracts with the DOE (Standard Contracts) to provide for disposal of SNF from Generation's nuclear generating stations. In accordance with the NWPA and the Standard Contracts, Generation historically had paid the DOE one mill ($0.001) per kWh of net nuclear generation for the cost of SNF disposal. On November 19, 2013, the D.C. Circuit Court ordered the DOE to submit to Congress a proposal to reduce the current SNF disposal fee to zero, unless and until there is a viable disposal program. On May 9, 2014, the DOE notified Generation that the SNF disposal fee remained in effect through May 15, 2014, after which time the fee was set to zero. As a result, for the year ended December 31, 2017 , 2016 and 2015 , Generation did not incur any expense in SNF disposal fees. Until a new fee structure is in effect,

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Exelon and Generation will not accrue any further costs related to SNF disposal fees. This fee may be adjusted prospectively to ensure full cost recovery. The NWPA and the Standard Contracts required the DOE to begin taking possession of SNF generated by nuclear generating units by no later than January 31, 1998. The DOE, however, failed to meet that deadline and its performance has been, and is expected to be, delayed significantly.

The 2010 Federal budget (which became effective October 1, 2009) eliminated almost all funding for the creation of the Yucca Mountain repository while the Obama Administration devised a new strategy for long-term SNF management. The Blue Ribbon Commission (BRC) on America's Nuclear Future, appointed by the U.S. Energy Secretary, released a report on January 26, 2012, detailing comprehensive recommendations for creating a safe, long-term solution for managing and disposing of the nation's SNF and high-level radioactive waste.

In early 2013, the DOE issued an updated "Strategy for the Management and Disposal of Used Nuclear Fuel and High-Level Radioactive Waste" in response to the BRC recommendations. This strategy included a consolidated interim storage facility that was planned to be operational in 2025. However, due to continued delays on the part of the DOE, Generation currently assumes the DOE will begin accepting SNF in 2030 and uses that date for purposes of estimating the nuclear decommissioning asset retirement obligations. The SNF acceptance date assumption is based on management's estimates of the amount of time required for DOE to select a site location and develop the necessary infrastructure for long-term SNF storage.

In August 2004, Generation and the DOJ, in close consultation with the DOE, reached a settlement under which the government agreed to reimburse Generation, subject to certain damage limitations based on the extent of the government's breach, for costs associated with storage of SNF at Generation's nuclear stations pending the DOE's fulfillment of its obligations. Generation's settlement agreement does not include FitzPatrick and FitzPatrick does not currently have a settlement agreement in place. Calvert Cliffs, Ginna and Nine Mile Point each have separate settlement agreements in place with the DOE which were extended during 2017 to provide for the reimbursement of SNF storage costs through December 31, 2019. Generation submits annual reimbursement requests to the DOE for costs associated with the storage of SNF. In all cases, reimbursement requests are made only after costs are incurred and only for costs resulting from DOE delays in accepting the SNF.

Under the settlement agreements, Generation has received cumulative cash reimbursements for costs incurred as follows:

	Total	Net [a]
Cumulative cash reimbursements [b]	$ 1,167	$ 1,006

(a) Total after considering amounts due to co-owners of certain nuclear stations and to the former owner of Oyster Creek.
(b) Includes $53 and $49 , respectively, for amounts received since April 1, 2014, for costs incurred under the CENG DOE Settlement Agreements prior to the consolidation of CENG.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

As of December 31, 2017 and 2016, the amount of SNF storage costs for which reimbursement has been or will be requested from the DOE under the DOE settlement agreements is as follows:

	December 31, 2017	December 31, 2016
DOE receivable - current [(a)]	$ 94	$ 109
DOE receivable - noncurrent [(b)]	15	15
Amounts owed to co-owners [(a)(c)]	(11)	(13)

(a) Recorded in Accounts receivable, other.
(b) Recorded in Deferred debits and other assets, other
(c) Non-CENG amounts owed to co-owners are recorded in Accounts receivable, other. CENG amounts owed to co-owners are recorded in Accounts payable. Represents amounts owed to the co-owners of Peach Bottom, Quad Cities, and Nine Mile Point Unit 2 generating facilities.

The Standard Contracts with the DOE also required the payment to the DOE of a one-time fee applicable to nuclear generation through April 6, 1983. The fee related to the former PECO units has been paid. Pursuant to the Standard Contracts, ComEd previously elected to defer payment of the one-time fee of $277 million for its units (which are now part of Generation), with interest to the date of payment, until just prior to the first delivery of SNF to the DOE. The unfunded liabilities for SNF disposal costs, including the one-time fee, were transferred to Generation as part of Exelon's 2001 corporate restructuring. A prior owner of FitzPatrick also elected to defer payment of the one-time fee of $34 million for the FitzPatrick unit. As part of the FitzPatrick acquisition on March 31, 2017, Generation assumed a SNF liability for the DOE one-time fee obligation with interest related to FitzPatrick along with an offsetting asset for the contractual right to reimbursement from NYPA, a prior owner of FitzPatrick, for amounts paid for the FitzPatrick DOE one-time fee obligation. The amounts were recorded at fair value. See Note 4 - Mergers, Acquisitions and Dispositions for additional information on the FitzPatrick acquisition. As of December 31, 2017 and 2016 , the SNF liability for the one-time fee with interest was $1,147 million and $1,024 million , respectively, which is included in Exelon's and Generation's Consolidated Balance Sheets. Interest for Exelon's and Generation's SNF liabilities accrues at the 13-week Treasury Rate. The 13-week Treasury Rate in effect, for calculation of the interest accrual at December 31, 2017, was 1.149% . The outstanding one-time fee obligations for the Nine Mile Point, Ginna, Oyster Creek and TMI units remain with the former owners. The Clinton and Calvert Cliffs units have no outstanding obligation. See Note 11 — Fair Value of Financial Assets and Liabilities for additional information.

Environmental Remediation Matters

General. The Registrants' operations have in the past, and may in the future, require substantial expenditures to comply with environmental laws. Additionally, under Federal and state environmental laws, the Registrants are generally liable for the costs of remediating environmental contamination of property now or formerly owned by them and of property contaminated by hazardous substances generated by them. The Registrants own or lease a number of real estate parcels, including parcels on which their operations or the operations of others may have resulted in contamination by substances that are considered hazardous under environmental laws. In addition, the Registrants are currently involved in a number of proceedings relating to sites where hazardous substances have been deposited and may be subject to additional proceedings in the future. Unless otherwise disclosed, the Registrants cannot reasonably estimate whether they will incur significant liabilities for additional investigation and remediation costs at these or additional sites identified by the Registrants, environmental agencies or others, or whether such costs will be recoverable from third parties, including customers. Additional costs could have a material, unfavorable impact on the Registrants' financial conditions, results of operations and cash flows.

MGP Sites

ComEd, PECO, BGE and DPL have identified sites where former MGP activities have or may have resulted in actual site contamination. For almost all of these sites, there are additional PRPs that may share responsibility for the ultimate remediation of each location.

- ComEd has identified 42 sites, 19 of which have been remediated and approved by the Illinois EPA or the U.S. EPA and 23 that are currently under some degree of active study and/or remediation. ComEd expects the majority of the remediation at these sites to continue through at least 2022.

- PECO has identified 26 sites, 17 of which have been remediated in accordance with applicable PA DEP regulatory requirements and 9 that are currently under some degree of active study and/or remediation. PECO expects the majority of the remediation at these sites to continue through at least 2022.

- BGE has identified 13 former gas manufacturing or purification sites, 11 of which the remediation has been completed and approved by the MDE and 2 that require some level of remediation and/or ongoing monitoring. BGE has determined that a loss associated with these sites is probable and has recorded an estimated liability, which is included in the table below. However, it is reasonably possible that BGE's cost of remediation for one of its sites could be up to $13 million .

- DPL has identified 3 sites, 2 of which remediation has been completed and approved by the MDE or the Delaware Department of Natural Resources and Environmental Control. The remaining site is under study and the required cost at the site is not expected to be material.

The historical nature of the MGP sites and the fact that many of the sites have been buried and built over, impacts the ability to determine a precise estimate of the ultimate costs prior to initial sampling and determination of the exact scope and method of remedial activity. Management determines its best estimate of remediation costs using all available information at the time of each study, including probabilistic and deterministic modeling for ComEd and PECO, and the remediation standards currently required by the applicable state environmental agency. Prior to completion of any significant clean up, each site remediation plan is approved by the appropriate state environmental agency.

ComEd, pursuant to an ICC order, and PECO, pursuant to settlements of natural gas distribution rate cases with the PAPUC, are currently recovering environmental remediation costs of former MGP facility sites through customer rates. See Note 3 — Regulatory Matters for additional information regarding the associated regulatory assets. While BGE and DPL do not have riders for MGP clean-up costs, they have historically received recovery of actual clean-up costs in distribution rates.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

As of December 31, 2017 and 2016 , the Registrants had accrued the following undiscounted amounts for environmental liabilities in Other current liabilities and Other deferred credits and other liabilities within their respective Consolidated Balance Sheets:

December 31, 2017	Total environmental investigation and remediation reserve	Portion of total related to MGP investigation and remediation
Exelon	$ 466	$ 315
Generation	117	—
ComEd	285	283
PECO	30	28
BGE	5	4
PHI	29	—
Pepco	27	—
DPL	1	—
ACE	1	—

December 31, 2016	Total environmental investigation and remediation reserve	Portion of total related to MGP investigation and remediation
Exelon	$ 429	$ 325
Generation	72	—
ComEd	292	291
PECO	33	31
BGE	2	2
PHI	30	1
Pepco	27	—
DPL	2	1
ACE	1	—

During the third quarter of 2017, ComEd, PECO, BGE and DPL completed an annual study of their future estimated MGP remediation requirements. The study resulted in a $13 million and $2 million increase to environmental liabilities and related regulatory assets for ComEd and PECO, respectively, and no change at BGE and DPL.

Solid and Hazardous Waste

Cotter Corporation. The EPA has advised Cotter Corporation (Cotter), a former ComEd subsidiary, that it is potentially liable in connection with radiological contamination at a site known as the West Lake Landfill in Missouri. In 2000, ComEd sold Cotter to an unaffiliated third-party. As part of the sale, ComEd agreed to indemnify Cotter for any liability arising in connection with the West Lake Landfill. In connection with Exelon's 2001 corporate restructuring, this responsibility to indemnify Cotter was transferred to Generation. On May 29, 2008, the EPA issued a Record of Decision (ROD) approving a landfill cover remediation approach. By letter dated January 11, 2010, the EPA requested that the PRPs perform a supplemental feasibility study for a remediation alternative that would involve complete excavation of the radiological contamination. On September 30, 2011, the PRPs submitted the supplemental feasibility study to the EPA for review. Since June 2012, the EPA has requested that the PRPs perform a series of additional analyses and groundwater and soil sampling as part of the supplemental feasibility study. This further analysis was focused on a partial excavation remedial option. The PRPs provided the draft final Remedial Investigation and Feasibility Study (RI/FS) to the EPA in January 2018, which formed the basis for EPA's proposed remedy selection, as further discussed below. There are currently three PRPs

S1-SSA-0009 - 16734

participating in the West Lake Landfill remediation proceeding. Investigation by Generation has identified a number of other parties who also may be PRPs and could be liable to contribute to the final remedy. Further investigation is ongoing. As of December 31, 2016, Generation had previously recorded an estimated liability for its anticipated share of a landfill cover remedy, which at the time was estimated to cost approximately $90 million in total.

On February 1, 2018, the EPA announced its proposed remedy involving partial excavation of the site with an enhanced landfill cover. The proposed remedy will be open for public comment through March 22, 2018 and Generation currently expects that a ROD will be issued during the third quarter of 2018. Thereafter, the EPA will seek to enter into a Consent Decree with the PRPs to effectuate the remedy, which Generation currently expects will occur in late 2018 or early 2019. The estimated cost of the remedy, taking into account the current EPA technical requirements and the total costs expected to be incurred by the PRPs in fully executing the remedy, is approximately $340 million , including cost escalation on an undiscounted basis, which would be allocated among the final group of PRPs. Generation has determined that a loss associated with the EPA's partial excavation and enhanced landfill cover remedy is probable and has recorded a liability as of December 31, 2017, included in the table above, that reflects management's best estimate of Cotter's allocable share of the ultimate cost for the entire remediation effort. Given the joint and several nature of this liability, the magnitude of Generation's ultimate liability will depend on the actual costs incurred to implement the ultimate required remediation remedy as well as on the nature and terms of any cost-sharing arrangements with the final group of PRPs. Therefore, it is reasonably possible that the ultimate cost and Generation's associated allocable share recorded as of December 31, 2017, could differ significantly once these uncertainties are resolved, which could have a material impact on Exelon's and Generation's future financial conditions, results of operations and cash flows.

On January 16, 2018, the PRPs were advised by the EPA that it will begin an additional investigation and evaluation of groundwater conditions at the West Lake Landfill. The PRPs have been provided with a draft statement of work that will form the basis of an Administrative Settlement Agreement and Order on Consent for the performance by the PRPs of the groundwater RI/FS and reimbursement of EPA's oversight costs. The purposes of this new RI/FS are to define the nature and extent of any groundwater contamination from the West Lake Landfill site, determine the potential risk posed to human health and the environment, and evaluate remedial alternatives. Generation estimates the undiscounted cost for the groundwater RI/FS for West Lake to be approximately $20 million and Generation has recorded a liability as of December 31, 2017, included in the table above, that reflects management's best estimate of Cotter's allocable share of the cost among the PRPs. At this time Generation cannot predict the likelihood or the extent to which, if any, remediation activities will be required and cannot estimate a reasonably possible range of loss for response costs beyond those associated with the RI/FS component. It is reasonably possible, however, that resolution of this matter could have a material, unfavorable impact on Exelon's and Generation's future results of operations and cash flows.

During December 2015, the EPA took two actions related to the West Lake Landfill designed to abate what it termed as imminent and dangerous conditions at the landfill. The first involved installation by the PRPs of a non-combustible surface cover to protect against surface fires in areas where radiological materials are believed to have been disposed. Generation has accrued what it believes to be an adequate amount to cover its anticipated liability for this interim action, and the work is expected to be completed in 2018. The second action involved EPA's public statement that it will require the PRPs to construct a barrier wall in an adjacent landfill to prevent a subsurface fire from spreading to those areas of the West Lake Landfill where radiological materials are believed to have been disposed. At this time, Generation believes that the requirement to build a barrier wall is remote in light of other technologies that have been employed by the adjacent landfill owner. Finally, one of the other PRPs, the landfill owner and operator of the adjacent landfill, has indicated that it will be making a contribution claim against Cotter for costs that it has incurred to prevent the subsurface fire from spreading to those areas of the West Lake Landfill where radiological materials are believed to have been disposed. At this time, Exelon

and Generation do not possess sufficient information to assess this claim and therefore are unable to estimate a range of loss, if any. As such, no liability has been recorded for the potential contribution claim. It is reasonably possible, however, that resolution of this matter could have a material, unfavorable impact on Exelon's and Generation's financial conditions, results of operations and cash flows.

On August 8, 2011, Cotter was notified by the DOJ that Cotter is considered a PRP with respect to the government's clean-up costs for contamination attributable to low level radioactive residues at a former storage and reprocessing facility named Latty Avenue near St. Louis, Missouri. The Latty Avenue site is included in ComEd's indemnification responsibilities discussed above as part of the sale of Cotter. The radioactive residues had been generated initially in connection with the processing of uranium ores as part of the U.S. Government's Manhattan Project. Cotter purchased the residues in 1969 for initial processing at the Latty Avenue facility for the subsequent extraction of uranium and metals. In 1976, the NRC found that the Latty Avenue site had radiation levels exceeding NRC criteria for decontamination of land areas. Latty Avenue was investigated and remediated by the United States Army Corps of Engineers pursuant to funding under FUSRAP. The DOJ has not yet formally advised the PRPs of the amount that it is seeking, but it is believed to be approximately $90 million from all PRPs. The DOJ and the PRPs agreed to toll the statute of limitations until August 2018 so that settlement discussions could proceed. Generation has determined that a loss associated with this matter is probable under its indemnification agreement with Cotter and has recorded an estimated liability, which is included in the table above.

Commencing in February 2012, a number of lawsuits have been filed in the U.S. District Court for the Eastern District of Missouri. Among the defendants were Exelon, Generation and ComEd, all of which were subsequently dismissed from the case, as well as Cotter, which remains a defendant. The suits allege that individuals living in the North St. Louis area developed some form of cancer or other serious illness due to Cotter's negligent or reckless conduct in processing, transporting, storing, handling and/or disposing of radioactive materials. Plaintiffs are asserting public liability claims under the Price-Anderson Act. Their state law claims for negligence, strict liability, emotional distress, and medical monitoring have been dismissed. The complaints do not contain specific damage claims. In the event of a finding of liability against Cotter, it is reasonably possible that Generation would be financially responsible due to its indemnification responsibilities of Cotter described above. The court has dismissed a number of the lawsuits as untimely, and that ruling is currently on appeal. Pre-trial motions and discovery are proceeding in the remaining cases and a pre-trial scheduling order has been filed with the court. At this stage of the litigation, Generation cannot estimate a range of loss, if any. As such, no liability has been recorded for these lawsuits.

Benning Road Site. In September 2010, PHI received a letter from EPA identifying the Benning Road site as one of six land-based sites potentially contributing to contamination of the lower Anacostia River. A portion of the site was formerly the location of a Pepco Energy Services electric generating facility. That generating facility was deactivated in June 2012 and plant structure demolition was completed in July 2015. The remaining portion of the site consists of a Pepco transmission and distribution service center that remains in operation. In December 2011, the U.S. District Court for the District of Columbia approved a Consent Decree entered into by Pepco and Pepco Energy Services with the DOEE, which requires Pepco and Pepco Energy Services to conduct a Remediation Investigation (RI)/ Feasibility Study (FS) for the Benning Road site and an approximately 10 to 15-acre portion of the adjacent Anacostia River. The RI/FS will form the basis for the remedial actions for the Benning Road site and for the Anacostia River sediment associated with the site. The Consent Decree does not obligate Pepco or Pepco Energy Services to pay for or perform any remediation work, but it is anticipated that DOEE will look to Pepco and Pepco Energy Services to assume responsibility for cleanup of any conditions in the river that are determined to be attributable to past activities at the Benning Road site. Pursuant to Exelon's March 23, 2016 acquisition of PHI, Pepco Energy Services was transferred to Generation.

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

Since 2013, Pepco and Pepco Energy Services (now Generation) have been performing RI work and have submitted multiple draft RI reports to the DOEE. Once the RI work is completed, Pepco and Generation will issue a draft "final" RI report for review and comment by DOEE and the public. Pepco and Generation will then proceed to develop an FS to evaluate possible remedial alternatives for submission to DOEE. The Court has established a schedule for completion of the RI and FS, and approval by the DOEE, by May 6, 2019.

Upon DOEE's approval of the final RI and FS Reports, Pepco and Generation will have satisfied their obligations under the Consent Decree. At that point, DOEE will prepare a Proposed Plan regarding further response actions. After considering public comment on the Proposed Plan, DOEE will issue a Record of Decision identifying any further response actions determined to be necessary.

PHI, Pepco and Generation have determined that a loss associated with this matter is probable and have accrued an estimated liability, which is included in the table above.

Anacostia River Tidal Reach . Contemporaneous with the Benning RI/FS being performed by Pepco and Generation, DOEE and certain federal agencies have been conducting a separate RI/FS focused on the entire tidal reach of the Anacostia River extending from just north of the Maryland-D.C. boundary line to the confluence of the Anacostia and Potomac Rivers. In March 2016, DOEE released a draft of the river-wide RI Report for public review and comment. The river-wide RI incorporated the results of the river sampling performed by Pepco and Pepco Energy Services as part of the Benning RI/FS, as well as similar sampling efforts conducted by owners of other sites adjacent to this segment of the river and supplemental river sampling conducted by DOEE's contractor. DOEE asked Pepco, along with parties responsible for other sites along the river, to participate in a "Consultative Working Group" to provide input into the process for future remedial actions addressing the entire tidal reach of the river and to ensure proper coordination with the other river cleanup efforts currently underway, including cleanup of the river segment adjacent to the Benning Road site resulting from the Benning RI/FS. Pepco responded that it will participate in the Consultative Working Group but its participation is not an acceptance of any financial responsibility beyond the work that will be performed at the Benning Road site described above. DOEE has advised the Consultative Working Group that the federal and DOEE authorities are conducting the remedial investigation and that a feasibility study of potential remedies is being prepared. DOEE currently is working under a statutorily mandated date to complete the Record of Decision selecting the final remedy for the project by June 30, 2018. However, on January 11, 2018 the DOEE requested at a hearing of the District of Columbia Council Committee of the Environment that this statutory deadline be extended until December 31, 2019 to reflect the time necessary to complete the investigation. A recommendation by the Committee to the DC Council is expected in the near future. The District of Columbia Council will make the final determination to extend the deadline. An appropriate liability for Pepco's share of investigation costs has been accrued and is included in the table above. Although Pepco has determined that it is probable that costs for remediation will be incurred , Pepco cannot estimate the reasonably possible range of loss at this time and no liability has been accrued for those future costs.

Conectiv Energy Wholesale Power Generation Sites. In July 2010, PHI sold the wholesale power generation business of Conectiv Energy Holdings, Inc. and substantially all of its subsidiaries (Conectiv Energy) to Calpine Corporation (Calpine). Under New Jersey's Industrial Site Recovery Act (ISRA), the transfer of ownership triggered an obligation on the part of Conectiv Energy to remediate any environmental contamination at each of the nine Conectiv Energy generating facility sites located in New Jersey. Under the terms of the sale, Calpine has assumed responsibility for performing the ISRA-required remediation and for the payment of all related ISRA compliance costs up to $10 million . Predecessor PHI was obligated to indemnify Calpine for any ISRA compliance remediation costs in excess of $10 million . According to PHI's estimates, the costs of ISRA-required remediation activities at the nine generating facility sites located in New Jersey are in the range of approximately $7 million to $18 million , and predecessor PHI recorded an estimated liability for its share of the estimated clean-up costs. Pursuant

to Exelon's March 2016 acquisition of PHI, the Conectiv Energy legal entity was transferred to Generation and the liability for Predecessor PHI's share of the estimated clean- up costs was also transferred to Generation and is included in the table above as a liability of Generation. The responsibility to indemnify Calpine is shared by PHI and Generation.

Brandywine Fly Ash Disposal Site. In February 2013, Pepco received a letter from the MDE requesting that Pepco investigate the extent of waste on a Pepco right-of-way that traverses the Brandywine fly ash disposal site in Brandywine, Prince George's County, Maryland, owned by NRG Energy, Inc. (as successor to GenOn MD Ash Management, LLC) (NRG). In July 2013, while reserving its rights and related defenses under a 2000 agreement covering the sale of this site, Pepco indicated its willingness to investigate the extent of, and propose an appropriate closure plan to address, ash on the right-of-way. Pepco submitted a schedule for development of a closure plan to MDE on September 30, 2013 and, by letter dated October 18, 2013, MDE approved the schedule.

Pepco has determined that a loss associated with this matter is probable and has recorded an estimated liability, which is included in the table above. Pepco believes that the costs incurred in this matter may be recoverable from NRG under the 2000 sale agreement, but has not recorded an associated receivable for any potential recovery.

Litigation and Regulatory Matters

Asbestos Personal Injury Claims

Exelon and Generation. Generation maintains estimated liabilities for claims associated with asbestos-related personal injury actions in certain facilities that are currently owned by Generation or were previously owned by ComEd and PECO. The estimated liabilities are recorded on an undiscounted basis and exclude the estimated legal costs associated with handling these matters, which could be material.

At December 31, 2017 and 2016 , Generation had recorded estimated liabilities of approximately $78 million and $83 million , respectively, in total for asbestos-related bodily injury claims. As of December 31, 2017 , approximately $21 million of this amount related to 230 open claims presented to Generation, while the remaining $57 million is for estimated future asbestos-related bodily injury claims anticipated to arise through 2050, based on actuarial assumptions and analyses, which are updated on an annual basis. On a quarterly basis, Generation monitors actual experience against the number of forecasted claims to be received and expected claim payments and evaluates whether adjustments to the estimated liabilities are necessary.

On November 22, 2013, the Supreme Court of Pennsylvania held that the Pennsylvania Workers Compensation Act does not apply to an employee's disability or death resulting from occupational disease, such as diseases related to asbestos exposure, which manifests more than 300 weeks after the employee's last employment-based exposure, and that therefore the exclusivity provision of the Act does not preclude such employee from suing his or her employer in court. The Supreme Court's ruling reverses previous rulings by the Pennsylvania Superior Court precluding current and former employees from suing their employers in court, despite the fact that the same employee was not eligible for workers compensation benefits for diseases that manifest more than 300 weeks after the employee's last employment-based exposure to asbestos. Since the Pennsylvania Supreme Court's ruling in November 2013, Exelon, Generation, and PECO have experienced an increase in asbestos-related personal injury claims brought by former PECO employees, all of which have been accrued for on a claim by claim basis. Those additional claims are taken into account in projecting estimated future asbestos-related bodily injury claims.

On November 4, 2015, the Illinois Supreme Court found that the provisions of the Illinois' Workers' Compensation Act and the Workers' Occupational Diseases Act barred an employee from bringing a

direct civil action against an employer for latent diseases, including asbestos-related diseases that fall outside the 25-year limit of the statute of repose. The Illinois Supreme Court's ruling reversed previous rulings by the Illinois Court of Appeals, which initially ruled that the Illinois Worker's Compensation law should not apply in cases where the diagnosis of an asbestos related disease occurred after the 25-year maximum time period for filing a Worker's Compensation claim. As a result of this ruling, Exelon, Generation, and ComEd have not recorded an increase to the asbestos-related bodily injury liability as of December 31, 2017 .

There is a reasonable possibility that Exelon may have additional exposure to estimated future asbestos-related bodily injury claims in excess of the amount accrued and the increases could have a material unfavorable impact on Exelon's, Generation's and PECO's financial conditions, results of operations and cash flows.

Fund Transfer Restrictions (Exelon, Generation, ComEd, PECO, BGE, Pepco, DPL and ACE)

Under applicable law, Exelon may borrow or receive an extension of credit from its subsidiaries. Under the terms of Exelon's intercompany money pool agreement, Exelon can lend to, but not borrow from the money pool.

The Federal Power Act declares it to be unlawful for any officer or director of any public utility "to participate in the making or paying of any dividends of such public utility from any funds properly included in capital account." What constitutes "funds properly included in capital account" is undefined in the Federal Power Act or the related regulations; however, FERC has consistently interpreted the provision to allow dividends to be paid as long as: (1) the source of the dividends is clearly disclosed; (2) the dividend is not excessive; and (3) there is no self-dealing on the part of corporate officials. While these restrictions may limit the absolute amount of dividends that a particular subsidiary may pay, Exelon does not believe these limitations are materially limiting because, under these limitations, the subsidiaries are allowed to pay dividends sufficient to meet Exelon's actual cash needs.

Under Illinois law, ComEd may not pay any dividend on its stock unless, among other things, "[its] earnings and earned surplus are sufficient to declare and pay same after provision is made for reasonable and proper reserves," or unless it has specific authorization from the ICC. ComEd has also agreed in connection with financings arranged through ComEd Financing III that it will not declare dividends on any shares of its capital stock in the event that: (1) it exercises its right to extend the interest payment periods on the subordinated debt securities issued to ComEd Financing III; (2) it defaults on its guarantee of the payment of distributions on the preferred trust securities of ComEd Financing III; or (3) an event of default occurs under the Indenture under which the subordinated debt securities are issued.

PECO's Articles of Incorporation prohibit payment of any dividend on, or other distribution to the holders of, common stock if, after giving effect thereto, the capital of PECO represented by its common stock together with its retained earnings is, in the aggregate, less than the involuntary liquidating value of its then outstanding preferred securities. On May 1, 2013, PECO redeemed all outstanding preferred securities. As a result, the above ratio calculation is no longer applicable. Additionally, PECO may not declare dividends on any shares of its capital stock in the event that: (1) it exercises its right to extend the interest payment periods on the subordinated debentures, which were issued to PEC L.P. or PECO Trust IV; (2) it defaults on its guarantee of the payment of distributions on the Series D Preferred Securities of PEC L.P. or the preferred trust securities of PECO Trust IV; or (3) an event of default occurs under the Indenture under which the subordinated debentures are issued.

BGE is subject to certain dividend restrictions established by the MDPSC. First, BGE was prohibited from paying a dividend on its common shares through the end of 2014. Second, BGE is prohibited from paying a dividend on its common shares if (a) after the dividend payment, BGE's equity ratio would be below 48% as calculated pursuant to the MDPSC's ratemaking precedents or (b) BGE's senior unsecured credit rating is rated by two of the three major credit rating agencies below investment grade. Finally,

BGE must notify the MDPSC that it intends to declare a dividend on its common shares at least 30 days before such a dividend is paid.

Pepco is subject to certain dividend restrictions established by settlements approved in Maryland and the District of Columbia. Pepco is prohibited from paying a dividend on its common shares if (a) after the dividend payment, Pepco's equity ratio would be 48% as equity levels are calculated under the ratemaking precedents of the commissions and the Board or (b) Pepco's senior unsecured credit rating is rated by one of the three major credit rating agencies below investment grade.

DPL is subject to certain dividend restrictions established by settlements approved in Delaware and Maryland. DPL is prohibited from paying a dividend on its common shares if (a) after the dividend payment, DPL's equity ratio would be 48% as equity levels are calculated under the ratemaking precedents of the commissions and the Board or (b) DPL's senior unsecured credit rating is rated by one of the three major credit rating agencies below investment grade.

ACE is subject to certain dividend restrictions established by settlements approved in New Jersey. ACE is prohibited from paying a dividend on its common shares if (a) after the dividend payment, ACE's equity ratio would be 48% as equity levels are calculated under the ratemaking precedents of the commissions and the Board or (b) ACE's senior unsecured credit rating is rated by one of the three major credit rating agencies below investment grade.

Conduit Lease with City of Baltimore

On September 23, 2015, the Baltimore City Board of Estimates approved an increase in annual rental fees for access to the Baltimore City underground conduit system effective November 1, 2015, from $12 million to $42 million , subject to an annual increase thereafter based on the Consumer Price Index. BGE subsequently entered into litigation with the City regarding the amount of and basis for establishing the conduit fee. On November 30, 2016, the Baltimore City Board of Estimates approved a settlement agreement entered into between BGE and the City to resolve the disputes and pending litigation related to BGE's use of and payment for the underground conduit system. As a result of the settlement, the parties have entered into a six-year lease that reduces the annual expense to $25 million in the first three years and caps the annual expense in the last three years to not more than $29 million . BGE recorded a decrease to Operating and maintenance expense in the fourth quarter of 2016 of approximately $28 million for the reversal of the previously higher fees accrued as well as the settlement of prior year disputed fee true-up amounts.

Deere Wind Energy Assets

In 2013, Deere & Company (Deere) filed a lawsuit against Generation in the Delaware Superior Court relating to Generation's acquisition of the Deere wind energy assets. Under the purchase agreement, Deere was entitled to receive earn-out payments if certain specific wind projects already under development in Michigan met certain development and construction milestones following the sale. In the complaint, Deere sought to recover a $ 14 million earn-out payment associated with one such project, which was never completed. On June 2, 2016, the Delaware Superior Court entered summary judgment in favor of Deere. As a result, in the second quarter of 2016, Generation increased its accrued liability to $14 million . On January 17, 2017, Generation filed an appeal with the Delaware Supreme Court. On December 18, 2017, the Delaware Supreme Court reversed the Superior Court decision and entered final judgment in favor of Generation. As a result, in the fourth quarter of 2017, Generation reversed its previously established liability of $14 million .

City of Everett Tax Increment Financing Agreement (Exelon)

On April 10, 2017, the City of Everett petitioned the Massachusetts Economic Assistance Coordinating Council (EACC) to revoke the 1999 tax increment financing agreement (TIF Agreement)

relating to Mystic 8 & 9 on the grounds that the total investment in Mystic 8 & 9 materially deviates from the investment set forth in the TIF Agreement. On October 31, 2017, a three-member panel of the EACC conducted an administrative hearing on the City's petition. On November 30, 2017, the hearing panel issued a tentative decision denying the City's petition, finding that there was no material misrepresentation that would justify revocation of the TIF Agreement. On December 13, 2017, the tentative decision was adopted by the full EACC. On January 12, 2018, the City filed a complaint in Massachusetts Superior Court requesting, among other things, that the court set aside the EACC's decision, grant the City's request to decertify the Project and the TIF Agreement, and award the City damages for alleged underpaid taxes over the period of the TIF Agreement. Generation vigorously contested the City's claims before the EACC and will continue to do so in the Massachusetts Superior Court proceeding. Generation continues to believe that the City's claim lacks merit. Accordingly, Generation has not recorded a liability for payment resulting from such a revocation, nor can Generation estimate a reasonably possible range of loss, if any, associated with any such revocation. Further, it is reasonably possible that property taxes assessed in future periods, including those following the expiration of the current TIF Agreement in 2019, could be material to Generation's results of operations and cash flows.

General

The Registrants are involved in various other litigation matters that are being defended and handled in the ordinary course of business. The assessment of whether a loss is probable or a reasonable possibility, and whether the loss or a range of loss is estimable, often involves a series of complex judgments about future events. The Registrants maintain accruals for such losses that are probable of being incurred and subject to reasonable estimation. Management is sometimes unable to estimate an amount or range of reasonably possible loss, particularly where (1) the damages sought are indeterminate, (2) the proceedings are in the early stages, or (3) the matters involve novel or unsettled legal theories. In such cases, there is considerable uncertainty regarding the timing or ultimate resolution of such matters, including a possible eventual loss.

Income Taxes

See Note 14 — Income Taxes for information regarding the Registrants' income tax refund claims and certain tax positions, including the 1999 sale of fossil-generating assets.

24 . Supplemental Financial Information (All Registrants)

Supplemental Statement of Operations Information

The following tables provide additional information about the Registrants' Consolidated Statements of Operations and Comprehensive Income for the years ended December 31, 2017 , 2016 and 2015 .

	For the year ended December 31, 2017

Other, net	$ (46)	$ (60)	$ 21	$ 5	$ 18	$ 88	$ 28	$ 10	$ 3

(a) Includes investment income and realized gains and losses on sales of investments within the nuclear decommissioning trust funds.
(b) Includes the elimination of NDT fund activity for the Regulatory Agreement Units, including the elimination of net income taxes related to all NDT fund activity for those units. See Note 15 — Asset Retirement Obligations for additional information regarding the accounting for nuclear decommissioning.
(c) See Note 14 — Income Taxes for discussion of the penalty related to the Tax Court's decision on Exelon's like-kind exchange tax position.
(d) In January 2015, in connection with Generation's $750 million issuance of five-year Senior Unsecured Notes, Exelon terminated certain floating-to-fixed interest rate swaps. As the original forecasted transactions were a series of future interest payments over a ten-year period, a portion of the anticipated interest payments are probable not to occur. As a result, $26 million of anticipated payments were reclassified from AOCI to Other, net in Exelon's Consolidated Statements of Operations and Comprehensive Income.
(e) See Note 13 — Debt and Credit Agreements and Note 4 — Mergers, Acquisitions and Dispositions for additional information on the PHI merger related debt exchange.

(a) Primarily includes accrued payroll, bonuses and other incentives, vacation and benefits.

25 . Segment Information (All Registrants)

Operating segments for each of the Registrants are determined based on information used by the chief operating decision maker(s) (CODM) in deciding how to evaluate performance and allocate resources at each of the Registrants.

In the first quarter of 2016, following the consummation of the PHI Merger, three new reportable segments were added: Pepco, DPL and ACE. As a result, Exelon has twelve reportable segments, which include ComEd, PECO, BGE, PHI's three reportable segments consisting of Pepco, DPL, and ACE, and Generation's six reportable segments consisting of the Mid-Atlantic, Midwest, New England, New York, ERCOT and all other power regions referred to collectively as "Other Power Regions", which includes activities in the South, West and Canada. ComEd, PECO, BGE, Pepco, DPL and ACE each represent a single reportable segment, and as such, no separate segment information is provided for these Registrants. Exelon, ComEd, PECO, BGE, Pepco, DPL and ACE's CODMs evaluate the performance of and allocate resources to ComEd, PECO, BGE, Pepco, DPL and ACE based on net income and return on equity.

Effective with the consummation of the PHI Merger, PHI's reportable segments have changed based on the information used by the CODM to evaluate performance and allocate resources. PHI's reportable segments consist of Pepco, DPL and ACE. PHI's Predecessor periods' segment information was recast in 2016 to conform to the current Exelon presentation. The reclassification of the segment information did not impact PHI's reported consolidated revenues or net income. PHI's CODM evaluates the

S1-SSA-0009 - 16754

performance of and allocates resources to Pepco, DPL and ACE based on net income and return on equity.

The basis for Generation's reportable segments is the integrated management of its electricity business that is located in different geographic regions, and largely representative of the footprints of ISO/RTO and/or NERC regions, which utilize multiple supply sources to provide electricity through various distribution channels (wholesale and retail). Generation's hedging strategies and risk metrics are also aligned to these same geographic regions. Descriptions of each of Generation's six reportable segments are as follows:

- Mid-Atlantic represents operations in the eastern half of PJM, which includes New Jersey, Maryland, Virginia, West Virginia, Delaware, the District of Columbia and parts of Pennsylvania and North Carolina.
- Midwest represents operations in the western half of PJM, which includes portions of Illinois, Pennsylvania, Indiana, Ohio, Michigan, Kentucky and Tennessee, and the United States footprint of MISO, excluding MISO's Southern Region, which covers all or most of North Dakota, South Dakota, Nebraska, Minnesota, Iowa, Wisconsin, the remaining parts of Illinois, Indiana, Michigan and Ohio not covered by PJM, and parts of Montana, Missouri and Kentucky.
- New England represents the operations within ISO-NE covering the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.
- New York represents operations within ISO-NY, which covers the state of New York in its entirety.
- ERCOT represents operations within Electric Reliability Council of Texas, covering most of the state of Texas.
- Other Power Regions :
  - South represents operations in the FRCC, MISO's Southern Region, and the remaining portions of the SERC not included within MISO or PJM, which includes all or most of Florida, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, North Carolina, South Carolina and parts of Missouri, Kentucky and Texas. Generation's South region also includes operations in the SPP, covering Kansas, Oklahoma, most of Nebraska and parts of New Mexico, Texas, Louisiana, Missouri, Mississippi and Arkansas.
  - West represents operations in the WECC, which includes California ISO, and covers the states of California, Oregon, Washington, Arizona, Nevada, Utah, Idaho, Colorado and parts of New Mexico, Wyoming and South Dakota.
  - Canada represents operations across the entire country of Canada and includes AESO, OIESO and the Canadian portion of MISO.

The CODMs for Exelon and Generation evaluate the performance of Generation's electric business activities and allocate resources based on revenues net of purchased power and fuel expense (RNF). Generation believes that RNF is a useful measurement of operational performance. RNF is not a presentation defined under GAAP and may not be comparable to other companies' presentations or deemed more useful than the GAAP information provided elsewhere in this report. Generation's operating revenues include all sales to third parties and affiliated sales to the Utility Registrants. Purchased power costs include all costs associated with the procurement and supply of electricity including capacity, energy and ancillary services. Fuel expense includes the fuel costs for Generation's owned generation and fuel costs associated with tolling agreements. The results of Generation's other business activities are not regularly reviewed by the CODM and are therefore not classified as operating segments or included in

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

the regional reportable segment amounts. These activities include natural gas, as well as other miscellaneous business activities that are not significant to Generation's overall operating revenues or results of operations. Further, Generation's unrealized mark-to-market gains and losses on economic hedging activities and its amortization of certain intangible assets and liabilities relating to commodity contracts recorded at fair value from mergers and acquisitions are also excluded from the regional reportable segment amounts. Exelon and Generation do not use a measure of total assets in making decisions regarding allocating resources to or assessing the performance of these reportable segments.

An analysis and reconciliation of the Registrants' reportable segment information to the respective information in the consolidated financial statements for the years ended December 31, 2017 , 2016 , and 2015 is as follows:

					Successor

(a) Generation includes the six reportable segments shown below: Mid-Atlantic, Midwest, New England, New York, ERCOT and Other Power Regions. For the year ended December 31, 2017 , intersegment revenues for Generation include revenue from sales to PECO of $138 million , sales to BGE of $388 million , sales to Pepco of $255 million , sales to DPL of $179 million and sales to ACE of $29 million in the Mid-Atlantic region, and sales to ComEd of $121 million in the Midwest region, which eliminate upon consolidation. For the year ended December 31, 2016 , intersegment revenues for Generation include revenue from sales to PECO of $ 290 million and sales to BGE of $ 608 million in the Mid-Atlantic region, and sales to ComEd of $ 47 million in the Midwest region, which eliminate upon consolidation. For the Successor period of March 24, 2016 to December 31, 2016, intersegment revenues for Generation include revenue from sales to Pepco of $295 million , sales to DPL of $154 million and sales to ACE of $37 million in the Mid-Atlantic region, which eliminate upon consolidation. For the year ended December 31, 2015 , intersegment revenues for Generation include revenue from sales to PECO of $224 million and sales to BGE of $502 million in the Mid-Atlantic region, and sales to ComEd of $18 million in the Midwest region, which eliminate upon consolidation.
(b) Other primarily includes Exelon's corporate operations, shared service entities and other financing and investment activities.
(c) Includes gross utility tax receipts from customers. The offsetting remittance of utility taxes to the governing bodies is recorded in expenses on the Registrants' Consolidated Statements of Operations and Comprehensive Income. See Note 24 — Supplemental Financial Information for total utility taxes for the years ended December 31, 2017 , 2016 and 2015 .
(d) Intersegment revenues exclude sales to unconsolidated affiliates. The intersegment profit associated with Generation's sale of certain products and services by and between Exelon's segments is not eliminated in consolidation due to the recognition of intersegment profit in accordance with regulatory accounting guidance. For Exelon, these amounts are included in operating revenues in the Consolidated Statements of Operations and Comprehensive Income.
(e) Amounts included represent activity for PHI's successor period, March 24, 2016 through December 31, 2017 . PHI includes the three reportable segments: Pepco, DPL and ACE. See tables below for PHI's predecessor periods, including Pepco, DPL and ACE, for January 1, 2016 to March 23, 2016 and for the year ended December 31, 2015 .

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

(a) Generation has an ICC-approved RFP contract with ComEd to provide a portion of ComEd's electricity supply requirements. Generation also sells RECs to ComEd. In addition, Generation had revenue from ComEd associated with the settled portion of the financial swap contract established as part of the Illinois Settlement. See Note 3 — Regulatory Matters for additional information.
(b) Generation provides electric supply to PECO under contracts executed through PECO's competitive procurement process. In addition, Generation has a ten-year agreement with PECO to sell solar AECs. See Note 3 — Regulatory Matters for additional information.
(c) Generation provides a portion of BGE's energy requirements under its MDPSC-approved market-based SOS and gas commodity programs. See Note 3 — Regulatory Matters for additional information.
(d) Generation provides electric supply to Pepco under contracts executed through Pepco's competitive procurement process approved by the MDPSC and DCPSC. See Note 3 — Regulatory Matters for additional information.
(e) Generation provides a portion of DPL's energy requirements under its MDPSC and DPSC approved market based SOS and gas commodity programs. See Note 3 — Regulatory Matters for additional information.
(f) Generation provides electric supply to ACE under contracts executed through ACE's competitive procurement process. See Note 3 — Regulatory Matters for additional information.
(g) Generation requires electricity for its own use at its generating stations. Generation purchases electricity and distribution and transmission services from PECO and BGE and only distribution and transmission services from ComEd for the delivery of electricity to its generating stations.
(h) Generation receives a variety of corporate support services from BSC and PHISCO, including legal, human resources, financial, information technology and supply management services. All services are provided at cost, including applicable overhead. A portion of such services is capitalized.
(i) The balance consists of interest owed to Exelon Corporation related to the senior unsecured notes, as well as, expense related to certain invoices Exelon Corporation processed on behalf of Generation.
(j) Generation has long-term payables to ComEd and PECO as a result of the nuclear decommissioning contractual construct whereby, to the extent NDT funds are greater than the underlying ARO at the end of decommissioning, such amounts are due back to ComEd and PECO, as applicable, for payment to their respective customers. See Note 15 — Asset Retirement Obligations .
(k) In connection with the debt obligations assumed by Exelon as part of the Constellation merger, Exelon and subsidiaries of Generation (former Constellation subsidiaries) assumed intercompany loan agreements that mirror the terms and amounts of the third-party debt obligations of Exelon, resulting in intercompany notes payable included in Long-term Debt to affiliate on Generation's Consolidated Balance Sheets and intercompany notes receivable at Exelon Corporate, which are eliminated in consolidation on Exelon's Consolidated Balance Sheets.

ComEd

The financial statements of ComEd include related party transactions as presented in the tables below:

	For the Years Ended December 31,		
	2017	2016	2015
Operating revenues from affiliates			
Generation	$ 9	$ 7	$ 4
BSC	6	6	—
PECO	—	1	—
BGE	—	1	—

Voluntary employee beneficiary association trust	$ 1	$ 2
Generation	12	9
Exelon Corporate [d]	—	345
Total receivable from affiliates (current)	$ 13	$ 356
Receivable from affiliates (noncurrent):		
Generation [e]	$ 2,528	$ 2,169
Other	—	1
Total receivable from affiliates (noncurrent)	$ 2,528	$ 2,170
Payables to affiliates (current):		
Generation [a]	$ 28	$ 14
BSC [b]	39	42
ComEd Financing III	4	4
PECO	—	2
Exelon Corporate	3	3
Total payables to affiliates (current)	$ 74	$ 65
Long-term debt to ComEd financing trust		
ComEd Financing III	$ 205	$ 205

(a) ComEd procures a portion of its electricity supply requirements from Generation under an ICC-approved RFP contract. ComEd also purchases RECs from Generation. In addition, purchased power expense includes the settled portion of the financial swap contract with Generation, which expired in 2013. See Note 3 — Regulatory Matters and Note 12 — Derivative Financial Instruments for additional information.
(b) ComEd receives a variety of corporate support services from BSC, including legal, human resources, financial, information technology and supply management services. All services are provided at cost, including applicable overhead. A portion of such services is capitalized.
(c) The voluntary employee benefit association trusts covering active employees are included in corporate operations and are funded by the Registrants. A prepayment to the active welfare plans has accumulated due to actuarially determined contribution rates, which are the basis for ComEd's contributions to the plans, being higher than actual claim expense incurred by the plans over time. The prepayment is included in other current assets.
(d) Represents indemnification from Exelon Corporate related to the like-kind exchange.
(e) ComEd has a long-term receivable from Generation as a result of the nuclear decommissioning contractual construct for generating facilities previously owned by ComEd. To the extent the assets associated with decommissioning are greater than the applicable ARO at the end of decommissioning, such amounts are due back to ComEd for payment to ComEd's customers.

28 . Subsequent Events (Exelon, Generation and ComEd)

Illinois ZEC Procurement

On January 25, 2018, the ICC announced that Generation's Clinton Unit 1, Quad Cities Unit 1 and Quad Cities Unit 2 nuclear plants were selected as the winning bidders through the IPA's ZEC procurement event. Generation executed the ZEC procurement contracts with Illinois utilities, including

Combined Notes to Consolidated Financial Statements - (Continued)
(Dollars in millions, except per share data unless otherwise noted)

ComEd, effective January 26, 2018 and will begin recognizing revenue. Winning bidders will be entitled to compensation for the sale of ZECs retroactive to the June 1, 2017 effective date of FEJA. In the first quarter of 2018, Generation will recognize approximately $150 million of revenue and ComEd will record an obligation to Generation and corresponding reduction to its regulatory liability of approximately $100 million related to ZECs generated from June 1, 2017 through December 31, 2017.

Early Retirement of Oyster Creek Generating Station

On February 2, 2018, Exelon announced that Generation will permanently cease generation operations at Oyster Creek at the end of its current operating cycle in October 2018. In 2010, Generation announced that Oyster Creek would retire by the end of 2019 as part of an agreement with the State of New Jersey to avoid significant costs associated with the construction of cooling towers to meet the State's then new environmental regulations. Since then, like other nuclear sites, Oyster Creek has continued to face rising operating costs amid a historically low wholesale power price environment. The decision to retire Oyster Creek in 2018 at the end of its current operating cycle involved consideration of several factors, including economic and operating efficiencies, and avoids a refueling outage scheduled for the fall of 2018 that would have required advanced purchasing of fuel fabrication and materials beginning in late February 2018.

Because of the decision to retire Oyster Creek in 2018, Exelon and Generation will recognize certain one-time charges in the first quarter of 2018 ranging from an estimated $25 million to $35 million (pre-tax) related to a materials and supplies inventory reserve adjustment, employee-related costs, and construction work-in-progress impairment, among other items. Estimated cash expenditures related to the one-time charges primarily for employee-related costs are expected to range from $5 million to $10 million.

In addition to these one-time charges, there will be financial impacts stemming from shortening the expected economic useful life of Oyster Creek primarily related to accelerated depreciation of plant assets (including any ARC), accelerated amortization of nuclear fuel, and additional ARO accretion expense associated with the changes in decommissioning timing and cost assumptions to reflect an earlier retirement date. The following table summarizes the estimated amount of expected incremental non-cash expense items expected to be incurred in 2018 because of the early retirement decision.

	Projected [b]
Income statement expense (pre-tax)	2018
Depreciation and Amortization	
Accelerated depreciation [a]	$110 to $140
Accelerated nuclear fuel amortization	$40
Operating and Maintenance	
Increased ARO accretion	Up to $5

(a) Includes the accelerated depreciation of plant assets including any ARC.
(b) Actual results may differ based on incremental future capital additions, actual units of production for nuclear fuel amortization, future revised ARO assumptions, etc.

S1-SSA-0009 - 16779

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

All Registrants

None.

ITEM 9A. CONTROLS AND PROCEDURES

All Registrants—Disclosure Controls and Procedures

During the fourth quarter of 2017 , each registrant's management, including its principal executive officer and principal financial officer, evaluated the effectiveness of that registrant's disclosure controls and procedures related to the recording, processing, summarizing and reporting of information in that registrant's periodic reports that it files with the SEC. These disclosure controls and procedures have been designed by each registrant to ensure that (a) information relating to that registrant, including its consolidated subsidiaries, that is required to be included in filings under the Securities Exchange Act of 1934, is accumulated and made known to that registrant's management, including its principal executive officer and principal financial officer, by other employees of that registrant and its subsidiaries as appropriate to allow timely decisions regarding required disclosure, and (b) this information is recorded, processed, summarized, evaluated and reported, as applicable, within the time periods specified in the SEC's rules and forms. Due to the inherent limitations of control systems, not all misstatements may be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls could be circumvented by the individual acts of some persons or by collusion of two or more people.

Accordingly, as of December 31, 2017 , the principal executive officer and principal financial officer of each registrant concluded that such registrant's disclosure controls and procedures were effective to accomplish their objectives.

All Registrants—Changes in Internal Control Over Financial Reporting

Each registrant continually strives to improve its disclosure controls and procedures to enhance the quality of its financial reporting and to maintain dynamic systems that change as conditions warrant. However, there have been no changes in internal control over financial reporting that occurred during the fourth quarter of 2017 that have materially affected, or are reasonably likely to materially affect, any of the registrant's internal control over financial reporting.

All Registrants—Internal Control Over Financial Reporting

Management is required to assess and report on the effectiveness of its internal control over financial reporting as of December 31, 2017 . As a result of that assessment, management determined that there were no material weaknesses as of December 31, 2017 and, therefore, concluded that each registrant's internal control over financial reporting was effective. Management's Report on Internal Control Over Financial Reporting is included in ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA .

ITEM 9B. OTHER INFORMATION

All Registrants

None.

PART III

Exelon Generation Company, LLC, PECO Energy Company, Baltimore Gas and Electric Company, Pepco Holdings LLC, Potomac Electric Power Company, Delmarva Power & Light Company and Atlantic City Electric Company meet the conditions set forth in General Instruction I(1)(a) and (b) of Form 10-K for a reduced disclosure format. Accordingly, all items in this section relating to Generation, PECO, BGE, PHI, Pepco, DPL and ACE are not presented.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Executive Officers

The information required by ITEM 10 relating to executive officers is set forth above in ITEM 1. BUSINESS—Executive Officers of the Registrants at February 9, 2018 .

Directors, Director Nomination Process and Audit Committee

The information required under ITEM 10 concerning directors and nominees for election as directors at the annual meeting of shareholders (Item 401 of Regulation S-K), the director nomination process (Item 407(c)(3)), the audit committee (Item 407(d)(4) and (d)(5)) and the beneficial reporting compliance (Sec. 16(a)) is incorporated herein by reference to information to be contained in Exelon's definitive 2018 proxy statement (2018 Exelon Proxy Statement) and the ComEd information statement (2018 ComEd Information Statement) to be filed with the SEC before April 29, 2018 pursuant to Regulation 14A or 14C, as applicable, under the Securities Exchange Act of 1934.

Code of Ethics

Exelon's Code of Business Conduct is the code of ethics that applies to Exelon's and ComEd's Chief Executive Officer, Chief Financial Officer, Corporate Controller, and other finance organization employees. The Code of Business Conduct is filed as Exhibit 14 to this report and is available on Exelon's website at *www.exeloncorp.com* . The Code of Business Conduct will be made available, without charge, in print to any shareholder who requests such document from Carter C. Culver, Senior Vice President and Deputy General Counsel, Exelon Corporation, P.O. Box 805398, Chicago, Illinois 60680-5398.

If any substantive amendments to the Code of Business Conduct are made or any waivers are granted, including any implicit waiver, from a provision of the Code of Business Conduct, to its Chief Executive Officer, Chief Financial Officer or Corporate Controller, Exelon will disclose the nature of such amendment or waiver on Exelon's website, *www.exeloncorp.com* , or in a report on Form 8-K.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item will be set forth under *Executive Compensation Data* and *Report of the Compensation Committee* in the Exelon Proxy Statement for the 2018 Annual Meeting of Shareholders or the ComEd 2018 Information Statement, which are incorporated herein by reference.

S1-SSA-0009 - 16783

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The additional information required by this item will be set forth under *Ownership of Exelon Stock* in the Exelon Proxy Statement for the 2018 Annual Meeting of Shareholders or the ComEd 2018 Information Statement, which are incorporated herein by reference.

Securities Authorized for Issuance under Exelon Equity Compensation Plans

[A] Plan Category	[B] Number of securities to be issued upon exercise of outstanding Options, warrants and rights (Note 1)	[C] Weighted-average price of outstanding Options, warrants and rights (Note 2)	[D] Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column [B]) (Note 3)
Equity compensation plans approved by security holders	21,755,400	$ 28.13	23,634,900

(1) Balance includes stock options, unvested performance shares, and unvested restricted shares granted under the Exelon LTIP or predecessor company plans including shares awarded under those plans and deferred into the stock deferral plan, and deferred stock units granted to directors as part of their compensation. For performance shares granted in 2015, 2016 and 2017 , the total includes the number of shares that could be granted, if the performance and total shareholder return modifier metrics were both at maximum, representing a total of 9,546,000 shares. If the performance and total shareholder return modifier metrics were at target, the number of securities to be issued for such awards would be 4,773,000 . The deferred stock units granted to directors includes 384,900 shares to be issued upon the conversion of deferred stock units awarded to members of the Exelon Board of Directors, and 109,200 shares to be issued upon the conversion of stock units held by members of the Exelon Board of Directors that were earned under a legacy Constellation Energy Group plan. Conversion of the deferred stock units to shares will occur after the director terminates service to the Exelon board or the board of any of its subsidiary companies. See Note 20 — Stock-Based Compensation Plans of the Combined Notes to Consolidated Financial Statements for additional information about the material features of the plans.

(2) Includes outstanding restricted stock units and performance shares that can be exercised for no consideration. Without such instruments, the weighted-average price of outstanding options, warrants and rights shown in column [C] would be $47.69 .

(3) Includes 19,737,600 shares available for issuance from the company's employee stock purchase plan.

No ComEd securities are authorized for issuance under equity compensation plans.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The additional information required by this item will be set forth under *Related Persons Transactions* and *Director Independence* in the Exelon Proxy Statement for the 2018 Annual Meeting of Shareholders or the ComEd 2018 Information Statement, which are incorporated herein by reference.

S1-SSA-0009 - 16785

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this item will be set forth under *The Ratification of PricewaterhouseCoopers LLP as Exelon's Independent Accountant for 2018* in the Exelon Proxy Statement for the 2018 Annual Meeting of Shareholders and the ComEd 2018 Information Statement, which are incorporated herein by reference.

S1-SSA-0009 - 16786

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) The following documents are filed as a part of this report:

Exelon

1. Financial Statements:

   Report of Independent Registered Public Accounting Firm dated February 9, 2018 of PricewaterhouseCoopers LLP

   Consolidated Statements of Operations and Comprehensive Income for the Years Ended December 31, 2017, 2016 and 2015

   Consolidated Statements of Cash Flows for the Years Ended December 31, 2017, 2016 and 2015

   Consolidated Balance Sheets at December 31, 2017 and 2016

   Consolidated Statements of Changes in Equity for the Years Ended December 31, 2017, 2016 and 2015

   Notes to Consolidated Financial Statements

2. Financial Statement Schedules:

   Schedule I—Condensed Financial Information of Parent (Exelon Corporate) at December 31, 2017 and 2016 and for the Years Ended December 31, 2017, 2016 and 2015

   Schedule II—Valuation and Qualifying Accounts

   Schedules not included are omitted because of the absence of conditions under which they are required or because the required information is provided in the consolidated financial statements, including the notes thereto.

Exelon Corporation and Subsidiary Companies
Schedule I – Condensed Financial Information of Parent (Exelon Corporate)
Notes to Financial Statements

1. Basis of Presentation

Exelon Corporate is a holding company that conducts substantially all of its business operations through its subsidiaries. These condensed financial statements and related footnotes have been prepared in accordance with Rule 12-04, Schedule I of Regulation S-X. These statements should be read in conjunction with the consolidated financial statements and notes thereto of Exelon Corporation.

Exelon Corporate owns 100% of all of its significant subsidiaries, either directly or indirectly, except for Commonwealth Edison Company (ComEd), of which Exelon Corporate owns more than 99% , and BGE, of which Exelon owns 100% of the common stock but none of BGE's preferred stock. BGE redeemed all of its outstanding preferred stock in 2016.

2. Mergers

On March 23, 2016, Exelon completed the merger contemplated by the Merger Agreement among Exelon, Purple Acquisition Corp., a wholly owned subsidiary of Exelon (Merger Sub) and Pepco Holdings, Inc. (PHI). As a result of that merger, Merger Sub was merged into PHI (the PHI Merger) with PHI surviving as a wholly owned subsidiary of Exelon and Exelon Energy Delivery Company, LLC (EEDC), a wholly owned subsidiary of Exelon which also owns Exelon's interests in ComEd, PECO and BGE (through a special purpose subsidiary in the case of BGE). See Note 4 — Mergers, Acquisitions and Dispositions of the Combined Notes to Consolidated Financial Statements for additional information on the PHI Merger.

3. Debt and Credit Agreements

Short-Term Borrowings

Exelon Corporate meets its short-term liquidity requirements primarily through the issuance of commercial paper. Exelon Corporate had no commercial paper borrowings at both December 31, 2017 and December 31, 2016 .

Short-Term Loan Agreements

On March 23, 2017, Exelon Corporate entered into a $500 million term loan agreement which expires on March 22, 2018. Pursuant to the loan agreement, loans made thereunder bear interest at a variable rate equal to LIBOR plus 1% and all indebtedness thereunder is unsecured. The loan agreement is reflected in Exelon's Consolidated Balance Sheet within Short-Term borrowings.

Credit Agreements

On May 26, 2016, Exelon Corporate amended and extended its syndicated revolving credit facility with aggregate bank commitments of $600 million through May 26, 2021. As of December 31, 2017 , Exelon Corporation had available capacity under those commitments of $555 million . See Note 13 — Debt and Credit Agreements of the Combined Notes to Consolidated Financial Statements for further information regarding Exelon Corporation's credit agreement.

(a) Exelon Corporate receives a variety of corporate support services from BSC, including legal, human resources, financial, information technology and supply management services. All services are provided at cost, including applicable overhead.
(b) Exelon Energy Delivery Company, LLC consists of ComEd, PECO, BGE, PHI, Pepco, DPL and ACE.
(c) In connection with the debt obligations assumed by Exelon as part of the Constellation merger, Exelon and subsidiaries of Generation (former Constellation subsidiaries) assumed intercompany loan agreements that mirror the terms and amounts of the third-party debt obligations of Exelon, resulting in intercompany notes payable included in Long-Term Debt to affiliate on Generation's Consolidated Balance Sheets and intercompany notes receivable at Exelon Corporate, which are eliminated in consolidation on Exelon's Consolidated Balance Sheets.

CREDIT AGREEMENT dated as of November 28, 2017, (as amended, amended and restated, supplemented or otherwise modified, this " **Agreement** "), a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party hereto from time to time, and MORGAN STANLEY SENIOR FUNDING, INC. (" **MSSF** "), as administrative agent (in such capacity, together with any successor administrative agent appointed pursuant to the provisions of Article VIII , the " **Administrative Agent** "), WILMINGTON TRUST, NATIONAL ASSOCIATION as collateral agent (in such capacity, together with any successor collateral agent appointed pursuant to the provisions of Article VIII , the " **Collateral Agent** ") for the Lenders and WILMINGTON TRUST, NATIONAL ASSOCIATION, as depositary bank (in such capacity, together with any successor depositary bank appointed pursuant to the provisions of Article VIII , the " **Depositary Bank** ").

W I T N E S S E T H :

WHEREAS, the Sponsor (such term and each other capitalized term used in these recitals and not otherwise previously defined, as hereinafter defined) has formed each of the Borrower and Holding;

WHEREAS, Holding owns all of the Equity Interests of the Borrower;

WHEREAS, as of the Closing Date, the Borrower owns (A) all of the Equity Interests in (i) ExGen Renewables Holdings, LLC, a limited liability company organized under the laws of Delaware (" **ExGen Renewables Holdings** "), (ii) SolGen Holding, LLC, a limited liability company organized under the laws of Delaware (" **SolGen Holding** ") and (iii) Exelon AVSR Holding, LLC, a limited liability company organized under the laws of Delaware (" **Exelon AVSR Holding** ") and (B) not less than 50% of the Equity Interests in Constellation DCO Albany Power Holdings, LLC, a limited liability company organized under the laws of Delaware (" **Albany Power Holdings** ");

WHEREAS, ExGen Renewables Holdings owns all of the JV Class A Membership Interests in ExGen Renewables Partners, LLC, a limited liability company organized under the laws of Delaware (" **ExGen Renewables JV** ");

WHEREAS, ExGen Renewables JV, SolGen Holding, Exelon AVSR Holding and Albany Power Holdings own, directly or indirectly, all (or a specified class of) the Equity Interests of each of the other Project Entities, which collectively own or lease the Projects;

WHEREAS, the Borrower has requested that the Lenders extend credit in the form of Loans on the Closing Date, in an aggregate U.S. Dollar amount for all such Loans of U.S. $850 million; and

WHEREAS, the Borrower intends to use the proceeds of the Loans to declare and consummate distributions to the Sponsor and/or its Affiliates and to pay fees and expenses associated with the Transactions.

NOW, THEREFORE, the Lenders are willing to extend such credit to the Borrower on the terms and subject to the conditions set forth herein. Accordingly, the parties hereto agree as follows:

Article I.
DEFINITIONS

Section 1.01 *Defined Terms*. As used in this Agreement, the following terms shall have the meanings specified below:

" **Acceptable Guarantor** " shall mean any Affiliate of the Borrower whose long-term debt is rated BBB- or better by S&P or Baa3 or better by Moody's.

2 " **Acceptable LC Issuer** " shall mean any bank or trust company that is organized under the laws of the United States (or any state or political subdivision thereof) and whose long-term debt, or whose parent holding company's long-term debt, is rated BBB+ or better by S&P and Baa1 or better by Moody's.

3 " **Account Letter of Credit** " shall mean (a) any letter of credit issued under the Revolving Facility, if any, or (b) any irrevocable standby letter of credit, in form and substance reasonably satisfactory to the Administrative Agent, (i) issued by an Acceptable LC Issuer on account of an applicant (which shall not be a Loan Party or a Subsidiary of a Loan Party), (ii) in respect of which no Loan Party or Subsidiary of a Loan Party has any reimbursement obligations or has provided any credit support therefor and (iii) which letter of credit shall name the Collateral Agent (for the benefit of the Secured Parties) as the beneficiary thereunder.

4 " **Additional Albany Green Entities** " shall mean any entities formed in connection with an AG Disposition to a Person other than ExGen Renewables JV.

5 " **Additional Project** " shall have the meaning assigned to such term in the definition of "Permitted Acquisition".

6 " **Additional Project Entity** " shall mean the one or more entities acquired pursuant to a Permitted Acquisition that own, directly and indirectly, all or a portion an Additional Project.

7 " **Administrative Agent** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

8 " **Administrative Agent Fees** " shall have the meaning assigned to such term in Section 2.10(a) .

9 " **Administrative Questionnaire** " shall mean an Administrative Questionnaire in substantially the form of Exhibit J or any other form approved by the Administrative Agent.

10 " **Affiliate** " shall mean, of any specified Person, any other Person who directly, or indirectly through one or more intermediaries, controls or is controlled by or is under common control with such specified Person. For purposes of this definition, "control," as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise. For purposes of this definition, the terms "controlling," "controlled by" and "under common control with" have correlative meanings.

11 " **Affiliated Lender** " shall mean any Person that becomes a Lender that is the Sponsor or an Affiliate of the Sponsor (other than a Loan Party).

12 " **Affiliated Lender Assignment and Acceptance** " shall mean an assignment and acceptance entered into (x) by a Lender, as assignor, and an Affiliated Lender, as assignee or (y) by an Affiliated Lender, as assignor, and any other Eligible Assignee or Affiliated Lender, as assignee, to the extent permitted pursuant to Section 9.04(b) , and, in each case, accepted by the Administrative Agent, in substantially the form of Exhibit A-2 or such other form as shall be approved by the Administrative Agent.

13 " **Agent Parties** " shall have the meaning assigned to such term in Section 9.17(c) .

14 " **Agents** " shall mean the Administrative Agent, the Collateral Agent, the Depositary Bank, the Syndication Agent and the Documentation Agent.

15 " **Aggregate Interests** " shall mean all rights to receive dividends, distributions and other restricted payments as an owner of or member in a Person, and all rights to receive payments as a lender pursuant to a member loan (including the DCO Loan) or a financing arrangement similar to the DCO Loan with the applicable Person or its members.

16 " **Agreement** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

17 " **AG Disposition** " shall have the meaning assigned to such term in Section 6.05(f).

18 " **AG Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A.

19 " **Albany Green Energy** " shall mean Albany Green Energy, LLC, a limited liability company organized under the laws of Georgia.

20 " **Albany Green Entities** " shall mean Albany Power Holdings and Albany Green Energy and, if applicable, any Additional Albany Green Entities.

21 " **Albany Green Project** " shall mean the approximately 50 MW biomass facility owned by Albany Green Energy and listed under the heading "Albany Green Project" in Schedule 1.01D, including the related Project site, and the facilities, structures and improvements erected on the related Project site and all other equipment and property leased or owned by Albany Green Energy and attached to or placed upon the related Project site or used in connection with the operation of the Albany Green Project.

22 " **Albany Power Holdings** " shall have the meaning assigned to such term in the recitals of this Agreement.

23 " **Applicable ECF Percentage** " shall mean (a) for each Quarterly Date occurring in 2018, 2019, 2020 and 2021, 100% and (b) for each Quarterly Date thereafter, 75%.

24 " **Applicable Margin** " shall mean for any day with respect to (a) any LIBOR Loan, 3.00% *per annum* and (b) any Base Rate Loan, 2.00% *per annum* .

25 " **Approved Fund** " shall mean any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in bank loans and similar extensions of credit in the ordinary course and that is administered or managed by a Lender, an Affiliate of a Lender or an entity or an Affiliate of an entity that administers or manages a Lender.

26 " **Anti-Corruption Laws** " shall mean all laws, rules and regulations of any jurisdiction applicable to any Loan Party or any of the Loan Parties' Affiliates from time to time concerning or relating to bribery or corruption.

27 " **Anti-Terrorism Laws** " means (a) the U.S.A. Patriot Act, (b) Executive Order No. 13,224, 66 Fed. Reg. 49,079 (2001), issued by the President of the United States (Executive Order Blocking Property and Prohibiting Transactions with Persons Who Commit, Threaten to Commit or Support Terrorism) (the " **Executive Order** "), and (c) and any other similar legal requirements relating to terrorism or money laundering.

28 " **Assignment and Acceptance** " shall mean an assignment and acceptance entered into by a Lender and an assignee, and accepted by the Administrative Agent, in substantially the form of Exhibit A-1 or such other form as shall be approved by the Administrative Agent.

29 " **Available Cash** " shall mean, for any period, the sum (without duplication) of all amounts the Borrower or Holding actually receive in cash during such period in the form of dividends or similar distributions or fees, whether on account of operations, management or maintenance or otherwise, in each case, from the Project Entities pursuant to payments made in accordance with the Project Level Financing Documents or otherwise; *provided* , that any portion of Available Cash included in the calculation thereof with respect to any Test Quarter shall be included in the calculation of Available Cash for no more than four (4) consecutive Test Quarters.

30 " **AVSR Disposition** " shall have the meaning assigned to such term in Section 6.05(g).

31 " **AVSR Entities** " shall mean Exelon AVSR Holding and the other the entities listed in Part 1 of Schedule 1.01C.

32 " **AVSR Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A.

33 " **AV Solar Project** " shall mean the approximately 242 MW solar powered electrical generation facility owned by the AVSR Entities and listed under the heading "AV Solar Project" in Schedule 1.01D , including the related Project site, and the panels, facilities, structures and improvements erected on the related Project site and all other equipment and property leased or owned by the AVSR Entities and attached to or placed upon the related Project site or used in connection with the operation of the AV Solar Project.

34 " **Bail-In Action** " means the exercise of any Write-down and Conversion Powers by the applicable Resolution Authority.

35 " **Bail-In Legislation** " means in relation to an EEA Member Country that has implemented, or which at any time implements, Article 55 of Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms, the relevant implementing law or regulation as described in the EU Bail-In Legislation Schedule from time to time.

36 " **Bankruptcy Code** " shall mean Title 11 of the United States Code entitled "Bankruptcy," as now and hereafter in effect, or any successor statute.

37 " **Bankruptcy Law** " means the Bankruptcy Code and any other state or federal insolvency, reorganization, moratorium or similar law for the relief of debtors.

38 " **Base Case Model** " shall mean the Sponsor's financial model EGRIV Lender Model (11.15.2017) - Updated, delivered to the Lead Arranger prior to the Closing Date.

39 " **Base Rate** " shall mean, for any day, a rate *per annum* equal to the greatest of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate for such day plus 0.50%, (c) the LIBO Rate for a LIBOR Loan with a one month interest period commencing on such day plus 1.00% and (d) 2.00%. Any change in the Base Rate due to a change in the Prime Rate, the Federal Funds Effective Rate or the LIBO Rate shall be effective as of the opening of business on the day of such change in the Prime Rate, the Federal Funds Effective Rate or the LIBO Rate, respectively.

40 " **Base Rate Borrowing** " shall mean a Borrowing comprised of Base Rate Loans.

41 " **Base Rate Loan** " shall mean any Loan bearing interest at a rate determined by reference to the Base Rate in accordance with the provisions of Article II .

42 " **BIS** " shall mean the U.S. Department of Commerce's Bureau of Industry and Security.

43 " **Bluestem Entities** " shall mean the entities listed in Part 3 of Schedule 1.01C.

44 " **Bluestem Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A.

45 " **Bluestem Project** " shall mean the wind power electric generation project owned by the Bluestem Entities and listed under the heading "Other Projects" in Schedule 1.01D , including the related Project site, and the panels, turbines, facilities, structures and improvements erected on such Project site and all other equipment and property leased or owned by the applicable Bluestem Entities with respect thereto and attached to or placed upon such Project site or used in connection with the operation of such Bluestem Project.

46 " **Board** " shall mean the Board of Governors of the Federal Reserve System of the United States.

47 " **Board of Directors** " shall mean (a) with respect to a corporation, the board of directors of the corporation and any committee thereof duly authorized to act on behalf of such board; (b) with respect to a partnership, the Board of Directors of the general partner of the partnership; (c) with respect to a limited liability company, the manager or managers thereof or any controlling committee of managers or members thereof; and (d) with respect to any other Person, the board or committee of such Person serving a similar function.

48 " **Borrower** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

49 " **Borrower Liquidity Shortfall** " shall have the meaning assigned to such term in Section 2.19(e)(iii) .

50 " **Borrower Materials** " shall have the meaning assigned to such term in Section 9.17(b) .

51 " **Borrowing** " shall mean a group of Loans of a single Type and made on a single date to the Borrower and, in the case of LIBOR Loans, as to which a single Interest Period is in effect.

52 " **Borrowing Request** " shall mean a request by the Borrower in accordance with the terms of Section 2.03 and substantially in the form of Exhibit C .

53 " **Business Day** " shall mean any day that is not a Saturday, Sunday or other day on which commercial banks in New York City are authorized or required by law to remain closed; provided , that with respect to notices and determinations in connection with, and payments of principal and interest on, LIBOR Loans, such day is also a day for trading by and between banks in U.S. Dollar deposits in the interbank eurodollar market.

54 " **Capital Lease Obligations** " of any Person shall mean, at the time any determination is to be made, the amount of the liability in respect of a capital lease that would at that time be required to be capitalized on a balance sheet prepared in accordance with GAAP, and the Stated Maturity thereof shall be the date of the last payment of rent or any other amount due under such lease prior to the first date upon which such lease may be prepaid by the lessee without payment of a penalty.

55 " **Capital Stock** " shall mean:

(a) in the case of a corporation, corporate stock;

(b) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock;

(c) in the case of a partnership or limited liability company, partnership interests (whether general or limited) or membership interests; and

(d) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person, but excluding from all of the foregoing any debt securities convertible into Capital Stock, whether or not such debt securities include any right of participation with Capital Stock.

56 " **Cash and Cash Equivalents** " shall mean:

(a) Marketable securities issued by the U.S. Government and supported by the full faith and credit of the U.S. Treasury, either by statute or an opinion of the Attorney General of the United States;

(b) Marketable debt securities issued by U. S. Government-sponsored enterprises, U. S . Federal agencies, U. S . Federal financing banks, and international institutions whose capital stock has been subscribed for by the United States;

(c) Certificates of Deposit, Time Deposits, and Bankers Acceptances of any bank or trust company incorporated under the laws of the United States or any state, *provided* that, at the date of acquisition, such investment, and/or the commercial paper or other short term debt obligation of such bank or trust company has a short-term credit rating or ratings from Moody's and/or S&P, each at least P-1 or A-1;

(d) Deposit accounts with any bank that is insured by the Federal Deposit Insurance Corporation and whose long-term obligations are rated A3 or better by Moody's and/or A- or better by S&P;

(e) Commercial paper of any corporation incorporated under the laws of the United States or any state thereof which on the date of acquisition is rated by Moody's and/or S&P, *provided* each such credit rating is least P-1 and/or A-1;

(f) Money market mutual funds that are registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended, and operated in accordance with Rule 2a-7 and that at the time of such investment are rated Aaa by Moody's and/or AAAm by S&P, including such funds for which the Trustee or an affiliate provides investment advice or other services;

(g) Tax-exempt variable rate commercial paper, tax-exempt adjustable rate option tender bonds, and other tax-exempt bonds or notes issued by municipalities in the United States, having a short-term rating of "MIG-1" or "VMIG-1" or a long term rating of "AA" (Moody's), or a short-term rating of "A-1" or a long term rating of "AA" (S&P);

(h) Repurchase obligations with a term of not more than thirty days, 102 percent collateralized, for underlying securities of the types described in clauses (i) and (ii) above, entered into with any bank or trust company or its respective affiliate meeting the requirements specified in clause (iii) above; and

(i) Maturities on the above securities shall not exceed 365 days and all rating requirements and/or percentage restrictions are based on the time of purchase.

57 " **Cash Flow Available for Debt Service** " shall mean, as of any date of determination, Available Cash for the Test Period most recently ended as of such date (excluding for the avoidance of doubt, any funds required to be used to prepay the Loans pursuant to Section 2.09(b)) *minus* any Operating Expenses for such Test Period paid (or directed to be paid pursuant to a Withdrawal Certificate) in cash pursuant to Section 2.19(c)(i) during such Test Period.

58 " **Change in Control** " shall mean the consummation of any transaction or series of transactions as a result of which (a) the Sponsor shall cease to own and control of record and beneficially (within the meaning of Rule 13d-5 of the Exchange Act as in effect on the Closing Date), directly or indirectly, at least 51.0% of the voting power of the Voting Stock and economic interests represented by the issued and outstanding Equity Interests of Holding; provided that no Change in Control shall be deemed to have occurred in any circumstance set forth in this clause (a) if (i) each of S&P and Moody's shall have provided a Ratings Reaffirmation after giving effect to such transaction that otherwise would give rise to a Change in Control and (ii) the Person that (directly or indirectly) acquires the Capital Stock of Holding is a direct or indirect owner of one or more renewable electric generating facilities aggregating to at least 300 MW; or (b) Holding shall cease to own and control of record and beneficially (as defined above), directly, 100% of the voting power of the Voting Stock and economic interests represented by the issued and outstanding Equity Interests of the Borrower; or (c) the Borrower shall cease to own and control of record and beneficially (as defined above), directly, (i) with respect to Albany Power Holdings, the percentage of Aggregate Interests in Albany Power Holdings (or such lower percentage as it shall own and control following any AG Disposition) owned and controlled by it on the Closing Date and (ii) in the case of each other Project Holdco, 100% (or such lower percentage as it shall own and control following any AVSR Disposition (in the case of Exelon AVSR Holding) or SolGen Disposition (in the case of SolGen Holding)) of the voting power of the Voting Stock and economic interests represented by the issued and outstanding Equity Interests of such Project Holdco; or (d) either (1) ExGen Renewables Holding shall cease to own and control of record and beneficially (as defined above), directly, 100% of the JV Class A Membership Interests or (2) a Subsidiary of the Sponsor ceases to act as Managing Member (as defined in the ExGen Renewables JV Agreement); provided that no Change in Control shall be deemed to have occurred under this clause (d) so long as ExGen Renewables Holding owns and controls of record and beneficially (as defined above), directly more than 50% of the voting power of the Voting Stock and economic interests represented by the issued and outstanding Equity Interests of ExGen Renewables JV; or (e) Exelon AVSR Holding shall cease to own and control of record and beneficially (as defined above), directly or indirectly, 100% (or such lower percentage as it shall own

and control following any AVSR Disposition) of the voting power of the Voting Stock and economic interests represented by the issued and outstanding Equity Interests of each of the other AVSR Entities.

59 " **Change in Law** " shall mean (a) the adoption or implementation of any treaty, law, rule or regulation after the Closing Date, (b) any change in law, rule or regulation or in the interpretation or application thereof by any Governmental Authority after the Closing Date or (c) compliance by any Lender (or, for purposes of Section 2.13(b) , by any lending office of such Lender or by such Lender's holding company, if any) with any written request, guideline or directive (whether or not having the force of law but if not having the force of law, then being one with which the relevant party would customarily comply) of any Governmental Authority made or issued after the Closing Date; provided , that notwithstanding anything herein to the contrary, (i) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, regulations, guidelines or directives thereunder or issued in connection therewith and (ii) all requests, rules, guidelines or directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or United States or foreign regulatory agencies, in each case, pursuant to Basel III, shall in each case be deemed to be a "Change in Law," regardless of the date enacted, adopted or issued.

60 " **Charges** " shall have the meaning assigned to such term in Section 9.09 .

61 " **Closing Date** " shall mean November 28, 2017, and " **Closing** " shall mean the making of the initial Loans on the Closing Date hereunder.

62 " **Code** " shall mean the Internal Revenue Code of 1986, as amended from time to time (except as otherwise provided herein).

63 " **Collateral** " shall mean all the "Collateral" as defined in any Security Document.

64 " **Collateral Agent** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

65 " **Collateral and Guarantee Requirement** " shall mean the requirement that:

(a) on the Closing Date, the Collateral Agent shall have received from the Borrower a counterpart of the Security Agreement and from Holding and ExGen Renewables Holdings a counterpart of the Pledge Agreement (which shall include a Guarantee of the Obligations of the Borrower), duly executed and delivered on behalf of such Loan Party;

(b) on the Closing Date, the Collateral Agent shall be the beneficiary of a pledge of (i) (x) all the issued and outstanding Equity Interests of the Borrower and each Project Holdco other than Albany Power Holdings and (y) 50% of the issued and outstanding Equity Interests of Albany Power Holdings, and (ii) all the issued and outstanding JV Class A Membership Interests, and the Collateral Agent shall have received all certificates or other instruments (if any) representing such Equity Interests and JV Class A Membership Interests, together with stock powers or other instruments of transfer with respect thereto endorsed in blank or shall have otherwise received a security interest over such Equity Interests satisfactory to the Collateral Agent;

(c) on the Closing Date, the Collateral Agent shall have received from the Borrower, the Collateral Agent and the Depositary Bank a counterpart of a Control Agreement for the Depositary Accounts, in each case, duly executed and delivered on behalf of such Person;

(d) after the Closing Date, (i) to the extent any Loan Party establishes any securities account with the Depositary Bank, the Collateral Agent shall have received from the Borrower and the Depositary

Bank a fully executed Control Agreement for each such securities account and (ii) to the extent the Borrower or any Project Holdco establishes any deposit account with a bank, the Collateral Agent shall have received from the Borrower a fully executed Local Account Control Agreement for each such account, in each case, duly executed and delivered on behalf of such Person and the Depositary Bank or other bank, as applicable, within thirty (30) days of the establishment of such security account or Local Account (or such longer period as may be agreed to by the Administrative Agent in its sole discretion);

(e) with respect to any Equity Interests acquired by any Loan Party after the Closing Date (including, if applicable in the case of an AG Disposition to a Person other than ExGen Renewables JV, Equity Interests directly owned by the Borrower in any Additional Albany Green Entity), within thirty (30) days (or such longer period as may be agreed to by the Administrative Agent in its sole discretion) of such acquisition of Equity Interests, all such outstanding Equity Interests directly owned by a Loan Party shall have been pledged in accordance with the Security Documents, and the Collateral Agent shall have received all certificates or other instruments (if any) representing such Equity Interests, together with stock powers or other instruments of transfer with respect thereto endorsed in blank or shall have otherwise received a security interest over such Equity Interests reasonably satisfactory to the Collateral Agent; and

(f) UCC financing statements naming the applicable Loan Party, as the case may be, as debtor and the Collateral Agent as secured party, in form appropriate for filing as may be necessary to perfect the security interests purported to be created by the Security Documents, covering the applicable Collateral which constitutes personal property (in each case, including any supplements thereto) shall have been filed, registered or recorded or delivered to the Collateral Agent for filing, registration or recording and, as of the Closing Date, Collateral Agent shall have received reasonably satisfactory evidence that all other actions necessary to perfect the security interests purported to be created by the Security Documents have been taken;

provided , that, (x) the Collateral and Guarantee Requirement shall not require the grant of a Lien or provision of a guarantee by any Person over those assets as to which the Administrative Agent and the Collateral Agent shall determine in their reasonable discretion that the costs of obtaining such security interest are excessive in relation to the value of the security to be afforded thereby, and (y) no asset in respect of which a Lien has been granted to the Collateral Agent for the benefit of the Secured Parties shall be subject to any other Lien except for any Lien permitted under Section 6.02 .

66 " **Commitments** " shall mean, with respect to any Lender, the amount set forth on Schedule 2.01 under the heading Commitment. The aggregate amount of the Commitments on the Closing Date is U.S. $850 million.

67 " **Commodity Exchange Act** " shall mean the Commodity Exchange Act (7. U.S.C. §§ 1 *et seq* .), as amended from time to time, and any successor statute.

68 " **Commodity Hedge Agreement** " shall mean any agreement (including each confirmation entered into pursuant to any master agreement) providing for any swap, cap, collar, put, call, floor, future, option, spot, forward, power purchase and sale agreement (including heat rate options), tolling agreement, fuel purchase and sale agreement, emissions credit purchase or sale agreement, power transmission agreement, fuel transportation agreement, fuel storage agreement, energy management agreement, netting agreement or similar agreement entered into in respect of any commodity, whether physical or financial, and any agreement (including any guarantee, credit sleeve or similar arrangement) providing for credit support for the foregoing.

69 " **Communications** " shall have the meaning assigned to such term in Section 9.17(a) .

70 " **Completion Proceeds** " shall mean amounts released from the Bluestem Completion Account and distributed to ExGen Renewables Holdings in accordance with Section 3.13 of the ExGen Renewables JV Agreement.

71 " **Confidential Information Memorandum** " shall mean the Confidential Information Memorandum dated November 7, 2017, as modified or supplemented prior to the Closing Date.

72 " **Continental Wind Credit Agreement** " that certain Credit Agreement, dated as of September 30, 2013, among Continental Wind, LLC, Continental Wind Holding, LLC, the other Continental Wind Entities parties thereto, the lenders and issuing banks party thereto from time to time, and Crédit Agricole Corporate and Investment Bank, as administrative agent for the lenders thereunder.

73 " **Continental Wind Entities** " shall mean ExGen Renewables I Holding and the other entities listed in Part 6 of Schedule 1.01C and, if applicable, any Additional Project Entities owned, directly or indirectly, by ExGen Renewables I Holding.

74 " **Continental Wind Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A.

75 " **Continental Wind Projects** " shall mean each of the thirteen wind power electric generation projects owned by the Continental Wind Entities and listed under the heading "Continental Wind Projects" in Schedule 1.01D and, if applicable, any Additional Project owned by a Continental Wind Entity (each, individually, a " **Continental Wind Project** "), including with respect to each such Continental Wind Project the related Project site, and the panels, turbines, facilities, structures and improvements erected on such Project site and all other equipment and property leased or owned by the applicable Continental Wind Entities with respect to such Continental Wind Project and attached to or placed upon such Project site or used in connection with the operation of such Continental Wind Project.

76 " **Control** " shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of voting securities, by contract or otherwise, and "Controlling" and "Controlled" shall have meanings correlative thereto.

77 " **Control Agreement** " shall mean one or more control agreements, entered into by the Borrower, the Collateral Agent and the Depositary Bank, which (i) provides that the Depositary Bank will comply with any instructions or entitlement orders originated by the Borrower and, upon delivery of written notice that an Event of Default has occurred and is continuing, the Collateral Agent (but not, after such notice (until rescinded), the Borrower), (ii) is otherwise sufficient to establish the Collateral Agent's control per Section 9-104 and Section 8-106 of the UCC, as applicable, and (iii) is otherwise in form and substance reasonably satisfactory to the Collateral Agent and the Administrative Agent.

78 " **Credit Support** " shall mean "Credit Support" as defined in the Credit Support Reimbursement Agreement.

79 " **Credit Support Reimbursement Agreement** " shall mean the Reimbursement Agreement, dated as of November 28, 2017 among the Sponsor and the Borrower.

80 " **Credit Support Reimbursement Obligations** " shall mean "Obligations" as defined in the Credit Support Reimbursement Agreement.

81 " **Cure Amount** " shall mean the minimum amount which, if added to Available Cash for the Test Period in respect of which a Default in respect of the Financial Performance Covenant occurred,

would cause the Financial Performance Covenant for such Test Period to be satisfied (it being understood and agreed that for purposes of calculating such amount no effect shall be given to any prepayment of Loans with such proceeds).

82 " **Cure Right** " shall have the meaning assigned to such term in Section 7.02 .

83 " **DCO Loan** " shall have the meaning assigned to such term in Section 6.04(g) .

84 " **Debt Payment Deficiency** " shall have the meaning assigned to such term in Section 2.19(d)(iv) .

85 " **Debt Service** " shall mean, for the Borrower and for any period, the amount of Fees, interest (including, without duplication of interest amounts payable under this Agreement, ordinary course settlement amounts payable by the Borrower under any Interest Rate Swap Agreement, net of ordinary course settlement amounts received by the Borrower thereunder during the relevant period) and Scheduled Amortization Payments of principal due and payable under the Loan Documents during such period (excluding, under all circumstances, any such amounts due and payable on the Maturity Date).

86 " **Debt Service Coverage Ratio** " shall mean, for any period, the ratio of (a) Cash Flow Available for Debt Service for such period to (b) Debt Service for such period.

87 " **Debt Service Reserve Account** " shall have the meaning assigned to such term in Section 2.19(a) .

88 " **Default** " shall mean any event or condition that, with the passage of time or the giving of notice or both would be, an Event of Default.

89 " **Defaulting Lender** " shall mean any Lender that (a) has failed to (i) fund all or any portion of its Loans within two Business Days of the date such Loans were required to be funded hereunder unless such Lender notifies the Administrative Agent and the Borrower in writing that such failure is the result of such Lender's determination that one or more conditions precedent to funding (each of which conditions precedent, together with any applicable default, shall be specifically identified in such writing) has not been satisfied, or (ii) pay to the Administrative Agent or any other Lender any other amount required to be paid by it hereunder (including in respect of any participation in Account Letters of Credit) within two Business Days of the date when due, (b) has notified the Borrower or the Administrative Agent in writing that it does not intend to comply with its required funding obligations hereunder, or has made a public statement to that effect with respect to its required obligations hereunder or generally under the other agreements pursuant to which it has committed to extend credit (unless such writing or public statement relates to such Lender's obligation to fund a Loan hereunder and states that such position is based on such Lender's determination that a condition precedent to funding (which condition precedent, together with any applicable default, shall be specifically identified in such writing or public statement) cannot be satisfied), (c) has failed, within three Business Days after written request by the Administrative Agent or the Borrower, to confirm in writing to the Administrative Agent and the Borrower that it will comply with its prospective funding obligations hereunder (provided that such Lender shall cease to be a Defaulting Lender pursuant to this clause (c) upon receipt of such written confirmation by the Administrative Agent and the Borrower), or (d) has, or has a direct or indirect parent company that has, (i) become the subject of a proceeding under any Bankruptcy Law, (ii) had appointed for it a receiver, custodian, conservator, trustee, administrator, assignee for the benefit of creditors or similar Person charged with reorganization or liquidation of its business or assets, including the Federal Deposit Insurance Corporation or any other state or federal regulatory authority acting in such a capacity, (iii) taken any action in furtherance of, or indicated its consent to, approval of or acquiescence in or to any such proceeding or action or (iv) become the subject of a Bail-In Action; *provided* that a Lender shall

not be a Defaulting Lender solely by virtue of the ownership or acquisition of any equity interest in that Lender or any direct or indirect parent company thereof by a Governmental Authority so long as such ownership interest does not result in or provide such Lender with immunity from the jurisdiction of courts within the United States or from the enforcement of judgments or writs of attachment on its assets or permit such Lender (or such Governmental Authority) to reject, repudiate, disavow or disaffirm any contracts or agreements made with such Lender. Any determination by the Administrative Agent that a Lender is a Defaulting Lender under any one or more of clauses (a) through (d) above shall be conclusive and binding absent manifest error, and such Lender shall be deemed to be a Defaulting Lender upon the earlier to occur of (x) the delivery of written notice of such determination to the Borrower and each Lender by the Administrative Agent and (y) the fifth Business Day following the occurrence of the applicable event or circumstances described in clause (a), (b), (c) or (d) above (if such event or circumstance continues to exist on such date). No Lender that is Solvent shall be a Defaulting Lender solely by virtue of the precautionary appointment of an administrator guardian, custodian or other similar official with respect to such Lender or any direct or indirect parent company thereof by a Governmental Authority under or based on the law of the governing jurisdiction of such Lender or any direct or indirect parent company thereof if applicable law requires that such appointment not be disclosed.

90 " **Depositary Accounts** " shall have the meaning assigned to such term in Section 2.19(a) .

91 " **Depositary Bank** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

92 " **Discharge of the Obligations** " shall mean, and shall have occurred, when (a) all Obligations owing shall have been paid in full in cash (other than (i) inchoate indemnity obligations that are expressly stated to survive termination and (ii) obligations and liabilities under Secured Swap Agreements that have been cash collateralized or as to which other arrangements satisfactory to the applicable Specified Swap Counterparties shall have been made) and (b) all Commitments shall have terminated or expired.

93 " **Disqualified Equity Interest** " shall mean any Equity Interest that, by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable), or upon the happening of any event, (a) matures (excluding any maturity as the result of an optional redemption by the issuer thereof) or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise, or is redeemable at the option of the holder thereof, in whole or in part, or requires the payment of any cash dividend or any other scheduled payment constituting a return of capital, in each case at any time on or prior to one hundred and eighty (180) days after the Maturity Date, or (b) is convertible into or exchangeable (unless at the sole option of the issuer thereof) for (i) debt or debt securities or (ii) any Equity Interest referred to in clause (a) above, in each case at any time prior to one hundred and eighty (180) days after the Maturity Date.

94 " **Dividend** " shall have the meaning assigned to such term in Section 6.06 .

95 " **Documentation Agent** " shall mean MSSF in its capacity as documentation agent.

96 " **Drawing Amount** " shall mean, with respect to any Account Letter of Credit, as of any date of determination, the amount available to be drawn thereunder as of such date.

97 " **DSR Increase Payment** " shall have the meaning assigned to such term in Section 2.19(d)(i) .

98 " **DSR Requirement Amount** " shall mean, an amount, as calculated on the Closing Date for the six (6) month period following the Closing Date, and thereafter as recalculated on each Quarterly Date (commencing with May 2018) for the six (6) month period following each such Quarterly Date, equal to the amount of Debt Service reasonably anticipated on such date of determination to be due and payable over the six (6) month period commencing on such date of determination (calculated taking into account any amount that would be received or paid by the Borrower pursuant to Interest Rate Swap Agreements that are in effect during the applicable period), in each case based on the reasonable good faith projections of the Borrower and certified to by a Responsible Officer of the Borrower.

99 " **ECF Prepayment Account** " shall have the meaning assigned to such term in Section 2.19(a) .

100 " **ECF Sweep Date** " shall have the meaning assigned to such term in Section 2.09(b) .

101 " **Echo Entities** " shall mean the entities listed in Part 7 of Schedule 1.01C .

102 " **Echo LLC Agreements** " shall have the meaning assigned to such term in Schedule 1.01F .

103 " **Echo Projects** " shall mean each of the wind powered electric generation projects owned by the Echo Entities and listed under the heading "Other Projects" in Schedule 1.01D (each, individually, an " **Echo Project** "), including with respect to each such Echo Project the related Project site, and the panels, turbines, facilities, structures and improvements erected on such Project site and all other equipment and property leased or owned by the applicable Echo Entity with respect to such Echo Project and attached to or placed upon such Project site or used in connection with the operation of such Echo Project.

104 " **EEA Financial Institution** " means (a) any credit institution or investment firm established in any EEA Member Country which is subject to the supervision of an Resolution Authority, (b) any entity established in an EEA Member Country which is a parent of an institution described in clause (a) of this definition, or (c) any financial institution established in an EEA Member Country which is a subsidiary of an institution described in clauses (a) or (b) of this definition and is subject to consolidated supervision with its parent.

105 " **EEA Member Country** " means any member state of the European Union, Iceland, Liechtenstein and Norway.

106 " **Eligible Assignee** " shall mean any Person other than a natural Person that is (i) a Lender, an Affiliate of any Lender or an Approved Fund (any two or more related Approved Funds being treated as a single Eligible Assignee for all purposes hereof), or (ii) a commercial bank, insurance company, investment or mutual fund or other entity that is an "accredited investor" (as defined in Regulation D under the Securities Act) and which extends credit or buys loans in the ordinary course.

107 " **Engagement Letter** " shall mean that certain Engagement Letter, dated October 19, 2017, by and between the Borrower and the Lead Arranger, as amended, amended and restated, supplemented or otherwise modified prior to the date hereof.

108 " **Environment** " shall mean ambient and indoor air, surface water and groundwater (including potable water, navigable water and wetlands), the land surface or subsurface strata or sediment, and all other environmental media, and natural resources, including flora and fauna, including birds and bats, or as otherwise defined in any Environmental Law.

109 " **Environmental Claim** " shall mean any and all actions, suits, demand letters, claims, Liens, notices of noncompliance or violation, notices of liability or potential liability, investigations by a Governmental Authority, judicial, administrative or arbitral proceedings, consent orders or consent agreements relating to any violation or alleged violation of an Environmental Law or the Release of, or human exposure to, any Hazardous Material.

110 " **Environmental Law** " shall mean, collectively, all federal, state or local laws, including common law, statutes, ordinances, regulations, rules, codes, orders, judgments or other requirements or rules of law governing (a) the prevention, abatement or elimination of pollution, or the protection of the Environment, natural resources or human health or safety, or natural resource damages and (b) the use, generation, handling, treatment, storage, Release, transportation or regulation of, or human exposure to, Hazardous Materials, including the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§ 9601 et seq., the Endangered Species Act, 16 U.S.C. §§ 1531 et seq., the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 et seq., the Clean Air Act, 42 U.S.C. §§ 7401 et seq., the Clean Water Act, 33 U.S.C. §§ 1251 et seq., the Toxic Substances Control Act, 15 U.S.C. §§ 2601 et seq., the Emergency Planning and Community Right to Know Act, 42 U.S.C. §§ 11001 et seq.; the National Environmental Policy Act, 42 U.S.C. §§ 4321 et. seq.; the Migratory Bird Treaty Act, 16 U.S.C. §§ 703 et. seq.; and the Bald and Golden Eagle Protection Act, 16 U.S.C. §§ 668 et. seq., each as amended, and their state or local counterparts or equivalents.

111 " **Equity Interests** " of any Person shall mean any and all shares, interests, rights to purchase, warrants, options, participation or other equivalents of or interests in (however designated) equity of such Person, including any preferred stock, any limited or general partnership interest and any limited liability company membership interest.

112 " **Equity Proceeds** " shall mean the cash proceeds of the issuance of Qualified Equity Interests of Holding or cash capital contributions (other than proceeds received as a result of the exercise of Cure Rights pursuant to Section 7.02) to Holding.

113 " **Equity Proceeds Account** " shall have the meaning assigned to such term in Section 2.19(a)(ii).

114 " **ERISA** " shall mean the Employee Retirement Income Security Act of 1974, as amended.

115 " **ERISA Affiliate** " shall mean any trade or business (whether or not incorporated) that, together with any Loan Party, is treated as a single employer under Section 414 of the Code.

116 " **ERISA Event** " shall mean, if at any time, (i) any Plan fails to comply with any material provision of ERISA and/or the Code (and applicable regulations under either) or with the material terms of such Plan, (ii) any Plan fails to satisfy the minimum funding standards of ERISA or the Code for any plan year or part thereof or a waiver of such standards or extension of any amortization period is sought or granted under Section 412 of the Code, (iii) a notice of intent to terminate any Plan is or is reasonably expected to be filed with the PBGC or the PBGC institutes proceedings under Section 4042 of ERISA to terminate or appoint a trustee to administer any Plan or the PBGC notifies the Borrower that a Plan may become a subject of any such proceedings, (iv) a Loan Party incurs or is reasonably expected to incur any liability pursuant to Title I of ERISA (other than routine claims for benefits) or the penalty or excise tax provisions of the Code relating to employee benefit plans, or a Loan Party or any ERISA Affiliate incurs or is reasonably expected to incur any liability pursuant to Title IV of ERISA (other than for timely paid premiums to the PBGC), (v) a Loan Party or any ERISA Affiliate withdraws from any Multiemployer Plan in a complete withdrawal or a partial withdrawal, (vi) a Loan Party or any ERISA Affiliate fails to make any required contribution to a Multiemployer Plan pursuant to Section 431 or 432

of the Code, (vii) any Multiemployer Plan is determined to be insolvent, or in “endangered” or “critical” status (within the meaning of Section 432 of the Code or Section 305 of ERISA), (viii) a Loan Party establishes or amends any employee welfare benefit plan that provides post-employment welfare benefits in a manner that would increase the liability of a Loan Party thereunder, (ix) a non-exempt “prohibited transaction” (within the meaning of Section 406 of ERISA and Section 4975(c) of the Code) occurs with respect to any Plan, (x) any ERISA Plan is determined to be in “at risk” status (within the meaning of Section 430 of the Code or Section 303 of ERISA), (xi) a “reportable event” occurs (within the meaning of Section 4043 of ERISA) for which notice thereof has not been waived pursuant to regulations as in effect on the date thereof, or (xii) a Foreign Plan Event occurs.

117 “ **ERISA Plan** ” shall mean any employee pension benefit plan (other than a Multiemployer Plan) subject to the provisions of Title IV of ERISA or Section 412 or 430 of the Code or Section 302 of ERISA and in respect of which any Loan Party or any ERISA Affiliate is (or if such plan were terminated would under Section 4069 of ERISA be deemed to be) an “employer” as defined in Section 3(5) of ERISA.

118 “ **EU Bail-In Legislation Schedule** ” means the document described as such and published by the Loan Market Association (or any successor person) from time to time.

119 “ **Event of Default** ” shall have the meaning assigned to such term in Section 7.01 .

120 “ **Excess Cash Flow** ” shall mean, for each Excess Cash Flow Period, an amount equal to 100% of Available Cash of the Borrower for such Excess Cash Flow Period and any other amounts deposited into the Revenue Account during such Excess Cash Flow Period less any amounts required to be disbursed pursuant to clauses (i) through (vi) of Section 2.19(c) during such Excess Cash Flow Period.

121 “ **Excess Cash Flow Period** ” shall mean (a) initially the period from the Closing Date until May, 2018 and (b) thereafter, each quarterly period ending on each Quarterly Date of each calendar year.

122 “ **Excess Liquidity Reserve Amount** ” shall have the meaning assigned to such term in Section 2.19(e)(ii)(C)

123 “ **Excess Project Disposition Proceeds** ” shall have the meaning assigned to such term in Section 2.09(b) .

124 “ **Excess Reserve Amount** ” shall have the meaning assigned to such term in Section 2.19(d)(iii)(A) .

125 “ **Exchange Act** ” shall mean the Securities Exchange Act of 1934, as amended.

126 “ **Excluded Indebtedness** ” shall mean all Indebtedness permitted to be incurred under Section 6.01 .

127 “ **Excluded Swap Obligation** ” shall mean with respect to the Guarantors (as defined in the Pledge Agreement), (x) as it relates to all or a portion of the Guarantee of the Guarantor, any Swap Obligation if, and to the extent that, such Swap Obligation (or any Guarantee thereof) is or becomes illegal under the Commodity Exchange Act or any rule, regulation or order of the Commodity Futures Trading Commission (or the application or official interpretation of any thereof) by virtue of the Guarantor’s failure for any reason to constitute an “eligible contract participant” as defined in the Commodity Exchange Act and the regulations thereunder at the time the Guarantee of the Guarantor becomes effective with respect to such Swap Obligation or (y) as it relates to all or a portion of the grant by the Guarantor of a

security interest, any Swap Obligation if, and to the extent that, such Swap Obligation (or such security interest in respect thereof) is or becomes illegal under the Commodity Exchange Act or any rule, regulation or order of the Commodity Futures Trading Commission (or the application or official interpretation of any thereof) by virtue of the Guarantor's failure for any reason to constitute an "eligible contract participant" as defined in the Commodity Exchange Act and the regulations thereunder at the time the security interest of the Guarantor becomes effective with respect to such Swap Obligation. If a Swap Obligation arises under a master agreement governing more than one swap, such exclusion shall apply only to the portion of such Swap Obligation that is attributable to swaps for which such Guarantee or security interest is or becomes illegal.

128 " **Excluded Taxes** " shall mean, with respect to any Agent, any Lender or any other recipient of any payment to be made by or on account of any obligation of any Loan Party hereunder, (a) Taxes imposed on or measured by its net income (however denominated), franchise Taxes, and branch profits Taxes, in each case (i) imposed as a result of the recipient being organized under the laws of, or having its principal office or, in the case of any Lender, its applicable lending office located in, the jurisdiction imposing such Tax (or any political subdivision thereof) or (ii) that are Other Connection Taxes, (b) in the case of a Lender, U.S. federal withholding Taxes imposed on amounts payable to or for the account of such Lender with respect to an applicable interest in a Loan or Commitment pursuant to a law in effect on the date on which (i) such Lender acquires such interest in the Loan or Commitment (other than pursuant to an assignment request by the Borrower under Section 2.17(b)) or (ii) such Lender changes its lending office, except in each case to the extent that, pursuant to Section 2.15(a) or Section 2.15(c) , amounts with respect to such Taxes were payable either to such Lender's assignor immediately before such Lender became a party hereto or to such Lender immediately before it changed its lending office, (c) Taxes attributable to such recipient's failure to comply with Section 2.15(e) , and (d) any U.S. federal withholding Taxes imposed under FATCA.

129 " **Executive Order** " has the meaning given to such term in the definition of "Anti-Terrorism Laws".

130 " **Exelon AVSR Holding** " shall have the meaning assigned to such term in the recitals hereto.

131 " **ExGen Renewables Entities** " means ExGen Renewables Holdings, ExGen Renewables JV, the Continental Wind Entities, the RPG Entities, the Bluestem Entities and the Other JV Entities and, if applicable, (a) any Additional Project Entities owned, directly or indirectly, by ExGen Renewables JV and (b) upon consummation of (i) the SolGen Disposition, the SolGen Entities, (ii) the AVSR Disposition, the AVSR Entities and (iii) the AG Disposition where the Albany Green Entities are sold to ExGen Renewables JV, the Albany Green Entities.

132 " **ExGen Renewables Holdings** " shall have the meaning assigned to such term in the recitals hereto.

133 " **ExGen Renewables I Holding** " shall mean ExGen Renewables I Holding, LLC, a Delaware limited liability company.

134 " **ExGen Renewables JV** " shall have the meaning assigned to such term in the recitals hereto.

135 " **ExGen Renewables JV Agreements** " shall have the meaning assigned to such term in Schedule 1.01A .

136 " **ExGen Renewables JV Projects** " shall mean the Continental Wind Projects, the RPG Projects, the Bluestem Project and the Other JV Projects and if applicable (a) any Additional Project owned by any ExGen Renewables Entity and (b) upon consummation of (i) the SolGen Disposition, the SolGen Projects, (ii) the AVSR Disposition, the AV Solar Project and (iii) the AG Disposition where the Albany Green Entities are sold to ExGen Renewables JV, the Albany Green Project.

137 " **Existing Project Level Financing Documents** " shall mean the agreements set forth on Schedule 1.01A.

138 " **FATCA** " shall mean Sections 1471 through 1474 of the Code, as of the date of this Agreement (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations and official interpretations thereof and any agreements entered into pursuant to Section 1471(b)(1) of the Code.

138 " **Federal Funds Effective Rate** " shall mean, for any day, the weighted average of the rates on overnight federal funds transactions with members of the Federal Reserve System arranged by federal funds brokers, as published on the next succeeding Business Day by the Federal Reserve Bank of New York, or, if such rate is not so published for any day that is a Business Day, the average of the quotations for the day of such transactions received by the Administrative Agent from three (3) federal funds brokers of recognized standing selected by it.

139 " **Fee Letters** " shall mean (i) that certain Administrative Agent Fee Letter, dated as of November 28, 2017, by and between the Borrower and the Administrative Agent, (ii) that certain Collateral Agent and Depositary Services Agreement, dated October 5, 2017, by and between the Borrower and the Collateral Agent and (iii) any other fee letters between the Borrower and any Agent, in each case, as amended, amended and restated, supplemented or otherwise modified from time to time.

140 " **Fees** " shall mean the Administrative Agent Fees and any other fees payable under the Fee Letters, any other fees payable to the Collateral Agent or the Depositary Bank by the Loan Parties and any fees payable under the Engagement Letter.

141 " **Financial Assets** " shall have the meaning assigned to such term in Section 8.01(e) .

142 " **Financial Officer** " of any Person shall mean the Chief Financial Officer, principal accounting officer, Treasurer, Assistant Treasurer or Controller of such Person.

143 " **Financial Performance Covenant** " shall mean the covenant of the Borrower set forth in Section 6.10 .

144 " **Foreign Benefit Arrangement** " shall mean any employee benefit arrangement mandated by non-U.S. law that is maintained or contributed to by any Loan Party.

145 " **Foreign Plan** " shall mean each employee benefit plan (within the meaning of Section 3(3) of ERISA, whether or not subject to ERISA) that is not subject to U.S. law and is maintained or contributed to by any Loan Party.

146 " **Foreign Plan Event** " shall mean, with respect to any Foreign Benefit Arrangement or Foreign Plan, (a) the failure to make or, if applicable, accrue in accordance with normal accounting practices, any employer or employee contributions required by applicable law or by the terms of such Foreign Benefit Arrangement or Foreign Plan, (b) the failure to register or loss of good standing with applicable regulatory authorities of any such Foreign Benefit Arrangement or Foreign Plan required to be registered, or (c) the failure of any Foreign Benefit Arrangement or Foreign Plan to comply with any

material provisions of applicable law and regulations or with the material terms of such Foreign Benefit Arrangement or Foreign Plan.

147 " **FPA** " shall have the meaning assigned to such term in Section 3.08(c) .

148 " **Fully Funded** " shall mean, with respect to the Debt Service Reserve Account and as of any date of determination, that the sum of (a) the amount of Cash and Cash Equivalents on deposit in the Debt Service Reserve Accounts as of such date of determination *plus* (b) the maximum amount guaranteed pursuant to any Sponsor Guaranty credited to such account as of such date of determination *plus* (c) the aggregate Drawing Amounts as of such date of determination of any Account Letters of Credit in favor of the Collateral Agent credited to such account, is not less than the then applicable DSR Requirement Amount (*provided* , that (i) (x) such Sponsor Guaranty shall have not been terminated or disavowed in writing and no payment default shall have occurred thereunder and (y) the guarantor under any such Sponsor Guaranty has not ceased to be an Acceptable Guarantor, and (ii) (x) such Account Letter of Credit shall be in full force and effect (and shall not expire within thirty (30) days from the date of determination) unless the Collateral Agent has received notice from the issuer thereof that such Account Letter of Credit will be renewed in accordance with its terms or has received notice from the issuer thereof or the Borrower that such Account Letter of Credit will be extended or replaced (with another Account Letter of Credit, a Sponsor Guaranty or cash in a corresponding amount deposited in the Debt Service Reserve Accounts) on or prior to its stated expiration date) and (y) the issuer of such Account Letter of Credit has not ceased to be an Acceptable LC Issuer (unless such Account Letter of Credit has been replaced with another Account Letter of Credit, Sponsor Guaranty or cash in a corresponding amount deposited in the Debt Service Reserve Accounts)), and " **Fully Fund** " shall have a meaning correlative thereto.

149 " **GAAP** " shall mean generally accepted accounting principles and practices as in effect from time to time in the United States of America.

150 " **Governmental Authority** " shall mean any federal, state, provincial, local or foreign court or governmental agency, authority, instrumentality or regulatory or legislative body.

151 " **Government Official** " shall mean any officer or employee of a government or government-owned or controlled entity or of a public international organization, or any person acting in an official capacity for or on behalf of any of the foregoing, or any political party or party official or candidate for political office.

152 " **Guarantee** " shall mean a guarantee other than by endorsement of negotiable instruments for collection in the ordinary course of business, direct or indirect, in any manner including, without limitation, by way of a pledge of assets or through letters of credit or reimbursement agreements in respect thereof, of all or any part of any Indebtedness (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take or pay or to maintain financial statement conditions or otherwise).

153 " **Hazardous Materials** " shall mean all pollutants, contaminants, wastes, chemicals, materials, substances and constituents, including explosive or radioactive substances or petroleum or petroleum distillates, asbestos or asbestos containing materials, polychlorinated biphenyls or radon gas, of any nature, in each case to the extent subject to regulation or for which liability can be imposed under any Environmental Law.

154 " **Hedging Obligations** " shall mean, with respect to any specified Person, the obligations of such Person under (a) interest rate swap agreements (whether from fixed to floating or from floating to fixed), interest rate cap agreements and interest rate collar agreements; (b) other agreements or

arrangements designed to manage interest rates or interest rate risk; and (c) other agreements or arrangements designed to protect such Person against fluctuations in currency exchange rates or commodity prices, including Commodity Hedge Agreements.

155 " **Holding** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

156 " **Indebtedness** " shall mean, with respect to any specified Person, any indebtedness of such Person (excluding accrued expenses and trade payables), whether or not contingent:

(a) in respect of borrowed money;

(b) evidenced by bonds, notes, debentures or similar instruments;

(c) in respect of letters of credit, banker's acceptances or other similar instruments (or reimbursement agreements in respect thereof);

(d) representing Capital Lease Obligations;

(e) representing the balance deferred and unpaid of the purchase price of any property or services due more than 60 days after such property is acquired or such services are completed; or

(f) representing any Hedging Obligations,

if and to the extent any of the preceding items (other than letters of credit and Hedging Obligations) would appear as a liability upon a balance sheet of the specified Person prepared in accordance with GAAP. In addition, the term "Indebtedness" includes all Indebtedness of others secured by a Lien on any asset of the specified Person (whether or not such Indebtedness is assumed by the specified Person) and, to the extent not otherwise included, the Guarantee by the specified Person of any Indebtedness of any other Person. Indebtedness shall be calculated without giving effect to the effects of Statement of Financial Accounting Standards No. 133 and related interpretations to the extent such effects would otherwise increase or decrease an amount of Indebtedness for any purpose under this Agreement as a result of accounting for any embedded derivatives created by the terms of such Indebtedness.

157 " **Indemnified Taxes** " shall mean all Taxes, other than Excluded Taxes, imposed on or with respect to any payment made by or on account of any Obligation of any Loan Party under any Loan Document.

158 " **Indemnitee** " shall have the meaning assigned to such term in Section 9.05(b) .

159 " **Information** " shall have the meaning assigned to such term in Section 3.13(a) .

160 " **Interest Election Request** " shall mean a request by the Borrower to convert or continue a Borrowing in accordance with Section 2.05 , in substantially the form of Exhibit D .

161 " **Interest Payment Date** " shall mean (a) with respect to any LIBOR Loan, each Quarterly Date, (b) with respect to any Base Rate Loan, each Quarterly Date and (c) as to any Loan, the Maturity Date.

162 " **Interest Period** " shall mean, as to any Borrowing consisting of a LIBOR Loan, the period commencing on the date of such Borrowing or on the last day of the immediately preceding

Interest Period applicable to such Borrowing, as applicable, and ending on the next Quarterly Date that is one (1), three (3) or six (6) months thereafter, as the Borrower may elect; *provided* that, all of the foregoing provisions relating to Interest Periods are subject to the following: (i) if any Interest Period would otherwise end on a day that is not a Business Day, such Interest Period shall be extended to the next succeeding Business Day unless the result of such extension would be to carry such Interest Period into another calendar month in which event such Interest Period shall end on the immediately preceding Business Day; (ii) the Borrower may not select an Interest Period that would extend beyond the Maturity Date; (iii) any Interest Period that begins on the last Business Day of a calendar month (or on a day for which there is no numerically corresponding day in the calendar month at the end of such Interest Period) shall end on the last Business Day of a calendar month; and (iv) notwithstanding the foregoing, in connection with the LIBOR Borrowing made on the Closing Date, such LIBOR Borrowing may have an Interest Period commencing on the Closing Date and ending on the first Quarterly Date after the Closing Date. Interest shall accrue from and including the first day of an Interest Period to but excluding the last day of such Interest Period.

163 " **Interest Rate Swap Agreements** " shall have the meaning assigned to such term in Section 5.12.

164 " **Interpolated Rate** " shall mean at any time, the rate per annum (rounded to the same number of decimal places as the LIBO Screen Rate) determined by the Administrative Agent (which determination shall be conclusive and binding absent manifest error) to be equal to the rate that results from interpolating on a linear basis between: (a) the LIBO Screen Rate (for the longest period for which that LIBO Screen Rate is available in U.S. Dollars) that is shorter than the Impacted Interest Period and (b) the LIBO Screen Rate (for the shortest period for which that LIBO Screen Rate is available for U.S. Dollars) that exceeds the Impacted Interest Period, in each case, at approximately 11:00 a.m., London time, two Business Days prior to the commencement of such Interest Period. When determining the rate for a period which is less than the shortest period for which the LIBO Screen Rate is available, the LIBO Screen Rate for purposes of clause (a) above shall be deemed to be the overnight rate for U.S. Dollars determined by the Administrative Agent from such service as the Administrative Agent may select.

165 " **Investment** " shall have the meaning assigned to such term in Section 6.04 .

166 " **JV Class A Membership Interests** " shall mean the "Class A Interests" as defined in the ExGen Renewables JV Agreement.

167 " **Lead Arranger** " shall mean MSSF in its capacity as sole lead arranger and sole bookrunner.

168 " **Lender** " shall mean each financial institution listed on Schedule 2.01 , as well as any Person (other than a natural person) that becomes a "Lender" hereunder pursuant to Section 9.04 .

169 " **Lender Counterparty** " shall mean (a) the Administrative Agent, the Lead Arranger or any of their respective Affiliates or (b) any Lender or any of its Affiliates, in the case of this clause (b) with a credit rating (or having a guarantor with a credit rating) equal to or better than A- from S&P or A3 from Moody's at the time it enters into a Swap Agreement, in each case, in its capacity as a party to a Swap Agreement.

170 " **LIBO Base Rate** " shall mean, with respect to any LIBOR Loan for any Interest Period, (i) the rate appearing on the applicable Reuters screen page (or on any successor or substitute page or service providing quotations of interest rates applicable to dollar deposits in the London interbank market comparable to those currently provided on such page, as determined by the Administrative Agent from time to time) at approximately 11:00 a.m., London time, two Business Days prior to the

commencement of such Interest Period, as the rate for dollar deposits with a maturity comparable to such Interest Period or (ii) if the rate referenced in clause (i) above does not appear on such page or service or such page or service shall cease to be available, the rate per annum equal to the London interbank offered rate as administered by the ICE Benchmark Administration (or any other Person that takes over the administration of such rate) for U.S. Dollars for a period equal in length to such Interest Period as displayed on pages LIBOR01 or LIBOR02 of the Reuters Screen that displays such rate (or, in the event such rate does not appear on either of such Reuters pages, on any successor or substitute page on such screen that displays such rate, or on the appropriate page of such other information service that publishes such rate from time to time as selected by the Administrative Agent in its reasonable discretion) at approximately 11:00 a.m., London time, two Business Days prior to the commencement of such Interest Period (in each case, the " **LIBO Screen Rate** "); *provided* that if the LIBO Screen Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement; *provided* , further, that if the LIBO Screen Rate shall not be available at such time for such Interest Period (an " **Impacted Interest Period** ") with respect to U.S. Dollars, then the LIBO Base Rate shall be the Interpolated Rate at such time (provided that if the Interpolated Rate shall be less than zero, such rate shall be deemed to be zero for purposes of this Agreement).

171 " **LIBO Rate** " shall mean, with respect to each day during each Interest Period pertaining to a LIBOR Loan, a rate per annum (rounded upwards, if necessary, to the nearest 1/100 of 1%) determined by the Administrative Agent to be equal to the greater of (x) the quotient obtained by dividing (a) the LIBO Base Rate for such LIBOR Loan for such Interest Period by (b) 1 minus the LIBOR Reserve Requirement for such LIBOR Loan for such Interest Period and (y) 1.00% per annum.

172 " **LIBOR Borrowing** " shall mean a Borrowing comprised of LIBOR Loans.

173 " **LIBOR Loans** " shall mean Loans that bear interest at rates based upon the LIBO Rate.

174 " **LIBOR Reserve Requirements** " shall mean, at any time, the maximum rate at which reserves (including, without limitation, any marginal, special, supplemental, or emergency reserves) are required to be maintained under regulations issued from time to time by the Board by member banks of the Federal Reserve System against "Eurocurrency liabilities" (as such term is used in Regulation D) (such requirement as set forth on www.federalreserve.gov/monetarypolicy/reservereq.htm or any similar website operated or made available from time to time by the Board either relating to reserve requirements in general or to the terms of Regulation D in particular). Without limiting the effect of the foregoing, the LIBOR Reserve Requirements shall reflect any other reserves required to be maintained by such member banks with respect to (i) any category of liabilities which includes deposits by reference to which the LIBO Rate is to be determined, or (ii) any category of extensions of credit or other assets which include LIBOR Loans. The LIBO Rate shall be adjusted automatically on and as of the effective date of any change in the Reserve Requirements.

175 " **Lien** " shall mean, with respect to any asset, (a) any mortgage, deed of trust, lien, hypothecation, pledge, encumbrance, charge or security interest in or on such asset, (b) the interest of a vendor or a lessor under any conditional sale agreement, capital lease or title retention agreement (or any financing lease having substantially the same economic effect as any of the foregoing) relating to such asset, and (c) in the case of securities, any purchase option, call or similar right of a third party with respect to such securities. For certainty, "Lien" shall not include any netting or set-off arrangements under any contract, agreement or other undertaking that is otherwise permitted to be entered into by ExGen Renewables JV, any Project Holdco or any Project Entity in accordance with the Project Level Financing Documents to which it (or its Subsidiaries) is a party.

176 " **Liquidity Reserve Account** " shall have the meaning assigned to such term in Section 2.19(a) .

177 " **Liquidity Reserve Maximum Balance** " shall mean $[***].

178 " **LLC Agreement** " shall mean (i) the Amended and Restated Limited Liability Company Agreement of the Borrower, effective as of November 10, 2017 and (ii) the Second Amended and Restated Limited Liability Company Agreement of Holding, effective as of November 10, 2017.

179 " **Loan Documents** " shall mean this Agreement, the Security Documents and any Notes issued under Section 2.07(d) .

180 " **Loan Parties** " shall mean the Borrower, Holding and ExGen Renewables Holdings. For the avoidance of doubt, none of the Sponsor, the Parent, or the Project Entities (other than ExGen Renewables Holdings) shall be (or be deemed for any purpose to be) Loan Parties.

181 " **Loans** " shall mean the term loans made by the Lenders to the Borrower pursuant to Section 2.01 .

182 " **Local Account Control Agreement** " shall mean (i) the Deposit Account Control Agreement, entered into as of November 28, 2017, among the Borrower, the Collateral Agent and Citibank, N.A. as depositary bank and (ii) any other account control agreement entered into to establish "control" (within the meaning of the UCC) over Local Accounts in form and substance reasonably satisfactory to the Administrative Agent.

183 " **Local Accounts** " shall mean one or more "local checking account(s)" or similar account(s) to be established by the Borrower or any Project Holdco at their respective election, which account(s) shall be subject to a perfected, first priority Lien of the Collateral Agent pursuant to the applicable Local Account Control Agreement but to which the Borrower or any such Project Holdco shall have at all times, other than upon the occurrence and continuation of a Trigger Event, full access and signing authority for the purpose of writing checks or wiring funds for the purposes permitted hereunder; *provided* that the aggregate $[***].

184 " **Major Revenue Contract** " shall mean (a) each agreement for the sale of all or a portion of the energy, capacity and/or ancillary services entered into by any Project Entity from time to time with respect to output of the AV Solar Project and (b) PTC Agreements, together with all amendments, modifications, supplements or replacements thereto or thereof to the extent permitted hereunder.

185 " **Margin Stock** " shall have the meaning assigned to such term in Regulation U.

186 " **Material Adverse Effect** " shall mean a material adverse effect on (i) the business, assets, properties, financial condition or results of operations of the Borrower and its Subsidiaries (including all Project Entities), taken as a whole, (ii) the rights and remedies of the Agents and the Lenders under any Loan Document or (iii) the ability of the Loan Parties (taken as a whole) to perform their payment and other material obligations under any Loan Document.

187 " **Material Indebtedness** " shall mean (x) with respect to any Loan Party, any outstanding Indebtedness (other than the Loans) of any such Person in an aggregate principal amount equal to or greater than U.S. $[***] and (y) with respect to any Project Entity (or, to the extent under a common financing arrangement, Project Entities), outstanding Indebtedness of any such Person in an aggregate principal amount equal to or greater than U.S. $[***](including under any Project Level Financing Documents).

188 " **Material Other Indebtedness Document** " shall mean any definitive documentation for any Indebtedness for borrowed money with a principal or committed amount equal to or greater than $[***] (and any Guarantees and security related thereto) of one or more Project Entities.

189 " **Material Project Level Agreements** " shall mean (i) the Project Level Financing Documents and (ii) the Major Revenue Contracts.

190 " **Material Project Subsidiary** " shall mean any of the Project Holdcos and AVSR Entities.

191 " **Maturity Date** " shall mean November 28, 2024 (or if such date is not a Business Day, the next succeeding Business Day, unless such Business Day is in the next calendar month, in which case the next preceding Business Day).

192 " **Maximum Rate** " shall have the meaning assigned to such term in Section 9.09 .

193 " **Moody's** " shall mean Moody's Investors Service, Inc., and its successors.

194 " **MSSF** " shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

" **Multiemployer Plan** " shall mean any employee benefit plan of the type described in Section 4001(a)(3) of ERISA, to which any Loan Party or any ERISA Affiliate makes or is obligated to make contributions.

195 " **Net Proceeds** " shall mean:

(a) 100.0% of the proceeds constituting Cash and Cash Equivalents paid and actually received by a Loan Party (including any cash payments or payments consisting of Cash and Cash Equivalents paid and received by way of deferred payment of principal pursuant to a note or installment receivable or purchase price adjustment receivable and including casualty insurance settlements and condemnation awards, but only as and when paid and received) from any loss, damage, destruction or condemnation of, or any sale, transfer or other disposition (including any sale and leaseback of assets) to any Person of any asset or assets of any of the Loan Parties (other than those permitted under Section 6.05 , other than Section 6.05(e) but subject to the terms of the Project Level Financing Documents) net of (x) attorneys' fees, accountants' fees, investment banking fees, sales commissions, required debt payments and required payments of other obligations (including swap breakage costs) relating to the applicable asset (other than pursuant hereto) and any cash reserve for adjustment in respect of the sale price of such asset established in accordance with GAAP, including pension and post-employment benefit liabilities and liabilities related to environmental matters or against any indemnification obligations associated with such transaction, other customary expenses and brokerage, consultant and other customary fees actually incurred in connection therewith and (y) Taxes and Other Taxes paid or payable as a result thereof; and

(b) 100.0% of the proceeds constituting Cash and Cash Equivalents from the incurrence, issuance or sale by any of the Loan Parties of any Indebtedness (other than Excluded Indebtedness), net of all Taxes and fees (including investment banking fees), commissions, costs and other expenses, in each case incurred in connection with such incurrence, issuance or sale.

For purposes of calculating the amount of Net Proceeds, fees, commissions and other costs and expenses payable to the Borrower or any of their respective Affiliates shall be disregarded, except for financial advisory fees customary in type and amount paid to Affiliates of the Sponsor.

196 " **Non-Consenting Lender** " shall have the meaning assigned to such term in Section 2.17(c) .

197 " **Non-U.S. Lender** " shall have the meaning assigned to such term in Section 2.15(e) .

198 " **Note** " shall mean a promissory note delivered by the Borrower pursuant to Section 2.07(d) and substantially in the form of Exhibit H .

199 " **Obligations** " shall mean all amounts owing to any of the Agents, any Lender or any other Secured Party pursuant to the terms of this Agreement or any other Loan Document, or to any Specified Swap Counterparty pursuant to the terms of any Secured Swap Agreement, or pursuant to the terms of any Guarantee thereof, including with respect to any Loan, Secured Swap Agreement or other agreement, and all other obligations and liabilities of the Loan Parties of any kind and description to the Agents, any Lender or any other Secured Party, in each case, whether direct or indirect (including those acquired by assumption), absolute or contingent, due or to become due, now existing or hereafter arising and whether on account of principal, interest, fees, indemnities, costs, expenses, guarantee obligations or otherwise, which may arise under, out of, or in connection with, this Agreement or any other Loan Document, and including interest and fees that accrue after the commencement by or against any Loan Party or any Affiliate thereof of any proceeding under any bankruptcy or insolvency laws naming such Person as the debtor in such proceeding, regardless of whether such interest and fees are allowed claims in such proceeding; *provided* , that at no time shall Obligations include any Excluded Swap Obligations.

200 " **OFAC** " shall mean the Office of Foreign Assets Control of the U.S. Department of the Treasury.

201 " **Operating Expenses** " shall mean all costs and expenses of the Borrower and Holding incurred by the Borrower and Holding pursuant to or in respect of the Loan Documents (other than Fees).

202 " **Organizational Documents** " shall mean (i) with respect to any corporation or company, its certificate, memorandum or articles of incorporation, organization or association, as amended, and its by- laws, as amended, (ii) with respect to any limited partnership, its certificate or declaration of limited partnership, as amended, and its partnership agreement, as amended, (iii) with respect to any general partnership, its partnership agreement, as amended, and (iv) with respect to any limited liability company, its articles of organization, as amended, and its operating agreement, as amended.

203 " **Other Connection Taxes** " shall mean, with respect to any Agent or any Lender, Taxes imposed as a result of a present or former connection between such recipient and the jurisdiction imposing such Tax (other than connections arising from such recipient having executed, delivered, become a party to, performed its obligations under, received payments under, received or perfected a security interest under, engaged in any other transaction pursuant to or enforced any Loan Document, or sold or assigned an interest in any Loan or Loan Document).

204 " **Other JV Entities** " shall mean the entities listed in Part 8 of Schedule 1.01C and, if applicable, any Additional Project Entities owned, directly or indirectly, by ExGen Renewables JV and that are not Continental Wind Entities, Bluestem Entities or RPG Entities.

205 " **Other JV Projects** " shall mean each of the wind and solar power electric generation projects owned by the Other JV Entities and listed under the heading "Other Projects" in Schedule 1.01D and any Additional Project owned by any Other JV Entity (each, individually, an " **Other JV Project** "), including with respect to each such Other JV Project the related Project site, and the panels, turbines, facilities, structures and improvements erected on such Project site and all other equipment and property

leased or owned by the applicable Other JV Entity with respect to such Other JV Project and attached to or placed upon such Project site or used in connection with the operation of such Other JV Project.

206 " **Other Taxes** " shall mean any and all present or future stamp, court, documentary, intangible, recording, filing or similar Taxes arising from any payment made under any Loan Document or from the execution, delivery, performance, enforcement or registration of, from the receipt or perfection of a security interest under, or otherwise with respect to, any Loan Document, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment (other than an assignment made pursuant to Section 2.17(b)).

207 " **Parent** " shall mean Exelon Corporation, a Pennsylvania corporation.

208 " **Participant** " shall have the meaning assigned to such term in Section 9.04(c)(i) .

209 " **Participant Register** " shall have the meaning assigned to such term in Section 9.04(c)(i) .

210 " **PBGC** " shall mean the Pension Benefit Guaranty Corporation referred to and defined in ERISA and any successor entity performing similar functions.

211 " **Permitted Acquisition** " shall mean (a) the acquisition, directly or indirectly, by the Borrower, whether by purchase, merger or otherwise (and in one or more transactions), of all or a portion of the Equity Interests in Albany Power Holdings that are not owned by it on the Closing Date and (b) any acquisition, directly or indirectly, by the Borrower, whether by purchase, merger or otherwise, of all or substantially all of the assets of, or all or a portion of the Equity Interests of, a Person owning any wholesale renewable electric generating facility or distributed electric generating portfolio in the United States (including any "ROFO Assets" as defined in the ExGen Renewables JV Agreement) (each an " **Additional Project** "); *provided* that (i) all transactions in connection therewith shall be consummated, in all material respects, in accordance with all applicable law and in conformity with all applicable consents, orders, permits and approvals of any Governmental Authority, (ii) such acquisition does not result in any default or event of default under any Material Project Level Agreement, (iii) to the extent the Person acquiring such assets or Equity Interests is a Loan Party, the Collateral and Guaranty Requirement shall have been satisfied and (iv) the Borrower shall have delivered to Administrative Agent a certificate of a Responsible Officer of the Borrower certifying compliance with the foregoing clauses (i) through (iii) .

212 " **Person** " shall mean any natural person, corporation, business trust, joint venture, association, company, partnership, limited liability company, individual or family trusts, or government or any agency or political subdivision thereof.

213 " **Plan** " shall mean any employee pension benefit plan (other than a Multiemployer Plan) that is maintained or is contributed to by a Loan Party or any ERISA Affiliate and is covered by Title IV of ERISA or is subject to minimum funding standards under Section 412 of the Code.

214 " **Platform** " shall have the meaning assigned to such term in Section 9.17(b) .

215 " **Pledge Agreement** " shall mean the Guarantee and Pledge Agreement, substantially in the form of Exhibit E-2 , between Holding, ExGen Renewables Holdings and the Collateral Agent.

216 " **Pledged Collateral** " with respect to particular Collateral, shall have the meaning assigned to such term, the term "Pledged Equity Interests" or similar term in the Security Document applicable to such Collateral.

217 " **Prepayment Notice** " shall mean a notice by the Borrower to prepay Loans in accordance with Section 2.08 , in substantially the form of Exhibit B .

218 " **Prime Rate** " shall mean the rate of interest per annum publicly announced from time to time by the Administrative Agent as its prime rate in effect at its principal office in New York, NY (the Prime Rate not being intended to be the lowest rate of interest charged by the Administrative Agent in connection with extensions of credit to debtors).

219 " **Prior Liens** " shall mean Liens permitted pursuant to Section 6.02 other than Liens permitted pursuant to clauses (b) , (d) and (h) of Section 6.02 .

220 " **Project Entities** " shall mean each of, or all of, as the context shall require, the AVSR Entities, the ExGen Renewables Entities, the SolGen Entities, the Albany Green Entities and any Additional Project Entities not otherwise included in the foregoing (but excluding, for purposes of clarity, any Project Entities transferred or otherwise disposed of in accordance with Section 6.05(e) from and after such disposition).

221 " **Project Holdcos** " each of, or all of, as the context shall require, (i) ExGen Renewables Holdings, (ii) SolGen Holding (until the consummation of the SolGen Disposition), (iii) Exelon AVSR Holding (until the consummation of the AVSR Disposition), and (iv) Albany Power Holdings (until the consummation of the AG Disposition where the Albany Green Entities are sold to ExGen Renewables JV) (or, if applicable in the case of an AG Disposition to a Person other than ExGen Renewables JV, any Additional Albany Green Entity directly owned by the Borrower).

222 " **Project Level Financing Documents** " shall mean (i) the Existing Project Level Financing Documents and (ii) any Material Other Indebtedness Document and any other definitive documentation for any Indebtedness for borrowed money of any Project Entity that is in full force and effect as of the Closing Date and set forth on Schedule 1.01B or entered into after the Closing Date (or, with respect to any Additional Project, was entered into on or prior to the date of the applicable Permitted Acquisition by the applicable Additional Project Entities), in each case, together with all amendments, modifications, supplements or replacements thereto or thereof to the extent permitted hereunder. Notwithstanding the foregoing, for the avoidance of doubt, solely for the purposes of Sections 6.01(h) , 6.02(h) , and 6.05(e) , the term "Project Level Financing Documents" shall only include those documents and agreements listed in clauses (i) and (ii) of the preceding sentence as such documents and agreements are in effect as of the Closing Date and without giving effect to any amendments, modifications, supplements or replacements thereto or thereof after the Closing Date (other than any amendments, modifications, supplements or replacements thereto or thereof as to which the Required Lenders shall have consented to in writing).

223 " **Project Level Indebtedness** " shall mean Indebtedness of the Project Entities existing on the Closing Date and set forth on Schedule 6.01(i) .

224 " **Project Liquidity Shortfall** " shall have the meaning assigned to such term in Section 2.19(e)(iii) .

225 " **Projections** " shall mean the projections of the Borrower and its Subsidiaries, including the Base Case Model, the *pro forma* balance sheet of the Borrower referred to in Section 3.05(c) and any other projections and any forward-looking statements (including statements with respect to booked business) of such entities furnished to the Lenders, the Lead Arranger or the Administrative Agent by or on behalf of Holding or any of its Subsidiaries prior to the Closing Date.

226 " **Projects** " shall mean each of, or all of, as the context shall require, the ExGen Renewables JV Projects (including the Continental Wind Projects, the RPG Projects and the Other JV Projects), the SolGen Projects (until the consummation of the SolGen Disposition), the AV Solar Project (until the consummation of the AVSR Disposition), the Albany Green Project (until the consummation of the AG Disposition where the Albany Green Entities are sold to ExGen Renewables JV) and any Additional Projects not otherwise included in the foregoing (but excluding, for purposes of clarity, any Projects transferred or otherwise disposed of in accordance with Section 6.05(e) from and after such disposition).

227 " **PTC Agreements** " shall mean (i) the Offtake Agreement, dated as of September 1, 2013, by and between Parent and Continental Wind, LLC and (ii) the Offtake Agreement, dated as of March 31, 2016, by and between Sponsor and Renewable Power Generation, LLC.

228 " **Public Lender** " shall have the meaning assigned to such term in Section 9.17(b) .

229 " **Public Side Information** " shall have the meaning assigned to such term in Section 9.17(b) .

230 " **PUHCA** " shall have the meaning assigned to such term in Section 3.08(c) .

231 " **Qualified Equity Interests** " of any Person shall mean any Equity Interest of such Person that is not a Disqualified Equity Interest.

232 " **Quarterly Date** " shall mean each February 28, May 31, August 31 and November 30 of each calendar year. The first Quarterly Date after the Closing Date shall be February 28, 2018.

233 " **Ratings Reaffirmation** " shall mean, in the case of an event or proposed event, a reaffirmation by each of S&P and Moody's that the then current ratings respectively assigned by such entities to the Term Loan Facility will not be lower, after giving effect to the event or proposed event, than the ratings respectively assigned by such entities to the Term Loan Facility immediately prior to such event or proposed event.

234 " **Register** " shall have the meaning assigned to such term in Section 9.04(b)(iv) .

235 " **Regulation D** " shall mean Regulation D of the Board as from time to time in effect and all official rulings and interpretations thereunder or thereof.

236 " **Regulation T** " shall mean Regulation T of the Board as from time to time in effect and all official rulings and interpretations thereunder or thereof.

237 " **Regulation U** " shall mean Regulation U of the Board as from time to time in effect and all official rulings and interpretations thereunder or thereof.

238 " **Regulation X** " shall mean Regulation X of the Board as from time to time in effect and all official rulings and interpretations thereunder or thereof.

239 " **Related Indemnitee** " shall mean, with respect to any Indemnitee, (i) any Affiliate of an Indemnitee and (ii) the Related Parties of such Indemnitee, in each case, only to the extent such Person is acting on the instructions of such Indemnitee or within the scope of such Person's employment or engagement by such Indemnitee.

240 " **Related Parties** " shall mean, with respect to any specified Person, such Person's Affiliates and the respective partners, directors, officers, employees, agents, trustees and advisors of such Person and such Person's Affiliates.

241 " **Release** " shall mean any placing, spilling, leaking, seepage, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, disposing, depositing or migrating in, into, onto or through the Environment, and " **Released** " shall have a meaning correlative thereto.

242 " **Relevant Parties** " shall have the meaning assigned to such term in Section 9.23(a) .

243 " **Repricing Event** " shall mean (i) (x) any voluntary prepayment of Loans pursuant to Section 2.09(a) , in whole or in part, with the proceeds of, or any conversion of any Loans into, any new or replacement tranche of debt financing bearing interest at an "effective" interest rate less than the "effective" interest rate applicable to the Loans or (y) any amendment to this Agreement that, directly or indirectly, reduces the "effective" interest rate applicable to the Loans or (ii) any assignment permitted under Section 2.17(c) of all or any portion of the Loans of any Lender in connection with any amendment under clause (i) of this definition. For purposes of this definition, the "effective" interest rate shall be deemed to include original issue discount and upfront fees (which fees shall be deemed to constitute like amounts of original issue discount being equated to interest margins in a manner consistent with generally accepted financial practice based on an assumed four-year life to maturity) and, in any event, will exclude arrangement, structuring or other fees paid in connection therewith that are not shared with all lenders in connection with such Repricing Event.

243 " **Required Lender Vote/Directive** " shall have the meaning assigned to such term in Section 9.22.

244 " **Required Lenders** " shall mean, at any time, Lenders having Loans and Commitments outstanding that, taken together, represent more than 50.0% of the sum of all Loans and Commitments outstanding. The Loans and Commitments of any Defaulting Lender shall be disregarded in determining Required Lenders at any time and the Loans and Commitments of any Affiliated Lenders shall, for purposes of this definition, be subject to Section 9.22 .

245 " **Resolution Authority** " means any public administrative authority or any person entrusted with public administrative authority of any EEA Member Country (including any delegee) having responsibility for the resolution of any EEA Financial Institution.

246 " **Responsible Officer** " of any Person shall mean any executive officer or Financial Officer of such Person and any other officer or similar official thereof responsible for the administration of the obligations of such Person in respect of the Loan Documents.

247 " **Revenue Account** " shall have the meaning assigned to such term in Section 2.19(a) .

248 " **Revolving Facility** " shall the meaning assigned to such term in Section 2.20(a) .

249 " **RPG Entities** " shall mean RPG Holdings and the other entities listed in Part 4 of Schedule 1.01C and, if applicable, any Additional Project Entities owned, directly or indirectly, by RPG Holdings.

250 " **RPG Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A .

" **RPG Holdings** " shall mean Renewable Power Generation Holdings, LLC, a Delaware limited liability company.

" **RPG Projects** " shall mean each of the seven wind and solar power electric generation projects owned by the RPG Entities and listed under the heading "RPG Projects" in Schedule 1.01D and any Additional Projects owned by any RPG Entity (each, individually, a " **RPG Project** "), including with respect to each such RPG Project the related Project site, and the panels, turbines, facilities, structures and improvements erected on such Project site and all other equipment and property leased or owned by RPG Holdings and its Subsidiaries with respect to such RPG Project and attached to or placed upon such Project site or used in connection with the operation of such RPG Project.

" **S&P** " shall mean S&P Global Ratings, acting through Standard & Poor's Financial Services LLC.

" **Sale and Lease-Back Transaction** " shall have the meaning assigned to such term in Section 6.03 .

" **Sanctioned Country** " shall mean, at any time, a country, region or territory which is itself the subject or target of any Sanctions (at the time of this Agreement: Crimea, Cuba, Iran, North Korea and Syria).

" **Sanctioned Person** " shall mean, at any time, any Person subject to or the target of Sanctions including, without limitation, (a) any Person listed in any of the following Sanctions-related lists of designated Persons: OFAC's Specially Designated Nationals ("SDN") List, BIS's Denied Persons, Unverified and Entity Lists, the U.S. Department of State's Debarred Persons List, the Consolidated United Nations Security Council Sanctions List, the U.K. HM Treasury Consolidated List of Targets, or the European Union's List of designated individuals and entities, (b) any Person organized or resident in a Sanctioned Country (unless otherwise permitted, exempted, excepted, generally licensed, or specifically licensed by the applicable administering agency) or (c) any Person owned or controlled by any such Person or Persons described in the foregoing clauses (a) or (b) .

" **Sanctions** " shall mean all economic or financial sanctions or trade embargoes imposed, administered or enforced from time to time by (a) the United States and administered by OFAC, BIS or the U.S. Department of State, or any successor agency, and (b) the United Nations Security Council, the European Union as administered by any European Union member state, or the United Kingdom's HM Treasury, or any sanctions authority of a jurisdiction where a Loan Party, Loan Party Subsidiary or Loan Party Affiliate is located or doing business.

" **Scheduled Amortization Payment** " shall have the meaning assigned to such term in Section 2.08(a) .

" **SEC** " shall mean the Securities and Exchange Commission or any successor thereto.

" **Secured Parties** " means the Agents, the Lead Arranger, the Lenders from time to time party hereto and each Specified Swap Counterparty.

" **Secured Swap Agreement** " shall mean any Swap Agreement settled by reference to interest rates that is entered into by the Borrower and any Specified Swap Counterparty, to the extent, the Borrower has notified the Administrative Agent of its entry thereof and designated the applicable Lender Counterparty as a Specified Swap Counterparty (for the avoidance of doubt, it being understood that such notification may cover all transactions that have been or may be entered into under a specific

master agreement and, in any event, that such notification and designation shall only need to be made once).

262 " **Securities Act** " shall mean the Securities Act of 1933, as amended.

263 " **Security Agreement** " shall mean the Pledge and Security Agreement, substantially in the form of Exhibit E-1 , among the Borrower and the Collateral Agent.

264 " **Security Documents** " shall mean the Security Agreement, the Pledge Agreement, the Control Agreements and each of the security agreements and other instruments and documents executed and delivered pursuant to any of the foregoing, the Collateral and Guarantee Requirement or Section 5.10 .

265 " **SolGen Disposition** " shall have the meaning assigned to such term in Section 6.05(h).

266 " **SolGen Entities** " shall mean SolGen Holding and the other entities listed in Part 5 of Schedule 1.01C and, if applicable, any Additional Project Entities owned, directly or indirectly, by SolGen Holding.

267 " **SolGen Financing Documents** " shall have the meaning assigned to such term in Schedule 1.01A .

268 " **SolGen Holding** " shall have the meaning assigned to such term in the recitals hereto.

269 " **SolGen Projects** " shall mean each of the thirty seven projects that comprise distributed solar photovoltaic generation assets on 192 sites owned by the SolGen Entities and listed under the heading "SolGen Projects" in Schedule 1.01D and any Additional Project owned by any SolGen Entity (each, individually, a " **SolGen Project** "), including with respect to each such SolGen Project the related Project sites, and the panels, facilities, structures and improvements erected on such Project sites and all other equipment and property leased or owned by the SolGen Entities with respect to such SolGen Project and attached to or placed upon such Project sites or used in connection with the operation of such SolGen Project.

270 " **Solvent** " or " **Solvency** " shall mean, with respect to any Person (on a consolidated basis) on any date of determination, that on such date (i) the fair value of the assets (for the avoidance of doubt, calculated to include goodwill and other intangibles) of such Person, at a fair valuation, will exceed the debts and liabilities, direct, subordinated, contingent or otherwise, of such Person; (ii) the present fair saleable value of the property of such Person will be greater than the amount that will be required to pay the probable liabilities of such Person on its debts and other liabilities, direct, subordinated, contingent or otherwise, as such debts and other liabilities become absolute and matured; (iii) such Person will be able to pay its debts and liabilities, direct, subordinated, contingent or otherwise, as such debts and liabilities become absolute and matured and (iv) such Person will not have unreasonably small capital with which to conduct the businesses in which it is engaged as such businesses are now conducted and are proposed to be conducted following such date.

271 " **Specified Swap Counterparty** " shall mean any Person that, at the time it enters into a Swap Agreement, is a Lender Counterparty.

272 " **Sponsor** " shall mean Exelon Generation Company, LLC, a Pennsylvania limited liability company.

273 " **Sponsor Guaranty** " shall mean a guaranty of payment in form and substance reasonably acceptable to the Administrative Agent issued by an Acceptable Guarantor, which guaranty shall name the Collateral Agent (for the benefit of the Lenders) as the beneficiary thereof.

274 " **Subsidiary** " shall mean, with respect to any Person (herein referred to as the " **parent** "), any corporation, partnership, association, joint venture, limited liability company or other business entity of which securities or other ownership interests representing more than 50.0% of the equity or more than 50.0% of the ordinary voting power or more than 50.0% of the general partnership interests are, at the time any determination is being made, directly or indirectly, owned, Controlled or held by such Person.

275 " **Successor Benchmark Rate** " shall have the meaning assigned to such term in Section 2.12(b) .

276 " **Swap Agreements** " shall mean any agreement with respect to any swap, forward, future or derivative transaction or option or similar agreement involving, or settled by reference to, rates, currencies, commodities, equity or debt instruments or securities, or economic, financial or pricing indices or measures of economic, financial or pricing risk or value or any similar transaction or any combination of these transactions; *provided* that no phantom stock or similar plan providing for payments only on account of services provided by current or former directors, officers, employees or consultants of any Loan Party or any of their respective Subsidiaries shall be a Swap Agreement.

277 " **Swap Obligation** " shall mean, with respect to any Guarantor (as defined in the Collateral Agreement), any obligation to pay or perform under any agreement, contract or transaction that constitutes a "swap" within the meaning of Section 1a(47) of the Commodity Exchange Act.

278 " **Syndication Agent** " shall mean MSSF in its capacity as syndication agent.

279 " **Target Balance Prepayment Amount** " shall mean, with respect to any ECF Sweep Date occurring in 2022 or thereafter, an amount equal to the lesser of (a) any Excess Cash Flow for the Excess Cash Flow Period most recently ended on such ECF Sweep Date remaining in the Revenue Account after giving effect to any transfers on such ECF Sweep Date pursuant to Section 2.19(c)(vii)(B) and (b) the amount of any remaining Excess Cash Flow for the Excess Cash Flow Period most recently ended on such ECF Sweep Date that, if applied to a prepayment of the Loans pursuant to Section 2.09(c) , would reduce the outstanding principal amount of Loans (pro forma after giving effect to such prepayment) to the Target Loan Balance for such ECF Sweep Date; *provided* that such amount shall not be less than zero.

280 " **Target Loan Balance** " shall mean, with respect to each ECF Sweep Date occurring in 2022 or thereafter, the amount noted on Schedule 1.01E for such ECF Sweep Date; *provided* that in the event of any prepayment of Loans pursuant to Section 2.09(b)(i) with any Target Sale Prepayment Amount, the amount set forth for each ECF Sweep Date thereafter set forth on Schedule 1.01E shall be adjusted by reducing each such amount by the amount of such Target Sale Prepayment Amount, and the Borrower shall promptly after any such prepayment provide an updated Schedule 1.01E to the Administrative Agent reflecting these reductions.

281 " **Target Sale Additional Prepayment Amount** " shall have the meaning assigned to such term in Section 2.09(b).

282 " **Target Sale Prepayment Amount** " shall mean the product of (a) the portion of the Equity Interests in AG Holdings, the AVSR Entities or the SolGen Entities (as the case may be) sold or transferred in connection with the applicable disposition (expressed as a fraction of the total Equity

Interests in the applicable Person(s)) *multiplied by* (b) with respect to (i) the AG Disposition, $[***], (ii) the AVSR Disposition, $[***] and (iii) the SolGen Disposition, $[***].

283 " **Taxes** " shall mean any and all present or future taxes, levies, imposts, duties (including stamp duties), deductions, charges (including ad valorem charges), withholdings (including backup withholding), assessments and other fees imposed by any Governmental Authority and any and all additions to tax, interest and penalties related thereto.

284 " **Term Loan Facility** " shall mean the Commitments and the Loans made hereunder.

285 " **Test Period** " shall mean, at any date of determination, the most recently completed four (4) consecutive Test Quarters of the Borrower ending on or prior to such date.

286 " **Test Quarter** " shall mean each three-month period ending on a Quarterly Date.

287 " **Transactions** " shall mean, collectively, (a) the execution and delivery of the Loan Documents, the Borrowings hereunder, the consummation of the Term Loan Facility and the use of the proceeds thereof, (b) the providing of a Guarantee by Holding and ExGen Renewables Holdings and the granting and perfection of security interests in connection with the transactions referred to in clause (a) above and (c) the payment of all fees and expenses due and payable on the Closing Date as expressly provided in the Engagement Letter, the Fee Letters and the Loan Documents in connection with the foregoing.

288 " **Trigger Event** " means an Event of Default exists and as a result thereof any Obligations become or are declared to be due and payable prior to their scheduled maturity (as notified in writing to the Collateral Agent).

289 " **Type** " shall mean LIBOR Loans or Base Rate Loans, as applicable, each of which constitutes a Type of Loan.

290 " **U.S. Dollars** " or " **U.S. $** " shall mean the lawful currency of the United States.

291 " **UCC** " shall mean the Uniform Commercial Code as the same may, from time to time, be in effect in the State of New York; *provided however* that, in the event that, by reason of mandatory provisions of law, any or all of the attachment, perfection or priority of the security interest in any Collateral is governed by the Uniform Commercial Code as in effect in a jurisdiction other than the State of New York, the term "UCC" means the Uniform Commercial Code as in effect in such other jurisdiction for purposes of the provisions hereof relating to such attachment, perfection or priority and for purposes of definitions related to such provisions.

292 " **United States** " or " **U.S.** " shall mean the United States of America.

293 " **U.S.A. Patriot Act** " means, the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, Public Law 107-56 (signed into law on October 26, 2001).

294 **"U.S. Person"** means, unless otherwise specified, any United States citizen, permanent resident alien, entity organized under the laws of the United States or any jurisdiction within the United States (including foreign branches), or any person in the United States.

295 " **Voting Stock** " of any specified Person as of any date shall mean the Capital Stock of such Person that is at the time entitled to vote in the election of the Board of Directors of such Person.

296 " **Withdrawal Certificate** " shall have the meaning assigned to such term in Section 2.19(c) .

297 " **Write-down and Conversion Powers** " means in relation to any Bail-In Legislation described in the EU Bail-In Legislation Schedule from time to time, the powers described as such in relation to that Bail-In Legislation in the EU Bail-In Legislation Schedule.

Section 1.02 *Terms Generally* . The definitions set forth or referred to in Section 1.01 shall apply equally to both the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words "include," "includes" and "including" shall be deemed to be followed by the phrase "without limitation." All references herein to Articles, Sections, Exhibits and Schedules shall be deemed references to Articles and Sections of, and Exhibits and Schedules to, this Agreement unless the context shall otherwise require. Except as otherwise expressly provided herein, any reference in this Agreement to any Loan Document or any other agreement or instrument delivered in connection herewith or therewith or referred to herein shall mean such document as amended, restated, supplemented or otherwise modified from time to time. Except with respect to the financial statements referenced in Section 3.05(b) and (c) and as otherwise expressly provided herein, all financial statements to be delivered pursuant to this Agreement shall be prepared in accordance with United States generally accepted accounting principles applied on a consistent basis (" **GAAP** ") and all terms of an accounting or financial nature shall be construed and interpreted in accordance with GAAP, as in effect from time to time; *provided* that, if the Borrower notifies the Administrative Agent that the Borrower requests an amendment to any provision hereof to eliminate the effect of any change occurring after the Closing Date in GAAP or in the application thereof on the operation of such provision (or if the Administrative Agent notifies the Borrower that the Required Lenders request an amendment to any provision hereof for such purpose), regardless of whether any such notice is given before or after such change in GAAP or in the application thereof, then such provision shall be interpreted on the basis of GAAP as in effect and applied immediately before such change shall have become effective until such notice shall have been withdrawn or such provision amended in accordance herewith.

Article II.
THE CREDITS

Section 2.01 *Commitments* . Subject to the terms and conditions set forth herein, each Lender party hereto agrees to make Loans to the Borrower in the applicable amounts set forth opposite each Lender's name on Schedule 2.01 on the Closing Date in U.S. Dollars in an aggregate principal amount that will not result in the aggregate amount of such Lender's Loans exceeding such Lender's Commitment. Amounts repaid or prepaid in respect of the Loans may not be reborrowed. The Term Loan Facility shall be made available as Base Rate Loans and LIBOR Loans.

Section 2.02 *Loans and Borrowings.*

(a) Each Loan to the Borrower shall be made as part of a Borrowing consisting of Loans of the same Type and in the same currency made by the Lenders on a *pro rata* basis in accordance with their respective Commitments. The failure of any Lender to make any Loan required to be made by it shall not relieve any other Lender of its obligations hereunder; *provided* that the Commitments of the Lenders are several and not joint, and no Lender shall be responsible for any other Lender's failure to make Loans as required.

(b) Subject to Section 2.12 , each Borrowing shall be comprised entirely of Base Rate Loans or LIBOR Loans as the Borrower may request in accordance herewith.

(c) Borrowings of more than one Type may be outstanding at the same time; *provided* that there shall not at any time be more than a total of five (5) Interest Periods in respect of Borrowings outstanding; *provided* , *further* , that Interest Periods for the Borrower that commence on the same day and that have the same duration shall be deemed to be one (1) interest period for the purpose of this Section 2.02(c) .

(d) Notwithstanding any other provision of this Agreement, the Borrower shall not be entitled to request, or to elect to convert or continue, any Borrowing if the Interest Period requested with respect thereto would end after the Maturity Date.

Section 2.03 *Requests for Borrowings* . Each Borrowing shall be made upon the Borrower's irrevocable notice to the Administrative Agent, which may be given by "pdf" or similar electronic format, in the form of a written Borrowing Request signed by the Borrower. Each such Borrowing Request must be received by the Administrative Agent (i) in the case of the Borrowing on the Closing Date, not later than 2:00 p.m. (New York City time), at least two (2) Business Days before the proposed Borrowing or (ii) otherwise, (A) in the case of a Borrowing consisting of LIBOR Loans, not later than 11:00 a.m. (New York City time), three (3) Business Days before the date of the proposed Borrowing or (B) in the case of a Borrowing consisting of Base Rate Loans, not later than 12:00 noon (New York City time), one (1) Business Day before the date of the proposed Borrowing. Each such written Borrowing Request shall specify the following information in compliance with Section 2.02 :

(a) the aggregate amount of the requested Borrowing;

(b) the date of such Borrowing, which shall be a Business Day;

(c) whether such Borrowing is to be an Base Rate Borrowing or a LIBOR Borrowing;

(d) in the case of a Borrowing consisting of a LIBOR Loan, the initial Interest Period to be applicable thereto; and

(e) the location and number of the Borrower's account to which funds are to be disbursed.

If no election as to the Type of Borrowing is specified, then the requested Borrowing shall be a Base Rate Borrowing. If no Interest Period is specified with respect to any requested LIBOR Borrowing, then such Borrower shall be deemed to have selected an Interest Period of three (3) months' duration. Promptly following receipt of a Borrowing Request in accordance with this Section 2.03 , the Administrative Agent shall advise each Lender of the details thereof and of the amount of such Lender's Loan to be made as part of the requested Borrowing.

Section 2.04 *Funding of Borrowings* .

(a) Each Lender shall make each Loan to be made by it to the Borrower hereunder on the proposed date thereof by wire transfer of immediately available funds by 1:00 p.m. (New York City time), to the account of the Administrative Agent most recently designated by it for such purpose by notice to the Lenders. The Administrative Agent will make such Loans available to the Borrower by promptly crediting the amounts so received, in like funds, to such account as is designated by the Borrower in its respective Borrowing Request.

(b) Unless the Agent shall have received notice from a Lender prior to the proposed time of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section 2.04 and may, in reliance upon

such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand (without duplication) such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation or (ii) in the case of the Borrower, the interest rate applicable to Base Rate Loans. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Loan included in such Borrowing.

Section 2.05 *Interest Elections* .

(a) Each Borrowing initially shall be of the Type specified in the applicable Borrowing Request and, in the case of a LIBOR Borrowing, shall have an initial Interest Period as specified in such Borrowing Request. Thereafter, the Borrower may elect, in the case of any Borrowing to convert such Borrowing to a different Type or to continue such Borrowing and, in the case of a LIBOR Borrowing, may elect Interest Periods therefor, all as provided in this Section 2.05 . The Borrower may elect different options with respect to different portions of the affected Borrowing, in which case each such portion shall be allocated on a *pro rata* basis among the Lenders holding the Loans comprising such Borrowing, and the Loans comprising each such portion shall be considered a separate Borrowing.

(b) Each interest election pursuant to this Section 2.05 shall be made upon the Borrower's irrevocable notice to the Administrative Agent, which may be given by "pdf" or similar electronic format, in the form of a written Interest Election Request signed by the Borrower.

(c) Each written Interest Election Request shall specify the following information in compliance with Section 2.02 :

(i) the Borrowing to which such Interest Election Request applies and, if different options are being elected with respect to different portions thereof, the portions thereof to be allocated to each resulting Borrowing (in which case the information to be specified pursuant to clauses (iii) and (iv) below shall be specified for each resulting Borrowing);

(ii) the effective date of the election made pursuant to such Interest Election Request, which shall be a Business Day;

(iii) whether the resulting Borrowing is to be an Base Rate Borrowing or a LIBOR Borrowing; and

(iv) if the resulting Borrowing is a LIBOR Borrowing, the Interest Period to be applicable thereto after giving effect to such election.

If any such Interest Election Request made by the Borrower requests a LIBOR Borrowing but does not specify an Interest Period, then the Borrower shall be deemed to have selected an Interest Period of three (3) months' duration.

(d) Promptly following receipt of an Interest Election Request, the Administrative Agent shall advise each Lender to which such Interest Election Request relates of the details thereof and of such Lender's portion of each resulting Borrowing.

(e) If the Borrower fails to deliver a timely Interest Election Request with respect to a LIBOR Borrowing prior to the end of the Interest Period applicable thereto, then, unless such Borrowing is repaid as provided herein, at the end of such Interest Period, the Borrower shall be deemed to have converted such Borrowing to a LIBOR Borrowing with an Interest Period of three (3) months' duration at the end of such Interest Period. Notwithstanding any contrary provision hereof, if an Event of Default has occurred and is continuing, then, so long as such Event of Default is continuing, (i) no outstanding Borrowing may be converted to or continued as a LIBOR Borrowing and (ii) unless repaid, each LIBOR Borrowing shall be converted to a Base Rate Borrowing at the end of the Interest Period applicable thereto.

Section 2.06 *Termination of Commitments* . Any undrawn Commitments will terminate at 5:00 p.m. (New York City time) on the Closing Date.

Section 2.07 *Evidence of Debt* .

(a) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from each Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(b) The Administrative Agent shall maintain accounts in which it shall record (i) the amount of each Loan made hereunder, the Type thereof and the Interest Period (if any) applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) any amount received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(c) The entries made in the accounts maintained pursuant to paragraph (a) or (b) of this Section 2.07 shall be prima facie evidence absent manifest error of the existence and amounts of the obligations recorded therein; *provided* that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the obligations of the Borrower to repay the Loans in accordance with the terms of this Agreement; *provided* , *further* , that in the event of any conflict between the accounts maintained pursuant to paragraph (a) or (b) of this Section 2.07 , the entries made in the Register shall control.

(d) Any Lender may request that Loans made by it to the Borrower be evidenced by a Note. In such event, the Borrower shall prepare, execute and deliver to such Lender a Note payable to such Lender (or, if requested by such Lender, to such Lender and its registered assigns). Thereafter, the Loans evidenced by such Note and interest thereon shall at all times (including, to the extent requested by any assignee, after assignment pursuant to Section 9.04) be represented by one or more Notes payable to the payee named therein (or to such payee and its registered assigns).

Section 2.08 *Repayment of Loans; Application of Prepayments* .

(a) The Borrower hereby unconditionally promises to pay to the Administrative Agent for the account of each Lender the then unpaid principal amount of each Loan made to the Borrower on such dates and in such amounts as provided in this Section 2.08 . Subject to adjustment pursuant to paragraph (c) of this Section 2.08 , (i) the Borrower shall repay on each Quarterly Date an aggregate principal amount equal to 0.25% of the aggregate principal amount of the Loans drawn on the Closing Date (each a " **Scheduled Amortization Payment** ") and (ii) the Borrower shall repay on the Maturity Date all remaining amounts of the Loans then outstanding. All payments under this Section 2.08(a) shall be allocated to the Lenders on a *pro rata* basis. For the avoidance of doubt, no Default or Event of Default shall arise solely as a result of the outstanding principal amount of the Loans exceeding the scheduled Target Loan Balance for any ECF Sweep Date after giving effect to any prepayments made pursuant to Section 2.09(c) for such ECF Sweep Date.

(b) To the extent not previously paid, all Loans shall be due and payable on the Maturity Date.

(c) Prepayment of the Loans (i) pursuant to Section 2.09(b), shall be applied to Scheduled Amortization Payments and the remaining unpaid principal amount of Loans due and payable on the Maturity Date in the inverse order of maturity, (ii) pursuant to Section 2.09(c) , shall be applied, *first* , in direct order of maturity to all Scheduled Amortization Payments in respect of the Loans due on the immediately succeeding four (4) Quarterly Dates from the date of such prepayment, *second* , to the remaining Scheduled Amortization Payments in respect of the Loans and the remaining unpaid principal amount of Loans due and payable on the Maturity Date in the inverse order of maturity, and (iii) from any optional prepayments pursuant to Section 2.09(a) shall be applied to the remaining Scheduled Amortization Payments in respect of the Loans as directed by the Borrower and thereafter to the remaining unpaid principal amount of Loans due and payable on the Maturity Date, and all such payments pursuant to clauses (i) , (ii) and (iii) shall be allocated ratably to the Lenders.

(d) Prior to any repayment of any Borrowing hereunder, the Borrower shall select the Borrowing or Borrowings to be repaid and shall notify the Administrative Agent by irrevocable notice to the Administrative Agent, which may be given by "pdf" or similar electronic format, in the form of a written Prepayment Notice signed by the Borrower. Such Prepayment Notice shall be received by the Administrative Agent not later than 2:00 p.m. (New York City time) (i) in the case of an Base Rate Borrowing, one (1) Business Day before the scheduled date of such repayment and (ii) in the case of a LIBOR Borrowing, three (3) Business Days before the scheduled date of such repayment. Each repayment of a Borrowing shall be allocated ratably to the Loans included in the repaid Borrowing.

Section 2.09 *Optional and Mandatory Prepayment of Loans* .

(a) The Borrower shall have the right at any time and from time to time to prepay Loans in whole or in part (but subject to Section 2.14 and Section 2.09(d)), in an aggregate principal amount that is an integral multiple of U.S. $1.0 million and not less than U.S. $1.0 million or, if less, the amount outstanding, subject to prior notice in the form of Exhibit B hereto provided in accordance with Section 2.08(d) .

(b) The Borrower shall apply Net Proceeds promptly upon (and in any event within three (3) Business Days of) receipt thereof by any of the Loan Parties as follows (i) with respect to Net Proceeds from the AG Disposition, AVSR Disposition and SolGen Disposition (A) Net Proceeds in an amount up to the applicable Target Sale Prepayment Amount and (B) 50% of the amount of Net Proceeds in excess of such applicable Target Sale Prepayment Amount (the " **Target Sale Additional Prepayment Amount** "), if any, shall be applied to prepay Loans in accordance with Section 2.08(c) and (ii) all other Net Proceeds shall be applied to prepay Loans made to the Borrower in accordance with Section 2.08(c) ; *provided* that, any amount of Net Proceeds from the AG Disposition, AVSR Disposition or SolGen Disposition (if any), in excess of the Target Sale Prepayment Amount and, if applicable, any Target Sale Additional Prepayment Amount (" **Excess Project Disposition Proceeds** ") shall not be subject to this Section 2.09(b) and may be deposited in the Equity Proceeds Account and transferred in accordance with Section 2.19(g) .

(c) On the date that is five (5) Business Days after the Quarterly Date occurring in May of each year (the " **ECF Sweep Date** "), the Borrower shall apply all amounts on deposit in the ECF Prepayment Account (after giving effect to transfers of Excess Cash Flow pursuant to Section 2.19(c)(vii) on such Quarterly Date) to prepay the Loans in accordance with Section 2.08(c) , in each case as calculated and certified by the Borrower pursuant to Section 5.04(e) .

(d) In the event that a Repricing Event is consummated in connection with all or any portion of the Loans on or prior to the period ending six months from the Closing Date, the Borrower shall pay to the Lenders a non-refundable fee equal to 1.00% of the aggregate principal amount of the Loans prepaid, converted or assigned in connection with such Repricing Event.

Section 2.10 *Fees* .

(a) The Borrower shall pay to the Administrative Agent, for the account of the Administrative Agent, the administrative fees set forth in the applicable Fee Letter at the times specified therein (the " **Administrative Agent Fees** ").

(b) The Borrower shall pay to the Collateral Agent, for the account of the Collateral Agent, and to the Depositary Bank, for the account of the Depositary Bank, the fees and other amounts set forth in the Fee Letters between the Borrower and the Collateral Agent and Depositary Bank (including attorneys' fees and expenses), respectively, at the times specified therein.

(c) The Borrower agrees to pay on the Closing Date such fees as are set forth in the Engagement Letter and the Fee Letters and expressly provided therein as being due and payable on the Closing Date (which fees shall be non-refundable and non-creditable thereafter).

(d) All Fees shall be paid on the dates due, in immediately available funds, to the Administrative Agent for distribution, if and as appropriate, among the Lenders. Once paid, none of the Fees shall be refundable under any circumstances.

Section 2.11 *Interest* .

(a) The Borrower shall pay interest on the unpaid principal amount of each Base Rate Loan made to the Borrower at the Base Rate *plus* the Applicable Margin.

(b) The Borrower shall pay interest on the unpaid principal amount of each LIBOR Loan made to the Borrower at the LIBO Rate for the Interest Period in effect for such LIBOR Loan *plus* the Applicable Margin.

(c) Notwithstanding the foregoing, if any principal of or interest on any Loan or any Fees or other amount payable by the Borrower hereunder is not paid when due, whether at stated maturity, upon acceleration or otherwise, then the Borrower shall pay interest on such overdue amount, after as well as before judgment, at a rate *per annum* equal to (x) in the case of overdue principal of any Loan, 2.00% *plus* the rate otherwise applicable to such Loan as provided in the preceding paragraphs of this Section 2.11 or (y) in the case of any other amount, 2.00% *plus* the rate applicable to Base Rate Loans in paragraph (a) of this Section 2.11 .

(d) Accrued interest on each Loan shall be payable by the Borrower from and after the Closing Date in arrears on each Interest Payment Date for such Loan, and on the Maturity Date; *provided* that (x) interest accrued pursuant to paragraph (c) of this Section 2.11 shall be payable on demand, (y) in the event of any repayment or prepayment of any Loan (other than a prepayment of an Base Rate Loan prior to its stated maturity (unless all Loans are being repaid)), accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment and (z) in the event of any conversion of any LIBOR Loan prior to the end of the current Interest Period therefor, accrued interest on such Loan shall be payable on the effective date of such conversion.

(e) All computations of interest shall be made by the Administrative Agent taking into account the actual number of days occurring in the period for which such interest is payable (including the first day but excluding the last day) pursuant to this Section 2.11 , and (i) if based on the Base Rate as calculated based on the Prime Rate, a year of 365 days or 366 days, as the case may be; or (ii) if based on the Base Rate (other than as calculated based on the Prime Rate) or the LIBO Rate, on the basis of a year of 360 days.

Section 2.12 *Alternate Rate of Interest* .

(a) If prior to the commencement of any Interest Period for a LIBOR Borrowing:

(i) the Administrative Agent determines in good faith that adequate and reasonable means do not exist for ascertaining the LIBO Rate for such Interest Period; or

(ii) the Administrative Agent is advised by the Required Lenders (acting in good faith) that the LIBO Rate for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period;

then the Administrative Agent shall give written notice thereof to the Borrower and the Lenders as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, (x) any Interest Election Request that requests the conversion of any Borrowing to, or continuation of any Borrowing as, a LIBOR Borrowing shall be ineffective and such Borrowing shall be converted to an Base Rate Borrowing on the last day of the Interest Period

applicable thereto, and (y) if any Borrowing Request requests a LIBOR Borrowing, such Borrowing shall be made as an Base Rate Borrowing.

(b) If the Borrower and the Administrative Agent reasonably determine in good faith that an interest rate is not ascertainable pursuant to the provisions of the definition of "LIBO Base Rate" and the inability to ascertain such rate is unlikely to be temporary, the "LIBO Base Rate" shall be an alternate rate of interest established by the Administrative Agent and the Borrower that is commercially practicable for the Administrative Agent to administer (as determined by the Administrative Agent in its reasonable discretion) and is generally accepted as the then prevailing market convention for determining a rate of interest (including the making of appropriate adjustments to such alternate rate and this Agreement (x) to preserve pricing in effect at the time of selection of such alternate rate (but for the avoidance of doubt which shall not be at an interest rate less than the LIBO Base Rate prior to the adoption of the alternate rate) and (y) other changes necessary to reflect the available interest periods for such alternate rate) for syndicated leveraged loans of this type in the United States at such time (any such rate, the " **Successor Benchmark Rate** "), and the Administrative Agent and the Borrower shall enter into an amendment to this Agreement to reflect such alternate rate of interest and such other related changes to this Agreement as may be applicable and, notwithstanding anything to the contrary in Section 9.08 , such amendment shall become effective without any further action or consent of any other party to this Agreement; *provided* , that if a Successor Benchmark Rate has not been established pursuant to the foregoing, at the option of the Borrower, the Borrower and the Required Lenders (as defined below) may select a different Successor Benchmark Rate that is reasonably commercially practicable for the Administrative Agent to administer (as determined by the Administrative Agent in its reasonable discretion) and, upon not less than 15 Business Days' prior written notice to the Administrative Agent, the Administrative Agent, the Required Lenders and the Borrower shall enter into an amendment to this Agreement to reflect such alternate rate of interest and such other related changes to this Agreement as may be applicable and, notwithstanding anything to the contrary in Section 9.08 , such amendment shall become effective without any further action or consent of any other party to this Agreement; *provided, further* , that until such Successor Benchmark Rate has been determined pursuant to this paragraph, (i) any request for Borrowing, the conversion of any Borrowing to, or continuation of any Borrowing as, a LIBOR Loan shall be ineffective and (ii) all outstanding Borrowings shall be converted to a Base Rate Loan.

Section 2.13 *Increased Costs* .

(a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit, compulsory loan, insurance charge or similar requirement against assets of, deposits with or for the account of, or credit extended by or participated in by, any Lender (except any such reserve requirement reflected in the LIBO Rate); or

(ii) impose on any Lender or the London interbank market any other condition affecting this Agreement or Loans made by such Lender or participation therein (including any Tax, cost or expense) (except, in each case, for (x) Indemnified Taxes indemnified pursuant to Section 2.15 , (y) Excluded Taxes and (z) Other Taxes);

and the result of any of the foregoing shall be to increase the cost to such Lender of making or maintaining any Loan (or of maintaining its obligation to make any such Loan) to the Borrower or to reduce the amount of any sum received or receivable by such Lender hereunder (whether of principal, interest or otherwise), then the Borrower will pay to such Lender such additional amount or amounts as will compensate such Lender for such additional costs incurred or reduction suffered in connection therewith.

(b) If any Lender reasonably determines in good faith that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on such Lender's capital

or on the capital of such Lender's holding company, if any, as a consequence of this Agreement or any of the Loans made by such Lender or as a consequence of the Commitments to make any of the foregoing, to a level below that which such Lender or such Lender's holding company could have achieved but for such Change in Law (taking into consideration such Lender's policies and the policies of such Lender's holding company with respect to capital adequacy), then from time to time the Borrower shall pay to such Lender such additional amount or amounts as will compensate such Lender or such Lender's holding company for any such reduction suffered in connection therewith.

(c) A certificate of a Lender setting forth the amount or amounts necessary to compensate such Lender or its holding company, as applicable, as specified in paragraph (a) or (b) of this Section 2.13 shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within ten (10) days after receipt thereof.

(d) Promptly after any Lender has determined that it will make a request for increased compensation pursuant to this Section 2.13 , such Lender shall notify the Borrower thereof. Failure or delay on the part of any Lender to demand compensation pursuant to this Section 2.13 shall not constitute a waiver of such Lender's right to demand such compensation; *provided* that the Borrower shall not be required to compensate a Lender pursuant to this Section 2.13 for any increased costs or reductions incurred more than one hundred and eighty (180) days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of such Lender's intention to claim compensation therefor; *provided further* that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the 180-day period referred to above shall be extended to include the period of retroactive effect thereof.

Section 2.14 *Break Funding Payments* . In the event of (a) the payment of any principal of any LIBOR Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default), (b) the conversion of any LIBOR Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any LIBOR Loan on the date specified in any notice delivered pursuant hereto or (d) the assignment of any LIBOR Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.17 , then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event. Such loss, cost or expense to any Lender shall be deemed to be the amount determined by such Lender to be the excess, if any, of (i) the amount of interest which would have accrued on the principal amount of such LIBOR Loan had such event not occurred, at the LIBO Rate that would have been applicable to such Loan, for the period from the date of such event to the last day of the then current Interest Period therefor (or, in the case of a failure to borrow, convert or continue a LIBOR Loan, for the period that would have been the Interest Period for such Loan), over (ii) the amount of interest which would accrue on such principal amount for such period at the interest rate which such Lender would bid were it to bid, at the commencement of such period, for deposits in U.S. Dollars of a comparable amount and period from other banks in the eurodollar market. A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section 2.14 shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within ten (10) days after receipt thereof.

Section 2.15 *Taxes* .

(a) Any and all payments by or on account of any obligation of any Loan Party under any Loan Document shall be made free and clear of and without deduction for any Taxes, except to the extent required by applicable law. If any Indemnified Taxes or Other Taxes are required by applicable law to be deducted from any such payments, then (i) the sum payable by the Loan Party shall be increased as necessary so that after all required deductions (including deductions applicable to additional sums payable under this Section 2.15), each Agent or Lender, as applicable, receives an amount equal to the sum it would have received had no such deductions for Indemnified Taxes and Other Taxes been made, (ii) such Loan Party or the applicable withholding agent, if required to deduct any such Taxes, shall make such deductions and

(iii) such Loan Party or the applicable withholding agent, if required to deduct any such Taxes, shall timely pay the full amount deducted to the relevant Governmental Authority in accordance with applicable law.

(b) In addition, the Loan Parties shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) The Loan Parties shall indemnify each Agent and each Lender, within ten (10) days after written demand therefor, for the full amount of any Indemnified Taxes or Other Taxes paid by such Agent or such Lender, as applicable, on or with respect to any payment by or on account of any obligation of the Loan Parties under any Loan Document (including Indemnified Taxes and Other Taxes imposed or asserted on or attributable to amounts payable under this Section 2.15) and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes or Other Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority; *provided* that a certificate as to the amount of such payment or liability and setting forth in reasonable detail the basis and calculation for such payment or liability delivered to the Borrower by a Lender or by the Administrative Agent on its own behalf or on behalf of a Lender or Agent, shall be conclusive absent manifest error of the Lender or the Administrative Agent, as applicable.

(d) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by a Loan Party to a Governmental Authority, such Loan Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent.

(e) Each Lender that is not a "United States person" as defined in Section 7701(a)(30) of the Code (a " **Non-U.S. Lender** ") shall, to the extent it may lawfully do so, deliver to the Borrower and the Administrative Agent two executed originals of U.S. Internal Revenue Service Form W-8BEN or W-8BEN-E (claiming the benefits of an applicable income tax treaty), W-8EXP, W-8IMY (together with any required attachments) or Form W-8ECI, or, in the case of a Non-U.S. Lender claiming exemption from U.S. federal withholding tax under Section 871(h) or 881(c) of the Code with respect to payments of "portfolio interest," a statement substantially in the form of Exhibit I and a Form W-8BEN or W-8BEN-E, or any subsequent versions thereof or successors thereto, properly completed and duly executed by such Non-U.S. Lender (with any other required forms attached) claiming complete exemption from or a reduced rate of U.S. federal withholding tax on all payments by the Borrower under this Agreement and the other Loan Documents. Each Lender that is not a Non-U.S. Lender shall, to the extent it may lawfully do so, deliver to the Borrower and the Administrative Agent two executed originals of U.S. Internal Revenue Service Form W-9, properly completed and duly executed by such Lender, claiming complete exemption (or otherwise establishing an exemption) from U.S. backup withholding on all payments under this Agreement and the other Loan Documents. Such forms shall be delivered by each Lender, to the extent it may lawfully do so, on or before the date it becomes a party to this Agreement. In addition, each Lender, to the extent it may lawfully do so, shall deliver such forms promptly upon the obsolescence or inaccuracy of any form previously delivered by such Lender. Each Lender shall promptly notify the Borrower and the Administrative Agent at any time it determines that it is no longer in a position to provide any previously delivered certificate to the Borrower or the Administrative Agent (or any other form of certification adopted by the U.S. taxing authorities for such purpose). Without limiting the foregoing, any Lender that is entitled to an exemption from or reduction of withholding Tax otherwise indemnified against by a Loan Party pursuant to this Section 2.15 with respect to payments under any Loan Document shall deliver to the Borrower or the relevant Governmental Authority (with a copy to the Administrative Agent), to the extent such Lender is legally entitled to do so, at the time or times prescribed by applicable law such properly completed and executed documentation prescribed by applicable law as may reasonably be requested by the Borrower or the Administrative Agent to permit such payments to be made without such withholding tax or at a reduced rate; *provided* that in such Lender's reasonable judgment such completion, execution or submission would not materially prejudice such Lender. In addition, any Lender, if reasonably requested by the Borrower or the Administrative Agent, shall deliver such other documentation prescribed by applicable law or reasonably requested by the Borrower or the

Administrative Agent as will enable the Borrower or the Administrative Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements; *provided* that in such Lender's reasonable judgment such completion, execution or submission would not materially prejudice such Lender.

(f) If an Agent or a Lender determines, in good faith and in its sole discretion, that it has received a refund of Indemnified Taxes or Other Taxes as to which it has been indemnified by a Loan Party or with respect to which a Loan Party has paid additional amounts pursuant to this Section 2.15 , it shall pay over such refund to such Loan Party (but only to the extent of indemnity payments made, or additional amounts paid, by such Loan Party under this Section 2.15 with respect to the Indemnified Taxes or Other Taxes giving rise to such refund), net of all out-of-pocket expenses of such Agent or such Lender (including any Taxes imposed with respect to such refund) as is determined by such Agent or such Lender in good faith and in its sole discretion, and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund); *provided* that such Loan Party, upon the request of such Agent or such Lender, agrees to repay as soon as reasonably practicable the amount paid over to such Loan Party (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) to such Agent or such Lender in the event such Agent or such Lender is required to repay such refund to such Governmental Authority. This paragraph (f) shall not be construed to require any Agent or any Lender to make available its Tax returns (or any other information relating to its Taxes which it deems confidential) to the Loan Parties or any other Person. Notwithstanding anything to the contrary in this paragraph (f) , in no event shall any Agent or Lender be required to pay any amount to any Loan Party pursuant to this paragraph (f) the payment of which would place such Agent or Lender in a less favorable net after-Tax position than it would have been in if the Tax subject to indemnification, or with respect to which additional amounts were paid, and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to the Tax had never been paid.

(g) If a payment made to a Lender under any Loan Document would be subject to U.S. federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this paragraph (g) , "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

(h) Each Lender agrees that if any form or certification it previously delivered pursuant to Section 2.15(e) or 2.15(g) expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(i) For purposes of this Section 2.15 , the term "applicable law" shall include FATCA.

Section 2.16 *Payments Generally; Pro Rata Treatment; Sharing of Set-offs* .

(a) Unless otherwise specified, the Borrower shall make each payment required to be made by it hereunder (whether of principal, interest or fees, or of amounts payable under Section 2.13 , 2.14 or 2.15 , or otherwise) prior to 12:00 p.m. (New York City time), on the date when due, in immediately available funds, without condition or deduction for any defense, recoupment, set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent to the applicable account designated to the Borrower

by the Administrative Agent, except that payments pursuant to Sections 2.13 , 2.14 , 2.15 and 9.05 shall be made directly to the Persons entitled thereto. The Administrative Agent shall distribute any such payments received by it for the account of any other Person to the appropriate recipient promptly following receipt thereof. If any payment hereunder shall be due on a day that is not a Business Day, the date for payment shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest, interest thereon shall be payable for the period of such extension. All payments hereunder of principal or interest in respect of any Loan or of other amounts due hereunder or under any other Loan Document shall be made in U.S. Dollars. Any payment required to be made by the Administrative Agent hereunder shall be deemed to have been made by the time required if the Administrative Agent shall, at or before such time, have taken the necessary steps to make such payment in accordance with the regulations or operating procedures of the clearing or settlement system used by the Administrative Agent to make such payment.

(b) If at any time insufficient funds are received by and available to the Administrative Agent from the Borrower to pay fully all amounts of principal, interest and fees then due from the Borrower hereunder, such funds shall be applied (i) first, towards payment of interest and fees then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (ii) second, towards payment of principal then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal then due to such parties.

(c) If any Lender shall, by exercising any right of set-off or counterclaim, through the application of any proceeds of Collateral or otherwise, obtain payment in respect of any principal of or interest on any of its Loans resulting in such Lender receiving payment of a greater proportion of the aggregate amount of its Loans and accrued interest thereon than the proportion received by any other Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Loans of other Lenders to the extent necessary so that the benefit of all such payments shall be shared by the Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Loans; *provided* that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph (c) shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Loans to any assignee or participant permitted pursuant to Section 9.04 . The Borrower consents to the foregoing and agrees, to the extent they may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower in the amount of such participation.

(d) Unless the Administrative Agent shall have received notice from the Borrower prior to the date on which any payment by the Borrower is due to the Administrative Agent for the account of the Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may, in reliance upon such assumption, distribute to the Lenders, as applicable, the amount due. In such event, if the Borrower has not in fact made such payment, then each of the Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.04(b) or 2.16(d) , then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), apply any amounts thereafter received by the Administrative Agent for the account of such Lender to satisfy such Lender's obligations under such Sections until all such unsatisfied obligations are fully paid.

Section 2.17 *Mitigation Obligations; Replacement of Lenders* .

(a) (x) If any Lender requests compensation under Section 2.13 , (y) if any Loan Party is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.15 or (z) if any Lender exercises its rights under Section 2.18 , then such Lender shall use reasonable efforts to designate a different lending office for funding or booking its Loans hereunder or to assign its rights and obligations hereunder to another of its offices, branches or Affiliates, if, in the reasonable judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.13 or 2.15 , as applicable, in the future, or would eliminate such Lender's need to exercise its rights under Section 2.18 , and (ii) would not subject such Lender to any material unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender in any material respect. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender requests compensation under Section 2.13 , or if any Loan Party is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.15 , or if any Lender is a Defaulting Lender, or if any Lender exercises its rights under Section 2.18 , then the Borrower may, at the Borrower's sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 9.04), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); *provided* that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts) and (iii) in the case of any such assignment resulting from a claim for compensation under Section 2.13 or payments required to be made pursuant to Section 2.15 , such assignment will result in a reduction in such compensation or payments. Nothing in this Section 2.17 shall be deemed to prejudice any rights that any Loan Party may have against any Lender that is a Defaulting Lender.

(c) If any Lender (such Lender, a " **Non-Consenting Lender** ") has failed to consent to a proposed amendment, waiver, consent, discharge or termination which pursuant to the terms of Section 9.08 requires the consent of all of the Lenders affected or all of the Lenders and with respect to which the Required Lenders shall have granted their consent, then provided no Event of Default then exists, the Borrower shall have the right (unless such Non-Consenting Lender grants such consent) to replace such Non-Consenting Lender by requiring such Non-Consenting Lender to assign its Loans and its Commitments hereunder to one or more assignees reasonably acceptable to the Administrative Agent; *provided* that, (i) all Obligations of the Borrower due and payable to such Non-Consenting Lender being replaced shall be paid in full to such Non-Consenting Lender concurrently with such assignment, (including any such Obligation pursuant to Section 2.09(d)), (ii) the replacement Lender shall purchase the foregoing by paying to such Non-Consenting Lender a price equal to the principal amount thereof plus accrued and unpaid interest thereon and (iii) the replacement Lender shall have consented to the applicable amendment, waiver, consent, discharge or termination or provides such consent concurrently with such assignment. In connection with any such assignment the Borrower, the Administrative Agent, such Non-Consenting Lender and the replacement Lender shall otherwise comply with Section 9.04 . Each Lender agrees that if the Borrower exercises the Borrower's option hereunder to cause an assignment by such Lender as a Non-Consenting Lender, such Lender shall, promptly after receipt of written notice of such election, execute and deliver all documentation necessary to effectuate such assignment in accordance with Section 9.04 . Notwithstanding anything to the contrary herein, in the event that a Lender does not comply with the requirements of the immediately preceding sentence within

one (1) Business Day after receipt of such notice, such assignment shall be deemed to have occurred on such Business Day without such Lender's execution and delivery of any documentation required pursuant to Section 9.04 .

(d) A Lender shall not be required to make any such assignment or delegation under this Section 2.17 , if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment cease to apply.

Section 2.18 *Illegality* . If any Lender reasonably determines that any Change in Law has made it unlawful, or that any Governmental Authority has asserted after the Closing Date that it is unlawful, for any Lender or its applicable lending office to make or maintain any LIBOR Loans, then, on notice thereof by such Lender to the Borrower through the Administrative Agent, any obligations of such Lender to make or continue LIBOR Loans or to convert Base Rate Borrowings to LIBOR Borrowings, as the case may be, shall be suspended until such Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall, upon demand from such Lender (with a copy to the Administrative Agent), convert all such LIBOR Borrowings of such Lender to Base Rate Borrowings on the last day of the Interest Period therefor, if such Lender may lawfully continue to maintain such LIBOR Borrowings to such day, or immediately, if such Lender may not lawfully continue to maintain such Loans. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted.

Section 2.19 *Depositary Accounts* .

(a) *Establishment of Accounts* . On or prior to the Closing Date, the Borrower shall establish the following deposit accounts (the " **Depositary Accounts** "), with the Depositary Bank, in each case, subject to fully perfected first priority security interest and Control Agreement in favor of the Collateral Agent for the benefit of the Secured Parties to secure the Obligations:

(i) a U.S. Dollar-denominated account in the name of the Borrower entitled "ExGen Renewables IV – Revenue" and numbered [***] (the " **Revenue Account** ");

(ii) a U.S. Dollar-denominated account in the name of the Borrower entitled "ExGen Renewables IV – Equity Proceeds" and numbered [***] (the " **Equity Proceeds Account** ");

(iii) a U.S. Dollar-denominated account in the name of the Borrower entitled "ExGen Renewables IV – Debt Service Reserve" and numbered [***] (the " **Debt Service Reserve Account** ");

(iv) a U.S. Dollar-denominated account in the name of the Borrower entitled "ExGen Renewables IV – Liquidity Reserve" and numbered [***] (the " **Liquidity Reserve Account** "); and

(v) a U.S. Dollar-denominated account in the name of the Borrower entitled "ExGen Renewables IV – ECF Prepayment" and numbered [***] (the " **ECF Prepayment Account** ").

All amounts on deposit in or credited to each Depositary Account from time to time shall (i) be disbursed in accordance with the terms hereof, (ii) constitute the property of the Borrower, (iii) be subject to the first priority Lien of the Collateral Agent (for the benefit of the Secured Parties), (iv) be held in the sole custody and "control" (within the meaning of Section 8-106(d) or Section 9-104 of the UCC) of the Collateral Agent for the purposes and on the terms set forth in this Agreement and the Security Documents and (v) constitute a part of the Collateral. No amounts on deposit in or credited to the Depositary Accounts from time to time shall constitute payment of any Obligations or any other obligation of any Loan Party.

(b) *Deposits into Accounts.*

(i) *Revenue Account* . All Cash and Cash Equivalents (including all Available Cash and any proceeds received by the Loan Parties as a result of the exercise of Cure Rights pursuant to Section 7.02) of each of the Loan Parties, all amounts required to be transferred to the Revenue Account from any other Depositary Accounts in accordance with the terms of this Agreement and all other amounts received by the Loan Parties on or after the Closing Date and not required to be deposited to another Depositary Account pursuant to this Agreement shall be deposited as and when received (without regard to whether the current fiscal period in which they arise has closed) directly to, and shall be retained in, the Revenue Account, subject to application in accordance with Section 2.19(c), other than Cash and Cash Equivalents (A) required to be deposited (or on deposit) in the Debt Service Reserve Account pursuant to Section 2.19(d), (B) deposited (or on deposit) in the Liquidity Reserve Account pursuant to Section 2.19(e) and (C) any Equity Proceeds, Completion Proceeds and any Excess Project Disposition Proceeds deposited in the Equity Proceeds Account.

(ii) *Equity Proceeds Account* . The Loan Parties may deposit in the Equity Proceeds Account as and when received any Equity Proceeds, Completion Proceeds and any Excess Project Disposition Proceeds, as determined by the Borrower (and any Equity Proceeds not so deposited shall be deposited into the Revenue Account).

(c) *Withdrawals from the Revenue Account* . Amounts in the Revenue Account shall be disbursed (A) by the Depositary Bank as directed by the Borrower (which disbursement shall be described in a certificate executed by a Responsible Officer of the Borrower to the Administrative Agent, the Collateral Agent and the Depositary Bank at least (1) five (5) Business Days prior to the applicable funding date, in the case of any Withdrawal Certificate that includes transfers for the payment of Debt Service pursuant to clauses (i) , (ii) or (iii) below; (2) in any other case, other than with respect to transfers pursuant to clause (vi) below, three (3) Business Days prior to the applicable funding date; or (3) in the case of any transfer with respect to clause (vi) below, no later than two (2) Business Days after the applicable Excess Cash Flow Period detailing the amounts and Persons to be paid in accordance with the following clauses (i) through (vi) and in substantially the form set forth in Exhibit K (such certificate, a " **Withdrawal Certificate** ")) (via wire transfer or by internal transfer between Depositary Accounts, if applicable), to the extent that funds are then available in the Revenue Account, in the following order of priority, or (B) upon the occurrence and during the continuance of a Default or Event of Default, from time to time as the Administrative Agent shall direct, to be applied against the Obligations of the Borrower that are then due and payable to the Agents, the Lenders and the other Secured Parties, in the order of priority set forth below or (C) if the Borrower fails to deliver a Withdrawal Certificate pursuant to this Section 2.19(c) on any date on which any amounts described in this Section 2.19(c) are due and payable to the Secured Parties, as the Administrative Agent may direct (with one Business Day's advance notice thereof and a copy of such Withdrawal Certificate to the Borrower and the Collateral Agent) in the order of priority set forth below:

(i) *first* , from time to time as necessary to pay as and when due Operating Expenses (*provided* that any such payments to Affiliates shall be in compliance with Section 6.07), including expenses, indemnity payments and other amounts (including reasonable and documented fees, charges and disbursements of counsel of any Agent) payable to the Administrative Agent, the Collateral Agent or the Depositary Bank, in their capacities as such (but excluding any amounts payable pursuant to clause (iv) below), and Fees, that have become due and payable and have not yet been paid, as set forth in the applicable Withdrawal Certificate (or, if applicable, direction from the Administrative Agent);

(ii) *second* , after giving effect to any withdrawals pursuant to clauses (i) above, on each Quarterly Date and otherwise from time to time as necessary to pay as and when due (x) to the Administrative Agent, the interest and any breakage costs on the Loans payable to the Lenders hereunder and (y) to each applicable Specified Swap Counterparty, scheduled ordinary course payments (but not termination payments) payable by a Loan Party under Secured Swap Agreements, as set forth in the applicable Withdrawal Certificate (or, if applicable, direction from the Administrative Agent);

(iii) *third* , after giving effect to the withdrawals pursuant to clauses (i) and (ii) above, on each Quarterly Date, as necessary to pay as and when due (x) to the Administrative Agent, any principal of (including Scheduled Amortization Payments) and premium, if any, on the Loans payable to the Lenders hereunder and (y) to each applicable Specified Swap Counterparty, termination payments payable by a Loan Party under Secured Swap Agreements, as set forth in the applicable Withdrawal Certificate (or, if applicable, direction from the Administrative Agent);

(iv) *fourth* , after giving effect to the withdrawals pursuant to clauses (i) through (iii) above, on each Quarterly Date and otherwise from time to time as necessary to pay as and

when due to the Persons entitled thereto all indemnities and other amounts (other than interest, Fees, principal and premium) payable to the Lenders and Specified Swap Counterparties under the Loan Documents and Secured Swap Agreements, as set forth in the applicable Withdrawal Certificate (or, if applicable, direction from the Administrative Agent);

(v) *fifth* , after giving effect to the withdrawals pursuant to clauses (i) through (iv) above, on each Quarterly Date, as necessary to fund the Debt Service Reserve Account such that the amount on deposit and available therein (taking into account any Sponsor Guaranty and Account Letter of Credit credited thereto) is at least equal to the DSR Requirement Amount, as set forth in the applicable Withdrawal Certificate (or, if applicable, direction from the Administrative Agent);

(vi) *sixth* , at the option of the Borrower in its sole discretion, after giving effect to the withdrawals pursuant to clauses (i) through (v) above, on each Quarterly Date, to fund the Liquidity Reserve Account and/or the Local Accounts in the amount, if any, determined by the Borrower (in its sole discretion), as set forth in the applicable Withdrawal Certificate; *provided* that, in no event, shall the aggregate amount of monies on deposit (1) in the Liquidity Reserve Account, after giving effect to any such transfer, exceed the Liquidity Reserve Maximum Balance or (2) in the Liquidity Reserve Account together with monies on deposit in the Local Accounts, after giving effect to any such transfer, exceed [$***];

(vii) *seventh* , after giving effect to the withdrawals pursuant to clauses (i) through (vi) above, as set forth in the applicable Withdrawal Certificate:

(A) on each Quarterly Date, the Applicable ECF Percentage of Excess Cash Flow for the Excess Cash Flow Period ending on such Quarterly Date remaining on deposit in the Revenue Account shall be applied as follows: (x) if no Credit Support Reimbursement Obligations are then outstanding and unpaid, all such Excess Cash Flow shall be transferred to the ECF Prepayment Account and (y) if Credit Support Reimbursement Obligations are then outstanding and unpaid, such Excess Cash Flow shall be allocated pro rata (based on the aggregate amount of the outstanding principal of the Loans and the Credit Support Reimbursement Obligations then outstanding and unpaid on such Quarterly Date), with (1) the amount allocated to the Loans transferred to the ECF Prepayment Account and (2) the amount allocated to Credit Support Reimbursement Obligations transferred to an Affiliate of the Borrower as directed in the applicable Withdrawal Certificate to be applied to the payment or prepayment of such Credit Support Reimbursement Obligations; and

(B) in addition, on each Quarterly Date occurring in May (commencing with the Quarterly Date occurring in May 2022), if applicable, after giving effect to the payment(s) described in the immediately preceding clause (A) on such Quarterly Date, an amount of funds remaining on deposit in the Revenue Account on such Quarterly Date equal to the Target Balance Prepayment Amount for the applicable ECF Sweep Date shall be transferred to the ECF Prepayment Account;

provided , that notwithstanding anything to the contrary in this clause (vii), to the extent any Credit Support Reimbursement Obligation remains outstanding for twelve (12) Quarterly Dates after the incurrence of such Credit Support Reimbursement Obligation, 100% of Excess Cash Flow remaining on deposit in the Revenue Account for the Excess Cash Flow Period ending on the last of such Quarterly Dates, and each Quarterly Date thereafter on which such Credit Support Reimbursement Obligation remains outstanding, shall be applied first to the payment of such Credit Support Reimbursement

Obligation until such Credit Support Reimbursement Obligation is paid in full, and then any remaining Excess Cash Flow after such application shall be applied as set forth above in this clause (vii); and

(viii) *eighth* , on each ECF Sweep Date (commencing with the ECF Sweep Date occurring in May 2022), so long as no Default or Event of Default has occurred and is continuing, any funds remaining on deposit in the Revenue Account after giving effect to the withdrawals pursuant to clauses (i) through (vii) above, shall be transferred, as set forth in the applicable Withdrawal Certificate (including to Holding or its Affiliates).

If funds being disbursed at any time pursuant to clause (ii), (iii) or (iv) above are insufficient on any date to make the transfers and payments specified in the applicable Withdrawal Certificate, then the amounts in the Revenue Account at such level at such time shall be transferred to the Persons entitled thereto *pro rata* based on the respective amounts then due and payable to such Persons.

(d) *Debt Service Reserve Account* .

(i) *Deposits into the Debt Service Reserve Account* . On the Closing Date, the Borrower shall Fully Fund the Debt Service Reserve Account up to the DSR Requirement Amount as of the Closing Date with cash or a Sponsor Guaranty. Thereafter, on each date referred to in the next sentence, the Borrower shall Fully Fund the Debt Service Reserve Account with, to the extent available, (x) cash withdrawals from the Revenue Account permitted under Section 2.19(c)(v) and/or (y) one or more Sponsor Guarantees (or supplements to existing Sponsor Guarantees) and/or Account Letters of Credit. Immediately prior to each Quarterly Date and on each ECF Sweep Date (prior to the application of such mandatory prepayment required pursuant to Section 2.09(c)) after the Closing Date, the Borrower shall deposit or cause to be deposited in the Debt Service Reserve Account an aggregate amount (the " **DSR Increase Payment** ") equal to no less than the amount necessary (if any) to Fully Fund the Debt Service Reserve Account as of such date; *provided* , that if such aggregate amount then available from the Revenue Account is less than the DSR Increase Payment, the full amount of such available amounts on deposit in the Revenue Account shall be deposited into the Debt Service Reserve Account, it being understood that the failure to fund the full DSR Increase Payment in accordance with this proviso shall not be deemed a Default or Event of Default hereunder.

(ii) *Drawings under Sponsor Guarantees and Account Letters of Credit* . Amounts on deposit in the Debt Service Reserve Account may be funded from time to time by any Sponsor Guaranty or Account Letter of Credit, and the Collateral Agent shall make a demand for payment under any Sponsor Guaranty or drawing upon any Account Letter of Credit if:

(A) In the case of a Sponsor Guaranty, the guarantor under such Sponsor Guaranty is not an Acceptable Guarantor and thirty (30) or more days have elapsed since such guarantor ceased to be an Acceptable Guarantor and such Sponsor Guaranty has not been replaced (with another Sponsor Guaranty, an Account Letter of Credit or cash); or

(B) In the case of an Account Letter of Credit, (1) the issuer of such Account Letter of Credit is not an Acceptable LC Issuer and thirty (30) or more days have elapsed since such issuer ceased to be an Acceptable LC Issuer and such Account Letter of Credit has not been replaced (with another Account Letter of Credit or cash); or (2) such Account Letter of Credit will expire within thirty (30) days and either (x) the Collateral Agent has received a notice from the issuer thereof that such Account Letter of Credit will not be renewed in accordance with its terms or (y) the Collateral Agent has not

received written evidence from the issuer thereof or the Borrower that such Account Letter of Credit will be extended or replaced (with another Account Letter of Credit, a Sponsor Guaranty or cash) upon or prior to its stated expiration date.

Upon obtaining knowledge thereof, the Borrower shall provide prompt written notice to the Collateral Agent if any guarantor under a Sponsor Guaranty is not an Acceptable Guarantor or whether any issuer of an Account Letter of Credit is not an Acceptable Credit Provider. Any such demand under a Sponsor Guaranty shall be in an amount equal to the lesser of (1) the DSR Requirement Amount at such time *minus* the sum of (x) the amount of Cash and Cash Equivalents on deposit in the Debt Service Reserve Account at such time and (y) the remaining Drawing Amounts of any Account Letters of Credit credited to the Debt Service Reserve Account at such time (to the extent such Account Letters of Credit are issued by an Acceptable LC Issuer and will not expire within thirty (30) days (unless the issuing bank or the Borrower has provided written evidence to the Collateral Agent that any such Account Letter of Credit will be extended or replaced upon or prior to its stated expiration date)) and the guaranteed amount then available for demand under any other Sponsor Guarantees credited to the Debt Service Reserve Account at such time (to the extent any such Sponsor Guaranty is issued by an Acceptable Guarantor, has not been terminated and no payment defaults have occurred thereunder) and (2) if applicable, the remaining guaranteed amount then available for demand under such Sponsor Guaranty, and the proceeds of such demand shall be deposited into the Debt Service Reserve Account by the Collateral Agent. Any such drawing under an Account Letter of Credit shall be in an amount equal to the lesser of (1) the DSR Requirement Amount at such time *minus* the sum of (x) the amount of Cash and Cash Equivalents on deposit in the Debt Service Reserve Account at such time and (y) the remaining Drawing Amounts of any other Account Letters of Credit credited to the Debt Service Reserve Account at such time (to the extent such Account Letters of Credit are issued by an Acceptable LC Issuer and will not expire within thirty (30) days (unless the issuing bank or the Borrower has provided written evidence to the Collateral Agent that any such Account Letter of Credit will be extended or replaced upon or prior to its stated expiration date)) and the guaranteed amount then available for demand under any Sponsor Guarantees credited to the Debt Service Reserve Account at such time (to the extent any such Sponsor Guaranty is issued by an Acceptable Guarantor, has not been terminated and no payment defaults have occurred thereunder) and (2) the remaining Drawing Amount under such Account Letter of Credit, and the proceeds of such drawing shall be deposited into the Debt Service Reserve Account by the Collateral Agent.

(iii) *Disbursements of Excess Amounts from the Debt Service Reserve Accounts; Reductions in Account Letters of Credit and Sponsor Guarantees* .

(A) So long as no Event of Default has occurred and is continuing, at any time that the sum of the aggregate Drawing Amounts under all Account Letters of Credit held by the Collateral Agent credited to the Debt Service Reserve Account at such time (to the extent such Account Letters of Credit are issued by an Acceptable LC Issuer and will not expire within thirty (30) days (unless the issuing bank or the Borrower has provided written evidence to the Collateral Agent that any such Account Letter of Credit will be extended or replaced upon or prior to its stated expiration date)) *plus* the aggregate guaranteed amount then available for demand under any Sponsor Guarantees held by the Collateral Agent credited to the Debt Service Reserve Account at such time (to the extent such Sponsor Guarantees are issued by an Acceptable Guarantor, has not been terminated and no payment defaults have occurred thereunder) *plus* the funds then on deposit in or credited to the Debt Service Reserve Account is greater than the DSR Requirement Amount as of such date (in each case, an " **Excess Reserve Amount** "), as specified in a certificate signed by a Responsible Officer of the Borrower (with a copy

to the Administrative Agent), certifying as to the amount of such Excess Reserve Amount, the Borrower shall be entitled pursuant to a Withdrawal Certificate to (1) transfer or cause to be transferred an amount of funds up to the Excess Reserve Amount from the Debt Service Reserve Account to the Revenue Account and (2) then, if any Excess Reserve Amount remains after giving effect to clause (1) , the Borrower shall be entitled to deliver to the Collateral Agent for countersignature (in the Administrative Agent's reasonable discretion), and shall thereafter deliver to the issuer of any Account Letter of Credit credited to the Debt Service Reserve Account at such time, a reduction certificate in the form attached to such Account Letter of Credit or otherwise in a form satisfactory to such issuer in the amount of such remaining Excess Reserve Amount, and the face amount of such Account Letter of Credit may be reduced as provided in such certificate; *provided* that if any Sponsor Guaranty is then also credited to the Debt Service Reserve Account, such Sponsor Guaranty shall be reduced pursuant to a supplement provided under such Sponsor Guaranty or documentation otherwise satisfactory to the Administrative Agent (with a copy to the Administrative Agent) for such remaining Excess Reserve Amount prior to the reduction of any Account Letter of Credit.

(B) So long as no Event of Default has occurred and is continuing, the Borrower shall be entitled to instruct the Depositary Bank to release funds from the Debt Service Reserve Account pursuant to a written request from a Responsible Officer of the Borrower (certifying as to no Event of Default), with a copy to the Administrative Agent, in the event that the Borrower has provided to the Collateral Agent a Sponsor Guaranty or an Account Letter of Credit in a guaranteed or stated amount equal to the amount of funds to be released from the Debt Service Reserve Account and amounts so released shall be transferred to such accounts or Persons as are specified in such instructions to the Depositary Bank. Such Sponsor Guaranty and Account Letter of Credit shall be subject to all of the terms of this Section 2.19(d) .

(C) The Borrower may at any time deliver Cash and Cash Equivalents and/or one or more Account Letters of Credit to the Depositary Agent for deposit in or credit to the Debt Service Reserve Account and upon delivery thereof, shall be entitled, (pursuant to a written request from a Responsible Officer of the Borrower to the applicable guarantor and the Collateral Agent, certifying that such reduction is in compliance with this clause (C), with a copy to the Administrative Agent) to a reduction in the then available guaranteed amount under any Sponsor Guaranty credited to the Debt Service Reserve Account pursuant to a supplement provided under such Sponsor Guaranty or documentation otherwise satisfactory to the Administrative Agent in the face or stated amount equal to the amount of Cash and Cash Equivalents and/or Account Letters of Credit to be deposited in or credited to the Debt Service Reserve Account. Any such reduction shall only be effective upon actual receipt by the Depositary Agent of the replacement Cash and Cash Equivalents and/or one or more Account Letters of Credit.

(D) For the avoidance of doubt, in no event shall the guaranteed amount of any Sponsor Guaranty or the stated amount of any Account Letter of Credit credited to the Debt Service Reserve Account be permitted to be reduced other than in connection with Section 2.19(d)(iii)(A) or 2.19(d)(iii)(C) or in connection with a cash payment made pursuant to any demand or draw, as applicable, thereunder paid to the Collateral Agent in accordance with the terms thereof.

(iv) *Disbursements to Pay Debt Service* . To the extent disbursements from the Revenue Account or other funds available to the Borrower or the other Loan Parties are not anticipated to be or are not adequate to pay (x) all interest and Fees due and payable to the Agents and the Lenders under or in respect of the Loan Documents, or (y) all principal or premium (if any) due and payable to the Lenders under or in respect of the Loan Documents (any such shortfall, a " **Debt Payment Deficiency** "), then:

(A) the Depositary Bank (at the written direction of (I) the Borrower pursuant to a Withdrawal Certificate or (II) if the Borrower has not so delivered such Withdrawal Certificate by 1:00 p.m. (New York City time) on the third Business Day prior to the date on which such amounts are due and not paid, the Administrative Agent) shall withdraw from the Debt Service Reserve Account and immediately transfer to the Administrative Agent cash in an aggregate amount equal to the Debt Payment Deficiency (or, if less, the aggregate amount of funds then on deposit in or credited to the Debt Service Reserve Accounts) for application (1) first, to that portion of the Debt Payment Deficiency that relates to amounts due in clause (x) above and (2) second, to that portion of the Debt Payment Deficiency that relates to amounts due in clause (y) above, in accordance with the Loan Documents, and if such funds are insufficient to meet the Debt Payment Deficiency, then

(B) after giving effect to clause (A) , to the extent any Debt Payment Deficiency remains outstanding, the Depositary Bank shall promptly so notify the Borrower, the Administrative Agent and the Collateral Agent, and the Collateral Agent shall (I) first , if any Sponsor Guaranty is then in effect, make a demand under such Sponsor Guaranty in an amount equal to the remaining Debt Payment Deficiency (or, if less, the full available guaranteed amount under such Sponsor Guaranty) and immediately transfer the proceeds thereof to the Administrative Agent and (II) second , to the extent any Debt Payment Deficiency remains outstanding, if any Account Letter of Credit is then in effect, make a drawing on such Account Letter of Credit in an amount equal to the remaining Debt Payment Deficiency (or, if less, the Drawing Amount under such Account Letter of Credit) and immediately transfer the proceeds thereof to the Administrative Agent. The Administrative Agent shall apply such proceeds (1) first, to that portion of the Debt Payment Deficiency that relates to amounts due in clause (x) above and (2) second, to that portion of the Debt Payment Deficiency that relates to amounts due in clause (y) above, in accordance with the Loan Documents.

(e) *Liquidity Reserve Account*

(i) *Deposits into the Liquidity Reserve Account* . On the Closing Date, the Borrower shall fund the Liquidity Reserve Account up to the Liquidity Reserve Maximum Balance with cash or a Sponsor Guaranty. Thereafter, on each Quarterly Date, the Borrower (at its option (in its sole discretion)) may fund the Liquidity Reserve Account with, to the extent available, cash withdrawals from the Revenue Account permitted under Section 2.19(c)(vi), up to the Liquidity Reserve Maximum Balance.

(ii) *Sponsor Guarantees and Account Letters of Credit* . Amounts on deposit in the Liquidity Reserve Account may be funded from time to time by any Sponsor Guaranty or Account Letter of Credit, and the Collateral Agent shall make a demand for payment under any Sponsor Guaranty or drawing upon any Account Letter of Credit if:

(A) In the case of a Sponsor Guaranty, the guarantor under such Sponsor Guaranty is not an Acceptable Guarantor and thirty (30) or more days have elapsed

since such guarantor ceased to be an Acceptable Guarantor and such Sponsor Guaranty has not been replaced (with another Sponsor Guaranty, an Account Letter of Credit or cash); or

(B) In the case of an Account Letter of Credit, (1) the issuer of such Account Letter of Credit is not an Acceptable LC Issuer and thirty (30) or more days have elapsed since such issuer ceased to be an Acceptable LC Issuer and such Account Letter of Credit has not been replaced (with another Account Letter of Credit or cash); or (2) such Account Letter of Credit will expire within thirty (30) days and either (x) the Collateral Agent has received a notice from the issuer thereof that such Account Letter of Credit will not be renewed in accordance with its terms or (y) the Collateral Agent has not received written evidence from the issuer thereof or the Borrower that such Account Letter of Credit will be extended or replaced (with another Account Letter of Credit, a Sponsor Guaranty or cash) upon or prior to its stated expiration date.

Upon obtaining knowledge thereof, the Borrower shall provide prompt written notice to the Collateral Agent if any guarantor under a Sponsor Guaranty is not an Acceptable Guarantor or whether any issuer of an Account Letter of Credit is not an Acceptable Credit Provider. Any such demand under a Sponsor Guaranty shall be in an amount equal to the remaining guaranteed amount then available for demand under such Sponsor Guaranty, and the proceeds of such demand shall be deposited into the Liquidity Reserve Accounts by the Collateral Agent. Any such drawing under an Account Letter of Credit shall be in an amount equal to the remaining Drawing Amount under such Account Letter of Credit, and the proceeds of such drawing shall be deposited into the Liquidity Reserve Account by the Collateral Agent.

(C) So long as no Event of Default has occurred and is continuing, at any time that the sum of the aggregate Drawing Amounts under all Account Letters of Credit held by the Collateral Agent credited to the Liquidity Reserve Account at such time (to the extent such Account Letters of Credit are issued by an Acceptable LC Issuer and will not expire within thirty (30) days (unless the issuing bank or the Borrower has provided written evidence to the Collateral Agent that any such Account Letter of Credit will be extended or replaced upon or prior to its stated expiration date)) *plus* the aggregate guaranteed amount then available for demand under any Sponsor Guarantees held by the Collateral Agent credited to the Liquidity Reserve Account at such time (to the extent such Sponsor Guarantees are issued by an Acceptable Guarantor, has not been terminated and no payment defaults have occurred thereunder) *plus* the funds then on deposit in or credited to the Liquidity Reserve Account is greater than the Liquidity Reserve Maximum Balance (in each case, an " **Excess Liquidity Reserve Amount** "), as specified in a certificate signed by a Responsible Officer of the Borrower (with a copy to the Administrative Agent), certifying as to the amount of such Excess Liquidity Reserve Amount, the Borrower shall be entitled pursuant to a Withdrawal Certificate to transfer or cause to be transferred an amount of funds up to the Excess Liquidity Reserve Amount from the Liquidity Reserve Account as directed in such Withdrawal Certificate.

(D) So long as no Event of Default has occurred and is continuing, the Borrower shall be entitled to instruct the Depositary Bank to release funds from the Liquidity Reserve Account pursuant to a written request from a Responsible Officer of the Borrower (certifying as to no Event of Default), with a copy to the Administrative Agent, in the event that the Borrower has provided to the Collateral Agent a Sponsor Guaranty or an Account Letter of Credit in a guaranteed or stated amount equal to the amount of funds to be released from the Liquidity Reserve Account and amounts so

released shall be transferred to such accounts or Persons as are specified in such instructions to the Depositary Bank. Such Sponsor Guaranty and Account Letter of Credit shall be subject to all of the terms of this Section 2.19(e) .

(E) The Borrower may at any time deliver Cash and Cash Equivalents and/or one or more Account Letters of Credit to the Depositary Agent for deposit in or credit to the Liquidity Reserve Account and upon delivery thereof, shall be entitled, (pursuant to a written request from a Responsible Officer of the Borrower to the applicable guarantor and the Collateral Agent, certifying that such reduction is in compliance with this clause (C), with a copy to the Administrative Agent) to a reduction in the then available guaranteed amount under any Sponsor Guaranty credited to the Liquidity Reserve Account pursuant to a supplement provided under such Sponsor Guaranty or documentation otherwise satisfactory to the Administrative Agent in the face or stated amount equal to the amount of Cash and Cash Equivalents and/or Account Letters of Credit to be deposited in or credited to the Liquidity Reserve Account. Any such reduction shall only be effective upon actual receipt by the Depositary Agent of the replacement Cash and Cash Equivalents and/or one or more Account Letters of Credit.

(F) For the avoidance of doubt, in no event shall the guaranteed amount of any Sponsor Guaranty or the stated amount of any Account Letter of Credit credited to the Liquidity Reserve Account be permitted to be reduced other than in connection with Section 2.19(e)(ii)(C) or (E) or in connection with a cash payment made pursuant to any demand or draw, as applicable, thereunder paid to the Collateral Agent in accordance with the terms thereof.

(G) At any time that the sum of the aggregate Drawing Amounts under all Account Letters of Credit credited to the Liquidity Reserve Account, the then available guaranteed amount under any Sponsor Guaranty credited to the Liquidity Reserve Account and the funds then on deposit in or credited to the Liquidity Reserve Account and the Local Accounts at such time is (i) less than the Liquidity Reserve Maximum Balance, net interest, if any, earned on funds on deposit in the Liquidity Reserve Account shall be accumulated therein or (ii) greater than the Liquidity Reserve Maximum Balance, net interest, if any, earned on funds on deposit in the Liquidity Reserve Account shall be transferred to the Revenue Account.

(iii) *Disbursements* . If (x) on any Quarterly Date, or any other date on which transfers are to be made, the amount available in the Revenue Account is insufficient to make all of the transfers required by clauses (i) through (iv) of Section 2.19(c) (a " **Borrower Liquidity Shortfall** ") or (y) there are insufficient funds at any Project Entity to make payments of amounts consisting of operation and maintenance costs or expenses attributable to any Project or payment of debt service or fees under any Project Level Financing Documents, as described in reasonable detail and certified by a Responsible Officer of the Borrower (a " **Project Liquidity Shortfall** "), the Depositary Bank (at the written direction of the Borrower pursuant to a Withdrawal Certificate) shall transfer an amount in cash equal to the lesser of (x) the Borrower Liquidity Shortfall or Project Liquidity Shortfall, as applicable, and (y) the amount then available in (i) the Liquidity Reserve Account and (ii) any Local Accounts, from the Liquidity Reserve Account or applicable Local Account and deposit such amount into, in the case of a Borrower Liquidity Shortfall, the Revenues Account for application on such date in accordance with Section 2.19(c) and in the case of a Project Liquidity Shortfall, to such accounts or Persons as are specified in such Withdrawal Certificate for application to such Project Liquidity Shortfall as specified in the corresponding Responsible Officer's certificate. In addition, in accordance with Section 2.19(g), the Borrower may submit a Withdrawal Certificate to transfer any amount on deposit in the

Liquidity Reserve Account to one or more Local Accounts as specified therein for application to any future Borrower Liquidity Shortfall or Project Liquidity Shortfall; *provided* that after giving effect to any such transfer, (1) the amount on deposit in the Liquidity Reserve Account shall not exceed the Liquidity Reserve Maximum Balance and (2) the aggregate amount on deposit in the Liquidity Reserve Account and the Local Accounts shall not exceed [$***]. To the extent any Borrower Liquidity Shortfall or Project Liquidity Shortfall, as applicable, remains outstanding after application of all cash in the Liquidity Reserve Account and the Local Accounts, the Depositary Bank shall promptly so notify the Borrower, the Administrative Agent and the Collateral Agent, and the Collateral Agent shall (I) first , if any Sponsor Guaranty is then in effect, make a demand under such Sponsor Guaranty in an amount equal to the remaining Borrower Liquidity Shortfall or Project Liquidity Shortfall, as applicable, (or, if less, the full available guaranteed amount under such Sponsor Guaranty) and immediately transfer the proceeds thereof to the applicable account and (II) second , to the extent any Borrower Liquidity Shortfall or Project Liquidity Shortfall, as applicable, remains outstanding, if any Account Letter of Credit is then in effect, make a drawing on such Account Letter of Credit in an amount equal to the remaining Borrower Liquidity Shortfall or Project Liquidity Shortfall, as applicable, (or, if less, the Drawing Amount under such Account Letter of Credit) and immediately transfer the proceeds thereof to the applicable account.

(f) *Local Accounts* . The Depositary Bank shall, pursuant to a Withdrawal Certificate delivered by the Borrower for such purpose in accordance with Section 2.19(e)(iii), transfer to the applicable Local Account the amount requested by the Borrower in the applicable Withdrawal Certificate for payment of Borrower Liquidity Shortfalls and Project Liquidity Shortfalls as, when and to the extent specified in such Withdrawal Certificate.

(g) *Equity Proceeds Account* . To the extent any Loan Party received Equity Proceeds, Completion Proceeds or Excess Project Disposition Proceeds, such Equity Proceeds, Completion Proceeds or Excess Project Disposition Proceeds may be deposited into the Equity Proceeds Account. The Borrower shall be permitted to transfer Cash and Cash Equivalents on deposit in or credited to the Equity Proceeds Account at any time pursuant to a Withdrawal Certificate delivered to the Depositary Agent (with a copy to the Administrative Agent), to an account (which may be any Depositary Account) or Person as directed by the Borrower in such Withdrawal Certificate, which funds may be applied for any purpose permitted by this Agreement and the other Loan Documents.

(h) *ECF Prepayment Account* . The Depositary Bank (at the written direction of (I) the Borrower pursuant to a Withdrawal Certificate or (II) if the Borrower has not so delivered such Withdrawal Certificate by 1:00 p.m. (New York City time) on the third Business Day prior to any ECF Sweep Date, the Administrative Agent) shall on each ECF Sweep Date withdraw from the ECF Prepayment Account and immediately transfer to the Administrative Agent cash equal to the aggregate amount of funds then on deposit in or credited to the ECF Prepayment Account for application to a mandatory prepayment of the Loans in accordance with Section 2.09(b).

(i) *Invasion of Accounts* . One (1) Business Day prior to any Business Day on which disbursements are required to be made from the Revenue Account in accordance with Section 2.19(c)(ii) or (iii), if the amounts on deposit in the Revenue Account are not sufficient to make such disbursements, and the Borrower has not transferred amounts from the Liquidity Reserve Account to cover such insufficiency, the Depositary Agent (at the written direction of (I) the Borrower pursuant to a Withdrawal Certificate or (II) if the Borrower has not so delivered such Withdrawal Certificate by 1:00 p.m. (New York City time) on the second Business Day prior to the Business Day on which such disbursements are required to be made, the Administrative Agent) shall transfer funds to the Revenue Account to cover such insufficiency first from the ECF Prepayment Account, second , from the Liquidity Reserve Account

and third , after giving effect to such transfers, from the Debt Service Reserve Account in accordance with Section 2.19(d).

(j) *Receipt of Certain Funds; Unidentified Funds.* If any Agent or Lender receives directly any amount that is payable to a Depositary Account (due to such amount not being paid directly to the applicable Depositary Account), such Person shall deposit or cause to be deposited such amount into the applicable Depositary Account, and the obligation of the Loan Parties to deposit such amount into such Depositary Account shall be deemed satisfied upon such deposit. If the Depositary Bank receives directly any amount that is not sufficiently identified or is not accompanied with adequate instructions as to which Depositary Account such amount is to be deposited, the Depositary Bank shall deposit such funds into the Revenue Account, and notify the Borrower and each Agent of the receipt of such funds. Upon receipt of written instructions from the Borrower (as confirmed in writing by the Administrative Agent), the Depositary Bank shall transfer such funds from the Revenue Account to the Depositary Account specified by such instructions.

Section 2.20 *Incremental Revolving Facility and Commitments.*

(a) The Borrower may, by written notice to the Administrative Agent, on one occasion, request a revolving facility (including, if desired, but without duplication, letter of credit capacity) in an aggregate principal amount not to exceed $50,000,000 (the " **Revolving Facility** "), to be used solely for working capital requirements, letter of credit capacity and other general corporate purposes of the Loan Parties. Upon the receipt of such request by the Administrative Agent, the Administrative Agent shall deliver a copy thereof to each Lender. Such notice shall set forth the amount of the requested Revolving Facility, which shall be in a minimum increments of $1,000,000 and a minimum amount of $10,000,000, and the date on which such Revolving Facility is requested to become effective (which shall be not less than 15 days nor more than 90 days after the date of such notice, which in any event must be prior to the Maturity Date), and shall offer each Lender the opportunity to participate by its applicable pro rata share of the proposed Revolving Facility, *provided* that any Agent or Lender may elect or decline, in its sole discretion, to provide a commitment in respect of the Revolving Facility.

(b) Each Lender shall, by notice to the Borrower and the Administrative Agent given not more than 10 days after the date of the Administrative Agent's notice described in clause (a) above is delivered to such Lender, either agree to issue a commitment for all or a portion of the offered amount (each agreeing Lender, a " **Participating Revolving Lender** ") or decline to issue a commitment (and any Lender that does

not deliver such a notice within such period of 10 days shall be deemed to have declined to provide a commitment) (each declining or deemed declining Lender, a " **Non- Participating Revolving Lender** ").

(c) In the event that, on the 15th day after the Administrative Agent shall have delivered a notice pursuant to the immediately preceding paragraph (b), the Participating Revolving Lenders shall have agreed pursuant to the preceding sentence to provide commitments by an aggregate amount less than the amount requested by the Borrower, the Borrower may arrange for one or more banks or other entities (each such bank or other entity, a " **New Revolving Lender** " and together with the Participating Revolving Lender, the " **Revolving Lenders** "), which may include any Lender or Agent, to issue commitments under the requested Revolving Facility, in an aggregate amount equal to the unsubscribed amount; *provided* , *however* , that each New Revolving Lender that is not a Lender shall be subject to the prior written approval of the Administrative Agent and, if such Revolving Facility is to include a letter of credit facility, each issuing bank thereunder (each, a " **Revolving Issuing Bank** ") (which approvals shall not be unreasonably withheld or delayed), and the Borrower and each New Revolving Lender and Revolving Issuing Bank shall execute all such documentation (including a joinder agreement, if applicable) as the Administrative Agent shall reasonably specify to evidence its commitments under the requested Revolving Facility and/or its status as a "Lender" or issuing bank under such Revolving Facility hereunder and shall share *pro rata* in the Collateral as a Secured Party. Any Revolving Facility may be made in an amount that is less than the amount requested by the Borrower if the Borrower is unable to arrange for, or chooses not to arrange for, New Revolving Lenders, but in no event less than $10,000,000.

(d) Notwithstanding the foregoing, no Revolving Facility shall become effective under this Section 2.20 unless:

(i) on the date of such incurrence, no Default or Event of Default shall have occurred and be continuing or would exist after giving effect to such Revolving Facility;

(ii) the representations and warranties set forth in Article III hereof shall be true and correct in all material respects on and as of the date of such incurrence with the same effect as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date (in which case such representations and warranties shall be true and correct in all material respects as of such earlier date); *provided* , that, in each case, such materiality qualifier shall not be applicable to any representations and warranties that are already qualified or modified by "materiality," "Material Adverse Effect" or similar language in the text thereof;

(iii) the final maturity date of such Revolving Facility shall be no later than the Maturity Date;

(iv) such Revolving Facility will rank *pari passu* in right of payment and *pari passu* with respect to security under the Security Documents with the Term Loan Facility;

(v) all fees and expenses relating to such Revolving Facility then due and payable shall have been paid in full, including to the Administrative Agent, the Collateral Agent and the Lender Parties;

(vi) the Borrower would be in compliance with the Financial Performance Covenant on the date of incurrence of such Revolving Facility and as of the most recently completed Test Period ending prior to the incurrence of such Revolving Facility, after giving pro forma effect to the incurrence of such Revolving Facility (assuming a full drawing under the commitments with respect to such Revolving Facility and after giving effect to other pro forma adjustment events reasonably acceptable to the Administrative Agent and any permanent repayment of Indebtedness after the beginning of the relevant determination period but prior to or simultaneous with such drawing) as if such incurrence had occurred as of the first day of such Test Period;

(vii) the Borrower shall have obtained a Ratings Reaffirmation after giving effect to such Revolving Facility;

(viii) the terms and conditions of the Revolving Facility shall be determined by the Borrower, the Administrative Agent, the Revolving Lenders and the Revolving Issuing Banks and, to the extent such terms are not consistent with those applicable to the Term Loan Facility, as applicable, such terms shall be reasonably satisfactory to the Administrative Agent; and

(ix) the Borrower shall have delivered to the Administrative Agent a certificate of a Responsible Officer of the Borrower certifying and showing (in reasonable detail and with appropriate calculations and computations, where applicable, in all respects reasonably satisfactory to the Administrative Agent) that the conditions set forth in clauses (i) and (v) above in connection with the incurrence of the Revolving Facility have been satisfied.

(e) Any Revolving Facility incurred pursuant to this Section 2.20 shall be effected pursuant to an amendment of this Agreement executed and delivered by the Borrower, each Revolving Lender, each Revolving Issuing Bank and the Administrative Agent, each of which shall be recorded in the Register. Notwithstanding anything to the contrary in this Agreement, each of the parties hereto hereby agrees that this Agreement and the other Loan Documents shall be amended (or amended and restated), without the consent of any other Lender Parties, to effect such amendments to this Agreement and the other Loan Documents as may be necessary or appropriate, in the opinion of the Administrative Agent to effect the provisions of this Section 2.20 and reflect the existence of the Revolving Facility (and, to the extent not consistent with the Term Loan Facility, in a manner reasonably satisfactory to the Administrative Agent).

Article III.
REPRESENTATIONS AND WARRANTIES

Each of Holding and the Borrower represents and warrants to each of the Lenders on and as of the Closing Date with respect to itself and the other Loan Parties that:

Section 3.01 *Organization; Powers* . Each of the Loan Parties (a) is duly organized, validly existing and (if applicable) in good standing under the laws of the jurisdiction of its organization, (b) has all requisite power and authority to own its property and assets and to carry on its business as now conducted, (c) is qualified to do business in each jurisdiction where such qualification is required, except where the failure to so qualify would not reasonably be expected to have a Material Adverse Effect and (d) has the power and authority to execute, deliver and perform its obligations under each of the Loan Documents and, in the case of the Borrower, to borrow and otherwise obtain credit hereunder.

Section 3.02 *Authorization; No Conflicts* . The execution, delivery and performance by the Loan Parties of each of the Loan Documents to which such Loan Party is a party, and the Borrowings hereunder and the other Transactions (a) have been duly authorized by all necessary corporate, stockholder, limited liability company or partnership action required to be obtained by each of the Loan Parties; (b) will not (i) violate any provision of (A) any applicable law, statute, rule or regulation binding on the Loan Parties or their properties or (B) the certificate or articles of incorporation or other constitutive documents or by-laws of any Loan Party, any applicable order of any court or any rule, regulation or order of any Governmental Authority binding on the Loan Parties or their properties or (C) any indenture, lease or other instrument or agreement to which any Loan Party is a party or by which any of them is or any of their respective property is or may be bound or any Material Project Level Agreements, or (ii) result in a breach of or constitute (alone or with notice or lapse of time or both) a default under, give rise to a right of or result in any cancellation or acceleration of any right or obligation (including any payment) under any such indenture, lease or other instrument or agreement (including the Material Project Level Agreements), where any such violation, breach or default referred to in clause (i) or (ii) of this clause (b) would reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect; or (c) result in the creation or imposition of any Lien upon or

with respect to any property or assets now owned or hereafter acquired by any Loan Party, other than the Liens created by the Loan Documents and Prior Liens.

Section 3.03 *Enforceability* . This Agreement has been duly executed and delivered by each of the Loan Parties and constitutes, and each other Loan Document when executed and delivered by each Loan Party that is party thereto will constitute, a legal, valid and binding obligation of such Loan Party enforceable against each such Loan Party in accordance with its terms, subject to (a) the effects of bankruptcy, insolvency, moratorium, reorganization, fraudulent conveyance or other laws affecting creditors' rights generally, (b) general principles of equity (regardless of whether such enforceability is considered in a proceeding in equity or at law) and (c) implied covenants of good faith and fair dealing.

Section 3.04 *Governmental Approvals; Consents.* No action, consent or approval of, registration or filing with or any other action by any Governmental Authority or any other Person is or will be required in connection with the Transactions except for (a) the filing of UCC financing statements (or the filing of financing statements under any other local equivalent) or (b) such consents, authorizations, filings or other actions that have been made or obtained and are in full force and effect and such actions, consents, approvals, registrations or filings the failure of which to be obtained or made would not reasonably be expected to have a Material Adverse Effect.

Section 3.05 *Financial Statements.* There has heretofore been furnished to the Lenders the following (and the following representations and warranties are made with respect thereto (as applicable)):

(a) The audited consolidated balance sheet as of December 31, 2016 (and, solely with respect to Continental Wind, LLC and AV Solar Ranch 1, LLC, December 31, 2015) and the related audited consolidated statements of operations, cash flows and owners' equity of Renewable Power Generation, LLC, Continental Wind, LLC and AV Solar Ranch 1, LLC for the years ended December 31, 2016 (and, solely with respect to Continental Wind, LLC and AV Solar Ranch 1, LLC, December 31, 2015) were prepared in accordance with GAAP and fairly present in all material respects the consolidated financial position of Renewable Power Generation, LLC, Continental Wind, LLC and AV Solar Ranch 1, LLC (as applicable) as of the dates thereof and their respective consolidated results of operations and cash flows for the applicable periods then ended.

(b) The unaudited *pro forma* consolidated balance sheet (i) as of December 31, 2016 and the related unaudited *pro forma* consolidated statements of operations and cash flows of the Borrower for the fiscal year ended December 31, 2016 fairly present, in all material respects, the pro forma consolidated financial position of the Borrower as of the date thereof as though the ExGen Renewables JV Agreement had been in effect on such date and (ii) as of December 31, 2015 and the related unaudited *pro forma* consolidated statement of operations of the Borrower for the fiscal year ended December 31, 2015 fairly present, in all material respects, the pro forma consolidated financial position of the Borrower as of the date thereof as though the ExGen Renewables JV Agreement had been in effect on such date.

(c) The unaudited *pro forma* balance sheet of the Borrower as of June 30, 2017 and the related unaudited *pro forma* statements of operations and cash flows of the Borrower for the six month period ended June 30, 2017 fairly present, in all material respects, the pro forma financial position of the Borrower as of the date thereof as though the ExGen Renewables JV Agreement had been in effect on such date and no obligations had been outstanding under that certain receivables services agreement, dated as of June 9, 2015, by and between The Bank of Tokyo-Mitsubishi UFJ, Ltd., New York Branch and Albany Green Energy on such date.

Section 3.06 *No Material Adverse Effect* . Since December 31, 2016, there has been no event or occurrence which has resulted in or would reasonably be expected to result in, individually or in the aggregate, a Material Adverse Effect.

Section 3.07 *Properties* ; *Equity Interests* .

(a) The Loan Parties have good title to all of their respective material properties and assets, free and clear of Liens other than Liens permitted under Section 6.02 .

(b) None of the Loan Parties has any fee-owned real properties or has any leasehold interests in any real property.

(c) Schedule 3.07(c) sets forth as of the Closing Date the name and jurisdiction of incorporation, formation or organization of Holding and each Subsidiary of Holding and, as to each such Subsidiary, the percentage of each class of Equity Interests owned by Holding or by any such Subsidiary, indicating the ownership thereof.

(d) As of the Closing Date, there are no outstanding subscriptions, options, warrants, calls, rights or other agreements or commitments (other than stock options granted to employees or directors and directors' qualifying shares) of any nature relating to any Equity Interests of Holding or the Borrower or its Subsidiaries, other than as set forth on Schedule 3.07(d) .

Section 3.08 *Litigation; Compliance.*

(a) There are no actions, suits, investigations or proceedings at law or in equity or by or on behalf of any Governmental Authority or in arbitration now pending against, or, to the knowledge of the Borrower, threatened in writing against, any Loan Parties or any business, property or rights of any such Person (i) that involve any Loan Document or the Transactions or (ii) as to which there is a reasonable possibility of an adverse determination and that, if adversely determined, individually or in the aggregate would reasonably be expected to have a Material Adverse Effect. None of the Loan Parties nor any of their respective properties is in violation of any laws, rules, regulations or orders of any Governmental Authority currently applicable thereto, except any violation or non-compliance that would not reasonably be expected to have a Material Adverse Effect.

(b) No Loan Party, Loan Party's Subsidiary or Loan Party's Affiliate, nor the officers, directors or employees thereof, nor, to the knowledge of the Loan Parties, any agent or representative of any Loan Party, Loan Party Subsidiary or Loan Party Affiliate (i) has taken any action in furtherance of an offer, payment, promise to pay, or authorization or approval of the payment, giving or receipt of money, property, gifts or anything else of value, directly or indirectly, to any Government Official in order to improperly influence official action, or to any person in violation of any applicable Anti-Corruption Laws, (ii) has knowingly engaged in any dealings or transactions with any Sanctioned Person or in any Sanctioned Country unless lawfully authorized for a U.S. Person, (iii) is or has been in violation of any Anti-Terrorism Laws, Anti-Corruption Laws or Sanctions, or (iv) is any of the following: (A) a Sanctioned Person or (B) a Person with whom the Borrower is prohibited from dealing or otherwise engaging in any transaction by any Anti-Terrorism Law. The Loan Parties or any Loan Party Subsidiary will not directly or indirectly use the proceeds of the offering, or lend, contribute or otherwise make available such proceeds to any subsidiary, joint venture partner or other person or entity, in violation of any Anti-Terrorism Laws, Anti-Corruption Laws or applicable Sanctions. The Loan Parties have implemented and maintain in effect policies and procedures reasonably designed to ensure compliance by the Loan Parties, the Loan Parties' Affiliates and their respective directors, officers, employees and agents with Anti-Terrorism Laws, Anti-Corruption Laws and applicable Sanctions. No action, suit or proceeding by or before any court or governmental agency, authority or body or any arbitrator involving the Loan Parties or any Loan Party Subsidiary with respect to Anti-Terrorism Laws is pending or, to the best knowledge of the Loan Parties, threatened.

(c) (i) None of the Loan Parties is in violation of any currently applicable law, rule or regulation (including, but not limited to the Federal Power Act (" **FPA** "), Federal Energy Regulatory Commission regulations under the FPA, Environmental Law, zoning ordinance, code or approval or any building permit), or is in default with respect to any judgment, writ, injunction or decree of any Governmental Authority, where such violation or default would reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect, (ii) each of the Loan Parties holds all permits, licenses, registrations,

certificates, approvals, consents, clearances and other authorizations from any Governmental Authority required under any currently applicable law, rule or regulation for the operation of its business as presently conducted, except as would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect, (iii) no Loan Party (A) is subject to regulation as a "public utility" under the FPA; or (B) is subject to regulation as a "public utility" or other similar term under the laws of any state and (iv) none of the Lenders or the Agents, solely by virtue of the execution, delivery and performance of this Agreement or the Loan Documents, or consummation of the Transactions contemplated hereby and thereby, shall be or become: (A) a "public-utility company," a "holding company," an "affiliate" of a "holding company," an "associate company" of a "holding company," or a "subsidiary company" of a "holding company," as each such term is defined in the Public Utility Holding Company Act of 2005 (" **PUHCA** "), or otherwise subject to regulation under PUHCA; (B) a "public utility" subject to regulation under the FPA; or (C) subject to regulation under the laws of any state with respect to public utilities.

(d) None of Holding or the Borrower is party to any actions, suits, investigations or proceedings at law or in equity or by or on behalf of any Governmental Authority or in arbitration which would reasonably be expected to result in the revocation or impairment of any of their relevant FERC authorizations and approvals, including, but not limited to, Qualifying Facility and Exempt Wholesale Generator status, authorization to sell energy, capacity and ancillary services at market-based rates pursuant to Section 205 of the FPA (including blanket authorization under Section 204 of the FPA), as well as all relevant exemptions including, but not limited to, exemption from regulation under PUHCA, in each case to the extent that such revocation or impairment, individually or in the aggregate, could reasonably be expected to result in a Material Adverse Effect.

Section 3.09 *Federal Reserve Regulations* . No Loan Party is engaged principally, or as one of its important activities, in the business of extending credit for the purpose of purchasing or carrying Margin Stock.

(a) The commitment to make, and the making of, the Loans and the granting and maintaining of the security interest in connection with the obligations created thereby, will not, whether directly or indirectly, and whether immediately, incidentally or ultimately, be a violation of, or inconsistent with, the provisions of the Regulations of the Board, including Regulation T, Regulation U or Regulation X.

Section 3.10 *Investment Company Act* . No Loan Party is an "investment company" as defined in, or subject to regulation under, the Investment Company Act of 1940, as amended.

Section 3.11 *Use of Proceeds* . The Borrower will use the proceeds of the Loans solely to (i) consummate the Transactions, (ii) make the distributions to Sponsor and/or its Affiliates described in Section 6.06(c) , (iii) except to the extent otherwise satisfied through the issuance and delivery of a Sponsor Guaranty or an Account Letter of Credit, to fund the DSR Requirement Amount in the Debt Service Reserve Account and the Liquidity Reserve Maximum Balance in the Liquidity Reserve Account (collectively with any Local Accounts) and (iv) fund the Local Accounts in additional amounts not to exceed (in the aggregate) $[***], in each case on the Closing Date.

Section 3.12 *Tax Returns* . Each Loan Party (i) has filed or caused to be filed all federal and all material state, local and non-U.S. Tax returns required to have been filed by it and (ii) has paid or caused to be paid all material Taxes due and payable by it, except for the Taxes being contested in good faith by appropriate proceedings in accordance with Section 5.03 and for which the applicable Loan Party has set aside on its books adequate reserves in accordance with GAAP.

Section 3.13 *No Material Misstatements* .

(a) All written information (other than the Projections, estimates and information of a general economic nature) (the " **Information** ") concerning the Loan Parties and their respective Subsidiaries, including the Project Entities, and the Transactions included in the Confidential Information Memorandum or otherwise

prepared by or on behalf of the Borrower in connection with the Transactions and furnished to the Lenders, when taken as a whole, was true and correct in all material respects, as of the date such Information was furnished to the Lenders and as of the Closing Date, and did not contain any untrue statement of a material fact as of any such date or omit to state any material fact necessary in order to make the statements contained therein not materially misleading in light of the circumstances under which such statements were made. As of the Closing Date, there is no fact known to the Loan Parties that, individually or in the aggregate, would reasonably be expected to have a Material Adverse Effect and that has not been set forth in the Loan Documents or in the other documents, certificates and other writings delivered by or on behalf of the Borrower to the Lead Arranger and the Lenders.

(b) The Projections and estimates and information of a general economic nature prepared by or on behalf of the Borrower and that have been made available to any Lenders or the Administrative Agent in connection with the Transactions or the other transactions contemplated hereby (i) have been prepared in good faith based upon assumptions believed by the Borrower to be reasonable as of the date thereof and as of the Closing Date (it being understood that projections are inherently uncertain and no assurances are being given that the results contained in such Projections will be achieved), and (ii) as of the Closing Date, have not been modified in any material respect by the Borrower.

Section 3.14 *Employee Benefit Plans* . Each Plan is in compliance with all applicable provisions and requirements of ERISA and the Code and the regulations and published interpretations thereunder, except for failures to so comply which would not reasonably be expected to result in a Material Adverse Effect, either individually or in the aggregate. No ERISA Event has occurred or is reasonably expected to occur that would subject any Loan Party to any Tax, penalty or other liabilities, which Tax, penalty or other liabilities which individually or in the aggregate would reasonably be expected to result in a Material Adverse Effect.

Section 3.15 *Environmental Matters* . Except for matters that would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect (i) no written notice, request for information, order, complaint, Environmental Claim or penalty has been received or incurred by any Loan Party, and there are no judicial, administrative or other actions, suits or proceedings pending or, to the knowledge of any of the Loan Parties, threatened against any Loan Party, which allege a violation of or liability under any Environmental Laws, in each case relating to any Loan Party, (ii) each Loan Party has obtained, and maintains in full force and effect, all permits, registrations and licenses to the extent necessary for the conduct of its business and operations as currently conducted, to comply with all applicable Environmental Laws and each is, and has been, in compliance with the terms and conditions of such permits, registrations and licenses, and with all applicable Environmental Laws, (iii) no Loan Party is conducting, funding or responsible for any investigation, remediation, remedial action or cleanup of any Release or threatened Release of Hazardous Materials, (iv) to the knowledge of any of the Loan Parties there has been no Release or threatened Release of Hazardous Materials at or from any property currently or, to the knowledge of any of the Loan Parties, formerly owned, operated or leased by any Loan Party that would reasonably be expected to give rise to any liability of any Loan Party under any Environmental Laws or Environmental Claim against any Loan Party, and no Hazardous Material has been generated, owned or controlled by any Loan Party and transported for disposal to or Released at any location in a manner that would reasonably be expected to give rise to any liability of any Loan Party under any Environmental Laws or to any Environmental Claim against any Loan Party, (v) no Loan Party has entered into any agreement or contract to assume, guarantee or indemnify a third party for any Environmental Claims, and (vi) to the knowledge of any of the Loan Parties there are not currently and there have not been any underground storage tanks owned or operated by any Loan Party or located on any Loan Party's real property. Each Loan Party has made available to the Administrative Agent prior to the date hereof all environmental audits, assessment reports and other environmental documents in its possession or control with respect to the operations of, or any real property operated or leased by, any Loan Party, other than such audits, assessment reports and other documents not containing information that would reasonably be expected to result in any material Environmental Claims or liability to the Loan Parties, taken as a whole. Representations and warranties of the Loan Parties with respect to environmental matters are limited to those in this Section 3.15 unless expressly stated.

Section 3.16 *Solvency* . On the Closing Date, immediately after giving effect to the Transactions, the Loan Parties, on a consolidated basis with their Subsidiaries, are Solvent.

(a) The Borrower does not intend to incur debts beyond its ability to pay such debts as they mature, taking into account the timing and amounts of cash to be received by it and the timing and amounts of cash to be payable on or in respect of its Indebtedness.

Section 3.17 *Labor Matters* . There are no strikes pending or threatened against any Loan Party that, individually or in the aggregate, would reasonably be expected to have a Material Adverse Effect. The hours worked and payments made to employees of each Loan Party have not been in violation in any material respect of the Fair Labor Standards Act or any other applicable law dealing with such matters. All material payments due from any Loan Party or for which any claim may be made against any Loan Party on account of wages and employee health and welfare insurance and other benefits have been paid or accrued as a liability on the books of the applicable Loan Party to the extent required by GAAP.

Section 3.18 *Status as Senior Debt; Perfection of Security Interests* . The Obligations of the Borrower shall rank *pari passu* with any other senior Indebtedness or securities of the Borrower and shall constitute senior indebtedness of the Borrower under and as defined in any documentation documenting any junior indebtedness of the Borrower. Each Security Document delivered pursuant to Sections 4.01 and 5.10 will, upon execution and delivery thereof, be effective to create in favor of the Collateral Agent, for the benefit of the Secured Parties, a legal, valid and enforceable security interest in the Collateral described therein. When financing statements and other filings specified therein in appropriate form are filed in the offices specified therein, Control Agreements are entered into covering each Depositary Account and the Pledged Collateral that is certificated is delivered to the Collateral Agent, the Liens created by the Security Documents on such Collateral shall constitute fully perfected Liens on, and security interests in, all right, title and interest of the Loan Parties in such Collateral, in each case prior and superior in right to any other Person, subject, in the case of Collateral other than Pledged Collateral, to Prior Liens, and in the case of Pledged Collateral, to Liens arising (and that have priority) by operation of law.

Section 3.19 *Material Project Level Agreements* . As of the Closing Date, each of the Material Project Level Agreements is in full force and effect and constitutes the legal, valid and binding obligation of the Project Entities party thereto. The Borrower has delivered to the Administrative Agent a complete and correct copy of each Material Project Level Agreement in effect on the Closing Date. To the knowledge of the Borrower, (a) no "Default" or "Event of Default" or similar term (as used in the applicable Project Level Financing Documents or Material Other Indebtedness Documents, as applicable) has occurred and is continuing under any of the Project Level Financing Documents or Material Other Indebtedness Documents and (b) no "Default" or "Event of Default" or equivalent event or circumstance defined by a similar term (as used in the Major Revenue Contracts) has occurred and is continuing under any of the Major Revenue Contracts other than, in the case of this clause (b) , any such Default or Event of Default or equivalent event or circumstance which would not reasonably be expected to give rise to a termination of such agreement or otherwise have, individually or in the aggregate, be materially adverse to the Lenders.

Section 3.20 *Insurance.* The Loan Parties have purchased or provided (or caused to be purchased or provided) and are maintaining (or causing to be maintained), with financially sound and reputable insurance companies, insurance with respect to their respective properties and business against such risks (including with such deductibles, retentions and exclusions), including fire and other risks insured against by extended coverage, and loss or damage, in each case of the kinds customarily insured against by projects of a similar size in the same or similar business, and of such types and in such amounts as are customarily carried under similar circumstances by such other Persons and in accordance in all material respects with their respective applicable contractual obligations. As of the Closing Date, such insurance is in full force and effect. The Project Entities are in compliance with the covenants relating to maintenance of insurance set forth in the Project Level Financing Documents to which they are a party (or by which they are bound). Holding and the Borrower believe that the insurance maintained by or on behalf of them and their Subsidiaries is adequate.

Article IV.
CONDITIONS TO FUNDING

Section 4.01 *Closing Date* . The obligations of the Lenders to make Loans on the Closing Date are subject to the satisfaction of the following conditions:

(a) The Administrative Agent shall have received a Borrowing Request from the Borrower as required by Section 2.03 .

(b) The representations and warranties set forth in Article III hereof and in the other Loan Documents shall be true and correct in all material respects on and as of the Closing Date with the same effect as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date (in which case such representations and warranties shall be true and correct in all material respects as of such earlier date); *provided* , that, in each case, such materiality qualifier shall not be applicable to any representations and warranties that are already qualified or modified by "materiality," "Material Adverse Effect" or similar language in the text thereof.

(c) At the time of and immediately after giving effect to the Transactions and the other transactions contemplated hereby to occur on the Closing Date, no Event of Default or Default shall have occurred and be continuing.

(d) The Administrative Agent (or its counsel) shall have received (i) from each party hereto either (a) a counterpart of this Agreement signed on behalf of such party or (b) written evidence satisfactory to the Administrative Agent (which may include telecopy transmission, or electronic transmission of a PDF copy, of a signed signature page of this Agreement) that such party has signed a counterpart of this Agreement and (ii) a Note, signed by the Borrower, in favor of each Lender that has requested such a Note in writing not less than three (3) Business Days prior to the Closing Date pursuant to Section 2.07(d) .

(e) The Administrative Agent shall have received, on behalf of itself, the Collateral Agent, and the Lenders, a favorable written opinion of DLA Piper LLP, special counsel for the Loan Parties (A) dated the Closing Date, (B) addressed to the Administrative Agent, the Collateral Agent, the Depositary Bank and the Lenders and (C) in form and substance reasonably satisfactory to the Administrative Agent and covering such matters relating to the Loan Documents as are usual and customary for a financing of the type contemplated hereby as the Administrative Agent shall reasonably request, and each Loan Party hereby instructs its counsel to deliver such opinions.

(f) The Administrative Agent shall have received each of the following:

(i) a copy of the certificate or articles of incorporation, partnership agreement or limited liability agreement, including all amendments thereto, or other relevant constitutional documents under applicable law of each Loan Party and the Sponsor, each certified as of a recent date by the Secretary of State (or other similar official) of the state of such Person's organization and a certificate as to the good standing of each such Loan Party and the Sponsor as of a recent date from such Secretary of State (or other similar official); and

(ii) a certificate of the Secretary, Assistant Secretary, Director, Vice President, President or similar officer, or the general partner, managing member or sole member, of each Loan Party and, if applicable, the Sponsor, in each case dated the Closing Date and certifying:

(A) that attached thereto is a true and complete copy of the by-laws (or partnership agreement, memorandum and articles of association, limited liability company agreement or other equivalent governing documents) of such Person as in effect on the Closing Date and at all times since a date prior to the date of the resolutions described in clause (B) below,

(B) that attached thereto is a true and complete copy of resolutions duly adopted by the board of directors (or equivalent governing body) of such Person (or its managing general partner or managing member) authorizing the execution, delivery and performance of the Loan Documents to which such Person is a party or, if applicable, in the case of the Sponsor, any Sponsor Guaranty to which the Sponsor is a party, and, in the case of the Borrower, the Borrowings hereunder, and that such resolutions have not been modified, rescinded or amended and are in full force and effect on the Closing Date,

(C) that the certificate or articles of incorporation, partnership agreement or limited liability agreement of such Person has not been amended since the date of the last amendment thereto disclosed pursuant to clause (A) above, and

(D) as to the incumbency and specimen signature of each officer or director executing any Loan Document or any other document delivered in connection herewith on behalf of such Loan Party or, if applicable, in the case of the Sponsor, executing any Sponsor Guaranty to which the Sponsor is a party.

(g) The Collateral and Guarantee Requirement with respect to items expressly required to be completed as of the Closing Date shall have been satisfied or waived and the Administrative Agent shall have received the results of a search of the UCC (or equivalent under other similar law) filings made with respect to the Loan Parties in the relevant jurisdictions and copies of the financing statements (or similar documents) disclosed by such search and evidence reasonably satisfactory to the Administrative Agent that the Liens indicated by such financing statements (or similar documents) are permitted by Section 6.02 or have been released.

(h) The Transactions shall have been consummated or shall be consummated simultaneously with or immediately following the closing on the Closing Date.

(i) The Administrative Agent shall have received the financial statements referred to in Section 3.05 . The Administrative Agent shall have received a budget of the Borrower in effect for the period commencing on the Closing Date through December 31, 2018 and the Projections, in each case in form and substance reasonably satisfactory to the Administrative Agent.

(j) Immediately after giving effect to the Transactions and the other transactions contemplated hereby to occur on the Closing Date, the Loan Parties shall have outstanding no Indebtedness other than (i) the Indebtedness outstanding under this Agreement and (ii) other Indebtedness permitted pursuant to Section 6.01 .

(k) The Lenders shall have received a solvency certificate substantially in the form of Exhibit F and signed by a Financial Officer of the Borrower confirming the Solvency of the Loan Parties, on a consolidated basis with their Subsidiaries, after giving effect to the Transactions.

(l) Since December 31, 2016, there have been no events, changes or other occurrences that have had, continue to have or would reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect.

(m) The Agents shall have received, all Fees payable thereto or to any Lender or to the Lead Arranger on or prior to the Closing Date and, to the extent invoiced at least four (4) Business Days prior to the Closing Date, all other amounts due and payable pursuant to the Loan Documents on or prior to the Closing Date, including reimbursement or payment of all reasonable out-of-pocket expenses required to be reimbursed or paid by the Loan Parties hereunder or under any Loan Document (it being understood that amounts under this paragraph (m) may be paid with proceeds of the Loans).

(n) The Administrative Agent shall have received a certificate signed by a Responsible Officer of the Borrower dated as of the Closing Date as to the matters set forth in clauses (b) , (c) , (j) and (l) of this Section 4.01 .

(o) The Administrative Agent shall have received, at least three (3) Business Days prior to the Closing Date, all documentation and other information required by regulatory authorities with respect to the Loan Parties under applicable "know your customer" and anti-money laundering rules and regulations, including the U.S.A. PATRIOT Act, that has been reasonably requested by the Administrative Agent or any other Agent or Lender.

(p) The Administrative Agent shall have received evidence of the establishment of each of the Depositary Accounts required to be established pursuant to Section 2.19(a) with the Depositary Bank. To the extent any Local Accounts have been established as of the Closing Date, the Administrative Agent shall have received Local Account Control Agreements executed by the Borrower or applicable Project Holdco, the Collateral Agent and the applicable account bank for each such Local Account.

(q) Substantially simultaneously with the funding of Loans hereunder, (i) the DSR Requirement Amount as of the Closing Date shall have been Fully Funded into the Debt Service Reserve Account and (ii) the Liquidity Reserve Account (collectively with any Local Accounts) shall have been funded or credited in an amount equal to the Liquidity Reserve Maximum Balance.

(r) The Administrative Agent shall have received (i) a report entitled "Independent Engineer's Report Nymeria" dated November 6, 2017, delivered by Leidos Engineering, LLC with respect to the Projects respectively owned by the AVSR Entities, Sacramento PV Energy, LLC and Constellation Solar Horizons, LLC, including all exhibits, appendices and any other attachments thereto, in form and substance reasonably satisfactory to the Administrative Agent, (ii) a report entitled "EGR IV Portfolio Technical Due Diligence Report Exelon Wind, LLC" dated November 2, 2017, delivered by DNV KEMA Renewables, Inc. with respect to the Projects owned by Subsidiaries of ExGen Renewables JV (excluding the Projects owned by Sacramento PV Energy, LLC, Constellation Solar Horizons, LLC, Denver Airport Solar, LLC and Constellation Solar New Jersey III, LLC), including all exhibits, appendices and any other attachments thereto, in form and substance reasonably satisfactory to the Administrative Agent, (iii) a report entitled "SolGen Solar DG Portfolio Independent Engineer's Report" dated August 5, 2016, delivered by Luminate, LLC with respect to the solar power Projects owned by the SolGen Entities identified therein, including all exhibits, appendices and any other attachments thereto, in form and substance reasonably satisfactory to the Administrative Agent and (iv) a report entitled "Albany Green Energy Independent Engineer's Report Project No. 98536" dated October 5, 2017, delivered by Burns & McDonnell Engineering Company, Inc. with respect to the Project owned by the Albany Green Entities, including all exhibits, appendices and any other attachments thereto, in form and substance reasonably satisfactory to the Administrative Agent, together in each case with a reliance letter in form and substance reasonably satisfactory to the Administrative Agent.

Article V.
AFFIRMATIVE COVENANTS

Each of Holding and the Borrower covenants and agrees with each Agent and each Lender that so long as this Agreement shall remain in effect and until the Discharge of the Obligations, unless the Required Lenders shall otherwise consent in writing, Holding and the Borrower shall:

Section 5.01 *Existence; Businesses and Properties* .

(a) Do or cause to be done all things necessary to preserve, renew and keep in full force and effect its legal existence.

(b) Do or cause to be done all things necessary to (i) in the Borrower's reasonable business judgment, obtain, preserve, renew, extend and keep in full force and effect the permits, franchises,

authorizations, patents, trademarks, service marks, trade names, copyrights, licenses and rights with respect thereto necessary to the normal conduct of its business, (ii) comply in all material respects with all material applicable laws, rules, regulations and judgments, writs, injunctions, decrees, permits, licenses, and orders of any Governmental Authority, whether now in effect or hereafter enacted and (iii) at all times maintain and preserve all property necessary to the normal conduct of its business and keep such property in good repair, working order and condition and from time to time make, or cause to be made, all needful and proper repairs, renewals, additions, improvements and replacements thereto necessary in order that the business carried on in connection therewith, if any, may be properly conducted at all times (in each case except as expressly permitted by this Agreement); in each case in this paragraph (b) except where the failure to do so would not reasonably be expected to have a Material Adverse Effect.

Section 5.02 *Insurance* . Keep, and cause its Subsidiaries to keep, its insurable properties insured at all times by financially sound and reputable insurers in such amounts as shall be customary for similar businesses and maintain such other reasonable insurance (including, to the extent consistent with past practices, self-insurance), of such types, to such extent and against such risks, as is customary with companies in the same or similar businesses and maintain such other insurance as may be required by applicable law.

Section 5.03 *Taxes; Payment of Obligations* .

(a) Pay and discharge promptly when due all material Taxes imposed upon it before the same shall become delinquent or in default, as well as all material lawful claims for labor, materials and supplies or otherwise that, if unpaid, might give rise to a Lien upon such properties or any part thereof; *provided* , *however* , that such payment and discharge shall not be required with respect to any such Tax or claim to the extent (i) the validity or amount thereof shall be contested in good faith by appropriate proceedings and the applicable Loan Party shall have set aside on its books reserves in accordance with GAAP with respect thereto or (ii) the aggregate amount of such Taxes or claims does not exceed U.S. $1.0 million.

(b) Pay, discharge or otherwise satisfy at maturity or before they become delinquent, as the case may be, all its material obligations of whatever nature, except where (i) the amount or validity thereof is currently being contested in good faith by appropriate proceedings and reserves in conformity with GAAP with respect thereto have been provided on the books of the relevant Loan Party or (ii) the failure to pay, discharge or otherwise satisfy such obligation would not reasonably be expected to have a Material Adverse Effect.

Section 5.04 *Financial Statements, Reports, Etc.* Furnish to the Administrative Agent (which will promptly furnish such information to the Lenders):

(a) no later than one hundred and fifty (150) days after the end of each fiscal year starting with the fiscal year ended December 31, 2017, consolidated balance sheets and related statements of operations, cash flows and owners' equity showing the financial position of the Borrower and its consolidated Subsidiaries as of the close of such fiscal year and the consolidated results of their operations during such year and (other than with respect to those for the fiscal years ending on December 31, 2017 and December 31, 2018) setting forth in comparative form the corresponding figures (if any) for the prior fiscal year, all (other than those for the fiscal year ending on December 31, 2017) audited by independent accountants of recognized national standing reasonably acceptable to the Administrative Agent and accompanied by an opinion of such accountants (which shall not be qualified in any material respect) to the effect that such consolidated financial statements fairly present, in all material respects, the financial position and results of operations of the Borrower and its Subsidiaries on a consolidated basis in accordance with GAAP;

(b) no later than seventy five (75) days after the end of each of the first three (3) fiscal quarters of each fiscal year, starting with the fiscal quarter ended March 31, 2018, consolidated balance sheets and related statements of operations and cash flows showing the financial position of the Borrower and its consolidated Subsidiaries as of the close of such fiscal quarter and the consolidated results of their operations during such fiscal quarter and the then-elapsed portion of the fiscal year and (other than with respect to those for the fiscal quarters ending during the 2018 fiscal year) setting forth in comparative form the corresponding figures (if any) for the corresponding periods of the prior fiscal year, all certified by a Financial Officer of the Borrower, on behalf of the Borrower, as fairly presenting, in all material respects, the financial position and results of operations of the Borrower and its Subsidiaries on a consolidated basis in accordance with GAAP (subject to normal year-end audit adjustments and the absence of footnotes);

(c) no later than two (2) Business Days after each Quarterly Date, with respect to the Test Quarter then ended on such Quarterly Date, a certificate of a Financial Officer of the Borrower in substantially the form of Exhibit G-2 or such other form as shall be approved by the Administrative Agent, (i) certifying that no Event of Default or Default has occurred and is continuing or, if such an Event of Default or Default has occurred and is continuing, specifying the nature and extent thereof and any corrective action taken or proposed to be taken with respect thereto, (ii) setting forth a computation of Available Cash for such Test Quarter in detail reasonably satisfactory to the Administrative Agent, (iii) providing evidence of the current balances in the Depositary Accounts (it being agreed that a screenshot of such balances as of such date or other similar statement from the Depositary Bank shall satisfy this clause (iii)) and (iv) setting forth a computation of the Financial Performance Covenant for such Test Quarter in detail reasonably satisfactory to the Administrative Agent;

(d) (i) no later than five (5) Business Days after delivery thereof pursuant to any Project Level Financing Document, any audited annual financial statements of ExGen Renewables JV, Renewable Power Generation, LLC, Continental Wind, LLC, SolGen, LLC and AV Solar Ranch 1, LLC delivered to the agents, lenders or investors party thereto; (ii) no later than five (5) Business Days after delivery thereof pursuant to any Project Level Financing Document, unaudited quarterly financial statements of ExGen Renewables JV, Renewable Power Generation, LLC, Continental Wind, LLC, SolGen, LLC and AV Solar Ranch 1, LLC delivered to the agents, lenders or investors party thereto; and (iii) no later than five (5) Business Days after delivery thereof pursuant to any Project Level Financing Document, an officer's certificate required thereunder relating to the satisfaction of distribution conditions and including calculations of any ratio tests required to be submitted with any such certificate pursuant to the terms of the applicable Project Level Financing Document;

(e) no later than two (2) Business Days after each Excess Cash Flow Period, the Borrower will deliver to the Administrative Agent a certificate signed by a Financial Officer of the Borrower setting forth the amount, if any, of Excess Cash Flow for such Excess Cash Flow Period and the calculation thereof in reasonable detail, including the proposed allocation of such Excess Cash Flow pursuant to Section 2.19(c)(vii) , in substantially the form of Exhibit G-1 or such other form as shall be approved by the Administrative Agent (which certificate shall serve as notice of prepayment pursuant to Section 2.08(d));

(f) promptly, from time to time, (i) copies of any original statement for the Local Accounts provided to the Borrower by the applicable depositary bank and (ii) such other information regarding the operations, business affairs and financial condition of any Loan Party or any Subsidiary of any Loan Party, or compliance with the terms of any Loan Document, as in each case the Administrative Agent may reasonably request (for itself or on behalf of any Lender);

(g) (i) promptly (but in any event no later than five (5) Business Days) after consummation of the AG Disposition to a Person other than ExGen Renewables JV, certified copies of any Organization Documents and any other joint venture or similar agreements entered into in connection with such AG Disposition of any Additional Albany Green Entities and (ii) promptly upon receipt thereof, a copy of any "Interest Notice" (as defined in the Credit Support Reimbursement Agreement);

(h) after the execution and delivery of any material amendment, modification, extension, assignment, variance or waiver of timely compliance of any terms or conditions of any Material Project Level Agreement or Organizational Documents of any Subsidiary of the Borrower or any new Material Project Level Agreement, the Borrower shall promptly furnish the Administrative Agent certified copies of such amendment, modification, extension, assignment, variance or waiver or new Material Project Level Agreement; and

(i) on the Closing Date and no later than one hundred and fifty (150) days following the first day of each fiscal year of the Borrower, a budget (which budgets may be prepared on a cash basis) for the Loan Parties for such fiscal year setting forth (i) the projected Available Cash to be received by the Borrower or Holding during such fiscal year and (ii) the projected Operating Expenses of the Loan Parties during such fiscal year, together with (except in the case of the budget for the Closing Date) a comparison of the prior fiscal year's budget to actual results, accompanied by a certificate of a Responsible Officer of the Borrower certifying to the knowledge of the person signatory thereto that such budget is accurate and complete in all material respects based upon the Borrower's good faith reasonable estimates of information contained therein.

Section 5.05 *Litigation and Other Notices* . Furnish to the Administrative Agent written notice of the following promptly after any Responsible Officer of any of the Loan Parties obtains actual knowledge thereof:

(a) (i) any Event of Default or Default, (ii) any "Event of Default" or "Default" (or similar event or circumstance) under any Project Level Financing Document and (iii) any material breach or default under a Major Revenue Contract which breach or default permits or would permit (with the passage of time and/or giving of notice or otherwise) the termination of such Major Revenue Contract by any party thereto, in each case specifying the nature and extent thereof and the corrective action (if any) proposed to be taken with respect thereto;

(b) the filing or commencement of, or any written threat or written notice of intention of any Person to file or commence, any action, suit or proceeding, whether at law or in equity or by or before any Governmental Authority or in arbitration, against any Loan Party or any of their respective Subsidiaries which would reasonably be expected to have a Material Adverse Effect;

(c) the occurrence of an event requiring a mandatory prepayment of the Loans hereunder (other than with Excess Cash Flow);

(d) any event specific to any of the Loan Parties, their respective Subsidiaries or the Projects that has had, or would reasonably be expected to have, a Material Adverse Effect;

(e) if at any time any of the events listed in clauses (i) through (xi) of Section 7.1(k) is reasonably likely to occur and would reasonably be expected to have a Material Adverse Effect, a written notice thereof, which notice shall state that it is an "ERISA Notice" for purposes of the Loan Documents;

(f) at any time following delivery by any Loan Party of an ERISA Notice, within ten (10) Business Days after becoming aware of any of the following, a written notice setting forth the nature thereof and the action, if any, that such Loan Party proposes to take with respect thereto:

(i) with respect to any Plan, any "reportable event," as defined in Section 4043 of ERISA and the regulations thereunder, for which notice thereof has not been waived pursuant to such regulations as in effect on the date hereof;

(ii) the taking by the PBGC of steps to institute, or the threatening by the PBGC of the institution of, proceedings under Section 4042 of ERISA for the termination of, or the appointment

of a trustee to administer, any Plan, or the receipt by any Company Entity of a notice from a Multiemployer Plan that such events have, or are reasonably expected to, taken place; or

(iii) any event (including an ERISA Event), transaction or condition that could result in the incurrence of any liability by any Company Entity pursuant to Title I or IV of ERISA or the penalty or excise tax provisions of the Code relating to employee benefit plans, or in the imposition of any Lien on any of the rights, properties or assets of any Company Entity pursuant to Title I or IV of ERISA or such penalty or excise tax provisions, if such liability or Lien, taken together with any other such liabilities or Liens then existing, would reasonably be expected to have a Material Adverse Effect; and

(g) the occurrence of (A) an "Event of Default" (as defined in the Credit Support Reimbursement Agreement), (B) the issuance of "Additional Credit Support" or extension of any existing "Credit Support" (each as defined in the Credit Support Reimbursement Agreement) pursuant to section 2.1 of the Credit Support Reimbursement Agreement or (C) any other material event or notification under the Credit Support Reimbursement Agreement.

Section 5.06 *Compliance with Laws* . Comply with all laws, rules, regulations and orders of any Governmental Authority applicable to it or its property (owned or leased) (including ERISA), except where the failure to do so, individually or in the aggregate, would not reasonably be expected to result in a Material Adverse Effect. The Loan Parties will maintain in effect and enforce policies and procedures reasonably designed to ensure compliance by the Loan Parties, the Loan Parties' Affiliates and their respective directors, officers, employees and agents with Anti-Terrorism Laws, Anti-Corruption Laws and Sanctions.

Section 5.07 *Maintaining Records; Access to Properties and Inspections* . Maintain all financial records in accordance with GAAP and, subject to the provisions of Section 9.16 , permit any Persons designated by the Administrative Agent or, upon the occurrence and during the continuance of an Event of Default, any Lender to visit and inspect the financial records and the properties of any of the Loan Parties at reasonable times, upon reasonable prior notice to the Borrower, and as often as reasonably requested and to make extracts from and copies of such financial records, and permit any Persons designated by the Administrative Agent or, upon the occurrence and during the continuance of an Event of Default, any Lender upon reasonable prior notice to the Borrower to discuss the affairs, finances and condition of any Loan Party with the officers thereof, or the general partner, managing member or sole member thereof, and independent accountants therefor (subject to reasonable requirements of confidentiality, including requirements imposed by law or by contract); *provided* that, during any calendar year absent the occurrence and continuation of an Event of Default, only one (1) such visit may be made by the Administrative Agent and shall be at the Borrower's expense; *provided* , *further* , that during the continuance of an Event of Default, the Administrative Agent or any Lender may do any of the foregoing at the expense of the Borrower.

Section 5.08 *Use of Proceeds* . Use the proceeds of the Loans solely for the purposes described in Section 3.11 . The Loan Parties will not request any borrowing or other extension of credit, and the Loan Parties shall not use, directly or indirectly, and shall not lend, contribute or otherwise make available the proceeds of any borrowing or other extension of credit to any subsidiary, joint venture partner or other Person (A) in furtherance of an offer, payment, promise to pay or authorization of the payment or giving of money, or anything else of value, to any Person in violation of any Anti-Terrorism Laws or Anti-Corruption Laws, (B) to fund, finance or facilitate any activities, business or transaction of or with any Sanctioned Person, or in any Sanctioned Country or (C) in any manner that would result in the violation of any Sanctions by any Person.

Section 5.09 *Compliance with Environmental Laws* . Comply, and make commercially reasonable efforts to cause all lessees and other Persons occupying its properties to comply, with all Environmental Laws applicable to its business, operations and properties; obtain and maintain in full force and effect all material authorizations, registrations, licenses and permits required pursuant to Environmental Law for its business, operations and properties; and perform any investigation, remedial action or cleanup required

pursuant to the Release of any Hazardous Materials as required pursuant to Environmental Laws, except, in each case with respect to this Section 5.09 , to the extent the failure to do so would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect.

Section 5.10 *Further Assurances* .

(a) Execute any and all further documents, financing statements, agreements and instruments, and take all such further actions (including the filing and recording of financing statements, fixture filings, and other documents and recordings of Liens in stock registries or land title registries, as applicable), that may be required under any applicable law, or that the Administrative Agent may reasonably request, to cause the Collateral and Guarantee Requirement to be and remain satisfied, all at the expense of the Loan Parties, and provide to the Administrative Agent, from time to time upon reasonable request evidence reasonably satisfactory to the Administrative Agent as to the perfection and priority of the Liens created or intended to be created by the Security Documents.

(b) Promptly notify the Administrative Agent if any material portion of the Collateral is damaged or destroyed.

(c) Cause the Collateral and Guarantee Requirement to be and remain satisfied in accordance with the terms of the Security Documents.

Section 5.11 *Credit Ratings* . Use commercially reasonable efforts to obtain and to cause a public credit rating by S&P and by Moody's to be maintained with respect to the Term Loan Facility; *provided* , that nothing in this Section 5.11 shall require the maintenance of any minimum ratings by either S&P or Moody's.

Section 5.12 *Interest Rate Protection* . With respect to the Borrower, (a) no later than sixty (60) days following the Closing Date obtain, and at all times thereafter until at least the fourth (4 th) anniversary of the date such Swap Agreement or Swap Agreements were entered into, cause to be maintained protection against fluctuations in interest rates pursuant to one or more Swap Agreements (" **Interest Rate Swap Agreements** ") with Specified Swap Counterparties, covering a notional amount of not less than 50.0% but not more than 105.0% of the reasonably anticipated outstanding principal amount of the Term Loans (such amount to be reasonably determined by the Borrower in good faith and to reflect the projected Excess Cash Flow prepayments pursuant to Section 2.09(c) during such period, as based upon the Base Case Model); *provided* that if at any time such Interest Rate Swap Agreements cover more than 105% of a notional amount of the outstanding principal amount of the Term Loans, the Borrower shall be required to cure such over-hedged position within 30 days so that no more than 105% of the outstanding principal amount of the Term Loans shall be subject to such Interest Rate Swap Agreements (after giving effect to such cure). Upon entering into any Interest Rate Swap Agreement (including any confirmation under any master agreement), the Borrower shall provide a copy thereof to the Administrative Agent.

Section 5.13 *Accounts* . At all times maintain the Depositary Accounts with the Depositary Bank and cause all Available Cash and other amounts referred to in Section 2.19(b) as and when received to be deposited into the Revenue Account in accordance with Section 2.19(b) (or in the case of Equity Proceeds, Completion Proceeds and (as applicable) Excess Project Disposition Proceeds in the Equity Proceeds Account to the extent permitted under Section 2.19(b)) and any amounts if and when withdrawn from the Depositary Accounts to be disbursed in accordance with Section 2.19 , and maintain any Local Accounts subject to Local Account Control Agreements.

Section 5.14 *Existence of the Project Entities; Operation and Maintenance.* (a) Except to the extent that failure to maintain such existence or rights or privileges could not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect, do or cause to be done all things necessary to preserve, renew and keep in full force and effect the legal existence of each of its Subsidiaries and (b) cause the Project Entities to operate and maintain each Project in accordance with (x) in the case of the Continental Wind Entities, Section 5.4 of the Continental Wind Credit Agreement or (y) in the case of any

other Project Entities, the corresponding affirmative covenant with respect to "Conduct of Business, Maintenance or Properties, Etc." included in the Project Level Financing Documents to which they are a party (or by which they are bound), if any.

Section 5.15 *Subsidiary Distributions* . Subject to compliance with (i) the respective Organizational Documents of each Project Entity and (ii) the Material Project Level Agreements, cause all amounts that could be distributed to the Borrower and constitute Available Cash to be distributed by the Project Entities to the Borrower (no less frequently than quarterly).

Article VI.
NEGATIVE COVENANTS

Each of Holding and the Borrower covenant and agree with each Agent and each Lender that so long as this Agreement shall remain in effect and until the Discharge of the Obligations, unless the Required Lenders shall otherwise consent in writing, Holding and the Borrower shall not, and in the case of Sections 6.01 , 6.02 , 6.05 , 6.09 and 6.13 , shall not cause or permit any Project Entity to:

Section 6.01 *Indebtedness* . Incur, create, assume or permit to exist any Indebtedness or issue any Disqualified Equity Interests, except:

(a) Indebtedness created hereunder and under the other Loan Documents and all Guaranties thereof;

(b) Indebtedness of the Loan Parties pursuant to Swap Agreements permitted by Section 6.12 ;

(c) Indebtedness in respect of appeal or performance bonds and similar obligations, in each case provided in the ordinary course of business, including those incurred to secure health, safety and environmental obligations in the ordinary course of business;

(d) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business or other cash management services in the ordinary course of business; *provided* that (x) such Indebtedness (other than credit or purchase cards) is extinguished within five (5) Business Days of its incurrence and (y) such Indebtedness in respect of credit or purchase cards is extinguished within sixty (60) days from its incurrence;

(e) Guarantees by any Loan Party of any Indebtedness of any other Loan Party expressly permitted to be incurred under this Section 6.01 ;

(f) all premium (if any), interest (including post-petition interest), fees, expenses, charges and additional or contingent interest on obligations described in clauses (a) through (e) above;

(g) unsecured Credit Support Reimbursement Obligations, in an aggregate principal amount outstanding under this clause (g) (with any Credit Support being deemed to have an amount equal to the maximum potential liability of the Borrower or any other Loan Party thereunder) not to exceed $[***]; and

(h) (x) in the case of the Project Entities, Project Level Indebtedness and (y)(i) in the case of the Continental Wind Entities, additional Indebtedness incurred by any Continental Wind Entity to the extent permitted under both the Continental Wind Financing Documents and the ExGen Renewables JV Agreements; (ii) in the case of the RPG Entities, additional Indebtedness incurred by any RPG Entity to the extent permitted under both the RPG Financing Documents and the ExGen Renewables JV

Agreements; (iii) in the case of the Other JV Entities, additional Indebtedness incurred by any Other JV Entity to the extent permitted under the ExGen Renewables JV Agreements (and, in the case of the Echo Entities, the Echo LLC Agreements); (iv) in the case of the Bluestem Entities, additional Indebtedness incurred by any Bluestem Entity to the extent permitted under the ExGen Renewables JV Agreements and the Bluestem Financing Documents; (v) in the case of ExGen Renewables JV, additional Indebtedness incurred by it to the extent permitted under the ExGen Renewables JV Agreements; (vi) in the case of the SolGen Entities, additional Indebtedness incurred by any SolGen Entity to the extent permitted under the SolGen Financing Documents and, after the SolGen Disposition, if any, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof; (vii) in the case of the AVSR Entities, additional Indebtedness incurred by any AVSR Entity to the extent permitted under the AVSR Financing Documents and, after the AVSR Disposition, if any, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof and (viii) in the case of the Albany Green Entities, additional Indebtedness incurred by any Albany Green Entity to the extent permitted under the AG Financing Documents and, after the AG Disposition, if applicable in the case of an AG Disposition to ExGen Renewables JV, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof.

Section 6.02 *Liens* . Create, incur, assume or permit to exist any Lien on any property or assets (including stock or other securities of any Person) at the time owned by it or on any income or revenues or rights in respect of any thereof, except (without duplication):

(a) Liens on property or assets of any Loan Party existing on the Closing Date and set forth on Schedule 6.02(a) ; *provided* that such Liens shall secure only those obligations that they secure on the Closing Date and shall not subsequently apply to any other property or assets of any Loan Party;

(b) any Lien created under the Loan Documents;

(c) Liens for Taxes, assessments, charges or levies not yet delinquent or that are being contested in accordance with Section 5.03 ;

(d) Liens securing judgments that do not constitute an Event of Default under Section 7.01(j) ;

(e) Liens that are contractual rights of set-off (i) relating to the establishment of depository relations with banks not given in connection with the issuance of Indebtedness or (ii) relating to pooled deposit or sweep accounts of any Loan Party to permit satisfaction of overdraft or similar obligations incurred in the ordinary course of business of such Loan Party;

(f) Liens arising solely by virtue of any statutory or common law provision relating to banker's liens, rights of set-off or similar rights;

(g) Liens arising from precautionary UCC financing statement filings regarding operating leases entered into by any Loan Party in the ordinary course of business;

(h) (i) in the case of the Continental Wind Entities, Liens to the extent permitted under the both Continental Wind Financing Documents and the ExGen Renewables JV Agreements; (ii) in the case of the RPG Entities, Liens to the extent permitted under both the RPG Financing Documents and the ExGen Renewables JV Agreements; (iii) in the case of the Other JV Entities, Liens to the extent permitted under the ExGen Renewables JV Agreements (and, in the case of the Echo Entities, the Echo LLC Agreements); (iv) in the case of the Bluestem Entities, Liens to the extent permitted under the ExGen Renewables JV Agreements and the Bluestem Financing Documents; (v) in the case of ExGen Renewables JV, Liens to the extent permitted under the ExGen Renewables JV Agreements; (vi) in the case of the SolGen Entities, Liens to the extent permitted under the SolGen Financing Documents and, after the SolGen Disposition, if any, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof; (vii) in the case of the AVSR Entities, Liens to the extent permitted under the AVSR Financing Documents and, after the AVSR Disposition, if any, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on

the date hereof and (viii) in the case of the Albany Green Entities, Liens incurred by any Albany Green Entity to the extent permitted under the AG Financing Documents and, after the AG Disposition, if applicable in the case of an AG Disposition to ExGen Renewables JV, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof;

(i) Lien imposed by law such as carriers', warehousemen's, mechanics', landlord's (or lessor's under operating leases), materialmen's, repairmen's, custom and revenue authorities', or other like Liens arising in the ordinary course of business and securing obligations that are not due and payable beyond the applicable grace period therefor or that are being contested in compliance with Section 5.03 ; and

(j) deposits to secure the performance of leases (other than Capital Lease Obligations), statutory obligations, liability to insurance carriers under insurance or self-insurance arrangements, surety and appeal bonds, performance bonds, statutory bankers' liens on moneys held in bank accounts and other obligations of a like nature, in each case incurred in the ordinary course of business.

Notwithstanding the foregoing, no Liens permitted pursuant to paragraphs (a), (e), (g), (h) or (j) of this Section shall be permitted to attach to any Pledged Collateral.

Section 6.03 *Sale and Lease-back Transactions* . Enter into any arrangement, directly or indirectly, with any Person whereby it shall sell or transfer any property, real or personal, used or useful in its business, whether now owned or hereafter acquired, and thereafter rent or lease such property or other property that it intends to use for substantially the same purpose or purposes as the property being sold or transferred (a " **Sale and Lease-Back Transaction** ").

Section 6.04 *Investments, Loans and Advances* . Purchase, hold or acquire (including pursuant to any merger or amalgamation with a Person) any Equity Interests, evidences of Indebtedness or other securities of, make or permit to exist any loans or advances (other than intercompany current liabilities incurred in the ordinary course of business in connection with the cash management operations of the Loan Parties, which cash management operations shall not extend to any other Person) to or Guarantees of the obligations of, or make or permit to exist any investment or any other interest in, any other Person (each, an " **Investment** "), except:

(a) Guarantees created under the Loan Documents;

(b) Investments (including Investments in Equity Interests and Guarantees of Indebtedness otherwise expressly permitted hereunder) by a Loan Party in another Loan Party, Equity Interests in Project Holdcos and, if applicable in the case of an AG Disposition to a Person other than ExGen Renewables JV, Equity Interests in any Additional Albany Green Entity;

(c) Cash and Cash Equivalents and Investments that were Cash and Cash Equivalents when made;

(d) Swap Agreements permitted under Section 6.12 ;

(e) Investments resulting from pledges and deposits referred to in Sections 6.02 and any exercise of the Cure Right;

(f) so long as no Event of Default shall have occurred and be continuing or would result therefrom, additional Investments (other than an Additional Project) in any Project Entity, if any, to the extent made with the proceeds of equity capital contributions (other than proceeds received as a result of the exercise of Cure Rights pursuant to Section 7.02) to Holding and on deposit in the Equity Proceeds Account;

(g) the loan to Peach Power, Inc. in the principal amount of $99,000,000 pursuant to that certain Purchase Money Loan Agreement, dated as of October 6, 2017, between the Borrower (as successor to

Constellation NewEnergy, Inc.) and Peach Power, Inc. (as in effect on the Closing Date) (the " **DCO Loan** "); and

(h) so long as no Event of Default shall have occurred and be continuing or would result therefrom, Permitted Acquisitions to the extent made with the proceeds of equity capital contributions (other than proceeds received as a result of the exercise of Cure Rights pursuant to Section 7.02) to Holding.

Section 6.05 *Mergers, Consolidations, Sales of Assets and Acquisitions* . Merge into, amalgamate with or consolidate with any other Person, or permit any other Person to merge into, amalgamate with or consolidate with it, or sell, transfer, lease or otherwise dispose of (in one transaction or in a series of transactions) all or any part of its assets (whether now owned or hereafter acquired) including Equity Interests held by it, or issue, sell, transfer or otherwise dispose of any Equity Interests of any Loan Party (other than Holding) or any Project Entity or purchase, lease or otherwise acquire (in one transaction or a series of transactions) all or any substantial part of the assets of any other Person, except that this Section 6.05 shall not prohibit:

(a) the disposition of Cash and Cash Equivalents in the ordinary course of business;

(b) Investments permitted by Section 6.04 , Liens permitted by Section 6.02 , Dividends described in Section 5.15 and Dividends permitted by Section 6.06 ;

(c) abandonment, cancellation or disposition of any intellectual property of any Loan Party in the ordinary course of business;

(d) issuances of Equity Interests (x) by (i) any Project Holdco to the Borrower, or (ii) the Borrower to Holding and (y) issuances of common Equity Interests by Holding (to the extent not constituting a Change in Control);

(e) (i) in the case of the Continental Wind Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to both the Continental Wind Financing Documents and the ExGen Renewables JV Agreements; (ii) in the case of the RPG Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to both the RPG Financing Documents and the ExGen Renewables JV Agreements; (iii) in the case of the Other JV Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to the ExGen Renewables JV Agreements (and, in the case of the Echo Entities, the Echo LLC Agreements); (iv) in the case of the Bluestem Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to the ExGen Renewables JV Agreements and the Bluestem Financing Documents; (v) in the case of the SolGen Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to the SolGen Financing Documents and, after the SolGen Disposition, if any, to the extent permitted under the ExGen Renewables JV Agreements; and (vi) in the case of the Albany Green Entities, mergers, amalgamations, consolidations and sales, transfers, leases or other dispositions of assets to the extent permitted pursuant to the AG Financing Documents and, if applicable in the case of an AG Disposition to ExGen Renewables JV, to the extent permitted under the ExGen Renewables JV Agreements, in each case as such documents and agreements are in effect on the date hereof; *provided* that, for the avoidance of doubt, (A) in no event shall any of the AVSR Entities (or any Equity Interests thereof) or the AV Solar Project be permitted to be sold, transferred, leased or otherwise disposed of except in connection with the AVSR Disposition; (B) in no event shall any JV Class A Membership Interests be permitted to be sold, transferred or otherwise disposed of by ExGen Renewables Holdings and (C) in no event shall any Albany Green Entity (or any Equity Interests thereof) or the Albany Green Project be permitted to be sold, transferred, leased or otherwise disposed except in connection with the AG Disposition;

(f) the sale or transfer of (x) up to all of the Equity Interests and Aggregate Interests in Albany Green Holdings held by the Borrower to ExGen Renewables JV or (y) up to 49.9% of the Aggregate Interests in Albany Green Holdings held by the Borrower to any other Person; *provided* that (i) no Default or Event of Default shall have occurred and be continuing or would result therefrom; (ii) if such sale or transfer is made to (A) ExGen Renewables JV, such sale or transfer is made in accordance with the ExGen Renewables JV Agreements or (B) any other Person, the Borrower shall continue to Control Albany Green Holdings, (iii) the Loan Parties shall have retained (directly or indirectly) greater than 50% of the Aggregate Interests with respect to Albany Green Holdings, (iv) in the case of a sale or transfer to a Person other than ExGen Renewables JV, the terms of such sale or transfer and any agreements relating thereto could not reasonably be expected to result in a material impairment of the Borrower's rights to receive distributions (including the timing and allocation thereof) from Albany Green Holdings or to have a material adverse effect on the Borrower's ability to repay the Loans, (v) the Net Proceeds payable in cash in respect of such sale or transfer shall not be less than the applicable Target Sale Prepayment Amount; and (vi) the Net Proceeds payable in connection with any such sale or transfer in an amount equal to the applicable Target Sale Prepayment Amount shall have been applied in accordance with Section 2.09(b) (such disposition, the " **AG Disposition** ");

(g) the sale or transfer of up to all of the Equity Interests in the AVSR Entities held by the Borrower to ExGen Renewables JV; *provided* that (i) no Default or Event of Default shall have occurred and be continuing or would result therefrom; (ii) such sale or transfer is made in accordance with the ExGen Renewables JV Agreements and the Loan Parties shall have retained (directly or indirectly) greater than 50% economic interest (in the aggregate) with respect to the AVSR Entities; (iii) the Net Proceeds payable in cash in respect of such sale or transfer shall not be less than the applicable Target Sale Prepayment Amount; and (iv) the Net Proceeds payable in connection with any such sale or transfer in an amount equal to the applicable Target Sale Prepayment Amount and Target Sale Additional Prepayment Amount, if applicable, shall have been applied in accordance with Section 2.09(b) (such disposition, the " **AVSR Disposition** "); and

(h) the sale or transfer of up to all of the Equity Interests in the SolGen Entities held by the Borrower to ExGen Renewables JV; *provided* that (i) no Default or Event of Default shall have occurred and be continuing or would result therefrom; (ii) such sale or transfer is made in accordance with the ExGen Renewables JV Agreements and the Loan Parties shall have retained (directly or indirectly) greater than 50% economic interest (in the aggregate) with respect to the SolGen Entities; (iii) the Net Proceeds payable in cash in respect of such sale or transfer shall not be less than the applicable Target Sale Prepayment Amount; and (iv) the Net Proceeds payable in connection with any such sale or transfer in an amount equal to the applicable Target Sale Prepayment Amount and Target Sale Additional Prepayment Amount, if applicable, shall have been applied in accordance with Section 2.09(b) (such disposition, the " **SolGen Disposition** ").

Section 6.06 *Dividends and Distributions* . Declare or pay, directly or indirectly, any dividend or make any other distribution (by reduction of capital or otherwise), whether in cash, property, securities or a combination thereof, with respect to any of its Equity Interests (other than dividends and distributions on Equity Interests payable solely by the issuance of additional shares of Equity Interests of the Person paying such dividends or distributions) or directly or indirectly redeem, purchase, retire or otherwise acquire for value (or permit any of its Subsidiaries to purchase or acquire) any shares of any class of its Equity Interests or set aside any amount for any such purpose (each, a " **Dividend** "); *provided* , *however* , that, notwithstanding the foregoing:

(a) Holding may make noncash repurchases, redemptions or exchanges of Equity Interests deemed to occur upon exercise of stock options or exchange of exchangeable shares if such Equity Interests represent a portion of the exercise price of such options;

(b) so long as no Event of Default shall have occurred and is continuing or would result therefrom, Holding and the Borrower may declare and pay Dividends in cash from Equity Proceeds on deposit in the Equity Proceeds Account;

(c) the Borrower and Holding shall be permitted to make distributions of the net cash proceeds of the Loans to the Sponsor and/or any of its Affiliates within five (5) Business Days following the Closing Date;

(d) the Borrower and Holding shall be permitted to make distributions of Completion Proceeds and Excess Project Disposition Proceeds; and

(e) the Borrower and Holding shall be permitted to make distributions of Excess Cash Flow as provided in Section 2.19(c)(viii) and other distributions as provided in Section 2.19(d)(iii)(B) and Section 2.19(e)(ii)(D) .

Section 6.07 *Transactions with Affiliates* .

(a) Sell or transfer any property or assets to, or purchase or acquire any property or assets from, or otherwise engage in any other transaction with, any of its Affiliates, unless such transaction, taken as a whole, is upon terms not materially less favorable to the applicable Loan Party than would be obtained in a comparable arm's-length transaction with a Person that is not an Affiliate.

(b) The foregoing paragraph (a) shall not prohibit, to the extent otherwise permitted under this Agreement:

(i) any issuance of securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, employment arrangements, stock options, stock ownership plans, including restricted stock plans, stock grants, directed share programs and other equity based plans customarily maintained by similar companies and the granting and performance of registration rights approved by the board of directors (or equivalent governing body) of the Loan Parties;

(ii) transactions between or among the Loan Parties otherwise permitted by this Agreement;

(iii) any indemnification agreement or any similar arrangement entered into with members, directors, officers, consultants and employees of any of the Loan Parties in the ordinary course of business and the payment of fees and indemnities to directors, officers, consultants and employees of any of the Loan Parties in the ordinary course of business;

(iv) Investments otherwise permitted under Section 6.04(f) ;

(v) transactions pursuant to permitted agreements in existence on the Closing Date and set forth on Schedule 6.07(b) or any amendment thereto to the extent such amendment is not adverse to the Lenders in any material respect;

(vi) any employment agreement or employee benefit plan entered into by any of the Loan Parties in the ordinary course of business or consistent with past practice and payments pursuant thereto;

(vii) transactions otherwise permitted under Section 6.06 ; or

(viii) any purchase by the Sponsor or an Affiliate (other than a Loan Party or a Subsidiary of a Loan Party) of Equity Interests of Holding (to the extent not constituting a Change in Control).

Section 6.08 *Business of the Borrower and Holding* . Engage in any business or activity other than (a) in the case of Holding, the ownership of Equity Interests in the Borrower, and in the case of the Borrower, the ownership of Equity Interests in the Project Holdcos, (b) maintaining its legal existence, (c) participating in tax, accounting and other administrative and management activities for itself and as an entity that is part of a consolidated group of companies, (d) the execution and delivery of the Loan Documents to which it is a party and the performance of its obligations thereunder, (e) the execution and delivery of Swap Agreements permitted under Section 6.12 and the performance of its obligations thereunder, (f) the performance of its obligations under the Loan Documents (including those required by Article V) and its Organizational Documents; (g) activities incidental to the businesses or activities described in clauses (a) through (f) of this Section 6.08 and (h) any other transaction permitted by the Loan Documents to the extent incidental to the business or activities described in clauses (a) through (f) . In addition, the Loan Parties shall not acquire or hold any fee or leasehold interest in any real property.

Section 6.09 *Limitation on Modifications or Prepayments of Indebtedness; Modifications of Certificate of Incorporation, By-laws and Certain Other Agreements; Etc.*

(a) Amend, supplement, waive or modify, or permit the amendment, supplement, waiver or modification of, in any manner materially adverse to the Lenders, or grant any waiver or release under or terminate in any manner (if such granting or termination shall be materially adverse to the Lenders), the Organizational Documents of any Loan Party;

(b) Make, or agree or offer to pay or make, directly or indirectly, any payment or other distribution (whether in cash, securities or other property) of or in respect of principal of or interest on any Indebtedness (other than the Loans) of the Loan Parties or any payment or other distribution (whether in cash, securities or other property), including any sinking fund or similar deposit, on account of the purchase, redemption, retirement, acquisition, cancellation or termination of any Indebtedness of the Loan Parties, except for prepayments with the proceeds of Qualified Equity Interests of Holding issued for such purchase (other than proceeds from the exercise of the Cure Rights pursuant to Section 7.02);

(c) Enter into or permit any Subsidiary of the Borrower to enter into any agreement or instrument that by its terms restricts, (i) in the case of any such Subsidiary, the payment of dividends or distributions or the making of cash advances by such Subsidiary to the Borrower or any Subsidiary that is a direct or indirect parent of such Subsidiary or, (ii) in the case of the Loan Parties, the granting of Liens by the Loan Parties pursuant to the Security Documents, in each case, other than those arising under any Loan Document, except, in each case, restrictions existing by reason of:

(A) applicable law; or

(B) in the case of any Subsidiary (including the Project Entities), contractual encumbrances or restrictions in effect on the Closing Date in the Project Level Financing Documents.

(d) (i) Amend, supplement, waive or modify, or permit the amendment, supplement, waiver or modification of, the Organizational Documents of any of the Subsidiaries of the Borrower (including ExGen Renewables JV) in a manner that would delay or reduce in any material respect the amount, timing or allocation of dividends or distributions to a Loan Party, without the prior written consent of the Required Lenders, (ii) amend, supplement, waive or modify or permit the amendment, supplement, waiver or modification of, the Organizational Documents of ExGen Renewables JV that are in effect as of the date hereof in a manner that would (A) alter the ownership structure or relative rights with respect to Class A and Class B Membership Interests or (B) materially change the rights and responsibilities of the Managing Member or (iii) otherwise amend, supplement, waive or modify, or permit the amendment, supplement, waiver or modification of, the Organizational Documents of any of the Subsidiaries of the Borrower if, in the case of clauses (ii) or (iii) , such action could reasonably be expected to result in a

material impairment of Borrower's ability to prepay or repay the Loans or otherwise is in a manner materially adversely to the Lenders;

(e) (i) Amend, supplement, waive, rescind, terminate or otherwise modify, or permit the amendment, supplement, waiver, rescission, termination or modification of, (x) the conditions to dividends or other distributions (including satisfaction of any financial ratio tests with respect to such dividends or other distributions), or the timing, amount, allocation or other terms thereof, set forth in the Project Level Financing Documents or (y) the covenants limiting Indebtedness, Liens or mergers and sales or other dispositions of assets set forth in the Project Level Financing Documents, or (ii) otherwise amend, supplement, waive, rescind, terminate or otherwise modify, or permit the amendment, supplement, waiver, rescission, termination or modification of, any Project Level Financing Document, if in the case of this clause (ii), such action could reasonably be expected to result in a material impairment of Borrower's ability to prepay or repay the Loans or otherwise is in a manner materially adversely to the Lenders; or

(f) Amend, supplement or otherwise modify the Credit Support Reimbursement Agreement after the Closing Date in any manner that would accelerate the final maturity of, or increase the rate of interest on, any Credit Support Reimbursement Obligations.

Section 6.10 *Debt Service Coverage Ratio* . Beginning on November 30, 2018, for any Test Period, permit the Debt Service Coverage Ratio on each Quarterly Date to be [***].

Section 6.11 *Negative Pledge* . With respect to the Equity Interests of the Borrower or any Project Holdco, (i) create, incur, assume or permit to exist any Lien on such Equity Interests other than any Lien arising by operation of law or under the Security Documents, (ii) assign or sell any income or revenues in respect thereof other than in connection with a Dividend thereof permitted by Section 6.06 or (iii) file or permit the filing of any financing statement or other similar notice of any Lien with respect to such Equity Interests under the UCC or any state or under any similar recording or notice statute except any such financing statements or notices filed with respect to the Lien under the Security Documents.

Section 6.12 *Swap Agreements* . Enter into any Swap Agreement, other than the Swap Agreements required to be entered into pursuant to Section 5.12 .

Section 6.13 *Amendment of Major Revenue Contracts, Etc.* Cause or consent to or permit, any amendment, modification, extension, variance or waiver of timely compliance with any material terms or conditions of any Major Revenue Contract, or cause or consent to or permit any termination, cancellation, assignment or replacement (other than upon expiration in accordance with its terms) of any Major Revenue Contract unless such amendment, modification, extension, variance or waiver of timely compliance, termination, cancellation, assignment or replacement of any Major Revenue Contract is permitted pursuant to the terms of the applicable Project Level Financing Documents (without, for the avoidance of doubt, giving effect to any waiver of the terms thereof), as certified by a Responsible Officer of the Borrower.

Section 6.14 *Fiscal Year, Name, Location and EIN* . Change (a) its fiscal year end from December 31, or (b) its corporate or organization name, identity or organizational structure, jurisdiction of organization, federal employer identification number or other organization identification number or the location of its principal place of business, without, in the case of clause (b) , at least 10 days' prior written notice to the Administrative Agent and the Collateral Agent; *provided* that no Loan Party shall effect or permit any such change unless (x) all filings have been made, or will have been made within any statutory period, under the UCC or otherwise that are required in order for the Collateral Agent to continue at all times following such change to have a valid, legal and perfected security interest in all the Collateral for the benefit of the Secured Parties and (y) such change does not adversely affect the priority of the Collateral Agent's security interests.

Section 6.15 *No Subsidiaries or Joint Ventures* . Create, form or acquire any Subsidiary (other than the Project Entities, any Additional Project Entity and (if applicable) any Additional Albany Green Entities) or enter into any partnership or joint venture (other than any Permitted Acquisition or the exercise of any existing options set forth in the Organizational Documents of any Loan Party, Project Entity, Additional Project Entity or Additional Albany Green Entity as of the Closing Date to the extent, in each case, such a transaction

qualifies as a new partnership or joint venture or with respect to any Additional Albany Green Entities formed, if applicable, in the case of an AG Disposition to a Person other than ExGen Renewables JV).

Section 6.16 *Bank Accounts* . Maintain any bank account or similar account with any financial institution other than the Depositary Accounts and the Local Accounts.

Section 6.17 *Special Purpose Entity* . Fail to at all times (a) maintain entity records and books of account separate from those of any other entity (other than in the case of books and accounts, the other Loan Parties) which is an Affiliate of the Borrower or any Project Entity, (b) act solely in its name and through its duly authorized officers, managers, representatives or agents in the conduct of its businesses (it being understood that certain Affiliates will be providing services in accordance with certain Material Project Level Agreements), (c) conduct in all material respects its business solely in its own name, in a manner not misleading to other Persons as to its identity (without limiting the generality of the foregoing, all oral and written communications (if any), including invoices, purchase orders, and contracts), (d) comply in all material respects with the terms of its certificate of formation and limited liability company agreement (or similar constituent documents), (e) not commingle its funds or assets with those of any other entity (other than the other Loan Parties) which is an Affiliate of the Borrower or any Project Entity, and (f) comply with any provisions of its LLC Agreement intended to ensure that each of Holding and the Borrower are special purpose entities.

Article VII.
EVENTS OF DEFAULT

Section 7.01 *Events of Default* . In case of the happening of any of the following events (" **Events of Default** "):

(a) any representation or warranty made by any Loan Party in any Loan Document, or any representation, warranty or certification of any Loan Party contained in any report, certificate, financial statement or other instrument furnished in connection with or pursuant to any Loan Document, shall prove to have been false or misleading in any material respect when so made or furnished by such Loan Party; *provided* that such materiality qualifier shall not be applicable to any representation or warranty that is already qualified or modified by "materiality," "Material Adverse Effect" or similar language in the text thereof; and *provided, further,* that, in respect of any misrepresentation the impact of which is capable of being cured and the untruth of which would not reasonably be expected to result in a Material Adverse Effect, any such misrepresentation shall not be deemed to be an Event of Default if the impact of such misrepresentation is cured within thirty (30) days of the occurrence thereof;

(b) default shall be made in the payment of any principal of any Loan when and as the same shall become due and payable, whether at the due date thereof or at a date fixed for prepayment thereof or by acceleration thereof or otherwise;

(c) default shall be made in the payment of any interest on any Loan or in the payment of any Fee or any other amount (other than an amount referred to in paragraph (b) above) due under any Loan Document, when and as the same shall become due and payable, and such default shall continue unremedied for a period of three (3) Business Days;

(d) default shall be made in the due observance or performance by any Loan Party of any covenant, condition or agreement contained in Section 5.01(a) , Sections 5.04(a) , (b) , or (d) , Section 5.05(a)(i) , Section 5.08 or in Article VI ;

(e) default shall be made in the due observance or performance by any Loan Party of (i) the covenant contained in Section 6.10 and such default shall continue unremedied for the full ten (10) Business Day cure period following such Quarterly Date provided for exercise of the Cure Right in accordance with Section 7.02 or (ii) any covenant, condition or agreement of such Person contained in

any Loan Document (other than those specified in paragraphs (b) , (c) , (d) and (e)(i) above) and such default shall continue unremedied for a period of thirty (30) days after the earlier of (x) knowledge thereof by a Responsible Officer of any Loan Party and (y) written notice thereof from the Administrative Agent or any Lender to the Borrower;

(f) (i) any event or condition occurs that (x) results in any Material Indebtedness of any Loan Party becoming due prior to its scheduled maturity or (y) enables or permits (with all applicable grace periods having expired) the holder or holders of any Material Indebtedness of any Loan Party or any trustee or agent on its or their behalf to cause any such Material Indebtedness to become due, or to require the prepayment, repurchase, redemption or defeasance thereof, prior to its scheduled maturity, (ii) any event or condition occurs that results in any Material Indebtedness of any Project Entity becoming due prior to its scheduled maturity; (iii) any Project Entity shall fail to pay any amounts due and payable on any Material Indebtedness (with all applicable grace periods having expired) and such event of default has continued unremedied for an additional five (5) days after all such applicable grace periods have expired or (iv) an "Event of Default" occurs under the Credit Support Reimbursement Agreement; *provided* , that clauses (ii) , (iii) and (iv) shall not apply to the extent such event of default or acceleration is waived, rescinded or annulled in accordance with the terms of such Indebtedness or such Indebtedness is repaid prior to the exercise of remedies thereunder;

(g) there shall have occurred a Change in Control;

(h) an involuntary proceeding shall be commenced or an involuntary petition shall be filed in a court of competent jurisdiction seeking (i) relief in respect of any Loan Party or Material Project Subsidiary or of a substantial part of the property or assets of any Loan Party or Material Project Subsidiary under the Bankruptcy Code, or any other federal, state or foreign bankruptcy, insolvency, receivership or similar law, (ii) the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for a Loan Party or Material Project Subsidiary or for a substantial part of the property or assets of a Loan Party or Material Project Subsidiary, or (iii) the winding-up or liquidation of a Loan Party; and such proceeding or petition shall continue undismissed for sixty (60) days or an order or decree approving or ordering any of the foregoing shall be entered;

(i) any Loan Party or Material Project Subsidiary shall (i) voluntarily commence any proceeding or file any petition seeking relief under the Bankruptcy Code, as now constituted or hereafter amended, or any other federal, state or foreign bankruptcy, insolvency, receivership or similar law, (ii) consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or the filing of any petition described in paragraph (i) above, (iii) apply for, request or consent to the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for any Loan Party or for a substantial part of the property or assets of any Loan Party or Material Project Subsidiary, (iv) file an answer admitting the material allegations of a petition filed against it in any such proceeding, (v) make a general assignment for the benefit of creditors or (vi) become unable, admit in writing its inability or fail generally to pay its debts as they become due;

(j) the failure by any Loan Party or Material Project Subsidiary to pay one or more final judgments aggregating in excess of U.S. $[***] (net of any amounts which are covered by insurance or bonded), which judgments are not discharged or effectively waived or stayed for a period of thirty (30) consecutive days, or any action shall be legally taken by a judgment creditor to levy upon assets or properties of any Loan Party or Material Project Subsidiary to enforce any such judgment;

(k) if, at any time, (i) any Plan fails to comply with any material provision of ERISA and/or the Code (and applicable regulations under either) or with the material terms of such Plan, (ii) any Plan fails to satisfy the minimum funding standards of ERISA or the Code for any plan year or part thereof or a waiver of such standards or extension of any amortization period is sought or granted under Section 412

of the Code, (iii) a notice of intent to terminate any Plan is or is reasonably expected to be filed with the PBGC or the PBGC institutes proceedings under Section 4042 of ERISA to terminate or appoint a trustee to administer any Plan or the PBGC notifies the Borrower that a Plan may become a subject of any such proceedings, (iv) a Loan Party incurs or is reasonably expected to incur any liability pursuant to Title I of ERISA (other than routine claims for benefits) or the penalty or excise tax provisions of the Code relating to employee benefit plans, or the Borrower or any ERISA Affiliate incurs or is reasonably expected to incur any liability pursuant to Title IV of ERISA (other than for timely paid premiums to the Pension Benefit Guaranty Corporation), (v) the Borrower or any ERISA Affiliate withdraws from any Multiemployer Plan in a complete withdrawal or a partial withdrawal, (vi) the Borrower or any ERISA Affiliate fails to make any required contribution to a Multiemployer Plan pursuant to Section 431 or 432 of the Code, (vii) any Multiemployer Plan is determined to be insolvent or in "endangered" or "critical" status (within the meaning of Section 432 of the Code or Section 305 of ERISA), (viii) a Loan Party establishes or amends any employee welfare benefit plan that provides post-employment welfare benefits in a manner that would increase the liability of a Loan Party thereunder; (ix) a non-exempt "prohibited transaction" (within the meaning of Section 406 of ERISA and Section 4975(c) of the Code) occurs with respect to any Plan, (x) any ERISA Plan is determined to be in "at risk" status (within the meaning of Section 430 of the Code or Section 303 of ERISA), or (xi) a Foreign Plan Event occurs, and any such event or events described in clauses (i) through (xi) above, either individually or together with any other such event or events, would reasonably be expected to have a Material Adverse Effect; or

(l) (i) any Loan Document, for any reason, shall cease to be, or shall be asserted in writing by any Loan Party not to be, a legal, valid and binding obligation of any party thereto, (ii) any security interest purported to be created by any Security Document and to extend to Collateral that is not immaterial to the Loan Parties on a consolidated basis shall cease to be, or shall be asserted in writing by any Loan Party not to be, a valid and perfected security interest (having the priority required by this Agreement or the relevant Security Document) in the securities, assets or properties covered thereby or (iii) the Guarantees pursuant to the Security Documents by a Loan Party of any of the Obligations shall cease to be in full force and effect (other than in accordance with the terms thereof) or shall be asserted in writing by a Loan Party not to be in effect or not to be legal, valid and binding obligations;

then, and in every such event (other than an event with respect to the Borrower described in paragraph (h) or (i) above), and at any time thereafter during the continuance of such event, the Administrative Agent, at the request of the Required Lenders, shall, by notice to the Borrower, take any or all of the following actions, at the same or different times: (i) terminate forthwith the Commitments, (ii) declare the Loans then outstanding to be forthwith due and payable in whole or in part, whereupon the principal of the Loans so declared to be due and payable, together with accrued interest thereon and any unpaid accrued Fees and all other liabilities of the Borrower accrued hereunder and under any other Loan Document, shall become forthwith due and payable, without presentment, demand, protest or any other notice of any kind, all of which are hereby expressly waived by the Borrower, anything contained herein or in any other Loan Document to the contrary notwithstanding, and in the case of any event described in paragraph (h) or (i) above, the Commitments shall automatically terminate, the principal of the Loans then outstanding, together with accrued interest thereon and any unpaid accrued Fees and all other liabilities of the Borrower accrued hereunder and under any other Loan Document, shall automatically become due and payable, without presentment, demand, protest or any other notice of any kind, all of which are hereby expressly waived by the Borrower, anything contained herein or in any other Loan Document to the contrary notwithstanding.

Section 7.02 *Right to Cure* . Notwithstanding anything to the contrary contained in Section 7.01 , in the event that the Borrower fails to comply with the Financial Performance Covenant on any Quarterly Date, the Loan Parties shall have the right, on or after such Quarterly Date and on or prior to the tenth (10 th) Business Day following such Quarterly Date, to effect a cure of such failure by receiving an additional equity investment from the Sponsor (or its designee) in the form of a cash equity contribution to the Borrower in an amount equal to the Cure Amount (collectively, the " **Cure Right** ") and upon the receipt by the Borrower of the Cure Amount, the Financial Performance Covenant shall be recalculated, giving effect to a pro forma increase to the Cash Flow Available for Debt Service for the relevant Test Period in an amount equal to such Cure Amount; *provided* that such pro forma adjustment to the Cash Flow Available for Debt Service shall be made solely for the purpose of curing the failure to comply with the Financial Performance Covenant with respect to the relevant Test Period that includes the Test Quarter for which such Cure Right was exercised (and shall be taken into account only in subsequent Test Periods that include the Test Quarter ended

immediately prior to the exercise of the Cure Right) and not for any other purpose under any Loan Document. If, after giving effect to the foregoing recalculations, the Borrower shall then be in compliance with the requirements of the Financial Performance Covenant, the Borrower shall be deemed to have satisfied the requirements of the Financial Performance Covenant as of the relevant date of determination with the same effect as though there had been no failure to comply therewith at such date, and the applicable breach or default of the Financial Performance Covenant (and any related Default or Event of Default as a result of such breach or default) that had occurred shall be deemed cured. Notwithstanding anything herein to the contrary, (i) Borrower may exercise the Cure Right with respect to only two (2) Test Quarters during any Test Period, (ii) the Cure Right shall not be exercised more than five (5) times during the term of this Agreement and (iii) any Cure Amount shall be deposited into the Revenue Account and applied in accordance with Section 2.19 .

Article VIII.
THE AGENTS; ADDITIONAL PROVISIONS FOR DEPOSITARY BANK

Section 8.01 *Appointment and Authority* .

(a) Each of the Lenders hereby irrevocably appoints MSSF to act on its behalf as the Administrative Agent hereunder and under the other Loan Documents and authorizes the Administrative Agent to take such actions on its behalf and to exercise such powers as are delegated to the Administrative Agent by the terms hereof or thereof, together with such actions and powers as are reasonably incidental thereto.

(b) Each of the Lenders hereby irrevocably appoints Wilmington Trust, National Association to act on its behalf as the Collateral Agent under the Loan Documents, and the Administrative Agent and each of the Lenders (including in any capacity as a potential Specified Swap Counterparty) hereby irrevocably appoints and authorizes the Collateral Agent to act as the agent of such Lender for purposes of acquiring, holding and enforcing any and all Liens on Collateral granted by any of the Loan Parties to secure any of the Obligations, together with such powers and discretion as are reasonably incidental thereto. In this connection, the Collateral Agent, and any co-agents, sub-agents and attorneys-in-fact appointed by the Collateral Agent pursuant to Section 8.05 for purposes of holding or enforcing any Lien on the Collateral (or any portion thereof) granted under the Security Documents, or for exercising any rights and remedies thereunder at the direction of the Administrative Agent or the Required Lenders, shall be entitled to the benefits of all provisions of this Article VIII (including Section 8.11) and Article IX as though the Collateral Agent, or such co-agents, sub-agents and attorneys-in-fact, were expressly referred to in such provisions.

(c) Each of the Lenders hereby irrevocably appoints MSSF as Syndication Agent.

(d) Each of the Lenders hereby irrevocably appoints MSSF as Documentation Agent

(e) Each of the Loan Parties, the Lenders and each Agent (other than the Depositary Bank) also hereby irrevocably appoints Wilmington Trust, National Association to act as their agent hereunder, with such powers as are expressly delegated to the Depositary Bank by the terms of this Agreement, together with such other powers as are reasonably incidental thereto. Each of the Agents and Lenders hereby authorizes and directs the Depositary Bank to act at the direction, or on the written instructions, of the Collateral Agent with respect to withdrawals, transfers and payments from and to the Depositary Accounts or as otherwise specified herein, in each case in accordance with the terms hereof. The Depositary Bank is hereby appointed to act, and hereby agrees to act, as Depositary Bank, as "securities intermediary" (within the meaning of Section 8-102(a)(14) of the UCC) with respect to the Depositary Accounts which are determined to be "securities accounts" (within the meaning of Section 8-501 of the UCC) and the "financial assets" (within the meaning of Section 8-102(a)(9) of the UCC, the " **Financial Assets** ") credited thereto and as "bank" (within the meaning of 9-102(a)(8) of the UCC) with respect to

the Depositary Accounts which are determined to be "deposit accounts" (within the meaning of Section 9-102(a)(29) of the UCC) and credit balances not constituting Financial Assets credited thereto, and to accept all payments, Cash and Cash Equivalents and other amounts to be delivered to or held by the Depositary Bank pursuant to the terms of this Agreement. The Depositary Bank shall hold and safeguard the Depositary Accounts during the term of this Agreement in accordance with the provisions of this Agreement.

(f) Except as provided expressly to the contrary herein, the provisions of this Article VIII are solely for the benefit of the Administrative Agent, the Collateral Agent, the Syndication Agent, the Documentation Agent, the Depositary Bank, any appointees thereof and the Lenders and neither the Borrower nor any other Loan Party shall have rights as a third party beneficiary of any of such provisions except as expressly provided to the contrary herein.

Section 8.02 *Rights as a Lender* . Any Person serving as an Agent hereunder shall have the same rights and powers in its capacity as a Lender as any other Lender and may exercise the same as though it were not an Agent, and the term "Lender" or "Lenders" shall, unless otherwise expressly indicated or unless the context otherwise requires, include a Person serving as an Agent hereunder in its individual capacity. Such Person and its Affiliates may accept deposits from, lend money to, act as the financial advisor or in any other advisory capacity for and generally engage in any kind of business with the Borrower or any Subsidiary or other Affiliate thereof as if such Person were not an Agent hereunder and without any duty to account therefor to the Lenders.

Section 8.03 *Exculpatory Provisions* . No Agent shall have any duties or obligations except those expressly set forth herein and in the other Loan Documents. Without limiting the generality of the foregoing, no Agent:

(a) shall be subject to any fiduciary or other implied duties, regardless of whether a Default or Event of Default has occurred and is continuing;

(b) shall have any duty to take any discretionary action or exercise any discretionary powers, except discretionary rights and powers expressly contemplated hereby or by the other Loan Documents that such Agent is required to exercise as directed in writing by the Required Lenders (or such other number or percentage of the Lenders as shall be expressly provided for herein or in the other Loan Documents); *provided* that no Agent shall be required to take any action that, in its opinion or the opinion of its counsel, may expose such Agent to liability or that is contrary to any Loan Document or applicable law;

(c) shall, except as expressly set forth herein and in the other Loan Documents, have any duty to disclose, and shall not be liable for the failure to disclose, any information relating to the Loan Parties or any of their respective Affiliates that is communicated to or obtained by the Person serving as such Agent or any of its Affiliates in any capacity;

(d) shall be liable for any action taken or not taken by it (i) with the consent or at the request of the Required Lenders (or such other number or percentage of the Lenders as shall be necessary, or as such Agent shall believe in good faith shall be necessary, under the circumstances as provided in Sections 9.08 and 7.01) or (ii) in the absence of its own gross negligence or willful misconduct (to the extent found in a final, non-appealable judgment by a court of competent jurisdiction);

(e) shall be responsible for or have any duty to ascertain or inquire into (i) any statement, warranty or representation made in or in connection with this Agreement or any other Loan Document, (ii) the contents of any certificate, report or other document delivered hereunder or thereunder or in connection herewith or therewith, (iii) the performance or observance of any of the covenants, agreements or other terms or conditions set forth herein or therein or the occurrence of any Default, (iv) the validity, enforceability, effectiveness or genuineness of this Agreement, any other Loan Document or any other agreement, instrument or document, or the creation, perfection or priority of any Lien purported to be created by the Security Documents, (v) the value or the sufficiency of any Collateral, or (vi) the satisfaction of any condition set forth in Article IV or elsewhere herein, other than to confirm receipt of items expressly required to be delivered to such Agent;

(f) shall be deemed to have knowledge of any Default or Event of Default unless and until written notice describing such Default or Event of Default is given to such Agent by any Loan Party or any Lender;

(g) shall be responsible or liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including, but not limited to, loss of profit) irrespective of whether the respective Agent has been advised of the likelihood of such loss or damage and regardless of the form of action; and

(h) shall be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services; it being understood that the respective Agent shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances;

provided that, notwithstanding the foregoing, the Depositary Bank shall take all actions as the other Agents or the Loan Parties shall direct it in writing to perform in accordance with the express provisions of this Agreement.

Section 8.04 *Reliance by Agents* . Each Agent shall be entitled to rely upon, and shall not incur any liability for relying upon, any notice, request, certificate, consent, statement, instrument, document or other writing (including any electronic message, Internet or intranet website posting or other distribution) believed by it to be genuine and to have been signed, sent or otherwise authenticated by the proper Person. Each Agent also may rely upon any statement made to it orally or by telephone and believed by it to have been made by the proper Person, and shall not incur any liability for relying thereon. In determining compliance with any condition hereunder to the making of a Loan that by its terms must be fulfilled to the satisfaction of a Lender, any Agent may presume that such condition is satisfactory to such Lender unless such Agent shall have received written notice to the contrary from such Lender prior to the making of such Loan. Each Agent may consult with legal counsel (who may be counsel for the Borrower), independent accountants and other experts selected by it, and shall not be liable for any action taken or not taken by it in accordance with the advice of any such counsel, accountants or experts.

Section 8.05 *Delegation of Duties* . Any Agent may perform any and all of its duties and exercise its rights and powers hereunder or under any other Loan Document by or through any one or more sub-agents appointed by such Agent. Any Agent and any such sub-agent may perform any and all of its duties and exercise its rights and powers by or through their respective Related Parties. The exculpatory provisions of this Article VIII shall apply to any such sub-agent and to the Related Parties of each Agent and any such sub-agent, and shall apply to their respective activities in connection with the syndication of the credit facilities provided for herein as well as activities as an Agent.

Section 8.06 *Resignation of the Agents* . Any Agent may at any time give notice of its resignation to the Lenders and the Borrower. Upon receipt of any such notice of resignation, the Required Lenders shall have the right to appoint a successor with the consent of the Borrower (not to be unreasonably conditioned, withheld or delayed) (unless an Event of Default shall have occurred and be continuing, in which case no consent of the Borrower shall be required), which shall be a financial institution with an office in the United States, or an Affiliate of any such financial institution with an office in the United States. If no such successor shall have been so appointed by the Required Lenders or the Borrower and shall not have accepted such appointment within thirty (30) days after the retiring Agent gives notice of its resignation, then such resignation shall nonetheless become effective in accordance with such notice and (a) the retiring Agent shall be discharged from its duties and obligations hereunder and under the other Loan Documents (except that in the case of any collateral security held by the Collateral Agent on behalf of the Secured Parties under any of the Loan Documents, the retiring Collateral Agent shall continue to hold such collateral security, as bailee, until such time as a successor Collateral Agent is appointed), (b) all payments, communications and

determinations provided to be made by, to or through the Administrative Agent shall instead be made by or to each Lender directly, until such time as the Required Lenders and the Borrower, if applicable, appoint a successor Administrative Agent as provided for above in this Section 8.06 and (c) the Borrower and the Lenders agree that in no event shall the retiring Agent or any of its Affiliates or any of their respective officers, directors, employees, agents, advisors or representatives have any liability to the Loan Parties, any Lender or any other Person or entity for damages of any kind, including direct or indirect, special, incidental or consequential damages, losses or expenses (whether in tort, contract or otherwise) arising out of the failure of a successor Agent to be appointed and to accept such appointment. Upon the acceptance of a successor's appointment as Agent hereunder, such successor shall succeed to and become vested with all of the rights, powers, privileges and duties of the retiring (or retired) Agent, and the retiring Agent shall be discharged from all of its duties and obligations hereunder and under the other Loan Documents (if not already discharged therefrom as provided above in this Section 8.06). The fees payable by the Borrower to a successor Agent shall be the same as those payable to its predecessor unless otherwise agreed between the Borrower and such successor. After the retiring Agent's resignation or removal hereunder and under the other Loan Documents, the provisions of this Article VIII (including Section 8.11) and Section 9.05 shall continue in effect for the benefit of such retiring Agent, its sub-agents and their respective Related Parties in respect of any actions taken or omitted to be taken by any of them while the retiring Agent was acting as Agent.

Section 8.07 *Non-Reliance on the Agents and Other Lenders* . Each Lender acknowledges that it has, independently and without reliance upon any Agent or any other Lender or any of their Related Parties and based on such documents and information as it has deemed appropriate, made its own credit analysis and decision to enter into this Agreement. Each Lender also acknowledges that it will, independently and without reliance upon any Agent or any other Lender or any of their Related Parties and based on such documents and information as it shall from time to time deem appropriate, continue to make its own decisions in taking or not taking action under or based upon this Agreement, any other Loan Document or any related agreement or any document furnished hereunder or thereunder.

Section 8.08 *No Other Duties, Etc.* Anything herein to the contrary notwithstanding, none of the Lead Arranger, the Syndication Agent or the Documentation Agent shall have any powers, duties or responsibilities under this Agreement or any of the other Loan Documents in its capacity as such.

Section 8.09 *Administrative Agent May File Proofs of Claim* . In case of the pendency of any proceeding under any federal, state or foreign bankruptcy, insolvency, receivership or similar law or any other judicial proceeding relative to any Loan Party, the Administrative Agent (irrespective of whether the principal of any Loan shall then be due and payable as herein expressed or by declaration or otherwise and irrespective of whether the Administrative Agent shall have made any demand on the Borrower) shall be entitled and empowered, by intervention in such proceeding or otherwise:

(a) to file and prove a claim for the whole amount of the principal and interest owing and unpaid in respect of the Loans and all other Obligations that are owing and unpaid and to file such other documents as may be necessary or advisable in order to have the claims of the Lenders and the Administrative Agent (including any claim for the reasonable compensation, expenses, disbursements and advances of the Lenders and the Administrative Agent and their respective agents and counsel and all other amounts due the Lenders and the Administrative Agent under Sections 2.10 , 8.11 and 9.05) allowed in such judicial proceeding; and

(b) to collect and receive any monies or other property payable or deliverable on any such claims and to distribute the same;

and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Lender to make such payments to the Administrative Agent and, if the Administrative Agent shall consent to the making of such payments directly to the Lenders, to pay to the Administrative Agent any amount due for the reasonable

compensation, expenses, disbursements and advances of the Administrative Agent and its agents and counsel, and any other amounts due the Administrative Agent under Sections 2.10 , 8.11 and 9.05 .

Nothing contained herein shall be deemed to authorize the Administrative Agent to authorize or consent to or accept or adopt on behalf of any Lender any plan of reorganization, arrangement, adjustment or composition affecting the Obligations or the rights of any Lender to authorize the Administrative Agent to vote in respect of the claim of any Lender in any such proceeding.

Section 8.10 *Collateral and Guarantee Matters* . Each of the Lenders irrevocably authorizes the Administrative Agent and the Collateral Agent to release Guarantees, Liens and security interests created by the Loan Documents in accordance with Section 9.18 . Upon request by the Administrative Agent or the Collateral Agent, at any time, each Lender will confirm in writing such Agent's authority provided for in the previous sentence.

Section 8.11 *Indemnification* . Each Lender agrees (i) to reimburse the Administrative Agent , the Depositary Bank and the Collateral Agent, on demand, in the amount of its *pro rata* share (based on its Commitments hereunder (or if such Commitments shall have expired or been terminated, in accordance with the respective principal amounts of its outstanding Loans)) of any reasonable expenses incurred for the benefit of the Lenders by the Administrative Agent, the Depositary Bank or the Collateral Agent, as applicable, including reasonable and documented counsel fees and compensation of agents and employees paid for services rendered on behalf of the Lenders which shall not have been reimbursed by the Borrower (and without limiting the Borrower's obligations to reimburse such amounts to the extent set forth in Section 9.05) and (ii) to indemnify and hold harmless the Administrative Agent, the Depositary Bank, the Collateral Agent and any of their respective directors, officers, employees or agents, on demand, in the amount of such *pro rata* share, from and against any and all liabilities, Taxes, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever which may be imposed on, incurred by or asserted against it in its capacity as Administrative Agent, the Depositary Bank or Collateral Agent or any of them in any way relating to or arising out of this Agreement or any other Loan Document or any action taken or omitted by it or any of them under this Agreement or any other Loan Document, to the extent the same shall not have been reimbursed by the Borrower (and without limiting the Borrower's obligations to reimburse such amounts to the extent set forth in Section 9.05); *provided* that no Lender shall be liable to the Administrative Agent, the Depositary Bank or the Collateral Agent for any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements to the extent found in a final, non-appealable judgment by a court of competent jurisdiction to have resulted directly and primarily from the gross negligence or willful misconduct of the Administrative Agent, the Collateral Agent, the Depositary Bank or any of their respective directors, officers, employees or agents, as applicable; *provided* , *further* , that it is understood and agreed that any action taken by the Administrative Agent, the Collateral Agent, the Depositary Bank or any of their respective directors, officers, employees or agents in accordance with the directions of the Required Lenders or any other appropriate group of Lenders pursuant to Section 9.08 shall not be deemed to constitute gross negligence or willful misconduct for purposes of the immediately preceding proviso.

Section 8.12 *Withholding* . To the extent required by any applicable law, the Administrative Agent may withhold from any payment to any Lender an amount equivalent to any applicable withholding Tax. If any payment has been made to any Lender by the Administrative Agent without the applicable withholding Tax being withheld from such payment and the Administrative Agent has paid over the applicable withholding Tax to the Internal Revenue Service or any other Governmental Authority, or the Internal Revenue Service or any other Governmental Authority asserts a claim that the Administrative Agent did not properly withhold Tax from amounts paid to or for the account of any Lender because the appropriate form was not delivered or was not properly executed or because such Lender failed to notify the Administrative Agent of a change in circumstance which rendered the exemption from, or reduction of, withholding Tax ineffective or for any other reason, such Lender shall indemnify the Administrative Agent fully for all amounts paid, directly or indirectly, by the Administrative Agent as Tax or otherwise, including any penalties or interest and together with all expenses (including reasonable and documented legal expenses, allocated internal costs and out-

of-pocket expenses) incurred. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing to such Lender under this Agreement or any other Loan Document against any amount due the Administrative Agent under this Section 8.12 . The agreements in this Section 8.12 shall survive the resignation and/or replacement of the Administrative Agent, any assignment of rights by, or the replacement of, a Lender, the termination of the Commitments and the repayment, satisfaction or discharge of all other Obligations.

Section 8.13 *Enforcement* . Notwithstanding anything to the contrary contained herein or in any other Loan Document, the authority to enforce rights and remedies hereunder and under the other Loan Documents against the Loan Parties or any of them shall be vested exclusively in, and all actions and proceedings at law in connection with such enforcement shall be instituted and maintained exclusively by, the Administrative Agent or the Collateral Agent in accordance with Section 7.01 and the Security Documents for the benefit of all the Lenders or Secured Parties, as applicable; *provided* , however, that the foregoing shall not prohibit (a) the Administrative Agent or the Collateral Agent from exercising on its own behalf the rights and remedies that inure to its benefit (solely in its capacity as Administrative Agent or Collateral Agent, as applicable) hereunder and under the other Loan Documents, (b) any Lender from exercising setoff rights in accordance with Section 9.06 (subject to the terms of Section 2.16(c)), or (c) any Lender from filing proofs of claim or appearing and filing pleadings on its own behalf during the pendency of a proceeding relative to any Loan Party under any federal, state or foreign bankruptcy, insolvency, receivership or similar law; *provided* , *further* , that if at any time there is no Person acting as the Administrative Agent or the Collateral Agent, as applicable, hereunder and under the other Loan Documents, then (i) the Required Lenders shall have the rights otherwise ascribed to the Administrative Agent or the Collateral Agent, as applicable, pursuant to Section 7.01 and the Security Documents, as applicable and (ii) in addition to the matters set forth in clauses (b) and (c) of the preceding proviso and subject to Section 2.16(c) , any Lender may, with the consent of the Required Lenders, enforce any rights and remedies available to it and as authorized by the Required Lenders.

Section 8.14 *Additional Depositary Bank Provisions.*

(a) The Loan Parties, the Lenders and each Agent agree that, for purposes of Articles 8 and 9 of the UCC, notwithstanding anything to the contrary contained in any other agreement relating to the establishment and operation of the Depositary Accounts, the jurisdiction of the Depositary Bank (in its capacity as securities intermediary and bank) is the State of New York and the laws of the State of New York govern the establishment and operation of the Depositary Accounts.

(b) The Depositary Bank shall exercise the same degree of care in administering the funds held on deposit in the Depositary Accounts and the investments purchased with such funds in accordance with the terms of this Agreement as the Depositary Bank exercises in the ordinary course of its day-to-day business in administering other funds and investments as required by applicable law. The Depositary Bank shall perform its obligations hereunder in accordance with generally accepted banking industry standards. The Depositary Bank is not party to and shall not execute and deliver, or otherwise become bound by, any agreement under which the Depositary Bank agrees with any Person other than the Collateral Agent to comply with entitlement orders or instructions originated by such Person relating to any of the Depositary Accounts or the security entitlements that are the subject of this Agreement. Except as expressly provided in Section 8.14(c) , the Depositary Bank shall not grant any Lien on any Financial Asset, other than any Lien granted to the Collateral Agent (on behalf of the Secured Parties) under the Security Documents and shall, if such a Lien is nevertheless created by the Depositary Bank, cause the prompt release or discharge of the same. The Depositary Bank may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents, legal counsel, custodians or nominees appointed with due care; *provided* that (i) the Depositary Bank's obligations under this Agreement shall remain unchanged, (ii) the Depositary Bank shall remain solely responsible to the other parties hereto for the performance of such obligations and (iii) the Loan Parties, the Independent Engineer and each other Agent shall continue to deal solely and directly with the Depositary Bank in connection with the Depositary Bank's rights and obligations under this Agreement and any rights of the Depositary Bank under the other Loan Documents.

Neither the Depositary Bank nor any of its officers, directors, employees, agents or sub-agents shall be liable for any action taken or omitted under this Agreement or in connection therewith except to the extent caused by the Depositary Bank's or their gross negligence or willful misconduct, *provided* that the Depositary Bank shall not be responsible for the negligence or misconduct of any agent appointed by it with due care. The Depositary Bank shall not be deemed to have knowledge of any Default or Event of Default unless the Depositary Bank shall have received written notice thereof. The rights, privileges, protections and benefits given to the Depositary Bank, including its rights to be indemnified, are extended to, and shall be enforceable by, the Depositary Bank in its capacity hereunder, and to each agent, custodian and other Person employed by the Depositary Bank in accordance herewith to act hereunder. In no event shall the Depositary Bank be responsible or liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including, but not limited to, loss of profit) irrespective of whether the Depositary Bank has been advised of the likelihood of such loss or damage and regardless of the form of action.

(c) In the event that the Depositary Bank has or subsequently obtains by agreement, operation of law or otherwise a Lien on any Depositary Account, the Depositary Bank agrees that such Lien shall (except to the extent provided in the next sentence) be subordinate to any Lien of the Collateral Agent. The Financial Assets or funds standing to the credit of the Depositary Accounts will not be subject to deduction, set-off, counter-claim, banker's lien or any other right in favor of the Depositary Bank or any Person other than the Collateral Agent and, subject to the terms of this Agreement and the other Loan Documents, the Loan Parties (except to the extent of returned items and charge-backs either for uncollected checks or other items of payment and transfers previously credited to one or more of the Depositary Accounts, and the Loan Parties and the Collateral Agent hereby authorize the Depositary Bank to debit the applicable Depositary Accounts for such amounts).

(d) The Depositary Bank is hereby authorized to obey and comply with all writs, orders, judgments or decrees issued by any court or administrative agency of competent jurisdiction affecting any monies, documents or other Property held by the Depositary Bank. The Depositary Bank shall not be liable to any of the parties hereto or any of the Secured Parties or their successors, heirs or personal representatives by reason of the Depositary Bank's compliance with such writs, orders, judgments or decrees, notwithstanding such writ, order, judgment or decree is later reversed, modified, set aside or vacated.

(e) The Depositary Bank shall not be (i) required to initiate or conduct any litigation or collection proceeding hereunder or under any other Loan Document or (ii) responsible for any action taken or omitted to be taken by it hereunder or in connection with any other Loan Document (except for its own gross negligence or willful misconduct). Except as otherwise provided under this Agreement, the Depositary Bank shall take action under this Agreement only as it shall be directed in writing. The Depositary Bank shall have the right at any time to seek instructions concerning the administration of this Agreement from the applicable Agent, the Loan Parties or any court of competent jurisdiction. The Depositary Bank shall have no obligation to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder. The Depositary Bank shall not be responsible or liable for any error of judgment made in good faith by an officer or officers of the Depositary Bank, any loss which may result from any investment made pursuant to this Agreement or for any loss resulting from the sale of such investment.

(f) To the extent permitted by applicable law, the Loan Parties shall assert, and the Loan Parties hereby waives, any claim against the Depositary Bank and its Affiliates and the officers, partners, members, shareholders, directors, trustees, advisors, employees, agents or sub-agents of the Depositary Bank or its Affiliates, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) (whether or not the claim therefor is based on contract, tort or duty imposed by any applicable law) arising out of, in connection with, as a result of, or in any way related to, this Agreement or any other Loan Document or any agreement or instrument contemplated hereby or thereby or referred to herein or therein, the transactions contemplated hereby or thereby or any act or omission or event occurring in connection therewith, and the Loan Parties hereby waives, releases and agrees not to sue upon any such claim or any such damages, whether or not accrued and whether or not known or suspected to exist in its favor.

(g) Neither the Depositary Bank nor the Collateral Agent shall be responsible for filing any financing or continuation statements or recording any documents or instruments in any public office at any time or times or otherwise perfecting, monitoring or maintaining the perfection of any security interest in the Collateral.

(h) Whenever in the administration of this Agreement the Depositary Bank shall deem it necessary or desirable that a factual or legal matter be proved or established in connection with the Depositary Bank taking, suffering or omitting to take any action hereunder, such matter (unless other evidence in respect thereof is herein specifically prescribed) may be deemed to be conclusively proved or established by a certificate of an Responsible Officer or a certificate of a senior officer of the applicable Agent, if appropriate, or from a legal opinion from counsel to the Loan Parties. The Depositary Bank shall have the right at any time to seek instructions concerning the administration of this Agreement from the applicable Agent, the Loan Parties or any court of competent jurisdiction. The Depositary Bank shall have no obligation to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder. The Depositary Bank shall not be responsible or liable for any error of judgment made in good faith by an officer or officers of the Depositary Bank, any loss which may result from any investment made pursuant to this Agreement or for any loss resulting from the sale of such investment.

Section 8.15 *Cash Equivalent Investments in Depositary Accounts.*

(a) Unless otherwise instructed in writing by the Borrower and subject to Section 8.17 , all cash deposited in the Depositary Accounts that are "securities accounts" (within the meaning of Section 8-501(a) of the UCC) shall be invested by the Depositary Bank in Cash and Cash Equivalents as specifically directed in writing by the Borrower; *provided* that, if the Borrower fails to so direct the Depositary Bank, then such amounts held in the Depositary Accounts shall be invested and reinvested in Cash and Cash Equivalents as selected by the Borrower in advance (which may be in the form of a standing instruction) or, if the Borrower fails to select any Cash and Cash Equivalents in advance or the Depositary Bank is not able to determine whether a selection has been made in advance or is in effect, then such amounts shall be invested and reinvested in cash. Such investments will mature in such amounts and not later than such times as may be necessary to provide funds when needed to make payments from such funds as provided in this Agreement. Except as otherwise provided herein, net interest or gain received, if any, from such Cash and Cash Equivalents shall be deposited into the Revenue Account; *provided* that net interest or gain received, if any, from Cash and Cash Equivalents made with cash on deposit in the Debt Service Reserve Account shall be deposited into Debt Service Reserve Account until the Debt Service Reserve Account is Fully Funded (as each such reserve requirement shall be certified to the Depositary Bank by the Borrower prior to any such deposit), and any release therefrom shall be subject to Section 2.19(d) . Any loss shall be charged to the applicable Depositary Account. The Depositary Bank shall have no responsibility or liability for any loss which may result from any investment made pursuant to this Agreement, or for any loss resulting from the sale of any such investment.

(b) In the event that at any time amounts are funded into a Depositary Account after 1:00 p.m. (New York City time) on any Business Day, the Depositary Bank shall have no obligation to invest or reinvest such amounts until the next Business Day.

(c) If and when cash is required for the making of any withdrawal or transfer in accordance with this Agreement (it being understood that cash shall not be required for any transfer between Depositary Accounts unless Cash and Cash Equivalents do not exist in the Depositary Account from which funds are being transferred in appropriate amounts in order to permit such transfer), the Borrower shall cause Cash and Cash Equivalents to be sold or otherwise liquidated into cash (without regard to maturity) as and to the extent necessary in order to make such withdrawals or transfers. Subject to the applicable Control Agreement and Section 8.17 , the Depositary Bank shall comply with any instruction from the Borrower with respect to any such liquidation of Cash and Cash Equivalents. In the event any such investments are so redeemed prior to the maturity thereof, neither the Depositary Bank nor any other Secured Party shall be liable for any loss or penalties relating thereto.

(d) For purposes of determining responsibility for any income Taxes payable on account of any income or gain on any Cash and Cash Equivalents hereunder, such income or gain shall be for the account of the Borrower. The Borrower shall provide the Depositary Bank with certified tax identification numbers by furnishing appropriate forms W-8 or W-9 and such other forms and documents that the Depositary Bank may reasonably request.

Section 8.16 *Depositary Account Balance Statements* . The Depositary Bank shall, on a monthly basis within seven days after the end of each calendar month and at such other times as the Administrative Agent, the Collateral Agent or the Borrower may from time to time reasonably request in writing, provide to the Administrative Agent, the Collateral Agent and the Borrower fund balance statements in respect of each of the Depositary Accounts, sub-accounts and amounts segregated in any of the Depositary Accounts; *provided* that, notwithstanding the foregoing, if requested by the Borrower, the Depositary Bank shall provide the Borrower with internet access to fund balance statements and account activity summaries. Such balance statements and account activity summaries shall also include deposits, withdrawals and transfers from and to any Depositary Account and sub-accounts and the net investment income or gain received and collected in such Depositary Account and sub-account. The Depositary Bank shall retain records of all receipts, disbursements and investments of funds with respect to the Depositary Accounts until the third anniversary of the Discharge of the Obligations. The Depositary Bank shall promptly notify the Administrative Agent, the Collateral Agent and the Borrower of its receipt and the amount of any funds received from any Person that are, or are required hereunder to be, deposited into any Depositary Account, specifying the Depositary Account into which such funds have been deposited.

Section 8.17 *Application of Funds in Depositary Accounts upon Event of Default.* On and after any date on which the Depositary Bank receives written notice from the Collateral Agent that an Event of Default has occurred and is continuing and that the Collateral Agent is exercising its rights, on behalf of the Secured Parties, with respect to one or more of the Depositary Accounts pursuant to a direction by Required Lenders, notwithstanding anything herein to the contrary, the Depositary Bank shall thereafter accept all notices and instructions required or permitted to be given to the Depositary Bank pursuant to the terms of this Agreement only from the Administrative Agent or the Collateral Agent and not from the Borrower or any other Person, and the Depositary Bank shall not withdraw, transfer, pay or otherwise disburse any amounts in any of the Depositary Accounts except pursuant to such notices and instructions from the Administrative Agent or the Collateral Agent, unless such Event of Default no longer exists due to such Event of Default having been waived, cured or no longer existing, or having been deemed waived, in accordance with the terms of the applicable Loan Documents (as confirmed in writing to the Depositary Bank by the Collateral Agent), in which event the terms of this Section 8.17 shall thereafter be inapplicable to such Event of Default. Notwithstanding anything herein to the contrary, prior to any date on which the Depositary Bank receives notice that an Event of Default has occurred and is continuing from the Collateral Agent, the Depositary Agent shall continue to apply amounts pursuant to the terms of this Agreement.

Article IX.
MISCELLANEOUS

Section 9.01 *Notices* .

(a) Notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by telecopy, as follows:

(i) if to the Borrower, Holding, the Project Holdcos or Exelon Renewables JV, to c/o Exelon Generation Company, LLC, 1310 Point Street, 12th Floor, Baltimore, MD 21231, Attention: Project Finance; with a copy to c/o Exelon Generation Company, LLC, 701 Ninth Street NW, 9 th Floor, Washington, DC 20068, Attention: Joseph Downs;

(ii) if to the Administrative Agent, to Morgan Stanley Senior Funding, Inc., 1300 Thames Street, 4 th Floor, Thames Street Wharf, Baltimore, MD 21231, Attention: Administrative Agent, Email: AGENCY.BORROWERS@morganstanley.com , with a copy to Simpson Thacher & Bartlett LLP, 425 Lexington Avenue, New York, New York 10017; Attention: Kenneth Wyman; Fax No.: 212-455-2502; Tel. No. 212-455-7435; Email: kwyman@stblaw.com;

(iii) if to the Collateral Agent, to Wilmington Trust, National Association, 1100 North Market Street, Wilmington Delaware 19890, Attention: Institutional Client Services/Project Finance; Fax No. 302-636-4149; Tel. No. 302-636-6973;

(iv) if to the Depositary Bank, to Wilmington Trust, National Association, 1100 North Market Street, Wilmington Delaware 19890, Attention: Institutional Client Services/Project Finance; Fax No. 302-636-4149; Tel. No. 302-636-6973; and/or

(v) if to any Lender, to the address, telecopier number, electronic mail address or telephone number specified in its Administrative Questionnaire.

(b) Notices and other communications to the Lenders hereunder may be delivered or furnished by electronic communications pursuant to procedures approved by the Administrative Agent; *provided* that the foregoing shall not apply to service of process, or to notices pursuant to Article II unless otherwise agreed by the Administrative Agent and the applicable Lender. Each of the Administrative Agent, the Collateral Agent and the Borrower may, in its discretion, agree to accept notices and other communications to it hereunder by electronic communications pursuant to procedures approved by it; *provided further* that approval of such procedures may be limited to particular notices or communications.

(c) All notices and other communications given to any party hereto in accordance with the provisions of this Agreement shall be deemed to have been given on the date of receipt if delivered by hand or overnight courier service or sent by telecopy or (to the extent permitted by paragraph (b) above) electronic means prior to 5:00 p.m. (New York City time) on such date, or on the date five (5) Business Days after dispatch by certified or registered mail if mailed, in each case delivered, sent or mailed (properly addressed) to such party as provided in this Section 9.01 or in accordance with the latest unrevoked direction from such party given in accordance with this Section 9.01 .

(d) Each of Holding, the Borrower, the Administrative Agent and the Collateral Agent may change its address or telecopy number for notices and other communications hereunder by notice to the other parties hereto. Each Lender may change its address or facsimile for notices and other communications hereunder by notice to Holding, the Borrower, the Administrative Agent and the Collateral Agent. In addition, each Lender agrees to notify the Administrative Agent from time to time to ensure that the Administrative Agent has on record (i) an effective address, contact name, facsimile number and electronic mail address to which notices and other communications may be sent and (ii) accurate wire instructions for such Lender.

Section 9.02 *Survival of Agreement* . All covenants, agreements, representations and warranties made by any Loan Party herein, in the other Loan Documents and in the certificates or other instruments prepared or delivered in connection with or pursuant to this Agreement or any other Loan Document shall be considered to have been relied upon by the Lenders and shall survive the making by the Lenders of the Loans and the execution and delivery of the Loan Documents, regardless of any investigation made by such Persons or on their behalf, and shall continue in full force and effect as long as the principal of or any accrued interest on any Loan or any Fee or any other amount payable under this Agreement or any other Loan Document is outstanding and unpaid or any Commitments remain in effect. Without prejudice to the survival of any other agreements contained herein, indemnification and reimbursement obligations contained herein (including pursuant to Sections 2.13 , 2.14 , 2.15 , 8.11 and 9.05) and the provisions of Section 8.14(f) shall

survive the payment in full of the principal and interest hereunder and the termination of the Commitments or this Agreement.

Section 9.03 *Binding Effect* . This Agreement shall become effective when it shall have been executed by each of Holding, the Borrower, the Administrative Agent and the Collateral Agent and when the Administrative Agent shall have received copies hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of Holding, the Borrower, the Agents and each Lender and their respective permitted successors and assigns.

Section 9.04 *Successors and Assigns* .

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by such Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section 9.04 . Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby, Participants (to the extent provided in paragraph (c) of this Section 9.04), the Lenders, the Agents and, to the extent expressly contemplated hereby, the Related Parties of each of the Agents and the Lenders, and the Indemnitees) any legal or equitable right, remedy or claim under or by reason of this Agreement:

(b) (i) Subject to the conditions set forth in Section 9.04(b)(ii) below, any Lender may assign to one or more assignees that are Eligible Assignees all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans at the time owing to it) with the prior written consent of the Administrative Agent (such consent not to be unreasonably withheld or delayed); *provided* that no consent of the Administrative Agent shall be required for an assignment of a Loan to a Person that is a Lender, an Affiliate of a Lender or Approved Fund immediately prior to giving effect to such assignment.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender, an Affiliate of a Lender or an Approved Fund, an assignment of the entire remaining amount of the assigning Lender's Commitment or Loans or contemporaneous assignments to related Approved Funds that equal at least U.S. $1.0 million in the aggregate, the amount of the Commitment and/or Loans, as applicable, of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, with respect to such assignment is delivered to the Administrative Agent) shall not be less than U.S. $1.0 million and increments of U.S. $1.0 million in excess thereof unless the Borrower and the Administrative Agent otherwise consent; *provided* that no such consent of the Borrower shall be required if an Event of Default under paragraph (b) , (c) , (h) or (i) of Section 7.01 has occurred and is continuing;

(B) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations in respect of the Term Loan Facility under this Agreement;

(C) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Acceptance or an Affiliated Lender Assignment and Acceptance, as applicable;

(D) the assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an Administrative Questionnaire and any other administrative information that the Administrative Agent may reasonably request;

(E) no such assignment shall be made to (x) a Defaulting Lender or Non-Consenting Lender or (y) the Borrower or any of the other Loan Parties or any of their respective Affiliates, other than any such Person (other than a Loan Party) in accordance with Section 9.04(e) ; and

(F) notwithstanding anything to the contrary herein, no such assignment shall be made to a natural person.

(iii) Subject to acceptance and recording thereof pursuant to paragraph (b)(iv) of this Section 9.04 , from and after the effective date specified in each Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, the assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, have the rights and obligations of a Lender under this Agreement, and the assigning Lender hereunder shall, to the extent of the interest assigned by such Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, be released from its obligations under this Agreement (and, in the case of an Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.13 , 2.14 , 2.15 and 9.05 with respect to the period that such Lender held Loans). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this Section 9.04 shall not be effective as an assignment hereunder.

(iv) The Administrative Agent, acting for this purpose as a non-fiduciary agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitment of, and principal amount (and stated interest) of the Loans owing to, each Lender pursuant to the terms hereof from time to time (the " **Register** "). The entries in the Register shall be conclusive, and the Borrower, the Agents and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender, at any reasonable time and from time to time upon reasonable prior notice (but only, in the case of a Lender, at the Administrative Agent's Office and with respect to any entry relating to such Lender's Commitments, Loans, and other Obligations).

(v) The assignor or assignee(s) to each assignment shall deliver to the Administrative Agent a processing and recordation fee in the amount of U.S. $3,500 (which shall be limited to one processing and recordation fee for each assignment to or between Approved Funds); *provided* , *however* , that the Administrative Agent may, in its sole discretion, elect to waive such processing and recordation fee in the case of any assignment. Upon its receipt (or waiver) of the processing and recording fee described in the preceding sentence, a duly completed Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, executed by an assigning Lender and an assignee, any administrative information reasonably requested by the Administrative Agent (unless the assignee shall already be a Lender hereunder) and any written consent to such assignment required by paragraph (b) of this Section 9.04 , the Administrative Agent

shall accept such Assignment and Acceptance or Affiliated Lender Assignment and Acceptance, as applicable, and record the information contained therein in the Register. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(c) (i) Any Lender may at any time, without the consent of, or notice to, the Borrower or the Administrative Agent, sell participations to any Person (other than a natural person, or a holding company, investment vehicle or trust for, or owned and operated for the primary benefit of a natural Person or any of the Borrower or its respective Affiliates or Subsidiaries) (each, a " **Participant** ") in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitment and the Loans owing to it); *provided* that (A) such Lender's obligations under this Agreement shall remain unchanged, (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, (C) the Borrower, the Agents and the other Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement and (D) such Lender shall, acting as a non-fiduciary agent of the Borrower (solely for tax purposes), maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Loans (or other rights or obligations under the Loan Documents) held by it under the Loan Documents (the " **Participant Register** "), which entries shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement, notwithstanding notice to the contrary; *provided* that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any Participant or any information relating to a Participant's interest in any Commitments, Loans or its other obligations under any Loan Document) to any Person except to the extent that such disclosure is necessary to establish that such Commitment, Loan or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. For the avoidance of doubt, the Administrative Agent (in its capacity as such) shall have no responsibility for maintaining a Participant Register. For the avoidance of doubt, each Lender shall be responsible for the indemnity under Section 8.11 with respect to any payments made by such Lender to its Participants. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to exercise rights under and to enforce this Agreement and the other Loan Documents and to approve any amendment, modification or waiver of any provision of this Agreement and the other Loan Documents; *provided* that (x) such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver described in Section 9.04(a)(i) or clause (i) through (vi) of the first proviso to Section 9.08(b) that affects such Participant and (y) no other agreement (oral or written) in respect of the foregoing with respect to such Participant may exist between such Lender and such Participant. Subject to paragraph (c)(ii) of this Section 9.04 , the Borrower agrees that each Participant shall be entitled to the benefits (and subject to the requirements and limitations) of Sections 2.13 , 2.14 and 2.15 to the same extent as if it were a Lender that acquired its interest by assignment pursuant to paragraph (b) of this Section 9.04 . To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 9.06 as though it were a Lender; *provided* such Participant agrees to be subject to Section 2.16(c) as though it were a Lender.

(ii) A Participant shall not be entitled to receive any greater payment under Section 2.13 , 2.14 or 2.15 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, except to the extent such entitlement to receive a greater payment results from a Change in Law that occurs after the Participant acquired the applicable participation, or unless the sale of the participation to such Participant is made with the Borrower's prior written consent.

(d) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement and its Note, if any, to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank or any other central bank, and this Section 9.04 shall not apply to any such pledge or assignment of a security interest; *provided* that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute

any such pledgee or assignee for such Lender as a party hereto, and any such pledgee (other than a pledgee that is the Federal Reserve Bank or any other central bank) shall acknowledge in writing that its rights under such pledge are in all respects subject to the limitations applicable to the pledging Lender under this Agreement or the other Loan Documents.

(e) Subject to the other provisions of this Section 9.04 and the provisions of Section 9.21 , any Affiliated Lender may make Loans or Commitments or purchase or sell outstanding Loans or Commitments from the Closing Date until the Business Day immediately preceding the Maturity Date, on the following basis:

(1) any such purchase or sale of Loans or Commitments shall be consummated as an assignment otherwise in accordance with the provisions of this Section 9.04 and pursuant to an Affiliated Lender Assignment and Acceptance in lieu of an Assignment and Acceptance (it being understood and agreed that any such purchase or sale of Loans that does not comply with this Section 9.04 and Section 9.21 shall not be effective as an assignment hereunder);

(2) any such purchase of Loans may be made by the applicable Affiliated Lender from time to time from one or more Lenders of such Affiliated Lender's choosing and need not be made from all Lenders; and

(3) at the time of purchase, the aggregate principal amount of the Loans and Commitments held by all Affiliated Lenders shall not exceed 25.0% of the total Commitments and Loans outstanding at any time.

Section 9.05 *Expenses; Indemnity* .

(a) The Borrower agrees to pay all reasonable and documented out-of-pocket expenses (i) incurred by the Agents and the Lead Arranger (without duplication) in connection with the preparation of this Agreement and the other Loan Documents, and by the Agents and the Lead Arranger (without duplication) in connection with the syndication of the Commitments and the administration of this Agreement (including reasonable and documented out-of-pocket expenses incurred in connection with due diligence and the reasonable and documented fees, charges and disbursements for special New York counsel for the Administrative Agent, the Collateral Agent and the Lead Arranger and counsel to the Depositary Bank and, in the event of any perceived or actual conflict of interest, an additional firm of counsel for any similarly affected persons) and in connection with any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the Transactions hereby contemplated shall be consummated); and (ii) incurred by the Agents and the Lead Arranger (without duplication) or any Lender in connection with the enforcement or protection of their rights in connection with this Agreement and the other Loan Documents or in connection with the Loans made hereunder, including the reasonable and documented fees, charges and disbursements of special New York counsel for the Administrative Agent and the Lead Arranger, counsel to the Collateral Agent and counsel to the Depositary Bank and, in connection with any such enforcement or protection, the reasonable and documented fees, charges and disbursements of any other necessary counsel; *provided* , that absent any conflict of interest, the Administrative Agent and the Lead Arranger shall not be entitled to payment for the fees, charges or disbursements of more than one counsel.

(b) The Borrower agrees to indemnify the Agents (including the Depositary Bank) and the Lead Arranger (without duplication), each Lender and each Related Party of any of the foregoing Persons (each such Person being called an " **Indemnitee** ") against, and to hold each Indemnitee harmless from, any and all claims, losses, damages, liabilities and related expenses, including reasonable and documented counsel fees, charges and disbursements (limited to no more than one firm as counsel to such Indemnitees, taken as a whole, one firm of local counsel for each relevant jurisdiction, one firm of specialty counsel, if applicable, and, in the event of any perceived or actual conflict of interest, an additional firm of counsel for any similarly affected persons), incurred by or asserted against any Indemnitee arising out of, in any way connected with, or as a result of (i) the execution or delivery of this Agreement or any other Loan Document or any agreement

or instrument contemplated hereby or thereby, the performance by the parties hereto and thereto of their respective obligations thereunder or the consummation of the Transactions and the other transactions contemplated hereby or thereby, (ii) the use or proposed use of the proceeds of the Loans, (iii) (A) any Environmental Claim related in any way to any Loan Party or any of its Subsidiaries or (B) any actual or alleged presence, Release or threatened Release of Hazardous Materials at, under, on or from any real property currently or formerly owned, leased or operated by any Loan Party or any of its Subsidiaries or by any predecessor of any Loan Party or any of its Subsidiaries, except to the extent such presence, Release or threatened Release first occurs after none of the Loan Parties or any of their Subsidiaries have possession or control of such real property or (C) the sending by any Loan Party or any of its Subsidiaries of any Hazardous Materials to any property for treatment, storage or disposal or (iv) any claim, litigation, investigation, inquiry or proceeding relating to any of the foregoing, whether or not the Borrower, any other Loan Party or any Indemnitee initiated or is a party thereto, in each case, whether or not caused by or arising, in whole or in part, out of the comparative, contributory or sole negligence of the Indemnitee; *provided* that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or related expenses are determined in a final, non-appealable judgment by a court of competent jurisdiction to have resulted from (x) the gross negligence, bad faith, or willful misconduct of such Indemnitee or of any Related Indemnitee, (y) a material breach of this Agreement or any of the Loan Documents by such Indemnitee or by any Related Indemnitee or (z) any proceeding that does not involve an act or omission by any Loan Parties and that is brought by one Indemnitee against any other Indemnitee (other than any claims brought against any Agent or Lead Arranger in their respective capacities or fulfilling their respective roles as an arranger or agent or any similar role in connection with the Term Loan Facility). In no event shall any Indemnitee be liable to any Loan Party for any consequential, indirect, special or punitive damages. No Indemnitee shall be liable for any damages arising from the use by unintended recipients of any information or other materials distributed to such unintended recipients by such Indemnitee through telecommunications, electronic or other information transmission systems in connection with this Agreement or the other Loan Documents or the transactions contemplated hereby or thereby.

(c) All amounts due under this Section 9.05 shall be payable after written demand thereof accompanied by reasonable documentation with respect to any reimbursement, indemnification or other amount requested. This Section 9.05 shall not apply to Taxes other than any Taxes that represent losses, claims, damages, etc. to which Section 9.05 would otherwise apply arising from any non-Tax claim.

Section 9.06 *Right of Set-off* . If an Event of Default shall have occurred and be continuing, each Lender is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender to or for the credit or the account of any Loan Party against any and all obligations of the Loan Parties now or hereafter existing under this Agreement or any other Loan Document held by such Lender, irrespective of whether or not such Lender shall have made any demand under this Agreement or such other Loan Document and although the obligations may be unmatured. The rights of each Lender under this Section 9.06 are in addition to other rights and remedies (including other rights of set-off) that such Lender may have. Each Lender agrees to notify the Borrower and the Administrative Agent promptly after any such setoff and application; *provided* that the failure to give such notice shall not affect the validity of such setoff and application.

Section 9.07 *Applicable Law* . THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS AND ANY DISPUTE, CLAIM OR CONTROVERSY ARISING OUT OF OR RELATING TO THIS AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

Section 9.08 *Waivers; Amendment* .

(a) No failure or delay of any Agent or any Lender in exercising any right or power hereunder or under any other Loan Document shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power,

preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Agents and the Lenders hereunder and under the other Loan Documents are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or any other Loan Document or consent to any departure by the Borrower or any other Loan Party therefrom shall in any event be effective unless the same shall be permitted by Section 9.08(b) , and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. No notice or demand on the Borrower or any other Loan Party in any case shall entitle such Person to any other or further notice or demand in similar or other circumstances.

(b) Neither this Agreement nor any other Loan Document nor any provision hereof or thereof may be waived, amended or modified except (x) in the case of this Agreement, pursuant to an agreement or agreements in writing entered into by the Borrower and the Required Lenders (or the Administrative Agent with the consent of the Required Lenders) and (y) in the case of any other Loan Document, pursuant to an agreement or agreements in writing entered into by each party thereto and consented to by the Required Lenders; *provided* , *however* , that no such agreement shall:

(i) decrease or forgive the principal amount of, or extend the final maturity of, or decrease the rate of interest on, any Loan, without the prior written consent of each Lender directly affected thereby,

(ii) increase or extend the Commitment of any Lender or decrease the fees payable to any Lender without the prior written consent of such Lender,

(iii) extend or waive any Scheduled Amortization Payment or reduce the amount due on any Scheduled Amortization Payment or extend any date on which payment of interest on any Loan or any Fee is due, without the prior written consent of each Lender adversely affected thereby,

(iv) amend or modify the provisions of Section 2.16(b) or (c) or any other provisions of this Agreement in a manner that would by its terms alter the *pro rata* sharing of payments required thereby or the application of payments required thereby, without the prior written consent of each Lender adversely affected thereby,

(v) amend or modify the provisions of Section 9.04(a)(i) or this Section 9.08 or the definition of the term “Required Lenders,” or any other provision hereof or of any other Loan Document specifying the number or percentage of Lenders required to waive, amend or modify any rights hereunder or under any other Loan Document or make any determination or grant any consent hereunder or under any other Loan Document, without the prior written consent of each Lender adversely affected thereby (it being understood that, with the consent of the Required Lenders, additional extensions of credit pursuant to this Agreement may be included in the determination of the Required Lenders on substantially the same basis as the Loans and Commitments are included on the Closing Date), or

(vi) release all or substantially all the Collateral or release any Guarantees of the Borrower, Holding, ExGen Renewables Holding or any other Loan Party, without the prior written consent of each Lender;

provided , *further* , that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent, the Depositary Bank or the Collateral Agent hereunder or under the other Loan Documents without the prior written consent of the Administrative Agent, the Depositary Bank or the Collateral Agent, as applicable. Each Lender shall be bound by any waiver, amendment or modification authorized by this Section 9.08 and any consent by any Lender pursuant to this Section 9.08 shall bind any assignee of such Lender.

(c) Without the consent of any Syndication Agent, Documentation Agent, Lead Arranger or Lender, the Loan Parties and the Administrative Agent, the Depositary Bank and/or Collateral Agent may (in their respective sole discretion, or shall, to the extent required by any Loan Document) enter into any amendment, modification or waiver of any Loan Document, or enter into any new agreement or instrument, to effect the granting, perfection, protection, expansion or enhancement of any security interest in any Collateral or additional property to become Collateral for the benefit of the Secured Parties, or as required by local law to give effect to or protect any security interest for the benefit of the Secured Parties in any property or so that the security interests therein comply with applicable law.

(d) Notwithstanding the foregoing, this Agreement may be amended (or amended and restated) with the written consent of the Required Lenders, the Administrative Agent and the Borrower (i) to add one or more additional credit facilities to this Agreement and to permit the extensions of credit from time to time outstanding thereunder and the accrued interest and fees in respect thereof to share ratably in the benefits of this Agreement and the other Loan Documents with the Loans and the accrued interest and fees in respect thereof and (ii) to include appropriately the Lenders holding such credit facilities in any determination of the Required Lenders.

(e) Notwithstanding the foregoing, any Loan Document may be amended, modified, supplemented or waived with the written consent of the Administrative Agent and the Borrower without the need to obtain the consent of any Lender if such amendment, modification, supplement or waiver is executed and delivered in order to cure an ambiguity, omission, mistake or defect in such Loan Document; *provided* that in connection with this clause (e) , in no event will the Administrative Agent be required to substitute its judgment for the judgment of the Lenders or the Required Lenders, and the Administrative Agent may in all circumstances seek the approval of the Required Lenders, the affected Lenders or all Lenders in connection with any such amendment, modification, supplement or waiver.

Section 9.09 *Interest Rate Limitation* . Notwithstanding anything herein to the contrary, if at any time the applicable interest rate, together with all fees and charges that are treated as interest under applicable law (collectively, the " **Charges** "), as provided for herein or in any other document executed in connection herewith, or otherwise contracted for, charged, received, taken or reserved by any Lender, shall exceed the maximum lawful rate (the " **Maximum Rate** ") that may be contracted for, charged, taken, received or reserved by such Lender in accordance with applicable law, the rate of interest payable hereunder, together with all Charges payable to such Lender, shall be limited to the Maximum Rate; *provided* that such excess amount shall be paid to such Lender on subsequent payment dates to the extent not exceeding the legal limitation.

Section 9.10 *Entire Agreement* . This Agreement, the other Loan Documents, the Fee Letters and the agreements regarding certain Fees referred to herein constitute the entire contract between the parties relative to the subject matter hereof and may not be contradicted by evidence of prior, contemporaneous or subsequent oral agreements of the parties. There are no unwritten oral agreements among the parties relative to the subject matter hereof. Any previous agreement among or representations from the parties or their Affiliates with respect to the subject matter hereof is superseded by this Agreement, the other Loan Documents and the Fee Letters. Notwithstanding the foregoing, Sections 2 (with respect to Fees), 4, 7 and 8 of the Engagement Letter shall survive the execution and delivery of this Agreement and

remain in full force and effect; *provided* , *however* , that Sponsor's obligations under Section 4 of the Engagement Letter shall automatically terminate and be deemed superseded immediately upon the execution and delivery of this Agreement. Nothing in this Agreement, in the other Loan Documents or in the Fee Letters, expressed or implied, is intended to confer upon any party other than the parties hereto and thereto any rights, remedies, obligations or liabilities under or by reason of this Agreement, the other Loan Documents or the Fee Letters.

Section 9.11 *Waiver of Jury Trial* . EACH PARTY HERETO HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THIS AGREEMENT OR ANY OTHER LOAN DOCUMENT. EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PERSON HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PERSON WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 9.11 . EACH PARTY HERETO FURTHER REPRESENTS AND WARRANTS THAT IT HAS REVIEWED THIS WAIVER WITH ITS LEGAL COUNSEL AND THAT IT KNOWINGLY AND VOLUNTARILY WAIVES ITS JURY TRIAL RIGHTS FOLLOWING CONSULTATION WITH LEGAL COUNSEL.

Section 9.12 *Severability* . Any provision of this Agreement which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. The parties hereto shall endeavor in good-faith negotiations to replace any invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

Section 9.13 *Counterparts* . This Agreement may be executed by one or more of the parties to this Agreement on any number of separate counterparts (including by facsimile or other electronic imaging means), and all of said counterparts taken together shall be deemed to constitute one and the same instrument. Delivery of an executed signature page of this Agreement by facsimile or other electronic transmission (e.g. ".pdf" or ".tif" format) shall be effective as delivery of a manually executed counterpart hereof.

Section 9.14 *Headings* . The article and section headings and Table of Contents used in this Agreement are for convenience of reference only and are not to affect the construction hereof or be taken into consideration in the interpretation hereof.

Section 9.15 *Jurisdiction; Consent to Service of Process* .

(a) Each of Holding and the Borrower, the Agents and the Lenders hereby irrevocably and unconditionally submits, for itself and its property, to the exclusive jurisdiction of any New York State court or federal court of the United States sitting in New York County, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement or the other Loan Documents, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such federal court. Each of Holding and the Borrower further irrevocably consents to the service of process in any action or proceeding in such courts by the mailing thereof by any parties thereto by registered or certified mail, postage prepaid, to such Person at the address specified for the Loan Parties in Section 9.01 . Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement (other than

Section 8.09 or Section 8.14) shall affect any right that any Lender or Agent may otherwise have to bring any action or proceeding to enforce this Agreement or the other Loan Documents against the Borrower or any other Loan Party in the courts of any jurisdiction in which the Borrower, the Loan Parties or their properties are located.

(b) Each of Holding, the Borrower, the Agents, and the Lenders hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or the other Loan Documents in any New York State or federal court sitting in New York County. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

Section 9.16 *Confidentiality* . Each of the Lenders and each of the Agents agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its Affiliates and to its Related Parties (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to keep such Information confidential); (b) to the extent required or requested by any regulatory authority purporting to have jurisdiction over such Person or its Related Parties (including any self-regulatory authority, such as the National Association of Insurance Commissioners); (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process; (d) to any other party hereto; (e) in connection with the exercise of any remedies hereunder or under any other Loan Document or any action or proceeding relating to this Agreement or any other Loan Document or the enforcement of rights hereunder or thereunder; (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any assignee of or Participant in, or any prospective assignee of or Participant in, any of its rights and obligations under this Agreement, or (ii) any actual or prospective party (or its Related Parties) to any swap, derivative or other transaction under which payments are to be made by reference to the Borrower and its obligations, this Agreement or payments hereunder (it being understood that the Information may be disclosed to any assignee or Participant, or prospective assignee or Participant, in reliance on this clause (f)); (g) on a confidential basis to (i) any rating agency in connection with rating the Borrower or its Subsidiaries or the Term Loan Facility or (ii) the CUSIP Service Bureau or any similar agency in connection with the issuance and monitoring of CUSIP numbers with respect to the Term Loan Facility; (h) with the consent of the Borrower; or (i) to the extent such Information (x) becomes publicly available other than as a result of a breach of this Section, or (y) becomes available to any Lender, any Agent or any of their respective Affiliates on a nonconfidential basis from a source other than the Borrower. In addition, each Agent and each Lender may disclose the existence of this Agreement and information about this Agreement to market data collectors, similar service providers to the lending industry and service providers to the Agents and the Lenders in connection with the administration of this Agreement, the other Loan Documents, and the Commitments.

For purposes of this Section, " Information " means all information received from the Borrower, Holding or any of its Subsidiaries relating to the Borrower, Holding, any of their respective Subsidiaries or any of their respective businesses, other than any such information that is available to any Lender or any Agent on a nonconfidential basis prior to disclosure by the Borrower or any of its Subsidiaries; *provided* that, in the case of information received from the Borrower or any of its Subsidiaries after the date hereof, such information is clearly identified at the time of delivery as confidential. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information.

Section 9.17 *Communications* .

(a) *Delivery* .

(i) Each Loan Party hereby agrees that it will use all reasonable efforts to provide to the Administrative Agent all information, documents and other materials that it is obligated to furnish

to the Administrative Agent pursuant to this Agreement and any other Loan Document, including all notices, requests, financial statements, financial and other reports, certificates and other information materials, but excluding any such communication that (A) relates to a request for a new, or a conversion of an existing, borrowing or other extension of credit (including any election of an interest rate or interest period relating thereto), (B) relates to the payment of any principal or other amount due under this Agreement prior to 5:00 p.m. (New York City time) on the scheduled date therefor, (C) provides notice of any Default or Event of Default under this Agreement or (D) is required to be delivered to satisfy any condition precedent to the effectiveness of this Agreement and/or any borrowing or other extension of credit hereunder (all such non-excluded communications collectively, the " **Communications** "), by transmitting the Communications in an electronic/soft medium in a format reasonably acceptable to the Administrative Agent at the address referenced in Section 9.01(a)(ii) . Nothing in this Section 9.17 shall prejudice the right of the Agents, the Syndication Agent, the Documentation Agent, the Lead Arranger or any Lender or any Loan Party to give any notice or other communication pursuant to this Agreement or any other Loan Document in any other manner specified in this Agreement or any other Loan Document.

(ii) The Administrative Agent agrees that receipt of the Communications by the Administrative Agent at the email address referenced in Schedule 9.01(a)(ii) shall constitute effective delivery of the Communications to the Administrative Agent for purposes of the Loan Documents. Each Lender agrees that notice to it (as provided in the next sentence) specifying that the Communications have been posted to the Platform shall constitute effective delivery of the Communications to such Lender for purposes of the Loan Documents. Each Lender agrees (A) to notify the Administrative Agent in writing (including by electronic communication) from time to time of such Lender's e-mail address to which the foregoing notice may be sent by electronic transmission and (B) that the foregoing notice may be sent to such e-mail address.

(b) *Posting* . Each Loan Party further agrees that the Administrative Agent may make the Communications available to the Lenders by posting the Communications on Intralinks, SyndTrak or a substantially similar electronic transmission system (the " **Platform** "). The Borrower hereby acknowledges that (i) the Administrative Agent and/or the Lead Arranger will make available to the Lenders materials and/or information provided by or on behalf of the Borrower hereunder (collectively, " **Borrower Materials** ") by posting the Borrower Materials on the Platform and (ii) certain of the Lenders (each, a " **Public Lender** ") may have personnel who wish to receive information that is not material non-public information concerning the Loan Parties, their Subsidiaries or their securities, if any, for purposes of United States Federal securities laws, (collectively, " **Public Side Information** ") and who may be engaged in investment and other market-related activities with respect to such Persons' securities. In addition, the Borrower and the Agents agree that unless specifically labeled "Public - Does Not Contain Material Non-Public Information," all information, documentation or other data disseminated to prospective Lenders in connection with the syndication of the Term Loan Facility, whether through an Internet site (including, without limitation, an IntraLinks or SyndTrak workspace), electronically, in presentations, at meetings or otherwise will be deemed to contain material non-public information concerning the Borrower, its Affiliates or their securities. The Borrower hereby agrees to identify that portion of the Borrower Materials that may be distributed to the Public Lenders and that (w) all such Borrower Materials shall be clearly and conspicuously marked "Public - Does Not Contain Material Non-Public Information," at a minimum, prominently on the first page thereof; (x) by marking Borrower Materials "Public - Does Not Contain Material Non-Public Information," the Borrower shall be deemed to have authorized the Administrative Agent, the Lead Arranger and the Lenders to treat such Borrower Materials as containing only Public Side Information (although it may be sensitive and proprietary); (y) all Borrower Materials marked "Public - Does Not Contain Material Non-Public Information" are permitted to be made available through a portion of the Platform designated "Public Side Information;" and (z) the Administrative Agent and the Lead Arranger shall be entitled to treat the Borrower Materials that are not marked "Public - Does Not Contain Material Non-Public Information" as being suitable only for posting on a portion of the Platform not designated Public Side Information. Notwithstanding the foregoing, no Borrower shall be under any obligation to mark Borrower Materials "Public - Does Not Contain Material Non-Public Information" to

the extent such Borrower determines that such Borrower Materials contain information that is not Public Side Information with respect to such Borrower or its Affiliates or their respective securities.

(c) *Platform* . The Platform is provided "as is" and "as available." The Agent Parties do not warrant the accuracy or completeness of the Communications, or the adequacy of the Platform and expressly disclaim liability for errors or omissions in the Communications. No warranty of any kind, express, implied or statutory, including any warranty of merchantability, fitness for a particular purpose, non-infringement of third party rights or freedom from viruses or other code defects, is made by any Agent Party in connection with the Communications or the Platform. In no event shall the Administrative Agent, the Collateral Agent or any of its or their affiliates or any of their respective officers, directors, employees, agents advisors or representatives (collectively, " **Agent Parties** ") have any liability to the Loan Parties, any Lender or any other Person or entity for damages of any kind, including direct or indirect, special, incidental or consequential damages, losses or expenses (whether in tort, contract or otherwise) arising out of any Loan Party's or the Administrative Agent's or the Collateral Agent's transmission of communications through the internet, except to the extent the liability of any Agent Party is found in a final, non-appealable judgment by a court of competent jurisdiction to have resulted primarily from such Agent Party's gross negligence or willful misconduct.

Section 9.18 *Release of Liens and Guarantees* . In the event that any Loan Party conveys, sells, leases, assigns, transfers or otherwise disposes of all or any portion of its assets (including the Equity Interests of any of its Subsidiaries) to a Person that is not (and is not required to become) a Loan Party in a transaction not prohibited by the Loan Documents, the Administrative Agent and the Collateral Agent shall promptly (and the Lenders hereby authorize the Administrative Agent and the Collateral Agent to) take such action and execute any such documents as may be reasonably requested by the Borrower and at the Borrower's expense to release any Liens created by any Loan Document in respect of such Equity Interests or assets that are the subject of such disposition. Any representation, warranty or covenant contained in any Loan Document relating to any such Equity Interests or assets shall no longer be deemed to be made once such Equity Interests or assets are so conveyed, sold, leased, assigned, transferred or disposed of. The Security Documents, the guarantees made therein, the Security Interest (as defined therein) and all other security interests granted thereby shall terminate, and each Loan Party shall automatically be released from its obligations thereunder and the security interests in the Collateral granted by any Loan Party shall be automatically released, upon the Discharge of the Obligations. At such time, the Administrative Agent and the Collateral Agent agree to take such actions as are reasonably requested by the Borrower at the Borrower's expense to evidence and effectuate such termination and release of the guarantees, Liens and security interests created by the Loan Documents.

Section 9.19 *Acknowledgment and Consent to Bail-in of EEA Financial Institutions* . Notwithstanding any other term of any Loan Document or any other agreement, arrangement or understanding among any such parties, each party acknowledges and accepts that any liability of any party to any other party under or in connection with the Loan Documents may be subject to Bail-In Action by the relevant Resolution Authority and acknowledges and accepts to be bound by the effect of:

(a) any Bail-In Action in relation to any such liability, including (without limitation):

(i) a reduction, in full or in part, in the principal amount, or outstanding amount due (including any accrued but unpaid interest) in respect of any such liability;

(ii) a conversion of all, or part of, any such liability, into shares or other instruments of ownership that may be issued to, or conferred on, it; and

(iii) a cancellation of any such liability; and

(b) variation of any term of any Loan Document to the extent necessary to give effect to any Bail-In Action in relation to any such liability.

Section 9.20 *U.S.A. PATRIOT Act and Similar Legislation* . Each Agent and each Lender hereby notifies each Loan Party that pursuant to the requirements of the U.S.A. PATRIOT Act and similar legislation, as applicable, it is required to obtain, verify and record information that identifies the Loan Parties, which information includes the name and address of each Loan Party and other information that will allow the Agents and the Lenders to identify such Loan Party in accordance with such legislation. Each Loan Party agrees to furnish such information promptly upon its receipt of a written request therefor from an Agent or a Lender.

Section 9.21 *No Fiduciary Duty* . Each Agent, each Lender and their respective Affiliates (collectively, solely for purposes of this Section 9.21 , the " **Lenders** "), may have economic interests that conflict with those of the Borrower and the other Loan Parties. Each of Holding and the Borrower hereby agrees, on behalf of itself and the other Loan Parties, that subject to applicable law, nothing in the Loan Documents or otherwise will be deemed to create an advisory, fiduciary or agency relationship or fiduciary or other implied duty between the Lenders and the Loan Parties, their equity-holders or their Affiliates. Each of Holding and the Borrower hereby acknowledges and agrees, on behalf of itself and the other Loan Parties, that (i) the transactions contemplated by the Loan Documents are arm's-length commercial transactions between the Lenders, on the one hand, and the Loan Parties, on the other, (ii) in connection therewith and with the process leading to such transaction none of the Lenders is acting as the agent or fiduciary of any Loan Party, its management, equity-holders, creditors or any other person, (iii) no Lender has assumed an advisory or fiduciary responsibility in favor of any Loan Party with respect to the transactions contemplated hereby or the process leading thereto (irrespective of whether any Lender or any of its Affiliates has advised or is currently advising such Loan Party on other matters) or any other obligation to any Loan Party except the obligations expressly set forth in the Loan Documents, (iv) each of the Borrower and each other Loan Party has consulted its own legal and financial advisors to the extent it has deemed appropriate, (v) the Lenders may be engaged in a broad range of transactions that involve interests that differ from those of the Borrower and its Affiliates and no Lender has an obligation to disclose any such interests to the Borrower or its Affiliates and (vi) it will not claim that any Lender has rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to it in connection with such transaction or the process leading thereto, and agrees that each Lender shall have no liability (whether direct or indirect) in respect to such a claim or to any other Person asserting such a claim on their behalf. Each of Holding and the Borrower further acknowledges and agrees that it is responsible for making its own independent judgment with respect to such transactions and the process leading thereto.

Section 9.22 *Affiliated Lenders* . Notwithstanding anything in this Agreement or any other Loan Document to the contrary, with respect to any Loans at any time held by an Affiliated Lender, such Affiliated Lender shall have no right whatsoever, in its capacity as a Lender with respect to such Loans then held by such Affiliated Lender, whether or not any Loan Party is subject to a bankruptcy or other insolvency proceeding or otherwise, so long as such Lender is an Affiliated Lender, to (i) consent to any amendment, modification, waiver, consent or other such action with respect to, or otherwise vote on any matter related to, or vote in connection with any direction delivered to the Administrative Agent or the Collateral Agent by the Required Lenders pursuant to, any of the terms of the Agreement or any other Loan Document, in each case to the extent such amendment, modification, waiver, consent, other action, vote or direction is effective with only the consent of or action by the Required Lenders (each, a " **Required Lender Vote/Directive** ") and, if applicable, the Borrower or any other Loan Party; *provided* that for purposes of any Required Lender Vote/Directive, the Administrative Agent shall automatically deem any Loans held by such Affiliated Lender to be voted on a *pro rata* basis in accordance with the votes cast in respect of the Loans of all other Lenders in the aggregate (other than any Affiliated Lender) in connection with any such Required Lender Vote/Directive (including all voting and consent rights arising out of any bankruptcy or other insolvency proceedings (except for voting on any plan of reorganization or refraining from voting on any plan of reorganization, in which case the Administrative Agent shall vote or refrain from voting such Loans of such Affiliated Lender in the Administrative Agent's sole discretion)); *provided* , *further* , that no such Required Lender Vote/Directive shall

deprive such Affiliated Lender of its share of any payments or other recoveries which the Lenders are entitled to share on a *pro rata* basis under the Loan Documents and such Affiliated Lender's vote shall be counted to the extent any such plan of reorganization or other amendment proposes to treat the Obligations of the Affiliated Lender in a manner less favorable in any material respect to such Affiliated Lender than the proposed treatment of Obligations held by Lenders that are not Affiliates of the Borrower, (ii) attend any meeting (live or by any electronic means) in such Affiliated Lender's capacity as a Lender with any Agent or other Lender or receive any information from any Agent or other Lender except to the extent such information is made available to any Loan Party (or its representatives) and other than administrative notices given to all Lenders under Article II or (iii) have access to the Platform in such Affiliated Lender's capacity as a Lender.

Section 9.23 *Certain ERISA Matters* .

(a) Each Lender (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, solely for the benefit of, MSSF, the Administrative Agent, the Collateral Agent and the Lead Arranger and their respective Affiliates (the " **Relevant Parties** "), and not, for the avoidance of doubt, to or for the benefit of the Borrower, Holdings or any other Loan Party, that at least one of the following is and will be true:

(i) such Lender is not using "plan assets" (within the meaning of 29 CFR Section 2510.3-101, as modified by Section 3(42) of ERISA) of one or more Benefit Plans in connection with the Loans or the Commitments;

(ii) the transaction exemption set forth in one or more PTEs, such as PTE 84-14 (a class exemption for certain transactions determined by independent qualified professional asset managers), PTE 95-60 (a class exemption for certain transactions involving insurance company general accounts), PTE 90-1 (a class exemption for certain transactions involving insurance company pooled separate accounts), PTE 91-38 (a class exemption for certain transactions involving bank collective investment funds) or PTE 96-23 (a class exemption for certain transactions determined by in-house asset managers), is applicable with respect to such Lender's entrance into, participation in, administration of and performance of the Loans, the Commitments and this Agreement;

(iii) (A) such Lender is an investment fund managed by a "Qualified Professional Asset Manager" (within the meaning of Part VI of PTE 84-14), (B) such Qualified Professional Asset Manager made the investment decision on behalf of such Lender to enter into, participate in, administer and perform the Loans, the Commitments and this Agreement, (C) the entrance into, participation in, administration of and performance of the Loans, the Commitments and this Agreement satisfies the requirements of sub-sections (b) through (g) of Part I of PTE 84-14 and (D) to the best knowledge of such Lender, the requirements of subsection (a) of Part I of PTE 84-14 are satisfied with respect to such Lender's entrance into, participation in, administration of and performance of the Loans, the Commitments and this Agreement; or

(iv) such other representation, warranty and covenant as may be agreed in writing between the Administrative Agent, in its sole discretion, and such Lender.

(b) In addition, (I) unless sub-clause (i) in the immediately preceding clause (a) is true with respect to a Lender or (II) if such sub-clause (i) is not true with respect to a Lender and such Lender has not provided another representation, warranty and covenant as provided in sub-clause (iv) in the immediately preceding clause (a) , such Lender further (x) represents and warrants, as of the date such Person became a Lender party hereto, to, and (y) covenants, from the date such Person became a Lender party hereto to the date such Person ceases being a Lender party hereto, for the benefit of, the

Relevant Entities, and not, for the avoidance of doubt, to or for the benefit of the Borrower, Holdings or any other Loan Party, that:

(i) none of the Relevant Entities is a fiduciary with respect to the assets of such Lender (including in connection with the reservation or exercise of any rights by the Administrative Agent under this Agreement, or any of the other Loan Documents);

(ii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Loans the Commitments and this Agreement is independent (within the meaning of 29 CFR § 2510.3-21, as amended from time to time) and is a bank, an insurance carrier, a registered investment adviser, a registered broker-dealer or other person that has under management or control, total assets of at least $50 million, in each case as described in 29 CFR § 2510.3-21(c)(1)(i)(A)-(E), as amended from time to time;

(iii) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Loans, the Commitments and this Agreement is capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies (including in respect of the Obligations);

(iv) the Person making the investment decision on behalf of such Lender with respect to the entrance into, participation in, administration of and performance of the Loans, the Commitments and this Agreement is a fiduciary under ERISA or the Code, or both, with respect to the Loans, the Commitments and this Agreement and is responsible for exercising independent judgment in evaluating the transactions hereunder; and

(v) no fee or other compensation is being paid directly to any Relevant Entity for investment advice (as opposed to other services) in connection with the Loans, the Commitments or this Agreement.

(c) Each of MSSF, the Administrative Agent, the Collateral Agent and the Lead Arranger hereby informs the Lenders that each such Person is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, in connection with the transactions contemplated hereby, and that such Person has a financial interest in the transactions contemplated hereby in that such Person or an Affiliate thereof (i) may receive interest or other payments with respect to the Loans, the Commitments and this Agreement, (ii) may recognize a gain if it extended the Loans or the Commitments for an amount less than the amount being paid for an interest in the Loans or the Commitments by such Lender or (iii) may receive fees or other payments in connection with the transactions contemplated hereby, the Loan Documents or otherwise, including structuring fees, commitment fees, arrangement fees, facility fees, upfront fees, underwriting fees, ticking fees, agency fees, administrative agent or collateral agent fees, utilization fees, minimum usage fees, letter of credit fees, fronting fees, deal-away or alternate transaction fees, amendment fees, processing fees, term out premiums, banker's acceptance fees, breakage or other early termination fees or fees similar to the foregoing.

For purposes of this Section 9.23 , the following definitions apply to each of the capitalized terms below:

" **Benefit Plan** " means any of (a) an "employee benefit plan" (as defined in ERISA) that is subject to Title I of ERISA, (b) a "plan" as defined in Section 4975 of the Code, to which Section 4975 of the Code applies or (c) any Person whose assets include (for purposes of ERISA Section 3(42) or otherwise for purposes of Title I of ERISA or Section 4975 of the Code) the assets of any such "employee benefit plan" or "plan".

" **PTE** " means a prohibited transaction class exemption issued by the U.S. Department of Labor, as any such exemption may be amended from time to time.

Section 9.24 *No Personal Liability of Directors, Officers, Employees and Equityholders* . No past, present or future director, officer, representative, Controlling person, executive, agent, employee, incorporator or shareholder (whether direct or indirect) of any Loan Party (including any holder of any membership interests in any Loan Party), as such, will have any liability for any obligations of any Loan Party under any Loan Document or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Agent and Lender and other Secured Party hereby waives and releases all such liability. The waiver and release are part of the consideration for the incurrence of the Obligations and establishment of the Term Loan Facility.

FORM OF
ASSIGNMENT AND ACCEPTANCE

This Assignment and Acceptance (the " **Assignment and Acceptance** ") is dated as of the Effective Date (as defined below) and is entered into by and between [INSERT NAME OF ASSIGNOR] (the " **Assignor** ") and [INSERT NAMES OF ASSIGNEE(S)] (the " **Assignee[s]** "). [It is understood and agreed that the rights and obligations of the Assignees hereunder are several and not joint]. Capitalized terms used but not defined herein shall have the meanings given to them in the Credit Agreement identified below (as may be amended from time to time, the " **Credit Agreement** "), receipt of a copy of which is hereby acknowledged by [the][each] Assignee. The Standard Terms and Conditions set forth in Annex 1 attached hereto (the " **Standard Terms and Conditions** ") are hereby agreed to and incorporated herein by reference and made a part of this Assignment and Acceptance as if set forth herein in full.

For an agreed consideration, the Assignor hereby irrevocably sells and assigns to [the][each] Assignee, and [the][each] Assignee hereby irrevocably purchases and assumes from the Assignor, subject to and in accordance with the Standard Terms and Conditions and the Credit Agreement, as of the Effective Date inserted by the Administrative Agent as contemplated below, (i) all of the Assignor's rights and obligations in its capacity as a Lender under the Credit Agreement and any other documents or instruments delivered pursuant thereto to the extent related to the amount and percentage interest identified below of all of such outstanding rights and obligations of the Assignor under the respective facilities identified below and (ii) to the extent permitted to be assigned under applicable law, all claims, suits, causes of action and any other right of the Assignor (in its capacity as a Lender) against any person, whether known or unknown, arising under or in connection with the Credit Agreement, any other documents or instruments delivered pursuant thereto or the loan transactions governed thereby or in any way based on or related to any of the foregoing, including contract claims, tort claims, malpractice claims, statutory claims and all other claims at law or in equity related to the rights and obligations sold and assigned pursuant to clause (i) above (the rights and obligations sold and assigned pursuant to clauses (i) and (ii) above being referred to herein collectively as the " **Assigned Interest** "). Such sale and assignment is without recourse to the Assignor and, except as expressly provided in this Assignment and Acceptance, without representation or warranty by the Assignor.

1. Assignor: _____

2. Assignee[(s)]: _____
[is a Lender][is an Affiliate/Approved Fund of [Identify Lender]][is an Eligible Assignee]

3. Administrative Agent: Morgan Stanley Senior Funding, Inc.

4. Credit Agreement: The Credit Agreement, dated as of November 28, 2017, among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank.

5. Assigned Interest Add additional table for each Assignee [1] :

Facility Assigned	Aggregate Amount of Commitment/ Loans for all Lenders	Amount of Commitment/Loans Assigned	Percentage Assigned of Commitment/ Loans*
Term Loan Facility	U.S. $850,000,000	U.S. $[___]	%

Effective Date: _____, __, 20__ (the " **Effective Date** "). [TO BE INSERTED BY ADMINISTRATIVE AGENT AND WHICH SHALL BE THE EFFECTIVE DATE OF RECORDATION OF TRANSFER IN THE REGISTER THEREFOR.]

[1] Add additional table for each Assignee.

* Calculate to nine (9) decimal places and show as a percentage of aggregate Loans of all Lenders in respect of the Term Loan Facility.

The terms set forth in this Assignment and Acceptance are hereby agreed to:

STANDARD TERMS AND CONDITIONS FOR ASSIGNMENT AND ACCEPTANCE

1. *Representations and Warranties* .

1.1 *Assignor* . The Assignor (a) represents and warrants that (i) it is the legal and beneficial owner of the Assigned Interest, (ii) the Assigned Interest is free and clear of any Lien, encumbrance or other adverse claim, (iii) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Acceptance and to consummate the transactions contemplated hereby and (iv) the assignment and assumption pursuant hereto complies with the terms of the Credit Agreement; and (b) assumes no responsibility with respect to (i) any statements, warranties or representations made in or in connection with the Credit Agreement or any other Loan Document, (ii) the execution, legality, validity, enforceability, genuineness, sufficiency or value of the Loan Documents or any collateral thereunder, (iii) the financial condition of any Loan Party or any Affiliates thereof, or any other person obligated in respect of any Loan Document or (iv) the performance or observance by any Loan Party or any Affiliates thereof or any other Person of any of their respective obligations under any Loan Document.

1.2 *Assignee* . [The] [Each] Assignee (a) represents and warrants that (i) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and Acceptance and to consummate the transactions contemplated hereby and to become a Lender under the Credit Agreement, (ii) it meets all the requirements of an Eligible Assignee under the Credit Agreement and satisfies the requirements specified in Section 9.04(b) of the Credit Agreement that are required to be satisfied by it in order to acquire the Assigned Interest and become a Lender, (iii) from and after the Effective Date, it shall be bound by the provisions of the Credit Agreement as a Lender thereunder and, to the extent of the Assigned Interest, shall have the obligations of a Lender thereunder, (iv) it is sophisticated with respect to decisions to acquire assets of the type represented by the Assigned Interest and either it, or the person exercising discretion in making its decision to acquire the Assigned Interest, is experienced in acquiring assets of such type, (v) it has received a copy of the Credit Agreement, together with copies of the most recent financial statements delivered pursuant to Section 5.04 thereof, as applicable, and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into this Assignment and Acceptance and to purchase the Assigned Interest on the basis of which it has made such analysis and decision independently and without reliance on any Agent or any other Lender, (vi) attached to this Assignment and Acceptance is any documentation required to be delivered by it pursuant to the terms of the Credit Agreement, duly completed and executed by [the] [each] Assignee, (vii) the assignment and assumption pursuant hereto complies with the terms of the Credit Agreement and (viii) if it is a Non-U.S. Lender, attached to this Assignment and Acceptance is any documentation required to be delivered by it pursuant to the terms of the Credit Agreement, duly completed and executed by the Assignee; (b) appoints and authorizes the Agents to take such action as agent on its behalf and to exercise such powers and discretion under the Credit Agreement, the other Loan Documents or any other instrument or document furnished pursuant hereto or thereto as are delegated to the Agents by the terms thereof, together with such powers as are incidental thereto, including, without limitation, pursuant to Section 8.05 of the Credit Agreement; and (c) agrees that (i) it will, independently and without reliance on any Agent, the Assignor or any other Lender and, based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under the Loan Documents, and (ii) it will perform in accordance with their terms all of the obligations which by the terms of the Loan Documents are required to be performed by it as a Lender.

2. *Payments* . From and after the Effective Date, the Administrative Agent shall make all payments in respect of the Assigned Interest (including payments of principal, interest, fees and other

amounts) to the Assignor for amounts which have accrued to but excluding the Effective Date and to [the] [each] Assignee for amounts which have accrued from and after the Effective Date.

3. *General Provisions* . This Assignment and Acceptance shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns. This Assignment and Acceptance may be executed in any number of counterparts, which together shall constitute one instrument. Delivery of an executed counterpart of a signature page of this Assignment and Acceptance by telecopy or other electronic transmission shall be effective as delivery of a manually executed counterpart of this Assignment and Acceptance; *provided* , *however* , that it shall be promptly followed by an original. This Assignment and Acceptance shall be governed by, and construed in accordance with, the law of the State of New York.

FORM OF
AFFILIATED LENDER ASSIGNMENT AND ACCEPTANCE

This Affiliated Lender Assignment and Acceptance (the " **Affiliated Lender Assignment and Acceptance** ") is dated as of the Effective Date (as defined below) and is entered into by and between **[** Insert name of Assignor **]** (the " **Assignor** ") and **[** Insert names of Assignee(s)] (the " **Assignee[s]** "). [It is understood and agreed that the rights and obligations of the Assignees hereunder are several and not joint]. Capitalized terms used but not defined herein shall have the meanings given to them in the Credit Agreement identified below (as may be amended from time to time, the " **Credit Agreement** "), receipt of a copy of which is hereby acknowledged by **[** the **] [** each **]** Assignee. The Standard Terms and Conditions set forth in Annex 1 attached hereto (the " **Standard Terms and Conditions** ") are hereby agreed to and incorporated herein by reference and made a part of this Affiliated Lender Assignment and Acceptance as if set forth herein in full.

For an agreed consideration, the Assignor hereby irrevocably sells and assigns to **[** the **] [** each **]** Assignee, and **[** the **] [** each **]** Assignee hereby irrevocably purchases and assumes from the Assignor, subject to and in accordance with the Standard Terms and Conditions and the Credit Agreement, as of the Effective Date inserted by the Administrative Agent as contemplated below (i) all of the Assignor's rights and obligations in its capacity as a Lender under the Credit Agreement and any other documents or instruments delivered pursuant thereto to the extent related to the amount and percentage interest identified below of all of such outstanding rights and obligations of the Assignor under the respective facilities identified below and (ii) to the extent permitted to be assigned under applicable law, all claims, suits, causes of action and any other right of the Assignor (in its capacity as a Lender) against any person, whether known or unknown, arising under or in connection with the Credit Agreement, any other documents or instruments delivered pursuant thereto or the loan transactions governed thereby or in any way based on or related to any of the foregoing, including contract claims, tort claims, malpractice claims, statutory claims and all other claims at law or in equity related to the rights and obligations sold and assigned pursuant to clause (i) above (the rights and obligations sold and assigned pursuant to clauses (i) and (ii) above being referred to herein collectively as the " **Assigned Interest** "). Such sale and assignment is without recourse to the Assignor and, except as expressly provided in this Affiliated Lender Assignment and Acceptance, without representation or warranty by the Assignor.

1. Assignor : _____ [is an Affiliated Lender].

2. Assignee **[** s **]** : _____ [is an Affiliated Lender].

3. Administrative Agent: MORGAN STANLEY SENIOR FUNDING, INC.

4. Credit Agreement: The Credit Agreement, dated as of November 28, 2017, among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank.

5. Assigned Interest [1]:

Facility Assigned	Aggregate Amount of Commitment/ Loans for all Lenders	Amount of Commitment/Loans Assigned	Percentage Assigned of Commitment/ Loans [2]
Term Loan Facility	U.S. $850,000,000	U.S. $[____]	%

Effective Date: _____, __, 20__ (the " **Effective Date** "). **[** TO BE INSERTED BY ADMINISTRATIVE AGENT AND WHICH SHALL BE THE EFFECTIVE DATE OF RECORDATION OF TRANSFER IN THE REGISTER THEREFOR. **]**

6. [Additional Representations and Covenants of Assignee . **[** The **][** Each **]** Assignee represents and warrants that (a) it is an Affiliated Lender pursuant to Section 9.04(e) of the Credit Agreement; (b) no Default or Event of Default has occurred or is continuing or would result therefrom, and (c) as of the Effective Date, after giving effect to this Affiliated Lender Assignment and Assumption, the aggregate principal amount of the Loans and Commitments held by all Affiliated Lenders does not exceed 25.0% of the total Commitments and Loans outstanding. By executing this Affiliated Lender Assignment and Assumption, each Affiliated Lender agrees to be bound by the terms of Section 9.22 of the Credit Agreement.] [3]

7. [Additional Representations and Covenants of Assignor . The Assignor represents and warrants that (a) it is an Affiliated Lender pursuant to Section 9.04(e) of the Credit Agreement; (b) no Default or Event of Default has occurred or is continuing or would result therefrom, and (c) as of the Effective Date, after giving effect to this Affiliated Lender Assignment and Assumption, the aggregate principal amount of the Loans and Commitments held by all Affiliated Lenders does not exceed 25.0% of the total Commitments and Loans outstanding. By executing this Affiliated Lender Assignment and Assumption, each Affiliated Lender agrees to be bound by the terms of Section 9.22 of the Credit Agreement.] [4]

_____

[1] Add additional table for each Assignee.

[2] Calculate to nine (9) decimal places and show as a percentage of aggregate Loans of all Lenders in respect of the Term Loan Facility.

[3] Only to be included if the Assignee is the Affiliated Lender.

EXHIBITS

EXHIBIT A - FORM OF PLEDGE SUPPLEMENT
EXHIBIT B - FORM OF UNCERTIFICATED SECURITIES CONTROL AGREEMENT
EXHIBIT C - FORM OF ISSUER CONSENT TO PLEDGED EQUITY INTEREST

This PLEDGE AND SECURITY AGREEMENT, dated as of November 28, 2017 (this " Agreement "), is entered into by and between EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " Grantor ") and WILMINGTON TRUST, NATIONAL ASSOCIATION, as collateral agent for the Secured Parties (in such capacity and together with its permitted successors, assigns and designees, the " Collateral Agent "). Capitalized terms used in this Agreement (including in this preamble and the recitals below) have the meanings assigned to such terms in Section 1.1 .

RECITALS:

WHEREAS, as of the Closing Date, the Grantor owns (A) all of the Equity Interests in (i) ExGen Renewables Holdings, LLC, a limited liability company organized under the laws of Delaware (" ExGen Renewables Holdings "), (ii) SolGen Holding, LLC, a limited liability company organized under the laws of Delaware (" SolGen Holding ") and (iii) Exelon AVSR Holding, LLC, a limited liability company organized under the laws of Delaware (" Exelon AVSR Holding ") and (B) not less than 50% of the Equity Interests in Constellation DCO Albany Power Holdings, LLC, a limited liability company organized under the laws of Delaware (" Albany Power Holdings " and, collectively with ExGen Renewables Holdings, SolGen Holding and Exelon AVSR Holding, the " Project Holdcos ");

WHEREAS, ExGen Renewables Holdings owns all of the JV Class A Membership Interests in ExGen Renewables Partners, LLC, a limited liability company organized under the laws of the State of Delaware (" ExGen Renewables JV ");

WHEREAS, ExGen Renewables JV, SolGen Holding, Exelon AVSR Holding and Albany Power Holdings own, directly or indirectly, all (or a specified class of) the Equity Interests of each of the other Project Entities, which collectively own or lease the Projects;

WHEREAS, the Grantor intends to enter into the Credit Agreement, dated as of the date hereof (as amended, amended and restated, supplemented, replaced or otherwise modified and in effect from time to time, the " Credit Agreement "), among the Grantor, ExGen Renewables IV Holding, LLC, a limited liability company organized under the laws of State of Delaware (" Holding "), the Lenders party thereto from time to time, Morgan Stanley Senior Funding Inc., as administrative agent (in such capacity, together with any successor administrative agent appointed pursuant to the provisions of Article VIII of the Credit Agreement, the " Administrative Agent "), the Collateral Agent, and Wilmington Trust, National Association, as Depositary Bank, pursuant to which the Grantor has requested that the Lenders extend credit in the form of Loans on the Closing Date, in an aggregate U.S. Dollar amount for all such Loans of U.S. $850 million; and

WHEREAS, the Grantor has agreed to secure all of the Obligations by granting to the Collateral Agent, for the benefit of the Secured Parties, a first priority Lien (subject to Liens permitted under the Credit Agreement) on substantially all of the assets and properties owned by the Grantor.

AGREEMENT:

NOW, THEREFORE, in consideration of the foregoing, the mutual covenants and obligations herein set forth and for other good and valuable consideration, the adequacy and receipt of which are hereby acknowledged and in reliance upon the representations, warranties and covenants contained herein, the parties hereto, intending to be legally bound, hereby agree as follows:

SECTION 1. DEFINITIONS

.

1.1 General Definitions

. Unless otherwise defined herein, terms defined in the Credit Agreement and used herein (including in the preamble and the recitals hereto) shall have the meanings given to them in the Credit Agreement. In addition to the terms defined in the Credit Agreement, the following terms shall have the following meanings:

" Account Debtor " means each Person who is obligated on a Receivable or any Supporting Obligation related thereto.

" Accounts " means all "accounts" as defined in Article 9 of the UCC.

" Additional Project Entity " has the meaning set forth in the Credit Agreement.

" Administrative Agent " has the meaning set forth in the recitals to this Agreement.

" Agreement " has the meaning set forth in the preamble to this Agreement.

" Albany Power Holdings " has the meaning assigned to such term in the recitals of this Agreement.

" Assigned Agreements " means all agreements, contracts and documents to which the Grantor is a party (including all exhibits and schedules thereto), as each such agreement, contract and document may be amended, supplemented or otherwise modified and in effect from time to time, including (i) all rights of the Grantor to receive moneys due and to become due under or pursuant to the Assigned Agreements, (ii) all rights of the Grantor to receive proceeds of any insurance, bond, indemnity, warranty, letter of credit or guaranty with respect to the Assigned Agreements, (iii) all claims of the Grantor for damages arising out of or for breach of or default under the Assigned Agreements and (iv) all rights of the Grantor to terminate, amend, supplement, modify or waive performance under the Assigned Agreements, to perform thereunder and to compel performance and otherwise to exercise all remedies thereunder.

" Bankruptcy Event " means any event described in Sections 7.01(h) and 7.01(i) of the Credit Agreement.

" Chattel Paper " means all "chattel paper" as defined in Article 9 of the UCC, including, without limitation, "electronic chattel paper" or "tangible chattel paper", as each term is defined in Article 9 of the UCC.
" Collateral " has the meaning assigned in Section 3.1 .

" Collateral Agent " has the meaning set forth in the preamble to this Agreement.

" Collateral Records " means books, records, ledger cards, files, correspondence, customer lists, supplier lists, blueprints, technical specifications, manuals, computer software and related documentation, computer printouts, tapes, disks and related data processing software and similar items that at any time evidence or contain information relating to any of the Collateral or are otherwise necessary or helpful in the collection thereof or realization thereupon.

" Collateral Support " means all property (real or personal) assigned, licensed, hypothecated or otherwise securing any Collateral and shall include any security agreement or other agreement granting a lien or security interest in such real or personal property in favor of the Grantor.

" Commercial Tort Claims " means all "commercial tort claims" as defined in Article 9 of the UCC, including, without limitation, all commercial tort claims listed on Schedule 4.8 (as such schedule may be amended or supplemented from time to time).

" Commodities Accounts " means all "commodity accounts" as defined in Article 9 of the UCC.

" Copyright Licenses " means any and all agreements, licenses and covenants providing for the granting of any right in or to Copyrights, including, without limitation, the grant of rights to manufacture, distribute, exploit and sell materials derived from any Copyright, or otherwise providing for a covenant not to sue (whether the Grantor is licensee or licensor thereunder).

" Copyrights " means all United States, and foreign copyrights (including Community designs), and rights in databases including but not limited to copyrights in software and databases, and all Mask Works (as defined under 17 U.S.C. 901 of the U.S. Copyright Act), whether registered or unregistered and whether published or unpublished, moral rights, reversionary interests, termination rights, all registrations and applications therefor, all extensions and renewals thereof, all rights corresponding thereto throughout the world, all rights to sue for past, present and future infringements thereof, and all Proceeds of the foregoing, including, without limitation, licenses, royalties, income, payments, claims, damages and proceeds of suit.

" Credit Agreement " has the meaning set forth in the recitals to this Agreement.

" Deposit Accounts " means all "deposit accounts" as defined in Article 9 of the UCC.

" Documents " means all "documents" as defined in Article 9 of the UCC.

" Equipment " means (i) all "equipment" as defined in Article 9 of the UCC, (ii) all machinery, manufacturing equipment, data processing equipment, computers, office equipment, furnishings, furniture, appliances, fixtures and tools (in each case, regardless of whether characterized as equipment under the UCC) and (iii) all accessions or additions thereto, all parts thereof, whether or not at any time of determination incorporated or installed therein or attached thereto, and all replacements therefor, wherever located, now or hereafter existing, including any fixtures.

" Event of Default " has the meaning assigned to such term in the Credit Agreement.

" Excluded Property " means any Permit, contract or agreement to which the Grantor is a party, and any of its rights or interest thereunder, if and to the extent that (a) the pledge or assignment of such Permit, contract or agreement hereunder, or a security interest granted therein, is prohibited by or in violation of (x) any Legal Requirement of a Governmental Authority applicable to the Grantor or (y) a term, provision or condition of any such Permit, contract or agreement; (b) the pledge or assignment of such Permit, contract or agreement hereunder would render such Permit, contract or agreement void, voidable, terminable or revocable or (c) the pledge or assignment of such Permit requires the consent of any third party or Government Authority, in each case except to the extent that such Legal Requirements or the term in such, Permit, contract or agreement providing for such prohibition or violation is ineffective under applicable law (including, without limitation, pursuant to Section 9-406, 9-407, 9-408 or 9-409 of the UCC); provided that any such property shall constitute Excluded Property only to the extent and for so long as the consequences specified above shall exist and shall cease to be an Excluded Property

and shall become subject to the Lien of the Security Documents immediately and automatically, during such time as such consequence shall not exist.

" Exelon AVSR Holdings " has the meaning assigned to such term in the recitals hereto.

" ExGen Renewables Holdings " has the meaning assigned to such term in the recitals hereto.

" Fixtures " means all "fixtures" as defined in Article 9 of the UCC.

" General Intangibles " (i) means all "general intangibles" as defined in Article 9 of the UCC, including "payment intangibles" also as defined in Article 9 of the UCC and (ii) includes, without limitation, all interest rate or currency protection or hedging arrangements, all tax refunds, all licenses, permits, concessions and authorizations, all Assigned Agreements and all Intellectual Property (in each case, regardless of whether characterized as general intangibles under the UCC).

" Goods " (i) means all "goods" as defined in Article 9 of the UCC and (ii) includes, without limitation, all Inventory and Equipment (in each case, regardless of whether characterized as goods under the UCC).

" Grantor " has the meaning set forth in the preamble to this Agreement.

" Instruments " means all "instruments" as defined in Article 9 of the UCC.

" Insurance " means (i) all insurance policies covering any or all of the Collateral (regardless of whether the Collateral Agent is the loss payee thereof) and (ii) any key man life insurance policies.

" Intellectual Property " means, collectively, all rights, priorities and privileges relating to intellectual property, whether arising under United States, multinational or foreign laws or otherwise, including, without limitation, the Copyrights, the Copyright Licenses, the Patents, the Patent Licenses, the Trademarks, the Trademark Licenses, the Trade Secrets and the Trade Secret Licenses.

" Intercompany Note " means any promissory note evidencing loans made by the Grantor to any of its Subsidiaries.

" Internal Revenue Code " means the Internal Revenue Code of 1986, as amended to the date hereof and from time to time thereafter, and any successor statute.

" Inventory " means (i) all "inventory" as defined in Article 9 of the UCC and (ii) all goods held for sale or lease or to be furnished under contracts of service or so leased or furnished, all raw materials, work in process, finished goods, and materials used or consumed in the manufacture, packing, shipping, advertising, selling, leasing, furnishing or production of such inventory or otherwise used or consumed in the Grantor's business; all goods in which the Grantor has an interest in mass or a joint or other interest or right of any kind; and all goods which are returned to or repossessed by the Grantor, all computer programs embedded in any goods and all accessions thereto and products thereof (in each case, regardless of whether characterized as inventory under the UCC).

" Investment Accounts " means the Depositary Accounts, the Securities Accounts, the Commodities Accounts and the Deposit Accounts.

" Investment Related Property " means: (i) all "investment property" (as such term is defined in Article 9 of the UCC) and (ii) all of the following (regardless of whether classified as investment property

under the UCC): all Pledged Equity Interests, Pledged Debt (including all Pledged Notes), Investment Accounts and certificates of deposit.

" Issuers " means the collective reference to each issuer of any Investment Related Property.

" Legal Requirements " means, as to any Person, any law, statute, rule, regulation, ordinance, order, code, treaty, judgment, decree, or any published directive or requirement which has the force of law, or other legally binding form of governmental restriction or decision of any Governmental Authority, in each case applicable to or binding upon such Person or any of its properties or to which such Person or any of its properties is subject.

" Letter of Credit Right " means "letter-of-credit right" as defined in Article 9 of the UCC.

" Lien " shall mean, with respect to any asset, (a) any mortgage, deed of trust, lien, hypothecation, pledge, encumbrance, charge or security interest in or on such asset, (b) the interest of a vendor or a lessor under any conditional sale agreement, capital lease or title retention agreement (or any financing lease having substantially the same economic effect as any of the foregoing) relating to such asset, and (c) in the case of securities, any purchase option, call or similar right of a third party with respect to such securities. For certainty, "Lien" shall not include any netting or set-off arrangements under any contract, agreement or other undertaking that is otherwise permitted to be entered into by ExGen Renewables JV, any Project Holdco or any Project Entity in accordance with the Project Level Financing Documents to which it (or its Subsidiaries) is a party.

" Money " means "money" as defined in the UCC.

" Obligations " has the meaning set forth in the Credit Agreement.

" Patent Licenses " means all agreements, licenses and covenants providing for the granting of any right in or to Patents or otherwise providing for a covenant not to sue (whether the Grantor is licensee or licensor thereunder).

" Patents " means all United States and foreign patents and certificates of invention, or similar industrial property rights, and applications for any of the foregoing, all reissues, divisions, continuations, continuations-in-part, extensions, renewals, and reexaminations thereof, all rights corresponding thereto throughout the world, all inventions and improvements described therein, all rights to sue for past, present and future infringements thereof, all licenses, claims, damages, and proceeds of suit arising therefrom, and all Proceeds of the foregoing, including, without limitation, licenses, royalties, income, payments, claims, damages, and proceeds of suit.

" Permits " means any and all franchises, licenses, leases, permits, approvals, notifications, certifications, registrations, authorizations, acceptances, exemptions, qualifications, easements, rights of way, Liens and other rights, privileges and approvals required to be obtained from a Governmental Authority.

" Pledge Supplement " means any supplement to this agreement in substantially the form of Exhibit A .

" Pledged Debt " means all debt for borrowed money owed to the Grantor (including, without limitation, all intercompany debt for borrowed money), the instruments evidencing such debt for borrowed money, and all interest, cash, instruments and other property or proceeds from time to time received, receivable or otherwise distributed in respect of or in exchange for any or all of such debt for borrowed money.

" Pledged Equity Interests " means all classes of Equity Interests owned by the Grantor, including, without limitation, all Equity Interests described on Schedule 4.4 under the heading "Pledged Equity Interests" (as such schedule may be amended or supplemented from time to time) and the certificates, if any, representing such Pledged Equity Interests, and all dividends, distributions, return of capital, cash, instruments and other property from time to time received, receivable or otherwise distributed in respect of or in exchange for any or all of the Pledged Equity Interests.

" Pledged Notes " means all promissory notes described on Schedule 1(b) under the heading "Pledged Notes" (as such schedule may be amended or supplemented from time to time), all Intercompany Notes at any time issued to any Pledgor and all other promissory notes issued to or held by any Pledgor (other than promissory notes issued in connection with extensions of trade credit by any Pledgor in the ordinary course of business).

" Proceeds " means (i) all "proceeds" as defined in Article 9 of the UCC, (ii) payments or distributions made with respect to any Investment Related Property and (iii) whatever is receivable or received when Collateral or proceeds are sold, exchanged, collected or otherwise disposed of, whether such disposition is voluntary or involuntary.

" Project Holdcos " has the meaning assigned to such term in the recitals hereto.

" Receivables " means all rights to payment, whether or not earned by performance or achievement of milestones, for goods or other property sold, leased, licensed, assigned or otherwise disposed of, or services rendered or to be rendered, including, without limitation all such rights constituting or evidenced by any Account, Chattel Paper, Instrument, General Intangible or Investment Related Property, together with all of the Grantor's rights, if any, in any goods or other property giving rise to such right to payment and all Collateral Support and Supporting Obligations related thereto and all Receivables Records.

" Receivables Records " means (i) all original copies of all documents, instruments or other writings or electronic records or other Records evidencing the Receivables, (ii) all books, correspondence, credit or other files, Records, ledger sheets or cards, invoices, and other papers relating to Receivables, including, without limitation, all tapes, cards, computer tapes, computer discs, computer runs, record keeping systems and other papers and documents relating to the Receivables, whether in the possession or under the control of the Grantor or any computer bureau or agent from time to time acting for the Grantor or otherwise, (iii) all evidences of the filing of financing statements and the registration of other instruments in connection therewith, and amendments, supplements or other modifications thereto, notices to other creditors or secured parties, and certificates, acknowledgments, or other writings, including, without limitation, lien search reports, from filing or other registration officers, (iv) all credit information, reports and memoranda relating thereto and (v) all other written or nonwritten forms of information related in any way to the foregoing or any Receivable.

" Record " has the meaning set forth in Article 9 of the UCC.

" Secured Parties " means the Agents, the Lead Arranger, the Lenders and any Specified Swap Counterparty.

" Securities " means any stock, shares, partnership interests, voting trust certificates, certificates of interest or participation in any profit-sharing agreement or arrangement, options, warrants, bonds, debentures, notes, or other evidences of indebtedness, secured or unsecured, convertible, subordinated or otherwise, or in general any instruments commonly known as "securities" or any certificates of interest, shares or participations in temporary or interim certificates for the purchase or acquisition of, or any right to subscribe to, purchase or acquire, any of the foregoing.

" Securities Accounts " means all "securities accounts" as defined in Article 8 of the UCC.

" SolGen Holdings " has the meaning assigned to such term in the recitals hereto.

" Supporting Obligation " means all "supporting obligations" as defined in Article 9 of the UCC in favor of the Grantor.

" Trade Secret Licenses " means any and all agreements providing for the granting of any right in or to Trade Secrets (whether the Grantor is licensee or licensor thereunder).

" Trade Secrets " means all trade secrets and all other confidential or proprietary information and know-how whether or not such Trade Secret has been reduced to a writing or other tangible form, including all documents and things embodying such Trade Secret, including but not limited to: (i) the right to sue for past, present and future misappropriation or other violation of any Trade Secret, and (ii) all Proceeds of the foregoing, including, without limitation, licenses, royalties, income, payments, claims, damages, and proceeds of suit.

" Trademark Licenses " means any and all agreements providing for the granting of any right in or to Trademarks or otherwise providing for a covenant not to sue or permitting coexistence (whether the Grantor is licensee or licensor thereunder).

" Trademarks " means all United States, and foreign trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, Internet domain names, service marks, certification marks, collective marks, logos, other source or business identifiers, designs and general intangibles of a like nature, all registrations, recordings and applications for any of the foregoing, all common-law rights related thereto, all extensions or renewals of any of the foregoing, all of the goodwill of the business connected with the use of and symbolized by the foregoing, the right to sue for past, present and future infringement or dilution of any of the foregoing or for any injury to goodwill, and all Proceeds of the foregoing, including, without limitation, licenses, royalties, income, payments, claims, damages, and proceeds of suit.

" Uncertificated Securities Control Agreement " means an agreement substantially in the form of Exhibit B .

1.2 Definitions; Interpretation

. For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires, the rules of interpretation set forth in Section 1.02 of the Credit Agreement are hereby incorporated by reference, *mutatis mutandis* , as if fully set forth herein. All capitalized terms used herein (including the preamble and recitals hereto) and not otherwise defined herein or in the Credit Agreement have the meanings ascribed thereto in the UCC. All references herein to provisions of the UCC shall include all successor provisions under any subsequent version or amendment to any Article of the UCC. The terms "lease" and "license" shall include "sub-lease" and "sub license", as applicable.

SECTION 2. [RESERVED].

SECTION 3. GRANT OF SECURITY

3.1 Grant of Security

. The Grantor hereby assigns and transfers to the Collateral Agent and hereby grants to the Collateral Agent, for the benefit of the Secured Parties, a security interest in and continuing Lien on all of the

Grantor's right, title and interest in, to and under all of the following property of the Grantor (subject to the exclusions set forth in Section 3.2), in each case whether now owned or existing or hereafter acquired or in which the Grantor now has or at any time in the future may acquire or arising and wherever located (all of which being hereinafter collectively referred to as the " Collateral "), as collateral security for prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Obligations:

(a) Accounts;

(b) Chattel Paper;

(c) Commercial Tort Claims described on Schedule 4.8 (as such schedule may be amended or supplemented from time to time);

(d) Deposit Accounts;

(e) Documents;

(f) Fixtures;

(g) General Intangibles;

(h) Goods;

(i) Instruments;

(j) Insurance;

(k) Intellectual Property

(l) Investment Related Property;

(m) Letter of Credit Rights;

(n) Money;

(o) Receivables and Receivable Records;

(p) all other property not otherwise described above (except for any property specifically excluded from any clause in this section above in accordance with Section 3.2 , and any property specifically excluded from any defined term used in any clause of this section above);

(q) to the extent not otherwise included above, all Collateral Records, Collateral Support and guarantees and Supporting Obligations relating to any of the foregoing; and

(r) to the extent not otherwise included above, all Proceeds, products, accessions, rents and profits of or in respect of any of the foregoing.

3.2 Certain Limited Exclusions

. Notwithstanding anything herein to the contrary, in no event shall the Collateral include or the security interest or Lien granted under Section 3.1 attach to any Excluded Property. The Grantor

and the Collateral Agent hereby acknowledge and agree that the Lien created hereby in the Collateral is not, in and of itself, to be construed as a grant of a fee interest (as opposed to a Lien) in any Intellectual Property, including any Copyrights, Patents or Trademarks.

3.3 Retention of Certain Rights

. So long as the Collateral Agent has not given written notice to the Grantor of its intention to exercise its rights with respect to the Collateral under this Agreement upon the occurrence and during the continuation an Event of Default, the Grantor reserves all rights with respect to the Collateral (except as limited by the Loan Documents), including all rights to use, apply, modify, dispose of or otherwise deal with such Collateral (except as limited by the Loan Documents).

SECTION 4. SECURITY FOR OBLIGATIONS; GRANTOR REMAINS LIABLE

4.1 Security for Obligations

. This Agreement secures, and the Collateral is collateral security for, the prompt and complete payment and performance in full when due, whether at stated maturity, by required prepayment, declaration, acceleration, demand or otherwise (including the payment of amounts that would become due but for the operation of the automatic stay under Section 362(a) of the Bankruptcy Code, 11 U.S.C. §362(a) (and any successor provision thereof)), of all Obligations.

4.2 Continuing Liability Under Collateral

. Notwithstanding anything herein to the contrary, (i) the Grantor shall remain liable for all obligations under the Collateral and nothing contained herein is intended or shall be a delegation of duties to the Collateral Agent or any Secured Party, (ii) the Grantor shall remain liable under each of the agreements included in the Collateral, including, without limitation, any Assigned Agreement and any agreements relating to Pledged Equity Interests, to perform all of the obligations undertaken by it thereunder all in accordance with and pursuant to the terms and provisions thereof and neither the Collateral Agent nor any other Secured Party shall have any obligation or liability under any of such agreements by reason of or arising out of this Agreement or any other document related thereto nor shall the Collateral Agent nor any other Secured Party have any obligation to make any inquiry as to the nature or sufficiency of any payment received by it or have any obligation to take any action to collect or enforce any rights under any agreement included in the Collateral, including, without limitation, any Assigned Agreement and any agreements relating to Pledged Equity Interests, and (iii) the exercise by the Collateral Agent of any of its rights hereunder shall not release the Grantor from any of its duties or obligations under the contracts and agreements included in the Collateral.

SECTION 5. CERTAIN RELATED REPRESENTATIONS; WARRANTIES AND COVENANTS

5.1 Generally

. The Grantor hereby represents and warrants, on the Closing Date, that:

(a) the Grantor has indicated on Schedule 4.1(A) : (i) the full legal name of the Grantor, (ii) the type of organization of the Grantor, (iii) the jurisdiction of organization of the Grantor and (iv) the location of the Grantor's chief executive office or sole place of business or principal residence, as the case may be;

(b) the Grantor has no trade names other than as listed on Schedule 4.1(B) ; and

(c) except as provided on Schedule 4.1(C) , it has not changed its name, jurisdiction or form of organization or the location of its chief executive office or sole place of business or principal residence, as the case may be, in any way since the date of its formation.

5.2 Equipment And Inventory

. The Grantor represents and warrants that, as of the Closing Date, it does not have any Equipment or Inventory included in the Collateral.

5.3 Receivables

(a) Covenants and Agreements

. Following the occurrence of and during the continuation of an Event of Default, the Collateral Agent shall have the right at any time, upon concurrent written notice to the Grantor of its intention to do so, (i) to notify, or direct the Grantor to notify, any Account Debtor of the Collateral Agent's security interest in the Receivables and any Supporting Obligation, (ii) to direct, or request that the Grantor direct, such Account Debtors to make payment of all amounts due or to become due to the Grantor thereunder directly to the Collateral Agent, and (iii) upon such concurrent notification and at the expense of the Grantor, to enforce collection of any such Receivables and to adjust, settle or compromise the amount or payment thereof, in the same manner and to the same extent as the Grantor might have done. After receipt by the Grantor of written notice from the Collateral Agent referred to in the preceding sentence, any payments of Receivables constituting Collateral received by the Grantor shall be forthwith (and in any event within five Business Days) deposited by the Grantor in the exact form received duly indorsed by the Grantor to the Collateral Agent if required, in an account maintained under the sole dominion and control of the Collateral Agent, and until so turned over, all amounts and proceeds (including checks and other instruments) received by the Grantor in respect of its Receivables constituting Collateral, any Supporting Obligation constituting Collateral or Collateral Support constituting Collateral shall be received in trust for the benefit of the Collateral Agent hereunder and shall be segregated from other funds of the Grantor and the Grantor shall not adjust, settle or compromise the amount or payment of any Receivable constituting Collateral, or release wholly or partly any Account Debtor or obligor thereof, or allow any credit or discount thereon.

(b) Delivery and Control of Receivables . With respect to any Receivables constituting Collateral hereafter arising in excess of $[***] (i) evidenced by, or constituting, Chattel Paper or Instruments, the Grantor shall cause each originally executed copy thereof to be delivered to the Collateral Agent (or its agent or designee) appropriately indorsed to the Collateral Agent or indorsed in blank, or (ii) which would constitute "electronic chattel paper" under Article 9 of the UCC, the Grantor shall take all steps necessary to give the Collateral Agent control over such Receivables (within the meaning of Section 9-105 of the UCC).

5.4 Investment Related Property

(a) Investment Related Property Generally .

(i) Covenants and Agreements . The Grantor hereby covenants and agrees that:

(A) with respect to any Investment Related Property constituting Collateral with a fair market value in excess of $[***]that is represented by a certificate or that is an Instrument (other than any Investment Related Property credited to a Securities Account) owned by the Grantor, it shall cause such

certificate or instrument to be delivered to the Collateral Agent, indorsed in blank by an "effective indorsement" (as defined in Section 8-107 of the UCC), regardless of whether such certificate constitutes a "certificated security" for purposes of the UCC (a " Certificated Security "); and

(B) with respect to any Investment Related Property constituting Collateral with a fair market value in excess of $[***] that is an "uncertificated security" for purposes of the UCC (other than any uncertificated securities credited to a Securities Account) (an " Uncertificated Security ") owned by the Grantor, it shall cause the Issuer of such Uncertificated Security to either (i) register the Collateral Agent as the registered owner thereof on the books and records of the Issuer or (ii) execute an agreement substantially in the form of Exhibit B or such other form reasonably satisfactory to the Collateral Agent, pursuant to which such Issuer agrees to comply with the Collateral Agent's instructions with respect to such Uncertificated Security without further consent by the Grantor; and

(C) in addition to the foregoing, upon the occurrence and during the continuation of an Event of Default, the Collateral Agent shall have the right, without notice to the Grantor, to (i) transfer all or any portion of the Investment Related Property to its name or the name of its nominee or agent and (ii) subject to the terms of the applicable Investment Related Property, to exchange any certificates or instruments representing such Investment Related Property constituting Collateral for certificates or instruments of smaller or larger denominations. In the event of a transfer pursuant to clause (i) of the immediately preceding sentence, the Collateral Agent shall within a reasonable period of time thereafter give the Grantor written notice of such transfer; provided , however , that (x) failure to give such notice shall have no effect on the rights of the Collateral Agent hereunder and (y) the Collateral Agent shall not be required to deliver any such notice if the Grantor is the subject of a Bankruptcy Event or the delivery of such notice is otherwise prohibited by applicable law.

(ii) Voting and Distributions .

(A) So long as no Event of Default shall have occurred and be continuing and until such time as the Grantor shall have received notice from the Collateral Agent pursuant to clause (B) below:

(1) the Grantor shall be entitled to exercise or refrain from exercising any and all voting and other consensual rights pertaining to the Investment Related Property constituting Collateral or any part thereof; provided , however , that no vote with respect to the Investment Related Property shall be cast (or refrained from being cast), right exercised (or refrained from being exercised) or other action taken (or refrained from being taken) which would be inconsistent with, or result in any violation of, any provision of any of this Agreement or any other Loan Document;

(2) the Collateral Agent shall promptly execute and deliver (or cause to be executed and delivered) to the Grantor all proxies, and other instruments as the Grantor, at its sole cost and expense, may

from time to time reasonably request for the purpose of enabling the Grantor to exercise the voting and other consensual rights when and to the extent which it is entitled to exercise pursuant to clause (1) above; and

(3) the Grantor shall be entitled to receive and retain any and all dividends, interest and other distributions paid in respect of any Investment Related Property for any purpose not inconsistent with the terms of this Agreement or the Loan Documents. To the extent that such distributions are made in accordance with the terms of the Loan Documents, the further distribution or payment of such monies to a Person which is not the Grantor shall not give rise to any claims or causes of action on the part of any Secured Party against the Grantor seeking the return or disgorgement of any such distributions or other payments unless the distributions or payments involve or result from fraud or willful misconduct of the Grantor.

(B) Upon the occurrence and during the continuation of an Event of Default and upon delivery of written notice of the occurrence and continuation of such Event of Default from the Collateral Agent to the Grantor (it being acknowledged and agreed that the Collateral Agent shall not be required to deliver any such notice if the Grantor is the subject of a Bankruptcy Event):

(1) all rights of the Grantor to receive the dividends, interest and other distributions that it would otherwise be authorized to receive and retain pursuant to Section 5.4(a)(ii)(A)(3) shall cease, and all such rights shall thereupon become vested in the Collateral Agent who shall thereupon have the sole right to receive and hold as Investment Related Property such dividends, interest and other distributions;

(2) in order to permit the Collateral Agent to exercise the voting and other consensual rights which it may be entitled to exercise pursuant hereto and to receive all dividends and other distributions which it may be entitled to receive hereunder, in each case, in respect of Investment Related Property constituting Collateral: (x) the Grantor shall promptly execute and deliver (or cause to be executed and delivered) to the Collateral Agent, at its sole cost and expense, all proxies, dividend payment orders and other instruments as the Collateral Agent may from time to time reasonably request and (y) the Grantor acknowledges that the Collateral Agent may utilize the power of attorney set forth in Section 7.1 ; and

(3) the Grantor hereby authorizes and instructs each Issuer of any Investment Related Property pledged by the Grantor hereunder to comply with any instruction received by it from the Collateral Agent in writing that (x) states that an Event of Default has occurred and is continuing and (y) is otherwise in accordance with the terms of this Agreement, without any other or further instructions from the Grantor.

(b) Pledged Equity Interests and Pledged Notes.

(i) Representations and Warranties

. The Grantor hereby represents and warrants, on the Closing Date, that:

(A) Schedule 4.4(a) sets forth under the heading "Pledged Equity Interests" all of the Pledged Equity Interests owned by the Grantor, and such Pledged Equity Interests constitute the percentage of issued and outstanding Equity Interests or percentage of beneficial interest of the respective Issuers thereof indicated on such Schedule 4.4(a) ; and

(B) Schedule 4.4(b) sets forth under the heading "Pledged Notes" all of the Pledged Notes owned by the Grantor; and

(C) each of the Pledged Equity Interests that is pledged by the Grantor hereunder is certificated as indicated on Schedule 4.4(a) and constitutes a "security" under Section 8-103 of the UCC or the corresponding code or statute of any other applicable jurisdiction and each such "security" is a Certificated Security or is represented by a certificate.

(ii) Covenants and Agreements .

(A) Pledged Equity Interests . The Grantor hereby covenants and agrees that, if the Grantor shall become entitled to receive or shall receive any certificate (including, without limitation, any certificate representing a dividend or a distribution in connection with any reclassification, increase or reduction of capital or any certificate issued in connection with any reorganization), option or rights in respect of the Equity Interests of any Issuer (including, without limitation, any Additional Project Entity), whether in addition to, in substitution of, as a conversion of, or in exchange for, any shares of the Pledged Equity Interests, or otherwise in respect thereof, the Grantor shall accept the same as the agent of the Collateral Agent, hold the same in trust for the Collateral Agent and deliver the same forthwith to the Collateral Agent in the exact form received, duly indorsed by the Grantor to the Collateral Agent, if required, together with an undated stock power covering such certificate duly executed in blank by the Grantor and with, if the Collateral Agent so requests, signature guaranteed, to be held by the Collateral Agent, subject to the terms hereof, as additional collateral security for the Obligations, and in the case Equity Interests in Additional Project Entities, a consent from the Issuer thereof substantially in the form of Exhibit C . Unless otherwise consented to by the Collateral Agent, Pledged Equity Interests required to be pledged hereunder in any Subsidiary that is organized as a limited liability company or limited partnership and pledged hereunder shall be represented by a certificate and, in the Organizational Documents of such Subsidiary, the Grantor shall cause the Issuer of such interests to elect to treat such interests as a "security" within the meaning of Article 8 of the Uniform Commercial Code of its jurisdiction of organization (and all certificates representing such Pledged Equity Interests (and any additional Pledged Equity Interests acquired or issued after the Closing Date) shall have been delivered to the Collateral Agent, together with duly executed instruments of transfer or assignment in blank).

(B) Pledged Notes . If the Grantor shall at any time hold or acquire any Instruments, the Grantor shall forthwith endorse, assign and deliver the same to the Collateral Agent, accompanied by such undated instruments of endorsement, transfer or assignment duly executed in blank as the Collateral Agent may from time to time reasonably specify; provided that the Collateral Agent shall return any such Instruments

for purposes of presentation, collection, renewal or replacement. The Grantor agrees to promptly deliver or cause to be delivered to the Collateral Agent any and all Pledged Notes held or acquired by the Grantor, accompanied by proper instruments of assignment duly executed by the Grantor and such other instruments or documents as the Collateral Agent may reasonably request; provided that the Collateral Agent shall return any such Pledged Note to the Borrower (x) to be amended or assigned in connection with a permitted disposition (including the AG Disposition) under the Credit Agreement to the extent required to facilitate such disposition so long as the Borrower delivers any replacement Pledged Note, if any, held by the Borrower after consummation of such disposition or (y) for purposes of presentation, collection, renewal or replacement.

5.5 Assigned Agreements

. The Grantor hereby covenants and agrees that, in addition to any rights under Section 5.3 , the Collateral Agent may at any time, after the occurrence and during the continuation of an Event of Default, notify, or direct the Grantor to notify, the counterparty on any Assigned Agreement of the security interest of the Collateral Agent therein. In addition, after the occurrence and during the continuation of an Event of Default, the Collateral Agent may upon written notice to the Grantor, notify, or direct the Grantor to notify, the counterparty that all payments under the Assigned Agreements shall be made directly to the Collateral Agent.

5.6 Letter of Credit Rights

(a) Representations and Warranties

. The Grantor hereby represents and warrants, on the Closing Date, that, to the knowledge of the Grantor, the Grantor does not have rights as beneficiary in any letter of credit constituting Collateral.

(b) Covenants and Agreements .

(i) The Grantor hereby covenants and agrees that with respect to any letter of credit constituting Collateral with a stated amount in excess of $[***] hereafter arising it shall use its commercially reasonable efforts to (x) obtain the consent of the issuer thereof to the assignment of the proceeds of the letter of credit to the Collateral Agent and (y) deliver to the Collateral Agent a completed Pledge Supplement, together with all Supplements to Schedules thereto.

(ii) Upon the occurrence and during the continuation of an Event of Default, the Grantor will, promptly upon request by the Collateral Agent, (x) notify (and the Grantor hereby authorizes the Collateral Agent to notify) the issuer and each nominated person with respect to any Supporting Obligations consisting of letters of credit of which the Grantor is the beneficiary that the proceeds thereof have been assigned to the Collateral Agent hereunder and any payments due or to become due in respect thereof are to be made directly to the Collateral Agent or its designee and (y) arrange for the Collateral Agent on behalf of the Secured Parties to become the transferee beneficiary of any such letter of credit.

5.7 Intellectual Property

(a) Non-Exclusive License . For the purpose of enabling the Collateral Agent to exercise rights and remedies under Section 8 , the Grantor hereby grants to the Collateral Agent, to the

extent assignable, an irrevocable, non-exclusive license to use, assign, license or sublicense any Intellectual Property included in the Collateral now owned or hereafter acquired by the Grantor, wherever the same may be located, including in such license reasonable access to all media in which any of the licensed items may be recorded or stored and to all computer programs used for the compilation or printout thereof.

(b) Use of Intellectual Property . Notwithstanding anything contained herein to the contrary, but subject to the provisions of the Loan Documents that limit the rights of the Grantor to dispose of its Intellectual Property, so long as no instruction by the Collateral Agent acting at the direction of the Secured Parties has been delivered in connection with the occurrence and continuance of an Event of Default, the Grantor may exploit, use, enjoy, protect, license sublicense, assign, sell, dispose of or take other actions with respect to the Intellectual Property in the ordinary course of the business of the Grantor. In furtherance of the foregoing, so long as no such instruction has been delivered in connection with the occurrence and continuance of an Event of Default, the Collateral Agent shall from time to time, upon the request and at the expense of the Grantor, execute and deliver any instruments, certificates or other documents, in the form so requested, that the Grantor shall have certified are appropriate (in its judgment) to allow it to take any action permitted above (including relinquishment of the license provided pursuant to clause (a) immediately above as to any specific Intellectual Property constituting Collateral). Further, upon the release of the Liens on the Collateral in accordance with the terms of Section 9.18 of the Credit Agreement, the Collateral Agent shall transfer to the Grantor the license granted pursuant to clause (a) immediately above. The exercise of rights and remedies under Section 8 by the Collateral Agent shall not terminate the rights of the holders of any licenses or sublicenses theretofore granted by the Grantor in accordance with the first sentence of this clause (b) .

(c) Events of Default . Upon the occurrence and during the continuance of an Event of Default, the Grantor shall, upon the request of the Collateral Agent, deliver to the Collateral Agent a schedule listing all Intellectual Property constituting Collateral and take such other action as the Collateral Agent shall deem necessary to perfect the Liens created hereunder in all such Collateral.

5.8 Commercial Tort Claims . If the Grantor shall at any time acquire a Commercial Tort Claim with potential value in excess of excess of $[***], the Grantor shall use its commercially reasonable efforts to, within 60 days of obtaining such Commercial Tort Claim, deliver to the Collateral Agent a completed Pledge Supplement, together with all Supplements to Schedules thereto, identifying such new Commercial Tort Claims, and such other documentation acceptable to the Collateral Agent to grant a security interest under the terms and provisions of this Agreement in and to such Commercial Tort Claim.

SECTION 6. FURTHER ASSURANCES.

6.1 Further Assurances

(a) The Grantor agrees that from time to time, at the sole cost and expense of the Grantor, that, upon its receipt of a written request therefor from the Collateral Agent, it shall promptly execute and deliver all further instruments and documents, and take all further action, that may be necessary in order to (x) create and/or maintain the validity and perfection of and otherwise protect any security interest in Collateral granted hereby or (y) enable the Collateral Agent to exercise and enforce its rights and remedies hereunder with respect to any Collateral. Without limiting the generality of the foregoing, the Grantor shall maintain the Liens created by this Agreement as a perfected security interest prior and superior in right to any other Person except Liens permitted under the Loan Documents, and, upon the reasonable written request of the Collateral Agent, execute and deliver such other agreements, instruments, endorsements, powers of attorney or notices as are necessary, or as the Collateral Agent may reasonably request, to grant, preserve, protect, reflect and perfect the security interests granted or

purported to be granted hereby. For the avoidance of doubt, nothing herein shall require the Collateral Agent to file financing statements or continuation statements, or be responsible for maintaining the security interests purported to be created as described herein (except for the safe custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder or under any other Loan Document) and such responsibility shall be solely that of the Borrower.

(b) The Grantor hereby authorizes the Collateral Agent to file a Record or Records, including, without limitation, financing or continuation statements, intellectual property security agreements and amendments thereto, in any jurisdictions and with any filing offices as the Collateral Agent may reasonably determine, are necessary or advisable to perfect the security interest granted to the Collateral Agent herein. Such financing statements may describe the Collateral in the same manner as described herein or may contain an indication or description of collateral that describes such property in any other manner as the Collateral Agent may reasonably determine, are necessary, advisable or prudent to ensure the perfection of the security interest in the Collateral granted to the Collateral Agent herein, including, without limitation, describing such property as "all assets" or "all personal property, whether now owned or hereafter acquired." The Collateral Agent shall have no responsibility for or liability with respect to monitoring the compliance of any other party to the Loan Documents, this Agreement or any other document related hereto or thereto. The Collateral Agent has no duty to monitor the value or rating of any of the Collateral on an ongoing basis. The Grantor shall furnish to the Collateral Agent from time to time statements and schedules further identifying and describing the Collateral and such other reports in connection with the Collateral as the Collateral Agent may reasonably request, all in reasonable detail; provided that, so long as no Event of Default shall have occurred and be continuing, the Collateral Agent may not request updated schedules pursuant to this Section 6.1 from the Grantor more frequently than twice per calendar year.

SECTION 7. COLLATERAL AGENT APPOINTED ATTORNEY-IN-FACT

7.1 Power of Attorney

. The Grantor hereby irrevocably constitutes and appoints the Collateral Agent, acting for and on behalf of itself and the other Secured Parties and each successor or assign of the Collateral Agent as its true and lawful attorney-in-fact, with full power and authority in the place and stead of the Grantor and in the name of the Grantor or in its own name, at the Grantor's sole cost and expense, subject to the terms of this Agreement and applicable Legal Requirements, to enforce all rights, interests and remedies of the Grantor with respect to the Collateral upon the occurrence and during the continuation of an Event of Default, for the purpose of carrying out the provisions of this Agreement, including the right to:

(a) ask, demand, collect, sue for, recover, receive and give receipt and discharge for amounts due and to become due under and in respect of all or any part of the Collateral,

(b) in the name of the Grantor or its own name or otherwise, take possession of, receive and indorse and collect any check, Account, Chattel Paper, draft, note, acceptance or other Instrument for the payment of moneys due under any Account or general intangible, in each case, constituting Collateral,

(c) file any claims or take any other action that the Collateral Agent may deem necessary or advisable for the collection of all or any part of the Collateral,

(d) execute, in connection with any sale or disposition of the Collateral under this Agreement, any endorsements, assignments, bills of sale or other instruments of conveyance or transfer with respect to all or any part of the Collateral,

(e) in the case of any Intellectual Property constituting Collateral, execute and deliver, and have recorded, any agreement, instrument, document or paper as the Collateral Agent may request to evidence the Collateral Agent's security interest in such Intellectual Property and the goodwill and general intangibles of the Grantor relating thereto or represented thereby,

(f) pay or discharge Taxes and Liens levied or placed on or threatened against the Collateral (other than Liens permitted under the Credit Agreement), effect any repair or pay or discharge any insurance called for by the terms of this Agreement or the other Loan Documents (including all or any part of the premiums therefor and the costs thereof),

(g) direct any party liable for any payment under any Collateral to make payment of any moneys due or to become due thereunder directly to the Collateral Agent or as the Collateral Agent shall direct,

(h) sign and indorse any invoice, freight or express bill, bill of lading, storage or warehouse receipt, draft against debtors, assignment, verification, notice or other document in connection with any Collateral,

(i) commence and prosecute any suit, action or proceeding at law or in equity in any court of competent jurisdiction to collect any Collateral and to enforce any other right with respect to any Collateral,

(j) defend any suit, action or proceeding brought against the Grantor with respect to any Collateral,

(k) settle, compromise or adjust any such suit, action or proceeding with respect to any Collateral and, in connection therewith, give such discharges or releases as the Collateral Agent may deem appropriate,

(l) assign any Copyright, Patent or Trademark (along with the goodwill of the business to which any such Trademark pertains) throughout the world for such term or terms, on such conditions and in such manner as the Collateral Agent shall in its sole discretion determine, including the execution and filing of any document necessary to effectuate or record such assignment,

(m) notify the counterparty on any Assigned Agreement of the security interest of the Collateral Agent therein and that all payments thereunder shall be made directly to the Collateral Agent and cure any default by the Grantor under any Assigned Agreement, and

(n) upon foreclosure, generally, sell, transfer, pledge and make any agreement with respect to or otherwise deal with any Collateral as fully and completely as though the Collateral Agent were the absolute owner thereof for all purposes, and do, at the Collateral Agent's option and the Grantor's expense, at any time, or from time to time, all acts and things that the Collateral Agent reasonably deems necessary to protect, preserve or realize upon the Collateral and the Collateral Agent's and the other Secured Parties' Liens thereon and to effect the intent of this Agreement, all as fully and effectively as the Grantor might do.

This appointment as attorney-in-fact is irrevocable and coupled with an interest.

7.2 No Duty on Part of Collateral Agent or Other Secured Parties

. The powers conferred on the Collateral Agent hereunder are solely to protect the interests of the Secured Parties in the Collateral and shall not impose any duty upon the Collateral Agent or any other

Secured Party to exercise any such powers. The Collateral Agent and the other Secured Parties shall be accountable only for amounts that they actually receive as a result of the exercise of such powers, and neither they nor any of their officers, directors, employees or agents shall be responsible to the Grantor for any act or failure to act hereunder, except in the case of their own gross negligence or willful misconduct, except in the case of their own gross negligence or willful misconduct.

SECTION 8. REMEDIES

8.1 Generally

.

(a) If any Event of Default shall have occurred and be continuing, the Collateral Agent may exercise in respect of the Collateral, in addition to all other rights and remedies provided for herein or otherwise available to it at law or in equity, all the rights and remedies of the Collateral Agent on default under the UCC (whether or not the UCC applies to the affected Collateral) to collect, enforce or satisfy any Obligations then owing, whether by acceleration or otherwise, and also may pursue any of the following separately, successively or simultaneously:

(i) require the Grantor to, and the Grantor hereby agrees that it shall at its expense and promptly upon request of the Collateral Agent forthwith, assemble all or part of the Collateral as directed by the Collateral Agent and make it available to the Collateral Agent at a place to be designated by the Collateral Agent that is reasonably convenient to both parties;

(ii) enter onto the property where any Collateral is located and take possession thereof with or without judicial process;

(iii) prior to the disposition of the Collateral, store, process, repair or recondition the Collateral or otherwise prepare the Collateral for disposition in any manner to the extent the Collateral Agent deems appropriate; and

(iv) without notice except as specified below or under the UCC, sell, assign, lease, license (on an exclusive or nonexclusive basis) or otherwise dispose of the Collateral or any part thereof in one or more parcels at public or private sale, at any of the Collateral Agent's offices or elsewhere, for cash, on credit or for future delivery, at such time or times and at such price or prices and upon such other terms as the Collateral Agent in its reasonable discretion may deem commercially reasonable.

(b) The Collateral Agent or any other Secured Party may be the purchaser of any or all of the Collateral at any public or private (to the extent to the portion of the Collateral being privately sold is of a kind that is customarily sold on a recognized market or the subject of widely distributed standard price quotations) sale in accordance with the UCC and the Collateral Agent, as collateral agent for and representative of the Secured Parties, shall be entitled, for the purpose of bidding and making settlement or payment of the purchase price for all or any portion of the Collateral sold at any such sale made in accordance with the UCC, to use and apply any of the Obligations as a credit on account of the purchase price for any Collateral payable by the Collateral Agent at such sale. Each purchaser at any such sale shall hold the property sold absolutely free from any claim or right on the part of the Grantor, and the Grantor hereby waives (to the extent permitted by applicable law) all rights of redemption, stay and/or appraisal which it now has or may at any time in the future have under any rule of law or statute now existing or hereafter enacted. The Grantor agrees that, to the extent notice of sale shall be required by law, at least 10 days' notice to the Grantor of the time and place of any public sale or the

time after which any private sale is to be made shall constitute reasonable notification. The Collateral Agent shall not be obligated to make any sale of Collateral regardless of notice of sale having been given. The Collateral Agent may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was so adjourned. The Grantor agrees that it would not be commercially unreasonable for the Collateral Agent to dispose of the Collateral or any portion thereof by using Internet sites that provide for the auction of assets of the types included in the Collateral or that have the reasonable capability of doing so, or that match buyers and sellers of assets. So long as such sale is conducted in a commercially reasonable manner, the Grantor hereby waives any claims against the Collateral Agent arising by reason of the fact that the price at which any Collateral may have been sold at such a private sale was less than the price which might have been obtained at a public sale, even if the Collateral Agent accepts the first offer received and does not offer such Collateral to more than one offeree. If the proceeds of any sale or other disposition of the Collateral are insufficient to pay all the Obligations, the Grantor shall be liable for the deficiency and the reasonable fees and expenses of any attorneys employed by the Collateral Agent to collect such deficiency. The Grantor further agrees that a breach of any of the covenants contained in this Section 8.1 will cause irreparable injury to the Collateral Agent, that the Collateral Agent has no adequate remedy at law in respect of such breach and, as a consequence, that each and every covenant contained in this Section 8.1 shall be specifically enforceable against the Grantor, and the Grantor hereby waives and agrees not to assert any defenses against an action for specific performance of such covenants except for a defense that no default has occurred giving rise to the Obligations becoming due and payable prior to their stated maturities. Nothing in this Section 8.1 shall in any way alter the rights of the Collateral Agent hereunder.

(c) The Collateral Agent may sell the Collateral without giving any warranties as to the Collateral. The Collateral Agent may specifically disclaim or modify any warranties of title or the like. This procedure will not be considered to adversely affect the commercial reasonableness of any sale of the Collateral.

(d) The Collateral Agent shall have no obligation to marshal any of the Collateral.

8.2 Application of Proceeds

(a) Any Proceeds constituting Collateral to be applied by the Collateral Agent pursuant to the Loan Documents upon the occurrence and during the continuation of an Event of Default and in connection with the enforcement, collection or realization in respect of any Collateral by the Collateral Agent, shall be applied in the following order:

(i) First , to pay incurred and unpaid fees and expenses of the Agents under the Loan Documents;

(ii) Second , to the Collateral Agent, for application by it towards payment, without duplication, of (a) all interest, breakage costs and fees then due and payable under the Loan Documents and (b) any ordinary course settlement payments and any interest due and payable to any Specified Swap Counterparty under any Secured Swap Agreements, pro rata among the Secured Parties according to the amounts of such Obligations then due and owing and remaining unpaid to the Secured Parties;

(iii) Third , to the Collateral Agent, for application by it towards payment, without duplication, of (a) all principal and premium (if any) then due and payable under the Loan Documents and (b) any termination payments payable to any Specified Swap Counterparty under any Secured Swap Agreements, pro rata among the Secured Parties

according to the amounts of such Obligations then due and owing and remaining unpaid to the Secured Parties;

(iv) Fourth , to the Collateral Agent, on a pro rata basis, for application by it towards payment of all other Obligations due and owing and remaining unpaid to the Secured Parties under the Loan Documents and the Secured Swap Agreements; and

(v) Fifth , any balance remaining after the Discharge of the Obligations shall be paid over to the Grantor or to whomsoever may be lawfully entitled to receive the same.

(b) No sale or other disposition of all or any part of the Collateral pursuant to Section 8.1 shall be deemed to relieve the Grantor of its obligations under any Loan Document except to the extent the proceeds thereof are applied to the payment of such obligations.

8.3 Sales on Credit

. If the Collateral Agent sells any of the Collateral upon credit, the Grantor will be credited only with payments actually made by the purchaser and received by the Collateral Agent and applied to indebtedness of the purchaser. In the event the purchaser fails to pay for the Collateral, the Collateral Agent may resell the Collateral and the Grantor shall be credited with proceeds of the sale.

8.4 Investment Related Property

. The Grantor recognizes that the Collateral Agent may be unable to effect a public sale of any or all the Investment Related Property, by reason of certain prohibitions contained in the Securities Act and applicable state securities laws or otherwise, and may be compelled to resort to one or more private sales thereof to a restricted group of purchasers which will be obliged to agree, among other things, to acquire the Investment Related Property for their own account for investment and not with a view to the distribution or resale thereof. The Grantor acknowledges and agrees that any such private sale may result in prices and other terms less favorable than those obtainable through a public sale without such restrictions (including a public offering made pursuant to a registration statement under the Securities Act) and, notwithstanding such circumstances, agrees that any such private sale shall be deemed to have been made in a commercially reasonable manner. The Collateral Agent shall be under no obligation to delay a sale of any of the Investment Related Property for the period of time necessary to permit the Issuer thereof to register such securities for public sale under the Securities Act, or under applicable state securities laws, even if such Issuer would agree to do so. If the Collateral Agent exercises its right to sell any or all of the Investment Related Property, upon written request, the Grantor shall and shall cause each Issuer of any Pledged Equity Interests to be sold hereunder, each partnership and each limited liability company from time to time to furnish to the Collateral Agent all such information as the Collateral Agent may request in order to determine the number and nature of interest, shares or other instruments included in the Investment Related Property which may be sold by the Collateral Agent in exempt transactions under the Securities Act and the rules and regulations of the SEC thereunder, as the same are from time to time in effect.

8.5 Intellectual Property

(a) Anything contained herein to the contrary notwithstanding, upon the occurrence and during the continuation of an Event of Default:

(i) the Collateral Agent shall have the right (but not the obligation) to bring suit or otherwise commence any action or proceeding in the name of the Grantor, the

Collateral Agent or otherwise, in the Collateral Agent's sole discretion, to enforce any Intellectual Property constituting Collateral, in which event the Grantor shall, at the request of the Collateral Agent, do any and all lawful acts and execute any and all documents required by the Collateral Agent in aid of such enforcement and the Grantor shall promptly, upon demand, reimburse and indemnify the Collateral Agent as provided in Section 9.05 of the Credit Agreement in connection with the exercise of its rights under this Section, and, to the extent that the Collateral Agent shall elect not to bring suit to enforce any Intellectual Property as provided in this Section 8.5 , the Grantor agrees to use all reasonable measures, whether by action, suit, proceeding or otherwise, to prevent the infringement or other violation of any of the Grantor's rights in the Intellectual Property constituting Collateral by others and for that purpose agrees to diligently maintain any action, suit or proceeding against any Person so infringing as shall be necessary to prevent such infringement or violation;

(ii) upon written demand from the Collateral Agent, the Grantor shall grant, assign, convey or otherwise transfer to the Collateral Agent or such Collateral Agent's designee all of the Grantor's right, title and interest in and to the Intellectual Property constituting Collateral and shall execute and deliver to the Collateral Agent such documents as are necessary or appropriate to carry out the intent and purposes of this Agreement;

(iii) the Grantor agrees that such an assignment and/or recording shall be applied to reduce the Obligations outstanding only to the extent that the Collateral Agent (or any Secured Party) receives cash proceeds in respect of the sale of, or other realization upon, the Intellectual Property constituting Collateral; and

(iv) the Collateral Agent shall have the right to notify, or require the Grantor to notify, any obligors with respect to amounts due or to become due to the Grantor in respect of the Intellectual Property of the Grantor constituting Collateral, of the existence of the security interest created herein, to direct such obligors to make payment of all such amounts directly to the Collateral Agent, and, upon such notification and at the expense of the Grantor, to enforce collection of any such amounts and to adjust, settle or compromise the amount or payment thereof, in the same manner and to the same extent as the Grantor might have done;

(A) all amounts and proceeds (including checks and other instruments) received by the Grantor in respect of amounts due to the Grantor in respect of the Collateral or any portion thereof shall be received in trust for the benefit of the Collateral Agent hereunder, shall be segregated from other funds of the Grantor and shall be forthwith paid over or delivered to the Collateral Agent in the same form as so received (with any necessary endorsement) to be held as cash Collateral and applied as provided by Section 8.2 ; and

(B) the Grantor shall not adjust, settle or compromise the amount or payment of any such amount or release wholly or partly any obligor with respect thereto or allow any credit or discount thereon.

(b) If (i) an Event of Default shall have occurred and, by reason of cure, waiver, modification, amendment or otherwise, no longer be continuing, (ii) no other Event of Default shall have occurred and be continuing, (iii) an assignment or other transfer to the Collateral Agent of any rights, title and interests in and to the Intellectual Property constituting Collateral shall have been previously made and shall have become absolute and effective, and (iv) the Obligations shall not have become

immediately due and payable, upon the written request of the Grantor, the Collateral Agent shall promptly execute and deliver to the Grantor, at the Grantor's sole cost and expense, such assignments or other transfer as may be necessary to reassign to the Grantor any such rights, title and interests as may have been assigned to the Collateral Agent as aforesaid, subject to any disposition thereof that may have been made by the Collateral Agent; provided that, after giving effect to such reassignment, the Collateral Agent's security interest granted pursuant hereto, as well as all other rights and remedies of the Collateral Agent granted hereunder, shall continue to be in full force and effect; and provided , further , that the rights, title and interests so reassigned shall be free and clear of any other Liens granted by or on behalf of the Collateral Agent and the Secured Parties.

(c) Solely for the purpose of enabling the Collateral Agent to exercise rights and remedies under this Section 8 and at such time as the Collateral Agent shall be lawfully entitled to exercise such rights and remedies, the Grantor hereby grants to the Collateral Agent, to the extent it has the right to do so, an irrevocable, nonexclusive license (exercisable without payment of royalty or other compensation to the Grantor), subject, in the case of Trademarks, to sufficient rights to quality control and inspection in favor of the Grantor to avoid the risk of invalidation of said Trademarks, to use, operate under, license, or sublicense any Intellectual Property constituting Collateral now owned or hereafter acquired by the Grantor, and wherever the same may be located.

8.6 Investment Accounts

. If any Event of Default shall have occurred and be continuing, the Collateral Agent shall (at the written direction of the Administrative Agent) send to each bank, securities intermediary or issuer party to any Control Agreement or Uncertificated Securities Control Agreement, a "Notice of Sole Control" or similar notice as defined in and under such Agreement, and shall apply all proceeds therefrom in accordance with this Agreement and the other Security Documents.

SECTION 9. AMENDMENTS

. None of the terms or provisions of this Agreement may be waived, amended, supplemented or otherwise modified except pursuant to an agreement in writing entered into by the Grantor and the Collateral Agent and otherwise in accordance with the Credit Agreement; provided , however , that, notwithstanding any provision of any Loan Document to the contrary, any schedule hereto may be amended or supplemented from time to time solely by written notice to the Collateral Agent from the Grantor (and such amendment or supplement shall become effective upon delivery of any such notice).

SECTION 10. CONTINUING SECURITY INTEREST; TRANSFER OF ADVANCES

. This Agreement shall create a continuing security interest in the Collateral and shall remain in full force and effect until the Discharge of the Obligations, be binding upon the Grantor, its successors and assigns, and inure, together with the rights and remedies of the Collateral Agent hereunder, to the benefit of the Collateral Agent and its successors, transferees and assigns.

SECTION 11. STANDARD OF CARE; COLLATERAL AGENT MAY PERFORM

. The powers conferred on the Collateral Agent hereunder are solely to protect its interest in the Collateral and shall not impose any duty upon it to exercise any such powers. Except for the exercise of reasonable care in the custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder and other requirements of law or the UCC, the Collateral Agent shall have no duty as to any Collateral or as to the taking of any necessary steps to preserve rights against prior parties or any other rights pertaining to any Collateral. To the extent permitted by law, the Collateral Agent shall be deemed to have exercised reasonable care in the custody and preservation of Collateral in its possession

if such Collateral is accorded treatment substantially equal to that which the Collateral Agent accords its own property. Beyond the exercise of reasonable care in the custody thereof, the Collateral Agent shall have no duty as to any of the Collateral in its possession or control or in the possession or control of any agent or bailee or any income thereon or as to preservation of rights against prior parties or any other rights pertaining thereto, and the Collateral Agent shall not be responsible for filing any financing or continuation statements or recording any documents or instruments in any public office at any time or times or otherwise perfecting or maintaining the perfection of any security interest in the Collateral. Neither the Collateral Agent nor any of its directors, officers, employees or agents shall be liable for failure to demand, collect or realize upon all or any part of the Collateral or for any delay in doing so or shall be under any obligation to sell or otherwise dispose of any Collateral upon the request of the Grantor or otherwise. If the Grantor fails to perform any agreement contained herein, the Collateral Agent may itself perform, or cause performance of, such agreement, and the expenses of the Collateral Agent incurred in connection therewith shall be payable by the Grantor under the Credit Agreement.

SECTION 12. NOTICES

. Any notice required or permitted to be given under this Agreement shall be given in accordance with the Credit Agreement.

SECTION 13. RELEASES

Upon the Discharge of the Obligations, and subject to Section 21 , the Collateral shall be automatically released from the Liens created hereby, and this Agreement and all obligations (other than those expressly stated to survive such termination) of the Collateral Agent and the Grantor hereunder shall terminate, all without delivery of any instrument or performance of any act by any party, and all rights to the Collateral shall revert to the Grantor. At the request and sole expense of the Grantor following any such termination, the Collateral Agent shall deliver to the Grantor any Collateral held by the Collateral Agent hereunder, and execute and deliver to the Grantor such documents or otherwise authorize the filing of such documents as the Grantor shall reasonably request to evidence such termination.

If any of the Collateral shall be sold, transferred or otherwise disposed of by the Grantor in a transaction permitted by any Loan Documents or consented to in accordance with the Loan Documents, then the Collateral Agent, at the request and at the sole expense of the Grantor (with written confirmation from the Administrative Agent), shall execute and deliver to the Grantor all releases or authorize the filing of other documents reasonably necessary or desirable for the release of the Liens created hereby on such Collateral; provided that the Grantor shall have delivered to the Collateral Agent and the Administrative Agent, at least 5 Business Days prior to the date of the proposed release, a written request for release identifying the relevant Collateral and the terms of the sale or other disposition in reasonable detail, including the price thereof and any expenses in connection therewith, together with a certification by the Grantor stating that such transaction is in compliance with the Loan Documents and the Proceeds of such Collateral will be applied in accordance with the terms of the Loan Documents, if applicable.

SECTION 14. MISCELLANEOUS

No failure or delay on the part of the Collateral Agent in the exercise of any power, right or privilege hereunder or under any other Loan Document shall impair such power, right or privilege or be construed to be a waiver of any default or acquiescence therein, nor shall any single or partial exercise of any such power, right or privilege preclude other or further exercise thereof or of any other power, right or privilege. All rights and remedies existing under this Agreement and the other Loan Documents are cumulative to, and not exclusive of, any rights or remedies otherwise available. In case any provision in or obligation under this Agreement shall be invalid, illegal or unenforceable in any jurisdiction, the validity, legality and enforceability of the remaining provisions or obligations, or of such provision or

obligation in any other jurisdiction, shall not in any way be affected or impaired thereby. All covenants hereunder shall be given independent effect so that if a particular action or condition is not permitted by any of such covenants, the fact that it would be permitted by an exception to, or would otherwise be within the limitations of, another covenant shall not avoid the occurrence of a default or an event of default under the Loan Documents if such action is taken or condition exists. This Agreement shall be binding upon and inure to the benefit of the Collateral Agent and the Grantor and their respective successors and assigns. The Grantor shall not, without the prior written consent of the Collateral Agent given in accordance with the Credit Agreement, assign any right, duty or obligation hereunder. There are no unwritten oral agreements between the parties. This Agreement may be executed in one or more counterparts and by different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. Delivery of an executed counterpart of a signature page of this Agreement or any document or instrument delivered in connection herewith by facsimile or other electronic delivery (including by certified electronic signature) shall be effective as delivery of a manually executed counterpart of this Agreement or such other document or instrument, as applicable.

The Grantor's waiver of rights or agreements in respect of Collateral, the exercise of remedies, standards of care, notice and the other matters covered by Sections 5 through 8 are in each case qualified that such waivers or agreements are being made to the fullest extent permitted by law.

SECTION 15. ACKNOWLEDGEMENTS

. The Grantor hereby acknowledges that (a) it has been advised by counsel in the negotiation, execution and delivery of this Agreement and the other Loan Documents to which it is a party; (b) neither the Collateral Agent nor any Secured Party has any fiduciary relationship with or duty to the Grantor arising out of or in connection with this Agreement or any of the other Loan Documents, and the relationship between the Grantor, on the one hand, and the Collateral Agent and Secured Parties, on the other hand, in connection herewith or therewith is solely that of debtor and creditor and (c) no joint venture is created hereby or by the other Loan Documents or otherwise exists by virtue of the transactions contemplated hereby among the Secured Parties or among the Grantor and the Secured Parties.

SECTION 16. HEADINGS

. Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and are not to affect the construction of, or to be taken into consideration in interpreting, this Agreement.

SECTION 17. APPLICABLE LAW

. THIS AGREEMENT SHALL BE GOVERNED BY, AND SHALL BE CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

SECTION 18. CONSENT TO JURISDICTION; CONSENT TO SERVICE OF PROCESS

Each party hereto hereby irrevocably and unconditionally submits, for itself and its property, to the exclusive jurisdiction of any New York state court or federal court of the United States of America sitting in the County and City of New York, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York state court or, to the

extent permitted by law, in such federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Each party hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement in any New York state or federal court. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

Each party hereto further irrevocably consents to the service of process in any action or proceeding in such courts by the mailing thereof by any parties thereto by registered or certified mail, postage prepaid, to such party at its address specified in Section 12 . Nothing herein shall affect the right to serve process in any other manner permitted by law.

SECTION 19. WAIVER OF JURY TRIAL

. EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 19 .

SECTION 20. SECURITY INTEREST ABSOLUTE

. All rights of the Collateral Agent hereunder, the grant of a security interest in the Collateral and all obligations of the Grantor hereunder shall be absolute and unconditional irrespective of (a) any lack of validity or enforceability of any Loan Document, (b) any change in the time, manner or place of payment of, or in any other term of, all or any of the Obligations, or any other amendment or waiver of or any consent to any departure from any Loan Document, (c) any exchange, release or non-perfection of any security on any collateral, or any release or amendment or waiver of or consent under or departure from any guarantee, securing or guaranteeing all or any of the Obligations, or (d) any other circumstance that might otherwise constitute a defense available to, or a discharge of, the Grantor in respect of the Obligations or this Agreement (other than the payment in full of all of the Obligations or the benefit of any statute of limitations affecting the Grantor's obligations hereunder or the enforcement thereof).

SECTION 21. REINSTATEMENT

. This Agreement and the Liens created hereunder shall automatically be reinstated if and to the extent that for any reason any payment by or on behalf of the Grantor in respect of the Obligations is rescinded or must otherwise be restored by any Secured Party, whether as a result of any Bankruptcy Event or reorganization or otherwise, and the Grantor shall indemnify the Collateral Agent, each other Secured Party and its respective employees, officers and agents on demand for all reasonable fees, costs and expenses (including reasonable fees, costs and expenses of counsel) incurred by the Collateral Agent, such other Secured Party or their respective employees, officers or agents in connection with such reinstatement, rescission or restoration.

SECTION 22. COLLATERAL AGENT

. Notwithstanding anything herein to the contrary, the Collateral Agent shall be afforded all of the rights, powers, immunities and indemnities of the Collateral Agent set forth in the Credit Agreement and the Loan Documents, as if such rights, powers, immunities and indemnities were specifically set forth herein. The Grantor hereby acknowledges the appointment of the Collateral Agent pursuant to the Credit Agreement. The rights, privileges, protections and benefits given to the Collateral Agent, including its right to be indemnified, are extended to, and shall be enforceable by, the Collateral Agent in its capacity hereunder, and to each agent, custodian and other Person employed by the Collateral Agent in accordance herewith to act hereunder.

SECTION 23. LIMITED LIABILITY

. Notwithstanding anything in this Agreement or the other Loan Documents to the contrary, none of the Secured Parties shall have any claims with respect to the transactions contemplated hereunder or thereunder against Holdings, any past, present or future holder (whether direct or indirect) of any Equity Interests in Holdings or any of its Subsidiaries or Affiliates (other than the Loan Parties), shareholders, officers, incorporators, directors, employees, representatives, Controlling persons, executives or agents (collectively, the " Nonrecourse Persons "), such claims against the Nonrecourse Persons (including as may arise by operation of law) being expressly waived hereby; provided that the foregoing shall not (a) constitute a waiver, release or discharge (or otherwise impair the enforceability) of any of the Obligations or of any of the terms, covenants, conditions or provisions of this Agreement or any other Loan Document and the same shall continue (subject to clause (d) below, but without personal liability of the Nonrecourse Persons) until fully paid, discharged, observed or performed; (b) constitute a waiver, release or discharge of any Lien or security interest purported to be created pursuant to this Agreement or any other Loan Documents (or otherwise impair the ability of any Secured Party to realize or foreclose upon any Collateral); (c) in any way limit or restrict any right or remedy of the Collateral Agent or any other Secured Party (or any assignee or beneficiary thereof or successor thereto) with respect to, and each of the Nonrecourse Persons shall remain fully liable to the extent that it would otherwise be liable for its own actions with respect to, any fraud (which shall not include innocent or negligent misrepresentation), willful misrepresentation or misappropriation of revenues, profits or proceeds from the Projects or any Collateral, that should or would have been paid as provided in the relevant Loan Document or paid or delivered to the Collateral Agent or any other Secured Party (or any assignee or beneficiary thereof or successor thereto) towards any payment required under any Loan Document; or (d) affect or diminish in any way or constitute a waiver, release or discharge of any obligation, covenant, or agreement made by any of the Nonrecourse Persons (or any security granted by the Nonrecourse Persons in support of the obligations of any Person) under or in connection with any Loan Document (or as security for the Obligations), any Sponsor Guaranty or other agreement with any Secured Party. The limitations on recourse set forth in this Section 23 shall survive the Discharge of the Obligations and the performance of the Obligations under the Loan Documents.

[*Signature pages follow.* **]**

IN WITNESS WHEREOF, the Grantor and the Collateral Agent have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first written above.

TO PLEDGE AND SECURITY AGREEMENT

FORM OF PLEDGE SUPPLEMENT

This **PLEDGE SUPPLEMENT** , dated **[** mm/dd/yy **]** , is delivered by EXGEN RENEWABLES IV, LLC, a Delaware limited liability company (the " Grantor ") pursuant to the Pledge and Security Agreement, dated as of November 28, 2017 (as it may be from time to time amended, restated, modified or supplemented, the " Security Agreement "), between EXGEN RENEWABLES IV, LLC, as Grantor, and WILMINGTON TRUST, NATIONAL ASSOCIATION, as the Collateral Agent. Capitalized terms used herein not otherwise defined herein shall have the meanings ascribed thereto in the Security Agreement (including by reference to definitions in other agreements).

The Grantor hereby confirms the grant to the Collateral Agent set forth in the Security Agreement of, and does hereby grant to the Collateral Agent for the benefit of the Secured Parties, a security interest in and continuing Lien on all of the Grantor's right, title and interest in, to and under all Collateral of the Grantor (excluding, for the avoidance of doubt, Excluded Property), in each case whether now owned or existing or hereafter acquired or arising and wherever located. The Grantor represents and warrants that the attached Supplements to Schedules accurately and completely set forth all additional information required pursuant to the Security Agreement and hereby agrees that such Supplements to Schedules shall constitute part of the Schedules to the Security Agreement.

IN WITNESS WHEREOF , the Grantor has caused this Pledge Supplement to be duly executed and delivered by its duly authorized officer as of **[mm/dd/yy]** .

(C) Changes in name, jurisdiction of organization, chief executive office/ sole place of business/ principal residence and corporate structure since its formation:

EXHIBIT B

TO PLEDGE AND SECURITY AGREEMENT

FORM OF UNCERTIFICATED SECURITIES CONTROL AGREEMENT

This Uncertificated Securities Control Agreement dated as of **[_____]** , 20 **[__]** among EXGEN RENEWABLES IV, LLC (the " Pledgor "), WILMINGTON TRUST, NATIONAL ASSOCIATION, as collateral agent for the Secured Parties (the " Collateral Agent "), and **[_____]** , a **[_____]** (the " Issuer "). Capitalized terms used but not defined herein shall have the meaning assigned in the Pledge and Security Agreement dated as of November 28, 2017, between the Pledgor and the Collateral Agent (as amended, restated, supplemented or otherwise modified from time to time, the " Security Agreement "). All references herein to the "UCC" means the Uniform Commercial Code as in effect in the State of New York.

Section 1. Registered Ownership of Shares . The Issuer hereby confirms and agrees that as of the date hereof the Pledgor is the registered owner of **[** ____ shares **] [** ___% of interests **]** of the Issuer's **[** common **]** equity (the " Pledged Shares ") and the Issuer shall not change the registered owner of the Pledged Shares without the prior written consent of the Collateral Agent.

Section 2. Instructions . If at any time the Issuer shall receive instructions originated by the Collateral Agent relating to the Pledged Shares, the Issuer shall comply with such instructions without further consent by the Pledgor or any other person.

Section 3. Additional Representations and Warranties of the Issuer . The Issuer hereby represents and warrants to the Collateral Agent:

(a) It has not entered into, and until the termination of this agreement will not enter into, any agreement with any other person relating to the Pledged Shares pursuant to which it has agreed to comply with instructions issued by such other person; and

(b) It has not entered into, and until the termination of this agreement will not enter into, any agreement with the Pledgor or the Collateral Agent purporting to limit or condition the obligation of the Issuer to comply with instructions as set forth in Section 2 hereof.

(c) Except for the claims and interest of the Collateral Agent and of the Pledgor in the Pledged Shares, the Issuer does not know of any claim to, or interest in, the Pledged Shares. If any person asserts any lien, encumbrance or adverse claim (including any writ, garnishment, judgment, warrant of attachment, execution or similar process) against the Pledged Shares, the Issuer will promptly notify the Collateral Agent and the Pledgor thereof.

(d) This Uncertificated Securities Control Agreement is the valid and legally binding obligation of the Issuer.

Section 4. Choice of Law . This Agreement shall be governed by the law of the State of New York.

Section 5. Conflict with Other Agreements . In the event of any conflict between this Agreement (or any portion thereof) and any other agreement now existing or hereafter entered into, the terms of this Agreement shall prevail. No amendment or modification of this Agreement or waiver of any right hereunder shall be binding on any party hereto unless it is in writing and is signed by all of the parties hereto.

Section 6. Voting Rights . Until such time as the Collateral Agent shall otherwise instruct the Issuer in writing upon the occurrence (and during the continuation of an Event of Default), the Pledgor shall have the right to vote the Pledged Shares.

Section 7. Successors; Assignment . The terms of this Agreement shall be binding upon, and shall inure to the benefit of, the parties hereto and their respective corporate successors or heirs and personal representatives who obtain such rights solely by operation of law. The Collateral Agent may assign its rights hereunder only with the express written consent of the Issuer and by sending written notice of such assignment to the Pledgor.

Section 8. Indemnification of Issuer . The Pledgor and the Collateral Agent hereby agree that (a) the Issuer is released from any and all liabilities to the Pledgor and the Collateral Agent arising from the terms of this Agreement and the compliance of the Issuer with the terms hereof, except to the extent that such liabilities arise from the Issuer's negligence and (b) the Pledgor, its successors and assigns shall at all times indemnify and save harmless the Issuer from and against any and all claims, actions and suits of others arising out of the terms of this Agreement or the compliance of the Issuer with the terms hereof, except to the extent that such claim, action or suit arises from the Issuer's negligence, and from and against any and all liabilities, losses, damages, costs, charges, counsel fees and other expenses of every nature and character arising by reason of the same, until the termination of this Agreement.

Section 9. Notices . Any notice, request or other communication required or permitted to be given under this Agreement shall be in writing and deemed to have been properly given when delivered in person, or when sent by facsimile or other electronic means and electronic confirmation of error free receipt is received or two days after being sent by certified or registered United States mail, return receipt requested, postage prepaid, addressed to the party at the address set forth below.

Any party may change its address for notices in the manner set forth above.

Section 10. Termination . The obligations of the Issuer to the Collateral Agent pursuant to this Agreement shall continue in effect until the security interests of the Collateral Agent in the Pledged Shares have been terminated pursuant to the terms of the Security Agreement and the Collateral Agent has notified the Issuer of such termination in writing. The Collateral Agent agrees to provide a Notice of Termination in substantially the form of Exhibit A hereto to the Issuer upon the request of the Pledgor on or after the termination of the Collateral Agent's security interest in the Pledged Shares pursuant to the terms of the Security Agreement. The termination of this Uncertificated Securities Control Agreement shall not terminate the Pledged Shares or alter the obligations of the Issuer to the Pledgor pursuant to any other agreement with respect to the Pledged Shares.

Section 11. Counterparts . This Agreement may be executed in any number of counterparts, all of which shall constitute one and the same instrument, and any party hereto may execute this Agreement by signing and delivering one or more counterparts.

Re: Termination of Control Agreement

You are hereby notified that the Uncertificated Securities Control Agreement between you, (the " Pledgor ") and the undersigned (a copy of which is attached) is terminated and you have no further obligations to the undersigned pursuant to such Agreement. Notwithstanding any previous instructions to you, you are hereby instructed to accept all future directions with respect to Pledged Shares (as defined in the Uncertificated Securities Control Agreement) from the Pledgor. This notice terminates any obligations you may have to the undersigned with respect to the Pledged Shares, however nothing contained in this notice shall alter any obligations which you may otherwise owe to the Pledgor pursuant to any other agreement.

You are instructed to deliver a copy of this notice by facsimile or other electronic transmission to the Pledgor.

Very truly yours,

SCHEDULES

SCHEDULE 1 - PLEDGED EQUITY INTERESTS
SCHEDULE 4.1 - GENERAL INFORMATION

This GUARANTEE AND PLEDGE AGREEMENT, dated as of November 28, 2017 (this " Agreement "), is entered into by and among EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" Holding "), EXGEN RENEWABLES HOLDINGS, LLC, a limited liability company organized under the laws of Delaware (" ExGen Renewables Holdings ", together with Holding, the " Pledgors ", and each a " Pledgor ") and WILMINGTON TRUST, NATIONAL ASSOCIATION, as collateral agent for the Secured Parties (in such capacity and together with its permitted successors, assigns and designees, the " Collateral Agent "). Capitalized terms used in this Agreement (including in this preamble and the recitals below) have the meanings assigned to such terms in Section 1.1 .

RECITALS:

WHEREAS, as of the date hereof, Holding owns the Equity Interests in ExGen Renewables IV, LLC, a limited liability company organized under the laws of the State of Delaware (the " Borrower ") described on Schedule 1;

WHEREAS, as of the Closing Date, the Borrower owns (A) all of the Equity Interests in (i) ExGen Renewables Holdings, (ii) SolGen Holding, LLC, a limited liability company organized under the laws of Delaware (" SolGen Holding ") and (iii) Exelon AVSR Holding, LLC, a limited liability company organized under the laws of Delaware (" Exelon AVSR Holding ") and (B) not less than 50% of the Equity Interests in Constellation DCO Albany Power Holdings, LLC, a limited liability company organized under the laws of Delaware (" Albany Power Holdings " and, collectively with ExGen Renewables Holdings, SolGen Holding and Exelon AVSR Holding, the " Project Holdcos ");

WHEREAS, ExGen Renewables Holdings owns all of the JV Class A Membership Interests (the " Class A Membership Interests ") in ExGen Renewables Partners, LLC, a limited liability company organized under the laws of the State of Delaware (" ExGen Renewables JV ", and together with the Borrower, the " Subsidiaries ") described on Schedule 1;

WHEREAS, ExGen Renewables JV, SolGen Holding, Exelon AVSR Holding and Albany Power Holdings own, directly or indirectly, all (or a specified class of) the Equity Interests of each of the other Project Entities, which collectively own or lease the Projects;

WHEREAS, the Borrower intends to enter into the Credit Agreement, dated as of the date hereof (as amended, amended and restated, supplemented, replaced or otherwise modified and in effect from time to time, the " Credit Agreement "), among the Borrower, Holding, the Lenders party thereto from time to time, Morgan Stanley Senior Funding, Inc., as administrative agent (in such capacity, together with any successor administrative agent appointed pursuant to the provisions of Article VIII of the Credit Agreement, the " Administrative Agent "), Wilmington Trust, National Association, as Collateral Agent and Wilmington Trust, National Association, as Depositary Bank, pursuant to which the Company has requested that the Lenders extend credit in the form of Loans on the Closing Date, in an aggregate U.S. Dollar amount for all such Loans of U.S. $850 million; and

WHEREAS, each of the Pledgors has agreed to secure all of the Pledgor Obligations by granting to the Collateral Agent, for the benefit of the Secured Parties, a Lien on all of the Collateral.

AGREEMENT:

Now, Therefore, in consideration of the foregoing, the mutual covenants and obligations herein set forth and for other good and valuable consideration, the adequacy and receipt of which are hereby acknowledged and in reliance upon the representations, warranties and covenants contained herein, the parties hereto, intending to be legally bound, hereby agree as follows:

SECTION 1. DEFINITIONS.

1.1 General Definitions

. Unless otherwise defined herein, terms defined in the Credit Agreement and used herein (including in the preamble and the recitals hereto) shall have the meanings given to them in the Credit Agreement. In addition to the terms defined in the Credit Agreement, the following terms shall have the following meanings:

" Administrative Agent " has the meaning set forth in the recitals to this Agreement.

" Agreement " has the meaning set forth in the preamble to this Agreement.

" Albany Power Holdings " has the meaning assigned to such term in the recitals of this Agreement.

" Bankruptcy Event " means any event described in Sections 7.01(h) and 7.01(i) of the Credit Agreement.

" Bankruptcy Law " means the Bankruptcy Code and any other state or federal insolvency, reorganization, moratorium or similar law for the relief of debtors.

" Borrower Obligations " has the meaning assigned in Section 2.1 .

" Collateral " has the meaning assigned in Section 3.1 .

" Collateral Agent " has the meaning set forth in the preamble to this Agreement.

" Company " has the meaning set forth in the recitals to this Agreement.

" Credit Agreement " has the meaning set forth in the recitals to this Agreement.

" Exelon AVSR Holding " has the meaning assigned to such term in the recitals hereto.

" ExGen Renewables Holdings " has the meaning assigned to such term in the recitals hereto.

" Issuer " means ExGen Renewables IV, LLC and ExGen Renewables Partners, LLC, as applicable.

" Legal Requirements " means, as to any Person, any law, statute, rule, regulation, ordinance, order, code, treaty, judgment, decree, or any published directive or requirement which has the force of law, or other legally binding form of governmental restriction or decision of any Governmental Authority, in each case applicable to or binding upon such Person or any of its properties or to which such Person or any of its properties is subject.

" LLC Interests " has the meaning given to such term in Section 3.1(a) .

" Obligations " has the meaning assigned to such term in the Credit Agreement.

" Operating Agreement " means the Amended and Restated Limited Liability Company Agreement of the Company, dated as of March 13, 2017.

" Pledged Equity Interests " means all classes of Equity Interests owned by any Pledgor, including, without limitation, the LLC Interests and the certificates, if any, representing such Pledged Equity Interests, and all dividends, distributions, return of capital, cash, instruments and other property from time to time received, receivable or otherwise distributed in respect of or in exchange for any or all of the Pledged Equity Interests.

" Pledgor Obligations " means all Obligations of the Pledgors including arising under Section 2 hereof.

" Proceeds " means (i) all "proceeds" as defined in Article 9 of the UCC, (ii) payments or distributions made with respect to the Pledged Equity Interests and (iii) whatever is receivable or received when Collateral or proceeds are sold, exchanged, collected or otherwise disposed of, whether such disposition is voluntary or involuntary.

" Project Holdcos " has the meaning assigned to such term in the recitals hereto.

" Record " has the meaning set forth in Article 9 of the UCC.

" Secured Parties " means the Agents, the Lenders and any Specified Swap Counterparty.

" SolGen Holding " has the meaning assigned to such term in the recitals hereto.

" UCC " means the Uniform Commercial Code as the same may, from time to time, be in effect in the State of New York; provided however that, in the event that, by reason of mandatory provisions of law, any or all of the attachment, perfection or priority of the security interest in any Collateral is governed by the Uniform Commercial Code as in effect in a jurisdiction other than the State of New York, the term "UCC" means the Uniform Commercial Code as in effect in such other jurisdiction for purposes of the provisions hereof relating to such attachment, perfection or priority and for purposes of definitions related to such provisions.

1.2 Definitions; Interpretation

. For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires, the rules of interpretation set forth in Section 1.02 of the Credit Agreement are hereby incorporated by reference, mutatis mutandis, as if fully set forth herein. All capitalized terms used herein (including the preamble and recitals hereto) and not otherwise defined herein or in the Credit Agreement have the meanings ascribed thereto in the UCC. All references herein to provisions of the UCC shall include all successor provisions under any subsequent version or amendment to any Article of the UCC. The terms "lease" and "license" shall include "sub-lease" and "sub license", as applicable.

SECTION 2. GUARANTEE

2.1 Guarantee

(a) Subject to the provisions of this Section 2, each Pledgor hereby fully, unconditionally and irrevocably guarantees to the Collateral Agent for the ratable benefit of the Secured Parties and their respective successors, indorsees, transferees and assigns the full and punctual payment when due, whether at maturity, by acceleration or otherwise, of the Obligations of the Borrower (the " Borrower Obligations "). Each Pledgor further agrees that the Borrower Obligations may be extended or renewed, in whole or in part, without notice or further assent from it, and that it will remain bound under this Section 2 notwithstanding any extension or renewal of any Borrower Obligation.

(b) Each Pledgor waives notice of protest for nonpayment, notice of presentment for payment, demand, protest, and notice thereof as to any of the Borrower Obligations. Each Pledgor waives notice of any default under the Borrower Obligations.

(c) Each Pledgor further agrees that its guarantee herein constitutes a guarantee of payment when due (and not a guarantee of collection) and waives any right to require that any resort be had by the Collateral Agent, the Administrative Agent or any other Secured Party to any security held for payment of the Borrower Obligations.

(d) Except as set forth in Sections 9.08 and 9.18 of the Credit Agreement, the obligations of each Pledgor hereunder shall not be subject to any reduction, limitation, impairment or termination for any reason (other than payment of the Borrower Obligations in full or the benefit of any statute of limitations affecting such Pledgor's liability hereunder or the enforcement thereof), including any claim of waiver, release, surrender, alteration or compromise, and shall not be subject to any defense of setoff, counterclaim, recoupment or termination whatsoever or by reason of the invalidity, illegality or unenforceability of the Borrower Obligations or otherwise. Without limiting the generality of the foregoing, none of the Pledgor Obligations shall be discharged or impaired or otherwise affected by (a) the failure of the Collateral Agent, the Administrative Agent or any other Secured Party to assert any claim or demand or to enforce any right or remedy against the Borrower or any other person under this Agreement or any other agreement or otherwise; (b) any extension or renewal of any thereof; (c) any rescission, waiver, amendment or modification of any of the terms or provisions of this Agreement, any other Loan Document or any other agreement; (d) the release or non-perfection of any security held by any Lender or the Collateral Agent for the Borrower Obligations or any of them; (e) the failure of the Collateral Agent, the Administrative Agent or any other Secured Party to exercise any right or remedy against any other Loan Party; (f) any change in the ownership of any Loan Party; (g) any default, failure or delay, willful or otherwise, in the performance of the Borrower Obligations, or (h) any other act or thing or omission or delay to do any other act or thing which may or might in any manner or to any extent vary the risk of any Pledgor or would otherwise operate as a discharge of any Pledgor as a matter of law or equity.

(e) Each Pledgor agrees that its guarantee herein shall remain in full force and effect until the Discharge of the Obligations. Each Pledgor further agrees that its guarantee herein shall continue to be effective or be reinstated, as the case may be, if at any time payment, or any part thereof, of principal of, premium, if any, or interest on any of the Borrower Obligations is rescinded or must otherwise be restored by the Collateral Agent, the Administrative Agent or any other Secured Party upon the bankruptcy or reorganization of the Borrower or otherwise.

(f) Each Pledgor hereby guarantees that payments hereunder will be paid to the Collateral Agent in cash upon demand by the Collateral Agent without set-off or counterclaim.

(g) Each Pledgor further agrees that, as between it, on the one hand, and the Collateral Agent and the Secured Parties, on the other hand, (x) the maturity of the Borrower Obligations guaranteed hereby may be accelerated as provided in the Credit Agreement for the purposes of its Guarantee herein, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the Borrower Obligations guaranteed hereby arising in connection with any Bankruptcy Event with respect to any Loan Party or otherwise and (y) in the event of any such declaration of acceleration of such Borrower Obligations, such Borrower Obligations (whether or not due and payable) shall forthwith become due and payable by the Pledgors for the purposes of this Guarantee.

2.2 Limitation on Liability

. Any term or provision of this Agreement or the other Loan Documents to the contrary notwithstanding, the obligations of each Pledgor hereunder will be limited to the maximum amount as will, after giving effect to all other contingent and fixed liabilities of such Pledgor, result in the obligations of such Pledgor under its guarantee not constituting a fraudulent conveyance or fraudulent transfer under federal or state law and not otherwise being void or voidable under any similar laws affecting the rights of creditors generally.

2.3 No Subrogation

. Notwithstanding any payment or payments made by the Pledgors hereunder, no Pledgor shall be entitled to be subrogated to any of the rights of any Secured Party against the Borrower or any collateral security or guarantee or right of offset held by any Secured Party for the payment of the Borrower Obligations, nor shall any Pledgor seek or be entitled to seek any contribution or reimbursement from the Borrower in respect of payments made by such Pledgor hereunder, until all amounts owing to the Secured Parties by the Borrower on account of the Borrower Obligations are paid in full. If any amount shall be paid to any Pledgor on account of such subrogation rights at any time when all of the Borrower Obligations shall not have been paid in full, such amount shall be held by such Pledgor in trust for the Collateral Agent, the Administrative Agent and the Lenders, segregated from other funds of such Pledgor, and shall, forthwith upon receipt by such Pledgor, be turned over to the Collateral Agent in the exact form received by such Pledgor, to be applied against the Borrower Obligations.

2.4 Right of Contribution

. Each Pledgor hereby agrees that to the extent that any Pledgor shall have paid more than its proportionate share of any payment made on the Borrower Obligations, such Pledgor shall be entitled to seek and receive contribution from and against the other Pledgor who has not paid its proportionate share of such payment. The provisions of this Section 2.4 shall in no respect limit the obligations and liabilities of each Pledgor with respect to the Borrower Obligations and each Pledgor shall remain liable to the Secured Parties for the full amount guaranteed by such Pledgor hereunder.

SECTION 3. PLEDGE.

3.1 Pledge

. Each Pledgor hereby assigns and transfers to the Collateral Agent and hereby grants to the Collateral Agent, for the benefit of the Secured Parties, a security interest in and continuing Lien on all of such Pledgor's right, title and interest in all property of such Pledgor identified below, in each case whether now owned or existing or hereafter acquired or in which such Pledgor now has or at any time in the future may acquire or arising and wherever located (all of which being hereinafter collectively referred to as the " Collateral "), as collateral security for prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Pledgor Obligations:

(a) all of such Pledgor's limited liability company interests in the Issuers and all after acquired limited liability company interests in the Issuers (collectively, the " LLC Interests "), including but not limited to those LLC Interests described on Schedule 1 (as such schedule may be amended or supplemented from time to time), and all of such Pledgor's rights to acquire limited liability company interests in any Issuer in addition to or in exchange or substitution for the LLC Interests and all other Equity Interests in any Issuer owned by such Pledgor;

(b) all of such Pledgor's rights, privileges, authority and powers as a member of an Issuer under the Operating Agreement and the other Organizational Documents of the Issuers;

(c) all certificates or other documents representing any and all of the foregoing in clauses (a) and (b);

(d) all dividends, distributions, cash, securities, instruments and other property or proceeds of any kind to which such Pledgor may be entitled in its capacity as member of an Issuer by way of distribution, return of capital or otherwise, including from time to time received, receivable or otherwise distributed in respect of or in exchange for any or all of the LLC Interests;

(e) without affecting any obligations of such Pledgor or any Issuer under any of the other Loan Documents, in the event of any consolidation or merger in which any Issuer is not the surviving Person, all of such Pledgor's ownership interests of any class or character in the successor Person formed by or resulting from such consolidation or merger;

(f) any other claim which such Pledgor now has or may in the future acquire in its capacity as member of an Issuer against such Issuer and its property; and

(g) all Proceeds, products and accessions of and to any of the property described in the preceding clauses (a) through (f) above.

3.2 Security for Obligations

. This Agreement secures, and the Collateral is collateral security for, the prompt and complete payment and performance in full when due, whether at stated maturity, by required prepayment, declaration, acceleration, demand or otherwise (including the payment of amounts that would become due but for the operation of the automatic stay under Section 362(a) of the Bankruptcy Code, 11 U.S.C. §362(a) (and any successor provision thereof)), of all Pledgor Obligations.

3.3 Continuing Liability under Collateral

. Notwithstanding anything herein to the contrary, (i) each Pledgor shall remain liable for all obligations under the Collateral and nothing contained herein is intended or shall be a delegation of duties to the Collateral Agent or any Secured Party, (ii) each Pledgor shall remain liable under each of the agreements included in the Collateral, including, without limitation, any agreements relating to Pledged Equity Interests, to perform all of the obligations undertaken by it thereunder all in accordance with and pursuant to the terms and provisions thereof and neither the Collateral Agent nor any other Secured Party shall have any obligation or liability under any of such agreements by reason of or arising out of this Agreement or any other document related thereto nor shall the Collateral Agent nor any other Secured Party have any obligation to make any inquiry as to the nature or sufficiency of any payment received by it or have any obligation to take any action to collect or enforce any rights under any agreement included in the Collateral, including, without limitation, any agreements relating to Pledged Equity Interests, and (iii) the exercise by the Collateral Agent of any of its rights hereunder shall not release any Pledgor from any of its duties or obligations under the contracts and agreements included in the Collateral.

3.4 Delivery of Certificates and Instruments

. All certificates and instruments representing or evidencing any of the Pledged Equity Interests shall be delivered to and be held by or on behalf of the Collateral Agent in accordance with Section 5.2 and shall be in suitable form for transfer by delivery or shall be accompanied by duly executed instruments of transfer or assignment in blank, all in form and substance reasonably satisfactory to the Collateral Agent.

3.5 Voting; Distributions; Turnover

.

(a) Unless an Event of Default shall have occurred and be continuing and the Collateral Agent shall have given written notice to the Pledgors of the Collateral Agent's intent to exercise its rights under this Section 3.5(a) (it being acknowledged and agreed that the Collateral Agent shall not be required to deliver any such notice to a Pledgor that is the subject of a Bankruptcy Event):

(i) each Pledgor shall be entitled to exercise or refrain from exercising any and all voting and other consensual rights with respect to the Collateral; provided , however , that no vote with respect to the Collateral shall be cast, right exercised or other action taken which would be inconsistent with, or result in any violation of, any provision of any of this Agreement or any other Loan Document. Upon the occurrence and during the continuation of an Event of Default, and after written notice thereof delivered by the Collateral Agent to the Pledgors in accordance with the terms of this Agreement (it being acknowledged and agreed that the Collateral Agent shall not be required to deliver any such notice to a Pledgor that is the subject of a Bankruptcy Event), all voting and other rights of each Pledgor with respect to the Collateral which such Pledgor would otherwise be entitled to exercise pursuant to the terms of this Agreement or otherwise shall cease;

(ii) the Collateral Agent shall promptly execute and deliver (or cause to be executed and delivered) to each Pledgor all proxies, and other instruments as such Pledgor, at its sole cost and expense, may from time to time reasonably request for the purpose of enabling such Pledgor to exercise the voting and other consensual rights when and to the extent which it is entitled to exercise pursuant to clause (i) above; and

(iii) each Pledgor shall be entitled to receive and retain any and all dividends, interest and other distributions paid in respect of the Pledged Equity Interests for any purpose not inconsistent with the terms of this Agreement or the Loan Documents. To the extent that such

distributions are made in accordance with the terms of the Loan Documents, the further distribution or payment of such monies to any other Person shall not give rise to any claims or causes of action on the part of any Secured Party against a Pledgor seeking the return or disgorgement of any such distributions or other payments unless the distributions or payments involve or result from fraud or willful misconduct of such Pledgor.

(b) Upon the occurrence and during the continuation of an Event of Default, and upon delivery of written notice of the occurrence and continuation of such Event of Default, to the Pledgors, and after notice thereof from the Collateral Agent to the Borrower (it being acknowledged and agreed that the Collateral Agent shall not be required to deliver any such notice if the Borrower is the subject of a Bankruptcy Event):

(i) the Collateral Agent shall have the right, without notice to any Pledgor, to (A) transfer all or any portion of the Pledged Equity Interests to its name or the name of its nominee or agent and (B) subject to the terms of the Pledged Equity Interests, exchange any certificates or instruments representing such Pledged Equity Interests for certificates or instruments of smaller or larger denominations. In the event of a transfer pursuant to clause (A) of the immediately preceding sentence, the Collateral Agent shall within a reasonable period of time thereafter give each Pledgor notice of such transfer; provided , however , that (x) failure to give such notice shall have no effect on the rights of the Collateral Agent hereunder and (y) the Collateral Agent shall not be required to deliver any such notice to a Pledgor that is the subject of a Bankruptcy Event or the delivery of such notice is otherwise prohibited by applicable law;

(ii) all respective rights of the Pledgors to receive the dividends, interest and other distributions that they would otherwise be authorized to receive and retain pursuant to Section 3.5(a)(iii) shall cease, and all such rights shall thereupon become vested in the Collateral Agent who shall thereupon have the sole right to receive and hold as Pledged Equity Interests such dividends, interest and other distributions;

(iii) in order to permit the Collateral Agent to exercise the voting and other consensual rights which it may be entitled to exercise pursuant hereto and to receive all dividends and other distributions which it may be entitled to receive hereunder, in each case, in respect of the Pledged Equity Interests constituting Collateral: (1) each Pledgor shall promptly execute and deliver (or cause to be executed and delivered) to the Collateral Agent, at such Pledgor's sole cost and expense, all proxies, dividend payment orders and other instruments as the Collateral Agent may from time to time reasonably request and (2) each Pledgor acknowledges that the Collateral Agent may utilize the power of attorney set forth in Section 6.1 ; and

(iv) each Pledgor hereby authorizes and instructs the Borrower to comply with any instruction received by it from the Collateral Agent in writing that (x) states that an Event of Default has occurred and is continuing and (y) is otherwise in accordance with the terms of this Agreement, without any other or further instructions from such Pledgor.

(c) All distributions and other amounts which are received by a Pledgor contrary to the provisions of this Agreement shall be received in trust for the benefit of the Collateral Agent, shall be segregated from other funds of such Pledgor and shall be forthwith paid over to the Collateral Agent as Collateral in the same form as so received (with any necessary endorsement).

3.6 Authorization

. At any time after the occurrence and during the continuation of an Event of Default, each Pledgor hereby authorizes and directs the Borrower to (i) comply with any instructions received by it from the

Collateral Agent in writing that (x) states that an Event of Default has occurred and is continuing and (y) is otherwise in accordance with the terms of this Agreement, without any other or further instructions from such Pledgor, and (ii) unless otherwise expressly permitted hereby, pay any dividend or other payments in respect of the Collateral directly to the Collateral Agent. The Company hereby agrees that the provisions of this Section 3.6 shall apply to it with respect to all actions that may be required of it pursuant to such Section.

SECTION 4. REPRESENTATIONS AND WARRANTIES.

4.1 Generally

. Each Pledgor hereby represents and warrants, on the Closing Date, that:

(a) it has indicated on Schedule 4.1(A) : (i) its full legal name, (ii) its type of organization, (iii) its jurisdiction of organization and (iv) the location of its chief executive office or sole place of business or principal residence, as the case may be;

(b) it has no trade names other than as listed on Schedule 4.1(B) ; and

(c) except as provided on Schedule 4.1(C) , it has not changed its name, jurisdiction or form of organization or the location of its chief executive office or sole place of business or principal residence, as the case may be, in any way since the date of its formation.

(d) Schedule 1 sets forth under the heading “Pledged Equity Interests” all of the Pledged Equity Interests owned by such Pledgor, and such Pledged Equity Interests constitute the percentage of issued and outstanding Equity Interests or percentage of beneficial interest of the respective issuers thereof indicated on such Schedule 1 ; and

(e) each of the Pledged Equity Interests pledged by the Pledgors hereunder on Schedule 1 constitutes a “security” under Section 8-103 of the UCC or the corresponding code or statute of any other applicable jurisdiction and each such “security” is a Certificated Security.

SECTION 5. COVENANTS.

Each Pledgor hereby respectively covenants and agrees (each on its own behalf) from and after the Closing Date until the termination of this Agreement in accordance with the provisions of Section 12 :

5.1 Further Assurances .

(a) Each Pledgor agrees that from time to time, at its sole cost and expense, upon its receipt of a written request therefor from the Collateral Agent, it shall promptly execute and deliver all further instruments and documents, and take all further action, that may be necessary in order to (x) create and/or maintain the validity and perfection of and otherwise protect any security interest in Collateral granted hereby or (y) enable the Collateral Agent to exercise and enforce its rights and remedies hereunder with respect to any Collateral. Without limiting the generality of the foregoing, each Pledgor shall maintain the Liens created by this Agreement as a perfected security interest prior and superior in right to any other Person except Liens permitted under the Loan Documents, and, upon the reasonable written request of the Collateral Agent, execute and deliver such other agreements, instruments, endorsements, powers of attorney or notices as are necessary, or as the Collateral Agent may reasonably request, to grant, preserve, protect, reflect and perfect the security interests granted or purported to be granted hereby. For the avoidance of doubt, nothing herein shall require the Collateral Agent to file financing statements or continuation statements, or be responsible for maintaining the security interests

purported to be created as described herein (except for the safe custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder or under any other Loan Document) and such responsibility shall be solely that of the Borrower.

(b) Each Pledgor hereby authorizes the Collateral Agent to file a Record or Records, including, without limitation, financing or continuation statements, intellectual property security agreements and amendments thereto, in any jurisdictions and with any filing offices as the Collateral Agent may reasonably determine, are necessary or advisable to perfect the security interest granted to the Collateral Agent herein. Such financing statements may describe the Collateral in the same manner as described herein or may contain an indication or description of collateral that describes such property in any other manner as the Collateral Agent may reasonably determine, are necessary, advisable or prudent to ensure the perfection of the security interest in the Collateral granted to the Collateral Agent herein, including, without limitation, describing such property as "all assets" or "all personal property, whether now owned or hereafter acquired." The Collateral Agent shall have no responsibility for or liability with respect to monitoring the compliance of any other party to the Loan Documents, this Agreement or any other document related hereto or thereto. The Collateral Agent has no duty to monitor the value or rating of any of the Collateral on an ongoing basis.

5.2 Certificates and Instruments

. Each Pledgor hereby covenants and agrees that, if such Pledgor shall become entitled to receive or shall receive any certificate (including, without limitation, any certificate representing a dividend or a distribution in connection with any reclassification, increase or reduction of capital or any certificate issued in connection with any reorganization), option or rights in respect of the Pledged Equity Interests, whether in addition to, in substitution of, as a conversion of, or in exchange for, any shares of the Pledged Equity Interests, or otherwise in respect thereof, such Pledgor shall accept the same as the agent of the Collateral Agent, hold the same in trust for the Collateral Agent and deliver the same forthwith to the Collateral Agent in the exact form received, duly indorsed by such Pledgor to the Collateral Agent, if required, together with an undated stock power covering such certificate duly executed in blank by such Pledgor, to be held by the Collateral Agent, subject to the terms hereof, as additional collateral security for the Pledgor Obligations. Unless otherwise consented to by the Collateral Agent, Pledged Equity Interests required to be pledged hereunder shall be represented by a certificate and, in the Organizational Documents of the applicable Subsidiary, the applicable Pledgor shall cause the issuer of such interests to elect to treat such interests as a "security" within the meaning of Article 8 of the Uniform Commercial Code of its jurisdiction of organization (and all certificates representing such Pledged Equity Interests (and any additional Pledged Equity Interests acquired or issued after the Closing Date) shall have been delivered to the Collateral Agent, together with duly executed instruments of transfer or assignment in blank).

5.3 Records; Statements and Schedules

. Each Pledgor shall keep and maintain, at its own cost and expense, records of the Collateral owned by it, including records of all payments received with respect thereto, and it shall make the same available to the Collateral Agent for inspection at such Pledgor's chief executive office, at its own cost and expense upon reasonable notice (except after the occurrence and during the continuance of an Event of Default), at any time during normal business hours. Each Pledgor shall furnish to the Collateral Agent from time to time statements and schedules further identifying and describing the Collateral and such other reports in connection with the Collateral as the Collateral Agent may reasonably request, all in reasonable detail; provided that, so long as no Event of Default shall have occurred and be continuing, the Collateral Agent may not request updated schedules pursuant to this Section 5.3 more frequently than twice per calendar year.

5.4 Notices

. Each Pledgor shall promptly upon a Responsible Officer of such Pledgor obtaining actual knowledge of the occurrence of any Event of Default relating solely to such Pledgor, furnish to the Collateral Agent a notice of such event describing the same in reasonable detail.

5.5 Filing Fees

. Each Pledgor shall pay any applicable filing fees and related expenses in connection with any filing made by the Collateral Agent in accordance with Section 5.1(b) .

5.6 Bankruptcy; Dissolution

. Holding shall not authorize or permit the Borrower to:

(a) except upon compliance with the requirements of the Organizational Documents of the Borrower as in effect on the date hereof, (i) commence a voluntary case or other proceeding seeking liquidation, reorganization or other relief with respect to the Borrower or its debts under Bankruptcy Law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of such Subsidiary or any substantial part of the Borrower's property, (ii) consent to any such relief or to the appointment of or taking possession by any such official in an involuntary case or other proceeding commenced against the Borrower or (iii) make a general assignment for the benefit of the Borrower's creditors;

(b) commence or join with any other Person (other than the Collateral Agent and the other Secured Parties) in commencing any proceeding against the Borrower under the U.S. Bankruptcy Code or statute now or hereafter in effect in any jurisdiction; or

(c) except as permitted by the Loan Documents, liquidate, wind-up or dissolve, or sell or lease or otherwise transfer or dispose of all or any substantial part of its property, assets or business or combine, merge or consolidate with or into any other entity, or change its legal form, or implement any material acquisition or purchase of assets from any Person.

5.7 Compliance with Organizational Documents of the Company

. Holding shall comply in all material respects with its obligations under the Operating Agreement and Organizational Documents of the Borrower.

SECTION 6. COLLATERAL AGENT APPOINTED ATTORNEY-IN-FACT.

6.1 Power of Attorney

. Each Pledgor hereby irrevocably constitutes and appoints the Collateral Agent, acting for and on behalf of itself and the other Secured Parties and each successor or assign of the Collateral Agent as its true and lawful attorney-in-fact, with full power and authority in the place and stead of such Pledgor and in the name of such Pledgor or in its own name, at such Pledgor's sole cost and expense, subject to the terms of this Agreement and applicable Legal Requirements, to enforce all rights, interests and remedies of such Pledgor with respect to the Collateral upon the occurrence and during the continuation of an Event of Default, for the purpose of carrying out the provisions of this Agreement, including the right to:

(i) ask, demand, collect, sue for, recover, receive and give receipt and discharge for amounts due and to become due under and in respect of all or any part of the Collateral,

(ii) in the name of such Pledgor or its own name or otherwise, take possession of, receive and indorse and collect any check, draft, note, acceptance or other Instrument (as defined in Article 9 of the UCC) for the payment of moneys due under any general intangible, in each case, constituting Collateral,

(iii) file any claims or take any other action that the Collateral Agent may deem necessary or advisable for the collection of all or any part of the Collateral,

(iv) pay or discharge Taxes and Liens levied or placed on or threatened against the Collateral (other than Liens permitted by the Loan Documents), effect any repair or pay or discharge any insurance called for by the terms of this Agreement or the other Loan Documents (including all or any part of the premiums therefor and the costs thereof),

(v) execute, in connection with any sale or disposition of the Collateral under this Agreement, any endorsements, assignments, bills of sale or other instruments of conveyance or transfer with respect to all or any part of the Collateral,

(vi) direct any party liable for any payment under any Collateral to make payment of any moneys due or to become due thereunder directly to the Collateral Agent or as the Collateral Agent shall direct,

(vii) commence and prosecute any suit, action or proceeding at law or in equity in any court of competent jurisdiction to collect any Collateral and to enforce any other right with respect to any Collateral,

(viii) defend any suit, action or proceeding brought against such Pledgor with respect to any Collateral,

(ix) settle, compromise or adjust any such suit, action or proceeding with respect to the Collateral and, in connection therewith, give such discharges or releases as the Collateral Agent may deem appropriate, and

(x) upon foreclosure, generally, sell, transfer, pledge and make any agreement with respect to or otherwise deal with any Collateral as fully and completely as though the Collateral Agent were the absolute owner thereof for all purposes, and do, at the Collateral Agent's option and such Pledgor's expense, at any time, or from time to time, all acts and things that the Collateral Agent reasonably deems necessary to protect, preserve or realize upon the Collateral and the Collateral Agent's and the other Secured Parties' Liens thereon and to effect the intent of this Agreement, all as fully and effectively as such Pledgor might do.

This appointment as attorney-in-fact is irrevocable and coupled with an interest.

6.2 No Duty on Part of Collateral Agent or Other Secured Parties

. The powers conferred on the Collateral Agent hereunder are solely to protect the interests of the Secured Parties in the Collateral and shall not impose any duty upon the Collateral Agent or any other Secured Party to exercise any such powers. The Collateral Agent and the other Secured Parties shall be accountable only for amounts that they actually receive as a result of the exercise of such powers, and neither they nor any of their officers, directors, employees or agents shall be responsible to the Pledgors for any act or failure to act hereunder, except in the case of their own gross negligence or willful misconduct, except in the case of their own gross negligence or willful misconduct.

SECTION 7. REMEDIES.

7.1 Generally

.

(a) If any Event of Default shall have occurred and be continuing, the Collateral Agent may exercise in respect of the Collateral, in addition to all other rights and remedies provided for herein or otherwise available to it at law or in equity, all the rights and remedies of the Collateral Agent on default under the UCC (whether or not the UCC applies to the affected Collateral) to collect, enforce or satisfy any Obligations then owing, whether by acceleration or otherwise, and also may pursue any of the following separately, successively or simultaneously:

(i) require the Pledgors to, and the Pledgors hereby agree that each Pledgor shall at its expense and promptly upon request of the Collateral Agent forthwith, assemble all or part of the Collateral as directed by the Collateral Agent and make it available to the Collateral Agent at a place to be designated by the Collateral Agent that is reasonably convenient to both parties;

(ii) enter onto the property where any Collateral is located and take possession thereof with or without judicial process; and

(iii) without notice except as specified below or under the UCC, sell, assign or otherwise dispose of the Collateral or any part thereof in one or more parcels at public or private sale, at any of the Collateral Agent's offices or elsewhere, for cash, on credit or for future delivery, at such time or times and at such price or prices and upon such other terms as the Collateral Agent in its reasonable discretion may deem commercially reasonable.

(b) The Collateral Agent or any other Secured Party may be the purchaser of any or all of the Collateral at any public or private (to the extent to the portion of the Collateral being privately sold is of a kind that is customarily sold on a recognized market or the subject of widely distributed standard price quotations) sale in accordance with the UCC and the Collateral Agent, as collateral agent for and representative of the Secured Parties, shall be entitled, for the purpose of bidding and making settlement or payment of the purchase price for all or any portion of the Collateral sold at any such sale made in accordance with the UCC, to use and apply any of the Pledgor Obligations as a credit on account of the purchase price for any Collateral payable by the Collateral Agent at such sale. Each purchaser at any such sale shall hold the property sold absolutely free from any claim or right on the part of any Pledgor, and each Pledgor hereby waives (to the extent permitted by applicable law) all rights of redemption, stay and/or appraisal which it now has or may at any time in the future have under any rule of law or statute now existing or hereafter enacted. Each Pledgor agrees that, to the extent notice of sale shall be required by law, at least 10 days' notice to such Pledgor of the time and place of any public sale or the time after which any private sale is to be made shall constitute reasonable notification. The Collateral Agent shall not be obligated to make any sale of Collateral regardless of notice of sale having been given. The Collateral Agent may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was so adjourned. Each Pledgor agrees that it would not be commercially unreasonable for the Collateral Agent to dispose of the Collateral or any portion thereof by using Internet sites that match buyers and sellers of assets. So long as such sale is conducted in a commercially reasonable manner, each Pledgor hereby waives any claims against the Collateral Agent arising by reason of the fact that the price at which any Collateral may have been sold at such a private sale was less than the price which might have been obtained at a public sale, even if the Collateral Agent accepts the first offer received and does not offer such Collateral to more than one offeree. If the proceeds of any sale or other disposition of the Collateral are insufficient to pay all the Obligations, each Pledgor

shall be liable for the deficiency and the reasonable fees of any attorneys employed by the Collateral Agent to collect such deficiency. Each Pledgor further agrees that a breach of any of the covenants contained in this Section 7.1 will cause irreparable injury to the Collateral Agent, that the Collateral Agent has no adequate remedy at law in respect of such breach and, as a consequence, that each and every covenant contained in this Section 7.1 shall be specifically enforceable against any Pledgor, and each Pledgor hereby waives and agrees not to assert any defenses against an action for specific performance of such covenants except for a defense that no default has occurred giving rise to the Obligations becoming due and payable prior to their stated maturities. Nothing in this Section 7.1 shall in any way alter the rights of the Collateral Agent hereunder.

(c) The Collateral Agent may sell the Collateral without giving any warranties as to the Collateral. The Collateral Agent may specifically disclaim or modify any warranties of title or the like. This procedure will not be considered to adversely affect the commercial reasonableness of any sale of the Collateral.

(d) The Collateral Agent shall have no obligation to marshal any of the Collateral.

7.2 Application of Proceeds

.

(a) Any Proceeds constituting Collateral to be applied by the Collateral Agent pursuant to the Loan Documents upon the occurrence and during the continuation of an Event of Default and in connection with the enforcement, collection or realization in respect of any Collateral by the Collateral Agent, shall be applied in the following order:

(i) First , to pay incurred and unpaid fees and expenses of the Agents under the Loan Documents;

(ii) Second , to the Collateral Agent, for application by it towards payment, without duplication, of (x) all interest, breakage costs and fees then due and payable under the Loan Documents and (y) any ordinary course settlement payments and any interest due and payable to any Specified Swap Counterparty under any Secured Swap Agreements, pro rata among the Secured Parties according to the amounts of such Obligations then due and owing and remaining unpaid to the Secured Parties ;

(iii) Third , to the Collateral Agent, for application by it towards payment, without duplication, of (x) all principal and premium (if any) then due and payable under the Loan Documents and (y) any termination payments payable to any Specified Swap Counterparty under any Secured Swap Agreements , pro rata among the Secured Parties according to the amounts of such Obligations then due and owing and remaining unpaid to the Secured Parties ;

(iv) Fourth , to the Collateral Agent, on a pro rata basis, for application by it towards payment of all other Obligations due and owing and remaining unpaid to the Secured Parties under the Loan Documents and the Secured Swap Agreements ; and

(v) Fifth , any balance remaining after the Discharge of the Obligations shall be paid over to the applicable Pledgor or to whomsoever may be lawfully entitled to receive the same.

Notwithstanding the foregoing, no amounts received from any Pledgor shall be applied to any Excluded Swap Obligations of such Pledgor.

(b) No sale or other disposition of all or any part of the Collateral pursuant to Section 7.1 shall be deemed to relieve any Pledgor of its obligations under any Loan Document except to the extent the proceeds thereof are applied to the payment of such obligations.

7.3 Sales on Credit

. If the Collateral Agent sells any of the Collateral upon credit, the applicable Pledgor will be credited only with payments actually made by the purchaser and received by the Collateral Agent and applied to indebtedness of the purchaser. In the event the purchaser fails to pay for the Collateral, the Collateral Agent may resell the Collateral and such Pledgor shall be credited with proceeds of the sale.

7.4 Pledged Equity Interests

. Each Pledgor recognizes that the Collateral Agent may be unable to effect a public sale of any or all the Pledged Equity Interests, by reason of certain prohibitions contained in the Securities Act and applicable state securities laws or otherwise, and may be compelled to resort to one or more private sales thereof to a restricted group of purchasers which will be obliged to agree, among other things, to acquire the Pledged Equity Interests for their own account for investment and not with a view to the distribution or resale thereof. Each Pledgor acknowledges and agrees that any such private sale may result in prices and other terms less favorable than those obtainable through a public sale without such restrictions (including a public offering made pursuant to a registration statement under the Securities Act) and, notwithstanding such circumstances, agrees that any such private sale shall be deemed to have been made in a commercially reasonable manner. The Collateral Agent shall be under no obligation to delay a sale of any of the Pledged Equity Interests for the period of time necessary to permit the issuer thereof to register such securities for public sale under the Securities Act, or under applicable state securities laws, even if such issuer would agree to do so. If the Collateral Agent exercises its right to sell any or all of the Pledged Equity Interests, upon written request, the applicable Pledgor shall and shall cause the issuer of such Pledged Equity Interests from time to time to furnish to the Collateral Agent all such information as the Collateral Agent may request in order to determine the number and nature of interest, shares or other instruments included in the Pledged Equity Interests which may be sold by the Collateral Agent in exempt transactions under the Securities Act and the rules and regulations of the SEC thereunder, as the same are from time to time in effect.

7.5 Enforcement Expenses

. (a) Each Pledgor agrees to pay or reimburse each Secured Party for all its reasonable and documented costs and expenses incurred in collecting against such Pledgor under the Guarantee contained in Section 2 or otherwise enforcing or protecting any rights under this Agreement, including, without limitation, the reasonable and documented fees and disbursements of counsel to the Collateral Agent and of any other necessary counsel.

(b) The agreement in this Section 7.5 shall survive the Discharge of the Obligations.

SECTION 8. AMENDMENTS

None of the terms or provisions of this Agreement may be waived, amended, supplemented or otherwise modified except pursuant to an agreement in writing entered into by each Pledgor and the Collateral Agent and otherwise in accordance with the Credit Agreement; provided , however , that, notwithstanding any provision of the Loan Documents to the contrary, any Schedule hereto may be amended or supplemented from time to time solely by written notice to the Collateral Agent from any Pledgor (and such amendment or supplement shall become effective upon delivery of any such notice).

SECTION 9. CONTINUING SECURITY INTEREST; TRANSFER OF ADVANCES.

This Agreement shall create a continuing security interest in the Collateral and shall remain in full force and effect until the Discharge of the Obligations, be binding upon each Pledgor, its successors and assigns, and inure, together with the rights and remedies of the Collateral Agent hereunder, to the benefit of the Collateral Agent and the Secured Parties and their successors, transferees and assigns.

SECTION 10. STANDARD OF CARE; COLLATERAL AGENT MAY PERFORM.

The powers conferred on the Collateral Agent hereunder are solely to protect its interest in the Collateral and shall not impose any duty upon it to exercise any such powers. Except for the exercise of reasonable care in the custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder and other requirements of law or the UCC, the Collateral Agent shall have no duty as to any Collateral or as to the taking of any necessary steps to preserve rights against prior parties or any other rights pertaining to any Collateral. To the extent permitted by law, the Collateral Agent shall be deemed to have exercised reasonable care in the custody and preservation of Collateral in its possession if such Collateral is accorded treatment substantially equal to that which the Collateral Agent accords its own property. Beyond the exercise of reasonable care in the custody thereof, the Collateral Agent shall have no duty as to any of the Collateral in its possession or control or in the possession or control of any agent or bailee or any income thereon or as to preservation of rights against prior parties or any other rights pertaining thereto, and the Collateral Agent shall not be responsible for filing any financing or continuation statements or recording any documents or instruments in any public office at any time or times or otherwise perfecting or maintaining the perfection of any security interest in the Collateral. Neither the Collateral Agent nor any of its directors, officers, employees or agents shall be liable for failure to demand, collect or realize upon all or any part of the Collateral or for any delay in doing so or shall be under any obligation to sell or otherwise dispose of any Collateral upon the request of a Pledgor or otherwise. If any Pledgor fails to perform any agreement contained herein, the Collateral Agent may itself perform, or cause performance of, such agreement, and the expenses of the Collateral Agent incurred in connection therewith shall be payable by such Pledgor or the Borrower under the Credit Agreement.

SECTION 11. NOTICES.

Any notice required or permitted to be given under this Agreement shall be given in accordance with the Credit Agreement.

SECTION 12. RELEASE

Upon the Discharge of the Obligations, and subject to Section 19 , the Collateral shall be automatically released from the Liens created hereby, and this Agreement and all obligations (other than those expressly stated to survive such termination) of the Collateral Agent and the Pledgors hereunder shall terminate, all without delivery of any instrument or performance of any act by any party, and all rights to the Collateral shall revert to the Pledgors. At the request and sole expense of any Pledgor following any such termination, the Collateral Agent shall deliver to such Pledgor any Collateral held by the Collateral Agent hereunder, and execute and deliver to such Pledgor such documents or otherwise authorize the filing of such documents as such Pledgor shall reasonably request to evidence such termination.

If any of the Collateral shall be sold, transferred or otherwise disposed of by a Pledgor in a transaction permitted by any Loan Document or consented to in accordance with the Loan Documents, then the Collateral Agent, at the request and at the sole expense of such Pledgor (with written confirmation from the Administrative Agent), shall execute and deliver to such Pledgor all releases or authorize the filing of other documents reasonably necessary or desirable for the release of the Liens created hereby on such Collateral; provided that such Pledgor shall have delivered to the Collateral Agent and the Administrative Agent, at least 5 Business Days prior to the date of the proposed release, a written request for release identifying the Collateral and the terms of the sale or other disposition in reasonable detail, including the price thereof and any expenses in connection therewith, together with a certification by such Pledgor stating that such transaction is in compliance with the Loan Documents and the Proceeds of such Collateral will be applied in accordance with the terms of the Loan Documents, if applicable.

SECTION 13. MISCELLANEOUS.

No failure or delay on the part of the Collateral Agent in the exercise of any power, right or privilege hereunder or under any other Loan Document shall impair such power, right or privilege or be construed to be a waiver of any default or acquiescence therein, nor shall any single or partial exercise of any such power, right or privilege preclude other or further exercise thereof or of any other power, right or privilege. All rights and remedies existing under this Agreement and the other Loan Documents are cumulative to, and not exclusive of, any rights or remedies otherwise available. In case any provision in or obligation under this Agreement shall be invalid, illegal or unenforceable in any jurisdiction, the validity, legality and enforceability of the remaining provisions or obligations, or of such provision or obligation in any other jurisdiction, shall not in any way be affected or impaired thereby. All covenants hereunder shall be given independent effect so that if a particular action or condition is not permitted by any of such covenants, the fact that it would be permitted by an exception to, or would otherwise be within the limitations of, another covenant shall not avoid the occurrence of a default or an event of default under the Loan Documents if such action is taken or condition exists. This Agreement shall be binding upon and inure to the benefit of the Collateral Agent and the Pledgors and their respective successors and assigns. No Pledgor shall, without the prior written consent of the Collateral Agent given in accordance with the Credit Agreement, assign any right, duty or obligation hereunder. There are no unwritten oral agreements between the parties. This Agreement may be executed in one or more counterparts and by different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. Delivery of an executed counterpart of a signature page of this Agreement or any document or instrument delivered in connection herewith by facsimile or other electronic delivery (including by certified electronic signature) shall be effective as delivery of a manually executed counterpart of this Agreement or such other document or instrument, as applicable.

Each Pledgor's waiver of rights or agreements in respect of Collateral, the exercise of remedies, standards of care, notice and the other matters covered by Sections 2 through 7 are in each case qualified that such waivers or agreements are being made to the fullest extent permitted by law.

SECTION 14. ACKNOWLEDGEMENTS.

Each Pledgor hereby acknowledges that (a) it has been advised by counsel in the negotiation, execution and delivery of this Agreement and the other Loan Documents to which it is a party; (b) neither the Collateral Agent nor any Secured Party has any fiduciary relationship with or duty to any Pledgor arising out of or in connection with this Agreement or any of the other Loan Documents, and the relationship between each Pledgor, on the one hand, and the Collateral Agent and Secured Parties, on the other hand, in connection herewith or therewith is solely that of debtor and creditor and (c) no joint venture is created hereby or by the other Loan Documents or otherwise exists by virtue of the transactions contemplated hereby among the Secured Parties or among the Pledgors and the Secured Parties.

SECTION 15. HEADINGS.

Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and are not to affect the construction of, or to be taken into consideration in interpreting, this Agreement.

SECTION 16. APPLICABLE LAW.

THIS AGREEMENT SHALL BE GOVERNED BY, AND SHALL BE CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

SECTION 17. CONSENT TO JURISDICTION; CONSENT TO SERVICE OF PROCESS

Each party hereto hereby irrevocably and unconditionally submits, for itself and its property, to the exclusive jurisdiction of any New York state court or federal court of the United States of America sitting in the County and City of New York, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York state court or, to the extent permitted by law, in such federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Each party hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement in any New York state or federal court. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

Each party hereto further irrevocably consents to the service of process in any action or proceeding in such courts by the mailing thereof by any parties thereto by registered or certified mail, postage prepaid, to such party at its address specified in Section 11 . Nothing herein shall affect the right to serve process in any other manner permitted by law.

SECTION 18. WAIVER OF JURY TRIAL.

EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION 18 .

SECTION 19. REINSTATEMENT.

This Agreement and the Liens created hereunder shall automatically be reinstated if and to the extent that for any reason any payment by or on behalf of any Pledgor in respect of the Pledgor Obligations is rescinded or must otherwise be restored by any Secured Party, whether as a result of any Bankruptcy Event or reorganization or otherwise, and each Pledgor shall indemnify the Collateral Agent, each other Secured Party and their respective employees, officers and agents on demand for all reasonable fees, costs and expenses (including reasonable fees, costs and expenses of counsel) incurred by the Collateral Agent, such other Secured Party or their respective employees, officers or agents in connection with such reinstatement, rescission or restoration.

SECTION 20. COLLATERAL AGENT.

Notwithstanding anything herein to the contrary, the Collateral Agent shall be afforded all of the rights, powers, immunities and indemnities of the Collateral Agent set forth in the Credit Agreement and the other Loan Documents, as if such rights, powers, immunities and indemnities were specifically set forth herein. Each Pledgor hereby acknowledges the appointment of the Collateral Agent pursuant to the Credit Agreement. The rights, privileges, protections and benefits given to the Collateral Agent, including its right to be indemnified, are extended to, and shall be enforceable by, the Collateral Agent in its capacity hereunder, and to each agent, custodian and other Person employed by the Collateral Agent in accordance herewith to act hereunder.

SECTION 21. SECURITY INTEREST ABSOLUTE.

All rights of the Collateral Agent hereunder, the grant of a security interest in the Collateral and all obligations of the Pledgors hereunder shall be absolute and unconditional irrespective of (a) any lack of validity or enforceability of any Loan Document, (b) any change in the time, manner or place of payment of, or in any other term of, all or any of the Borrower Obligations or the Pledgor Obligations, or any other amendment or waiver of or any consent to any departure from any Loan Document, (c) any exchange, release or non-perfection of any security on any collateral, or any release or amendment or waiver of or consent under or departure from any guarantee, securing or guaranteeing all or any of the Borrower Obligations or the Pledgor Obligations, or (d) any other circumstance that might otherwise constitute a defense available to, or a discharge of, any Pledgor in respect of the Borrower Obligations or the Pledgor Obligations or this Agreement (other than the payment in full of all of the Pledgor Obligations or the benefit of any statute of limitations affecting any Pledgor's obligations hereunder or the enforcement thereof).

SECTION 22. LIMITED LIABILITY.

Notwithstanding anything in this Agreement or the other Loan Documents to the contrary, none of the Secured Parties shall have any claims with respect to the transactions contemplated hereunder or thereunder against any past, present or future holder (whether direct or indirect) of any Equity Interests in any Pledgor or any of its subsidiaries or Affiliates (other than the Loan Parties), shareholders, officers, incorporators, directors, employees, representatives, Controlling persons, executives or agents (collectively, the " Nonrecourse Persons "), such claims against the Nonrecourse Persons (including as may arise by operation of law) being expressly waived hereby; provided that the foregoing shall not (a) constitute a waiver, release or discharge (or otherwise impair the enforceability) of any of the Borrower Obligations or the Pledgor Obligations or of any of the terms, covenants, conditions or provisions of this Agreement or any other Loan Document and the same shall continue (subject to clause (d) below, but without personal liability of the Nonrecourse Persons) until fully paid, discharged, observed or performed; (b) constitute a waiver, release or discharge of any Lien or security interest purported to be created pursuant to this Agreement or any other Loan Documents (or otherwise impair the ability of any Secured Party to realize or foreclose upon any Collateral); (c) in any way limit or restrict any right or remedy of the Collateral Agent or any other Secured Party (or any assignee or beneficiary thereof or successor thereto) with respect to, and each of the Nonrecourse Persons shall remain fully liable to the extent that it would otherwise be liable for its own actions with respect to, any fraud (which shall not include innocent or negligent misrepresentation), willful misrepresentation or misappropriation of revenues, profits or proceeds from the Projects or any Collateral, that should or would have been paid as provided in the relevant Loan Document or paid or delivered to the Collateral Agent or any other Secured Party (or any assignee or beneficiary thereof or successor thereto) towards any payment required under any Loan Document; or (d) affect or diminish in any way or constitute a waiver, release or discharge of any obligation, covenant, or agreement made by any of the Nonrecourse Persons (or any security granted by the Nonrecourse Persons in support of the obligations of any Person) under any Loan Document (or as

security for the Borrower Obligations or the Pledgor Obligations), any Sponsor Guaranty or other agreement with any Secured Party. The limitations on recourse set forth in this Section 22 shall survive the Discharge of the Obligations and the performance of the Borrower Obligations and the Pledgor Obligations under the Loan Documents.

[*Signature pages follow.* **]**

IN WITNESS WHEREOF, each Pledgor and the Collateral Agent have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first written above.

None.

FORM OF
SOLVENCY CERTIFICATE

I, the undersigned, the [Chief Financial Officer] [title of other Financial Officer] of the Borrower (as defined below), **DO HEREBY CERTIFY** on behalf of the Borrower that:

1. This certificate is furnished pursuant to Section 4.01(k) of the Credit Agreement, dated as of November 28, 2017, among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Credit Agreement.

2. Immediately after giving effect to the Transactions, (a) the fair value of the assets (for the avoidance of doubt, calculated to include goodwill and other intangibles) of the Loan Parties and their Subsidiaries, on a consolidated basis, at a fair valuation, will exceed the debts and liabilities, direct, subordinated, contingent or otherwise, of the Loan Parties and their Subsidiaries, on a consolidated basis; (b) the present fair saleable value of the property of the Loan Parties and their Subsidiaries, on a consolidated basis, will be greater than the amount that will be required to pay the probable liabilities of the Loan Parties and their Subsidiaries, on a consolidated basis, on their debts and other liabilities, direct, subordinated, contingent or otherwise, as such debts and other liabilities become absolute and matured; (c) the Loan Parties and their Subsidiaries, on a consolidated basis, will be able to pay their debts and liabilities, direct, subordinated, contingent or otherwise, as such debts and liabilities become absolute and matured; and (d) the Loan Parties and their Subsidiaries, on a consolidated basis will not have unreasonably small capital with which to conduct the businesses in which they are engaged as such businesses are now conducted and are proposed to be conducted following the Closing Date.

3. The Borrower does not intend to incur debts beyond its ability to pay such debts as they mature, taking into account the timing and amounts of cash to be received by it, and the timing and amounts of cash to be payable on or in respect of its Indebtedness.

FORM OF ECF SWEEP DATE CERTIFICATE

[DATE]

Pursuant to Section 5.04(e) of that certain Credit Agreement, dated as of November 28, 2017 (as amended, restated, amended and restated, replaced, supplemented or otherwise modified from time to time, the " **Credit Agreement** "; capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Credit Agreement), among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "),the Lenders party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as administrative agent for the Lenders (in such capacity, including any successor thereto in such capacity, the " **Administrative Agent** "), WILMINGTON TRUST, NATIONAL ASSOCIATION, as collateral agent for the Lenders (in such capacity, including any successor thereto in such capacity, the " **Collateral Agent** "), and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank, the undersigned hereby certifies that he or she is the [INSERT title of Financial Officer] of the Borrower, and certifies in such capacity, and not in his or her individual capacity, that Excess Cash Flow for the Excess Cash Flow Period ending on [_____] [1] (the " **Subject Excess Cash Flow Period** ") is $[_____], which amount represents all funds on deposit in the Revenue Account as of the end of such Excess Cash Flow Period.

This ECF Sweep Date Certificate shall also serve as notice of prepayment pursuant to Section 2.08 in the amount of Excess Cash Flow set forth above.

As of the end of the Subject Excess Cash Flow Period:

1. The product of (i) The Applicable ECF Percentage and (ii) Excess Cash Flow for the Excess Cash Flow Period is U.S. $_____.
2. The outstanding principal amount of Loans is U.S. $_____.
3. [The outstanding and unpaid principal amount of Credit Support Reimbursement Obligations is U.S. $_____.] [2]
4. The amount allocated to Loans is U.S. $_____.
5. [The amount allocated to Credit Support Reimbursement Obligations is U.S. $_____.] [3]
6. [The Target Balance Prepayment Amount is U.S. $_____.] To be inserted for Quarterly Dates from and after May 2022.

---

[1] To be the Excess Cash Flow Period most recently ended as of the date of this certificate.

[2] Pursuant to the proviso in Section 2.19(c)(vii) of the Credit Agreement, please insert the description of any Credit Support Reimbursement Obligations outstanding for twelve (12) Quarterly Dates after the incurrence of such Credit Support Reimbursement Obligations, if applicable.

[3] To be inserted if applicable.

The Borrower hereby gives notice of a prepayment of Loans as follows with all amounts in the ECF Prepayment Account: [5]

For a prepayment by Borrower,

1. (select Type(s) of Loans)

   Base Rate Loans in the aggregate principal amount of U.S. $_____.

   LIBOR Loans with an Interest Period ending _____, 20__ in the aggregate principal amount of U.S. $_____.

2. On _____, 20__ (a Business Day).

This ECF Sweep Date Certificate and prepayment contemplated hereby comply with the Credit Agreement, including Section 2.09 of the Credit Agreement.

[*Signature Page Follows*]

---

[5] To be inserted only for ECF Sweep Dates.

IN WITNESS WHEREOF, the Borrower has caused this Certificate to be executed by one of their Financial Officers as of the date and year first above written.

FORM OF QUARTERLY DATE CERTIFICATE

[DATE]

Pursuant to Section 5.04(c) of that certain Credit Agreement, dated as of November 28, 2017 (as amended, restated, amended and restated, replaced, supplemented or otherwise modified from time to time, the " **Credit Agreement** "; capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Credit Agreement), among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "),the Lenders party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as administrative agent for the Lenders (in such capacity, including any successor thereto in such capacity, the " **Administrative Agent** "), WILMINGTON TRUST, NATIONAL ASSOCIATION, as collateral agent for the Lenders (in such capacity, including any successor thereto in such capacity, the " **Collateral Agent** "), and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank, the undersigned hereby certifies that he or she is the [INSERT title of Financial Officer] of one of the Borrower, and certifies in such capacity, and not in his or her individual capacity, as follows with respect to the Quarterly Date occurring on [_____] (the " **Subject Quarterly Date** "):

1. No Event of Default or Default has occurred and is continuing as of the date hereof,
except as set forth in a separate attachment, if any, to this Quarterly Date Certificate, specifying the nature and extent thereof and the corrective action taken or proposed to be taken with respect thereto by the Borrower;

2. Annex A hereto sets forth the Borrower's calculation of Available Cash for the Test Quarter ended on the Subject Quarterly Date;

3. Annex B hereto sets forth evidence of the current balances in each of the Depositary Accounts as of the Subject Quarterly Date; and

4. Annex C hereto sets forth the Borrower's calculation of the Financial Performance Covenant for the Test Period ended on the Subject Quarterly Date.

[***Signature Page Follows***]

IN WITNESS WHEREOF, the Borrower has caused this Certificate to be executed by one of its Financial Officers as of the date and year first above written.

Title:[INSERT title of Financial Officer]

Calculation of Available Cash

APPLICABLE TEST QUARTER ENDING [_____], 20[__] [1]

Available Cash:

The sum (without duplication) of all amounts the Borrower and Holding actually receive in cash during the applicable Test Quarter in the form of:

dividends or similar distributions or fees, whether on account of operations, management or maintenance or otherwise, in each case, from the Project Entities pursuant to the Project Level Financing Documents or otherwise: $_____

[1] To be the Test Quarter ended as of the Quarterly Date set forth in this Quarterly Date Certificate.

Annex B to
Quarterly Date Certificate

Evidence of Cash Balances in each Depositary Account

[*Separately attached*]

Annex C to
Quarterly Date Certificate

Compliance with Financial Performance Covenant

APPLICABLE TEST PERIOD ENDING [_____], 20[__] [1]

Debt Service Coverage Ratio:

Means, for the applicable Test Period, the ratio of:

(a) Cash Flow Available for Debt Service for the applicable Test Period: $_____

to :

(b) Debt Service for the applicable Test Period: $_____

Debt Service Coverage Ratio = (a) to (b): _____

Cash Flow Available for Debt Service:

Means, as of any date of determination:

(a) Available Cash for the Test Period most recently ended as of such date: $_____

Minus

(b) Operating Expenses for such Test Period paid (or directed to be paid pursuant to a withdrawal certificate) in cash pursuant to Section 2.19(c)(i) during such Test Period: $_____

Debt Service:

Means, for any period, the amount of:

Fees, interest (including, without duplication of interest amounts payable under the Credit Agreement, ordinary course settlement amounts payable by the Borrower under any Interest Rate Swap Agreement, net of ordinary course settlement amounts received by the Borrower thereunder during the relevant period) and Scheduled Amortization Payments of principal due and payable under the Loan Documents during such Test Period (excluding any such amounts due and payable on the Maturity Date): $_____

---

[1] To be the Test Period ended as of the Subject Quarterly Date.

[2] As set forth on Annex A for each Quarterly Date Certificate delivered in respect of the Test Quarters in the relevant Test Period.

FORM OF TERM LOAN NOTE

U.S. $_____ Dated: _____, 2017

FOR VALUE RECEIVED, the undersigned, EXGEN RENEWABLES IV, LLC (the " **Borrower** "), HEREBY PROMISES TO PAY to [NAME OF LENDER] (the " **Lender** ") at the office of the Administrative Agent as provided for by the Credit Agreement referred to below, for the account of the Lender or its applicable lending office or its registered assigns, the principal amount of the Loans (as defined below) owing to the Lender by the Borrower pursuant to the Credit Agreement dated as of November 28, 2017 (as amended, amended and restated, supplemented or otherwise modified from time to time, the " **Credit Agreement** "; terms defined therein, unless otherwise defined herein, being used herein as therein defined), among the Borrower, EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time and MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent, and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank, on the dates and in the principal amounts provided in the Credit Agreement.

The Borrower promises to pay to the Lender or its registered assigns interest on the unpaid principal amount of the Loan advanced to the Borrower from the date of such Loan, until such principal amount is paid in full, at such interest rates, and payable at such times, as are specified in the Credit Agreement.

Both principal and interest are payable in U.S. dollars to Morgan Stanley Senior Funding, Inc., as Administrative Agent, at 1300 Thames Street, 4th Floor, Thames Street Wharf, Baltimore, MD 21231, Attention: Administrative Agent, Email: [***], in immediately available funds. The Loan advanced to the Borrower and the maturity thereof, and all payments made on account of principal thereof, shall be recorded by the Lender and, prior to any transfer hereof, endorsed on the grid attached hereto, which is part of this promissory note (the " **Promissory Note** "); *provided, however* , that the failure of the Lender to make any such recordation or endorsement shall not affect the Obligations of the Borrower under this Promissory Note.

This Promissory Note is one of the Notes referred to in Section 2.07(d) of the Credit Agreement and is entitled to the benefits of the Credit Agreement. The Credit Agreement, among other things, (i) provides for the making of loans (the " **Loans** ") by the Lenders to or for the benefit of the Borrowers in an aggregate amount not to exceed at any time outstanding U.S. $850,000,000, the Indebtedness of the Borrower resulting from each such Loan being, on request of a Lender, evidenced by such promissory notes, and (ii) contains provisions for acceleration of the maturity hereof upon the happening of certain stated events and also for prepayments on account of principal hereof prior to the maturity hereof upon the terms and conditions therein specified. The Obligations of the Borrower under this Promissory Note and the other Loan Documents, and the Obligations of the other Loan Parties under the Loan Documents, are secured by the Collateral as provided in the Loan Documents.

The Borrower hereby irrevocably and unconditionally submits, for itself and its property, to the exclusive jurisdiction of any New York State court or federal court of the United States sitting in New York County, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Promissory Note or the other Loan Documents, or for recognition or enforcement of any judgment, and hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such federal court. The Borrower further irrevocably consents to the service of process in any action

or proceeding in such courts by the mailing thereof by any parties thereto by registered or certified mail, postage prepaid, to the Borrower at the address specified for the Loan Parties in Section 9.01(a) of the Credit Agreement. The Borrower agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Promissory Note shall affect any right that the Lender or Agent may otherwise have to bring any action or proceeding relating to this Promissory Note or the other Loan Documents against the Borrower or any other Loan Party or their properties in the courts of any jurisdiction in which the Borrower, the Loan Parties or their properties are located.

The Borrower hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Promissory Note or the other Loan Documents in any New York State or federal court sitting in New York County. The Borrower hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

This Promissory Note shall be governed by, and construed in accordance with, the law of the State of New York.

FORM OF TAX CERTIFICATE

Reference is made to the Credit Agreement dated as of November 28, 2017 (the " **Credit Agreement** "), among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent, and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Credit Agreement.

Pursuant to Section 2.15(e) of the Credit Agreement, [ ] (the " **Non-U.S. Lender** ") certifies that: [1]

I. The Non-U.S. Lender is not a "bank" (within the meaning of Section 881(c)(3)(A) of the Code).

II. The Non-U.S. is not a 10-percent shareholder of the Borrower (within the meaning of Section 881(c)(3)(B) or Section 871(h)(3)(B) of the Code).

III. The Non-U.S. Lender is not a controlled foreign corporation (as such term is defined in Section 881(c)(3)(C) of the Code) related to the Borrower (within the meaning of Section 864(d)(4) of the Code).

IV. The Non-U.S. Lender is the sole record and beneficial owner of the Loan(s) (as well as any Note(s) evidencing such Loan(s)) in respect of which it is providing this certificate.

---

[1] If the Non-U.S. Lender is an intermediary, a foreign partnership or other flow-through entity, the following adjustments shall be made.

A. The following representations shall be provided as applied to the direct or indirect partners, members or beneficial owners claiming the portfolio interest exemption:
   - the status in Clause II, and
   - the status in Clause III,

B. The following representations shall be provided as applied to the Non-U.S. Lender as well as the direct or indirect partners, members or beneficial owners claiming the portfolio interest exemption:
   - the status in Clause I.

C. The following representation shall be provided instead of the representation in Clause IV: The Non-U.S. Lender is the sole record owner of the Loan(s) (as well as any Note(s) evidencing such Loan(s)) in respect of which it is providing this certificate, and its direct or indirect partners/members are the sole beneficial owners of such Loan(s) (as well as any Note(s) evidencing such Loan(s)).

D. The Non-U.S. Lender shall provide a U.S. Internal Revenue Service Form W-8IMY (with U.S. Internal Revenue Service Form W-8BEN, W-8BEN-E or W-9, as applicable, from each of its partners/ members/beneficial owners).

E. Appropriate adjustments shall be made in the case of tiered intermediaries or tiered partnerships/ flow-through entities.

The Non-U.S. Lender has furnished the Administrative Agent and the Borrower with a certificate of its non-U.S. person status on U.S. Internal Revenue Service Form W-8BEN or W-8BEN-E or any subsequent versions thereof or successors thereto. By executing this certificate, the undersigned agrees that (1) if the information provided on this certificate changes, the undersigned shall promptly so inform the Borrower and the Administrative Agent, and (2) the undersigned shall have at all times furnished the Borrower and the Administrative Agent with a properly executed certificate in either the calendar year in which each payment is to be made to the Non-U.S. Lender, or in either of the two calendar years preceding such payments.

[***Signature Page Follows***]

IN WITNESS WHEREOF, the undersigned has duly executed this certificate.

Re: ExGen Renewables IV,

LLC Ladies and Gentlemen:

Reference is made to the Credit Agreement, dated as of November 28, 2017 (as amended, amended and restated, supplemented, replaced or otherwise modified and in effect from time to time, the " **Credit Agreement** "), among EXGEN RENEWABLES IV, LLC, a limited liability company organized under the laws of Delaware (the " **Borrower** "), EXGEN RENEWABLES IV HOLDING, LLC, a limited liability company organized under the laws of Delaware (" **Holding** "), the LENDERS party thereto from time to time, MORGAN STANLEY SENIOR FUNDING, INC., as Administrative Agent, WILMINGTON TRUST, NATIONAL ASSOCIATION, as Collateral Agent, and WILMINGTON TRUST, NATIONAL ASSOCIATION, as Depositary Bank. Capitalized terms used but not otherwise defined in this certificate (this " **Withdrawal Certificate** ") shall have the meanings assigned (whether directly or by reference to another agreement) to such terms in the Credit Agreement.

The undersigned is a Responsible Officer of the Borrower and is delivering this Withdrawal Certificate on behalf of the Borrower pursuant to Section **[** s **]** **[** 2.19(c) **]** **[** 2.19(d)(iii) **]** **[** 2.19(d)(iv) **]** **[** 2.19(e)(ii) **]** **[** 2.19(e)(iii) **]** **[** 2.19(f) **]** **[** 2.19(g) **]** **[** 2.19(h) **]** **[** 2.19(i) **]** of the Credit Agreement.

_____

[1] A copy of this Withdrawal Certificate must be received by the Depositary Agent and the Administrative Agent at least five Business Days prior to the proposed Withdrawal Date except as otherwise expressly provided in the Credit Agreement.

1. Revenue Account. The following transfers are requested to be made from the Revenue Account in accordance with this Withdrawal Certificate as set forth in greater detail in Part A of the attached Schedule I:

(a) **[** *From time to time as necessary* : **]** In accordance with Section 2.19(c)(i) of the Credit Agreement, we request that $ _____ be withdrawn and transferred to the applicable payees as set forth in greater detail in Part A of the attached Schedule I to pay Operating Expenses (and any Fees). Such amount requested equals the amount of Operating Expenses (and any Fees) that are due and have not yet been paid.

(b) **[** *On each Quarterly Date and otherwise from time to time as necessary* : **]** In accordance with Section 2.19(c)(ii) of the Credit Agreement, we request that: (x) $ _____ be withdrawn and transferred to the Administrative Agent as set forth in greater detail in Part A of the attached Schedule I , which amount requested equals the amount of interest and breakage costs on the Loans due and payable to the Lenders, and (y) $ _____ be withdrawn and transferred to each Specified Swap Counterparty as set forth in greater detail in Part A of the attached Schedule I , which amount requested equals the amount of scheduled ordinary course payments (but not termination payments) due and payable under Secured Swap Agreements.

(c) **[** *On each Quarterly Date* : **]** In accordance with Section 2.19(c)(iii) of the Credit Agreement, we request that: (x) $ _____ be withdrawn and transferred to the Administrative Agent as set forth in greater detail in Part A of the attached Schedule I , which amount requested equals the amount of principal of (including Scheduled Amortization Payments) and premium, if any, on the Loans due and payable to the Lenders, and (y) $ _____ be withdrawn and transferred to each Specified Swap Counterparty as set forth in greater detail in Part A of the attached Schedule I , which amount requested equals the amount of termination payments due and payable under Secured Swap Agreements.

(d) **[** *On each Quarterly Date and otherwise from time to time as necessary* : **]** In accordance with Section 2.19(c)(iv) of the Credit Agreement, we request that $ _____ be withdrawn to pay the applicable payees as set forth in greater detail in Part A of the attached Schedule I . Such amount requested equals the amount of indemnities and other amounts (other than interest, Fees, principal and premium) due to the Lenders under the Loan Documents.

(e) **[** *On each Quarterly Date, as necessary* : **]** In accordance with Section 2.19(c)(v) of the Credit Agreement, we request that $ _____ be withdrawn and transferred to the Debt Service Reserve Account. Such amount requested, together with the amount then on deposit in or credited to the Debt Service Reserve Account *plus* the aggregate guaranteed amount of each Sponsor Guaranty credited thereto and the aggregate Drawing Amount of each Account Letter of Credit credited thereto, equals the DSR Requirement Amount as of the Quarterly Date to which this Withdrawal Certificate relates. The undersigned hereby certifies that as of the Quarterly Date to which this Withdrawal Certificate relates, the DSR Requirement Amount for the six (6) month period following such Quarterly Date is $ [_____] and is based on the reasonable good faith projections of the Borrower.

(f) **[** *On each Quarterly Date, at the option of the Borrower* : **]** In accordance with Section 2.19(c)(vi) of the Credit Agreement, we request that $ _____ be withdrawn and transferred to the [Liquidity Reserve Account][and/or][Local Accounts]. Such amount requested, together with the amount then on deposit in the (x) Liquidity Reserve Account, after giving effect to such transfer, do not exceed the Liquidity Reserve Balance or (y) Liquidity Reserve Account together with the amount then on deposit in the Local Accounts, after giving effect to such transfer, do not exceed $30,000,000.

(g) **[** *On each Quarterly Date, as applicable* : **]** In accordance with Section 2.19(c)(vii)(A) of the Credit Agreement, we request that [(x)] $ _____ be withdrawn and transferred to the ECF Prepayment Account [and (y) $ _____ be withdrawn to pay the applicable payees as set forth in greater detail in Part A of the attached Schedule I to be applied to the payment or repayment of Credit Support Reimbursement Obligations]. Such amount requested equals the Applicable ECF Percentage of the remaining balance in the Revenue Account after all amounts have been withdrawn and transferred in accordance with Sections 2.19(c)(i) through 2.19(c)(vi) (as the case may be) of the Credit Agreement. [Such amounts are allocated pro rata (based on the aggregate amount of the outstanding principal of the Loans and the Credit Support Reimbursement Obligations then outstanding and unpaid on such Quarterly Date)].

(h) **[** *On each Quarterly Date, ending in May, as applicable, commencing May 2022* : **]** In accordance with Section 2.19(c)(vii)(B) of the Credit Agreement, we request that $ _____ be withdrawn and transferred to the ECF Prepayment Account. Such amount requested equals the Target Balance Prepayment Amount.

(h) **[** *On each ECF Sweep Date, commencing May 2022* : **]** In accordance with Section 2.19(c)(viii) of the Credit Agreement, we request that $ _____ be withdrawn and transferred to [ ] as set forth in greater detail in Part A of the attached Schedule I. Such amount requested equals all or a portion of the remaining funds in the Revenue Account after all amounts have been withdrawn and transferred in accordance with Sections 2.19(c)(i) through 2.19(c)(vii) (as the case may be) of the Credit Agreement. The Borrower certifies that no Default or Event of Default has occurred or is continuing.

2. Debt Service Reserve Account. The following transfers are requested to be made from the Debt Service Reserve Account in accordance with this Withdrawal Certificate as set forth in greater detail in Part B of the attached Schedule I :

(a) [*In the event there are Excess Reserve Amounts* :] In accordance with Section 2.19(d)(iii) of the Credit Agreement, we request that $_____ be withdrawn from the Debt Service Reserve Account and transferred to the Revenue Account pursuant to Section 2.19(d)(iii) . Such amount requested [equals the Excess Reserve Amount] [*If cash on deposit in the Debt Service Reserve Account is less than the Excess Reserve Amount* : does not exceed the Excess Reserve Amount] in accordance with Section 2.19(d)(iii) . The Borrower certifies that no Default or Event of Default has occurred or is continuing.

(b) In accordance with Section 2.19(d)(iv) of the Credit Agreement, we request that $_____ be withdrawn from the Debt Service Reserve Account and transferred to the Administrative Agent to pay:

(i.) **[** *If the funds on deposit in or credited to the Revenue Account are not anticipated to be, or are not, adequate to pay all amounts to be paid therefrom pursuant to Sections 2.19(c)(ii) of the Credit Agreement* : **]** **[** FIRST, interest, breakage costs and Fees then due and payable under the Loan Documents; and **]**

(ii) **[** *If the funds on deposit in or credited to the Revenue Account are not anticipated to be, or are not, adequate to pay all principal and premium, if any, pursuant to Section 2.19(c)(vi)* : **]** **[** SECOND, principal and premium (if any) then due and payable under the Loan Documents **].**

Such amount requested represents **[** an amount equal to the Debt Payment Deficiency **]** **[** the aggregate amount of funds on deposit or credited to the Debt Service Reserve Account **]** .

3. Liquidity Reserve Account. The following transfers are requested to be made from the Liquidity Reserve Account in accordance with this Withdrawal Certificate as set forth in greater detail in Part C of the attached Schedule I:

(a) [*In the event there are Excess Liquidity Reserve Amounts* :] In accordance with Section 2.19(e)(ii)(C) of the Credit Agreement, we request that $_____ be withdrawn from the Liquidity Reserve Account and transferred to the Revenue Account pursuant to Section 2.19(e)(ii)(C). Such amount requested [equals the Excess Liquidity Reserve Amount] [*If cash on deposit in the Liquidity Reserve Account is less than the Excess Liquidity Reserve Amount* : does not exceed the Excess Liquidity Reserve Amount] in accordance with Section 2.19(e)(ii)(C). The Borrower certifies that no Default or Event of Default has occurred or is continuing.

(b) [*In the event there is a Borrower Liquidity Shortfall or Project Liquidity Shortfall* :] In accordance with Section 2.19(e)(iii) of the Credit Agreement, we request that $ _____ be withdrawn from the Liquidity Account and [transferred to the Revenue Account. Such amount (together with any amounts transferred to the Revenue Account from the Local Accounts on such date) represents a Borrower Liquidity Shortfall] [transferred to the Persons as set forth in greater detail in Part C of the attached Schedule I. Such amount (together with any amounts transferred from the Local Accounts on such date) shall be used for application to the following Project Liquidity Shortfall: [*Insert reasonably detailed description* .]]

(c) In accordance with Section 2.19(e)(iii) of the Credit Agreement, we request that $ _____ be withdrawn from the Liquidity Account and transferred to the Local Account specified in greater detail in Part C of the attached Schedule I . Such amount shall be used for application to a Borrower Liquidity Shortfall or Project Liquidity Shortfall. After giving effect to such transfer, (1) the amount on deposit in the Liquidity Reserve Account shall not exceed the Liquidity Reserve Maximum Balance and (2) the aggregate amount on deposit in the Liquidity Reserve Account and the Local Accounts shall not exceed $30,000,000.

4. Equity Proceeds Account. In accordance with Section 2.19(g) of the Credit Agreement, we request that $ _____ be withdrawn from the Equity Proceeds Account and [transferred to [the Revenue Account][Debt Service Reserve Account][Liquidity Reserve Account][ECF Prepayment Account].] [transferred to the Persons as set forth in greater detail in Part D of the attached Schedule I. Such amount shall be used for a purpose permitted by the Credit Agreement and the other Loan Documents.]

---

5. ECF Prepayment Account. In accordance with Section 2.19(h) of the Credit Agreement, we request that $ _____ be withdrawn from the ECF Prepayment Account and transferred to the Administrative Agent for application to the mandatory prepayment of the Loans pursuant to Section 2.09(b). Such amount requested equals the balance in the ECF Prepayment Account.

6. Invasion of Accounts. (a) [*In the event the amounts on deposit in the Revenue Account are insufficient to make disbursements clauses 2.19(c)(ii) and (iii):* In accordance with Section 2.19(i) of the Credit Agreement, we request that $ _____ be withdrawn from the ECF Prepayment Account and transferred to the Revenue Account. Such amount requested shall be used to cover an insufficiency in the amounts on deposit in the Revenue Account to make disbursements in clauses 2.19(c)(ii) and (iii).]

(b) [*In the event the amounts on deposit in the Revenue Account and the ECF Prepayment Account are insufficient to make disbursements clauses 2.19(c)(ii) and (iii)* :] In accordance with Section 2.19(i) of the Credit Agreement, we request that $ _____ be withdrawn from the Liquidity Reserve Account and transferred to the Revenue Account. Such amount requested shall be used to cover an insufficiency in the amounts on deposit in the Revenue Account to make disbursements.

[*Signature page(s) follow.* **]**

IN WITNESS WHEREOF, the Borrower has caused this Withdrawal Certificate to be duly executed and delivered by a Responsible Officer of the Borrower as of the date first written above.

LLC, BAL Investment & Advisory, Inc. and Antrim Corporation, and (b) the other Investment Documents (as defined therein), in each case as amended, modified, supplemented and in effect on the Closing Date.

E. The " **AG Financing Documents** " are set forth below:
1. Bond Purchase Loan Agreement, dated as of December 1, 2014, by and between the Albany Dougherty Payroll Development Authority and Albany Green Energy, LLC, as amended, modified, supplemented and in effect on the Closing Date.
2. Each of (a) Lease Agreement, dated as of December 1, 2014, by and between the Albany Dougherty Payroll Development Authority and Albany Green Energy, LLC, and (b) the Bond, Bond Documents, Bond Resolution, Loan Documents, PILOT Agreement and Security Documents (as those terms are respectively defined therein), in each case as amended, modified, supplemented and in effect on the Closing Date.

F. The " **AVSR Financing Documents** " are set forth below:
1. Note Purchase Agreement, dated as of September 28, 2011, by and among the Federal Financing Bank, the Secretary of Energy (acting through the Department of Energy) and AV Solar Ranch 1, LLC, as amended, modified, supplemented and in effect on the Closing Date and the Future Advance Promissory Note, dated September 28, 2011.
2. Each of (a) Loan Guarantee Agreement, dated as of September 28, 2011, dated as of May 4, 2016, by and among AV Solar Ranch 1, LLC, the U.S. Department of Energy, as guarantor, and the U.S. Department of Energy, as loan servicer, and (b) the other Financing Documents (as defined therein), in each case as amended, modified, supplemented and in effect on the Closing Date.

G. The " **ExGen Renewables JV Agreements** " are set forth below:

1. Amended and Restated Limited Liability Company Agreement of ExGen Renewables Partners, LLC dated July 6, 2017 by and among ExGen Renewables Partners, LLC, ExGen Renewables Holdings, LLC, and John Hancock Life Insurance Company (U.S.A).

Schedule 1.01B - Material Other Indebtedness Documents

1. The Indebtedness and related obligations under the Existing Project Level Financing Documents set forth in Parts A - F of Schedule 1.01A.

2. Promissory Note, dated June 28, 2011, made by Denver Airport Solar, LLC to City and County of Denver
3. The Indebtedness and related obligations under the following agreements:

    a. Reimbursement Agreement, dated September 23, 2013, by and between Continental Wind, LLC and Exelon Generation Company, LLC
    b. Reimbursement Agreement, dated March 31, 2016, by and among Renewable Power Generation, LLC, Renewable Power Generation Holdings, LLC, and Exelon Generation Company, LLC
    c. Collateral Facility Agreement, dated September 30, 2016, by and among Exelon Generation Company, LLC, SolGen, LLC, SolGen Holding, LLC and each of the SolGen Projects
    d. Promissory Note, dated December 22, 2016, by and between Bluestem Wind Energy, LLC and Exelon Generation Company, LLC
    e. Reimbursement Agreement dated November 28, 2017, by and between Albany Green Energy, LLC and Exelon Generation Company, LLC.
    f. Reimbursement Agreement dated November 28, 2017, by and between ExGen Renewables IV, LLC and Exelon Generation Company, LLC.

Schedule 1.01C - Project Entities

1.	AV Solar Ranch Entities	Exelon AVSR Holding, LLC Exelon AVSR, LLC Exelon AVSR, LLC

Schedule 3.07(d) - Equity Interests

1. The Organizational Documents of Holding, the Borrower and its Subsidiaries.
2. The rights of EGRIV and Peach Power, Inc., as the owners of the Class A Membership Interest, and the rights of DCO Energy, LLC, as the owner of the Class B Membership Interest, under the Amended and Restated Limited Liability Company Agreement of Constellation DCO Albany Power Holdings, LLC, dated as of October 6, 2017.
3. The rights of ExGen Renewables IV, LLC under the Call Option Agreement dated as of October 6, 2017.
4. The rights of ExGen Renewables Holdings, LLC, as the Class A Member, and the rights of John Hancock Life Insurance Company, as the Class B Member, under the Amended and Restated Limited Liability Company Agreement of ExGen Renewable Partners, LLC dated July 6, 2017.
5. The rights of Bluestem Wind Energy Member, LLC, as the Class A Member, under the Amended and Restated Limited Liability Company Agreement of Bluestem Wind Energy Holdings, LLC dated as of December 22, 2016.
6. The rights of Homestead Windfarm LLC (as assignee from Columbia Windfarm, LLC), as the Class B Member, under the Amended and Restated Limited Liability Company Agreement of Oregon Trail Windfarm, LLC dated August 4, 2008.
7. The rights of Oregon International Holding, Inc., as the Class B Member, under the Amended and Restated Limited Liability Company Agreement Pacific Canyon Windfarm, LLC dated August 4, 2008.
8. The rights of Homestead Windfarm LLC (as assignee from Columbia Windfarm, LLC), as the Class B Member, under the Amended and Restated Limited Liability Company Agreement of Sand Ranch Windfarm, LLC dated August 4, 2008.
9. The rights of Pacific Trail Windfarm, LLC, as the Class B Member, under the Amended and Restated Limited Liability Company Agreement of Ward Butte Windfarm, LLC dated August 4, 2008.
10. The rights of Frank Mader and LaVonne Mader, as the Class B Members, under the Amended and Restated Limited Liability Company Agreement of Big Top, LLC dated October 21, 2008
11. The rights of Kent Madison and Shannon Madison, as the Class B Members, under the Amended and Restated Limited Liability Company Agreement of Butter Creek Power, LLC dated October 21, 2008.
12. The rights of Shannon Rust and Tim Rust, as the Class B Members, under the Amended and Restated Limited Liability Company Agreement of Wagon Trail, LLC dated October 21, 2008.
13. Option Agreement, dated March 31, 2016, between Exelon Generation Company, LLC and Wilmington Trust, National Association, as collateral agent.

14. Call Option Agreement, dated April 26, 2011, between Belectric Solarkraftwerke GmbH and Sacramento PV Energy, LLC.

15. Option Agreement, dated September 30, 2013, between Exelon Corporation and Wilmington Trust, National Association, as collateral agent.

Schedule 6.01(i) - Project Level Indebtedness

The Indebtedness incurred pursuant to the documents set forth in Parts A-F of Schedule 1.01A and the documents set forth in Part 2 of Schedule 1.01B.

Schedule 6.02(a) - Liens

To the extent qualifying as a Lien, the matters set forth in Section 3.07(d) applicable to the Loan Parties and the terms and limitations set forth in the Organizational Documents for the Loan Parties.

Schedule 6.07(b) - Transactions with Affiliates

Various Projects

The contracts listed in part 3 of Schedule 1.01B

Echo I

(Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Pacific Canyon Windfarm, LLC and Ward Butte Windfarm, LLC)

1. REC Transfer Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Sand Ranch Windfarm, LLC.
2. REC Transfer Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Oregon Trail Windfarm, LLC.
3. REC Transfer Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Pacific Canyon Windfarm, LLC.
4. REC Transfer Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Ward Butte Windfarm, LLC.
5. Construction Management Agreement, dated August 4, 2008, by and between Sand Ranch Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC)
6. Construction Management Agreement, dated August 4, 2008, by and between Oregon Trail Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).
7. Construction Management Agreement, dated August 4, 2008, by and between Pacific Canyon Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).
8. Construction Management Agreement, dated August 4, 2008, by and between Ward Butte Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).
9. Operation and Maintenance Management Agreement, dated August 4, 2008, by and between Sand Ranch Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).
10. Operation and Maintenance Management Agreement, dated August 4, 2008, by and between Oregon Trail Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

11. Operation and Maintenance Management Agreement, dated August 4, 2008, by and between Pacific Canyon Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

12. Operation and Maintenance Management Agreement, dated August 4, 2008, by and between Ward Butte Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

13. Engineering & Procurement Agreement, dated September 16, 2008, by and among PacifiCorp and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC) as Shared Facilities Manager appointed by Four Mile Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Four Corners Windfarm, LLC and Pacific Canyon Windfarm, LLC.

14. Commissioning and Final Completion Agreement, dated October 28, 2008, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

15. Service and Maintenance Agreement, dated October 28, 2008, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC), as amended by that First Amendment to Service and Maintenance Agreement, dated July 29, 2010.

16. Warranty Agreement, dated October 28, 2008, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

17. Service and Maintenance Agreement, dated June 1, 2014, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC.

18. 69 KV Power Line 69 kV Line Agreement, dated February 20, 2012, by and among Oregon Windfarms, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

19. Wind Turbine Lockout Agreement, dated February 14, 2012, by and among Sand Ranch Windfarm, LLC, and Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

---

20. Agreement Regarding Shared Interconnection Facilities, dated January 18, 2012, by and among PacifiCorp, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

21. Amended and Restated Assignment, Shared Premises, and Shared Facilities Agreement, dated October 21, 2008, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Big Top, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

22. Strategic Investment Program Agreement, dated December 17, 2008, by and among Morrow County, Umatilla County, Four Corners Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC and Wagon Trail, LLC.

23. Station Load, Losses and Net Output Allocation Algorithm for the Morrow Projects, dated January 2012, by and among Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and PacifiCorp.

24. Transmit Electricity Agreement, dated July 27, 2009, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Ward Butte Windfarm, LLC, Four Corners Windfarm, LLC, Pacific Canyon Windfarm, LLC, Wagon Trail, LLC, Big Top, LLC, Butter Creek Power, LLC, Sand Ranch Windfarm, LLC and Oregon Trail Windfarm, LLC.

25. Project Administration Agreement, dated August 4, 2008, by and between Sand Ranch Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

26. Project Administration Agreement, dated August 4, 2008, by and between Oregon Trail Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

27. Project Administration Agreement, dated August 4, 2008, by and between Pacific Canyon Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

28. Project Administration Agreement, dated August 4, 2008, by and between Ward Butte Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

29. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, by and among Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Sand Ranch Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

30. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, by and among Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Oregon Trail Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

31. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, by and among Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Pacific Canyon Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

32. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, by and among Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Ward Butte Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

33. Letter Agreement, dated August 3, 2013, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, and Exelon Wind, LLC.

34. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Oregon Trail Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

35. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Pacific Canyon Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

36. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Sand Ranch Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

37. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Ward Butte Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

Echo III

(Big Top, LLC, Butter Creek Power, LLC and Wagon Trail, LLC)

1. Construction Management Agreement, dated October 21, 2008, by and between Big Top, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

2. Construction Management Agreement, dated October 21, 2008, by and between Butter Creek Power, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

6. Operation and Maintenance Management Agreement, dated October 21, 2008, by and between Wagon Trail, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

7. Transmit Electricity Agreement, dated July 27, 2009, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Ward Butte Windfarm, LLC, Four Corners Windfarm, LLC, Pacific Canyon Windfarm, LLC, Wagon Trail, LLC, Big Top, LLC, Butter Creek Power, LLC, Sand Ranch Windfarm, LLC and Oregon Trail Windfarm, LLC.

8. Service and Maintenance Agreement, dated June 1, 2014, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC.

9. 69 KV Power Line 69 kV Line Agreement, dated February 20, 2012, by and among Oregon Windfarms, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

10. Wind Turbine Lockout Agreement, dated February 14, 2012, by and among Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

11. Agreement Regarding Shared Interconnection Facilities, dated January 18, 2012, by and among PacifiCorp, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, and Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

12. Commissioning and Final Completion Agreement, dated October 28, 2008, by and among Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC, Wagon Trail, LLC, Vestas-American Wind Technology, Inc. and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

---

13. Amended and Restated Assignment, Shared Premises, and Shared Facilities Agreement, dated October 21, 2008, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Big Top, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

14. Strategic Investment Program Agreement, dated December 17, 2008, by and among Morrow County, Umatilla County, Four Corners Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC and Wagon Trail, LLC.

15. Station Load, Losses and Net Output Allocation Algorithm for the Morrow Projects, dated January 2012, by and among Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and PacifiCorp.

16. Engineering & Procurement Agreement, dated September 16, 2008, by and between PacifiCorp and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC) as Shared Facilities Manager.

17. Balance of Plant Engineering and Construction Contract, dated July 23, 2008, by and between Exelon Wind, LLC (f/k/a John Deere Renewables, LLC) and Silvey Enterprises, Inc.

18. Project Administration Agreement, dated October 21, 2008, by and between Big Top, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

19. Project Administration Agreement, dated October 21, 2008, by and between Butter Creek Power, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

20. Project Administration Agreement, dated October 21, 2008, by and between Wagon Trail, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

21. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, and Big Top, LLC.

22. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, and Butter Creek Power, LLC.

23. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, and Wagon Trail, LLC.

Bluestem

1. Membership Interest Purchase and Equity Capital Contribution Agreement, dated December 22, 2016, by and among Bluestem Wind Energy Holdings, LLC, Exelon Wind, LLC, Bluestem Wind Energy Members, LLC, BAL Investment & Advisory, Inc. and Antrim Corporation.

2. Escrow Agreement, dated December 22, 2016, by and among Bluestem Wind Energy Member, LLC, Bluestem Wind Energy Holdings, LLC, BAL Investment & Advisory, Inc., Antrim Corporation and Wilmington Trust, National Association.

3. Global Services Agreement, dated December 22, 2016, by and among Bluestem Wind Energy Holdings, LLC, Bluestem Wind Energy, LLC and Exelon Generation Company, LLC.

4. Service Procurement Agreement, dated December 22, 2016, by and between Bluestem Wind Energy, LLC and Exelon Business Services Company, LLC.

5. Reimbursement Agreement, dated December 22, 2016, by and between Exelon Generation Company, LLC and Bluestem Wind Energy, LLC.

6. Assignment and Assumption Agreement, dated December 22, 2016, by and between Exelon Wind, LLC and Bluestem Wind Energy, LLC.

7. Promissory Note, dated December 22, 2016, by and between Bluestem Wind Energy, LLC and Exelon Generation Company, LLC.

Criterion

1. Shared Facilities Agreement, dated September 22, 2015, by and among Criterion Power Partners LLC, Fair Wind Power Partners, LLC and Exelon Wind, LLC.

Fourmile Wind

1. PTC Offtake Agreement, dated July 6, 2017, by and between Exelon Corporation and Fourmile Wind Energy, LLC.

Michigan Wind 1

1. Shared Facilities Agreement, dated September 27, 2013, by and between Michigan Wind 1, LLC and Michigan Wind 2, LLC.

2. Substation Site Easement Agreement, dated September 13, 2013, by and between Michigan Wind 1, LLC and Michigan Wind 2, LLC.

3. Management Services Agreement, dated May 1, 2007, by and between Harvest Wind Farm, LLC and Michigan Wind LLC.

4. Assignment of Amended and Restated Large Generator Interconnection Agreement, dated August 17, 2011, by and between Michigan Wind 1, LLC and Michigan Wind 2, LLC.

5. Consent to Assignment of Amended and Restated Large Interconnection Agreement, dated August 10, 2011, by and among Michigan Wind 1, LLC, Michigan Wind 2, LLC, International Transmission Company and Midwest Independent Transmission System Operator, Inc.

Sendero

1. PTC Offtake Agreement, dated July 6, 2017, by and between Exelon Corporation and Sendero Wind Energy, LLC.

Renewable Power Generation Projects

1. Service Procurement Agreement, dated March 31, 2016, by and between Renewable Power Generation, LLC and Exelon Business Services, LLC.

2. Global Management Services Agreement, dated March 31, 2016, by and between Renewable Power Generation, LLC and Exelon Generation Company, LLC.

3. PTC Offtake Agreement, dated March 31, 2016, by and between Exelon Generation Company, LLC and Renewable Power Generation, LLC.
4. PTC Option Agreement, dated March 31, 2016, by and between Exelon Generation Company, LLC and Renewable Power Generation, LLC.
5. Reimbursement Agreement (Insurance), dated March 31, 2016, by and between Exelon Generation Company and Renewable Power Generation, LLC.

6. Assignment and Assumption Agreement, dated March 31, 2016, by and between Exelon Wind, LLC and Renewable Power Generation, LLC (CG Power Systems USA, Inc.).

7. Assignment and Assumption Agreement, dated March 31, 2016, by and between Exelon Wind, LLC and Renewable Power Generation, LLC (Run Energy, L.P.).

Beebe 1B

1. Co-Tenancy, Shared Facilities and Easement Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable, LLC and Exelon Wind, LLC.

2. Substation Co-Tenancy, Shared Facilities and Easement Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable, LLC and Exelon Wind, LLC.

3. Build-Out Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable, LLC, and Exelon Wind, LLC.

4. Build-Out Agreement, dated August 9, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable, LLC, Beebe Renewable Energy 2, LLC and Exelon Wind, LLC.

5. Transmission Easement Agreement, dated July 19, 2013, by and between Beebe Renewable Energy, LLC and Beebe 1B Renewable Energy, LLC.

6. Interconnection Easement Agreement (Substation), dated July 19, 2013, by and between Beebe Renewable Energy, LLC and Beebe 1B Renewable Energy, LLC.

7. Shared Facilities Easement Agreement, dated July 19, 2013, by and between Beebe Renewable Energy, LLC and Beebe 1B Renewable Energy, LLC.

8. Wind Energy Project Sublease Agreement (Substation), dated July 19, 2013, by and between Beebe Renewable Energy, LLC and Beebe 1B Renewable Energy, LLC.

9. Substation Site Easement Agreement (Substation), dated July 19, 2013, by and between Beebe Renewable Energy, LLC and Beebe 1B Renewable Energy, LLC.

Cow Branch

1. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Wind Capital Holdings, LLC, CR Clearing, LLC, Cow Branch Wind Power, L.L.C. and Suzlon Wind Energy Corporation.

Conception (CR Clearing, LLC)

1. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Wind Capital Holdings, LLC, CR Clearing, LLC, Cow Branch Wind Power, L.L.C. and Suzlon Wind Energy Corporation.

Bluegrass (Wind Capital Holding, LLC)

1. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Wind Capital Holdings, LLC, CR Clearing, LLC, Cow Branch Wind Power, L.L.C. and Suzlon Wind Energy Corporation.

Threemile Canyon

1. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, and Threemile Canyon Wind I, LLC.

Solar Horizons

1. Operation and Maintenance Agreement, dated September 7, 2012, by and between Constellation Solar Horizons, LLC and Constellation NewEnergy, Inc., as amended by First Amendment to Operation and Maintenance Agreement, dated March 31, 2016.

Continental Wind Projects

1. Services Agreement, dated 2015, by and between Constellation Power Source Generation, LLC (acting as Exelon Industrial Services) and Continental Wind, LLC.

2. Global Management Services Agreement, dated June 14, 2013, by and between Continental Wind, LLC and Exelon Generation Company, LLC.

3. PTC Offtake Agreement, dated September 1, 2013, between Exelon Corporation and Continental Wind, LLC.

4. PTC Option Agreement, dated September 1, 2013, between Exelon Corporation and Continental Wind, LLC.

5. Assignment and Assumption Agreement, dated September 30, 2013, by and between Exelon Wind, LLC and Continental Wind, LLC.

6. Reimbursement Agreement (Insurance), dated September 23, 2013, by and between Exelon Generation Company and Continental Wind, LLC.

7. Assignment of Renewable Energy Purchase Agreement, dated September 30, 2013 , by and among Harvest II Windfarm, LLC, Beebe Renewable Energy, LLC, Michigan Wind 2, LLC,

Consumers Energy Company, Wilmington Trust, National Association, and Credit Agricole Corporate and Investment Bank.

Whitetail

1. Electricity Supply Agreement, dated August 10, 2012, by and between Whitetail Wind Energy, LLC and Constellation NewEnergy, Inc.

Michigan Wind 2

1. Shared Facilities Agreement, dated September 27, 2013, by and between Michigan Wind 1, LLC and Michigan Wind 2, LLC.

2. Assignment of Amended and Restated Large Generator Interconnection Agreement, dated August 17, 2011, by and between Michigan Wind 1, LLC and Michigan Wind 2, LLC.

3. Consent to Assignment of Amended and Restated Large Interconnection Agreement, dated August 10, 2011, by and among Michigan Wind 1, LLC, Michigan Wind 2, LLC, International Transmission Company and Midwest Independent Transmission System Operator, Inc.

Beebe 1A

1. Co-Tenancy, Shared Facilities and Easement Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable Energy, LLC and Exelon Wind, LLC.

2. Substation Co-Tenancy, Shared Facilities and Easement Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable Energy, LLC and Exelon Wind, LLC.

3. Build-Out Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable Energy, LLC and Exelon Wind, LLC.

4. Build-Out Agreement, dated August 9, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable Energy, LLC, Beebe Renewable Energy 2, LLC and Exelon Wind, LLC.

5. Wind Energy Project Sublease Agreement, dated July 19, 2013, by and among Beebe Renewable Energy, LLC, Beebe 1B Renewable, LLC and Exelon Wind, LLC.

Harvest and Harvest II

1. Amended and Restated Generator Interconnection Agreement, dated July 3, 2012, by and among Harvest Windfarm, LLC, International Transmission Company (dba ITC Transmission) and Midwest Independent Transmission System Operator, Inc., as assigned by that Assignment Agreement, dated September 18, 2012, by and between Harvest Windfarm, LLC and Harvest II Windfarm, LLC.

2. Shared Facilities Agreement, dated January 1, 2012, by and between Harvest Wind Farm, LLC and Harvest II Wind Farm, LLC.

3. Management Services Agreement, dated May 1, 2007, by and between Harvest Wind Farm, LLC and Michigan Wind LLC.

4. Performance Bond and Guaranty, dated April 30, 2012, made by Harvest II Windfarm, LLC and Exelon Generation Company, LLC in favor of Huron County.

Mountain Home

1. Generator Interconnection Agreement, dated September 13, 2007, by and among Bennett Creek Windfarm, LLC, Hot Springs Windfarm, LLC, and Idaho Power Company - Delivery.

2. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Suzlon Wind Energy Corporation, Bennett Creek Wind Farm, LLC, Cassia Gulch Wind Park LLC, Cassia Wind Farm LLC, Greensburg Wind Farm, LLC, Hot Springs Windfarm, LLC and Tuana Springs Energy, LLC.

High Mesa (High Mesa Energy, LLC)

1. Assignment and Assumption Agreement, dated September 30, 2013, by and among Exelon Wind, LLC, High Mesa Energy, LLC and Continental Wind, LLC.

2. Assignment and Assumption Agreement, dated August 30, 2012, by and between Exelon Wind, LLC and High Mesa Energy, LLC.

Cassia Wind Farm, LLC Cassia Gulch Wind Park, LLC and Tuana Springs, LLC

1. Generator Interconnection Agreement, dated February 11, 2009, by and among Cassia Gulch Wind Park, LLC, Cassia Wind Farm, LLC and Idaho Power Company - Delivery.

2. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Suzlon Wind Energy Corporation, Bennett Creek Wind Farm, LLC, Cassia Gulch Wind Park LLC, Cassia Wind Farm LLC, Greensburg Wind Farm, LLC, Hot Springs Windfarm, LLC and Tuana Springs Energy, LLC.

3. Assignment, Shared Premises and Shared Facilities Agreement, dated April 10, 2010, by and among Cassia Gulch Wind Park, LLC, Cassia Wind Farm, LLC, Tuana Springs Energy, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC), reference to which is made in that certain Memorandum of Assignment, Shared Premises and Shared Facilities Agreement, dated August 13, 2013 and recorded August 15, 2013.

4. Firm Energy Sales Agreement, dated August 5, 2009, by and between Cassia Gulch Wind Park LLC, Tuana Springs Energy, LLC and Idaho Power Company.

5. Generator Interconnection Agreement, dated February 26, 2010, among Cassia Gulch Wind Park, LLC, Tuana Springs Energy, LLC, and Idaho Power Company - Delivery.

Wildcat

1. Bond Purchase Agreement, dated March 23, 2012, by and between Wildcat Finance, LLC, Lea County, New Mexico and Wildcat Wind LLC.

Echo II

(Four Corners Windfarm, LLC and Four Mile Canyon Windfarm, LLC)

1. REC Sharing Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Four Corners Windfarm, LLC.

---

2. REC Sharing Agreement, dated August 4, 2008, by and between Oregon Windfarms, LLC and Four Mile Canyon Windfarm, LLC.

3. 69 KV Power Line 69 kV Line Agreement, dated February 20, 2012, by and among Oregon Windfarms, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

4. Wind Turbine Lockout Agreement, dated February 14, 2012, by and among Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, High Plateau Windfarm, LLC, Lower Ridge Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

5. Agreement Regarding Shared Interconnection Facilities, dated January 18, 2012, by and among PacifiCorp, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and Exelon Wind, LLC.

6. Amended and Restated Assignment, Shared Premises, and Shared Facilities Agreement, dated October 21, 2008, by and among Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, and Wagon Trail, LLC, Big Top, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

7. Strategic Investment Program Agreement, dated December 17, 2008, by and among Morrow County, Umatilla County, Four Corners Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Pacific Canyon Windfarm, LLC, Sand Ranch Windfarm, LLC, Ward Butte Windfarm, LLC, Oregon Trail Windfarm, LLC, Butter Creek Power, LLC, Big Top, LLC and Wagon Trail, LLC.

8. Station Load, Losses and Net Output Allocation Algorithm for the Morrow Projects, dated January 2012, by and among Sand Ranch Windfarm, LLC, Oregon Trail Windfarm, LLC, Ward Butte Windfarm, LLC, Pacific Canyon Windfarm, LLC, Four Mile Canyon Windfarm, LLC, Four Corners Windfarm, LLC, Big Top, LLC, Butter Creek Power, LLC, Wagon Trail, LLC, Lower Ridge Windfarm, LLC, High Plateau Windfarm, LLC, Mule Hollow Windfarm, LLC, Pine City Windfarm, LLC and PacifiCorp.

9. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, by and between Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Four Corners Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

---

10. Agreement for the Purchase and Sale of Renewable Energy Certificates, dated August 21, 2009, between Grey K Renewable Energy Limited, Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

11. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, and Four Mile Canyon Windfarm, LLC.

12. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, and Four Corners Windfarm, LLC.

13. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Four Mile Canyon Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

14. Assignment, Assumption, Consent and Release Agreement, dated August 16, 2017, by and among Grey K Renewable Energy Limited, Exelon Generation Company, LLC, Oregon Windfarms, LLC, Four Corners Windfarm, LLC, and Exelon Wind, LLC (f/k/a John Deere Renewables, LLC).

Greensburg

1. Master Maintenance and Service Agreement, dated April 1, 2015, by and among Suzlon Wind Energy Corporation, Bennett Creek Wind Farm, LLC, Cassia Gulch Wind Park LLC, Cassia Wind Farm LLC, Greensburg Wind Farm, LLC, Hot Springs Windfarm, LLC and Tuana Springs Energy, LLC.

Albany Green Energy Project

1. Operation and Maintenance Agreement, dated 2016, by and between Albany Green Energy, LLC and Exelon Generation Company, LLC.

2. Intercompany Steam Sales Agreement, dated September 30, 2016, by and between Albany Green Energy, LLC and Constellation NewEnergy, Inc.
3. Amended and Restated Operation and Maintenance Agreement, dated 2017, by and between Albany Green Energy, LLC and Exelon Generation Company, LLC.

4. Management Services Agreement, dated 2017, by and between Albany Green Energy, LLC and Exelon Generation Company, LLC.

5. Reimbursement Agreement (Insurance), dated 2017, by and between Exelon Generation Company, LLC and Albany Green Energy, LLC.

SolGen Projects

1. Operation and Maintenance Agreement, dated August 31, 2016, by and between California PV Energy, LLC and Constellation New Energy, Inc.

2. Operation and Maintenance Agreement, dated August 31, 2016, by and between Constellation Solar Arizona, LLC and Constellation New Energy, Inc.

3. Operation and Maintenance Agreement, dated August 31, 2016, by and between Constellation Solar Georgia, LLC and Constellation New Energy, Inc.

4. Operation and Maintenance Agreement, dated August 31, 2016, by and between Mohave Sunrise Solar I, LLC and Constellation New Energy, Inc.

5. Management Services Agreement, dated August 31, 2016, by and between SolGen, LLC and Constellation New Energy, Inc.

6. REC Marketing and Other Services Agreement, dated August 31, 2016, by and between SolGen, LLC and Exelon Generation Company, LLC.

7. Reimbursement Agreement, dated August 31, 2016, by and between SolGen, LLC and Exelon Generation Company, LLC.

8. Collateral Facility Agreement, dated September 30, 2016, by and among Exelon Generation Company, LLC, SolGen, LLC, SolGen Holding, LLC, and each of the SolGen Projects.

AV Solar Ranch Project

1. Administrative Services Agreement, dated September 27, 2011, by and between AV Solar Ranch 1, LLC and Exelon Generation Company, LLC, as amended by the First Amendment to the Administrative services Agreement, dated January 1, 2017.

Exelon Corporation
Ratio of Earnings to Fixed Charges

(In millions, except ratios)	Years Ended December 31, 2013	2014	2015	2016	2017
Pre-tax income from continuing operations	2,773	2,486	3,330	1,989	3,756
Plus: Loss (income) from equity investees	(10)	20	—	—	—
Less: Capitalized interest	(67)	(79)	(99)	(142)	(98)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	2,696	2,427	3,231	1,847	3,658
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	1,436	1,110	1,107	1,651	1,631
Interest component of rental expense [a]	269	288	300	259	236
Total fixed charges	1,705	1,398	1,407	1,910	1,867

Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest plus fixed charges	676	581	636	711	666
Ratio of earnings to combined fixed charges	5.6	5.0	5.4	5.6	5.1

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

PECO Energy Company
Ratio of Earnings to Fixed Charges and Preferred Stock Dividends

	Years Ended December 31,				
(In millions, except ratios)	**2013**	**2014**	**2015**	**2016**	**2017**
Pre-tax income from continuing operations	557	466	521	587	538
Less: Capitalized interest	(2)	(2)	(2)	(3)	(3)
Preference security dividend requirements	(10)	—	—	—	—
Pre-tax income from continuing operations after adjustment for income or loss from equity investees, capitalized interest and preference security dividend requirements	545	464	519	584	535
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	114	112	114	125	128
Interest component of rental expense [a]	7	5	3	2	3
Preference security dividend requirements	10	—	—	—	—
Total fixed charges	131	117	117	127	131
Pre-tax income from continuing operations after adjustment for income or loss from equity investees, capitalized interest and preference security dividend requirements plus fixed charges	676	581	636	711	666
Ratio of earnings to fixed charges and preferred stock dividends	5.2	5.0	5.4	5.6	5.1

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

BGE
Ratio of Earnings to Fixed Charges

	Years Ended December 31,				
(In millions, except ratios)	**2013**	**2014**	**2015**	**2016**	**2017**
Pre-tax income from continuing operations	344	351	477	468	525
Less: Capitalized interest	(6)	(12)	(14)	(11)	(6)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	338	339	463	457	519
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	127	118	113	115	110
Interest component of rental expense [a]	4	4	11	7	11
Total fixed charges	131	122	124	122	121
Pre-tax income from continuing operations after adjustment for income or loss from equity investees,					
capitalized interest and preference security dividend requirements plus fixed charges	469	461	587	579	640
Ratio of earnings to fixed charges	3.6	3.8	4.7	4.7	5.3

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

BGE
Ratio of Earnings to Fixed Charges and Preference Stock Dividends

	Years Ended December 31,				
(In millions, except ratios)	**2013**	**2014**	**2015**	**2016**	**2017**
Pre-tax income from continuing operations	344	351	477	468	525
Less: Capitalized interest	(6)	(12)	(14)	(11)	(6)
Preference security dividend requirements	(21)	(22)	(22)	(13)	—
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	317	317	441	444	519
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	127	118	113	115	110
Interest component of rental expense [a]	4	4	11	7	11
Preference security dividend requirements	21	22	22	13	—
Total fixed charges	152	144	146	135	121
Pre-tax income from continuing operations after adjustment for income or loss from equity investees, capitalized interest and preference security dividend requirements plus fixed charges	469	461	587	579	640
Ratio of earnings to fixed charges and preferred stock dividends	3.1	3.2	4.0	4.3	5.3

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

Pepco Holdings LLC and Subsidiary Companies

Ratio of Earnings to Fixed Charges

	Predecessor				*Successor*	
	Years Ended December 31,					**Year Ended December 31,**
(In millions, except ratios)	**2013**	**2014**	**2015**	**January 1, 2016 to March 23, 2016**	**March 24, 2016 to December 31, 2016**	**2017**
Pre-tax income from continuing operations	304	380	481	36	(58)	578
Plus: (Income) loss from equity investees	(2)	—	—	—	—	—
Less: Capitalized interest	(2)	(3)	(2)	(3)	(12)	(18)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	300	377	479	33	(70)	560
Fixed Charges:						
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	279	276	288	69	210	261
Interest component of rental expense [a]	22	24	24	4	16	21
Total fixed charges	301	300	312	73	226	282
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest plus fixed charges	601	677	791	106	156	842
Ratio of earnings to fixed charges	2.0	2.3	2.5	1.5	0.7 [b]	3.0

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.
(b) The ratio coverage was less than 1:1. The registrant must generate additional earnings of $70 million to achieve a coverage ratio of 1:1.

Potomac Electric Power Company
Ratio of Earnings to Fixed Charges

(In millions, except ratios)	Years Ended December 31, 2013	2014	2015	2016	2017
Pre-tax income from continuing operations	235	264	289	83	310
Less: Capitalized interest	(1)	(2)	(1)	(10)	(12)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	234	262	288	73	298
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	114	121	130	137	131
Interest component of rental expense [(a)]	7	7	7	3	4
Total fixed charges	121	128	137	140	135
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest plus fixed charges	355	390	425	213	433
Ratio of earnings to fixed charges	2.9	3.0	3.1	1.5	3.2

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

Delmarva Power & Light Company
Ratio of Earnings to Fixed Charges

	Years Ended December 31,				
(In millions, except ratios)	**2013**	**2014**	**2015**	**2016**	**2017**
Pre-tax income from continuing operations	146	169	125	13	192
Less: Capitalized interest	—	—	—	(2)	(3)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	146	169	125	11	189
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	52	49	50	51	53
Interest component of rental expense [(a)]	3	4	4	5	5
Total fixed charges	55	53	54	56	58
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest plus fixed charges	201	222	179	67	247
Ratio of earnings to fixed charges	3.7	4.2	3.3	1.2	4.3

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.

Atlantic City Electric Company and Subsidiary Company

Ratio of Earnings to Fixed Charges

	Years Ended December 31,				
(In millions, except ratios)	**2013**	**2014**	**2015**	**2016**	**2017**
Pre-tax income from continuing operations	78	76	73	(46)	103
Less: Capitalized interest	—	—	—	(3)	(3)
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest	78	76	73	(49)	100
Fixed Charges:					
Interest expensed and capitalized, amortization of debt discount and premium on all indebtedness	68	64	65	64	63
Interest component of rental expense [a]	4	4	4	4	5
Total fixed charges	72	68	69	68	68
Pre-tax income from continuing operations after adjustment for income or loss from equity investees and capitalized interest plus fixed charges	150	144	142	19	168
Ratio of earnings to fixed charges	2.1	2.1	2.1	0.3 [b]	2.5

(a) Represents one-third of rental expense relating to operating leases, which is a reasonable approximation of the interest factor.
(b) The ratio coverage was less than 1:1. The registrant must generate additional earnings of $49 million to achieve a coverage ratio of 1:1.

Exhibit 31.1

CERTIFICATION PURSUANT TO RULE 13a-14(a) AND 15d-14(a) OF THE SECURITIES AND EXCHANGE ACT OF 1934

I, Christopher M. Crane, certify that:

1. I have reviewed this annual report on Form 10-K of Exelon Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.6

CERTIFICATION PURSUANT TO RULE 13a-14(a) AND 15d-14(a) OF THE SECURITIES AND EXCHANGE ACT OF 1934

I, Joseph R. Trpik, Jr., certify that:

1. I have reviewed this annual report on Form 10-K of Commonwealth Edison Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

/s/ Joseph R. Trpik, Jr.

Senior Vice President, Chief Financial Officer and Treasurer

Exhibit 31.7

CERTIFICATION PURSUANT TO RULE 13a-14(a) AND 15d-14(a) OF THE SECURITIES AND EXCHANGE ACT OF 1934

I, Craig L. Adams, certify that:

1. I have reviewed this annual report on Form 10-K of PECO Energy Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.8

CERTIFICATION PURSUANT TO RULE 13a-14(a) AND 15d-14(a) OF THE SECURITIES AND EXCHANGE ACT OF 1934

I, Phillip S. Barnett, certify that:

1. I have reviewed this annual report on Form 10-K of PECO Energy Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.17

CERTIFICATION PURSUANT TO RULE 13a-14(a) AND 15d-14(a) OF THE SECURITIES AND EXCHANGE ACT OF 1934

I, David M. Velazquez, certify that:

1. I have reviewed this annual report on Form 10-K of Atlantic City Electric Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

Certain of the matters discussed in this report constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from those anticipated. Such statements are based on management's beliefs as well as assumptions made by and information currently available to management. When used herein, the words "anticipate," "intend," "estimate," "believe," "expect," "plan," "should," "hypothetical," "potential," "forecast," "project," variations of such words and similar expressions are intended to identify forward-looking statements. Factors that may cause actual results to differ are often presented with the forward-looking statements themselves. Other factors that could cause actual results to differ materially from those contemplated in any forward-looking statements made by us herein are discussed in Item 1. Financial Statements—Note 9. Commitments and Contingent Liabilities, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, and other factors discussed in filings we make with the United States Securities and Exchange Commission (SEC). These factors include, but are not limited to:

- adverse changes in the demand for or the price of the capacity and energy that we sell into wholesale electricity markets,
- adverse changes in energy industry law, policies and regulation, including market structures and a potential shift away from competitive markets toward subsidized market mechanisms, transmission planning and cost allocation rules, including rules regarding how transmission is planned and who is permitted to build transmission in the future, and reliability standards,
- any inability of our transmission and distribution businesses to obtain adequate and timely rate relief and regulatory approvals from federal and state regulators,
- changes in federal and state environmental regulations that could increase our costs or limit our operations,
- changes in nuclear regulation and/or general developments in the nuclear power industry, including various impacts from any accidents or incidents experienced at our facilities or by others in the industry, that could limit operations of our nuclear generating units,
- actions or activities at one of our nuclear units located on a multi-unit site that might adversely affect our ability to continue to operate that unit or other units located at the same site,
- any inability to balance our energy obligations, available supply and risks,
- any deterioration in our credit quality or the credit quality of our counterparties, including in our leveraged leases,
- availability of capital and credit at commercially reasonable terms and conditions and our ability to meet cash needs,
- changes in the cost of, or interruption in the supply of, fuel and other commodities necessary to the operation of our generating units,
- delays in receipt of necessary permits and approvals for our construction and development activities,
- delays or unforeseen cost escalations in our construction and development activities,
- any inability to achieve, or continue to sustain, our expected levels of operating performance,
- any equipment failures, accidents, severe weather events or other incidents that impact our ability to provide safe and reliable service to our customers, and any inability to sufficiently obtain coverage or recover proceeds of insurance on such matters,
- increases in competition in energy supply markets as well as competition for certain rate-based transmission projects,
- any inability to realize anticipated tax benefits or retain tax credits,
- challenges associated with recruitment and/or retention of a qualified workforce,
- adverse performance of our decommissioning and defined benefit plan trust fund investments and changes in funding requirements, and
- changes in technology and customer usage patterns.

All of the forward-looking statements made in this report are qualified by these cautionary statements and we cannot assure you that the results or developments anticipated by management will be realized or even if realized, will have the expected consequences to, or effects on, us or our business prospects, financial condition or results of operations. Readers are cautioned not to place undue reliance on these forward-looking statements in making any investment decision. Forward-looking statements made in this report apply only as of the date of this report. While we may elect to update forward-looking statements from time to time, we specifically disclaim any obligation to do so, even if internal estimates change, unless otherwise required by applicable securities laws.

The forward-looking statements contained in this report are intended to qualify for the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠
The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

This combined Form 10-Q is separately filed by Public Service Enterprise Group Incorporated (PSEG), PSEG Power LLC (Power) and Public Service Electric and Gas Company (PSE&G). Information relating to any individual company is filed by such company on its own behalf. Power and PSE&G each is only responsible for information about itself and its subsidiaries.

Note 1. Organization and Basis of Presentation

Organization

PSEG is a holding company with a diversified business mix within the energy industry. Its operations are primarily in the Northeastern and Mid-Atlantic United States and in other select markets. PSEG's four principal direct wholly owned subsidiaries are:

- **Power**—which is a multi-regional, wholesale energy supply company that integrates its generating asset operations and gas supply commitments with its wholesale energy, fuel supply and energy trading functions through three principal direct wholly owned subsidiaries. Power's subsidiaries are subject to regulation by the Federal Energy Regulatory Commission (FERC), the Nuclear Regulatory Commission (NRC) and the states in which they operate.
- **PSE&G**—which is a public utility engaged principally in the transmission of electricity and distribution of electricity and natural gas in certain areas of New Jersey. PSE&G is subject to regulation by the New Jersey Board of Public Utilities (BPU) and the FERC. PSE&G also invests in solar generation projects and has implemented energy efficiency and demand response programs, which are regulated by the BPU.
- **PSEG Energy Holdings L.L.C. (Energy Holdings)**—which primarily has investments in leases and solar generation projects through its direct wholly owned subsidiaries. Certain Energy Holdings' subsidiaries are subject to regulation by the FERC and the states in which they operate. Energy Holdings has also been awarded a contract to manage the transmission and distribution assets of the Long Island Power Authority (LIPA) starting in 2014.
- **PSEG Services Corporation (Services)**—which provides management, administrative and general services to PSEG and its subsidiaries at cost.

Basis of Presentation

The respective financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) applicable to Quarterly Reports on Form 10-Q. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted pursuant to such rules and regulations. These Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements (Notes) should be read in conjunction with, and update and supplement matters discussed in, the Annual Report on Form 10-K for the year ended December 31, 2012 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2013.

The unaudited condensed consolidated financial information furnished herein reflects all adjustments which are, in the opinion of management, necessary to fairly state the results for the interim periods presented. All such adjustments are of a normal recurring nature. All significant intercompany accounts and transactions are eliminated in consolidation, except as discussed in Note 18. Related-Party Transactions. The year-end Condensed Consolidated Balance Sheets were derived from the audited Consolidated Financial Statements included in the Annual Report on Form 10-K for the year ended December 31, 2012.

Note 2. Recent Accounting Standards

New Standards Adopted during 2013

Disclosures about Offsetting Assets and Liabilities

This accounting standard requires enhanced disclosures regarding assets and liabilities that are either offset in the financial statements, or are subject to an enforceable master netting arrangement or similar agreement. The guidance is applicable to certain financial instruments (e.g. derivatives) and securities borrowing and lending transactions. This standard requires entities:

- to disclose information about offsetting and related arrangements to enable users of financial statements to understand the effect of those arrangements on an entity's financial position, and

S1-SSA-0009 - 17266

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠
The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

- to present both net (offset amounts) and gross information in the notes to the financial statements for relevant assets and liabilities.

We adopted this standard retrospectively effective January 1, 2013. As this standard requires disclosures only, it did not have any impact on our consolidated financial position, results of operations or cash flows. For additional information, see Note 11. Financial Risk Management Activities.

Reclassification Adjustments out of Accumulated Other Comprehensive Income (AOCI)

This accounting standard requires entities to disclose the following information about reclassification adjustments related to AOCI:

- changes in AOCI balances by component; and
- significant amounts reclassified out of AOCI by respective line items of net income (for amounts that are required by GAAP to be reclassified to net income in their entirety in the same reporting period).

We adopted this standard prospectively effective January 1, 2013. As this standard requires disclosures only, it did not have any impact on our consolidated financial position, results of operations or cash flows. For additional information, see Note 15. Accumulated Other Comprehensive Income (Loss), Net of Tax.

New Accounting Standards Issued But Not Yet Adopted

Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists

This accounting standard was issued to address diversity in practice related to the presentation of an unrecognized tax benefit in certain cases. This standard requires entities to present an unrecognized tax benefit or a portion thereof on the Balance Sheet as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward.

However, in cases in which a net operating loss carryforward, a similar tax loss or a tax credit carryforward is not available at the reporting date under the tax law of the jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, or the tax law of the jurisdiction does not require an entity to use, and the entity does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit will be presented on the Balance Sheet as a liability and will not be combined with deferred tax assets.

The standard is effective for fiscal years and interim periods beginning after December 15, 2013. We are currently analyzing the impact of this standard to our financial statements.

Note 3. Variable Interest Entities (VIEs)

Variable Interest Entities for which PSE&G is the Primary Beneficiary

PSE&G is the primary beneficiary and consolidates two marginally capitalized VIEs, PSE&G Transition Funding LLC (Transition Funding) and PSE&G Transition Funding II LLC (Transition Funding II), which were created for the purpose of issuing transition bonds and purchasing bond transitional property of PSE&G, which is pledged as collateral to a trustee. PSE&G acts as the servicer for these entities to collect securitization transition charges authorized by the BPU. These funds are remitted to Transition Funding and Transition Funding II and are used for interest and principal payments on the transition bonds and related costs.

The assets and liabilities of these VIEs are presented separately on the face of the Condensed Consolidated Balance Sheets of PSEG and PSE&G because the Transition Funding and Transition Funding II assets are restricted and can only be used to settle their respective obligations. No Transition Funding or Transition Funding II creditor has any recourse to the general credit of PSE&G in the event the transition charges are not sufficient to cover the bond principal and interest payments of Transition Funding or Transition Funding II, respectively.

PSE&G's maximum exposure to loss is equal to its equity investment in these VIEs which was $16 million as of June 30, 2013 and December 31, 2012. The risk of actual loss to PSE&G is considered remote. PSE&G did not provide any financial support to Transition Funding or Transition Funding II during the first six months of 2013 or in 2012. Further, PSE&G does not have any contractual commitments or obligations to provide financial support to Transition Funding or Transition Funding II.

Note 4. Asset Disposition

In June 2013, Energy Holdings closed on the sale of its investments in a commercial office complex for proceeds of $41 million, resulting in an after-tax gain of $6 million.

Note 5. Rate Filings

The following information discusses significant updates regarding orders and pending rate filings. This Note should be read in conjunction with Note 6. Regulatory Assets and Liabilities to the Consolidated Financial Statements in the Annual Report on Form 10-K for the year ended December 31, 2012.

- ***Weather Normalization Clause (WNC)***—In April 2013, the BPU approved PSE&G's filing with respect to deficiency revenues from the 2011-2012 Winter Period. As a result, provisional rates were approved to recover $41 million from customers during the 2012-2013 Winter Period, with a carryover deficiency of $24 million to the 2013-2014 Winter Period. In July 2013, PSE&G filed a petition with the BPU seeking approval to recover $26 million in revenues from its customers during the 2013-2014 Winter Period inclusive of the $24 million carryover deficiency.
- ***Solar and Energy Efficiency Recovery Charges (formerly RRC and currently Green Program Recovery Charges (GPRC))*** —In May 2013, the BPU approved PSE&G's 2012 request for an increase in GPRC to recover approximately $62 million in additional electric revenue and $8 million in additional gas revenue, on an annual basis. In June 2013, PSE&G filed a petition with the BPU requesting a decrease in GPRC of approximately $1 million in electric revenue and $1 million in gas revenue, on an annual basis for the six Green Programs.

Note 6. Financing Receivables

PSE&G

PSE&G sponsors a solar loan program designed to help finance the installation of solar power systems throughout its electric service area. The loans are generally paid back with Solar Renewable Energy Certificates (SRECs) generated from the installed solar electric system. The following table reflects the outstanding loans by class of customer, none of which are considered "non-performing."

Credit Risk Profile Based on Payment Activity

Consumer Loans	As of June 30, 2013	As of December 31, 2012
	Millions	
Commercial/Industrial	$ 188	$ 174
Residential	16	15
Total	**$ 204**	**$ 189**

Energy Holdings

Energy Holdings, through various of its indirect subsidiary companies, has investments in domestic energy and real estate assets subject primarily to leveraged lease accounting. A leveraged lease is typically comprised of an investment by an equity investor and debt provided by a third party debt investor. The debt is recourse only to the assets subject to lease and is not included on PSEG's Condensed Consolidated Balance Sheets. As an equity investor, Energy Holdings' investments in the leases are comprised of the total expected lease receivables on its investments over the lease terms plus the estimated residual values at the end of the lease terms, reduced for any income not yet earned on the leases. This amount is included in Long-Term Investments on PSEG's Condensed Consolidated Balance Sheets. The more rapid depreciation of the leased property for tax purposes creates tax cash flow that will be repaid to the taxing authority in later periods. As such, the liability for such taxes due is recorded in Deferred Income Taxes on PSEG's Condensed Consolidated Balance Sheets.

Past financial performance is no guarantee of future results.

The table below shows Energy Holdings' gross and net lease investment as of June 30, 2013 and December 31, 2012, respectively.

	As of June 30, 2013	As of December 31, 2012
	Millions	
Lease Receivables (net of Non-Recourse Debt)	$ 705	$ 721
Estimated Residual Value of Leased Assets	529	535
	1,234	1,256
Unearned and Deferred Income	(409)	(416)
Gross Investments in Leases	825	840
Deferred Tax Liabilities	(687)	(723)
Net Investments in Leases	**$ 138**	**$ 117**

The corresponding receivables associated with the lease portfolio are reflected below, net of non-recourse debt. The ratings in the table represent the ratings of the entities providing payment assurance to Energy Holdings. "Not Rated" counterparties represent investments in lease receivables related to coal-fired assets and commercial real estate properties.

	Lease Receivables, Net of Non-Recourse Debt	
Counterparties' Credit Rating (Standard & Poor's (S&P))		
As of June 30, 2013	**As of June 30, 2013**	**As of December 31, 2012**
	Millions	
AA	$ 20	$ 21
AA-	58	73
BBB+ - BBB-	316	316
B	166	166
Not Rated	145	145
Total	**$ 705**	**$ 721**

The "B" rating and the "Not Rated" above include lease receivables related to coal-fired assets in Pennsylvania and Illinois, respectively. As of June 30, 2013, the gross investment in the leases of such assets, net of non-recourse debt, was $561 million ($40 million, net of deferred taxes). A more detailed description of such assets under lease is presented in the following table.

Asset	Location	Gross Investment	% Owned	Total	Fuel Type	Counter-parties' S&P Credit Ratings	Counterparty
		Millions		MW			
Powerton Station Units 5 and 6	IL	$ 134	64%	1,538	Coal	Not Rated	Edison Mission Energy
Joliet Station Units 7 and 8	IL	$ 84	64%	1,044	Coal	Not Rated	Edison Mission Energy
Keystone Station Units 1 and 2	PA	$ 116	17%	1,711	Coal	B	GenOn REMA, LLC
Conemaugh Station Units 1 and 2	PA	$ 117	17%	1,711	Coal	B	GenOn REMA, LLC
Shawville Station Units 1, 2, 3 and 4	PA	$ 110	100%	603	Coal	B	GenOn REMA, LLC

The credit exposure for lessors is partially mitigated through various credit enhancement mechanisms within the lease transactions. These credit enhancement features vary from lease to lease and may include letters of credit or affiliate guarantees. Upon the occurrence of certain defaults, indirect subsidiary companies of Energy Holdings would exercise their rights and attempt to seek recovery of their investment, potentially including stepping into the lease directly to protect their investments. While these actions could ultimately protect or mitigate the loss of value, they could require the use of significant capital investments and trigger certain material tax obligations. A bankruptcy of a lessee would likely delay any efforts on the part of the lessors to assert their rights upon default and could delay the monetization of claims. Failure to recover adequate value could ultimately lead to a foreclosure on the assets under lease by the lenders. If foreclosures were to occur, Energy Holdings could potentially record a pre-tax write-off up to its gross investment in these facilities and may also be required to pay significant cash tax liabilities to the Internal Revenue Service (IRS).

Indirect subsidiary companies of Energy Holdings lease three coal-fired generation facilities in Pennsylvania (Keystone, Conemaugh and Shawville) to GenOn REMA, LLC (GenOn REMA), a subsidiary of GenOn Energy Inc. (GenOn), which was acquired by NRG Energy, Inc. in December 2012. With respect to addressing various environmental controls: Keystone has installed a flue gas desulfurization (FGD) system for sulfur dioxide (SO_2), selective catalytic reduction (SCR) equipment for nitrogen oxide (NOx) and mercury control; Conemaugh has a FGD system, while SCR and mercury control equipment are scheduled to be installed and operational by the first quarter of 2015; and GenOn has disclosed its plan to place Shawville in a “long-term protective layup” by April 2015. GenOn has stated that it is evaluating whether to continue to pay the required rent and maintain the facility in accordance with the lease terms or terminate the lease for obsolescence in which case the lessee would be required, among other things, to pay the contractual termination value structured to recover Energy Holdings' indirect subsidiaries' lease investment as specified in the lease agreement.

Although all lease payments from the GenOn REMA leases are current, no assurances can be given that future payments in accordance with the lease contracts will continue. Factors which may impact future lease cash flows include, but are not limited to, new environmental legislation and regulation regarding air quality, water and other discharges in the process of generating electricity, market prices for fuel, electricity and capacity, overall financial condition of lease counterparties and the quality and condition of assets under lease.

Nesbitt Asset Recovery, LLC (Nesbitt), (an indirect, wholly owned subsidiary of Energy Holdings), owns approximately 64% of the lease interest in the Powerton and Joliet coal units in Illinois, with the balance held by Associates Capital Investments, L.L.P. (Associates) (an affiliate of Citigroup, and, together with Nesbitt, the "Owner Participants"). These facilities are leased to Midwest Generation (MWG), an indirect subsidiary of Edison Mission Energy (EME).

On December 17, 2012, EME and MWG filed for relief under Chapter 11 of the U.S. Bankruptcy Code. Immediately prior to that filing, EME, MWG and the Owner Participants, as well as certain affiliated owner lessors, entered into a forbearance agreement with holders of a majority of the lease debt that financed the original sale-leaseback transaction. The forbearance agreement, which was approved by the bankruptcy court, expired on April 5, 2013. In June 2013, the parties reached an agreement, which was approved by the Bankruptcy Court, to again extend the deadline for MWG to assume or reject the leases until September 30, 2013. As part of this settlement, (i) MWG will make partial lease payments of $4 million each month during the extension period starting in July 2013, (ii) the unpaid rent for the utilization of the facilities by MWG during pendency of the bankruptcy will be treated as an administrative expense in bankruptcy and (iii) the parties agree to not reject

the leases or foreclose on assets under lease during the extension period. Nesbitt is actively involved in the bankruptcy proceedings and continues to evaluate its options with respect to this lease.

MWG has substantially completed investments in mercury removal (Activated Carbon Injection) and NOx emission controls (low NOx burners and Selective Non-Catalytic Reduction systems), and plans to invest in SO_2 emission controls (Dry Sorbent Injection (Trona) systems). On April 4, 2013, MWG obtained approval from the Illinois Pollution Control Board to defer capital investments for up to two additional years to meet upcoming air emission compliance deadlines under Illinois law. Also, on July 8, 2013, the US Court of Appeals affirmed the judgment of the lower court dismissing claims brought by the U.S. Environmental Protection Agency (EPA) and the State of Illinois against EME and MWG for alleged violations of the Clean Air Act.

Note 7. Available-for-Sale Securities

Nuclear Decommissioning Trust (NDT) Fund

Power maintains an external master nuclear decommissioning trust to fund its share of decommissioning for its five nuclear facilities upon termination of operation. The trust contains two separate funds: a qualified fund and a non-qualified fund. Section 468A of the Internal Revenue Code limits the amount of money that can be contributed into a qualified fund. The trust funds are managed by third-party investment advisers who operate under investment guidelines developed by Power.

Power classifies investments in the NDT Fund as available-for-sale. The following tables show the fair values and gross unrealized gains and losses for the securities held in the NDT Fund:

	As of June 30, 2013			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	Millions			
Equity Securities	$ 636	$ 202	$ (9)	$ 829
Debt Securities				
Government Obligations	388	5	(8)	385
Other Debt Securities	311	11	(4)	318
Total Debt Securities	699	16	(12)	703
Other Securities	48	—	—	48
Total NDT Available-for-Sale Securities	**$ 1,383**	**$ 218**	**$ (21)**	**$ 1,580**

	As of December 31, 2012			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	Millions			
Equity Securities	$ 648	$ 147	$ (6)	$ 789
Debt Securities				
Government Obligations	274	11	—	285
Other Debt Securities	320	22	—	342

NDT Available-for-Sale Securities	**$ 502**	**$ (21)**	**$ 3**	**$ —**	**$ 204**	**$ (6)**	**$ 7**	**$ —**

(A) Equity Securities—Investments in marketable equity securities within the NDT Fund are primarily in common stocks within a broad range of industries and sectors. The unrealized losses are distributed over a broad range of securities with limited impairment durations. Power does not consider these securities to be other-than-temporarily impaired as of June 30, 2013.

(B) Debt Securities (Government)—Unrealized losses on Power's NDT investments in United States Treasury obligations and Federal Agency asset-backed securities were caused by interest rate changes. Since these investments are guaranteed by the United States government or an agency of the United States government, it is not expected that these securities will settle for less than their amortized cost basis, since Power does not intend to sell nor will it be more-likely-than-not required to sell. Power does not consider these securities to be other-than-temporarily impaired as of June 30, 2013.

(C) Debt Securities (Corporate)—Power's investments in corporate bonds are limited to investment grade securities. It is not expected that these securities would settle for less than their amortized cost. Since Power does not intend to sell these securities nor will it be more-likely-than-not required to sell, Power does not consider these debt securities to be other-than-temporarily impaired as of June 30, 2013.

Past financial performance is no guarantee of future results.

The proceeds from the sales of and the net realized gains on securities in the NDT Fund were:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	Millions			
Proceeds from NDT Fund Sales	$ 376	$ 290	$ 617	$ 635
Net Realized Gains (Losses) on NDT Fund:				
Gross Realized Gains	23	26	60	42
Gross Realized Losses	(6)	(16)	(25)	(22)
Net Realized Gains (Losses) on NDT Fund	**$ 17**	**$ 10**	**$ 35**	**$ 20**

Gross realized gains and gross realized losses disclosed in the above table were recognized in Other Income and Other Deductions, respectively, in PSEG's and Power's Condensed Consolidated Statements of Operations. Net unrealized gains of $97 million (after-tax) were a component of Accumulated Other Comprehensive Loss on PSEG's and Power's Condensed Consolidated Balance Sheet as of June 30, 2013.

The NDT available-for-sale debt securities held as of June 30, 2013 had the following maturities:

Time Frame	Fair Value
	Millions
Less than one year	$ 58
1 - 5 years	171
6 - 10 years	191
11 - 15 years	39
16 - 20 years	9
Over 20 years	235
Total NDT Available-for-Sale Debt Securities	**$ 703**

The cost of these securities was determined on the basis of specific identification.

Power periodically assesses individual securities whose fair value is less than amortized cost to determine whether the investments are considered to be other-than-temporarily impaired. For equity securities, management considers the ability and intent to hold for a reasonable time to permit recovery in addition to the severity and duration of the loss. For fixed income securities, management considers its intent to sell or requirement to sell a security prior to expected recovery. In those cases where a sale is expected, any impairment would be recorded through earnings. For fixed income securities where there is no intent to sell or likely requirement to sell, management evaluates whether credit loss is a component of the impairment. If so, that portion is recorded through earnings while the noncredit loss component is recorded through Accumulated Other Comprehensive Income (Loss). In 2013, other-than-temporary impairments of $4 million were recognized on securities in the NDT Fund. Any subsequent recoveries in the value of these securities would be recognized in Accumulated Other Comprehensive Income (Loss) unless the securities are sold, in which case, any gain would be recognized in income. The assessment of fair market value compared to cost is applied on a weighted average basis taking into account various purchase dates and initial cost of the securities.

Rabbi Trust

PSEG maintains certain unfunded nonqualified benefit plans to provide supplemental retirement and deferred compensation benefits to certain key employees. Certain assets related to these plans have been set aside in a grantor trust commonly known as the "Rabbi Trust."

PSEG classifies investments in the Rabbi Trust as available-for-sale. The following tables show the fair values, gross unrealized gains and losses and amortized cost basis for the securities held in the Rabbi Trust.

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

In March 2012, PSEG restructured the fixed income component of the Rabbi Trust. The proceeds from the sales of and the net realized gains on securities in the Rabbi Trust Fund were:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
	Millions			
Proceeds from Rabbi Trust Sales	**$ 47**	**$ 61**	**$ 64**	**$ 215**
Net Realized Gains (Losses) on Rabbi Trust:				
Gross Realized Gains	$ 4	$ 1	$ 4	$ 6
Gross Realized Losses	(3)	—	(3)	—
Net Realized Gains (Losses) on Rabbi Trust	**$ 1**	**$ 1**	**$ 1**	**$ 6**

Gross realized gains and gross realized losses disclosed in the above table were recognized in Other Income and Other Deductions, respectively, in the Condensed Consolidated Statements of Operations. Net unrealized gains of $4 million (after-tax) were a component of Accumulated Other Comprehensive Loss on the Condensed Consolidated Balance Sheets as of June 30, 2013. The Rabbi Trust available-for-sale debt securities held as of June 30, 2013 had the following maturities:

Time Frame	Fair Value
	Millions
Less than one year	$ —
1 - 5 years	59
6 - 10 years	28
11 - 15 years	8
16 - 20 years	5
Over 20 years	54
Total Rabbi Trust Available-for-Sale Debt Securities	**$ 154**

The cost of these securities was determined on the basis of specific identification.

PSEG periodically assesses individual securities whose fair value is less than amortized cost to determine whether the investments are considered to be other-than-temporarily impaired. For equity securities, the Rabbi Trust is invested in a commingled indexed mutual fund. Due to the commingled nature of this fund, PSEG does not have the ability to hold these securities until expected recovery. As a result, any declines in fair market value below cost are recorded as a charge to earnings. For fixed income securities, management considers its intent to sell or requirement to sell a security prior to expected recovery. In those cases where a sale is expected, any impairment would be recorded through earnings. For fixed income securities where there is no intent to sell or likely requirement to sell, management evaluates whether credit loss is a component of the impairment. If so, that portion is recorded through earnings while the noncredit loss component is recorded through Accumulated Other Comprehensive Income (Loss). The assessment of fair market value compared to cost is applied on a weighted average basis taking into account various purchase dates and initial cost of the securities.

Pension and OPEB costs for Power, PSE&G and PSEG's other subsidiaries are detailed as follows:

	Pension Benefits		OPEB		Pension Benefits		OPEB	
	Three Months Ended June 30,		Three Months Ended June 30,		Six Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012	2013	2012	2013	2012
	Millions							
Power	$ 11	$ 12	$ 5	$ 4	$ 22	$ 25	$ 11	$ 9
PSE&G	22	25	17	20	45	49	33	40
Other	5	4	1	1	9	9	2	2
Total Benefit Costs	**$ 38**	**$ 41**	**$ 23**	**$ 25**	**$ 76**	**$ 83**	**$ 46**	**$ 51**

During the three months ended March 31, 2013, PSEG contributed its entire planned contributions for the year 2013 of $145 million and $14 million into its pension and postretirement healthcare plans, respectively.

Note 9. Commitments and Contingent Liabilities

Guaranteed Obligations

Power's activities primarily involve the purchase and sale of energy and related products under transportation, physical, financial and forward contracts at fixed and variable prices. These transactions are with numerous counterparties and brokers that may require cash, cash-related instruments or guarantees.

Power has unconditionally guaranteed payments to counterparties by its subsidiaries in commodity-related transactions in order to

- support current exposure, interest and other costs on sums due and payable in the ordinary course of business, and
- obtain credit.

Under these agreements, guarantees cover lines of credit between entities and are often reciprocal in nature. The exposure between counterparties can move in either direction.

In order for Power to incur a liability for the face value of the outstanding guarantees, its subsidiaries would have to

- fully utilize the credit granted to them by every counterparty to whom Power has provided a guarantee, and
- all of the related contracts would have to be "out-of-the-money" (if the contracts are terminated, Power would owe money to the counterparties).

Power believes the probability of this result is unlikely. For this reason, Power believes that the current exposure at any point in time is a more meaningful representation of the potential liability under these guarantees. This current exposure consists of the net of accounts receivable and accounts payable and the forward value on open positions, less any collateral posted.

Power is subject to

- counterparty collateral calls related to commodity contracts, and
- certain creditworthiness standards as guarantor under performance guarantees of its subsidiaries.

Changes in commodity prices can have a material impact on collateral requirements under such contracts, which are posted and received primarily in the form of cash and letters of credit. Power also routinely enters into futures and options transactions for electricity and natural gas as part of its operations. These futures contracts usually require a cash margin deposit with brokers, which can change based on market movement and in accordance with exchange rules.

In addition to the guarantees discussed above, Power has also provided payment guarantees to third parties on behalf of its affiliated companies. These guarantees support various other non-commodity related contractual obligations.

S1-SSA-0009 - 17277

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

The face value of Power's outstanding guarantees, current exposure and margin positions as of June 30, 2013 and December 31, 2012 are shown below:

	As of June 30, 2013	As of December 31, 2012
	Millions	
Face Value of Outstanding Guarantees	$ 1,569	$ 1,508
Exposure under Current Guarantees	$ 282	$ 226
Letters of Credit Margin Posted	$ 113	$ 124
Letters of Credit Margin Received	$ 38	$ 69
Cash Deposited and Received		
Counterparty Cash Margin Deposited	$ 4	$ 15
Counterparty Cash Margin Received	$ —	$ (4)
Net Broker Balance Deposited (Received)	$ 41	$ 26
In the Event Power were to Lose its Investment Grade Rating:		
Additional Collateral that Could be Required	$ 679	$ 654
Liquidity Available under PSEG's and Power's Credit Facilities to Post Collateral	$ 3,541	$ 3,531
Additional Amounts Posted		
Other Letters of Credit	$ 46	$ 45

As part of determining credit exposure, Power nets receivables and payables with the corresponding net energy contract balances. See Note 11. Financial Risk Management Activities for further discussion. In accordance with PSEG's accounting policy, where it is applicable, cash (received)/deposited is allocated against derivative asset and liability positions with the same counterparty on the face of the Balance Sheet. The remaining balances of net cash (received)/deposited after allocation are generally included in Accounts Payable and Receivable, respectively.

In the event of a deterioration of Power's credit rating to below investment grade, which would represent a three level downgrade from its current S&P's, Moody's and Fitch ratings, many of these agreements allow the counterparty to demand further performance assurance. See table above.

The SEC and the Commodity Futures Trading Commission (CFTC) continue efforts to implement new rules to effect stricter regulation over swaps and derivatives. In 2012, the CFTC issued Final Rules regarding the definition of a swap dealer and the definition of a swap, and established reporting and record-keeping requirements for commercial end users including PSEG. In September 2012, a federal court vacated the CFTC's rule on monitoring of position limits for several commodities, including natural gas, thereby indefinitely delaying the effectiveness of these position limits rules. PSEG is carefully monitoring all of these new rules as they are issued to analyze the potential impact on its swap and derivatives transactions, including any potential increase in its collateral requirements.

In addition to amounts for outstanding guarantees, current exposure and margin positions, Power had posted letters of credit to support various other non-energy contractual and environmental obligations. See table above.

Environmental Matters

Passaic River

Historic operations of PSEG companies and the operations of hundreds of other companies along the Passaic and Hackensack Rivers are alleged by Federal and State agencies to have discharged substantial contamination into the Passaic River/Newark Bay Complex.

Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA)

The EPA has determined that an eight-mile stretch of the Passaic River in the area of Newark, New Jersey is a "facility" within the meaning of that term under CERCLA. The EPA has determined the need to perform a study of the entire 17-mile tidal reach of the lower Passaic River.

S1-SSA-0009 - 17278

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠
The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

PSE&G and certain of its predecessors conducted operations at properties in this area on or adjacent to the Passaic River. The properties included one operating electric generating station (Essex Site), which was transferred to Power, one former generating station and four former manufactured gas plant (MGP) sites. When the Essex Site was transferred from PSE&G to Power, PSE&G obtained releases and indemnities for liabilities arising out of the former Essex generating station and Power assumed any environmental liabilities.

The EPA notified the potentially responsible parties (PRPs) that the cost of its Remedial Investigation and Feasibility Study (RI/FS) is now estimated at approximately $110 million. Seventy-three PRPs, including Power and PSE&G, agreed to assume responsibility for the RI/FS and formed the Cooperating Parties Group (CPG) to divide the associated costs according to a mutually agreed upon formula. The CPG group, currently seventy members, is presently executing the RI/FS. Approximately five percent of the RI/FS costs were attributable to PSE&G's former MGP sites and approximately one percent to Power's generating stations on an interim basis under the CPG's group agreement. Power has provided notice to insurers concerning this potential claim.

In 2007, the EPA released a draft “Focused Feasibility Study” (FFS) that proposed various options to address the contamination cleanup of the lower eight miles of the Passaic River. The EPA estimated costs for the proposed remedy range from $1.3 billion to $3.7 billion. The work contemplated by the FFS is not subject to the cost sharing agreement discussed above. The EPA's revised proposed FFS may be released for public comment as early as the fourth quarter of 2013.

In June 2008, an agreement was announced between the EPA and Tierra Solutions, Inc. and Maxus Energy Corporation (Tierra/Maxus) for removal of a portion of the contaminated sediment in the Passaic River at an estimated cost of $80 million. Phase I of the removal work has been completed. Phase II is contingent on the approval of an appropriate sediment disposal facility. Tierra/Maxus have reserved their rights to seek contribution for the removal costs from the other PRPs, including Power and PSE&G.

The EPA has advised that the levels of contaminants at Passaic River mile 10.9 will require removal in advance of the completion of the RI/FS. The CPG members, with the exception of Tierra/Maxus, which are no longer members, have agreed to fund the removal, currently estimated at approximately $30 million. PSEG's share of that effort is approximately three percent.

Except for the Passaic River mile 10.9 removal, Power and PSE&G are unable to estimate their portion of the possible loss or range of loss related to the Passaic River matters.

New Jersey Spill Compensation and Control Act (Spill Act)

In 2005, the New Jersey Department of Environmental Protection (NJDEP) filed suit against a PRP (Occidental Chemical Corporation (OCC)) and its related companies in the New Jersey Superior Court seeking damages and reimbursement for costs expended by the State of New Jersey to address the effects of the PRP's discharge of hazardous substances into both the Passaic River and the balance of the Newark Bay Complex. Power and PSE&G are alleged to have owned, operated or contributed hazardous substances to a total of 11 sites or facilities that impacted these water bodies. In 2009, third party complaints were filed against some 320 third party defendants, including Power and PSE&G, claiming that each of the third party defendants is responsible for its proportionate share of the clean-up costs for the hazardous substances it allegedly discharged into the Passaic River and the Newark Bay Complex. Power and PSE&G filed answers to the complaints in 2010. On March 22, 2013, Power and PSE&G signed an agreement to settle the NJDEP vs. OCC litigation at a nominal cost. That settlement is contingent upon a public comment and NJDEP response period and the issuance of an order approving the settlement by the Court after conducting a fairness hearing. A stay of third-party discovery remains in place and has been extended. Power and PSE&G believe they have good and valid defenses to the allegations contained in the third party complaints and will vigorously assert those defenses should the matter not settle. Power and PSE&G are unable to estimate their portion of the possible loss or range of loss related to this matter.

Natural Resource Damage Claims

In 2003, the NJDEP directed PSEG, PSE&G and 56 other PRPs to arrange for a natural resource damage assessment and interim compensatory restoration of natural resource injuries along the lower Passaic River and its tributaries pursuant to the Spill Act. The NJDEP alleged that hazardous substances had been discharged from the Essex Site and the Harrison Site. The NJDEP estimated the cost of interim natural resource injury restoration activities along the lower Passaic River at approximately $950 million. In 2007, agencies of the United States Department of Commerce and the United States Department of the Interior sent letters to PSE&G and other PRPs inviting participation in an assessment of injuries to natural resources that the agencies intended to perform. In 2008, PSEG and a number of other PRPs agreed to share certain immaterial costs the trustees have incurred and will incur going forward and to work with the trustees to explore whether some or all of the trustees' claims can be resolved in a cooperative fashion. That effort is continuing. PSEG is unable to estimate its portion of the possible loss or range of loss related to this matter.

Past financial performance is no guarantee of future results.

Newark Bay Study Area

The EPA has established the Newark Bay Study Area, which it defines as Newark Bay and portions of the Hackensack River, the Arthur Kill and the Kill Van Kull. In 2006, the EPA sent PSEG and 11 other entities notices that it considered each of the entities to be a PRP with respect to contamination in the Study Area. The notice letter requested that the PRPs fund an EPA-approved study in the Newark Bay Study Area and encouraged the PRPs to contact OCC to discuss participating in the RI/FS that OCC was conducting. The notice stated the EPA's belief that hazardous substances were released from sites owned by PSEG companies and located on the Hackensack River, including two operating electric generating stations (Hudson and Kearny sites) and one former MGP site. PSEG has participated in and partially funded the second phase of this study. Notices to fund the next phase of the study have been received but it is uncertain at this time whether the PSEG companies will consent to fund the third phase. Power and PSE&G are unable to estimate their portion of the possible loss or range of loss related to this matter.

MGP Remediation Program

PSE&G is working with the NJDEP to assess, investigate and remediate environmental conditions at its former MGP sites. To date, 38 sites requiring some level of remedial action have been identified. Based on its current studies, PSE&G has determined that the estimated cost to remediate all MGP sites to completion could range between $491 million and $578 million through 2021. Since no amount within the range is considered to be most likely, PSE&G has recorded a liability of $491 million as of June 30, 2013. Of this amount, $104 million was recorded in Other Current Liabilities and $387 million was reflected as Environmental Costs in Noncurrent Liabilities. PSE&G has recorded a $491 million Regulatory Asset with respect to these costs. PSE&G periodically updates its studies taking into account any new regulations or new information which could impact future remediation costs and adjusts its recorded liability accordingly.

Prevention of Significant Deterioration (PSD)/New Source Review (NSR)

The PSD/NSR regulations, promulgated under the Clean Air Act (CAA), require major sources of certain air pollutants to obtain permits, install pollution control technology and obtain offsets, in some circumstances, when those sources undergo a “major modification,” as defined in the regulations. The federal government may order companies that are not in compliance with the PSD/NSR regulations to install the best available control technology at the affected plants and to pay monetary penalties ranging from $25,000 to $37,500 per day for each violation, depending upon when the alleged violation occurred.

In 2009, the EPA issued a notice of violation to Power and the other owners of the Keystone coal-fired plant in Pennsylvania, alleging, among other things, that various capital improvement projects were completed at the plant which are considered modifications (or major modifications) causing significant net emission increases of PSD/NSR air pollutants, beginning in 1985 for Keystone Unit 1 and in 1984 for Keystone Unit 2. The notice of violation states that none of these modifications underwent PSD/NSR permitting process prior to being put into service, which the EPA alleges was required under the CAA. The notice of violation states that the EPA may issue an order requiring compliance with the relevant CAA provisions and may seek injunctive relief and/or civil penalties. Power owns approximately 23% of the plant. Power cannot predict the outcome of this matter.

Hazardous Air Pollutants Regulation

In accordance with a ruling of the U.S. Court of Appeals of the District of Columbia (Court of Appeals), the EPA published a Maximum Achievable Control Technology (MACT) regulation in February 2012. These Mercury Air Toxics Standards (MATS) are scheduled to go into effect on April 16, 2015 and establish allowable emission levels for mercury as well as other hazardous air pollutants pursuant to the CAA. In February 2012, members of the electric generating industry filed a petition challenging the existing source National Emission Standard for Hazardous Air Pollutants (NESHAP), new source NESHAP and the New Source Performance Standard (NSPS). In March 2012, PSEG filed a motion to intervene with the Court of Appeals in support of the EPA's implementation of MATS. Litigation of these matters remains pending and the impact on the implementation schedule is unknown at this time.

Power believes that it will not be necessary to install any additional material controls at its New Jersey facilities. Additional controls may be necessary at Power’s Bridgeport Harbor coal-fired unit at an immaterial cost. In December 2011, to comply with the MACT regulations, a decision was reached to upgrade the previously planned two flue gas desulfurization scrubbers and install Selective Catalytic Reduction (SCR) systems at Power’s jointly owned coal-fired generating facility at Conemaugh in Pennsylvania. This installation is expected to be completed in the first quarter of 2015. Power's share of this investment is approximately $147 million.

NOx Regulation

In April 2009, the NJDEP finalized revisions to NO_x emission control regulations that impose new NO_x emission reduction requirements and limits for New Jersey fossil fuel-fired electric generation units. The rule has an impact on Power's generation fleet, as it imposes NO_x emissions limits that will require capital investment for controls or the retirement of up to 86 combustion turbines (approximately 1,750 MW) and four older New Jersey steam electric generation units (approximately 400 MW) by May 30, 2015. Retirement notifications for the combustion turbines, except for Salem Unit 3, have been filed with the PJM Interconnection, LLC (PJM). The Salem Unit 3 combustion turbine (38 MW) will be transitioning to an emergency generator. Evaluations are ongoing for the steam electric generation units.

Under current Connecticut regulations, Power's Bridgeport and New Haven facilities have been utilizing Discrete Emission Reduction Credits (DERCs) to comply with certain NO_x emission limitations that were incorporated into the facilities' operating permits. In 2010, Power negotiated new agreements with the State of Connecticut extending the continued use of DERCs for certain emission units and equipment until May 31, 2014.

Clean Water Act Permit Renewals

Pursuant to the Federal Water Pollution Control Act (FWPCA), National Pollutant Discharge Elimination System (NPDES) permits expire within five years of their effective date. In order to renew these permits, but allow a plant to continue to operate, an owner or operator must file a permit application no later than six months prior to expiration of the permit. States with delegated federal authority for this program manage these permits. The NJDEP manages the permits under the New Jersey Pollutant Discharge Elimination System (NJPDES) program. Connecticut and New York also have permits to manage their respective pollutant discharge elimination system programs.

One of the most significant NJPDES permits governing cooling water intake structures at Power is for Salem. In 2001, the NJDEP issued a renewed NJPDES permit for Salem, expiring in July 2006, allowing for the continued operation of Salem with its existing cooling water intake system. In 2006, Power filed with the NJDEP a renewal application allowing Salem to continue operating under its existing NJPDES permit until a new permit is issued. Power prepared its renewal application in accordance with the FWPCA Section 316(b) and the 316(b) rules published in 2004.

As a result of several legal challenges to the 2004 316(b) rule by certain northeast states, environmentalists and industry groups, the rule has been suspended and has been returned to the EPA to be consistent with a 2009 United States Supreme Court decision which concluded that the EPA could rely upon cost-benefit analysis in setting the national performance standards and in providing for cost-benefit variances from those standards as part of the Phase II regulations.

In late 2010, the EPA entered into a settlement agreement with environmental groups that established a schedule to develop a new 316(b) rule by July 27, 2012. In April 2011, the EPA published a proposed rule to establish marine life mortality standards for existing cooling water intake structures with a design flow of more than two million gallons per day. In July 2012, the EPA and environmental groups agreed to delay the deadline to June 27, 2013 for finalization of the Rule. On June 27, 2013, the EPA and environmental groups agreed to further extend the deadline to November 4, 2013.

Power is unable to predict the outcome of this proposed rulemaking, the final form that the proposed regulations may take and the effect, if any, that they may have on its future capital requirements, financial condition, results of operations or cash flows. The results of further proceedings on this matter could have a material impact on Power's ability to renew permits at its larger once-through cooled plants, including Salem, Hudson, Mercer, Bridgeport and possibly Sewaren and New Haven, without making significant upgrades to existing intake structures and cooling systems. The costs of those upgrades to one or more of Power's once-through cooled plants would be material, and would require economic review to determine whether to continue operations at these facilities. For example, in Power's application to renew its Salem permit, filed with the NJDEP in February 2006, the estimated costs for adding cooling towers for Salem were approximately $1 billion, of which Power's share would have been approximately $575 million. These cost estimates have not been updated. Currently, potential costs associated with any closed cycle cooling requirements are not included in Power's forecasted capital expenditures.

Capital Expenditures

The construction programs of PSEG and its subsidiaries are currently estimated to include a base level total investment of approximately $6.4 billion for the three years ended 2015. The three-year projected capital expenditures for PSEG, Power and PSE&G are as follows:

	2013	2014	2015
		Millions	
Power	$ 400	$ 365	$ 305
PSE&G	2,045	1,765	1,305
Other	95	40	30
Total PSEG	**$ 2,540**	**$ 2,170**	**$ 1,640**

Power's projected capital expenditures include baseline maintenance (investments to replace major parts and enhance operational performance), investments in response to environmental, regulatory or legal mandates and nuclear expansion. PSE&G's projections include material additions and replacements in its transmission and distribution systems to meet expected growth and manage reliability.

In May 2013, the BPU approved increased spending on renewable energy under PSE&G's Solar Loan and Solar 4 All investment programs (Solar Loan III and Solar 4 All Extension, respectively). PSE&G's projected expenditures through 2015 in the table above have been updated to include $215 million under its Solar Loan III and Solar 4 All Extension programs.

Power

During the six months ended June 30, 2013, Power made $171 million of capital expenditures, including interest capitalized during construction (IDC) but excluding $51 million for nuclear fuel, primarily related to various projects at its fossil and nuclear generation stations.

PSE&G

During the six months ended June 30, 2013, PSE&G made $1,167 million of capital expenditures, including $1,148 million of investment in plant, primarily for reliability of transmission and distribution systems and $19 million in solar loan investments. This does not include expenditures for cost of removal, net of salvage, of $46 million, which is included in operating cash flows.

Energy Holdings

Included in Other for 2013 in the preceding table is a 19 MW solar project currently under construction in Arizona for which Energy Holdings had issued an outstanding guarantee of $20 million as of June 30, 2013.

Basic Generation Service (BGS) and Basic Gas Supply Service (BGSS)

PSE&G obtains its electric supply requirements for customers who do not purchase electric supply from third party suppliers through the annual New Jersey BGS auctions. Pursuant to applicable BPU rules, PSE&G enters into the Supplier Master Agreement with the winners of these BGS auctions following the BPU's approval of the auction results. PSE&G has entered into contracts with Power, as well as with other winning BGS suppliers, to purchase BGS for PSE&G's load requirements. The winners of the auction (including Power) are responsible for fulfilling all the requirements of a PJM Load Serving Entity including the provision of capacity, energy, ancillary services, transmission and any other services required by PJM. BGS suppliers assume all volume risk and customer migration risk and must satisfy New Jersey's renewable portfolio standards.

Power seeks to mitigate volatility in its results by contracting in advance for the sale of most of its anticipated electric output as well as its anticipated fuel needs. As part of its objective, Power has entered into contracts to directly supply PSE&G and other New Jersey electric distribution companies (EDCs) with a portion of their respective BGS requirements through the New Jersey BGS auction process, described above.

S1-SSA-0009 - 17282

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

PSE&G has contracted for its anticipated BGS-Fixed Price eligible load, as follows:

	Auction Year				
	2010	2011	2012	2013	
36-Month Terms Ending	May 2013	May 2014	May 2015	May 2016	(A)
Load (MW)	2,800	2,800	2,900	2,800	
$ per kWh	0.09577	0.09430	0.08388	0.09218	

(A) Prices set in the 2013 BGS auction became effective on June 1, 2013 when the 2010 BGS auction agreements expired.

PSE&G has a full requirements contract with Power to meet the gas supply requirements of PSE&G's gas customers. Power has entered into hedges for a portion of these anticipated BGSS obligations, as permitted by the BPU. The BPU permits PSE&G to recover the cost of gas hedging up to 115 billion cubic feet or 80% of its residential gas supply annual requirements through the BGSS tariff. Current plans call for Power to hedge on behalf of PSE&G approximately 70 billion cubic feet or 50% of its residential gas supply annual requirements. For additional information, see Note 18. Related-Party Transactions.

Minimum Fuel Purchase Requirements

Power has various long-term fuel purchase commitments for coal through 2017 to support its fossil generation stations and for supply of nuclear fuel for the Salem, Hope Creek and Peach Bottom nuclear generating stations and for firm transportation and storage capacity for natural gas.

Power's strategy is to maintain certain levels of uranium and to make periodic purchases to support such levels. As such, the commitments referred to in the following table may include estimated quantities to be purchased that deviate from contractual nominal quantities. Power's nuclear fuel commitments cover approximately 100% of its estimated uranium, enrichment and fabrication requirements through 2015 and a portion through 2017 at Salem, Hope Creek and Peach Bottom.

Power's various multi-year contracts for firm transportation and storage capacity for natural gas are primarily used to meet its gas supply obligations to PSE&G. These purchase obligations are consistent with Power's strategy to enter into contracts for its fuel supply in comparable volumes to its sales contracts.

As of June 30, 2013, the total minimum purchase requirements included in these commitments were as follows:

Fuel Type	Power's Share of Commitments through 2017
	Millions
Nuclear Fuel	
Uranium	$ 470
Enrichment	$ 368
Fabrication	$ 137
Natural Gas	$ 953
Coal	$ 493

Regulatory Proceedings

New Jersey Clean Energy Program

In June 2013, the BPU established the funding level for fiscal 2014 applicable to its Renewable Energy and Energy Efficiency programs. The fiscal year 2014 aggregate funding for all electric distribution companies (EDCs) is $345 million with PSE&G's share of the funding at $200 million. PSE&G has a current liability of $204 million and a noncurrent liability of $27 million as of June 30, 2013 for its outstanding share of the fiscal 2014 and remaining fiscal 2013 funding. The liability is reduced as normal payments are made. The liability has been recorded with an offsetting Regulatory Asset, since the costs associated with this program are recovered from PSE&G ratepayers through the Societal Benefits Charge (SBC).

Long-Term Capacity Agreement Pilot Program (LCAPP)

In 2011, New Jersey enacted the LCAPP Act that resulted in the selection of three generators to build a total of approximately 2,000 MW of new combined-cycle generating facilities located in New Jersey. Each of the New Jersey EDCs, including PSE&G, was directed to execute a standard offer capacity agreement (SOCA) with the three selected generators, but did so under protest preserving their legal rights. The SOCA provides for the EDCs to guarantee specified annual capacity payments to the generators subject to the terms and conditions of the agreement. Legal challenges to the BPU's implementation of the LCAPP Act were filed in New Jersey appellate court and this appeal is pending. In addition, the LCAPP Act itself has been challenged on constitutional grounds in federal court and that proceeding is ongoing. In July 2013, the SOCA contract with New Jersey Power Development LLC, a subsidiary of NRG Energy, Inc., was terminated early as a result of a default by the generator. The generator has accepted this early termination and this SOCA contract is no longer in effect. The other two SOCA contracts are currently in effect. SOCA contracts are for a 15-year term, which are scheduled to commence for one of the generators in the 2015/2016 delivery year and for the other generator in the 2016/2017 delivery year. These two contracts are for the aggregate notional amount of approximately 1,300 MWs of installed capacity. Based upon the expected percentage of state load that PSE&G will be serving during the term of these contracts, PSE&G would be responsible for the positive difference of the contract price and the annual RPM clearing price for approximately 52% or 676 MW of this amount provided that these generators satisfy their obligations under the SOCA, including the requirement that the specific generation units set forth in the contract achieve commercial operation.

The current estimated fair value of the SOCAs is recorded as a Derivative Asset or Liability with an offsetting Regulatory Asset or Liability on PSE&G's Consolidated Balance Sheets. See Note 12. Fair Value Measurements for additional information.

Superstorm Sandy

In late October 2012, Superstorm Sandy caused damage to PSE&G's transmission and distribution system throughout its service territory as well as to some of Power's generation infrastructure in the northern part of New Jersey. Strong winds and the resulting storm surge caused damage to switching stations, substations and generating infrastructure.

Power incurred an additional $22 million and $50 million of storm-related expense for the three months and six months ended June 30, 2013, respectively, primarily for repairs at certain generating stations in Power's fossil fleet. Power had incurred $85 million of costs in 2012. These costs were recognized in Operation and Maintenance Expense, offset by $25 million and $19 million of insurance recoveries in 2013 and 2012, respectively. Power's current estimate of the total costs required to restore its damaged facilities to their pre-Superstorm Sandy condition, including costs already incurred, is approximately $364 million.

Leveraged Lease Investments

In January 2012, PSEG entered into a specific matter closing agreement with the IRS settling all matters related to cross border lease transactions. This agreement settled the leasing dispute with finality for all tax periods in which PSEG realized tax deductions from these transactions. In January 2012, PSEG also signed a Form 870-AD settlement agreement covering all audit issues for tax years 1997 through 2003. In March 2012, PSEG executed a Form 870-AD settlement agreement covering all audit issues for tax years 2004 through 2006. These two agreements concluded ten years of audits for PSEG and the leasing issue for all tax years. For PSEG, the impact of these agreements was an increase in financial statement Income Tax Expense of approximately $175 million in the first quarter of 2012. In prior periods, PSEG had established financial statement tax liabilities for uncertain tax positions in the amount of $246 million with respect to these tax years. Accordingly, the settlement resulted in a net $71 million decrease in the first quarter of 2012 in the Income Tax Expense of PSEG.

S1-SSA-0009 - 17284

Past financial performance is no guarantee of future results.

Cash Impact

For tax years 1997 through 2003, the tax and interest PSEG owes the IRS as a result of this settlement will be reduced by the $320 million PSEG has on deposit with the IRS for this matter. PSEG paid a net deficiency for these years of approximately $4 million during the second quarter of 2012. Based upon the closing agreement and the Form 870-AD for tax years 2004 through 2006, PSEG owes the IRS approximately $620 million in tax and interest. Based on the settlement of the leasing dispute, for tax years 2007 through 2010, the IRS owes PSEG approximately $676 million. PSEG has filed amended returns for tax years 2007-2010 reflecting the impact of the settlement. These returns have been audited by the IRS and accepted as filed. As required by statute, the IRS presented the refund claim to the Joint Committee on Taxation for approval. In October 2012, PSEG was notified that the Joint Committee took no exception to the refund claim. In April 2013, PSEG received confirmation from the IRS which shows that overpayments from the 2008 through 2010 tax years have been applied to satisfy the liabilities due with respect to tax years 2004 through 2007. Accordingly, no further cash payments will be required with respect to the contested leasing transactions. In addition to the above, PSEG will claim a tax deduction for the accrued deficiency interest associated with this settlement in 2012, which gives rise to a cash tax savings of approximately $100 million.

Note 10. Changes in Capitalization

The following capital transactions occurred in the six months ended June 30, 2013:

Power

- paid cash dividends of $500 million to PSEG, and
- paid $300 million of 2.50% Senior Notes at maturity.

PSE&G

- issued $500 million of 2.375% Secured Medium-Term Notes, Series I due May 2023,
- paid $150 million of 5.00% Secured Medium-Term Notes at maturity,
- issued $400 million of 3.80% Secured Medium-Term Notes, Series H due January 2043,
- received $100 million capital contribution from PSEG,
- paid $100 million of Transition Funding's securitization debt, and
- paid $6 million of Transition Funding II's securitization debt.

Note 11. Financial Risk Management Activities

The operations of PSEG, Power and PSE&G are exposed to market risks from changes in commodity prices, interest rates and equity prices that could affect their results of operations and financial condition. Exposure to these risks is managed through normal operating and financing activities and, when appropriate, through hedging transactions.

Hedging transactions use derivative instruments to create a relationship in which changes to the value of the assets, liabilities or anticipated transactions exposed to market risks are expected to be offset by changes in the value of these derivative instruments.

Commodity Prices

The availability and price of energy commodities are subject to fluctuations due to weather, environmental policies, changes in supply and demand, state and federal regulatory policies, market conditions, transmission availability and other events. Power uses physical and financial transactions in the wholesale energy markets to mitigate the effects of adverse movements in fuel and electricity prices. Derivative contracts that do not qualify for hedge accounting or normal purchases/normal sales treatment are marked to market (MTM) with changes in fair value recorded in the income statement. The fair value for the majority of these contracts is obtained from quoted market sources. Modeling techniques using assumptions reflective of current market rates, yield curves and forward prices are used to interpolate certain prices when no quoted market exists.

The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Cash Flow Hedges

Power uses forward sale and purchase contracts, swaps and futures contracts to hedge

- forecasted energy sales from its generation stations and the related load obligations, and
- certain forecasted natural gas sales and purchases made to support the BGSS contract with PSE&G.

Certain of these derivative transactions are designated and effective as cash flow hedges. During the second quarter of 2012, Power de-designated certain of its commodity derivative transactions that had previously qualified as cash flow hedges as they were deemed to no longer be highly effective as required by the relevant accounting guidance. As a result, subsequent to June 1, 2012, Power recognizes all gains and losses from changes in the fair value of these derivatives immediately in earnings rather than deferring any such amounts in Accumulated Other Comprehensive Income (Loss). The fair values of Power's de-designated hedges were frozen in Accumulated Other Comprehensive Income (Loss) as the original forecasted transactions are still expected to occur and are reclassified into earnings as the original derivative transactions settle.

As of June 30, 2013 and December 31, 2012, the fair value and the impact on Accumulated Other Comprehensive Income (Loss) associated with accounting hedge activity were as follows:

	As of June 30, 2013	As of December 31, 2012
	Millions	
Fair Value of Cash Flow Hedges	$ 1	$ 3
Impact on Accumulated Other Comprehensive Income (Loss) (after tax)	$ 4	$ 9

The expiration date of the longest-dated cash flow hedge at Power is in 2014. Power's after-tax unrealized gains on these derivatives that are expected to be reclassified to earnings during the next 12 months are $4 million. There was no ineffectiveness associated with qualifying hedges as of June 30, 2013.

Trading Derivatives

The primary purpose of Power's wholesale marketing operation is to optimize the value of the output of the generating facilities via various products and services available in the markets it serves. Historically, Power engaged in trading of electricity and energy-related products where such transactions were not associated with the output or fuel purchase requirements of its facilities. This trading consisted mostly of energy supply contracts where Power secured sales commitments with the intent to supply the energy services from purchases in the market rather than from its owned generation. Such trading activities were marked to market through the income statement and represented less than one percent of gross margin (revenues less energy costs) on an annual basis. Effective July 2011, Power discontinued trading activities and anticipates that it will not enter into any more trading derivative contracts.

Other Derivatives

Power enters into additional contracts that are derivatives, but do not qualify for or are not designated as cash flow hedges. These transactions are intended to mitigate exposure to fluctuations in commodity prices and optimize the value of its expected generation. Trade types include financial options, futures, swaps, fuel purchases and forward purchases and sales of electricity. Changes in the fair market value of these contracts are recorded in earnings. PSE&G is a party to certain long-term natural gas sales contracts to optimize its pipeline capacity utilization. In addition, as further described in Note 9. Commitments and Contingent Liabilities, PSE&G was directed to execute long-term SOCAs with certain generators to support the LCAPP Act. These contracts qualify as derivatives and are marked to fair value with the offset recorded to Regulatory Assets and Liabilities.

Interest Rates

PSEG, Power and PSE&G are subject to the risk of fluctuating interest rates in the normal course of business. Exposure to this risk is managed by targeting a balanced debt maturity profile which limits refinancing in any given period or interest rate environment. In addition, they have used a mix of fixed and floating rate debt, interest rate swaps and interest rate lock agreements.

S1-SSA-0009 - 17286

The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Fair Value Hedges

PSEG enters into fair value hedges to convert fixed-rate debt into variable-rate debt. As of June 30, 2013, PSEG had seven interest rate swaps outstanding totaling $850 million. These swaps convert Power's $300 million of 5.5% Senior Notes due December 2015, $300 million of Power's $303 million of 5.32% Senior Notes due September 2016 and Power's $250 million of 2.75% Senior Notes due September 2016 into variable-rate debt. These interest rate swaps are designated and effective as fair value hedges. The fair value changes of the interest rate swaps are fully offset by the changes in the fair value of the underlying forecasted interest payments of the debt. As of June 30, 2013 and December 31, 2012, the fair value of all the underlying hedges was $42 million and $57 million, respectively.

Cash Flow Hedges

PSEG uses interest rate swaps and other derivatives, which are designated and effective as cash flow hedges, to manage its exposure to the variability of cash flows, primarily related to variable-rate debt instruments. The Accumulated Other Comprehensive Income (Loss) (after tax) related to interest rate derivatives designated as cash flow hedges was $(1) million and $(2) million as of June 30, 2013 and December 31, 2012, respectively.

Fair Values of Derivative Instruments

The following are the fair values of derivative instruments on the Condensed Consolidated Balance Sheets. The following tables also include disclosures for offsetting derivative assets and liabilities which are subject to a master netting or similar agreement. See Note 2. Recent Accounting Standards. In general, the terms of the agreements provide that in the event of an early termination the counterparties have the right to offset amounts owed or owing under that and any other agreement with the same counterparty. Accordingly, and in accordance with our accounting policy, these positions have been offset in the Condensed Consolidated Balance Sheets of Power, PSE&G and PSEG. The following tabular disclosure does not include the offsetting of trade receivables and payables.

	As of June 30, 2013						
	Power (A)				PSE&G(A)	PSEG (A)	Consolidated

(A) Substantially all of Power's and PSEG's derivative instruments are contracts subject to master netting agreements. Contracts not subject to master netting or similar agreements are immaterial and did not have any collateral posted or received as of June 30, 2013 and December 31, 2012. PSE&G does not have any derivative contracts subject to master netting or similar agreements.

(B) Represents the netting of fair value balances with the same counterparty (where the right of offset exists) and the application of collateral. All cash collateral received or posted that has been allocated to derivative positions, where the right of offset exists, has been offset in the statement of financial position. As of June 30, 2013 and December 31, 2012, net cash collateral paid of $1 million and $2 million, respectively, were netted against the corresponding net derivative contract positions. Of the $1 million as of June 30, 2013, cash collateral of $1 million was netted against current liabilities. Of the $2 million as of December 31, 2012, cash collateral of $(3) million and $5 million were netted against current assets and current liabilities, respectively.

Certain of Power’s derivative instruments contain provisions that require Power to post collateral. This collateral may be posted in the form of cash or credit support with thresholds contingent upon Power’s credit rating from each of the major credit rating agencies. The collateral and credit support requirements vary by contract and by counterparty. These credit risk-related contingent features stipulate that if Power were to be downgraded or lose its investment grade credit rating, it would be required to provide additional collateral. This incremental collateral requirement can offset collateral requirements related to other derivative instruments that are assets with the same counterparty, where the contractual right of offset exists under applicable master agreements. Power also enters into commodity transactions on the New York Mercantile Exchange (NYMEX) and Intercontinental Exchange (ICE). The NYMEX and ICE clearing houses act as counterparties to each trade. Transactions on NYMEX and ICE must adhere to comprehensive collateral and margin requirements.

The aggregate fair value of all derivative instruments with credit risk-related contingent features in a liability position that are not fully collateralized (excluding transactions on NYMEX and ICE that are fully collateralized) was $82 million and $98 million as of June 30, 2013 and December 31, 2012, respectively. As of June 30, 2013 and December 31, 2012, Power had the contractual right of offset of $46 million and $61 million, respectively, related to derivative instruments that are assets with the same counterparty under agreements and net of margin posted. If Power had been downgraded or lost its investment grade rating, it would have had additional collateral obligations of $36 million and $37 million as of June 30, 2013 and December 31, 2012, respectively, related to its derivatives, net of the contractual right of offset under master agreements and the application of collateral. This potential additional collateral is included in the $679 million and $654 million as of June 30, 2013 and December 31, 2012, respectively, discussed in Note 9. Commitments and Contingent Liabilities.

The following reconciles the Accumulated Other Comprehensive Income for derivative activity included in the Accumulated Other Comprehensive Loss of PSEG on a pre-tax and after-tax basis:

Accumulated Other Comprehensive Income	Pre-Tax	After-Tax
	Millions	
Balance as of December 31, 2012	**$ 12**	**$ 7**
Less: Gain Reclassified into Income	(6)	(4)
Balance as of March 31, 2013	**$ 6**	**$ 3**
Less: Gain Reclassified into Income	(1)	—
Balance as of June 30, 2013	**$ 5**	**$ 3**

The following shows the effect on the Condensed Consolidated Statements of Operations of derivative instruments not designated as hedging instruments or as normal purchases and sales for the three months and six months ended June 30, 2013 and 2012:

Derivatives Not Designated as Hedges	Location of Pre-Tax Gain (Loss) Recognized in Income on Derivatives	Pre-Tax Gain (Loss) Recognized in Income on Derivatives			
		Three Months Ended June 30,		Six Months Ended June 30,	
		2013	2012	2013	2012
		Millions			
PSEG and Power					
Energy-Related Contracts	Operating Revenues	$ 163	$ 40	$ (46)	$ 235
Energy-Related Contracts	Energy Costs	(5)	3	53	(23)
Total PSEG and Power		**$ 158**	**$ 43**	**$ 7**	**$ 212**

Power's derivative contracts reflected in the preceding tables include contracts to hedge the purchase and sale of electricity and natural gas and the purchase of fuel. Not all of these contracts qualify for hedge accounting. Most of these contracts are marked to market. The tables above do not include contracts for which Power has elected the normal purchase/normal sales exemption, such as its BGS contracts and certain other energy supply contracts that it has with other utilities and companies with retail load. In addition, PSEG has interest rate swaps designated as fair value hedges. The effect of these hedges was to reduce interest expense by $5 million for each of the three month periods and $10 million and $11 million for the six month periods ended June 30, 2013 and 2012, respectively.

Capacity	MW days	4	—	—	4
FTRs	MWh	19	—	19	—
Interest Rate Swaps	U.S. Dollars	850	850	—	—
Coal	Tons	1	—	1	—

Credit Risk

Credit risk relates to the risk of loss that we would incur as a result of non-performance by counterparties pursuant to the terms of their contractual obligations. We have established credit policies that we believe significantly minimize credit risk. These policies include an evaluation of potential counterparties' financial condition (including credit rating), collateral requirements under certain circumstances and the use of standardized agreements, which allow for the netting of positive and negative exposures associated with a single counterparty. In the event of non-performance or non-payment by a major counterparty, there may be a material adverse impact on Power's and PSEG's financial condition, results of operations or net cash flows.

As of June 30, 2013, 95% of the credit exposure for Power's operations was with investment grade counterparties. Credit exposure is defined as any positive results of netting accounts receivable/accounts payable and the forward value of open positions (which includes all financial instruments including derivatives and non-derivatives and normal purchases/normal sales).

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠
The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

The following table provides information on Power's credit risk from others, net of cash collateral, as of June 30, 2013. It further delineates that exposure by the credit rating of the counterparties and provides guidance on the concentration of credit risk to individual counterparties and an indication of the quality of Power's credit risk by credit rating of the counterparties.

Rating	Current Exposure	Securities held as Collateral	Net Exposure	Number of Counterparties >10%	Net Exposure of Counterparties >10%	
		Millions			Millions	
Investment Grade—External Rating	$ 225	$ 36	$ 225	1	$ 114	(A)
Non-Investment Grade—External Rating	1	—	1	—	—	
Investment Grade—No External Rating	8	—	8	—	—	
Non-Investment Grade—No External Rating	11	—	11	—	—	
Total	**$ 245**	**$ 36**	**$ 245**	**1**	**$ 114**	

(A) Represents net exposure with PSE&G.

The net exposure listed above, in some cases, will not be the difference between the current exposure and the collateral held. A counterparty may have posted more cash collateral than the outstanding exposure, in which case there would be no exposure. When letters of credit have been posted as collateral, the exposure amount is not reduced, but the exposure amount is transferred to the rating of the issuing bank. As of June 30, 2013, Power had 176 active counterparties.

Note 12. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance for fair value measurement emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and establishes a fair value hierarchy that distinguishes between assumptions based on market data obtained from independent sources and those based on an entity's own assumptions. The hierarchy prioritizes the inputs to fair value measurement into three levels:

Level 1—measurements utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that PSEG, Power and PSE&G have the ability to access. These consist primarily of listed equity securities.

Level 2—measurements include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and other observable inputs such as interest rates and yield curves that are observable at commonly quoted intervals. These consist primarily of non-exchange traded derivatives such as forward contracts or options and most fixed income securities.

Level 3—measurements use unobservable inputs for assets or liabilities, based on the best information available and might include an entity's own data and assumptions. In some valuations, the inputs used may fall into different levels of the hierarchy. In these cases, the financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. As of June 30, 2013, these consist primarily of electric swaps whose basis is deemed significant to the fair value measurement, long-term electric load contracts, long-term gas supply and capacity contracts.

The following tables present information about PSEG's, Power's and PSE&G's respective assets and (liabilities) measured at fair value on a recurring basis as of June 30, 2013 and December 31, 2012, including the fair value measurements and the levels of inputs used in determining those fair values. Amounts shown for PSEG include the amounts shown for Power and PSE&G.

prices. Prices used in the valuation process are also corroborated independently by management to determine that values are based on actual transaction data or, in the absence of transactions, bid and offers for the day. Examples may include certain exchange and non-exchange traded capacity and electricity contracts and natural gas physical or swap contracts based on market prices, basis adjustments and other premiums where adjustments and premiums are not considered significant to the overall inputs.

S1-SSA-0009 - 17296

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Level 3—For energy-related contracts, which include more complex agreements where limited observable inputs or pricing information are available, modeling techniques are employed using assumptions reflective of contractual terms, current market rates, forward price curves, discount rates and risk factors, as applicable. Fair values of other energy contracts may be based on broker quotes that we cannot corroborate with actual market transaction data.

(B) Interest rate swaps are valued using quoted prices on commonly quoted intervals, which are interpolated for periods different than the quoted intervals, as inputs to a market valuation model. Market inputs can generally be verified and model selection does not involve significant management judgment.

(C) The NDT Fund maintains investments in various equity and fixed income securities classified as "available for sale." The Rabbi Trust maintains investments in an S&P 500 index fund and various fixed income securities classified as "available for sale." These securities are generally valued with prices that are either exchange provided (equity securities) or market transactions for comparable securities and/or broker quotes (fixed income securities).

Level 1—Investments in marketable equity securities within the NDT Fund are primarily investments in common stocks across a broad range of industries and sectors. Most equity securities are priced utilizing the principal market close price or, in some cases, midpoint, bid or ask price (primarily Level 1). The Rabbi Trust equity index fund is valued based on quoted prices in an active market (Level 1).

Level 2—NDT and Rabbi Trust fixed income securities are limited to investment grade corporate bonds and United States Treasury obligations or Federal Agency asset-backed securities with a wide range of maturities. Since many fixed income securities do not trade on a daily basis, they are priced using an evaluated pricing methodology that varies by asset class and reflects observable market information such as the most recent exchange price or quoted bid for similar securities. Market-based standard inputs typically include benchmark yields, reported trades, broker/dealer quotes and issuer spreads (primarily Level 2). Short-term investments and certain commingled temporary investments are valued using observable market prices or market parameters such as time-to-maturity, coupon rate, quality rating and current yield (primarily Level 2).

(D) Cash collateral netting represents collateral amounts netted against derivative assets and liabilities as permitted under the accounting guidance for Offsetting of Amounts Related to Certain Contracts.

Additional Information Regarding Level 3 Measurements

For valuations that include both observable and unobservable inputs, if the unobservable input is determined to be significant to the overall inputs, the entire valuation is categorized in Level 3. This includes derivatives valued using indicative price quotations for contracts with tenors that extend into periods with no observable pricing. In instances where observable data is unavailable, consideration is given to the assumptions that market participants would use in valuing the asset or liability. This includes assumptions about market risks such as liquidity, volatility and contract duration. Such instruments are categorized in Level 3 because the model inputs generally are not observable. PSEG's Risk Management Committee approves risk management policies and objectives for risk assessment, control and valuation, counterparty credit approval, and the monitoring and reporting of risk exposures. The Risk Management Committee reports to the Audit Committee of the PSEG Board of Directors on the scope of the risk management activities and is responsible for approving all valuation procedures at PSEG. Forward price curves for the power market utilized by Power to manage the portfolio are maintained and reviewed by PSEG's Enterprise Risk Management market pricing group, and used for financial reporting purposes. PSEG considers credit and nonperformance risk in the valuation of derivative contracts categorized in Levels 2 and 3, including both historical and current market data, in its assessment of credit and nonperformance risk by counterparty. The impacts of credit and nonperformance risk were not material to the financial statements.

The following tables provide details surrounding significant Level 3 valuations as of June 30, 2013 and December 31, 2012. For Power, in general, electric swaps are valued based on at least two pricing inputs, basis and underlying. To the extent the basis component is based on a single broker quote and is significant to the fair value of the electric swap, it is categorized as Level 3. Power's electric load contracts in which load consumption may change hourly are fair valued using certain unobservable inputs, such as historic load variability. For Power, long-term electric capacity contracts are measured using capacity auction prices. If the fair value for the unobservable tenor is significant, then the entire capacity contract is categorized as Level 3. For Power and PSE&G, long-term gas supply contracts are measured at fair value using both actively traded pricing points as well as unobservable inputs such as gas prices beyond observable periods and long-term basis quotes and, accordingly, the fair value measurements are classified in Level 3. For PSE&G, long-term electric capacity contracts are measured at fair value using both observable capacity prices and unobservable inputs consisting of forecasts of future long-term electric capacity prices and include adjustments for contingencies, such as litigation risk and plant construction risk. Accordingly, the fair value measurements are classified as Level 3.

natural gas. Unobservable inputs for the long-term electric capacity contracts include forecasted capacity prices in the range of $100 to $400/MW day.

Significant unobservable inputs listed above would have a direct impact on the fair values of the above Level 3 instruments if they were adjusted. For energy-related contracts in cases where Power and PSE&G are sellers, an increase in either the power basis or the load variability or the longer-term gas basis amounts would decrease the fair value. For long-term electric capacity contracts where PSE&G is a buyer, an increase in the capacity price would increase the fair value.

A reconciliation of the beginning and ending balances of Level 3 derivative contracts and securities for the three months and six months ended June 30, 2013 and 2012, respectively, follows:

Changes in Level 3 Assets and (Liabilities) Measured at Fair Value on a Recurring Basis for the Six Months Ended June 30, 2012

Description	Balance as of January 1, 2012	Total Gains or (Losses) Realized/Unrealized: Included in Income (E)	Total Gains or (Losses) Realized/Unrealized: Included in Regulatory Assets/ Liabilities (B)	Purchases (Sales)	Issuances (Settlements) (C)	Transfers In/Out (D)	Balance as of June 30, 2012
			Millions				
PSEG							
Net Derivative Assets (Liabilities)	$ 21	$ 41	$ (55)	$ —	$ (43)	$ —	$ (36)
Non-Recourse Debt	$ (50)	$ 50	$ —	$ —	$ —	$ —	$ —
Power							
Net Derivative Assets (Liabilities)	$ 24	$ 41	$ —	$ —	$ (43)	$ —	$ 22
PSE&G							
Net Derivative Assets (Liabilities)	$ (3)	$ —	$ (55)	$ —	$ —	$ —	$ (58)

(A) PSEG's and Power's gains and losses attributable to changes in net derivative assets and liabilities include $17 million and $7 million in Operating Income in 2013 and 2012, respectively. Of the $17 million in Operating Income in 2013, $16 million is unrealized. Of the $7 million in Operating Income in 2012, $(7) million is unrealized. Energy Holdings' release from its obligation under the non-recourse debt is included in PSEG's Operating Income for 2012 and is offset by the write-off of the related assets.

(B) Mainly includes gains/losses on PSE&G's derivative contracts that are not included in either earnings or OCI, as they are deferred as a Regulatory Asset/Liability and are expected to be recovered from/returned to PSE&G's customers.

(C) Represents $(14) million in settlements for the three months ended June 30, 2012. Includes $10 million and $(43) million in settlements for the six months ended June 30, 2013 and 2012, respectively.

(D) During the three months ended June 30, 2013 and six months ended June 30, 2013, $6 million and $4 million, respectively, of net derivatives assets/liabilities were transferred from Level 3 to Level 2 due to more observable pricing for the underlying securities. The transfer was recognized as of the beginning of the first quarter (i.e. the quarter in which the transfer occurred), as per PSEG's policy. There were no transfers among levels during the three months ended June 30, 2012 and the six months ended June 30, 2012.

(E) PSEG's and Power's gains and losses attributable to changes in net derivative assets and liabilities include $(17) million and $41 million in Operating Income in 2013 and 2012, respectively. Of the $(17) million in Operating Income in 2013, $(8) million is unrealized. Of the $41 million in Operating Income in 2012, $(2) million is unrealized. Energy Holdings' release from its obligation under the non-recourse debt is included in PSEG's Operating Income for 2012 and is offset by the write-off of the related assets.

As of June 30, 2013, PSEG carried $1.9 billion of net assets that are measured at fair value on a recurring basis, of which $35 million of net liabilities were measured using unobservable inputs and classified as Level 3 within the fair value hierarchy.

As of June 30, 2012, PSEG carried $1.7 billion of net assets that are measured at fair value on a recurring basis, of which $36 million of net liabilities were measured using unobservable inputs and classified as Level 3 within the fair value hierarchy.

Fair Value of Debt

The estimated fair values were determined using the market quotations or values of instruments with similar terms, credit ratings, remaining maturities and redemptions as of June 30, 2013 and December 31, 2012.

	June 30, 2013		December 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	Millions			
Long-Term Debt:				
PSEG (Parent) (A)	$ 27	$ 42	$ 38	$ 57
Power -Recourse Debt (B)	2,041	2,361	2,340	2,818
PSE&G (B)	5,540	5,627	4,795	5,606
Transition Funding (PSE&G) (B)	590	643	690	765
Transition Funding II (PSE&G) (B)	27	28	32	34
Energy Holdings:				
Project Level, Non-Recourse Debt (C)	25	25	44	44
Total Long-Term Debt	**$ 8,250**	**$ 8,726**	**$ 7,939**	**$ 9,324**

(A) Fair value represents net offsets to debt resulting from adjustments from interest rate swaps entered into to hedge certain debt at Power. Carrying amount represents such fair value reduced by the unamortized premium resulting from a debt exchange entered into between Power and Energy Holdings.

(B) The debt fair valuation is based on the present value of each bond's future cash flows. The discount rates used in the present value analysis are based on an estimate of new issue bond yields across the treasury curve. When a bond has embedded options, an interest rate model is used to reflect the impact of interest rate volatility into the analysis (primarily Level 2 measurements).

(C) Non-recourse project debt is valued as equivalent to the amortized cost and is classified as a Level 3 measurement.

(A) Other primarily consists of activity at PSEG (as parent company), Energy Holdings, Services and intercompany eliminations.

Note 14. Income Taxes

PSEG's, Power's and PSE&G's effective tax rates for the three months and six months ended June 30, 2013 and 2012 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
PSEG	39.6%	40.9%	40.1%	33.7%
Power	40.6%	41.2%	40.3%	40.3%
PSE&G	37.2%	38.4%	39.6%	32.7%

For the three months ended June 30, 2013, as compared to the same period in the prior year, PSEG's and PSE&G's effective tax rates were lower due primarily to depreciation flow-through.

For the six months ended June 30, 2013, PSEG's and PSE&G's effective tax rates were higher than last year's effective tax rates due primarily to a settlement in 2012 with the IRS in regard to leveraged leases and the federal tax audit for tax years 1997 through 2006.

The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 included a provision making qualified property placed into service after September 8, 2010 and before January 1, 2012, eligible for 100% bonus depreciation for tax purposes. In addition, qualified property placed into service in 2012 was eligible for 50% bonus depreciation for tax purposes. On January 2, 2013, the President signed into law the American Taxpayer Relief Act of 2012 that further extends the 50% bonus depreciation for qualified property placed into service before January 1, 2014. These provisions contain rules which afford certain projects which have a long production period, the benefit of bonus depreciation. These provisions have generated

cash for PSEG through tax benefits related to the accelerated depreciation. These tax benefits would have otherwise been received over an estimated average 20 year period.

In June 2009, September 2008 and December 2007, PSEG made tax deposits with the IRS in the amounts of $140 million, $80 million and $100 million, respectively, to defray potential interest costs associated with disputed tax assessments associated with certain lease investments. On January 31, 2012, PSEG signed a specific matter closing agreement with the IRS regarding this matter. Based on this agreement, these deposits were applied against tax and interest due pursuant to the closing agreement. Further, on the same date, PSEG signed a Form 870-AD settlement agreement covering all audit issues for tax years 1997 through 2003. In March 2012, PSEG executed a Form 870-AD settlement agreement covering all audit issues for tax years 2004 through 2006. These two agreements concluded ten years of audits for PSEG and the leasing issue for all tax years. The financial statement impacts of these agreements, net of existing financial statement reserves, was a net decrease in tax expense in the first quarter of 2012 of $71 million for PSEG, including $30 million and $1 million for PSE&G and Power, respectively.

Note 16. Earnings Per Share (EPS) and Dividends

Diluted EPS is calculated by dividing Net Income by the weighted average number of shares of common stock outstanding, including shares issuable upon exercise of stock options outstanding or vesting of restricted stock awards granted under PSEG's stock compensation plans and upon payment of performance units or restricted stock units. The following table shows the effect of these stock options, performance units and restricted stock units on the weighted average number of shares outstanding used in calculating diluted EPS:

(A) Other activities include amounts applicable to PSEG (as parent company), Services and intercompany eliminations, primarily relating to intercompany transactions between Power and PSE&G. No gains or losses are recorded on any intercompany transactions; rather, all intercompany transactions are priced in accordance with applicable regulations, including affiliate pricing rules, at cost or, in the case of the BGS and BGSS contracts between Power and PSE&G, at rates prescribed by the BPU. For a further discussion of the intercompany transactions between Power and PSE&G, see Note 18. Related-Party Transactions.

(A) PSE&G has entered into a requirements contract with Power under which Power provides the gas supply services needed to meet PSE&G's BGSS and other contractual requirements. Power has also entered into contracts to supply energy, capacity and ancillary services to PSE&G through the BGS auction process.

(B) Services provides and bills administrative services to Power and PSE&G at cost. In addition, Power and PSE&G have other payables to Services, including amounts related to certain common costs, such as pension and OPEB costs, which Services pays on behalf of each of the operating companies.

(C) PSEG files a consolidated federal income tax return with its affiliated companies. A tax allocation agreement exists between PSEG and each of its affiliated companies. The general operation of these agreements is that the subsidiary company will compute its taxable income on a stand-alone basis. If the result is a net tax liability, such amount shall be paid to PSEG. If there are net operating losses and/or tax credits, the subsidiary shall receive payment for the tax savings from PSEG to the extent that PSEG is able to utilize those benefits.

(D) Power's short-term loans with PSEG are for working capital and other short-term needs. Interest Income and Interest Expense relating to these short-term funding activities were immaterial.

(E) Power and PSE&G have advanced working capital to Services. The amounts are included in Other Noncurrent Assets on Power's and PSE&G's Condensed Consolidated Balance Sheets.

(F) Pursuant to a BPU Order, certain BGS suppliers will be reimbursed for the cost they incurred above $300 per Solar Renewable Energy Certificate (SREC) or per Solar Alternative Compliance Payment (SACP) during the period June 1, 2008 through May 31, 2010 and such excess cost will be passed on to ratepayers. In a December 2012 order, the BPU approved a Stipulation of Settlement (Stipulation) that described the mechanism by which BGS suppliers recover reasonable and prudently-incurred costs for these SRECs. In accordance with the Stipulation, New Jersey's EDCs, including PSE&G, made a Verification Filing defining the proposed BGS Supplier payments. PSE&G has estimated and accrued a total liability for the excess SREC cost expected to be recovered from ratepayers of $17 million as of June 30, 2013 and December 31, 2012, including approximately $9 million and $7 million for Power's share which is included in PSE&G's Accounts Receivable (Payable)—Affiliated Companies as of June 30, 2013 and December 31, 2012, respectively. Under current accounting guidance, Power was unable to record the related intercompany receivable on its Condensed Consolidated Balance Sheet, until the BPU issued an Order approving such payments. As a result, PSE&G's liability to Power was not eliminated in consolidation and is included in Other Current Liabilities on PSEG's Condensed Consolidated Balance Sheet as of June 30, 2013 and December 31, 2012. On May 29, 2013, the BPU issued an Order approving the additional BGS payment for these SRECs with a 45 day appeal period which expired in July 2013 with no appeals filed. As a result, Power recorded its $9 million receivable from PSE&G in July 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

This combined MD&A is separately filed by PSEG, Power and PSE&G. Information contained herein relating to any individual company is filed by such company on its own behalf. Power and PSE&G each make representations only as to itself and make no representations whatsoever as to any other company.

PSEG's business consists of three reportable segments, which are:

- **Power,** our wholesale energy supply company that integrates its generating asset operations with its wholesale energy, fuel supply, energy trading and marketing and risk management activities primarily in the Northeast and Mid-Atlantic United States,
- **PSE&G,** our public utility company which provides electric transmission services and distribution of electric energy and natural gas in New Jersey; implements demand response and energy efficiency programs and invests in solar generation, and
- **Energy Holdings,** which principally owns energy-related leveraged leases and solar generation projects.

Our business discussion in Part I, Item 1. Business of our 2012 Annual Report on 10-K (Form 10-K) provides a review of the regions and markets where we operate and compete, as well as our strategy for conducting our businesses within these markets, focusing on operational excellence, financial strength and making disciplined investments. Our risk factor discussion in Part I Item 1A of Form 10-K provides information about factors that could have a material adverse impact on our businesses. The following supplements that discussion and the discussion included in the Overview of 2012 and Future Outlook provided in Item 7 in our Form 10-K by describing significant events and business developments that have occurred during 2013 and changes to the key factors that we expect may drive our future performance. The following discussion refers to the Condensed Consolidated Financial Statements (Statements) and the Related Notes to Condensed Consolidated Financial Statements (Notes). This discussion should be read in conjunction with such Statements, Notes, the 2012 Form 10-K and the Quarterly Report on Form 10-Q for the quarter ended March 31, 2013.

OVERVIEW OF 2013 AND FUTURE OUTLOOK

Our business plan is designed to maintain earnings stability while achieving growth in recognition of market, regulatory and economic trends. We continue to focus on operational excellence to provide the foundation for our financial strength, which enables us to invest in a disciplined way.

Our financial results for the first six months of 2013 were lower when compared to the first half of 2012. In the power markets in which our generation fleet operates, natural gas prices have a major impact on the price that generators receive for their output. While wholesale natural gas prices during the period remained low relative to historic prices following multiple years of steep declines, financial results for our generation operations were favorably impacted by increased output and higher market prices driven by colder winter weather in the period as compared to the first six months in 2012, as well as cost controls, partially offset by mark-to market losses in 2013 due to the impact of rising prices on our forward sale positions.

Under the PJM capacity auction conducted in May 2013, Power cleared 8,637 MW of its generating capacity at an average price of $166 per MW-day for the 2016-2017 delivery period. While this year's auction resulted in lower clearing prices for the PJM Regional Transmission Organization (RTO), Power benefited from higher prices than the rest of the RTO, as the majority of its generation fleet is situated in the relatively constrained Eastern part of PJM. For a more detailed discussed on the RPM capacity auction, refer to Part II. Item 5. Other Information—Federal Regulation—Capacity Market Issues.

Our utility business benefited from increased transmission investment during the first half of the year, but financial results were impacted by the absence of last year's tax settlement. In the first six months of 2013, we continued to invest capital in transmission and distribution infrastructure projects, aimed at maintaining the reliability of our service to our customers. Over the past few years, these types of investments have altered the business mix of our results of operations to reflect a higher percentage contribution by our regulated utility.

In developing and implementing our strategy of operational excellence, financial strength and disciplined investment, we monitor significant regulatory and legislative developments. Competitive wholesale power market design is of particular importance to our results and we continue to advocate for policies and rules that promote competitive electricity markets. This includes opposing efforts to subsidize generation and procurement activities in New Jersey in connection with the Long-Term Capacity Agreement Pilot Program (LCAPP) and in Maryland through the Maryland Public Service Commission Request for Proposal and supporting rule changes which we believe are necessary to avoid artificial price suppression and other distortions in the energy and capacity markets.

S1-SSA-0009 - 17316

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

We continued to monitor and advocate for the development and implementation of fair and reasonable rules by the U.S. Environmental Protection Agency (EPA). In particular, the EPA's 316(b) rule on cooling water intake could adversely impact future nuclear and fossil operations and costs. Clean Air Act regulations governing hazardous air pollutants under the EPA's Maximum Achievable Control Technology (MACT) rules are also of significance; however, we believe our generation business remains well-positioned for such regulations if and when they are implemented.

As discussed in further detail under Part II. Item 5. Other Information—Federal Regulation—Transmission Regulation— Transmission Policy Developments, the FERC's rules under Order 1000 altered the right of first refusal previously held by incumbent utilities to build all transmission within their respective service territories. We are challenging the FERC's determination in court as we do not believe that the FERC sufficiently justified its decision to alter this right embedded in the FERC-approved contracts and tariffs. At the same time, the FERC's action presents opportunities for us to construct transmission outside of our service territory.

At year-end 2012, we were severely impacted by Superstorm Sandy, which resulted in the highest level of customer outages in our history. We sustained significant damage to some of our generation, transmission and distribution facilities. The New Jersey Board of Public Utilities (BPU) issued an order allowing us to defer actually incurred prudent otherwise unreimbursed, incremental, storm restoration costs not otherwise recoverable through base rates or insurance. In February 2013, the BPU announced that it would initiate a generic proceeding to evaluate the prudency of extraordinary, storm-related costs incurred by all of the regulated utilities as a result of the natural disasters experienced in New Jersey in 2011 and 2012. In June 2013, we made a compliance filing with the BPU providing the details of our storm restoration costs for Superstorm Sandy as well as other major storms and seeking to demonstrate that we responded to these extreme weather events in a timely, diligent and thorough manner and that the costs incurred were prudent. We requested that the BPU issue an Order approving the compliance filing and specifically finding that the storm costs incurred were reasonable and prudent, and should be recovered from ratepayers.

As discussed further in Note 9. Commitments and Contingent Liabilities, in the first six months of 2013, Power incurred significant storm-related expenses, primarily for repair at certain of its coal and gas-fired generating stations. We are seeking recovery from our insurers for the property damage, above our self-insured retentions; however, no assurances can be given relative to the timing or amount of such recovery. In June 2013, we filed suit against the insurance carriers seeking legal interpretation of certain terms in the insurance policies regarding losses resulting from damage caused by Superstorm Sandy's storm surge. For a more detailed discussion concerning this proceeding, refer to Part II Item 1. Legal Proceedings—Superstorm Sandy.

On February 20, 2013, we filed a petition with the BPU describing our Energy Strong program, consisting of $3.9 billion of proposed improvements we recommend making to our gas and electric distribution systems over a ten year period to harden and improve resiliency. In the petition, we sought approval for $2.6 billion of the $3.9 billion of investments over an initial five year period, plus associated expenses, and to receive contemporaneous recovery of and on such investments. We cannot predict the outcome of this pending proceeding, including whether the program will be approved or the terms under which it would be approved. We anticipate seeking BPU approval to complete our investment under the program at a later date. In addition, we anticipate investing an additional $1.5 billion in our transmission system for the same reason. As proposed, we believe that the rate impacts of the Energy Strong program will be significantly muted as a result of scheduled reductions to customer bills that will be taking place over the next few years and assuming continued low gas prices. See Part II Item 5. Other Information—State Regulation—Energy Strong Program for additional details.

We continue to take all necessary steps in connection with the expected January 1, 2014 commencement of our management of the Long Island Power Authority (LIPA) transmission and distribution (T&D) system. Legislation enacted in New York in July 2013 would enable us to have an expanded role in management of LIPA's T&D system. A proposed revised contract with LIPA is currently under negotiation. See Part II Item 5. Other Information—Business Operations and Strategy—Energy Holdings—Products and Services for additional details.

Operational Excellence

We emphasize operational performance while developing opportunities in both our competitive and regulated businesses. Flexibility in our generating fleet has allowed us to take advantage of market opportunities presented in the first half of the year as we remain diligent in managing costs. In the first six months of 2013, our

- outstanding performance allowed us to increase generation to meet loads, and
- construction of transmission and solar projects proceeded on schedule and within budget.

Financial Strength

Our financial position remained strong during the first six months of 2013 as we:

- had cash on hand of $164 million as of June 30, 2013,
- extended the expiration date of approximately half of our credit facilities, and maintained substantial liquidity and solid investment grade credit ratings, as evidenced by the recent credit rating upgrades by Standard & Poor's (S&P) of PSEG, Power and PSE&G as disclosed below in Liquidity and Capital Resources—Credit Ratings,
- completed pension and other postretirement benefit funding for 2013,
- refinanced PSE&G maturing debt at historically low rates and repaid Power's maturing debt with cash on hand, and
- increased our indicated annual dividend to $1.44.

We expect to be able to fund our proposed Energy Strong program with internally generated cash and external debt financing .

Disciplined Investment

We seek to invest in areas that complement our existing business and provide reasonable risk-adjusted returns. These areas include upgrading our energy infrastructure, responding to trends in environmental protection and providing new energy supplies in domestic markets with growing demand. In addition to the proposed Energy Strong program discussed above, in the first six months of 2013 we

- made additional investments in transmission infrastructure projects,
- continued to execute our existing BPU-approved utility programs,
- obtained approval from the BPU to increase our spending up to $247 million and $199 million under our Solar 4 All Extension and Solar Loan III investment programs, respectively (see Part II. Item 5. Other Information—State Regulation for further detail), and
- continued construction of a 19 MW solar project in Arizona.

Delays in the construction schedules of our projects could impact their costs as well as the timing of expected revenues.

Future Outlook

Our future success will depend on our ability to continue to maintain strong operational and financial performance in a difficult economy and cost-constrained environment, to capitalize on or otherwise address appropriately regulatory and legislative developments and to respond to the issues and challenges described below. In order to do this, we must continue to:

- focus on controlling costs while maintaining safety and reliability and complying with applicable standards and requirements,
- successfully re-contract our open supply positions,
- execute our capital investment program, including investments for growth that yield contemporaneous and reasonable risk-adjusted returns, while enhancing the resiliency of our infrastructure and maintaining the reliability of the service we provide to our customers,
- advocate for measures to ensure the implementation by PJM and FERC of market design rules that continue to protect competition and achieve appropriate Reliability Pricing Model (RPM) and BGS pricing, and
- engage multiple stakeholders, including regulators, government officials, customers and investors.

For the remainder of 2013 and beyond, the key issues and challenges we expect our business to confront include

- regulatory and political uncertainty, particularly with regard to future energy policy, design of energy and capacity markets, transmission policy and environmental regulation,
- uncertainty in the national and regional economic recovery and continuing customer conservation efforts, which impact customer demand,
- the continuing potential for sustained lower natural gas and electricity prices, both at market hubs and at locations where we operate,
- the aftermath of Hurricane Irene and Superstorm Sandy, including addressing the BPU's review of performance and communications, as well as cost recovery and opportunities for investment in system strengthening, including our proposed Energy Strong program,
- financially-stressed power plant leveraged lease investments,
- delays and other obstacles that might arise in connection with the construction of our transmission and distribution projects, including in connection with permitting and regulatory approvals, and
- the successful transition to our management of the LIPA transmission and distribution system. See Part II Item 5. Other Information—Business Operations and Strategy—Products and Services for additional details.

RESULTS OF OPERATIONS

The results for PSEG, PSE&G, Power and Energy Holdings for the three months and six months ended June 30, 2013 and 2012 are presented below:

Earnings (Losses)	Three Months Ended June 30, 2013	Three Months Ended June 30, 2012	Six Months Ended June 30, 2013	Six Months Ended June 30, 2012
	Millions			
Power	$ 204	$ 104	$ 341	$ 357
PSE&G	121	101	300	298
Energy Holdings	4	2	4	42
Other (A)	4	4	8	7
PSEG Net Income	**$ 333**	**$ 211**	**$ 653**	**$ 704**

Earnings Per Share (Diluted)	Three Months Ended June 30, 2013	Three Months Ended June 30, 2012	Six Months Ended June 30, 2013	Six Months Ended June 30, 2012
PSEG Net Income	**$ 0.66**	**$ 0.42**	**$ 1.29**	**$ 1.39**

(A) Other primarily includes parent company interest and financing activity and certain administrative and general expenses.

Our results include the realized gains, losses and earnings on Power's Nuclear Decommissioning Trust (NDT) Fund and other related NDT activity. This includes the net realized gains, interest and dividend income and other costs related to the NDT Fund which are recorded in Other Income and Deductions. This also includes impairments on certain NDT securities which are included in Other-Than-Temporary Impairments and the interest accretion expense on Power's nuclear Asset Retirement Obligation (ARO), which is recorded in Operation and Maintenance Expense and the depreciation related to the ARO asset.

Our results also include the after-tax impacts of non-trading mark-to-market (MTM) activity, which consist of the financial impact from positions with forward delivery dates.

The variances in our Net Income include the changes related to NDT and MTM shown in the chart below:

	Three Months Ended June 30, 2013	Three Months Ended June 30, 2012	Six Months Ended June 30, 2013	Six Months Ended June 30, 2012
	Millions, after tax			
NDT Fund Income (Expense)	$ 8	$ 4	$ 17	$ 9
Non-Trading MTM Gains (Losses)	$ 80	$ (10)	$ (25)	$ 42

Our $122 million increase in Net Income for the three months ended June 30, 2013 was driven primarily by

- an increase in net MTM gains in 2013 resulting from a decrease in prices on forward positions, and
- higher revenues due to increased investments in transmission projects.

Our $51 million decrease in Net Income for the six months ended June 30, 2013 was driven primarily by

- lower average pricing and lower volumes of electricity sold under the BGS contracts and wholesale load contracts at Power,
- higher gas costs related to our BGSS contractual obligations and higher generation fuel costs,
- higher MTM losses due to an increase in prices on forward prices in PJM,

S1-SSA-0009 - 17320

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

- higher Operation and Maintenance Costs, including repairs related to damage caused by Superstorm Sandy, and
- higher Income Tax Expense due to the absence of tax benefits related to the settlement of the 1997-2006 Internal Revenue Service (IRS) audits in 2012.

The decreases were partially offset by

- higher capacity revenues and operating reserve revenues in PJM, and
- higher revenues due to increased investments in transmission projects.

PSEG

Our results of operations are primarily comprised of the results of operations of our operating subsidiaries, Power, PSE&G and Energy Holdings, excluding charges related to intercompany transactions, which are eliminated in consolidation. We also include certain financing costs, charitable contributions and general and administrative costs at the parent company. For additional information on intercompany transactions, see Note 18. Related-Party Transactions. For an explanation of the variances, see the discussions for Power, PSE&G and Energy Holdings that follow the table below:

	Three Months Ended June 30,		Increase/ (Decrease)		Six Months Ended June 30,		Increase/ (Decrease)	
	2013	2012	2013 vs. 2012		2013	2012	2013 vs. 2012	
	Millions		Millions	%	Millions		Millions	%
Operating Revenues	$ 2,310	$ 2,098	$ 212	10	$ 5,096	$ 4,973	$ 123	2
Energy Costs	755	761	(6)	(1)	1,910	1,940	(30)	(2)
Operation and Maintenance	646	629	17	3	1,356	1,257	99	8
Depreciation and Amortization	283	255	28	11	573	511	62	12
Taxes Other than Income Taxes	14	20	(6)	(30)	35	49	(14)	(29)
Income from Equity Method Investments	3	2	1	50	5	2	3	N/A
Other Income and (Deductions)	39	32	7	22	71	60	11	18
Other-Than-Temporary Impairments	2	7	(5)	(71)	4	12	(8)	(67)
Interest Expense	101	103	(2)	(2)	203	204	(1)	—
Income Tax Expense	218	146	72	49	438	358	80	22

Power

	Three Months Ended June 30,		Increase/ (Decrease)	Six Months Ended June 30,		Increase/ (Decrease)
	2013	2012	2013 vs. 2012	2013	2012	2013 vs. 2012
	Millions					
Net Income	$ 204	$ 104	$ 100	$ 341	$ 357	$ (16)

For the three months ended June 30, 2013, the primary reason for the $100 million increase in Net Income was net MTM gains in 2013 resulting from a decrease in prices on forward positions as well as higher capacity payments, partially offset by lower generation prices and volumes.

S1-SSA-0009 - 17321

The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

For the six months ended June 30, 2013, the primary reasons for the $16 million decrease in Net Income were:

- lower average pricing and lower volumes of electricity sold under our BGS contracts,
- lower volumes on wholesale load contracts in the PJM and New England regions,
- lower net revenues due to MTM losses in 2013 due to an increase in prices on forward positions in the PJM region,
- higher gas costs related to obligations under the BGSS contract and higher generation costs due to higher fuel costs, and
- higher Operation and Maintenance Costs in 2013, including costs related to damage caused by Superstorm Sandy at our fossil plants,

These decreases were partially offset by

- higher capacity revenues resulting from higher auction prices and an increase in operating reserve revenue in PJM, and
- higher sales volumes and gas prices under the BGSS contract due to colder average temperatures in 2013.

The quarter and year-to date details for these variances are discussed below:

	Three Months Ended June 30,		Increase/ (Decrease)		Six Months Ended June 30,		Increase/ (Decrease)	
	2013	2012	2013 vs. 2012		2013	2012	2013 vs. 2012	
	Millions		Millions	%	Millions		Millions	%
Operating Revenues	$1,190	$ 985	$ 205	21	$ 2,637	$ 2,546	$ 91	4
Energy Costs	496	447	49	11	1,356	1,269	87	7
Operation and Maintenance	280	284	(4)	(1)	562	525	37	7
Depreciation and Amortization	65	58	7	12	129	115	14	12
Other Income (Deductions)	25	20	5	25	44	35	9	26
Other-Than-Temporary Impairments	2	7	(5)	(71)	4	12	(8)	(67)
Interest Expense	29	32	(3)	(9)	59	62	(3)	(5)
Income Tax Expense	139	73	66	90	230	241	(11)	(5)

Three Months Ended June 30, 2013 As Compared to 2012

Operating Revenues increased $205 million due to changes in generation and gas supply revenues.

Generation Revenues increased $182 million due primarily to

- a net increase of $181 million due primarily to MTM gains in 2013 in the PJM and New York regions resulting from a change in prices on forward positions, and
- a net increase of $63 million due to higher capacity and other revenues, of which $54 million resulted from higher auction prices and $9 million from an increase in operating reserves in the PJM region,
- partially offset by a decrease of $37 million due to lower average pricing and lower volumes of electricity sold under our BGS contracts, and
- a decrease of $25 million due primarily to lower volumes on wholesale load contracts in the PJM and New England regions.

S1-SSA-0009 - 17322

The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Gas Supply Revenues increased $23 million due primarily to

- a net increase of $15 million in sales under the BGSS contract, substantially comprised of higher sales volumes due to colder average temperatures during 2013 at higher average gas prices, and
- an increase of $8 million due to higher average prices from sales to third party customers, partially offset by lower volumes.

Operating Expenses

Energy Costs represent the cost of generation, which includes fuel costs for generation as well as purchased energy in the market, and gas purchases to meet Power's obligation under its BGSS contract with PSE&G. Energy Costs increased $49 million due to

- ***Generation costs*** increased $32 million due primarily to $64 million of higher fuel costs reflecting higher average realized natural gas prices and higher nuclear fuel prices and MTM losses resulting from lower prices on forward positions in 2013. This increase was partially offset by $16 million of lower load contract volumes in 2013 and $16 million related to lower congestion costs in the PJM region.
- ***Gas costs*** increased $17 million, principally related to obligations under the BGSS contract, reflecting higher sales volumes in 2013 due primarily to colder average temperatures in 2013 and higher average prices on third-party sales, partially offset by lower volumes.

Operation and Maintenance decreased $4 million due primarily to the recognition of a $25 million insurance recovery related to Superstorm Sandy, partially offset by $22 million in incremental costs associated with Superstorm Sandy.

Depreciation and Amortization increased $7 million due primarily to a higher depreciable asset base, including placing into service the new gas-fired peaking units at Kearny, New Jersey and New Haven, Connecticut in June 2012 and completion of the steam path retrofit upgrade at our co-owned Peach Bottom Unit 2 in October 2012.

Other Income and (Deductions) increased $5 million due primarily to higher net earnings from the NDT Fund in 2013.

Other-Than-Temporary Impairments decreased $5 million due primarily to a decrease in impairments on the NDT Fund in 2013.

Interest Expense decreased $3 million due primarily to a decrease from lower outstanding debt in 2013 resulting from certain debt redeemed prior to maturity in 2012, partially offset by higher interest costs in 2013 since interest capitalization ceased for our Kearny and New Haven gas-fired peaking projects on their June 2012 in-service date.

Income Tax Expense increased $66 million in 2013 due primarily to higher pre-tax income.

Six Months Ended June 30, 2013 As Compared to 2012

Operating Revenues increased $91 million due to changes in generation and gas supply revenues.

Gas Supply Revenues increased $94 million due primarily to

- a net increase of $65 million in sales under the BGSS contract, substantially comprised of higher sales volumes due to colder average temperatures during 2013, partially offset by lower average gas prices, and
- an increase of $29 million due primarily to higher average gas prices partially offset by lower sales volumes to third party customers.

Generation Revenues decreased $3 million due primarily to

- a decrease of $70 million due primarily to lower average pricing and lower volumes of electricity sold under our BGS contracts,
- a net decrease of $73 million due to lower volumes on wholesale load contracts in the PJM and New England regions, and
- lower net revenues of $56 million due primarily to MTM losses in 2013 resulting from an increase in prices on forward positions in the PJM region, partially offset by higher generation sold in the PJM and New England regions at lower average realized prices in PJM,

S1-SSA-0009 - 17323

The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

- partially offset by a net increase of $196 million due to higher capacity and other revenues resulting from higher auction prices and an increase in operating reserve revenue in PJM.

Operating Expenses

Energy Costs represent the cost of generation, which includes fuel costs for generation as well as purchased energy in the market, and gas purchases to meet Power's obligation under its BGSS contract with PSE&G. Energy Costs increased $87 million due to

- ***Gas costs*** increased $48 million, principally related to obligations under the BGSS contract, reflecting higher sales volumes in 2013 due to colder average temperatures in 2013, partially offset by lower average gas inventory costs.
- ***Generation costs*** increased $39 million due primarily to $119 million of higher fuel costs, reflecting the utilization of higher volumes of coal and oil and higher nuclear fuel costs, and higher unrealized natural gas prices. The increase was partially offset by $27 million of lower energy purchases primarily in the PJM region as a result of lower load contract demand in 2013 and a decrease of $53 million in congestion costs.

Operation and Maintenance increased $37 million due primarily to $50 million in costs incurred from Superstorm Sandy in 2013 at our fossil plants, and higher outage and maintenance costs in 2013, mainly at our Bergen gas-fired plant and our coal-fired Conemaugh plant in Pennsylvania. This was partially offset by the recognition of the $25 million insurance recovery related to Superstorm Sandy.

Depreciation and Amortization increased $14 million due primarily to a higher depreciable asset base, including placing into service the new gas-fired peaking units at Kearny, New Jersey and New Haven, Connecticut in June 2012 and completion of the steam path retrofit upgrade at our co-owned Peach Bottom Unit 2 in October 2012.

Other Income and (Deductions) increased $9 million due primarily to higher net earnings from the NDT Fund in 2013.

Other-Than-Temporary Impairments decreased $8 million due primarily to a decrease in impairments on the NDT Fund in 2013.

Interest Expense decreased $3 million due primarily to a decrease from lower outstanding debt in 2013 resulting from certain debt redeemed prior to maturity in 2012, partially offset by higher interest costs in 2013 since interest capitalization ceased for our Kearny and New Haven gas-fired peaking projects on their June 2012 in-service date.

Income Tax Expense decreased $11 million in 2013 due primarily to lower pre-tax income.

PSE&G

	Three Months Ended June 30,		Increase/ (Decrease)	Six Months Ended June 30,		Increase/ (Decrease)
	2013	2012	2013 vs. 2012	2013	2012	2013 vs. 2012
	Millions					
Net Income	$ 121	$ 101	$ 20	$ 300	$ 298	$ 2

For the three months ended June 30, 2013, the primary reason for the $20 million increase in Net Income was higher transmission revenues due to increased investments in transmission projects.

For the six months ended June 30, 2013, the primary reasons for the $2 million increase in Net Income were

- higher transmission revenues due to increased investments in transmission projects, and
- higher Operation and Maintenance Expense primarily due to the Societal Benefits Charge (SBC) and the Capital Infrastructure programs (CIPs),
- partially offset by higher Income Tax Expense due to the absence of tax benefits related to the settlement of the 1997-2006 IRS audits in 2012.

Operation and Maintenance	369	350	19	5	796	726	70	10
Depreciation and Amortization	207	188	19	10	422	378	44	12
Taxes Other Than Income Taxes	14	20	(6)	(30)	35	49	(14)	(29)
Other Income (Deductions)	14	11	3	27	26	21	5	24
Interest Expense	75	74	1	1	148	147	1	1
Income Tax Expense	71	63	8	13	196	145	51	35

Three Months Ended June 30, 2013 As Compared to 2012

Operating Revenues increased $16 million due to changes in delivery, clause, commodity and other operating revenues.

Delivery Revenues increased $38 million due primarily to an increase in transmission revenues.

- Transmission revenues were $46 million higher due to net rate increases resulting primarily from increased capital investments.
- Electric distribution revenues increased $1 million due primarily to base rate increase of $8 million due to the roll in of the CIP from clause mechanism to inclusion in base rates, and higher Green Program Recovery Charges (GPRC) of $5 million, partially offset by lower Transitional Energy Facilities Assessment (TEFA) revenue of $6 million due to a lower TEFA rate and lower CIP revenue of $6 million due to the roll in to base rates.
- Gas distribution revenues decreased $9 million due primarily to lower Weather Normalization Clause (WNC) revenue of $22 million, partially offset by $10 million from higher sales volumes and $3 million of base rate increase due to the roll in of the CIP programs to base rates.

Clause Revenues increased $18 million due primarily to higher Securitization Transition Charge (STC) revenues of $10 million and higher SBC of $7 million. The changes in SBC and STC amounts were entirely offset by the amortization of related costs (Regulatory Assets) in Operation and Maintenance (O&M), Depreciation and Amortization and Interest Expense. PSE&G does not earn margin on SBC or STC collections.

Other Operating Revenues increased $2 million due primarily to increased revenues from our appliance repair business.

Commodity Revenue decreased $42 million due to lower Electric revenues, partially offset by higher Gas revenues. This is entirely offset as savings in Energy Costs. PSE&G earns no margin on the provision of BGS and BGSS to retail customers.

- Electric revenues decreased $57 million due primarily to $29 million in lower BGS revenues and $28 million in lower revenues from a lower volume of sales of Non-Utility Generation (NUG) energy and lower Non-Utility Generation Charges (NGC) due to lower tariff rates. BGS sales decreased 6% due primarily to customer migration to third party suppliers (TPS); in contrast, delivery sales increased by 3%.
- Gas revenues increased $15 million due to higher BGSS volumes of $11 million primarily due to weather and higher BGSS prices of $4 million. The average price of natural gas was 3% higher in 2013 than in 2012.

Energy Costs decreased $42 million. This is entirely offset by Commodity Revenue.

- Electric costs decreased $57 million or 11% due to $57 million in lower BGS and NUG volumes and $19 million of lower BGS and NUG prices, partially offset by $19 million for increased deferred cost recovery. BGS and NUG volumes decreased 10% due primarily to customer migration to TPS.

S1-SSA-0009 - 17325

Past financial performance is no guarantee of future results.

- Gas costs increased $15 million or 13% due to $11 million or 9% in higher sales volumes due primarily to weather and $4 million or 3% in higher prices.

Operation and Maintenance increased $19 million, due primarily to a $20 million increase in costs recognized related primarily to SBC and CIP. Due to the nature of the SBC and CIP clause mechanisms, this is entirely offset in revenues.

Depreciation and Amortization increased $19 million due primarily to

- a $13 million increase in amortization of Regulatory Assets, and
- a $6 million increase in depreciation of additional plant in service.

Taxes Other Than Income Taxes decreased $6 million due to a lower TEFA rate for electric and gas, partially offset by higher sales volumes for gas.

Other Income and (Deductions) net increase of $3 million was due primarily to an increase in Solar Loan interest income.

Interest Expense increased due primarily to higher average debt balances.

Income Tax Expense increased $8 million due primarily to higher pre-tax income.

Six Months Ended June 30, 2013 As Compared to 2012

Operating Revenues increased $72 million due to changes in delivery, clause, commodity and other operating revenues.

Delivery Revenues increased $92 million due primarily to an increase in transmission revenues.

- Transmission revenues were $85 million higher due to net rate increases resulting primarily from increased capital investments.
- Gas distribution revenues increased $12 million due primarily to $53 million from higher sales volumes and base rate increase of $14 million from the CIP base rate adjustment, partially offset by lower WNC revenue of $55 million.
- Electric distribution revenues decreased $5 million due primarily to lower TEFA revenue of $12 million due to a lower TEFA rate and lower CIP revenue of $11 million, partially offset by a base rate increase of $12 million from the CIP base rate adjustment, higher GPRC of $5 million and higher sales volumes of $1 million.

Clause Revenues increased $51 million due primarily to higher SBC of $25 million and higher STC revenues of $24 million. The changes in SBC and STC amounts were entirely offset by the amortization of related costs (Regulatory Assets) in O&M, Depreciation and Amortization and Interest Expense. PSE&G does not earn margin on SBC or STC collections.

Other Operating Revenues increased $6 million due primarily to increased revenues from our appliance repair business.

Commodity Revenue decreased $77 million due to lower Electric revenues, partially offset by higher Gas revenues. This is entirely offset as savings in Energy Costs. PSE&G earns no margin on the provision of BGS and BGSS to retail customers.

- Electric revenues decreased $175 million due primarily to $123 million in lower BGS revenues and $52 million in lower revenues from a lower volume of sales of Non-Utility Generation (NUG) energy and lower Non-Utility Generation Charges (NGC) due to lower tariff rates. BGS sales decreased 6% due primarily to customer migration to third party suppliers (TPS); in contrast, delivery sales increased by 3%.
- Gas revenues increased $98 million due to higher BGSS volumes of $92 million and higher BGSS prices of $6 million. The average price of natural gas was 1% higher in 2013 than in 2012.

Energy Costs decreased $77 million. This is entirely offset by Commodity Revenue.

- Electric costs decreased $175 million or 16% due to $106 million in lower BGS and NUG volumes, $43 million of lower BGS and NUG prices, and $26 million for decreased deferred cost recovery. BGS and NUG volumes decreased 10% due primarily to customer migration to TPS.
- Gas costs increased $98 million or 17% due to $92 million or 16% in higher sales volumes due primarily to weather and $6 million or 1% in higher prices.

Past financial performance is no guarantee of future results.

Operation and Maintenance increased $70 million, of which the most significant components were

- a $50 million increase in costs recognized related primarily to SBC and CIP. Due to the nature of the SBC and CIP clause mechanisms, this is entirely offset in revenues,
- a $8 million increase in costs relating to repairs from Superstorm Sandy and a colder winter, and
- a $6 million increase in appliance service costs.

Depreciation and Amortization increased $44 million due primarily to

- a $30 million increase in amortization of Regulatory Assets, and
- a $13 million increase in depreciation of additional plant in service.

Taxes Other Than Income Taxes decreased $14 million due to a lower TEFA rate for electric and gas, partially offset by higher sales volumes for gas.

Other Income and (Deductions) net increase of $5 million was due primarily to an increase in Solar Loan interest income.

Interest Expense increased due primarily to higher average debt balances.

Income Tax Expense increased $51 million due primarily to the absence of tax benefits related to the settlement of the 1997-2006 IRS audits in 2012 and higher pre-tax income.

Energy Holdings

	Three Months Ended June 30,		Increase/ (Decrease)	Six Months Ended June 30,		Increase/ (Decrease)
	2013	2012	2013 vs. 2012	2013	2012	2013 vs. 2012
	Millions					
Net Income	$ 4	$ 2	$ 2	$ 4	$ 42	$ (38)

For the six months ended June 30, 2013, the primary reason for the $38 million decrease in Net Income was the absence of tax benefits related to the settlement of the 1997-2006 IRS audits in the prior year.

LIQUIDITY AND CAPITAL RESOURCES

The following discussion of our liquidity and capital resources is on a consolidated basis, noting the uses and contributions, where material, of our three direct operating subsidiaries.

Operating Cash Flows

Our operating cash flows combined with cash on hand and financing activities are expected to be sufficient to fund capital expenditures and shareholder dividend payments.

For the six months ended June 30, 2013, our operating cash flow decreased $35 million as compared to the same period in 2012. The net change was due primarily to net changes from Power and PSE&G, as discussed below.

Power

Power's operating cash flow increased $2 million from $852 million to $854 million for the six months ended June 30, 2013, as compared to the same period in 2012, primarily resulting from a decrease in taxes paid of $58 million, partially offset by lower earnings and an increase of $44 million in margin deposits.

PSE&G

PSE&G's operating cash flow decreased $38 million from $459 million to $421 million for the six months ended June 30, 2013, as compared to the same period in 2012, due primarily to a decrease of $102 million related to higher customer billings due to colder weather, and $106 million related to higher tax payments. These were partially offset by higher earnings and an increase of $70 million due to a net change in regulatory deferrals primarily related to the recovery of gas costs and collection of Gas Weather Normalization Charges, offset by higher payments for storm related costs.

Short-Term Liquidity

PSEG meets its short-term liquidity requirements, as well as those of Power, primarily with cash and through the issuance of commercial paper. PSE&G maintains its own separate commercial paper program to meet its short-term liquidity requirements. Each commercial paper program is fully back-stopped by its own separate credit facilities.

The commitments under our credit facilities are provided by a diverse bank group. In March 2013, Power, PSEG and PSE&G amended their respective 5-year credit agreements scheduled to end in 2016, extending the expiration dates from April 2016 to March 2018. Of the total commitments of $2.1 billion under these agreements, $2.0 billion has been extended until 2018. The commitments for the $100 million balance will terminate in 2016. As of June 30, 2013, our total credit capacity was $4.3 billion.

As of June 30, 2013, no single institution represented more than 8% of the total commitments in our credit facilities.

As of June 30, 2013, our total credit capacity was in excess of our anticipated maximum liquidity requirements.

Each of our credit facilities is restricted as to availability and use to the specific companies as listed below; however, if necessary, the PSEG facilities can also be used to support our subsidiaries' liquidity needs. Our total credit facilities and available liquidity as of June 30, 2013 were as follows:

	As of June 30, 2013				
Company/Facility	**Total Facility**	**Usage**	**Available Liquidity**	**Expiration Date**	**Primary Purpose**
		Millions			
PSEG					
5-year Credit Facility	$ 500	$ 5 (D)	$ 495	Mar 2017	Commercial Paper (CP) Support/Funding/Letters of Credit
5-year Credit Facility (A)	500	—	500	Mar 2018	CP Support/Funding/Letters of Credit
Total PSEG	**$ 1,000**	**$ 5**	**$ 995**		
Power					
5-year Credit Facility	$ 1,600	$ 54 (D)	$ 1,546	Mar 2017	Funding/Letters of Credit
5-year Credit Facility (B)	1,000	—	1,000	Mar 2018	Funding/Letters of Credit
Bilateral Credit Facility	100	100 (D)	—	Sept 2015	Letters of Credit
Total Power	**$ 2,700**	**$ 154**	**$ 2,546**		
PSE&G					
5-year Credit Facility (C)	$ 600	$ 170 (E)	$ 430	Mar 2018	CP Support/Funding/Letters of Credit
Total PSE&G	**$ 600**	**$ 170**	**$ 430**		
Total	**$ 4,300**	**$ 329**	**$ 3,971**		

(A) In April 2016, this facility will be reduced by $23 million.

(B) In April 2016, this facility will be reduced by $48 million.

(C) In April 2016, this facility will be reduced by $29 million.

(D) Includes amounts related to letters of credit outstanding.

(E) Includes amounts related to CP and letters of credit outstanding.

Long-Term Debt Financing

PSE&G has $300 million of 5.38% MTN maturing in September 2013 and $275 million of 6.33% MTN maturing in November 2013. For a discussion of our long-term debt transactions during 2013, see Note 10. Changes in Capitalization.

Common Stock Dividends

On July 16, 2013, the Board of Directors declared a quarterly dividend of $0.36 per share of common stock for the third quarter of 2013. We expect to continue to pay cash dividends on our common stock; however, the declaration and payment of future dividends to holders of our common stock will be at the discretion of the Board of Directors and will depend upon many factors, including our financial condition, earnings, capital requirements of our businesses, alternate investment opportunities, legal requirements, regulatory constraints, industry practice and other factors that the Board of Directors deems relevant. For information related to cash dividends on our common stock, see Note 16. Earnings Per Share and Dividends.

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Credit Ratings

If the rating agencies lower or withdraw our credit ratings, such revisions may adversely affect the market price of our securities and serve to materially increase our cost of capital and limit access to capital. Outlooks assigned to ratings are as follows: stable, negative (Neg) or positive (Pos). There is no assurance that the ratings will continue for any given period of time or that they will not be revised by the rating agencies, if, in their respective judgments, circumstances warrant. Each rating given by an agency should be evaluated independently of the other agencies' ratings. The ratings should not be construed as an indication to buy, hold or sell any security.

In April 2013, S&P upgraded the corporate credit ratings on PSEG, Power and PSE&G to BBB+ from BBB and PSE&G's Mortgage Bond rating to A from A-. PSEG's, Power's and PSE&G's outlooks were changed to stable from positive. In May 2013, Moody's published updated credit opinions on PSEG, Power and PSE&G. PSEG's, Power's and PSE&G's ratings and outlooks remained unchanged. In July 2013, Fitch published updated research on PSEG, Power and PSE&G which kept their ratings and outlooks unchanged.

	Moody's (A)	S&P (B)	Fitch (C)
PSEG			
Outlook	**Stable**	**Stable**	**Stable**
Commercial Paper	P2	A2	F2
Power			
Outlook	**Stable**	**Stable**	**Stable**
Senior Notes	Baa1	BBB+	BBB+
PSE&G			
Outlook	**Stable**	**Stable**	**Stable**
Mortgage Bonds	A1	A	A+
Commercial Paper	P2	A2	F2

(A) Moody's ratings range from Aaa (highest) to C (lowest) for long-term securities and P1 (highest) to NP (lowest) for short-term securities.

(B) S&P ratings range from AAA (highest) to D (lowest) for long-term securities and A1+ (highest) to D (lowest) for short-term securities.

(C) Fitch ratings range from AAA (highest) to D (lowest) for long-term securities and F1+ (highest) to D (lowest) for short-term securities.

Past financial performance is no guarantee of future results.

CAPITAL REQUIREMENTS

We expect that all of our capital requirements over the next three years will come from a combination of internally generated funds and external debt financing. PSE&G has increased its projected base level capital expenditures by $215 million through 2015, as compared to the amounts disclosed in our Form 10-K for the year ended December 31, 2012. This increase primarily reflects our projected additional spending during the period under our Solar Loan III and Solar 4 All Extension programs which were approved by the BPU in May 2013. There were no other material changes to our projected capital expenditures at Power, PSE&G or Energy Holdings as compared to amounts disclosed in our Form 10-K for the year ended December 31, 2012. See Note 9. Commitments and Contingent Liabilities for additional information. Our revised projected capital construction and investment expenditures for the next three years are presented in the table below.

	2013	2014	2015
Power:		Millions	
Baseline Maintenance	$ 215	$ 170	$ 200
Environmental/Regulatory	70	70	15
Nuclear Expansion	115	125	90
Total Power	**$ 400**	**$ 365**	**$ 305**
PSE&G:			
Transmission			
Reliability Enhancements	$ 1,230	$ 1,040	$ 550

Past financial performance is no guarantee of future results.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The market risk inherent in our market-risk sensitive instruments and positions is the potential loss arising from adverse changes in commodity prices, equity security prices and interest rates as discussed in the Notes to Condensed Consolidated Financial Statements. It is our policy to use derivatives to manage risk consistent with business plans and prudent practices. We have a Risk Management Committee comprised of executive officers who utilize a risk oversight function to ensure compliance with our corporate policies and risk management practices.

Additionally, we are exposed to counterparty credit losses in the event of non-performance or non-payment. We have a credit management process, which is used to assess, monitor and mitigate counterparty exposure. In the event of non-performance or non-payment by a major counterparty, there may be a material adverse impact on our financial condition, results of operations or net cash flows.

Commodity Contracts

The availability and price of energy-related commodities are subject to fluctuations from factors such as weather, environmental policies, changes in supply and demand, state and federal regulatory policies, market rules and other events. To reduce price risk caused by market fluctuations, we enter into supply contracts and derivative contracts, including forwards, futures, swaps and options with approved counterparties. These contracts, in conjunction with physical sales and other services, help reduce risk and optimize the value of owned electric generation capacity.

Value-at-Risk (VaR) Models

VaR represents the potential losses, under normal market conditions, for instruments or portfolios due to changes in market factors, for a specified time period and confidence level. We estimate VaR across our commodity businesses.

MTM VaR consists of MTM derivatives that are economic hedges, some of which qualify for hedge accounting. The MTM VaR calculation does not include market risks associated with activities that are subject to accrual accounting, primarily our generating facilities and some load serving activities.

The VaR models used are variance/covariance models adjusted for the change of positions with 95% and 99.5% confidence levels and a one-day holding period for the MTM activities. The models assume no new positions throughout the holding periods; however, we actively manage our portfolio.

Three Months Ended June 30, 2013	**MTM VaR**
	Millions
95% Confidence Level,	
Loss could exceed VaR one day in 20 days	
Period End	$ 19
Average for the Period	$ 15
High	$ 20
Low	$ 9
99.5% Confidence Level,	
Loss could exceed VaR one day in 200 days	
Period End	$ 30
Average for the Period	$ 23
High	$ 32
Low	$ 14

See Note 11. Financial Risk Management Activities for a discussion of credit risk.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures as defined under Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are designed to provide reasonable assurance that information required to be disclosed in the reports that are filed or submitted under the Exchange Act is recorded, processed, summarized and reported and is accumulated and communicated to the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) of each respective company, as appropriate, by others within the entities to allow timely decisions regarding required disclosure. We have established a disclosure committee which includes several key management employees and which reports directly to the CFO and CEO of each of Public Service Enterprise Group Incorporated, PSEG Power LLC, and Public Service Electric and Gas Company. The committee monitors and evaluates the effectiveness of these disclosure controls and procedures. The CFO and CEO of each of Public Service Enterprise Group Incorporated, PSEG Power LLC, and Public Service Electric and Gas Company have evaluated the effectiveness of the disclosure controls and procedures and, based on this evaluation, have concluded that disclosure controls and procedures at each respective company were effective at a reasonable assurance level as of the end of the period covered by the report.

Internal Controls

We continually review our disclosure controls and procedures and make changes, as necessary, to ensure the quality of our financial reporting. There have been no changes in internal control over financial reporting that occurred during the second quarter of 2013 that have materially affected, or are reasonably likely to materially affect, each registrant's internal control over financial reporting.

S1-SSA-0009 - 17332

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are party to various lawsuits and regulatory matters in the ordinary course of business. Certain information reported under Item 3 of Part I of the 2012 Annual Report on Form 10-K and under Item 1 of Part II of the Quarterly Report on Form 10-Q for the quarter ended March 31, 2013 is updated below. For additional information regarding material legal proceedings, including updates to information reported in Item 3 of Part I of the 2012 Annual Report on Form 10-K and under Item 1 of Part II of the Quarterly Report on Form 10-Q for the quarter ended March 31, 2013, see Note 9. Commitments and Contingent Liabilities and Item 5. Other Information.

Superstorm Sandy

PSEG maintains insurance coverage against loss or damage to plants and certain properties, subject to certain exceptions and limitations, to the extent such property is usually insured and insurance is available at a reasonable cost. PSEG is seeking recovery from its insurers for the property damage, above its self-insured retentions; however, no assurances can be given relative to the timing or amount of such recovery. PSEG has recorded proceeds of $50 million from its insurance carriers as advance payments, $25 million of which was recognized in this quarter and $25 million was recognized in the fourth quarter of 2012. PSEG does not believe that it has a basis for estimating additional probable insurance recoveries at this time. In June 2013, PSEG, Power and PSE&G filed suit in New Jersey state court against the insurance carriers seeking legal interpretation of certain terms in the insurance policies regarding losses resulting from damage caused by Superstorm Sandy's storm surge. The dispute concerns whether certain sub-limits in the policies apply to damage to property caused by Superstorm Sandy's storm surge. In that lawsuit, PSEG stated that its estimate of the total costs required to restore damaged facilities to their pre-Superstorm Sandy condition was approximately $426 million. Of these costs, $364 million and $62 million related to Power and PSE&G, respectively. No ruling has been issued on the suit.

Con Edison (Con Ed)

December 31, 2012 Form 10-K page 38. In 2001, Con Ed filed a complaint with the FERC against PSE&G, PJM and NYISO asserting a failure to comply with agreements between PSE&G and Con Ed covering 1,000 MW of transmission. In 2010, the FERC approved a settlement agreement of this matter entered into by PSE&G, Con Ed, PJM, NYISO and others, which provided the basis for moving forward with Con Ed upon the contracts' expiration and resolved all issues associated with the existing contracts. One party to the proceeding, however, appealed the FERC's approval to the D.C. Circuit Court of Appeals. By order dated June 14, 2013, the court denied the appeal, thereby upholding FERC's approval of the settlement and making the settlement agreement effective.

ITEM 1A. RISK FACTORS

There no additional Risk Factors to be added to those disclosed in Part I Item 1A of our 2012 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table indicates our common share repurchases in the open market to satisfy obligations under various equity compensation awards during the second quarter of 2013:

Three Months Ended June 30, 2013	Total Number of Shares Purchased	Average Price Paid per Share
April 1 - April 30	—	$ —
May 1 - May 31	182,500	$ 35.85
June 1 - June 30	3,500	$ 33.03

ITEM 5. OTHER INFORMATION

Certain information reported in the 2012 Annual Report on Form 10-K and Quarterly Report on Form 10-Q for the Quarter Ended March 31, 2013 is updated below. Additionally, certain information is provided for new matters that have arisen subsequent to the filing of the 2012 Annual Report on Form 10-K and the Quarterly Report on Form 10-Q for the Quarter Ended March 31, 2013. References are to the related pages on the Forms 10-K and 10-Q as printed and distributed.

BUSINESS OPERATIONS AND STRATEGY

Energy Holdings

Products and Services

December 31, 2012 Form 10-K page 13. Our ten-year contract, Operations Services Agreement (OSA), for the management of the Long Island Power Authority (LIPA) transmission and distribution system by PSEG Long Island LLC (PSEG LI) is scheduled to commence on January 1, 2014. On July 29, 2013, the Governor of New York signed legislation that will restructure LIPA, pursuant to which PSEG LI may undertake an expanded role in the management of LIPA's transmission and distribution system and other aspects of its operations in accordance with a proposed revised contract that is currently under negotiation. Assuming that an agreement is reached on the terms of a revised contract, implementation will depend, in part, on (i) issuance of a Private Letter Ruling by the Internal Revenue Service (IRS) on the continued tax-exempt status of certain LIPA debt securities and (ii) a disclaimer of jurisdiction by the FERC with regard to the contract. No assurances can be given as to the outcome of the negotiations or the actions of the IRS or the FERC.

We continue to take all necessary steps in connection with the expected January 1, 2014 commencement of our management responsibilities in accordance with the existing OSA.

FEDERAL REGULATION

FERC

PJM, the New York Independent System Operator (NYISO), and the Independent System Operator-New England (ISO-NE) each have capacity markets that have been approved by the FERC.

Capacity Market Issues—PJM

December 31, 2012 Form 10-K page 16. RPM is a locational installed capacity market design for the PJM region, including a forward auction for installed capacity. Under RPM, generators located in constrained areas within PJM are paid more for their capacity as an incentive to ensure adequate supply where generation capacity is most needed. The mechanics of RPM in PJM continue to evolve and be refined in stakeholder proceedings in which we are active, and there is currently significant discussion about (i) the future role of demand response in the RPM market, including examining how demand response resources should be paid and how these resources and programs - both existing and planned - should be measured and verified to ensure their availability, (ii) the future process for submitting below Minimum Offer Price Rule (MOPR) bids by subsidized generation into the capacity market, as further discussed below and (iii) the impact of “seams” issues on the PJM capacity market, such as the extent to which the rules governing generation located within PJM are being equally applied to generation imported into PJM from the Midwest Independent System Operator (MISO), as further discussed below.

Capacity Market Issues—MISO

MISO does not have a mandatory capacity market in place, as load serving entities may submit Fixed Resource Adequacy Plans in lieu of participating in the capacity auction. Recently the difference between the MISO and PJM capacity markets has been highlighted, as significant amounts of MISO generation are being exported to PJM, and MISO is seeking to facilitate additional exports. The FERC is currently examining the "capacity portability" issue. To the extent that MISO generation is not subject to the same types of rules and requirements as generation located within PJM, Power could be adversely impacted.

Capacity Market Issues—Long-Term Capacity Agreement Pilot Program Act (LCAPP)

December 31, 2012 Form 10-K page 16 and March 31, 2013 Form 10-Q page 70. In 2011, the State of New Jersey concluded that new natural gas-fired generation was needed and enacted the LCAPP Act to subsidize approximately 2,000 MW of new generation. The LCAPP Act provided that subsidies would be offered through long-term standard offer capacity agreements (SOCAs) between selected generators and the New Jersey Electric Distribution Companies (EDCs). The SOCA required each New Jersey EDC to provide the generators with guaranteed capacity payments funded by ratepayers. Each of the New Jersey EDCs, including PSE&G, entered into the SOCAs as directed by the State, but did so under protest reserving their rights. In July 2013, the SOCA contract with New Jersey Power Development LLC, a subsidiary of NRG Energy, Inc., was terminated early as a result of a default by the generator. The generator has accepted this early termination and this SOCA contract is no longer in effect.

Legal challenges to the BPU's implementation of the LCAPP Act were filed in New Jersey appellate court and the appeal remains pending. In addition, the LCAPP Act has been challenged on constitutional grounds in federal court. We are currently awaiting a decision by the federal court.

Maryland has also taken action to subsidize above-market new generation. On April 16, 2013, the Maryland Public Service Commission (PSC) issued an order directing the Maryland utility companies to execute a contract with CPV to build a new 661 MW natural gas-fired, combined cycle station in Maryland with an in-service date of June 2015. We have joined other generators in challenging Maryland's actions on constitutional grounds in federal court and we are currently awaiting a decision by the court in that case.

These efforts to artificially depress prices in the wholesale capacity markets were intended to be mitigated by the MOPR approved by the FERC. The MOPR was intended to restrict new generation from bidding in RPM at less than a minimum level established by PJM's Tariff, or a cost-based bid to the extent that the generator can demonstrate that its costs are lower than the MOPR. However, we do not believe these rules have worked as intended and have not protected the market against price suppression efforts. At the direction of the FERC, PJM has begun a stakeholder proceeding, the purpose of which is to develop an enhanced process applicable to subsidized generation seeking to bid into RPM at less than MOPR. We are currently working to ensure that this unit-specific review is both effective and transparent.

Transmission Regulations—Transmission Policy Developments

December 31, 2012 Form 10-K page 17 and March 31, 2013 Form 10-Q page 71. In 2010, the FERC initiated a proceeding to evaluate whether reforms to current transmission planning and cost allocation rules were necessary to stimulate additional transmission development. The FERC ultimately concluded in Order No. 1000, subject to certain exceptions, that the incumbent transmission owner should not always have a "right of first refusal" (ROFR) to construct and own transmission projects in its service territory. We have challenged the FERC's elimination of the ROFR in federal court, which challenge remains pending. The FERC has issued an order regarding PJM's implementation of these new transmission planning and cost allocation rules, under which the construction of certain types of transmission projects will no longer be subject to a ROFR for incumbents. The FERC's order also approved the "state agreement approach," under which transmission projects being built to address public policy concerns may be placed into PJM's planning process if the state sponsoring the project agrees to pay the costs of the project. To date, no such projects have been placed into the planning process but this mechanism could potentially facilitate transmission projects that are not needed for reliability or market efficiency under PJM standards for transmission, including potential offshore wind projects proposed by third parties, should a state or states agree to fund the costs of such projects.

Transmission Regulations—Transmission Rate Proceedings

December 31, 2012 Form 10-K page 18 and March 31, 2013 Form 10-Q page 71. In February 2013, several state utility commissions and consumer advocates, including the BPU and the New Jersey Division of Rate Counsel, filed a complaint at FERC challenging the base return on equity and formula transmission rate implementation protocols of transmission owners in Maryland, Pennsylvania, Delaware and New Jersey.

While we are not the subject of this complaint nor those reported in our 2012 Form 10-K, the results of these proceedings could set a precedent for the FERC-regulated transmission owners with formula rates in place, such as ours.

On June 7, 2013, the U.S. Seventh Circuit Court of Appeals issued a decision vacating a FERC order that had prevented MISO from allocating the costs of Multi-Value transmission projects (MVP), being built primarily to move renewable generation to load within MISO, to customers within PJM. The court held that the FERC had not adequately justified its decision and remanded the case back to the FERC to explain why such costs should not be allocated to PJM customers. Depending on the resolution of the remand proceeding at FERC, this court ruling may have adverse impacts on our business and our customers.

Nuclear Regulatory Commission (NRC)

December 31, 2012 Form 10-K page 19 and March 31, 2013 Form 10-Q page 71 . On March 19, 2013, the NRC initiated a rulemaking process for improvements to venting systems at 31 U.S. boiling water reactors (BWRs) with "Mark I" and "Mark II" containments (similar to those at Fukushima), which include our Hope Creek Unit and Peach Bottom Units 2 and 3. On June 6, 2013, the NRC issued orders requiring Mark I and Mark II licensees to upgrade or replace their reliable hardened vents with containment venting systems designed and installed to remain functional during severe accident conditions. For our Hope Creek and Peach Bottom units, final installation of the required modifications is expected to occur during the planned refueling outages in 2016-2018. The NRC is currently performing a technical evaluation to support rulemaking on the potential for vent filtering requirements. That evaluation is expected to be completed in March 2014. The NRC continues to evaluate potential revisions to its requirements in connection with its operational and safety reviews of nuclear facilities in the United States as a result of the Fukushima Daiichi incident in Japan in 2011. We are unable to predict the final outcome of

these reviews or the cost of any actions we would need to take to comply with any new regulations, including possible modifications to our Salem, Hope Creek and Peach Bottom facilities, but such cost could be material.

STATE REGULATION

Rates

Storm Damage Deferral

December 31, 2012 Form 10-K page 20. In December 2012, the BPU granted our request to defer on our books actually incurred prudent otherwise unreimbursed, incremental storm restoration costs not otherwise recoverable through base rates or insurance related to our gas and electric distribution systems associated with extraordinary storms, including Hurricane Irene and Superstorm Sandy. In February 2013, the BPU announced that it would initiate a generic proceeding to evaluate the prudency of extraordinary, storm-related costs incurred by all of the regulated utilities as a result of the natural disasters experienced in New Jersey in 2011 and 2012.

Energy Strong Program

December 31, 2012 Form 10-K page 20 and March 31, 2013 Form 10-Q page 71. In February 2013, we filed a petition with the BPU seeking approval of certain investments we recommend making to our BPU jurisdictional electric and gas system to harden and improve resiliency for the future through a clause recovery mechanism. We have continued to respond to data requests from the BPU and the New Jersey Division of Rate Counsel. In June 2013, the BPU issued an order designating a Presiding Officer for the Energy Strong Proceeding. The appointment of this Presiding Officer will enable the establishment of a procedural schedule for the proceeding. We cannot predict the outcome of this matter which remains pending before the BPU.

Energy Supply

BGSS

December 31, 2012 Form 10-K page 21. In September 2012, the BPU approved the Stipulation which lowered our BGSS rate effective October 1, 2012 on a provisional basis. In May 2013, the BPU approved a Stipulation that made the current BGSS rate final. Additionally, in May 2013 we made our annual BGSS filing with the BPU requesting no change to the current rate for the next BGSS period effective October 1, 2013 through September 30, 2014.

Energy Policy

Solar

March 31, 2013 Form 10-Q page 72. In May 2013, the BPU approved increased spending on renewable energy under our Solar Loan and Solar 4 All investment programs (Solar Loan III and Solar 4 All Extension, respectively). The Orders authorize us to invest up to $199 million on new solar (98MW) as part of the Solar Loan III program and provide for us to invest up to $247 million to develop new solar capacity (45MW), including a return on investment at a return on equity of 10%.

BPU Storm Generic Proceedings

March 31, 2013 Form 10-Q page 72. In March 2013, the BPU initiated two generic proceedings with the New Jersey utilities, including PSE&G. The first was an Order to evaluate the prudency of storm costs incurred in 2011 and 2012 and the second to evaluate major storm event mitigation proposals. In June 2013, we made our compliance filing in the storm cost prudency proceeding, providing outage information, capital expenditures, operation and maintenance (O&M) expenses and incremental O&M expenses. The review of the prudency of these expenses is now pending before the BPU. We cannot predict the outcome of this review.

BPU Storm Report

December 31, 2012 Form 10-K page 22. In 2011, the BPU commenced an investigation of all four New Jersey electric utilities, including PSE&G, to examine their preparations, performance and restoration efforts during Hurricane Irene and the October 2011 snow storm. In late 2012, the BPU commenced an investigation regarding the state of preparedness and responsiveness of the electric distribution companies prior to, during and after Superstorm Sandy. Following the completion of a report by its consultant, the BPU issued an order in January 2013, ordering the utilities to take specific action to improve their preparedness and responses to major storms. There are 103 separate measures contained in the Order, with most of the measures requiring utility implementation by September 2013. In May 2013, the BPU augmented its January 2013 order by directing the electric utilities to implement eight additional new requirements related to improving communications with customers during extreme weather events. PSE&G is in the process of implementing these BPU requirements.

ENVIRONMENTAL MATTERS

Air Pollution Control

Demand Response (DR) Reciprocating Internal Combustion Engines (RICE) Litigation

March 31, 2013 Form 10-Q page 72. On March 29 and April 1, 2013, we filed petitions at the EPA and in federal court, respectively, challenging the National Emission Standards for Hazardous Air Pollutants (NESHAP) for RICE issued on January 30, 2013. Among other things, the final EPA rule allows owners and operators of stationary emergency RICE to operate their engines as part of an emergency DR program without the installation and operation of emission controls or compliance with emission limits otherwise applicable to non-emergency counterparts. This waiver of NESHAP standards results in disparate treatment of different generation technology types. In our appeal, we are seeking more stringent emission control standards for RICE to support more competitive markets, particularly the PJM capacity market. On June 28, 2013, the EPA announced that it would reconsider certain other items included in the final rule that are also subject to the appeal.

Cross-State Air Pollution Rule (CSAPR)

December 31, 2012 Form 10-K page 24 and March 31, 2013 Form 10-Q page 72. On July 6, 2011, the EPA issued the final CSAPR. CSAPR limits power plant emissions of SO_2 and annual and ozone season NOx in 28 states that contribute to the ability of downwind states to attain and/or maintain current particulate matter and ozone National Ambient Air Quality Standards (NAAQS).

In August 2012, the U.S. Court of Appeals of the D.C. Circuit (D.C. Court) vacated CSAPR and ordered that the existing Clean Air Interstate Rule (CAIR) requirements remain in effect until an appropriate substitute rule has been promulgated. In October 2012, the EPA filed a request for rehearing which the D.C. Court denied on January 24, 2013. On June 24, 2013, the Supreme Court announced that it would review the D.C. Court's decision.

We currently anticipate that CSAPR, if implemented, will not have a material adverse impact to our capital investment program or our units' operations.

Climate Change

CO_2 Regulation Under the Clean Air Act (CAA)

December 31, 2012 Form 10-K page 24. In April 2013, several industrial groups petitioned the Supreme Court to review various EPA rules issued under the CAA, including the Tailoring Rule, to regulate greenhouse gas (GHG) emissions, including CO_2. The Tailoring Rule requires a new source or an existing source which undergoes a major modification, to evaluate and perhaps install best available control technology (BACT) for GHG emissions.

The EPA's BACT guidance does not define the specific technologies that should be considered BACT. The guidance does emphasize the use of energy efficiency, and specifically states that the technology of storing CO_2 under the earth, also known as carbon capture and storage, is not yet mature enough to be considered a viable alternative at this stage. In April 2012, the EPA published the proposed New Source Performance Standards (NSPS) for GHG for new power plants only. Typically, new or modified sources must employ BACT which is defined on a case-by-case basis and can be no less stringent than the applicable NSPS. Thus, for new power plants where the proposed NSPS identifies the applicable standard, if adopted as proposed, all permit decisions regarding BACT and application completeness should be made to reflect at least the level of stringency contained in those standards. On June 25, 2013, the President directed the EPA to propose revised NSPS for new power plants by September 20, 2013, propose GHG regulations for existing power plants by June 1, 2014, finalize such regulations by June 1, 2015 and require states to submit GHG implementation regulations by June 30, 2016.

Water Pollution Control

Cooling Water Intake Structure Regulation

December 31, 2012 Form 10-K page 25. In April 2011, the EPA published a proposed rule to establish marine life mortality standards for existing cooling water intake structures with a design flow of more than two million gallons per day. In July 2012, the EPA and environmental groups agreed to delay the deadline to June 27, 2013 for finalization of the Rule. On June 27, 2013, the EPA and environmental groups agreed to further extend the deadline to November 4, 2013.

If the rule were to be adopted as proposed, the impact on us would be material since the majority of our electric generating stations would be affected. We are unable to predict the outcome of this proposed rulemaking, the final form that the proposed regulations may take and the effect, if any, that they may have on our future capital requirements, financial condition or results of operations, although such impacts could be material. See Note 9. Commitments and Contingent Liabilities for additional information.

Steam Electric Effluent Guidelines

March 31, 2013 Form 10-Q page 72. On April 19, 2013, the EPA issued notice of a proposed rule that would further limit the discharge of pollutants in wastewater from the operation of coal-fired generating facilities. The EPA has established September 20, 2013 as the date comments must be filed. Our co-owned Keystone and Conemaugh facilities continue to use technologies that generate these wastewater discharges. However, our other coal-fired facilities no longer discharge many of these types of wastewater pollutants. We are unable to predict the impact on Keystone and Conemaugh but do not believe there would be any material impact on our other coal-fired facilities.

Fuel and Waste Disposal

Nuclear Fuel Disposal

December 31, 2012 Form 10-K page 26. The federal government has entered into contracts with the operators of nuclear power plants for transportation and ultimate disposal of spent nuclear fuel. To pay for this service, nuclear plant owners are required to contribute to a Nuclear Waste Fund. In accordance with the Nuclear Waste Policy Act of 1982, in 2009 the U.S. Department of Energy (DOE) conducted its annual review of the adequacy of the Nuclear Waste Fee and concluded that the current fee of 1/10 cent per kWh was adequate to recover program costs. In 2011, we joined the Nuclear Energy Institute (NEI) and fifteen other nuclear plant operators in a lawsuit seeking suspension of the Nuclear Waste Fee. In June 2012, the U.S. Court of Appeals for the District of Columbia (D.C. Court) ruled that the DOE failed to justify continued payments by electricity consumers into the Nuclear Waste Fund and ordered the DOE to conduct a complete reassessment of this fee. In January 2013, the DOE completed its assessment and concluded that fee collection should be maintained. On January 31, 2013, motions were filed with the D.C. Court seeking to reopen the case and set a schedule for expedited review of the DOE fee adequacy report. In June 2013, the D.C. Court scheduled oral arguments for September 2013.

SUPPLEMENTAL INDENTURE, dated the 1st day of May 2013 for convenience of reference and effective from the time of execution and delivery hereof, between PUBLIC SERVICE ELECTRIC AND GAS COMPANY, a corporation organized under the laws of the State of New Jersey, hereinafter called the "Company", party of the first part, and U.S. Bank National Association, a national banking association organized under the laws of the United States of America, as successor Trustee to Wachovia Bank, National Association (previously known as Fidelity Union Trust Company) under the indenture dated August 1, 1924, below mentioned, hereinafter called the "Trustee", party of the second part.

WHEREAS, on July 25, 1924, the Company executed and delivered to FIDELITY UNION TRUST COMPANY, a certain indenture dated August 1, 1924 (hereinafter called the "Indenture") to secure and to provide for the issue of First and Refunding Mortgage Gold Bonds of the Company; and

WHEREAS, the Indenture has been recorded in the following counties of the State of New Jersey, in the offices, and therein in the books and at the pages, as follows:

County	Office	Book Number	Page Number
Atlantic	Clerk's	1955 of Mortgages	160

WHEREAS, the Indenture granted, bargained, sold, aliened, remised, released, conveyed, confirmed, assigned, transferred and set over unto the Trustee certain property of the Company, more fully set forth and described in the Indenture, then owned or which might thereafter be acquired by the Company; and

WHEREAS, the Company, by various supplemental indentures, supplemental to the Indenture, the last of which was dated June 1, 2012, has granted, bargained, sold, aliened, remised, released, conveyed, confirmed, assigned, transferred and set over unto the Trustee certain property of the Company acquired by it after the execution and delivery of the Indenture; and

WHEREAS, since the execution and delivery of said supplemental indenture dated May 1, 2012, the Company has acquired property which, in accordance with the provisions of the Indenture, is subject to the lien thereof and the Company desires to confirm such lien; and

WHEREAS, the Indenture has been amended or supplemented from time to time; and

WHEREAS, it is provided in the Indenture that no bonds other than those of the 5-1/2% Series due 1959 therein authorized may be issued thereunder unless a supplemental indenture providing for the issue of such additional bonds shall have been executed and delivered by the Company to the Trustee; and

WHEREAS, the Company is making provisions for the issuance and sale of its Secured Medium-Term Notes, Series I (the "Series I Notes"), to be issued under an Indenture of Trust (the "Note Indenture") dated as of July 1, 1993 between the Company and The Chase Manhattan Bank (National Association) as predecessor trustee (The Bank of New York Mellon, as successor trustee to the predecessor trustee), as Trustee (the "Note Trustee"); and

WHEREAS, such Note Indenture provides, among other things, for the pledge and delivery by the Company of a series of First and Refunding Mortgage Bonds of the Company to evidence the Company's obligation to pay the principal and interest with respect to outstanding Series I Notes; and for such purpose and in order to service and secure payment of the principal and interest in respect of the Series I Notes, the Company desires to provide for the issue of $1,800,000,000 aggregate principal amount of bonds under the Indenture of a series to be designated as "First and Refunding Mortgage Bonds, Medium-Term Notes Series I" (hereinafter sometimes called "Bonds of the Medium-Term Notes Series I"); and

WHEREAS, the text of the Bonds of the Medium-Term Notes Series I and of the certificate of authentication to be borne by the Bonds of the Medium-Term Notes Series I shall be substantially of the following tenor:

(FORM OF BOND)

This Bond is not transferable except as provided in the Indenture and in the Indenture of Trust dated as of July 1, 1993 between the Company and The Chase Manhattan Bank (National Association) (The Bank of New York Mellon, successor trustee) as Trustee.

REGISTERED NUMBER R
REGISTERED AMOUNT
$1,800,000,000

PUBLIC SERVICE ELECTRIC AND GAS COMPANY
FIRST AND REFUNDING MORTGAGE BOND,
MEDIUM-TERM NOTES SERIES I

Public Service Electric and Gas Company (hereinafter called the "Company"), a corporation of the State of New Jersey, for value received, hereby promises to pay to The Bank of New York Mellon as successor trustee to The Chase Manhattan Bank (National Association)), under the Indenture of Trust dated as of July 1, 1993 between the Company and such trustee, or registered assigns, on the surrender hereof, the principal sum of One Billion Eight Hundred Million Dollars, on May 1, 2048, and to pay interest thereon from the date hereof, at the rate of 10% per annum, and until payment of said principal sum, such interest to be payable May 1 and November 1 in each year; provided, however, that the Company shall receive certain credits against such obligations as set forth in the Supplemental Indenture dated May 1, 2013 referred to below.

Both the principal hereof and interest hereon shall be paid at the principal corporate trust office of U.S. Bank National Association in the City of Morristown, State of New Jersey, or (at the option of the registered owner) at the corporate trust office of any paying agent appointed by the Company, in such coin or currency of the United States of America as at the time of payment shall constitute legal tender for the payment of public and private debts; provided, however, that any such payments of principal and interest shall be subject to receipt of certain credits against such payment obligations as set forth in the Supplemental Indenture dated May 1, 2013 referred to below.

This Bond is one of the First and Refunding Mortgage Bonds of the Company issued and to be issued under and pursuant to, and all equally secured by, an indenture of mortgage or deed of trust dated August 1, 1924, as supplemented and amended by supplemental indentures thereto, including the Supplemental Indenture dated May 1, 2013, duly executed by the Company and U.S. Bank National Association as Trustee. This Bond is one of the Bonds of the Medium-Term Notes Series I, which series is limited to the aggregate principal amount of $1,800,000,000 and is issued pursuant to said Supplemental Indenture dated May 1, 2013. Reference is hereby made to said indenture and all supplements thereto for a specification of the principal amount of Bonds from time to time issuable thereunder, and for a description of the properties mortgaged and conveyed or assigned to said Trustee or its successors, the nature and extent of the security, and the rights of the holders of said Bonds and any coupons appurtenant thereto, and of the Trustee in respect of such security.

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

In and by said indenture, as amended and supplemented, it is provided that with the written approval of the Company and the Trustee, any of the provisions of said indenture may from time to time be eliminated or modified and other provisions may be added thereto provided the change does not alter the annual interest rate, redemption price or date, date of maturity or amount payable on maturity of any then outstanding Bond or conflict with the Trust Indenture Act of 1939 as then in effect, and provided the holders of 85% in principal amount of the Bonds secured by said indenture and then outstanding (including, if such change affects the Bonds of one or more series but less than all series then outstanding, a like percentage of the then outstanding Bonds of each series affected by such change, and excluding Bonds owned or controlled by the Company or by the parties owning at least 10% of the outstanding voting stock of the Company, as more fully specified in said indenture) consent in writing thereto, all as more fully set forth in said indenture, as amended and supplemented.

First and Refunding Mortgage Bonds issuable under said indenture are issuable in series, and the Bonds of any series may be for varying principal amounts and in the form of coupon bonds and of registered bonds without coupons, and the Bonds of any one series may differ from the Bonds of any other series as to date, maturity, interest rate and otherwise, all as in said indenture provided and set forth. The Bonds of the Medium-Term Notes Series I, in which this Bond is included, are designated "First and Refunding Mortgage Bonds, Medium-Term Notes Series I".

In case of the happening of an event of default as specified in said indenture and said supplemental indenture dated March 1, 1942, the principal sum of the Bonds of this series may be declared or may become due and payable forthwith, in the manner and with the effect in said indenture provided.

The Bonds of this series are subject to redemption as provided in the Supplemental Indenture dated May 1, 2013.

This Bond is transferable, but only as provided in said indenture and the Indenture of Trust dated as of July 1, 1993 between the Company and The Chase Manhattan Bank (National Association) as predecessor trustee (The Bank of New York Mellon, as successor trustee to the predecessor trustee), as trustee, upon surrender hereof, by the registered owner in person or by attorney duly authorized in writing, at either of said offices where the principal hereof and interest hereon are payable; upon any such transfer a new fully registered Bond similar hereto will be issued to the transferee. This Bond may in like manner be exchanged for one or more new fully registered Bonds of the same series of other authorized denominations but of the same aggregate principal amount. No service charge shall be made for any such transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto. The Company and the Trustee hereunder and any paying agent may deem and treat the person in whose name this Bond is registered as the absolute owner hereof for the purpose of receiving payment of or on account of the principal hereof and the interest hereon and for all other purposes; and neither the Company nor the Trustee hereunder nor any paying agent shall be affected by any notice to the contrary.

The Bonds of this series are issuable only in fully registered form, in any denomination authorized by the Company.

No recourse under or upon any obligation, covenant or agreement contained in said indenture or in any indenture supplemental thereto, or in any Bond issued thereunder, or because of any indebtedness arising thereunder, shall be had against any incorporator, or against any past, present or future stockholder, officer, or director, as such, of the Company or of any successor corporation, either directly or through the Company or any successor corporation, under any rule of law, statute or constitutional provision or by the enforcement of any assessment or by any legal or equitable proceeding or otherwise, it being expressly agreed and understood that said indenture, any indenture supplemental thereto and the obligations issued thereunder, are solely corporate obligations, and that no personal liability whatever shall attach to, or be incurred by, such incorporators, stockholders, officers or directors, as such, of the Company, or of any successor corporation, or any of them, because of the incurring of the indebtedness thereby authorized, or under or by reason of any of the obligations, covenants or agreements contained in the indenture or in any indenture supplemental thereto or in any of the Bonds issued thereunder, or implied therefrom.

WHEREAS, the execution and delivery of this supplemental indenture have been duly authorized by the Board of Directors of the Company; and

WHEREAS, the Company represents that all things necessary to make the bond of the series hereinafter described, when duly authenticated by the Trustee and issued by the Company, a valid, and legal obligation of the Company, and to make this supplemental indenture a valid and binding agreement supplemental to the Indenture, have been done and performed:

NOW, THEREFORE, THIS SUPPLEMENTAL INDENTURE WITNESSETH that the Company, in consideration of the premises and the execution and delivery by the Trustee of this supplemental indenture, and in pursuance of the covenants and agreements contained in the Indenture and for other good and valuable consideration, the receipt of which is hereby acknowledged, has granted, bargained, sold, aliened, remised, released, conveyed, confirmed, assigned, transferred and set over, and by these presents does grant, bargain, sell, alien, remise, release, convey, confirm, assign, transfer and set over unto the Trustee, its successors and assigns, forever, all the right, title and interest of the Company in and to all property of every kind and description (except cash, accounts and bills receivable and all merchandise bought, sold or manufactured for sale in the ordinary course of the Company's business, stocks, bonds or other corporate obligations or securities, other than such as are described in Part V of the Granting Clauses of the Indenture, not acquired with the proceeds of bonds secured by the Indenture, and except as in the Indenture and herein otherwise expressly excluded) acquired by the Company since the execution and delivery of the supplemental indenture dated May 1, 2012, subsequent to the Indenture (except any such property duly released from, or disposed of, free from the lien of the Indenture, in accordance with the provisions thereof) and all such property which at any time hereafter may be acquired by the Company;

All of which property it is intended shall be included in and granted by this supplemental indenture and covered by the lien of the Indenture as heretofore and hereby amended and supplemented;

UNDER AND SUBJECT to any encumbrances or mortgages existing on property acquired by the Company at the time of such acquisition and not heretofore discharged of record; and

SUBJECT also, to the exceptions, reservations and provisions in the Indenture and in this supplemental indenture recited, and to the liens, reservations, exceptions, limitations, conditions and restrictions imposed by or contained in the several deeds, grants, franchises and contracts or other instruments through which the Company acquired or claims title to the aforesaid property; and Subject, also, to the existing leases, to liens on easements or rights of way, to liens for taxes, assessments and governmental charges not in default or the payment of which is deferred, pending appeal or other contest by legal proceedings, pursuant to Section 4 of Article Five of the Indenture, or the payment of which is deferred pending billing, transfer of title or final determination of amount, to easements for alleys, streets, highways, rights of way and railroads that may run across or encroach upon the said property, to joint pole and similar agreements, to undetermined liens and charges, if any, incidental to construction, and other encumbrances permitted by the Indenture as heretofore and hereby amended and supplemented;

TO HAVE AND TO HOLD the property hereby conveyed or assigned, or intended to be conveyed or assigned, unto the Trustee, its successor or successors and assigns, forever;

IN TRUST, NEVERTHELESS, upon the terms, conditions and trusts set forth in the Indenture as heretofore and hereby amended and supplemented, to the end that the said property shall be subject to the lien of the Indenture as heretofore and hereby amended and supplemented, with the same force and effect as though said property had been included in the Granting Clauses of the Indenture at the time of the execution and delivery thereof;

AND THIS SUPPLEMENTAL INDENTURE FURTHER WITNESSETH that for the considerations aforesaid, it is hereby covenanted between the Company and the Trustee as follows:

ARTICLE I.

BONDS OF THE MEDIUM-TERM NOTES SERIES I.

The series of bonds authorized by this supplemental indenture to be issued under and secured by the Indenture shall be designated "First and Refunding Mortgage Bonds, Medium-Term Notes Series I"; shall be limited to the aggregate principal amount of $1,800,000,000; shall be issued initially to the Note Trustee and shall mature and bear interest as set forth in the form of bond set forth herein; provided, however, that the Company shall receive certain credits against principal and interest as set forth in Section 3.01 hereof. The date of each Bond of the Medium-Term Notes Series I shall be the interest payment date next preceding the date of authentication, unless such date of authentication be an interest payment date, in which case the date shall be the date of authentication, or unless such date of authentication be prior to the first semi-annual interest payment date, in which case the date shall be May 1, 2013.

Bonds of the Medium-Term Notes Series I shall be issuable only in the form of fully registered bonds in any denomination authorized by the Company. Interest on the Bonds of the Medium-Term Notes Series I shall be payable semi-annually in arrears on May 1 and November 1 of each year, payable initially on November 1, 2013, subject to receipt of certain credits against principal and interest as set forth in Section 3.01 hereof and shall be payable as to both principal and interest in such coin or currency of the United States of America as at the time of payment shall constitute legal tender for the payment of public and private debts, at the principal corporate trust office of the Trustee, or at the corporate trust office of any paying agent appointed.

Bonds of the Medium-Term Notes Series I shall be transferable and exchangeable, but only as provided in the Indenture and the Note Indenture, upon surrender thereof for cancellation by the registered owner in person or by attorney duly authorized in writing at either of said offices. The Company hereby waives any right to make a charge for any transfer or exchange of Bonds of the Medium-Term Notes Series I, but the Company may require payment of a sum sufficient to cover any tax or any other governmental charge that may be imposed in relation thereto.

ARTICLE II.

REDEMPTION OF BONDS OF MEDIUM-TERM NOTES SERIES I.

SECTION 2.01. *Redemption—Redemption Price*. Bonds of the Medium-Term Notes Series I shall be subject to redemption prior to maturity under the conditions, and upon payment of the amounts as may be specified in the following conditions:

(a) at any time in whole or in part at the option of the Company upon receipt by the Trustee of written certification of the Company and of the Note Trustee that the principal amount of the Series I Notes then outstanding under the Note Indenture is not in excess of such principal amount of the Bonds of the Medium-Term Notes Series I as shall remain pledged to the Note Trustee after giving effect to such redemption; (b) at any time by the application of any proceeds of released property or other money held by the Trustee and which, pursuant to Section 4C of Article Eight of the Indenture, as amended and supplemented, are applied to the redemption of Bonds of the Medium-Term Notes Series I, upon payment of 100% of the principal amount thereof, together with interest accrued to the redemption date, provided that any such payment shall be subject to receipt by the Company of certain credits against such obligations as set forth in Section 3.01 hereof or (c) automatically upon failure to pay the principal of any Series I Notes then outstanding under the Note Indenture when due, on their stated maturity date or earlier redemption or repayment date, in a principal amount of Bonds of the Medium-Term Notes Series I equal to the principal amount of such Series I Notes, in each case, at a price equal to 100% of the principal amount thereof, together with accrued interest, if applicable.

SECTION 2.02. *Redemptions Pursuant to Section 4C of Article Eight of the Indenture*. If, pursuant to Section 4C of Article Eight of the Indenture, as amended and supplemented, any proceeds of released property or other money then held by the Trustee shall be applied to the redemption of the Bonds of the Medium-Term Notes Series I, the Trustee shall give at least 45 days prior written notice of such redemption to the Note

The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

Trustee whereupon on the date fixed for redemption such principal amount thereof as is equal to such proceeds shall be redeemed; provided that no such redemption shall be made unless the Trustee shall be in receipt of a written certification of the Company and the Note Trustee that a like principal amount of Series I Notes shall have been theretofore redeemed in accordance with the provisions of the Note Indenture. For purposes of determining which of the Company's First and Refunding Mortgage Bonds are subject to such mandatory redemption, the Mortgage Trustee shall consider the 10% stated annual interest rate of the Bonds of the Medium-Term Notes Series I, not the weighted average interest rate of outstanding Series I Notes. Bonds of said series so redeemed shall be cancelled.

SECTION 2.03. *Interest on Called Bonds to Cease.* Each Bond of the Medium-Term Notes Series I or portion thereof called for redemption under Section 2.02 hereof shall be due and payable at the office of the Note Trustee, as paying agent hereunder, at its redemption price and on the specified redemption date, anything herein or in such Bond to the contrary notwithstanding. From and after the date when each Bond of the Medium-Term Notes Series I or portion thereof shall be due and payable as aforesaid (unless upon said date the full amount due thereon shall not be held by the Note Trustee, as paying agent hereunder, and be immediately available for payment), all further interest shall cease to accrue on such bond or on such portion thereof, as the case may be.

SECTION 2.04. *Bonds Called in Part.* If only a portion of any Bond of the Medium-Term Notes Series I shall be called for redemption pursuant to Section 2.02 hereof, upon payment of the portion so called for redemption, the Note Trustee shall make an appropriate notation upon the Bond of the principal amount so redeemed.

SECTION 2.05. *Provisions of Indenture Not Applicable*. The provisions of Article Four of the Indenture, as amended and supplemented, shall not apply to the procedure for the exercise of any right of redemption reserved by the Company, or to any mandatory redemption provided, in this Article in respect of the Bonds of the Medium-Term Notes Series I. There shall be no sinking fund for the Bonds of the Medium-Term Notes Series I.

ARTICLE III.

CREDITS WITH RESPECT TO BONDS OF THE MEDIUM-TERM NOTES SERIES I.

SECTION 3.01. *Credits.* In addition to any other credit, payment or satisfaction to which the Company is entitled with respect to the Bonds of the Medium-Term Notes Series I, the Company shall be entitled to credits against amounts otherwise payable in respect of the Bonds of the Medium-Term Notes Series I in an amount corresponding to (i) the principal amount of any of the Company's Series I Notes issued under the Note Indenture surrendered to the Note Trustee by the Company, or purchased by the Note Trustee, for cancellation, (ii) the amount of money held by the Note Trustee and available and designated for the payment of principal or redemption price (exclusive of any premium) of, and/or interest on, the Series I Notes, regardless of the source of payment to the Note Trustee of such moneys and (iii) the amount by which principal of and interest due on the Bonds of the Medium-Term Notes Series I exceeds principal of and interest due on the Series I Notes. The Note Trustee shall make notation on such Bonds authorized hereby of any such credit.

SECTION 3.02. *Certificate of the Company.* A certificate of the Company signed by the President or any Vice President, and attested to by the Secretary or any Assistant Secretary, and consented to by the Note Trustee, stating that the Company is entitled to a credit under Section 3.01 hereof or that Bonds of the Medium-Term Notes Series I have been cancelled, and setting forth the basis therefor in reasonable detail, shall be conclusive evidence of such entitlement, and the Trustee shall accept such certificate as such evidence without further investigation or verification of the matters stated therein.

ARTICLE IV.

MISCELLANEOUS.

Source: PUBLIC SERVICE ELECTRIC & GAS CO, 10-Q, July 30, 2013 Powered by Morningstar® Document Research℠
The information contained herein may not be copied, adapted or distributed and is not warranted to be accurate, complete or timely. The user assumes all risks for any damages or losses arising from any use of this information, except to the extent such damages or losses cannot be limited or excluded by applicable law. Past financial performance is no guarantee of future results.

SECTION 4.01. *Authentication of Bonds of Medium-Term Notes Series I.* None of the Bonds of the Medium-Term Notes Series I, the issue of which is provided for by this supplemental indenture, shall be authenticated by or on behalf of the Trustee except in accordance with the provisions of the Indenture, as amended and supplemented, and this supplemental indenture, and upon compliance with the conditions in that behalf therein contained.

SECTION 4.02. *Additional Restrictions on Authentication of Additional Bonds Under Indenture.* The Company covenants that from and after the date of execution of this supplemental indenture no additional bonds (as defined in Section 1 of Article Two of the Indenture) shall be authenticated and delivered by the Trustee under Subdivision A of Section 4 of said Article Two on account of additions or improvements to the mortgaged property;

(1) unless the net earnings of the Company for the period required by Subdivision C of Section 6 of said Article Two shall have been at least twice the fixed charges (in lieu of 1-3/4 times such fixed charges, as required by said Subdivision C); and for the purpose of this condition (a) such fixed charges shall in each case include interest on the bonds applied for, notwithstanding the parenthetical provision contained in clause (4) of said Subdivision C, and (b) in computing such net earnings there shall be included in expenses of operation (under paragraph (c) of said Subdivision C) all charges against earnings for depreciation, renewals or replacements, and all certificates with respect to net earnings delivered to the Trustee in connection with any authentication of additional bonds under said Article Two shall so state; and (2) except to the extent of 60% (in lieu of 75% as permitted by Subdivision A of Section 7 of said Article Two) of the cost or fair value to the Company of the additions or improvements forming the basis for such authentication of additional bonds.

SECTION 4.03. *Restriction on Dividends.* The Company will not declare or pay any dividend on any shares of its common stock (other than dividends payable in shares of its common stock) or make any other distribution on any such shares, or purchase or otherwise acquire any such shares (except shares acquired without cost to the Company) whenever such action would reduce the earned surplus of the Company to an amount less than $10,000,000 or such lesser amount as may remain after deducting from said $10,000,000 all amounts appearing in the books of account of the Company on December 31, 1948, which shall thereafter, pursuant to any order or rule of any regulatory body entered after said date, be required to be removed, in whole or in part, from the books of account of the Company by charges to earned surplus.

SECTION 4.04. *Use of Facsimile Seal and Signatures.* The seal of the Company and any or all signatures of the officers of the Company upon any of the Bonds of the Medium-Term Notes Series I may be facsimiles.

SECTION 4.05. *Time for Making of Payment.* All payments of principal or redemption price of, and interest on, the Bonds of the Medium-Term Notes Series I shall be made either prior to the due date thereof or on the due date thereof in immediately available funds. In any case where the date of any such payment shall be a Saturday or Sunday or a legal holiday or a day on which banking institutions in the city of payment are authorized by law to close, then such payment need not be made on such date but may be made on the next succeeding business day with the same force and effect as if made on the due date, and no interest on such payment shall accrue for the period after such date.

SECTION 4.06. *Effective Period of Supplemental Indenture.* The preceding provisions of Articles I, II and III of this supplemental indenture shall remain in effect only so long as any of the Bonds of the Medium-Term Notes Series I shall remain outstanding.

SECTION 4.07. *Effect of Approval of Board of Public Utilities of the State of New Jersey.* The approval of the Board of Public Utilities of the State of New Jersey of the execution and delivery of these presents and of the issue of any Bond of the Medium-Term Notes Series I shall not be construed as approval of said Board of any other act, matter or thing which requires approval of said Board under the laws of the State of New Jersey.

SECTION 4.08. *Execution in Counterparts.* For the purpose of facilitating the recording hereof, this supplemental indenture has been executed in several counterparts, each of which shall be and shall be taken to be an original, and all collectively but one instrument.

EXHIBIT 12

PUBLIC SERVICE ENTERPRISE GROUP INCORPORATED
COMPUTATION OF RATIOS OF EARNINGS TO FIXED CHARGES

	Six Months Ended June 30,		Years Ended December 31,				
	2013	2012	2012	2011	2010	2009	2008
	(Millions, except ratios)						
Earnings as Defined in Regulation S-K (A):							
Pre-tax Income from Continuing Operations	$ 1,091	$ 1,062	$ 2,011	$ 2,384	$ 2,616	$ 2,636	$ 1,806
(Income) Loss from Equity Investees, net of Distributions	(2)	4	9	(4)	(19)	(25)	(5)
Fixed Charges	230	234	479	522	571	600	633
Capitalized Interest	(7)	(12)	(19)	(14)	(67)	(45)	(37)
Preferred Securities Dividend Requirements of Subsidiaries	—	—	—	—	(2)	(6)	(6)
Total Earnings	$ 1,312	$ 1,288	$ 2,480	$ 2,888	$ 3,099	$ 3,160	$ 2,391
Fixed Charges as Defined in Regulation S-K (B)							
Interest Expense	$ 222	$ 227	$ 465	$ 509	$ 555	$ 581	$ 615
Interest Factor in Rentals	8	7	14	13	14	13	12
Preferred Securities Dividend Requirements of Subsidiaries	—	—	—	—	2	6	6
Total Fixed Charges	$ 230	$ 234	$ 479	$ 522	$ 571	$ 600	$ 633
Ratio of Earnings to Fixed Charges	5.70	5.50	5.18	5.53	5.43	5.27	3.78

(A) The term "earnings" shall be defined as pre-tax Income from Continuing Operations before income or loss from equity investees plus distributed income from equity investees. Add to pre-tax income the amount of fixed charges adjusted to exclude (a) the amount of any interest capitalized during the period and (b) the actual amount of any preferred securities dividend requirements of majority-owned subsidiaries stated on a pre-tax level.

(B) Fixed Charges represent (a) interest, whether expensed or capitalized, (b) amortization of debt discount, premium and expense, (c) an estimate of interest implicit in rentals and (d) preferred securities dividend requirements of majority-owned subsidiaries stated on a pre-tax level.

EXHIBIT 31

Certification Pursuant to Rules 13a-14 and 15d-14
of the 1934 Securities Exchange Act

I, Ralph Izzo, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Public Service Enterprise Group Incorporated;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
